...In comparing the returns made to the Government by the banks on 30th April, 1911, with the returns for the same day in 1910, I find that the paid-up capital of all the banks has grown during the year from $97,000,000 to $100,000,000; reserves from $75,000,000 to $85,000,000; circulation from $76,000,000 to $83,000,000; public deposits, $768,000,000 to $837,000,000. Total liabilities have grown from $993,000,000 to $1,046,000,000. Amongst the assets, loans in foreign countries have come down from $161,000,000 in 1910 to $118,000,000 in 1911. Bear in mind, as regards this last item that it is an error to suppose that these loans are placed abroad for the purpose of earning a higher rate of interest than can be obtained at home. As a matter of fact, they earn less, but they form a part of the necessary cash reserves of the banks, are loaned on readily marketable securities on sharp call at low rates of interest, and are quickly realizable. The total of these reserves is not excessive when total liabilities of $1,046,000,000, the greater part of which is payable on demand, are taken into account. Moreover such loans include the investment of foreign deposits held by the banks having agencies outside of this country amounting to no less than $69,000,000, so that the net loans of Canadian funds by Canadian banks elsewhere than in Canada do not amount in all to more than $47,000,000.

The Bank Premises Account of all the banks has grown from $22,400,000 to $27,000,000. This is not a large amount, when it is borne in mind that the total number of branches over Canada has grown from 2,276 in 1910 to 2,435 in 1911. The total assets of all the banks have grown from $1,163,000,000 in 1910 to $1,247,000,000 in 1911. The Current loans which represent manufacturing, agricultural, lumbering, mining and all mercantile business have grown from $645,000,000 to $719,000,000, so that acting aside an indispensable amount by way of cash reserves against deposits and circulation it may truthfully be said that the whole amount owing by the banks of Canada to the public of Canada is loaned back again to the public of Canada by the banks of Canada.

CROP RESULTS AND PROSPECTS.

As regards the "crops" my latest information is to the effect that the acreage under crop in the three Prairie Provinces is 16,000,000 acres, as against 14,650,000 acres in 1910. The total yield of agricultural products in these three Provinces in 1910 was valued at $145,000,000, a falling off from 1909 of no less than $47,000,000, the result of drought and heat, although the acreage had increased by 1,667,300 acres. The total area of field crops grown in all Canada in 1910 was 32,711,092 acres, and the value $597,165,000, as compared with 30,005,500 acres and $532,992,000 in 1909. We are glad to know that the condition of the crops at the present moment is in every respect first-class. There has been an abundance of moisture, and there is a sound of gladness throughout the land. The average yield of wheat per acre in the Western Provinces over the past ten years has been 19 bushels, but in 1910 it was only 15 bushels.

Our reports regarding manufacturing interests are uniformly satisfactory. We have reports from one hundred different points, and in not one instance is there a complaint. Everywhere prosperity reigns.

POPULATION.

There has been a steady emigration to Canada for several years past, and I am informed that the present year is to add several hundreds of thousands of the most desirable settlers to our population. For the year ending 31st March there were no less than 311,004 new arrivals, compared with 208,794 up to the same date in 1910. The character and desirableness of the new citizens is guaranteed by the fact that all have undergone inspection and have complied with emigration laws. No less than 123,115 of the new arrivals came from British Isles and 121,451 from the United States. British Columbia has benefitted from these new arrivals to the extent of 54,626, Alberta by 44,782, Saskatchewan by 40,160, and Manitoba by 34,653. The total population of Manitoba is now 540,000; Saskatchewan and Alberta have 800,000. Although we look upon and have a right to think of our Prairie Provinces as an integral part of ourselves, we must bear in mind that it will not be long before their interests and ambitions may lead them to look somewhat askance at the present dominating influence of the eastern Provinces. In the meantime the older Provinces are contributing of their best blood and bone to the Prairie country. The population of some of the older Provinces is at a standstill; none are increasing in the same proportion as the Western Provinces. The tendency is Westward. Of 1,269 branches in all Canada of the nine leading banks doing business in the West, 616 are in the west, as against 653 in the East.

RAILWAY CONSTRUCTION.

It must be born in mind that the prosperity of the country at the moment is largely due to the enormous expenditures of money borrowed from abroad for railway construction. At the present moment there are no less than 1,661 miles of railway actually under construction, and no less than 10,000 men employed in the work, in addition to which a further mileage of about 3,000 will shortly be under way. The work entails enormous expenditures in the purchase of the natural products of the country, ties, lumber, oats, butter, hay, beef, pork, etc., besides giving help to many new settlers, who, by obtaining temporary employment on the work under [illegible] the early months of settlement, and to make a fair start amongst new and untried surroundings.

MINING.

We are told by Cobalt authorities that the silver production of that camp during 1910 realized $14,500,000 (as against a total output in the Yukon of $4,126,727.00 for the same period), and that the total production since the discovery of the mines is valued at $47,340,896, more than 50 per cent., perhaps 60 per cent., of which has been paid out in dividends to shareholders. Cobalt produces 13 per cent. of the total silver production of the world, and apparently there are better things to come, as the industry is now being helped by the introduction of electric and compressed air power. Fortunately, also, the market price of silver is advancing. Porcupine is somewhat of an unknown quantity, but there is great promise of enormous yields of free milling gold ore. It is gratifying to know that the great belts of fertile land which are even further north than Cobalt and Porcupine are being taken up by a desirable class of settlers. In one district alone not many miles from Cobalt there are over 2,000 farmers who are apparently satisfied with their conditions, and who will have a home market, the best market, for everything they produce. But what the north country needs very badly are good waggon roads. These are of almost greater importance to the agriculturist than additional railway facilities and can be furnished much more economically.

COMMERCE.

The total exports of merchandise and agricultural products during 1910 amounted to $274,000,000, as against total imports of $451,000,000. There is no difficulty in finding out where the $177,000,000 came from.

Our loans abroad were considerably more than $200,000,000. Our exports of agricultural and forest products fell off during the year in value by $10,000,000, but our exports of the mine increased from $40,000,000 to $43,000,000, and of manufactured goods from $31,500,000 to $35,300,000. Our imports of merchandise for 1910 exceeded those of 1909 by $81,000,000.

The success and wealth which have followed upon the expenditure of immense sums of borrowed money, of money made in honest toil and in real estate, has introduced a period of extravagance by way of personal expenditure that is unparalleled in the history of the country, and may yet occasion disaster to many. It is true, however, that business failures are few. Luxuries of every description, motor cars and foreign travel, are now indulged in by thousands who were satisfied a few years ago with short trips by land or water to local points of interest.

I beg to move to adoption of the report.

The customary motions were made and carried unanimously.

The scrutineers appointed at the meeting reported the following Shareholders duly elected Directors for the ensuing year: Messrs. D. R. Wilkie, Hon. Robert Jaffray, Wm. Ramsay of Bowland, Stow, Scotland, Elias Rogers, J. Kerr Osborne, Peleg Howland, Wm. White (Winnipeg), Cawthra Mulock, Hon. Richard Turner (Quebec), Wm. Hamilton Merritt, M.D. (St. Catharines), W. J. Gage.

At a subsequent meeting of the Directors Mr. D. R. Wilkie was re-elected President, and the Hon. Robert Jaffray Vice-President, for the ensuing year.

This Investment Stands in Striking Contrast To All Forms of Speculation

FIRE VALLEY ORCHARDS LIMITED

The Directors of the Fire Valley Orchards offer for public subscription a limited amount of stock at the par value of $1.00 each, payable on easy terms.

The security behind this stock consists of 2,840 acres of the finest of British Columbia Fruit Lands bought at 1-3 of its present value

We offer you an unusual opportunity to join in a safe, sound and sane enterprise with real merit behind it.

Write and get a copy of our prospectus which explains how you can make 300 per cent on your money

We want a responsible Agent to act for us. - - - Write at once

NOTICE

Sealed Tenders endorsed "Tender" will be received by the undersigned up to two o'clock p.m.

JUNE THE FIRST, 1911

for the following:—

Scrape and remove all old paint and rust, etc., and repaint the Locks Bridge, on the boundary between the city and North Monaghan. The county will supply material (paint and oil). All work to be done properly and securities for the proper carrying out and completion of work, to the satisfaction of W. G. Howden, Chairman of the Roads and Bridges Committee.

The lowest or any tender not necessarily accepted.

A marked check for $25.00 must accompany each tender as a guarantee for the proper execution of contract.

ED. M. ELLIOTT,
County Clerk.
Peterborough, May 22nd, 1911.

TO BUILDERS, STEAM HEATERS AND PLUMPERS

-: TENDERS MARKED :-

"TENDER FOR SCHOOL IMPROVEMENTS"

will be received by the Peterborough Board of Education up to

Monday 5 p.m., June 5th

for the following works.

1st—For completing the 3rd Storey of the King Edward School.

2nd—For completing the present System of Steam Heating in the King Edward School.

3rd—A new System of Steam Heating and Plumbing in the old School, formerly used as a Collegiate Institute.

Plans and Specifications can be seen at the office of Wm. Blackwell, Architect, Water Street.

Tenders to be addressed to G. M. Thompson, Secretary Peterborough Board of Education.

The lowest or any Tender not necessarily accepted.

of estates when there is no will or when the appointed executors decline to act.

CORRESPONDENCE INVITED

TORONTO OTTAWA WINNIPEG SASKATOON

MUNICIPALITY OF NORTH MONAGHAN

COURT OF REVISION

Notice is hereby given that the first sitting of the Court of Revision for the Township of North Monaghan, will be held in the Town Hall, on Monday, the 5th day of June, 1911, at two o'clock in the afternoon.

Those interested are asked to attend.

O. W. BENNETT,
Township Clerk.
North Monaghan, May 20, 1911.

ADVERTISE IN THE TIMES.

A GREAT FUTURE FOR NEW ONTARIO

Not Alone in Agriculture, But in Minerals and Pulp, There are Vast Opportunities for Wealth

A mass of information regarding New Ontario was given to the members of the Toronto Board of Trade by Mr. J. L. Englehart, Chairman of the Temiscaming & Northern Ontario Railway Commission. He opened his address by exhibiting a little bottle of wheat. "This is some of the No. 1 northland wheat," he said, "which is equal to the Manitoba No. 1 hard. It has been analysed and found so."

The agricultural development of the country he regarded as the most important. It was right, he said, that consideration should be given to the minerals and that an outlet should be sought from Ontario by the Hudson Bay; but it was important that the people should not seek the shadow and leave the substance behind. The agricultural development of the country was the only safe foundation on which to build. From an agricultural standpoint alone the land of northern Ontario was richer than the west. Its soil had for ages been protected by nature with great forests, and would yield greater returns than the land of the west. Where in the west work was provided for only six or seven months in the year, in New Ontario there was work for the whole year round. The soil of the great clay belt was equalled no where else in the world. Over forty cars of agricultural implements of every class have already gone into that country.

Mr. Englehart then spoke of the fairs in the northern towns that in the last few years had exhibited timothy that was over sixty inches in length, and clover of seventeen inches. These grasses, including alfalfa, had been self-seeded and were natural to the soil. These exhibits, and also the exhibits of roots, especially potatoes, would warrant the statement that Temiskaming could not but be all it was said to be.

Rediscovering the Land

There were now fourteen Government assistants at work at different points in Northern Ontario, who were "rediscovering" the land and its possibilities. At present most of the seed for the crops of that country were obtained from outside the Province, seventy-five per cent. of the seed potatoes coming from the Maritime Provinces. The time was coming soon, however, when all the seed would be produced right in the district. The oats and wheat grown there were clean and hard and handy.

"These are facts," Mr. Englehart said, "which are at your very door. Is it not your duty to assist in building up that country?" The speaker said that he had received a great deal of correspondence from people who had settled in the West, asking about New Ontario, with the object of returning to their native Province. "We want to hold our people of Ontario in our own back yard."

Taking the various sections of the new country separately, Mr. Englehart dealt in detail with the great and varied resources of each. From North Bay to Temagami was the great Temagami forest reserve, fifty miles in length, which was a great asset. The country was also abounding in iron ores. From Temagami to Latchford the Gowganda district was passed; the Montreal River provided transportation by water for six or seven months of the year. Speaking of the Cobalt district, which had yielded so much wealth, he said that many people had lost money in it, but that was due to the wild-cat schemes of promoters, and was no reflection on the country. "It behooves a man," he said, "to know the company he is in."

Great Clay Belt

At Haileybury the great clay belt was entered. Clay soil, he said, retained its richness the longest of any. The clay soil of this belt was as much superior to that of other parts of the Province as clay was to other soil. That fact had been demonstrated and proven. Although there were frosts in nearly every month of the year, this did not prevent the land from yielding beautifully. Proceeding farther north, the Larder Lake district was penetrated. Although a region of low-grade ores it had great possibilities. Around Matheson and Monteith copper and gold abounded, and there were great opportunities for the pulp industry. In Porcupine, the latest gold-mining camp, which it was prophesied would be equal to the Rand, the prospect was equally bright for agricultural and timber industries.

Although the country from Cochrane to James Bay was not so well known, it was a land that was limitless in its possibilities. It was known to contain minerals. In spite of the fact that many rivers were filling up James Bay and that it was continually becoming shallower, Mr. Englehart was confident that this bay could be made the back door to the Province.

TRAINING CAMP AT GODERICH

The Dominion Government has decided to procure the Attrill estate as a permanent militia training camp at Goderich.

BOYS FOR BISLEY

The Dominion Government is sending twelve boys to England next month to take part in the competitions at Bisley.

THE FINES OF THE FAMOUS

"I say, old fellow, you've struck 'em with that last novel of yours!" exclaimed an unsuccessful author to a friend who had acquired fame. "Why, only this afternoon a friend of mine asked me to secure your autograph for him!"

"All right, Tom—glad to oblige him! Who is it?"

"Laverock, the money-lender. He wants it on the back of my promissory note!"

Mill Changes Hands.

The Central Milling Company's property, near the C.P.R. station, has changed hands, the purchasers being the Campbell Milling Company, of Toronto. The new owners will operate the mill to the fullest capacity. The stockholders will get about 10 cents on the dollar.

J. M. Howell, a popular druggist of Greensburg, Ky., says, "We use Chamberlain's Cough Remedy in our own household and know it is excellent." For sale by all dealers.

ADVERTISE IN THE TIMES.

WEYBURN IMPROVEMENTS

Municipal Power and Water Plants Have Been Installed

The new municipal power plant at Weyburn, Sask., is one of the most complete and up-to-date in Canada. It has been built to supply not only present needs but every provision has been made for enlargement as the town grows and the demand for light and power increases. The new plant will develop electricity for power and lighting, and operate the pumps in connection with the waterworks system and sewer systems. The power house is located close to the Souris river, from which an ample supply of water is secured and is served with a spur track where fuel from the mines south on the Soo line can be cheaply and advantageously handled. The most modern of engineering practice prevails throughout.

The water pumping machinery at the wells, a mile west of town, which is operated from the power house, has been installed an an ample supply of the purest of water is now available, and from the standpipe, the base of which is above the highest building, will give sufficient pressure to assure good protection.

SUPPLY OF ASBESTOS

Eighty-Two Per Cent. of the World's Output is from Canada

Canada produces 82 per cent. of the world's supply of asbestos. The companies operating asbestos quarries and factories in the Dominion are capitalized at $24,290,000. In 1880 only 240 tons of asbestos were produced, valued at $24,700; whereas in 1909 the production amounted to 63,300 tons, valued at $2,300,000. In 1900 3,000 men were employed in the asbestos industry and received wages amounting to $1,350,000. These facts and much valuable technical information of practical value to the general public are contained in the report. To give an idea of the enormous reserves in some of the asbestos deposits, the report mentions the case of one, the Black Lak quarries, Quebec, where there are some 45,000,000 tons of asbestos rock in sight. The author goes fully into the discussion of foreign asbestos and considers Russia the only real rival as regards extent of asbestos resources.

STOCK FROM THE STATES

During the year ending March 31st, 1911, 32,853 head of live stock entered Canada from the United States. Of this number 13,853 were horses.

ALGOMA BOOMING

Lake Superior Steel Corporation is Making Progress

Mr. T. J. Drummond, president of the Lake Superior Steel Corporation, has expressed the opinion that the Lake Superior plant is destined to enjoy a very active career, and he reports that the huge extensions and improvements to the works in all departments are being rushed to completion while the plant at present is operating at full capacity.

Work is also progressing steadily, according to Mr. Drummond, on the extension of the Algoma Central Railway from the "Soo" to the main line of the Canadian Pacific Railway. The Helen, Magpie, and Josephine iron mines will thus be connected up both with the Canadian Pacific Railway and with the furnaces of the corporation at Sault Ste. Marie. About one thousand men are employed on the work, and notwithstanding the wintry weather the reports from the various districts are excellent.

The Algoma Central will open up a large section of new country rich in mineral, especially in iron ore, and tens of thousands of acres of pulpwood, besides pine, birth, and maple lands will be thrown open to cultivation and manufacturing purposes.

NOTICE TO CONTRACTORS.
TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope 'Tender for Station Buildings,' will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.

Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.

Section 3.—From Mile 5 to Mile 105 east of Quebec bridge.

Section 4.—From the Quebec bridge westward to Mile 45.

Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.

Section 6.—At Cochrane in the Province of Ontario.

Section 7.—From the divisional yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.

Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.

Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario.

Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa, this 12th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realizing handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK

429 Pender St., W., Vancouver, B.C. Phone 871

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $200 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of if is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some idea about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

HARRY PHELAN,

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Game Called Off.

The Peterborough Midland Baseball team, which had arranged for an exhibition game with St. Michael's of Toronto, to be played here to-day, has received word that the game is to be cancelled.

House Destroyed by Fire.

The house owned and occupied by Mr. Felix Lynch, and situated just across the Lock Bridge, in Otonabee, was destroyed by fire early yesterday morning, the family having barely time to escape. The origin of the fire is a complete mystery to Mr. Lynch, who is completely at a loss to account for the blaze. The building and contents were insured.

The 57th Regiment Trip.

Arrangements have been completed for the proposed visit of the 57th Regiment to Brockville on Dominion Day. The Regiment will leave on the evening of Friday, June 30th and will spend Saturday, July 1st, and Sunday, July 2nd, in Brockville, returning early Monday morning. Majors Bennett and Clegg, and Capt. McLean were in Brockville this week, where they were given a hearty reception, and where final arrangements were made.

Destroy the Caterpillars.

As there is likely to be a plague of caterpillars this season, The Times would strongly urge the Council to have the nests destroyed that are to be found in the shade trees along the streets. There is hardly a tree that has not one or more of these nests, from which thousands of worms are just now emerging. Unless immediate action is taken it will be too late, for the nests will have been vacated and the worms scattered over the branches of the trees, where much damage will be done. Some years ago we had a similar experience, and the Council at that time extermmated the nests. It is not fair to ask the ratepayers to look after the street shade trees. A dozen or more men should be put to work at once to-day and destroy these nests.

FEED YOU MONEY,

Feed Your Brain, and it Will Feed You Money and Fame.

"Ever since boyhood I have been especially fond of meats, and I am convinced I ate too rapidly, and failed to masticate my food properly.

"The result was that I found myself, a few years ago, afflicted with ailments of stomach, and kidneys, which interfered seriously with my business.

"At last I took the advice of friends and began to eat Grape-Nuts instead of the heavy meats, etc., that had constituted my former diet.

"I found that I was at once benefitted by the change that I was soon relieved from the heartburn and indigestion that used to follow my meals, that the pains in my back from my kidney affection had ceased.

"My nerves, which used to be unsteady, and my brain, which was slow and lethargic from a heavy diet of meats and greasy foods, had, not in a moment, but gradually, and none the less surely, been restored to normal efficiency.

"Now every nerve is steady and my brain and thinking faculties are quicker and more acute than for years past.

"After my old style breakfasts I used to suffer during the forenoon from a feeling of weakness which hindered me seriously in my work, but since I began to use Grape-Nuts food I can work till dinner-time with ease and comfort." Name given by Postum Co., Battle Creek, Mich.

Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

LITTLE LOCAL LINES

Victoria Park band stand is to be painted at a cost of $30.

Destroy the caterpillars before they destroy the beautiful shade trees.

The coal for next winter has been put into the Public Library building.

A drunk at the Police Court yesterday contributed the usual $2 to the city exchequer.

What is our Coronation Committee doing? Are we to have a celebration or are we not? This is the question that was put to The Times yesterday.

There was a well attended meeting of No. 3 troop of Boy Scouts last night at the Armouries, when important business was transacted.

There will be an important meeting of the members of No. 1 troop, Peterborough Boy Scouts at the Armouries at 7.30 o'clock to-night. A full attendance is expected. W. J. Neale, Scoutmaster.

It is worse than useless to take any medicine internally for muscular or chronic rheumatism. All that is needed is a free application of Chamberlain's Liniment. For sale by all dealers.

Mr. Daniel McNamee, McDonnell street, wishes to express his sincere thanks for the many kindnesses extended to him in the death of his brother, Percy McNamee.

EMINENT TORONTO PHYSICIANS.

Failed to Cure Rheumatism.

Miss Flora Chapman Vividly Describes Her Sufferings and Ultimate Cure with "Nerviline."

"After being an enthusiastic user of Nerviline for years, I feel it my duty to tell you personally what your wonderful preparation has done for me.

"I suffered torture from rheumatism and heart trouble, tried scores of so-called remedies, consulted for weeks and months with Toronto's most eminent physicians, but derived only slight benefit.

"A friend insisted on my using Nerviline, and to my surprise a vigorous rubbing of this powerful liniment eased the pains and reduced the stiffness in my joints. I continued to use Nerviline and was permanently cured. I am now perfectly well, and for three years have had no rheumatism at all. I know many families where no other medicine but Nerviline is kept—it is so useful in minor ailments like earache, toothache, neuralgia, coughs, colds, lumbago and sciatica. I call Nerviline my "Life Guard," and urge all to try its merit."

CURED 3 YEARS.

Dec. 17th, 113 Palmerston Avenue, Toronto.

Refuse anything else offered instead of Nerviline, 25c per bottle, five for $1.00. All dealers, or The Catarrhozone Co., Kingston, Ont.

Take Hall's Family Pills for Constipation.

OBITUARY

Mrs. T. H. G. Denne.

With awful suddenness the death of Mrs. T. H. G. Denne took place yesterday morning, at the family residence, "Maplehurst," Park street. Mrs. Denne was apparently in her usual state of health, and had seated herself at breakfast about 9.30 with her two daughters. She arose from the table for a moment, and had hardly resumed her seat when she collapsed, expiring at once. She had not been very well for some time, but was not regarded as being in a serious condition. She had been out driving with Mr. Denne the previous evening, and appeared to be buoyant and fairly well. She had made an engagement to meet a party of friends this evening at her home.

The news of her demise came with a terrible shock to her many friends in the city and country, for she was deservedly popular with all classes. Amongst her more intimate friends, she was greatly beloved, and her demise will be sincerely mourned.

Mrs. Denne was a native of this city, having been born in Peterborough 43 years ago. She was the third daughter of Mr. and Mrs. J. I. Davidson, and leaves to mourn her death, a husband and three daughters Miss Lexie, Marion and Phillis, as well as a devoted father and mother and several brothers and sisters. She was a dutiful and faithful wife and a loving and exemplary mother. It is needless to say the bereaved family have the sincere and heartfelt sympathy of the entire community in their great and irreparable sorrow.

Clara Hilda Houlihan

There died on Thursday morning, at 10.30, Clara Hilda Houlihan, aged 2 years, the child of Mr. and Mrs. James Houlihan, of 35 Parnell street. The funeral took place yesterday afternoon to St. Peter's cemetery.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mr. A. McCormick, of Winnipeg, is visiting his brother-in-law, Mr. R. J. McWilliams, 273 Park street.

Mrs. A. M. Fletcher, of McCloud, Cal., is the guest of her sister, Mrs. Wm. Bell, River Road, Auburn.

Mr. R. M. Hamilton, manager of the Bank of Montreal, Fenelon Falls, is spending a few days in the city, the guest of his mother, Mrs. (Hon.) R. Hamilton.

Mr. M. W. Brandon and his son, Master Jack, of Fenelon Falls, who have been visiting Mr. Brandon's sister, Mrs. W. H. Robertson, returned home yesterday.

POSITIVELY LAST WEEK.

The Auction Sale of Japanese Art Goods at China Hall, 394 George Street, will be wound up this week. Everything is unpacked and beautifully displayed with Oriental Art and Hand-Painted Japanese China of all kinds. They are willing to sacrifice the entire stock at any price during this week to avoid packing the balance of the stock. This is the rarest opportunity to the citizens to have the real hand painted China at bargain prices. The sale commences at 8 and 8 P. M.

JUDICIAL NOTICE

TO THE CREDITORS OF

THE CENTRAL MILLING CO.

OF PETERBOROUGH, LIMITED.

PURSUANT to the Winding-up Order made by the High Court of Justice in the matter of the Ontario companies Act and Amendments thereto, and in the matter of the Central Milling Company of Peterborough, Limited, bearing date the fourth day of May, 1911.

The Creditors of the above named Company and all others who have claims against the said Company formerly carrying on business in the City of Peterborough, in the County of Peterborough, are on or before the 15th day of June, 1911, to send by post, prepaid to W. R. Morris, Liquidator, of the said Company, at his office, 375 Water Street, Peterborough, their Christian and Surnames, addresses and descriptions, the full particulars of their claims and the nature and amount of the securities (if any) held by them and the specified value of such securities verified by oath and in default thereof they will be excluded from the benefits of the said Act and Winding-up Order.

The undersigned Master at Peterborough, of the High Court of Justice will on the 16th day of June, 1911, at eleven o'clock, in the forenoon, at His Chambers in the Court House, in the City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice and let all parties then attend.

Dated this 16th day of May, 1911.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards. Easy payments, 10 per cent. cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

HOUSE STRUCK BY LIGHTNING ON SUNDAY AFTERNOON

On Sunday afternoon lightning struck a house on Parnell street, tearing assunder a corner of the house and demolishing the chimney. The storm did not last long, but was accompanied by a heavy wind storm which did considerable damage to trees and some of the awnings in front of some of the stores which were left down Saturday evening. The plate glass window in Clarke and Sons jewellry store on George street was broken by the wind.

CHURCH LEAGUE.
St. John's vs. Knox Church.

St. John's were again victorious on Saturday afternoon when they defeated Knox Church by 5 goals to 1. Knox played well but St. John's were too strong for them. At half time the game stood at one goal each, but on resumption of play St. John's soon scored and after a hard fought game won by a splendid margin.
Mr. Ratton referee.
The line-up for St. John's was as follows:
Goal—Renshaw.
Backs—Gregory and T. Rensgaw.
Half-backs—Smith, Simmonite (c), Brown.
Forwards—Sharman, Dawes, Copson, Gaskell and Mathers.

St. James' defeated Park Street on Saturday afternoon, and the Saints defeated the Y.M.C.A.
The C.G.E. defeated Havelock on Saturday afternoon in a Midland League game by 1 to 0.

LICENSE COMMISSION MET TO CONSIDER THE TRANSFER OF LICENSE OF PALACE HOTEL

The License Commissioners met on Saturday night in Inspector Stewarts office, to consider the transfer of the license of the Palace Hotel, Mr. I. Eastwood, proprietor, to Mr. Frederick Blastorah. It was moved and carried that the transfer be made, subject to the approval of the Inspector. Mr. Blastorah will take possession to-day.

Not a General Holiday.

Although Saturday, June 3rd, the birthday of His Majesty King George V., has been proclaimed a public holiday, it will not be observed as such in Peterborough, and the stores, factories, etc., will be open the same as usual. Market will be held on Saturday and the day, as far as the general public is concerned, will be no different than any other Saturday throughout the year, although flags will be flown on the public buildings.

Indian a Drunk.

An Indian, named Jas. Trebilcock, from Rosseneath, was up before Police Magistrate Dumble on Saturday, on a charge of being drunk. He said he got his liquor at North Bay, where he had been working in the lumber camps. He had $36 when he left for home, but had got rid of $25 of the amount. He was allowed to go, as he wanted to get to Rosseneath by the steamer Rainbow.

Dr. Middleton New Treasurer.

At a meeting of the Trustee Board held last night at the Mark street Methodist Church, Mr. John Spear, treasurer, resigned, and Dr. Middleton was appointed in his stead, who will be assisted by the Finance Committee. The Rev. Coon attends the Conference to-day.

Angling Club Excursion.

The annual excursion of the C.G.E. Angling Club will take place on Saturday, June 10th, to Rice Lake. This trip is always one of the most enjoyable of the season. The popular excursion steamer Stoney Lake has been engaged for the occasion. This in itself is a guarantee that everything will be first class, as this is a boat that never disappoints.

A Fine Warehouse.

Mr. Charles Rishor, the well-known wholesale grocer, has taken out a permit for a new warehouse, which he is now erecting. The building will be modern, and will, in addition to warehouse quarters, contain comfortable and commodious business offices. Mr. Rishor's business has grown during the past couple of years to such an extent that more room is absolutely necessary. In his new premises, which adjoins the G.T.R. tracks, he will have railway siding, which will be a great convenience, as it will save alot of teaming.

Mr. Gillespie's Enterprise.

Mr. A. G. Gillespie is making extensive improvements to the Peterborough Creamery, on Aylmer street. A two-storey brick building is being constructed in which is installed the boiler and ice cream machinery, including an Emery Thompson ice cream freezer, capable of making ten gallons of ice cream in 10 minutes. An ice storage room 25 x 33 x 30 feet high in which is stored 500 tons of ice. This room is fitted up with insulated walls. This permits the ice to be left uncovered all the time. An ice crusher is installed in the ice room. The whole concern is up-to-date and will enable Mr. Gillespie to manufacture delicious ice cream wholesale, which is a great boon to local confectioners.

TARGET SHOOTING.

Good Scores Made on Yeates Bros. Shooting Gallery Last Week—A. C. Miller Carried Off the Cigars in the Professional Contest With a Score of 59.

The shooting contest was well attended last week. In the Professionals A. C. Miller carried off the fine box of Tuckett's Specials with the score of 59, while J. Gillespie ran second, with a score of 58. The following are the scores:

—Professional.—

A. C. Miller	59

OBITUARY

Violet Beatrice Jackson.

The many friends of Mr. and Mrs. Wm. Jackson, 545 Sherbrooke street, will deeply sympathize with them in the death of their beloved daughter, Miss Violet Beatrice, who passed away on Saturday morning, in the 16th year of her age. The deceased had been in poor health for a considerable time, so that her demise was not unexpected.
The funeral will take place from the family residence this afternoon, at 3 o'clock. Service at the house at 2.30.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

SHORT SERMONS POPULAR.

Editor Morning Times.

Sir,—I notice with a great deal of pleasure that Rev. Mr. Webb has decided to shorten his sermons, during the hot season. I only wish the other ministers in town could be induced to follow his example. People, especially those who are somewhat nervously inclined, are not in a condition of health to sit out a long discourse, when the thermometer is hovering around the nineties. The heat produces drowsiness in many, and it seems impossible to keep from dozing. I counted about 30 in this condition a few Sundays ago in one of our leading churches.
If our ministers will only see it in the proper light, I think they will be inclined to try the experiment.

A Church Goer.

WHO GETS THE BENEFIT?

Editor Morning Times.

Sir,—In these days of strenuous business activity, when towns and cities are all striving to secure industries and thus attain greater municipal dignity, have the people ever stopped to consider the matter from a personal standpoint? We tax ourselves to induce an industry, to locate in our midst, thus perhaps adding materially to the population of the place. Who gets the benefit? Surely not the wage-earner, for he simply brings more workmen in competition with himself. If it is the storekeeper, I fear he will be doing a similar act. A thousand or so more people in Peterborough, for instance, would no doubt mean another dry goods store or two, as well as more grocery shops, &c.
Is it the working man? If he is a tenant, there is at once a scarcity of rentable houses, and up goes the rent for he will be forced to pay whatever his landlord may demand. To provide a fixed assessment on an industry means more taxes for the rest of us. As a matter of justice why should any portion of the community be relieved from its share of the municipal burden?
For these and many other reasons, I fail to see why we should be so anxious to secure manufactures. The only person possible to be benefitted would be the large owner of real estate. A workingman's little home may become more valuable, but what does this mean to him? This will mean a higher assessment and consequently higher taxes, but, mark you, no corresponding increase in wages.
I would commend the above somewhat crude suggestions to the attention of our excellent mayor and members of the Council. Particularly at this time, when the matter of a $4,000 a year Industrial Commissioner is in the limelight.

Common Sense.

SERIOUS CHARGE PREFERRED AGAINST DETECTIVE W. J. BURNS

Washington, May 27.—A charge that Detective William J. Burns had sent a false and misleading telegram to the Governor of California, in order to obtain extradition papers for John J. McNamara, was made by Leon Rappaport, an attorney of Indianapolis, before the house rules committee to-day, at a hearing on the Berger resolution for an investigation of McNamara's arrest.
Burns, in his telegram to Governor Johnson, Rappaport declared, had informed the Governor that McNamara was in custody at Indianapolis on the charge of murder in connection with the Los Angeles Times explosion, one week before McNamara was under arrest. To obtain extradition papers valid in Indiana, the attorney explained, it is essential that the man to be returned must be under arrest.
Samuel Gompers, president of the American Federation of Labor, did not appear to address the committee but sent a letter protesting against the "outrage" of McNamara's kidnapping.
President Ryan of the Structural Iron Workers' Union, of which McNamara is secretary, also protested to the committee.

SNOW IN MAY MONTH.

Regina Gets Six Inches of the Beautiful.

Winnipeg, May 27.—There was a heavy fall of wet snow all over the Regina district this morning; six inches fell in many places.

MARK TWAIN'S WORKS. ...
If You are interested in obtaining a complete set of all his books at one-half the former price on the easy payment plan, it will cost nothing to get full particulars and a new thirty-two page book "Little Stories About Mark Twain." Address Times Office.

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by all dealers.

Work on the addition to the post office is proceeding satisfactorily. The cement basement is approaching completion.

PRESIDENT TAFT BELIEVES RECIPROCITY WILL WIN

SENATE PESSIMISM PUSHED ASIDE BY THE FIRM DETERMINATION OF THE PRESI. DENT THAT THERE SHALL BE A VOTE.

The President is Sanguine That All Destructive Amendments Will be Turned Down in Committee, and That the Treaty Will Find Favor in the Eyes of the Senate.

Washington, May 27.—(Special.)—This was the day for the other side of the reciprocity story. Senate pessimism was pushed aside by the firm determination of the president that there shall be a vote. If the chicanery of senators who appear to be playing the game of certain interests opposed to reciprocity is to win, it will be only after a fight in the open. Every man who has been working under the burden of the increased cost of living will be able to put his finger upon the reciprocity record of the senators who refused him relief.
In the president's view of the situation of reciprocity to-day there are three avenues: that the bill must be protected from amendment by those sincerely for it; that it must be voted upon; that if the first two things are done it will be passed.
If any opponents of reciprocity in congress or out think the president has abandoned reciprocity or became discouraged, they have but to watch the developments. He is in his fighting humor and does not expect to take much of a vacation this year anyhow.
There is just as much fighting promised on the president's side of the reciprocity question as there is anywhere else, and he means to see the bill through.
So optimistic is the president that he expressed the opinion to callers to-day that the Root amendment will be beaten in committee. Pledges have been obtained for its defeat in the senate if it ever gets that far.
There will be no immediate report of the bill by the committee on finance. Calling Allen and Graham, of No. 11 William street, New York, has taken the hearings into their fourth week. If the testimony of this firm does not disappoint friends of the bill they anticipate that other witnesses will be called by its opponents.
Two more days are expected to complete the hearings. Allen and Graham will appear on Monday, as requested. M. J. Bachelder, of Concord, N.H., president of the National Grange, also will be present.

VOTES FOR WOMEN.

Madison, Wis., May 27.—Both houses of the Wisconsin Legislature have passed a bill granting suffrage to women.
The bill will be submitted to the voters of the state for approval, and if endorsed, will go into effect in 1913.

EARL OF DUNDONALD COMING

Expects to be in Ottawa During the Regime of the Duke of Connaught.

Ottawa, May 27.—The Earl of Dundonald will visit Canada during the regime of the Duke of Connaught.
A letter written by him to a friend in Ottawa says: "It is with pleasure I look forward to come out and meet again my old and true friends. It may be sooner or later, but I feel sure that I shall once again see Ottawa, where I spent many happy days."
Lord Dundonald adds that he has been laid up with an attack of malarial fever, which is a legacy of the Soudan campaign.

WARSHIPS COLLIDED

Serious Collision Between the Bellerophon and Inflexible—Commanded by Brothers.

Portland, Enz., May 27.—The British Battleship Bellerophon, and the cruiser Inflexible, were in collision to-day outside Portland harbor.
The Inflexible was struck on the starboard bow, where she has a seven foot hole below the water line. Two of her compartments are flooded. The vessel is now in this harbor making preparations for docking.
Capt. Trevylyan D. W. Napier of the Bellerophon, and Capt. Charles L. Napier of the Inflexible, are brothers.

HARD ON BABIES.

Toronto, May 27.—The excessive warm weather of the last few days has marked the beginning of the summer fatalities, and on Saturday, Sunday, Monday and Tuesday, there were 60 deaths in the city, 16 of which were those of children under the age of one year.
The worst day was Sunday, when seven deaths occurred.

WAR CLOUDS RISE IN EAST

Russia and Turkey Likely to Come to Blows Over Montenegro Frontier Question.

Cettinje, Montenegro, May 27.—It is reported that Turkey has made an unsatisfactory reply to the Russian note warning Turkey that the concentration of Turkish troops along the Montenegrin frontier, since the Albanian outbreak, constitutes a serious menace to peace.
This reply is said to be in effect that there is no intention on the part of Turkey to attack Montenegro, providing that country abstains from assisting the Albanian insurgents, closes her frontiers to refugees and removes the refugees who have already crossed the frontiers to the interior of Montenegro.

Twenty-five cents per month will pay for The Times, delivered to any home in the city, every morning between 5 and 7 o'clock. Telephone orders accepted.

TERRIBLE HEAT WAVE CAUSES THIRTEEN DEATHS IN FORTNIGHT

Chicago, May 27.—With one death and two other heat prostrations reported up to 10 a.m., the third of the record-breaking days of a long and unusual hot spell was ushered in to-day, but promise of relief was made by the weather bureau for to-morrow.
Thirteen deaths have resulted from the unprecedented heat wave, which has been almost unbroken for nearly a fortnight. Yesterday and the day before all records were broken, the thermometer registering 94.2 on each day. The forecaster early to-day predicted an even higher mark before the close of the day.
To-morrow, however, cooler weather is promised.

PUBLIC OPINION IN ENGLAND OPPOSED TO RECIPROCITY

London, May 27.—(C.A.P.)—The Manchester Guardian says Sir Wilfrid Laurier is evidently extremely suspicious of the colonial office re-organization.
The Outlook says that it is impossible for Laurier to disregard the tremendous weight of public opinion here against reciprocity. If ratified Canada will have such an inducement to substitute Americanism for imperialism as was never known before. If Sir Sandford Fleming's spirit still animated Canada's government there would at least be established a uniform land [illegible] strategic [illegible] frontier.
The Statist says what Canada does for the rest of the self-governing Dominions it is certain the Dominions won't give up.

THE CENSUS TO BE TAKEN AT MIDNIGHT, MAY 31ST

Ottawa, May 26.—The final instructions as to the taking of the census issued this week prescribe that the starting point shall be midnight of May 31. All persons born before then or die after that hour will be counted.
S. A. Bertrand, ex-M.P. of St. Boniface, Man., has been appointed Trade Commissioner at Rio Janeiro, Brazil. This is the first appointment of a Canadian agent in that country.

WHAT THE CENSUS MEN WILL ASK THE HOUSEHOLDER

It will cost at least $25,000 to take the census of Toronto.
The Government pays five cents a head and there are other expenses that will swell the outlay.
Following are the questions that every householder will be asked some time soon after next wednesday.
1.—Dwelling house.
2.—Family, household or institution.
3.—Name of each person in family, household or institution.
4.—Place of habitation, township, or parish, city, town or village. Range or concession and lot or cadastral number in township, or parish. Street and house number if in city, town or village, or other description.
5.—Sex.
6.—Relationship to head of family or household.
7.—Single, married, widowed, divorced or legally separated.
8.—Month of birth.
9.—Year of birth.
10.—Age at last birthday.
11.—Country or place of birth. If in Canada specify, province or territory).
12.—Year of immigration to Canada if an immigrant.
13.—Year of immigration if formerly an alien.
14.—Racial or tribal origin.
15.—Nationality.
16.—Religion.
17.—Chief occupation or trade.
18.—Employment other than chief occupation or trade, if any.
19.—Employer.
20.—Employe.
21.—Working on own account (see instructions).
22.—State where person is employed as "on farm," in "Woolen mills," at "foundry shops," in "drug store," etc.
23.—Weeks employed in 1910 at chief occupation or trade.
24.—Weeks employed in 1910 at other than chief occupation or trade.
25.—Hours of working time per week at chief occupation.
26.—Total earnings in 1910 at chief occupation or trade.

WHAT'S YOUR INCOME?

27.—Total earnings in 1910 at other than chief occupation or trade, if any.
28.—Total earnings in 1910 from chief occupation.
29.—Rate of earnings per hour when employed by the hour — cents.
30.—Insurance upon life.
31.—Insurance against accident or sickness.
32.—Cost of insurance in census year.
33.—Months at school in 1910.
34.—Can read.
35.—Can write.
36.—Language commonly spoken.
37.—Cost of education in 1910 for persons over 16 years of age, at college convent or university.

INFIRMITIES.

38.—Blind.
39.—Deaf and dumb.
40.—Crazy or lunatic.
41.—Idiot or silly.

LITTLE LOCAL LINES

The first open air band concert of the season will be given in Victoria Park one week from to-night.

The pupils of Miss Bessie Elcome will give a recital this evening, commencing at 8 o'clock, to which all interested are invited.

Hon. J. R. Stratton's string of horses will be taken to Galt this week for the horse show at that place and will also be sent to the Cobourg Horse Show. From Cobourg the horses will be taken to Ogdensburg.

Mr. A. Goodfellow, who carries on a grocery business at 320 Water street captured a large tarantula on Saturday, which came in a bunch of bananas. The insect is dreaded by the banana shippers, as their bite is often fatal.

CANADIAN PACIFIC.

Important announcement. Commencing Sunday, June 4th, a solid through train will leave Toronto at 10.30 p.m., and daily thereafter for Vancouver, B.C., running through without change. Splendid equipment first and second class, Tourist and standard sleeping cars. New train will be known as the "Vancouver" Express.
Next Homeseekers' Excursion, on Tuesday, May 30th. Cheap round trip rates to Winnipeg, Regina, Calgary, Edmonton, etc. Secure tickets etc. from W. Mellroy, Peterborough, Ont.

Through Trains to the West Via Chicago and St. Paul.

Personally conducted Grand Trunk special train will leave Toronto 11 p.m. Tuesday, May 30th, for Edmonton, stopping at all points on Grand Trunk Pacific Railway west of Winnipeg, carried, fully-equipped with bedding and porter in charge. Berths may be secured in these cars at a low rate. This is an exceptional opportunity for those wishing to take advantage of the low rate homeseekers' excursions through the American cities.
Secure tickets, berth reservations, and full particulars from any Grand Trunk Agent, or address A. E. Duff, District Passenger Agent, Toronto, Ontario.

A Pullman car which was filled with New York women who wanted divorces arrived at Reno, Nev., a day or two ago. It may soon be necessary for the railroads to run divorce specials. Lawyers could be provided to draw up papers on the way so that everything would be ready for the immediate beginning of proceedings on reaching Reno.

ROYAL
5c—10c
BIG VAUDEVILLE SHOW AND MOTION PICTURES.

BIG ATTRACTION FOR TO-DAY.

The Royal has secured at big extra expense Four Special Vaudeville Acts for to-day. For a big, high-class Vaudeville Show, come to the Royal the first half of this week.

MOTION PICTURES.

Another complete change of motion pictures—everything new in pictures always to be seen at the Royal.

Remember the Royal is the coolest and most comfortably seated place of amusement to go to in the evening—Big electric suction fan and eight ceiling fans going all the time.

ROCKING THE BOAT

A Fine Fellow to Paddle a Young Lady's Canoe—Advt.

VEGETABLES BY WEIGHT

Ontario Association Decide to Ask for Change in Law

The Ontario Vegetable Growers' association decided to sell all vegetables by weight measure in future. Hitherto the bushel has been the standard of measurement, and has caused a great deal of friction between dealers and consumers. It was decided to request the Dominion Government to pass an act fixing the following weights as the standard for bushel and box quantities respectively:

	Bushel. Lbs.	Bag. Lbs.
Artichokes	50	75
Beets	50	70
Carrots	50	70
Onions	50	75
Parsnips	45	60
Potatoes	60	80
Turnips	50	70

Formerly Warden of the County of Simcoe, who died in Toronto

A COSTLY BRIDGE

Contracts for Quebec Bridge Aggregate Nearly Nine Millions

The contract for the Quebec Bridge was awarded to the St. Lawrence Bridge Company, an amalgamation of the Dominion Bridge Company of Montreal and the Canadian Bridge Company of Walkerville. The cost of the bridge, according to the estimate of the engineers on the company's figures for the various parts of the work, will be $8,650,000. There has been deposited with the Government as security for carrying out the present, $1,097,500, or 15 per cent. of the contract price.

The award is made on the recommendation of a majority of a board of engineers, who have had the matter under consideration for over a year. They have recommended the acceptance of the tender of the St. Lawrence Bridge Company upon a design of their own, which includes provision for street railway and driveway. Hon. Mr. Graham believes that the very best possible contract has been made, and that these purely Canadian companies are fully competent to accomplish the task they have undertaken.

BUFFALO THRIVING

Natural Increase at Wainwright, Alberta, Was 110 Last Year

Edward Ellis, superintendent of the Wainwright buffalo park, has submitted his annual report to the Dominion parks commissioner. In the report he includes the census of the animals living in the park at the present time. There are 209 buffalo, 7 elk, 25 deer and 3 antelopes, a total of 245. During the year, 110 buffalo were added to the herd by natural increase. The loss during the same period was seven.

In the year there were 1,500 visitors to the park. There are now at Elk park, Lamont, 48 head of buffalo, and at Banff, 24; which makes the total number of bison in captivity in Alberta, 381.

The annual report of the superintendent of Banff national park, just received by Superintendent of Parks Douglas, gives the number of visitors to the park during the year, as compiled from the registers of guests at the various hotels. There were 63,494 visitors as compared with 56,452 in the preceding year, a total increase of 7,042.

RAILWAY FLOWERS

C.P.R. Sends Out 100,000 Packages of Seeds for Employes

Over 100,000 packages of flower seeds are sent out this spring by the Canadian Pacific Railway Company's Floral Department to the agents, sectionmen and other employes of the company.

After nearly twenty years existence, this department of the great railway system has reached colossal proportions, and as the thirty-six different varieties of flower seeds are brought from the four quarters of the globe, their purity and quality are the best procurable.

The steady expansion of this department is owing to the love of culturing flowers, and the keen desire to beautify their surroundings, which has been inculcated into Canadian Pacific Railway employees by these opportunities for indulging in them, and the result has been most gratifying.

Prizes were given for the best flower gardens last year, and the competition was very close. This additional incentive will be continued this year, and prizes will also be given for the best photographs of gardens along the line of the railway.

The Irrigation and Forestry Departments of the company in the west are taking warm interest in the work, and, in addition to growing flowers, many western agents raise vegetables and have practically created miniature experimental farms of their own.

WESTERN REAL ESTATE

The formation of real estate and investment firms in the smaller cities throughout the western provinces has been responsible for heavy demands upon the floating supply of capital in Winnipeg. The funds available in those places are not sufficient to bring the deals that are on the tapis, and aid from the east is urgently requested. This aid is being furnished for the reason that outside propositions are often more inviting than anything Winnipeg has to offer. The supply of money is sufficient for current needs, and it is being freely circulated.

ADVERTISE IN THE TIMES.

DEPARTMENT OF RAILWAYS AED CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted cheque for the sum of $16,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 13th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of contract can be seen and form of tender obtained at this department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., H. J. Lamb, Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 9, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

SEALED TENDERS addressed to the undersigned, and endorsed 'Tender for Public Building, Seaforth Ontario,' will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

WAVE OF PEACE

Sweeping England as Result of Preparation for Anglo-American Arbitration

There is much activity which ... Lord Weardale ... Arbitration ... a general election ... a parliamentary committee ... from both sides of the House of Commons has been formed for promoting an agreement the two countries in favor of absolute arbitration. High church Tories like Lord Hugh Cecil, are committed to it as strongly as the Scotch Presbyterians or the Welsh Nonconformists, and a series of non-partisan public meetings already has been opened in many English towns.

The advocates of this movement for arbitration with the United States are not discouraged by the German Chancellor's lack of faith in universal arbitration and the limitation of armaments. They perceive that the German emperor wants to break up the Anglo-American concord. They admit that England and Germany must continue their wasteful competition in battleships and guns without being affected by the logic of the situation.

The chancellor's willingness to come to an agreement with England respecting an exchange of naval information is only a meagre gain which will not alter materially the existing condition of rivalry. The arbitration advocates reject the idea that Berlin can veto the concordat between London and Washington.

If war among the English speaking nations has really become unthinkable, the sanest advocates of peace concede that the generalisation about a universal brotherhood and the limitations of armaments are not convincing. What is wanted is a practical recognition on the part of the British Empire and America of the truth that all outstanding issues can be settled peaceably and that they will not fight under any circumstances. When that inspiring example has been set, the baneful influence of militarism will be fatally impaired.

Nine hundred meetings in all the cities of the kingdom were held in two days. Councils representing 10,000 evangelical free churches adopted a resolution in support of the proposed treaty and welcoming the idea of American churches observing April 2 as Arbitration Sunday. Copies of this resolution were forwarded to President Taft and Sir Edward Grey, the British foreign secretary.

News that the negotiations had actually been begun was received at these meetings with great enthusiasm. Arbitration was the theme of most of the churches, and a great peace demonstration was held at the Whitefields Tabernacle, where Lord Coleridge presided. Augustin Birrell, chief secretary for Ireland, was the principal speaker. After quoting:

"There is a tide in the affairs of men," he said:

"To-day there is a great tide and peace wave rolling across the Atlantic. It ought to be taken at the flood."

FIFTY NEW TOWNS

Will be Opened by the C.P.R. in the West this Year

The Canadian Pacific Railway will open fifty towns this year on branch lines completed last fall. Last year forty were placed on the map and nearly all of them are developing into centres of commercial activity. Many of the new towns are in Southern Saskatchewan and Southern Alberta, a few miles north of the boundary line. American settlers have largely developed these sections of Western Canada in the past, and it is said that feeders will be run from the Minneapolis, St. Paul & Sault Ste. Marie line to half a dozen American points to carry out the company's plan for commercial expansion.

DIAMONDS IN CANADA

Gems May be Found, but Mineralogist Not Hopeful

"It is quite possible, in fact, likely, that diamond-bearing rocks may be found around Porcupine."

The statement was made by Mr. R. A. A. Johnston, mineralogist of the geological survey at Ottawa.

"But whether diamonds could be extracted as to render the find commercially important is quite another matter," added Mr. Johnston.

Mr. Johnston has been working for the past few weeks on the samples of rock in which the first Canadian diamonds were discovered by Mr. Charles Camsell, of the survey in British Columbia.

"The discovery is of no commercial importance," he said. "I have found it impossible to separate the diamonds from chromite and other varieties of rock in which they appear in the specimens found, without necessarily breaking them up into small pieces.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 80 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 80 volumes and handsome sectional bookcases will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 80 volumes to the schools, lodge society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily, and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured :—

OLD FOLKS COUGHS

BECAUSE RESISTING POWER IS WEAK PNEUMONIA OFTEN FOLLOWS.

Tells of a Sure Cure and a Never-Failing Comfort for Colds, Coughs, Catarrh.

One of the worst terrors of old age is that distressing chronic cough. Colds settle on the chest, are wrongly treated with drug-laden and chest-weakening cough syrups, and from year to year the condition has grown worse. Formerly the cough went away when fine weather came, but now bad weather makes it worse and fits of racking, tearing coughing, make life a burden.

Because you are old is no reason for suffering with everlasting coughing—those terrible chest troubles and difficult breathing can be thoroughly cured with Catarrhozone. You simply breathe the healing vapor of Catarrhozone and instantly its rich balsamic fumes are carried by your breath into the tiniest recesses of the nose, throat, chest bronchial tubes and lungs.

Just think of it—a direct breathable medicine, full of soothing antiseptic pine essences that reaches every sore congested membrane in two seconds. No drugs to take—Nothing to harm the aged or in the infant, because Catarrhozone is the purest, safest cough, catarrh and cold remedy ever devised.

Mrs. M. E. Walford, wife of a well-known grocer in East Sheffield, writes: "For three years I suffered with a hard racking cough and bronchial irritation which annoyed me so much at night I couldn't sleep. I tried many remedies, catarrh tablets, sprays, syrups, etc., but they only helped for a short time. Catarrhozone brought me wonderful comfort from the first. I inhaled its balsamic fumes every hour or two and am now free from any trace of cold, bronchitis and catarrh. I can go out in all kinds of weather and don't take cold."

There is no remedy so certain and safe as Catarrhozone, but being a good remedy it is imitated. Beware of the substitutors. Large Catarrhozone last two months, price $1.00; smaller sizes 25c and 50c. All reliable dealers, or the Catarrhozone Co., Kingston, Ont.

The Morning Times

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

RUDYARD KIPLING AS A REPORTER

One of the Great and Wonderful Stories in the English Language Was Not Appreciated

"One day, less than twenty years ago, when I got down to the city room of the 'Chronicle' office in San Francisco—I was a reporter on the paper—I noticed sitting over in a corner, with his hands thrust a bit gloomily into the pockets of his somewhat shabby sack coat, a little, bristly-haired man, with a pair of large but weak-looking eyes masked by the lenses of an enormous pair of spectacles," says a journalistic friend of Kipling's. "He looked just about as unhappy as a new reporter usually looks when he is sitting around a city room waiting for his first assignment.

"The 'Chronicle' had a pretty big city staff then, as it always has had, and the city editor called the reporters up in turn and handed out the work. He had a growl for each of them about the stuff they had in the paper that morning. The stuff was inadequate, [illegible], incomplete, or something.

"The little new man with the large spectacles took it all in with mouth agape. His turn came when all of the other men had been provided for. With his customary glare from his horribly heaped-up desk, the old man glanced over it at the new man.

"'Kippering—er—Kappering—Kipsing—oh, yes, Kiplin—Kipling's right, isn't it? Know anything about crooked financial stuff?' the city editor asked the new man. 'A bit,' briefly replied the new man.

"'Huh!' commented the city editor. 'Well, see here, Kippering—I mean Kipling—there's a fake mining concern doing business down at this address. Trot down there and have a talk with the manager of the fake concern. Feel him out. See what he has to say. We're going to uncover him. Not yet, maybe, but when we've got him cinched. Size him up. Get his idea. Look him over. Then report back to me.'

"Well, that was Kipling's first assignment on the 'Chronicle,' and he managed it fairly well.

"Kipling was on the 'Chronicle' for about five weeks. All this time Kipling had in his pocket a letter to the managing editor, which he presented one day. The managing editor was a brusque, busy man. 'Want to write stories for the Sunday, eh? What kind of stories?' 'Well,' replied Kipling, 'I know a lot about the army life in India, and——' The managing editor laughed. 'Now, what d'ye suppose the people of California care about the army in India?' he inquired, still chuckling. 'Still, I'll look at your stuff. Got any of the stories with you?'

"Kipling had one of the stories with him, and he left it. Now, don't laugh. But d'ye know what story that was that Kipling left with the managing editor of the 'Chronicle' that time? Why, it was the story—you've read it in 'Soldiers Three' about a thousand times, I presume—about the lonesomeness of Private Ortheris, and how Private Mulvaney comforted Ortheris out of his lonesomeness, one of the great and wonderful stories in the English language, that's all.

"A day or so later the editor called Kipling into his room and handed him back this story with a smile, and told him that there wasn't anything essentially interesting about it, and that India was a long distance from Market Street; and that, moreover, the story wasn't quite up to the paper's standard for stuff of that sort.

"Kipling left San Francisco a few days later."

THE CZAR'S WATCH

Made by a Polish Mechanic Named Jules Curran

There is in the possession of the Czar a very remarkable watch. It was made by a Polish mechanic named Jules Curron. The Czar had heard some wonderful tales about the inventive ability of this man, and, wishing personally to test his skill, he sent him a parcel containing a few copper nails, some wood chippings, a piece of broken glass, an old cracked china cup, some wire, and a few cribbage-board pegs. Accompanying this was a command to make them into a timepiece. Within a remarkable short time the Czar received them back in the shape of a watch. The case was made of china, and the works of the other odds and ends. So pleased and astonished was the Czar that he sent for the man and conferred several distinctions upon him.

WHEN THE KING MOTORS

His Majesty Runs No Risks and Loses No Time

It may not be generally known that the drivers of the motor-cars of the King, the Prince of Wales, and the Duke of Connaught are all policemen. The late King's instructions were, "Run no risks, but lose no time." The latter clause used to be obeyed so implicitly that Lord Derby once when returning from Newmarket a "horse's length" behind the King, on whom he was in attendance, was stopped in his motor by the police at Barnet—a happy illustration of the principle that the King can do no wrong. The royal drivers do not rely on a motor horn alone. Alongside them on the box there sits a footman, who plays a key-bugle to announce the approach of the car.

BAD PLACES IN ROADS

"See here," exclaimed the stranger, as he stumbled into his twentieth puddle, "I thought you said you knew where all the bad places were on this road?"

"Well," replied the native, who had volunteered to guide him through the dark, "we're a-findin' them, ain't we?"

Z. A. LASH, ELOCUTIONIST

Mr. Z. A. Lash, K.C., has an unusual hobby. It is reciting. And many a gathering in Toronto has been made to stand out in the memory of those attending by reason of Mr. Lash's performance. His favorite is Drummond, whom he interprets in rare style, and of recent years he has added to his repertoire a number of the most striking of Service's ballads, which, it is needless to add, he renders with great effect.

BIG STORES IN CALGARY

Harrod's Stores, London, Eng., will erect a building at Calgary, Alta., at an expenditure of $1,500,000. Work will be started at once on the building and it will be completed as speedily as [illegible].

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards. Easy payments, 10 per cent. cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realizing handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK

429 Pender St., W., Vancouver, B.C. Phone 871

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $200 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of it is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some idea about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

HARRY PHELAN,

AGENT FOR PETERBOROUGH DISTRICT, FOR B. & R. CO., CALGARY.

SUMPTUOUS PRISONS

Comforts of a Good Hotel with Unlimited Freedom

Whatever may be the case at home, it is clear from recent revelations that "strong bars do not" invariably "a prison make" on the Continent and across the Atlantic, says Tit-Bits.

The prison of Thorberg, near Wasen, for example, seems to combine the comforts of a good hotel with unlimited freedom and excellent company. The prisoners, we are told, fare sumptuously, liqueurs being among their many luxuries; and when they wish for a change of environment, they are allowed to visit one of the cafes and places of amusement in the town.

Here is a typical day of the Thorberg jail-bird: 7 a.m. rise, receive hot water from a warder, clean cells; 8 a.m., breakfast—coffee, milk, hot rolls, and a liqueur; 9 to 12 a.m., singsong, games of bowls, and other recreations; noon, dinner—soup, roast with vegetables, sweets, coffee with liqueur, wine; afternoon, walk in town, cafes, excursion into the mountains; 6 p.m., supper, followed by a smoke and cards; 9 p.m., retire.

In the French prison of Fresnes the larder is as sumptuously equipped as in any first-class hotel. Among the many delicacies to tempt the prisoners' appetite are detailed 1½ tons of apple and pear marmalade, 2 cwt. of caramels and other sweets, dried fruits, Guyere cheese, 45,000 litres of red wine, and forty tons of the best joints of beef and mutton.

In the United States the criminal is almost as tenderly cared for as an invalid millionaire. In the famous New York State prison, Sing Sing, the inmates, we are assured, are as well fed and cared for as in any fashionable hotel. Breakfast consists of such fare as this: grilled pork and beans, jam, hot cakes of various seductive sorts, and coffee; and the rest of the tariff is equally inviting. Lady visitors bring the prisoners presents daily—usually cigars—and every weekly paper published in the States is taken for their enjoyment.

At the Massachusetts Reformatory, at Concord, each day brings its entertaining lectures, classes (from music and mathematics to drawing), concerts, and theatrical performances. The reformatory has its own paper, printed on the spot, its debating society, and scientific, literary, and athletic clubs.

In Buffalo Prison, a visitor informs us, "the men were lolling in their beds, playing cards or chequers, warm and well fed. Our taxes keep these good-for-nothing men in laziness"; while in Pennsylvania Penitentiary, many of the inmates which are wealthy bankers, brokers, and councillors, life is one long round of pleasure and luxury, brightened by operatic performances, in which the prisoners give screaming representations of the crimes which secured them so agreeable a home at the expense of the State Exchequer.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM BUNTON, LATE OF THE CITY OF PETERBOROUGH, IN THE PROVINCE OF ONTARIO, TICKET AGENT, DECEASED.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Sec. 38, that all persons having claims against the estate of the said William Bunton, who died on or about the 17th day of January, 1911, are required on or before the 15th day of June, 1911, to send by post, prepaid, or deliver to Dr. R. J. Husband, Federal Life Building, Hamilton, Ontario, administrator of the said estate, their Christian and surnames, addresses and descriptions, the full particulars of their claims and the nature of the security, if any, held by them, and

TAKE NOTICE, that after said last-mentioned day the said administrator will proceed to distribute the assets of the deceased amongst the persons entitled thereto, having regard only to the claims of which he shall then have notice, and the administrator will not be liable for any claims or for assets or any part thereof to any person or persons of whose claim notice shall not have been received by him, and such persons shall be peremptorily excluded from the benefit of such distribution.

Dated at Toronto this eighth day of May, A. D., 1911.

A. P. POUSSETTE,

Solicitor for the said Administrator.
417 Euclid Avenue,
Toronto.

NOTICE TO CONTRACTORS.
TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope 'Tender for Station Buildings,' will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.

Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.

Section 3.—From Mile 5 to Mile 105 east of Quebec bridge.

Section 4.—From the Quebec bridge westward to Mile 45.

Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.

Section 6.—At Cochrane in the Province of Ontario.

Section 7.—From the divisional yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.

Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.

Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario.

Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa, this 12th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

KNOWING OLD MAN

Wanted to Know of Groom if There was Insanity in his Family

"Your article the other day about how men ask the consent of fathers to marry daughters," writes a correspondent, "reminds me of my own case. When I was a young man, I had been reading that a fellow should never marry into family where there was a taint of insanity. So, for the sake of future generations, I decided that whatever my heart urged me to do my mind should be on guard. When the lady of my choice said 'yes,' I dutifully sought the father. Maybe I was too precipitate. At any rate, this is what I said:—

"'Your daughter has promised to marry me. May I ask if there is any insanity in your family?'

"The old man looked at me keenly. 'There must be,' was his emphatic answer."

FRANCE'S STRONG MAN

Briand is a Strong Orator and Strenuous Worker

A few years ago M. Briand, who narrowly escaped assassination recently, was quite unknown outside the ranks of a few fellow-lawyers and the working men and Socialist organizations to which he allied himself. To-day he is universally regarded as one of the strongest men in France. He entered the Chamber of Deputies in 1902, only seven years before becoming Premier, and it was really the part that he played in the acute religious-political struggle in France that brought him to the height of his fame. He is a stirring orator and a strenuous worker. "Let's have done with talk; it's time for work," is one of his favorite phrases. He is one of the simplest of men, and finds his chief recreation in fishing. His one trouble is that the caricaturists refuse to put him in the papers. "Till they do so," he says, "I am not really popular."

GREAT SALT EATERS

Some Will Eat Salt by the Spoonful When Given a Chance

Idiosyncrasy often takes the form of a special craving for, instead of an objection to, certain foods. Many people possess an extraordinary relish for common salt, and will eat it by the teaspoonful when opportunity admits. This sometimes leads to obesity and dropsy, but it has also the peculiar effect of increasing the weight. One young lady who devoured immense quantities of salt on every possible occasion, and emptied all the salt cellars on the table at each meal, would increase as much as 10 pounds in weight in twenty-four hours, and was frequently unable to wear a dress which was quite loose for her on the previous day.

POOR MAN BECOMES RICH

George Gates, However, Had a Hard Struggle With Poverty

A struggling Californian inventor named George Gates, who is seventy years of age, has sold to a syndicate of eleven of the greatest railway systems of the United States, for three and a half millions sterling, the patent rights to a concrete railway tie or sleeper invented by him.

The new concrete sleeper is considered the greatest railway invention since the air-brake. It is a composition of substances which afford extraordinary resilience and durability. A single machine can turn them out at the rate of 3,500 a day.

Gates is a veteran of the Civil War, and has had a hard fight with poverty during his career as an inventor.

He proposes to spend a portion of the money now received in perfecting and introducing another invention, styled by him a "continuous rail." Of the remainder, the bulk will be placed in trust for the benefit of his wife and relatives generally. For the present Gates lives in a modest cottage in San Jose, California.

INSPIRED BY A DREAM

Basil Hodder tells an interesting story of how he came to write the words of 'Motherland.' "I am a New Zealander," he says, "and though, up to the age of twenty-four, I had never been home, I always had a great longing for the Old Country. One wild night, during a fishing excursion round the coast, three of us camped on a little rat-infested island named L'Astrolabe. We took it in turns round the camp-fire to keep watch and ward against the rats, which were daring to a degree. It was my turn, and I had potted some two dozen of them with a catapult when sleep overcame me. I awoke suddenly, with a large rat in my coat pocket, busy over some bread and cheese I had there. I gave him a fatal squeeze and got rid of him. Then I raked the fire together and recalled a strange dream that had come to me. A voice had called from far away over the sea: 'Come home! Come home! Home! Home!' It affected me so strangely that I set to work and scribbled in my pocket-book the words of 'Motherland.'"

According to Government Estimates

$100,000,000.00

Was Made in Western Town Property During the Year 1909

Did you anticipate in these huge profits or did you "pigeon-hole" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognise the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at $100 or $500, and now it is worth $10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from $50 to $100 each, or are you going to be the man who will have from $1,000 to $10,000 in cash as a result of having bought property in this town in this year of grace, 1911?

POE A COMING COMMERCIAL CENTRE

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to rivers and lakes and large forests are easily accessible from this point. These natural resources insure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forests furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.

The town is located on the main line of a transcontinental railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

Poe townsite was recently placed on the market and already over 200 lots have been sold and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada who are now profiting by their foresight.

The townsite is high and dry and very suitable for building purposes.

OPPORTUNITY

is useless unless you possess the courage to act. You might possess great wisdom, you might read a good deal or travel much and thus see all kinds of opportunities to make money, but unless you have the courage to act on your judgment and wisdom all of these desirable qualities are entirely useless.

Lots in Poe are a good investment at present price. The town is bound to grow rapidly. Owing to the easy terms of payment you have the ability to buy and if you do not buy now it is because you are lacking in courage, and the chances are you will never be like the man you now admire most, rich, courageous and wise.

TORRENS TITLE.

Poe townsite is held by us under the Torrens system of title. Under this system the title is guaranteed by the Government, therefore absolutely safe.

PRICES AND TERMS.

Prices of lots range from $50 to $100 each, and they can be purchased on terms of one-tenth cash, balance in eighteen equal monthly payments; or quarter cash, balance in six, twelve or eighteen months.

INFORMATION

We have issued an attractive circular giving full information pertaining to the town and its prospects, together with map showing lots for sale. If you wish to receive this attractive circular cut out and fill in the attached coupon and mail it to us to-day.

INFORMATION COUPON

Gentlemen,—With a view to buying property in Poe, Alta., please send me full information with map and price list, and oblige,

Yours Truly,

Name .....

JAMES PEMMETT,
... Lakefield, P.O.

BIG PAPER MILL

New Company is Incorporated in Ontario—Great Operations to Start at the Soo

recently incorporated with capital of recently incorporated wit hcapital of $8,000,000, has secured twenty acres at Sault Ste. Marie, Ont., owned by the Lake Superior Power Company. It is expected that the purchase of the land in Ontario indicates that the paper company's plant will be built on the Canadian side. The consideration received by the Lake Superior Corporation is considerable and probably represents an interest in the new Paper Company. Aside from this consideration the trustees of the bondholders receive $150,000 in cash on the execution of the discharge. The $150,000,000 takes the place of this property.

The land includes the buildings on it, which consist of the frame rear extension of the pulp mill, the sulphate mill, and the smelting tand reduction works. The buildings are incorporated in the new works and will be used. Sault Ste. Marie has a blanket mortgage on all the properties of the power company, which include lands, water power, and the Helen mine, to secure the payment by the company of some $230,000 consolidated debenture bonds.

WEALTH IN APARTMENTS

Owner of Two Modern Toronto Dwellings Gives Insight into the Tenement Values

"The apartment house has come to stay. Property owners in the large cities find it one of the best paying of real estate investments, and the proof of this is found in the fact that in cities the size of Toronto, their number is yearly increasing on practically the same scale as dwelling houses. It is easier to keep the apartments rented than it is to let separate houses; the returns are larger; and especially young people, who want to take up only light housekeeping for the first few years after marriage, find such dwellings most desirable."

The speaker was a man who already owns two such buildings in Toronto. He started with $2,000 in cash, and now he has a clear title to both places, and they are assessed at $10,000 each. ..."After I paid off the mortgage of the first one I put the profits into building the second one," he continued. "They have cost me less for repairs than would have been the case had I bought separate dwellings, and I think also I have been able to keep them rented for a longer period each year than I would had I separate houses."

The first is a three-storey dwelling, divided into six flats. For the ground floor flats he gets a rental of twenty dollars a month each, and for the others fifteen dollars a month each, making a total of just $100 a month.

"The rents are possibly a little higher than is the case in rooming houses, but there are many advantages," he added. "There is a common hallway, but tenants do not go through each others' flats to get to their own, and then they have all private bathrooms and many other conveniences."

The flats, of course, are unfurnished. In some apartment houses, furnished flats may be obtained, but the rentals for these are in the neighborhood of $40 to $60 a month, and sometimes higher.

INDIANS OF CANADA

Major Winter Tells of the Surrender of Poundmaker to General Middleton

Writing about "The Surrender of Poundmaker," Major C. F. Winter, in The Canadian Magazine for March, says: But though they made a brave show in coming in, they were much disconcerted at the reception accorded them, for General Middleton at once demanded their rifles, in proof of submission and surrender, before he would accord them a hearing. In a few curt words the General told them he demanded unconditional surrender. He had defeated Riel and taken him prisoner, and he had men and guns enough to crush both "Poundmaker" and "Big Bear," with all their people. If they still wanted fight. If they surrendered he could promise them nothing, but would represent their condition and views to the Government. He was a soldier sent there to put down the rebellion and he was going to do it, whether they surrendered or not, and if it took all summer. The men who murdered the Government Indian Agents and Farm Instructors at the beginning of the outbreak must be given up at once before any safe conduct would be ensured the remainder. There was a little hesitation among the younger braves for a few moments. Sharp glances were directed right and left, and wistful eyes cast backward to the slopes on the opposite side of the Battle River, as though mentally gauging the ability to get away in the event of a run for it. The comparative large number of volunteers, however, must have quickly shown what small prospect there was for successful opposition, and reluctantly (how reluctantly may be estimated from the fact that some were seen to kiss their rifles as they gave them up, a remarkable show of feeling for an Indian of the Plains), they handed over their arms to the detail ordered to secure them. Mostly all of these rifles were "Winchesters" of recent model, handier and much superior for the kind of fighting the Crees expected than the single-loading Snider-Enfield with which our Canadian troops were armed. Nearly all were decorated with notches, or brass-headed tacks upon stock and butt, indicative of some coup or lucky shot by which the owner believed he had placed an enemy hors de combat. Others indicated large game that had fallen to the aim of the owner.

RAILWAY RUMOR

C. P. R. May Secure Down-town Entrance to London

C.P.R. engineers are preparing a route which will give that road an entrance into the down-town section of the city of London, Ont. At present the company's station and freight sheds are in the north end. To secure a down-town station the company plans to build from Pottersburg to the city, and connect with the Pere Marquette, which has running rights into the Grand Trunk station. This move it is said corroborates the recent despatches from Detroit, to the effect that the Canadian Pacific Railway has obtained control of the Pere Marquette. All the big factories are at the south end of the city in the district in which the Canadian Pacific Railway spur is proposed.

ADVERTISE IN THE TIMES.

CORONATION OIL COMPANY, LIMITED

Capital 850,000 Shares of a par value of $1.00 Each

"Incorporated in Canada, Directed and Managed by Canadians"

This Company commenced business operations on May 16th, 1911, and expects to complete and bring in its first well within ninety days from that date. The Company owns a lease of 40 acres for twenty years, situated in the heart of the oil producing territory in the Midway field, Kern County, California. Within about one and a half miles of this property there are now seven actively producing wells.

Subscriptions Are Now Asked For

150,000 shares of the Capital Stock of the Company at 15 cents each.

A Further Issue of

150,000 shares will be offered later at 25 cents each.

NOTE PARTICULARLY,—The Company is not over capitalized; its shares are non-assessable (no personal liability) and they are offered at a reasonable price; THE DIRECTORS SHARES AND THE SHARES ISSUED IN PAYMENT OF THE LEASE ARE PLACED IN ESCROW AND MAY NOT BE SOLD UNTIL ONE YEAR FROM DATE OR UNTIL OIL IN PAYING QUANTITIES IS PRODUCED.

For Prospectuses, Maps of the field and full information, write to

BUY BEFORE THE PRICE ADVANCES

This is the story of the Rangley High-Grade Oil Field of Rio Blanco County, Colorado; one of its progressive corporations, THE COLORADO PARAFFIN OIL COMPANY, and why its stock is an exceptionally attractive avenue of tremendous profits.

Price of Shares Advance

JUNE 15TH, 1911

We Now Have Over 200 Stockholders

Foreword

E. W. SMITH

As Manager of the Bankers Finance Co. I want to personally call your attention to what I consider the very best investment opportunity I have found in all of my financial experience, and my customers know by dividends and profits distributed that I have a record of several years' success.

In the first place I will not sell stocks in any company until I have satisfied myself that there seems to be assured success for the company. Furthermore, I always want my clients to buy stocks when there is a splendid probability of their advancing to a price that will let each one make a handsome profit.

THE COLORADO PARAFFIN OIL Co., at the present price of THREE cents a share, I think, is a big money-maker. The stock is just as sure to rise as human being can depict, and it would not surprise me to see an advance to 75 cents or $1 in the near future.

Such policy has caused the great success of the Bankers Finance Company extending over a long period, and having on its books the most prosperous investors of any similar western institution. It isn't often we offer speculative stocks which are likely to double and treble in price, and rapidly making several hundred per cent. profit, but when we do it's a pretty safe guess that we know absolutely whereof we speak, and in no instance have we yet failed. I have personally investigated the following proposition and firmly believe we have the richest and most marvelous offering in the West, and if you will join us, even for a small amount, I will endeavor to show you profits thereby that will make you permanent customers.—E. W. Smith.

When investing your money in any security it is always well to investigate the basic facts underlying the business back of the security.

The production of crude oil from the ground has for ages proven to be a very profitable industry, and therefrom has arisen many of the richest men of the world. Corporations engaged in this industry have amassed enormous profits and paid large dividends to shareholders.

Geologists schooled in their profession are enabled to determine in what localities crude oil may be secured by drilling wells. In some localities oil is secured at a depth of a few hundred feet, while elsewhere it is necessary to drill to a depth of several thousand feet. This to a certain extent regulates the expense of reaching oil.

Again, the quality of oil secured is an important factor in the ultimate profits which may be realized. Among the most valuable oil wells are those containing the largest percentage of paraffin, naptha, gasoline, lubricating, and other ingredients for which there is a ready market at substantial prices.

In the Pennsylvania fields there was formerly produced a large amount of high-grade oil which sold at several dollars per barrel, and millions of barrels made millions of dollars for the owners; but of late years this supply has diminished, and it has become a serious question among oil men as to where the future supply would come from, especially since the introduction of automobiles and gasoline engines has created an enormous demand for gasoline at high prices.

THE RANGELY OIL FIELD, located in Rio Blanco county, Colorado, is destined to fill the necessity now so much in demand. Doubtless this field would have become prominent many years ago but for the fact that Rio Blanco county has been practically without railroad transportation. In fact, at present only one railroad touches the county, and that merely across one corner, thus serving only about ten miles of the county, leaving other portions thereof nearly 35 miles from the railroad. Now that paraffin and gasoline oils are being produced, this situation will be speedily remedied. Already the Uintah Railway, the Grand River, Meeker & Salt Lake Railroad, the Denver, Northwestern & Pacific Railway, and the Laramie, Hahn's Peak & Pacific Railway are projected through this county, and soon Rio Blanco with its tremendously rich, undeveloped resources of high-grade oil, coal, gilsonite, mineralized rubber and other valuables, will reap its reward.

It is a well-known axiom that those who get into a country "ahead of the railroads" will get the greater profits. The Colorado Paraffin Oil Company is now firmly entrenched as one of the factors of the Rangely Oil Field, and its 80 acres are considered as good as any in the district. However, other companies did the pioneering work. Six companies have already secured oil in 50 wells. In all of them have been found the same high-grade paraffin and gasoline oil and most of these wells strike oil at from 600 to 1,000 feet deep, proving it a shallow field.

The essentials of success and profit are clearly defined in the Rangely field: 1. Inexpensive drilling. 2. Shallow wells throughout. 3. High-grade valuable product. 4. Oil analyzed by the Standard Oil Company. 5. Oil analyzed by the U. S. Government experts. 6. Geologists of the U. S. examined the entire field.

THE COLORADO PARAFFIN OIL CO.

Incorporated February, 1911.
Under the strict laws of Colorado.
Authorized capital stock, $1,000,000
Par value of the shares, one dollar each.
All stock fully paid and non-assessable.
Entire capital stock, 1,000,000 shares, placed in treasury.
No promotion, free, or bonus stock, except 1,000 shares awarded for suggesting name—The Colorado Paraffin Oil Co.

Property—Eighty acres choice territory in the Rangely oil district, Rio Blanco county, Colorado, a field celebrated for its valuable paraffin and gasoline oils commanding four times the price of asphalt oils of California Texas and Oklahoma. The corporation has a 20-year lease, royalty only 10 per cent. of oil secured, and $1,200 ($15 per acre) cash when oil is struck, otherwise nothing is to be paid lessor.

The Colorado Paraffin Oil Company is among the first in the field, reaching there "ahead of the railroads", and selected first choice of leases, and began drilling its first well. For the purpose of determining the value of this high-grade oil by expert analysis samples were taken from nearby wells, results of which are herewith submitted. They prove conclusively every claim made for Rangely high-grade oil.

ANALYSIS OF RANGELY OIL BY THE GOVERNMENT

Initial boiling point, 48 degrees C.

Per Cent.	
Gasoline and Naptha below 150 degrees C.	
Specific gravity 0.68	25
Illuminating oil (150 degrees C. to 300 degrees C.)	
Specific gravity 0.751	45
Residue above 300 degrees C....	27
Loss	3

The oil contains no water. The residue contains much paraffin wax and there is no asphalt in the sample.

BY THE STANDARD OIL COMPANY

Per Cent.	
Crude oil, gravity 43.6 degrees Baume, burns at 60 degrees.	
Light naptha, gravity 70.3 Baume	7
Heavy naptha, gravity 61.1 Baume	12
Illuminating oil, gravity 45.1 Baume:	
Flashes at 90 degrees, burns at 116 degrees	60
Paraffin, gravity 32.8 Baume....	20
Coke and waste	1

The oil is free from sulphur compounds.

EXPERT OPINIONS ON THE RANGELY OIL DISTRICT.

The followiog are brief extracts from some of the most complimentary reports ever made upon an oil field, all of the parties in question having visited the Raven Park Field and subjected it to the most rigid and crucial investigation:

Mr. Samuel Baker says of the Raven Park Oil Field: "The field is a true anticlinal dome. The oil is a rich, golden brow color, and is very foamy, showing the presence of large quantities of gas and gas-forming materials."

Prof. Wm. B. Potter, the well-known geologist and mining engineer of St. Louis, who occupied the chair of Geology in the Washington University at St. Louis for over 12 years, says: "One of the marked and most favorable characteristics of the Raven Park field is the well-developed dome structure. Such dome structure is especially favorable for the storage of oil. And the natural pressure should insure powerful gushing wells when the oil sands are penetrated in drilling."

Mr. Robert L. Lund, upon the strength of whose report a St. Louis syndicate entered into a contract for extensive work in the field says: "The Raven Park oil field consists of an anticlinal dome, remarkable alike for its enormous size and the perfection of its foldings. The conditions in the field, it is believed, insure flowing wells under heavy pressure."

Prof. F. V. Hayden, than whom no more scientific geologist ever visited the Raven Park Oil Fields, in his report to the government says: "Raven Park has a quaquaversal shape. The dip of the strata is in all directions from the middle of Raven Park." (A quaquaversal dip is an anticlinal dome.)

EXPERT OPINIONS OF THE RANGELY OIL DISTRICT

We Are Now Drilling Our Second Well. Stock Advances to 10c a Share -June 15

MILLIONS MADE IN OIL

Of course, you know of many men who have made their millions in oil fields. Many of you know that the leading and most successful oil operators have, for the past few years, been exploring the fields of Colorado. It is stated upon good authority that this field is destined to become one of the greatest fields in the world.

ALREADY A GOING CONCERN

This company has already begun drilling its second well, hence you are not invited into an unknown proposition. Work has begun in earnest and daily progress is being made. Hearing of the great excitement caused by the discovery of high-grade paraffin oil in Rio Blanco County, Colorado, our Mr. Smith made a careful personal investigation of the field last November. What he found was almost unbelievable. At a few hundred feet deep in this field, designated by the government as the Rangely Oil District, they were bringing in wells of oil worth $2 a barrel as it came from the ground. Compare this with California, Texas and Oklahoma crude oil worth about 50 cents a barrel and figure the large profits in sight. Fifty wells with the same high-grade paraffin oil prove absolutely the truths contained in the official government report on this district, "BOOK No. 350, RANGELY OIL DISTRICT," copy of which can be obtained free by writing the United States Geological Survey, Washington, D. C.

Mr. Smith was fortunate in securing 80 acres of choice land, sufficient for 80 wells. Upon his return to Denver the latter part of November arrangements were perfected to begin immediate work and show our good faith by starting well No. 1 before asking anyone to put a cent into the proposition.

HERE IS A PROPOSITION

which for quick and large profits surpasses anything ever before offered by this financial house—a house with a record of success in every investment offering, and whose clients are making large profits, while others waste their money in purely wildcat securities.

The prompt response from those who received our recent announcement of the opportunity to secure pre-organization stock resulted in quickly securing ample funds for present requirements. Engine, boiler and complete outfit was secured, and expenses promptly paid, and we still have money in the treasury. Work in the field is being actively pushed, and success seems assured. Reports are exceedingly favorable for large profits to each shareholder. In future stock will only be sold from time to time at higher prices to provide for further development. In the near future we will need only to meet our pay roll and other expenses. For this purpose we will accept a few more subscriptions at five (5) cents a share, payable in five equal monthly installments. As only a limited amount of installment stock will be reserved at three cents a share, prompt application is necessary.

NEW CLIENTS INVITED

We want YOU with us in this great opportunity, no matter how small your investment. No one is allowed more than $200 worth at five cents a share, as the stock is thus limited so all will participate pro rata in this distribution, destined to make profits large enough to please each member.

Don't wait until you can send the maximum amount of $200, but take what you can at once, for the opportunity to-day offered you will be a matter of history, TOO LATE. We invite you to become a stockholder now, before price of shares advance.

An Invitation to the Reader

The corporation offers for sale a limited amount of treasury shares upon exceptional terms to investors who may desire to secure an interest in this great proposition. Funds received from this subscription offering are to be used in further extending the development work in the Rangely field, and with surplus constantly in its treasury, unusual opportunities of acquiring valuable holdings may be taken advantage of as they arise.

Immediately subscriptions have been received for this allotment of treasury stock it will be withdrawn from the market.

MONTHLY PAYMENT 20 PER CENT. WITH ORDER AND 20 PER CENT. A MONTH APPLICATION

As only a limited amount of stock can be sold at Five Cents a share, each subscriber will be limited to not exceeding $200 worth, so all can secure at least a little of this original issue and participate in the advance in price of shares.

READY REFERENCE TABLE

$1.00 cash and $1.00 a month for four months buys	100 shares, face value $100.00
$2.00 cash and $2.00 a month for four months buys	200 shares, face value $200.00
$3.00 cash and $3.00 a month for four months buys	300 shares, face value $300.00
$4.00 cash and $4.00 a month for four months buys	400 shares, face value $400.00
$5.00 cash and $5.00 a month for four months buys	500 shares, face value $500.00
$6.00 cash and $6.00 a month for four months buys	600 shares, face value $600.00
$7.00 cash and $7.00 a month for four months buys	700 shares, face value $700.00

GAS DISTENDED HIS STOMACH

Caused Palpitation and Prevented Sleep. When Health Was Gone, Cure Followed Use of "Nerviline."

"My last wish will be," writes Harry P. Pollard, a well-known boot and shoe traveller of Hartford, "that everyone with a bad stomach may learn as I did, before it's too late, that Nerviline is the one remedy to cure. Why, I was in mighty bad shape, my digestion was all wrong, and every night I would awaken with a start and find my heart jumping like a threshing machine. This was caused by gas on my stomach pressing against my heart. When I started to use Nerviline I got better mighty fast. It is certainly a grand remedy for the travelling man, keeps your stomach in order, cures cramps, breaks up chest colds and sore throat prevents lumbago or rheumatism. —in fact there hasn't been an ache or pain inside or outside for the past two years that I haven't cured with Nerviline. Do you wonder I recommend it?"

TESTIMONIAL NO. 4890

For general household use Nerviline has no equal; it will cure the aches and ailments of the entire family—refuse anything but Nerviline. 25c per bottle, five for $1.00, all dealers or the Catarrhozone Co., Kingston, Ont.

FOR STONEY LAKE

For the week commencing Monday, May 29th, the steamers will leave Lakefield on the arrival of the morning train, returning in time to connect with the evening train on Monday, Tuesday, Friday and Saturday.

STONEY LAKE NAVIGATION CO.

F. G. Young, Manager.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Tent For Sale.

Tent for sale—Large, only in use a few weeks, very reasonable. Apply W. J. L. Elliott, head of Weller St.

Attended in a Body.

The members of Lansdowne Lodge, S.O.E., attended divine service at All Saints' church yesterday evening in a body, where a most instructive and interesting sermon was preached by the Rev. Mr. Trumpour.

Breach of Game Laws.

Two farmers, residing in North Monaghan, a short distance from the city, were charged at the Police Court with shooting wild ducks on April 14th last, during the protected season. Only one of the men were proven guilty, and he was fined $12, which was paid. Rather an expensive duck.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists.

Take Hall's Family Pills for Constipation.

Denounced Ne Temere.

Rev. W. C. Riddiford, of the Park street Baptist Church, referred to the famous Ne Temere decree in his sermon last night. He denounced the attitude of the Pope and the marriage question, and told the large congregation assembled that Protestants were determined to see that the obnoxious decree was annulled.

An Educational Treat in Cookery.

Miss MacPhee, who is head demonstrator for the Ogilvie Flour Mills Company, has been sent to this city to show the housewives the new and simple up-to-date methods of making bread and pastry from their celebrated Royal Household Flour. Miss MacPhee invites every lady of Peterborough to attend her classes during her stay in your city at 1.30 p.m. sharp.

Peterborough Man Injured.

George Carter, whose mother lives at 310 Aylmer street, Peterborough, was injured in Toronto by a street car on Friday. He was knocked off a street car by the car coming in contact with an automobile, and had two ribs broken. He was taken to the hospital where his injuries were attended. Mr. Carter is 23 years of age, and went to Toronto in February last, to learn street car work.

Uncle Tom's Cabin.

The advertising given through the street parade helped the Uncle Tom's Cabin Company in their performance in the Grand Opera House on Saturday afternoon and evening. A more liberal use of printers' ink would do much more. Theatre managers who slap a big advertisement in the evening papers, thinking they have covered the whole city usually find out their mistake when too late. The Times has a big constituency of readers who are not reached by the above methods. The show on Saturday was not a money-maker, neither was it deserving of special praise.

Disappeared in the Night.

The fence of birch stakes and wire at the Collegiate Institute lawn has mysteriously disappeared and there is indignation on the part of some interested people at the action. The fence didn't add to the horticultural effects, but it served the good purpose of stopping short cut fiends from walking on and destroying the grass. Spare the rod and spoil the grass.

Col. H. C. Rogers Heard From.

A cleverly-written letter appears in the Montreal Star of 25th inst., from Col. "Harry" Rogers of Victoria, B. C., formerly postmaster of this city. Col. Rogers takes the ground that Canadians are living in a fool's paradise, and that they should make provision to defend themselves in case of invasion.

Their 63rd Wedding Anniversary.

Mr. and Mrs. Wm. McIndoo, of Manvers, celebrated their 63rd anniversary of their wedding on Thursday, 25th inst. Both are in fairly good health, considering that Mrs. McIndoo is in her 82nd year and Mr. McIndoo in his 83rd. Mrs. Jas. McRoberts, of Millbrook, and Mrs. W. H. Hooper, of Pontypool, were the only two members of their six surviving children who were near enough to be present on the above occasion.

Coronation Stamps.

The contract for printing a special issue of postage stampr to be known as the coronation issue has been awarded to the American Bank Note Company, and it is expected that they will be distributed throughout the country by June 3rd, the King's birthday. These stamps will be double the size of the ordinary postage stamp and only a limited number will be printed, as in the case of the Quebec Tercenteniary issue. The new two-cent stamps for ordinary use bearing the head of the new king will not be ready for some time.

Destroy the Caterpillars.

The tent caterpillar is going to be a dreadful pest this season unless very prompt and decisive measures are taken to combat it. Almost everywhere you look nests can be seen by the score. The best way to rid an orchard of them is to burn them out with a torch, but unless this is done soon they will destroy every bit of foliage on the trees as the hot weather is bringing them out very fast.

A Surprise for Peterborough.

The Ogilvie Flour Mills Company of Canada, the largest milling concern in the British Empire, have rented the ground floor of the T.A.S. Hall, as being the most convenient they could secure to accommodate an audience. Miss Jean MacPhee, graduate of Household Science, Guelph, and the Boston Cooking School, is showing the easiest and most economical methods of handling their high grade Royal Household flour, also serving a delightful afternoon tea free of charge. The Ogilvie Flour Mills Company cordially invite every lady in Peterborough to attend at 2.30 p.m. sharp every afternoon until June 7th.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mrs. Ernest Green, Toronto, is visiting her parents, Mr. and Mrs. W. H. Meldrum, Macdonnell street.

Mr. Alexander Elliott, late of Sanderson and Co., jewellers, has gone to his home in Selkirk, Scotland. He intends returning in August after which he leaves for Vancouver, B.C.

The many friends of Dr. A. J. Robertson, 174 Antrim street, who has been quite ill for some months, will be pleased to learn that he is rapidly recovering and is now able to be about again.

Mr. R. J. Menzies, of Lindsay, formerly a resident of Peterborough, is leaving for Saskatoon, where he will reside in future.

Hastings Star:—Mrs. Robt. Johnston and son Herbert moved to Peterboro last week, where they will make their home in future. Mrs. Johnston and family have been residents of Hastings for over thirty years and their many friends wish them every happiness in their new home.

Miss Dixon and Mrs. Brown, who were at Niagara Falls, attending the annual meeting of the Graduate Nurses' Association, have returned home.

Mrs. Jas. Solomon, of Brighton, who has been visiting her sister-in-law, Mrs. George Turner, Division street, returned home on Saturday.

Lame shoulder is nearly always due to rheumatism of the muscles, and quickly yields to the free application of Chamberlain's Liniment. For sale by all dealers.

PUBLIC NOTICE

NOTICE is hereby given that pursuant to the provisions of The Consolidated Municipal Act, 1903, the Council of the City of Peterborough, intends at a meeting thereof to be held at the Council Chamber in the City of Peterborough, on Monday, the third day of July, 1911, at the hour of 8 o'clock P. M., to pass a by-law to stop up and close that part of Water Street, in the said City of Peterborough, formerly known as the River Road, as shown on Registered Plan No. 14 for the City of Peterborough, described as follows:—that is to say—Commencing at a point where a concrete monument is planted in the easterly limit of said Water street at the distance of twelve hundred and fifty-nine and nine-tenths feet measured north 14 degrees 9 minutes east astronomic along said easterly limit of said Water Street, from its intersection with the northerly limit of Hilliard Street, where another concrete monument is planted —thence north 11 degrees 34 minutes east, a distance of one hundred and seven and four-tenths feet — thence north 7 degrees 36 minutes east a distance of ninety-two and four-tenths feet—thence north 4 degrees, 31 minutes east a distance of one hundred and fifty-nine and five-tenths feet —thence north 8 minutes east a distance of eighty-eight and eight-tenths feet—thence north 6 degrees 59 minutes west, a distance of ninety-two and two-tenths feet, thence north 10 degrees, 17 minutes west, a distance of two hundred and twenty-six and five-tenths feet, more or less, to where another concrete monument is planted in the easterly limit of said Water Street and thence southerly following along the easterly limit of said Water Street and the westerly limit of the property of the Auburn Power Company of Peterborough (Limited) to the place of beginning, and containing by admeasurement seventeen one hundredths of an acre more or less and shown on the plan filed in the office of the City Clerk by the portion colored red; and when so closed up to convey the same to The Auburn Power Company of Peterborough (Limited) the owner of the land adjoining said street on the east for the consideration that the said Auburn Power Company will lay a main in its proposed new dam across the River for the use of the City and the Water Commissioners from the eastern limit of said Water Street to the property of The Auburn Woollen Company, Limited, on the east side of the River.

AND ALSO to grant to the said Company on payment of $1 per year the right to use a further part of said Water Street to extend the westerly face of a proposed concrete revetment wall westerly under the said street at the slope or batter of not more than one foot horizontal to one and one-half feet vertical, to the full depth of the said proposed concrete wall; the westerly edge of the top of said wall to be on, or easterly of, the westerly limit of the above described land; as shown and described on a typical diagram, or cross section of the proposed wall filed in the office of the City Clerk.

AND TAKE NOTICE that at the said time and place the Council will hear in person or by Counsel or Solicitor any one whose land might be prejudicially affected thereby and who petitions to be so heard.

Dated this 19th day of May, 1911.

S. R. ARMSTRONG,
City Clerk.

VOL. XXXIV NO. 27 PETERBOROUGH, ONTARIO, TUESDAY MAY 30 1911 PRICE TWO CENTS

THE POPE PROTESTS AGAINST ACTS OF THE NEW REPUBLIC

PORTUGAL'S LAW OF SEPARATION DEPLORED BY THE HOLY SEE.

Declares Them Null—Encyclical Address That Vatican Cannot Longer Keep Silent—Cites Many Objections.

Rome, May 29.—An encyclical, addressed by Pope Pius to the Roman Catholic Bishop, throughout the world, strongly deploring the anti-religious attitude of the Governments of the Portuguese Republic, was officially published at the Vatican today.

The encyclical deals with the violent expulsion of religious orders from Portugal since the suppression of church holidays, religious oaths, and religious teachings; the introduction of divorce laws; the arbitrary deposition of the Bishops of Oporto and Beja, and finally with the law separating church and state.

The Holy See, the encyclical says, has been patient up to now, but cannot longer keep silent as the law of separation denies the Catholic citizens even common liberties. Such a law is spoliation of material goods and a tyrannical oppression in spiritual affairs. Man is deprived forever of a fixed church in which to maintain worship. The law even violates the will of testators.

Ecclesiastics, the encyclical declares are excluded by the law from organizations of cult. It prohibits the publication of ecclesiastical acts. It forbids religious emblems. It encourages rebellion and the corruption of the clergy, pensioning those who have been punished by bishops, or those living with women.

The law aims to detach the Portuguese Church from Rome, the encyclical says in conclusion, and therefore the Pope condemns it as null, it having no value against the inviolably rights of the Church.

Practically the whole population of Portugal is nominally Roman Catholic.

Grand Trunk Service to the North-West.

The Grand Trunk are in receipt of the following letter, in connection with tourist sleeping car operated from Toronto to Winnipeg and Edmonton via Chicago, April 18th:—

"Upon returning from my western trip I feel it my duty to write to you and say that the accommodation we received was far beyond our expectations and every member of our party was more than pleased with the courtesy shown by your officials both at Chicago and Winnipeg."

(Sgd.) T. A. NEELEY.

JARDINE'S FATE IN BALANCE

Many Petitions for Condemned Italian Woman At Sault Ste. Marie.

Ottawa, May 29.—The Chief Engineer of the Public Works Department is about to report upon the plan of the Polson Iron Works for a dry dock of the third class at Toronto. The question is largely as to the amount upon which the annual subsidy of 3 per cent. will be granted. There is good prospect of the matter being determined shortly.

JARDINE'S FATE.

The Justice Department has under review the evidence in the capital case of Edward Jardine—under sentence of death at Goderich on June 16th. The matter hinges largely upon the sanity of the condemned man. Many petitions are being received for clemency to Angelina Napolitano, the woman sentenced to be hanged at the Sault. Suffrage and Women's associations are particularly active.

HIGH COURT VACANCY.

It is improbable that the vacancy on the High Court Bench of Ontario will be filled until autumn as the courts are but entering upon operation. It is stated that Hon. J. J. Foy, Attorney-General of Ontario, could have the position if he would take it.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

"COMMON SENSE."

Editor Morning Times.

Sir,—The man who writes over the nom de plume of "Common Sense", talks nonsense. If his idea was followed to its logical conclusion, it would mean that our cities and towns would become stagnant and fossolized. In this age of enlightenment the world cannot afford to sit down and wait. Hustle and work is the order of the day. This applies to cities and nations as well as to individuals I hope no one will be misled by such feeble sophistry.

Progress.

TOOK TEN SHOTS.

Editor Morning Times.

Sir,—I would suggest to our worthy chief of police the advisability of adopting a more humane way of destroying dogs that have to be killed than shooting them. The other day it took ten shots to end the life of a poor little dog that had been sentenced to death. The first shots only wounded the poor little fellow, whose pleading eyes and mournful cries of terror were pitiful in the extreme. I am sure Chief Thompson, who I believe, is a kind hearted man, will see that chloroform is used previous to being shot. The present methods are barbarous in the extreme.

A Lover of Dogs.

A BIG KICK COMING.

Editor Morning Times.

Sir,—I beg to direct the attention of our City Fathers to the fact that the oil which is being used on the streets is ruining bicycle and auto tires. There is no doubt about this at all. If the Council persist in using oil, there will be actions for damages against the city. Of this they can be assured.

Autoist.

WILL FIGHT WHITNEY.

Editor Morning Times.

Sir,—There is a strong feeling in East Riding against the Whitney government in regard to bilingual schools. His policy of inaction will be fatal to the Conservative party in this riding, I am assured. There will be an independent Conservative candidate in the field, who will be pledged to vote against Romish aggression whenever it shows its head in the Legislature. The attitude of The Times on this, as well as other questions is making many friends, and incidentally many subscribers throughout East Peterborough. Keep up the good work. All we Protestants ask and expect is a fair deal—no favors to any race or creed.

S.W.

HE'S A CONVERT TO A GROWING BELIEF

THAT DODD'S KIDNEY PILLS ARE THE SURE CURE FOR KIDNEY DISEASE.

Mr. Rennie Moulaison Was Treated by Two Doctors, But Found His Relief and Cure in Six Boxes of Dodd's Kidney Pills.

Surette Island, Yarmouth, N. S.—May 29—(Special)—Rennie Moulaison, a fisherman of this place, is a convert to the growing belief that Dodds Kidney Pills are the sure cure for Kidney Disease.

"My trouble started with a cold," Mr. Moulaison states. "My muscles would cramp, I had backache and I had dizzy spells. My head often ached and I had a tired, nervous feeling while specks of light flashed in front of my eyes.

I suffered in this way for over two months and was treated by two doctors, but they didn't seem to be able to do much for me. Then I started to take Dodd's Kidney Pills and soon started to improve. I took six boxes in all and now I am glad to say I am cured."

If you have any two or three of Mr. Moulaison's symptoms you may be sure your Kidneys are not in good working order. Bad Kidneys mean Backache, Rheumatism, Heart Disease or Bright's Disease unless attended to. The one sure way to cure them is to use Dodd's Kidney Pills.

A POLICY OF SILENCE BY CHURCH OF ROME

The Orange Sentinel Says It Will Have No Effect

In discussing the policy of silence adopted by the heirarchy, the Sentinel says that in the case of the No Temere decree silence is golden. They are meeting the agitation of Protestants by maintaining a most discreet reticence. This is one of the historic methods of Rome for meeting an awkward situation. The Bishops hope that by not providing any fuel for the flame of agitation that is burning throughout the country it will expire for lack of materials.

It is important that the Protestant ministers should understand Rome's policy in this regard and that they should not be deterred from continuing their opposition by such tactics as these. The silence which the Bishops maintain convicts them of trying to put into effect a decree that is indefensible. If the papal edict were based upon any solid ground of reason, or logic, or Christianity, they would surely be able to defend it. That it has no such solid basis to prove is by the fact that after Father Minehan delivered one sermon the entire body of Roman priests have refrained from discussing it.

There could not be more convincing evidence of the weakness of the position of the Church on this question than the fact that they resolutely refuse to try to meet the arguments which are advanced by Protestant ministers in opposition to the decree. We trust, however, that from the Protestant pulpit protests will continue to arise, and that nothing short of a federal marriage law, with criminal penalties, will be accepted by those who are fighting for equal religious rights.

NO CIGARS OR CANDY CAN BE SOLD SUNDAY

Toronto, May 29.—In each of five cases where dealers and merchants, who had been tried and acquitted for selling cigars, candies and soft drinks on Sunday, Mr. Justice Middleton, who heard the appeal of the Attorney General at Osgoode Hall, has ruled that there should have been convictions as an offence had been committed against the Lord's Day Act.

The offenders cannot be re-arrested and tried on the old charges but a violation of the act now will mean punishment. This means that sales of all kinds with the exception of ice cream, drugs and medicines and where need on the ground of mercy or charity is shown are a direct breach of the law and punishable.

THE CASES.

The cases were Rex V. Aldeen; Rex V. Wells; Rex V. Waldock and Rex V. Roe. There were two charges against S. R. Wells, a restauranteur, at 145 Front street east, one for selling cigars and the other for selling Lagerine, a local option drink. E. F. Waldock, the proprietor of the news stand of the Imperial Hotel was charged with selling cigars on Sunday and Joseph A. Aldeen, a restaurant-keeper at 358½ Yonge street, was tried for selling candies. Roe, a druggist, was tried for selling cigars on the Sabbath.

All were acquitted at the trial and the Attorney-General, in order to get the ruling of a higher court, made an appeal in each case.

Waldock, the news dealer, at the Imperial Hotel, claimed the protection of the hotel-keeper, whereas the Crown claimed that he was a merchant who had pursued his regular calling on the Seventh Day. Roe, the druggist, claimed that he sold the cigar as a drug.

CIGAR IS NOT A DRUG.

Mr. Middleton, in his decision, states that he fails to see how a cigar can be a drug any more than big our sold over a bar. The liquor has alcoholic properties.

"In the Wells case (No. 1) the selling of the cigar was against the Act," he decided. "In the Wells case (No. 2) the selling of the bottled lagerine for consumption away from the premises was also against the Act."

Aldeen is a restaurant-keeper, but is guilty of selling candies as a merchant.

CIGAR, NORMALLY, IS A LUXURY.

"Roe was acquitted on the ground that the cigar was a drug but its normal use is a luxury. It was never sold as a drug. The proprietor of an ordinary bar does not regard his business as the sale of 'drugs and medicine' even though alcohol has medicinal properties.

"The Waldock case appears to me to be simple. The accused is a proprietor of a news stand in the Imperial Hotel. He sells cigars as part of his ordinary calling. He is a merchant, and the sale of the cigar was a part of his ordinary calling and is a violation of the Act."

GERMANY'S NAVAL PROGRAMME

Nuremberg, Germany, May 29.—At the annual meeting of the Navy League a resolution was unanimously adopted in favor of laying down an additional armoured cruiser annually until 1917 to replace obsolete cruisers of the Hertha class.

If adopted this will mean the building of three capital ships yearly instead of two, as provided by the navy law. Admiral Von Koester, President of the League, urged the importance of insuring that the German sea power is second best in Europe.

Canadian Cadets Won Imperial Competition.

London, May 29.—The Canada Cadets are winners in the inoculation competition at the Imperial Cadet Rifle meeting. Lieut. Goodenough made 13 hits in 45 seconds.

Four Years for Burglar.

Belleville, Ont., May 29.—Frank Lawrence, a man 57 years of age, who claims to have lived for years at Little York, was sentenced to four years in the penitentiary on Saturday. He burglarized S. A. Lockwood's residence, in this city.

JOSEPH JESSIMANE FIRES FIVE BULLETS INTO BODY OF JAS. LOUGHEAD—VICTIM DEAD

Toronto, May 29.—In a desire for revenge, as he believed that he had been financially ruined in a real estate deal by a man who had once been his next door neighbor, Joseph Jessimane, 69 Marlborough avenue, fired four shots from a 32-calibre revolver into the back of James Loughead, who had sold him the property, about 8 o'clock this morning near the corner of Laplante avenue and Hayter street, and was immediately overpowered by passersby and held until the arrival of the police from Agnes street police station a few minutes afterwards.

The victim died at St. Michael's Hospital just before noon and a charge of murder has been laid against Jessimane.

After having waited for over an hour for his victim, riding back and forth on a bicycle in the neighborhood in which Loughead lives, Jessimane darted for him soon after he had left his home at 63 Laplante avenue, carrying a long ladder for his work. With a cry of "You have ruined me," Jessimane first staggered Loughead with a blow with his fist and then drawing a big black revolver began emptying the chambers into the man as he ran away. Four of the leaden pellets found their mark and Loughead fell in a lifeless heap at the corner of Hayter and Teraulay streets, a few yards away, where he lay until he was hurried to St. Michael's Hospital in an automobile of Mr. Wm. Leach, concrete contractor, who is erecting part of the new General Hospital, which is not far from the scene of the shooting.

WITNESSED THE SHOOTING.

Jessimane had remounted his wheel and had started off when he was grabbed by Mr. Egbert Keffer, of Keffer's bakery, 534 Young street, who happened to be passing. "Bill" Self, the well-known motor bicycle rider, and "Billy" O'Brien, who were looking over the General Hospital job, also witnessed the shooting, and ran to hold Jessimane. Self, first jumped on his twin cylinder Indian motor cycle when he saw Jessimane mount his bicycle, in order to set in pursuit, but the man was captured without a chase. O'Brien took the gun from the man's pocket while somebody else telephoned from an Italian grocery store for the police. Jessimane was perfectly docile afterwards and kept muttering "I don't give a —— for my life," and "He ruined my life."

SIGNED A CONFESSION.

Upon arrival at the station house Jessimane made a signed declaration as to his motive. The deed was very premeditated, as Jessimane had brooded over the sale ever since it had been consummated about one year ago. Mutual friends and neighbors had known for some time that he had threatened to get even and it was thought that he was going crazy. He had been very ill with typhoid fever and since then had been a great deal worse, his outbursts of anger becoming quite frequent. After he had tried to kill Loughead, he seemed quite satisfied and little worried as to his own future. He quite willingly told the police when they arrived upon the scene that "I am the man that done it." He was arrested on the charge of shooting with intent to kill.

PRICE WAR IN STEEL PRODUCTS

THE TRUST MAY GO RIGHT AFTER THE INDEPENDENTS, WHO STARTED CUTTING.

Judge Gary Silent—Some of Them Favor Slashing Everything, Including the Sacred Rails.

New York, May 29.—Whether there is to be a price war in the steel trade, which will effect every article of manufactured iron and steel will be decided within the next twenty-four hours.

Judge E. H. Gary, chairman of the Board of the Steel Trust, who came to New York to-day from Chicago, conferred with his associate trustees. He was accompanied here by E. B. Buffington, president of the Illinois Steel Co., and other trust officials.

When the steel trust has decided on a course of action it will get in touch with the independents, except the Republic Co., which started the price cutting, and a concerted plan of action is expected to be agreed upon. Gary does not want a general cut in steel prices. He thinks if the various companies meet the cuts on the articles manufactured by the Republic it will be enough. But the other men are more aggressive. They counsel slashing everything, including steel rails heretofore considered sacred, and permitting all existing "gentlemen's" agreements to be abolished until next fall.

Actual competition in the steel trade, they say, might prevent suits against the U.S. Steel Corporation under the Sherman anti-trust law.

Judge Gary will testify before the Stanley congressional committee on Thursday. To-day he refused to discuss the testimony given by John W. Gates on Thursday, when Gates showed how the steel trust gobbled up the Tennessee Coal and Iron Co.

DERBY FAVORITE GUARDED DAY AND NIGHT BY SENTRIES

London, May 29.—The Coronation Derby will be run at Epsom on Wednesday, in the presence of the king and Queen, when one of the largest fields of horses seen out in recent years will go to the post.

Elaborate precautions are being taken to guard the favorite, Sunstar, and a sentry keeps watch over the box all night. It is alleged that there is a deliberate plot, formed by persons not connected with the stable to prevent this horse from winning.

The volume of betting on the Derby all over the world is so enormous, that the bookmakers stand to lose quite as much as a million pounds by the success of Sunstar.

GOVERNMENTS SHOULD REFUSE TO SANCTION "NE TEMERE" DECREE

Toronto, May 29.—As intimated, the Evangelical Alliance yesterday afternoon decided to postpone the mass meeting on the Ne Temere decree until the autumn.

A resolution was passed unanimously, declaring that the Dominion and Provincial Governments alone were qualified to deal with matters governing marriage, and that they should withhold their sanction of any decrees and should refuse to recognize any decree as being legal or authoritative.

A vigorous educational campaign will be carried on in all the Protestant denominations in Canada.

The resolution was as follows:

"This Alliance, while recognizing the right of all religious organizations to make disciplinary regulations affecting the members of such organizations, is of the opinion:

"(1) That no religious organization has any authority, directly or indirectly, to affect by its rules, decrees or regulations, the civil rights or status of any persons who are not members of such organization; and

"(2) That it is the duty of the Dominion and Provincial legislatures to prevent by appropriate legislation the possibility of the disciplinary rules or regulations of any religious organization from being enforced or recognized by a court of law to the prejudice of any person who is not subject to such rules or regulations; and

"(3) That the various Provincial Legislatures, in the exercise of their jurisdiction to define by what persons marriages may be solemnized within their territorial jurisdiction, should frame or amend their legislative Acts in this respect so as to make marriages between persons competent by law to contract marriage when solemnized by the persons authorized by the Legislatures valid and effectual in law irrespective of the religion of the parties married.

"(4) That the decree known as 'ne temere' of the Roman Church can only be enforced in Canada with the sanction and assistance of the Dominion and Provincial Legislatures, and that in the interests of justice and equal rights it is the duty of these Legislatures to withhold their sanction to the enforcement of such decree, and to refuse in any way, directly or indirectly, to recognize the same as being of any legal validity or authority whatever in Canada.

"(5) That if, as has been determined, the effect of section 127 of the civil code of Quebec or any other law of that Province is to invalidate marriages of Roman Catholics unless solemnized in accordance with the rules and regulations of the Church of Rome, notwithstanding they may have been solemnized by a person authorized by section 128 of the said code, then the said section 127 ought to be amended or the law so changed as to remove its invidious and unjust discrimination."

MISS ELCOME'S PUPILS GIVE PIANO RECITAL

The pupils of Miss Bessie Elcome gave a delightful piano recital last night in the Conservatory of Music. There was a good attendance. The following is the programme:

Playful Roads—Piano Duet—Misses Eunice Aylmer and Doris Burnett.

Dutton—Under the Rose—Master Reginald Dixon.

Kregmann—The Robin's Lullaby—Miss Isabel Donnely.

Heins—Barentana—Master Charlie Armstrong.

Sartorio—Italian Barcarole—Miss Jean Milburn.

Forman—June Morning — Master Norman Foot.

Durand—Melody. No. 6, Piano Duet—Miss Helen Thompson and Master Vaughan Walker.

Scotch Song...Bonnie Doon—Miss Annie Robinson.

Ducelle—Sleigh Ride—Miss Helen Moore.

Ducelle—May Bells—Miss Camilla Betcher.

A Ritter—Hunting March — Miss Gladys Yelland.

Lichner—Sommer—Miss Doris Burnett.

Costa—March of the Israelites—Piano Trio—Miss Lizzie Webber, Helen Moore and Hilda Bonner.

Dorn—Happy Thoughts—Miss Gretchen Gladman.

Chaminade—Scarf Dance — Miss Edythe Kerr.

Heine—Sweet Violet—Miss Frieda Jobe.

Duncan—Edmondstoune—March, Op 81, No. 4—Merkel-Leschetizki—Miss Ethel Buckham.

Mozart—Ronda a la Turque—Miss Carrie Cruikshanks.

Lange—Tanzlied—Miss Jean Anderson.

Wach—Les Myrtes—Miss Marjorie Gladman.

Mendelssohn — Consolidation—Miss Lizzie Webber.

Beethoven—andante, from Sonata, Op. 14, No. 2—Merkel—In the Lovely Month of May—Miss Hilda Bonner.

(a) Durand—Valse in E—

(b) Menselt—Liebeslied—Miss Mildred Mann.

Heins—Evening Chimes—Miss Ruth Mann.

God Save the King.

Children's Aid Society

For the care of neglected and ill-treated children. Incorporated by Act of Legislature, 1892. Information required. Informants' names kept strictly private. Office hours, 10 to 12 a.m., 1 to 3 p.m. George Cochrane, Agent and Assistant Secretary, Office, Division Court Building.

FATHER KILLED BY HIS BABY.

17-Months-Old Child Knocked Loaded Gun and Discharged It.

McPherson, Kan., May 29. — A baby, 17 months old, was the innocent cause of its father's death on his farm five miles northwest of Conway. Howard Little had been hunting wolves in a pasture and returning home he left his loaded gun standing on the porch, while he passed the time on the porch playing with his 17-months-old baby. The loaded weapon was leaning against the wall near where the father and the baby were enjoying themselves. Suddenly there was the report of a shot and Mrs. Little rushed to the porch to find that the discharge of the gun had entered the left leg of Mr. Little, terribly mangling the knee. The baby had pushed the gun over, discharging it. Little died at the McPherson Hospital. The family is well known in McPherson, having lived here for several years, when they moved on the farm north of Conway about a year ago. A widow and three children survive besides a number of relatives.

HALL'S BRIDGE

Weather — More settled, but still very warm.

The severest electric storm known in these parts, passed over us early on Tuesday morning, and lasted for three hours. No damage was done in this community, and many think they were very lucky.

Miss Pearl Jones spent last week visiting friends in Lakefield.

Mr. Frank Pearson spent Friday evening in Buckhorn.

Mrs. R. Hill entertained Rockcroft friends on Wednesday.

A number from Peterboro enjoyed the delightful journey and scenery of this community on May 24th.

Miss Huffman spent the 24th in Lakefield.

Mr. John McKenty left for Peterboro on Wednesday.

Mr. Thomas Wilson has secured the services of Mr. Jack Gilliespie for a few weeks until he regains his former strength.

Mr. Burt McDougal spent Wednesday in Burleigh.

Professor Hart, eye specialist and optican, passed through on Friday.

Mrs. J. Jones entertained Lindsay friends on Tuesday.

Mrs. James McGuire of Lakehurst, spent Thursday in the village.

Mrs. T. H. Northey called on Mrs. A. Fulton, Wednesday.

Messrs. Bell and Nichols have secured a large number of fine looking porkers for the piggery, and after being fattened up real well will bring a handsome little sum of coin.

Arrested Last Night

The police arrested a man named Collins late last night on a serious charge. Collins was formerly organizer for a fraternal society. Two drunks were also gathered in by the police.

ROYAL
5c—10c
BIG VAUDEVILLE SHOW AND MOTION PICTURES.

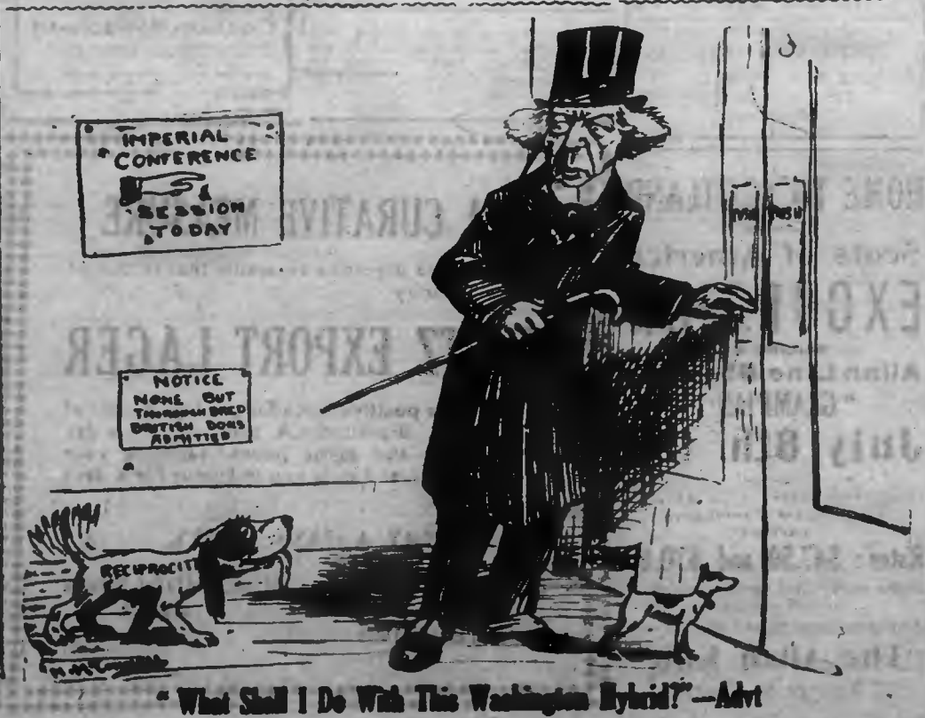
BIG ATTRACTION FOR TO-DAY.

The Royal has secured at big extra expense Four Special Vaudeville Acts for to-day. For a big, high-class Vaudeville Show, come to the Royal the first half of this week.

MOTION PICTURES.

Another complete change of motion pictures—everything new in pictures always to be seen at the Royal.

Remember the Royal is the coolest and most comfortably seated place of amusement to go to in the evening. Big electric suction fan and eight ceiling fans going all the time.



"What Shall I Do With This Washington Hybrid?"—Advt

WALKED AROUND WORLD

Julius Rath of St. Louis, Now Home, Has Perigrinated for 14 Years

Julius Rath, a globe trotter, who has thrice girdled this sphere, was in Toronto on his walking tour around the world. He started in 1897 from St. Louis to walk five hundred thousand miles, and he is to finish at the Panama Exposition at San Francisco in 1915. He was 14 when he started, and is now 28. Whether Rath has done what he claims there is no positive way of knowing, but his book of signatures seems genuine, and his has newspaper clippings to bear out his story. A club in St. Louis started him on his way, and if he completes the 250,000 miles he wins a prize of $30,000. He reports daily to the club, enclosing the proofs required.

TAKE IN THE BAHAMAS

Why T. S. MacAuley Would Make Them a Part of Canada

"In making the Bahamas a part of Canada," said Mr. T. S. MacAuley, a Canadian promoter of the federation, "we would be taking a long step forward in working out the destiny of Canada and the Empire. I see a vision of the future in which the British Empire is a great federation or partnership of five great nations—Great Britain, Canada, Australia, South Africa, and India—all of them independent in regard to their own affairs, and yet all united in bonds of common loyalty and common interests. The union of Canada and Bahama colonies into the one or the other of these five great parts would be a move towards the consolidation of the Empire."

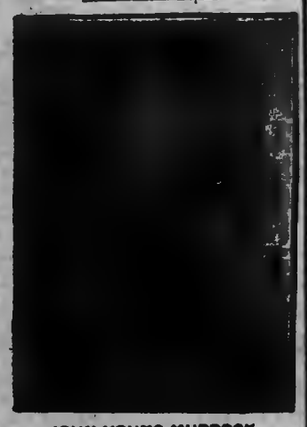
MORE MODEL SCHOOLS

The Ontario Department of Education Deals with Scarcity of Teachers

The Educational Department of Ontario has announced that new model schools will be established at various points in Ontario with a view to increasing the supply of qualified teachers. The Normal and Model Schools have been sending out more teachers than ever before, but the supply is still insufficient, due principally to the low salaries in Ontario and the inducements offered teachers in the western provinces.

MONEY FOR THE INDIANS

The British Columbia Government assembled the Songhees Band of Indians on the reserve on the water front opposite the City of Victoria and paid over to the heads of the tribes sums ranging from $3,000 to $11,500 each, a total of $425,000, for the surrender of the reserve. The Government also supplies a new reserve on Esquimault harbor, whither the Indians will move at once.



JOHN YOUNG MURDOCK

The Jarvis, Ont., lawyer who was charged with defrauding clients and forgery. He was arrested at Cincinnati.

BOOST THE CLAY BELT

Pioneer Farmer of New Ontario is in Favor of Aggressive Policy—Compete with Alberta

H. J. Bury, a pioneer farmer, in the Rainy River district, who has returned from a visit to his home in Warwickshire, England, advocates an aggressive policy to secure a fair proportion of the British immigrants now pouring into Canada, but who are nearly all of them going through to the Northwest.

The Midland Counties of England, he says, are ablaze with C.P.R. and other posters telling the farmers of the partially prepared farms on the irrigated lands of Alberta. This is a magnetic attraction to the English tenant farmer who is paying a rental of $15 an acre, and in consequence of his rent has no margin of profit over living expenses. Such tenant farmers possess personalty sufficient, when turned into cash, to give them a good start in the inviting irrigated and prepared farms of the Northwest.

Mr. Bury points out that Ontario affords a better proposition to the English farmer after he becomes established on a good Ontario farm, because the wooded land and the mixed farming gives two profitable seasons in the year, and the return is absolutely sure.

The great handicap is that the present policy of the province is to throw the task of opening up the country on the settler instead of following the example of the railways and land syndicates, by doing the preliminary work as it is being done in the Northwest.

Roadmaking is greatly appreciated by the settlers. This benefit to those who are already on the land will no', Mr. Bury points out, capture the British agriculturists for the clay belt, and the other new agricultural areas requiring settlement.

WESTERN REAL ESTATE

The formation of real estate and investment firms in the smaller cities throughout the western provinces has been responsible for heavy demands upon the floating supply of capital in Winnipeg. The funds available in local places are not sufficient to bring the deals that are on the tapis, and aid from the east is urgently requested. This aid is being furnished for the reason that outside propositions are often more inviting than anything Winnipeg has to offer. The supply of money is sufficient for current needs, and it is being freely circulated.

DEPARTMENT OF RAILWAYS AND CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and places of residence of each member of the firm.

An accepted cheque for the sum of $10,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheques thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 13th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of contract can be seen and form of tender obtained at this department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., H. J. Lamb, Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 9, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Seaforth Ontario," will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

WHAT M.P.'S GET IN THE COLONIES

An Interesting Return Covering the Salaries of Various Parliaments and Legislatures

An interesting return has been issued recently from the Colonial Office, containing a return showing the salaries paid to members of Parliament of the Dominions beyond the seas, with travelling allowances and other privileges.

In the Dominion of Canada in both the Upper House and the Lower House, $2,500 per session is paid, with travelling expenses, but there may be deductions for non-attendance.

Ontario—$1,400 per session. There is a mileage allowance, but deductions are made for non attendance.

Quebec—Both Upper and Lower Houses, $8 per day for 30 days, or $800 if the session lasts longer, with travelling expenses.

Nova Scotia, New Brunswick, and Manitoba—$600 per session in both Houses, with travelling expenses.

British Columbia—$1,200 per session, with travelling expenses.

Prince Edward Island—$160 per annum, with travelling expenses and $12 for postage.

Saskatchewan and Alberta—$1,000 per session, with a mileage allowance, but with deductions for non-attendance.

Newfoundland—Upper House, $120 per session; Lower House, $300 for residents in St. John and $300 for out-residents, with free postage during session.

Dominion of New Zealand—$1,000 per annum in the Upper House and $1,500 in the Lower House, with travelling expenses, but deductions are made for non-attendance.

In both the Upper House and the Lower House of the Commonwealth of Australia the salary is $2,000 per annum, with travelling expenses and deductions for non-attendance. The various States pay as follows:—New South Wales and Victoria, $1,500 per annum in the Lower House only, the former giving also free railway fares and postage, whilst the latter grants free railway passes only; South Australia, $1,000 per annum in both Houses; Western Australia, the same, but proposals are being submitted to increase the amount to $1,500; Queensland, Upper House, no payment, Lower House, $1,500 per annum. The members of both Houses have free railway passes, and in addition the members of the Lower House receive a mileage allowance. Tasmania, $750 per annum in both Houses.

The salary paid in the Union of South Africa is $2,000 pe rannum in both Houses, with deductions fo rnon-attendance. The provinces, viz., the Cape, Natal, Transvaal, and Orange Free State, pay $600 per annum in the Lower House, with deductions for non-attendance.

PLEASED WITH REINDEER

Dr. Grenfell is Well Satisfied with Experiments

Reports from Dr. Grenfell show that his introduction of the reindeer into Labrador has proved highly successful, says Rod and Gun. The milk is richer than cows' or goats' milk and makes particularly fine cheese, while the flesh is said to be much finer than ordinary deer. The soft rich fur makes warm garments and the dressed leather is valuable. The original herd of 300 is said to have increased to over 500. They are faster than the dogs, can draw heavier loads and live off the country where the dogs would starve. Dr. Grenfell has advised the Dominion Government to adopt wholesale breeding of reindeer and to change the Royal North West Mounted Police and post sledges from dog to reindeer equipment.

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

ON ALL SIDES IS PROSPERITY

Hon. W. S Fielding in His Budget Sees Still Greater Development

"Possibly at some previous times there have been some doubts on occasion as to whether or not there was that progress and prosperity which has sometimes been claimed, but if there ever was any difference of that kind it certainly does not exist now, for on all hands we have the testimony that the condition of Canada is a very prosperous and satisfactory one," said Hon. W. S. Fielding, Minister of Finance, in his Budget Speech. "The estimated revenue for the year ending 31st March, 1911, I place at $117,500,000. The estimated expense chargeable to consolidated fund will be $87,000,000, and this will give us a surplus of revenue over the ordinary expense of the Government of $30,500 000. The surplus estimated for the year 1909-10 was a generous one—$16,500,000, but ... large increase of revenue and a substantial diminution of expense the ... naturally grew to a larger figure, and, instead of its being the sum counted on, the actual surplus of the year was $22,091,963, which was a record surplus for Canada."

For the financial year 1909-10 Mr. Fielding stated that the surplus was a little over $22,000,000, which paid all the charges on capital account for railways and canals, for public works, for railway subsidies, for militia and for bounties.

The actual revenue for that year was $101,503,710, which was $16,000,000 in excess of that of the previous year, and $5,500,000 in excess of the record year of 1907-8.

For the year just closed the total revenue, when all accounts were in, would be, he said, one hundred and seventeen and a half millions, an increase of sixteen millions over last year's high record. The expenditure on consolidated fund account would be about eighty-seven millions, an increase of about seven and a half millions. And in this increase there was included the expenditures for Dominion land surveys and for militia, totalling two and a half millions, which would have formerly been charged to capital account, and also one and a quarter millions spent for the naval service, all of which were this year paid out of revenue.

In 1909-10 $35,971,911.94 was expended on what is called capital and special accounts. Nearly two-thirds of that was provided out of the revenue for the year. The balance added to the debt was $12,238,267.16. From the revenue of that year all the ordinary expenses of what is called consolidated funds, all the charges for railways and canals on capital account, all the charges for public works on capital account, all the charges for railway subsidies, all the charges for Dominion lands, all the charges for militia on capital account, all the charges for bounties were met, and also $7,600,000 towards the cost of the Transcontinental Railway. In that year $19,968,000 was spent on the Transcontinental Railway, but there was added to the public debt only $12,338,267.

Twenty years ago it would have taken six years' revenue to pay the net debt; ten years ago it would have taken five years' revenue to pay the net debt; to-day less than three years' revenue would pay the whole net debt of Canada.

The total annual trade was now nearing the $800,000,000 mark, and during the first eleven months of the past fiscal year had increased by $76,798,000. Since 1900 imports from Great Britain had increased from $44,279,983 to $101,068,534, while exports to Great Britain had increased from $96,500,000 tho $145,000,000.

"We are getting capital in abundance," said Mr. Fielding. "Population and capital are the two things that a new and growing country needs, and the country has every reason to be satisfied with its condition in this respect. With every prospect of business activity, with every ground for hoping for good crops, with trade and commerce flourishing, with the outlook so good generally, we have every reason to look with confidence to the future. There are those who will say, 'That being the case, let well enough alone.' I say that is not a sound motto for any country in this progressive age. The good business man never accepts the motto to let well enough alone. We are seeking new markets everywhere; our steamships run to all countries, many of them heavily subsidized; we are sending our trade agents over the civilized world; we are doing everything that is inconsistent with the policy of 'let well enough alone,' because, when things are going favorably that is not a reason for doing nothing. It is rather a reason for being alert, to avail ourselves of other opportunities. We need new markets in all directions; need them for the surplus products of Canada as it is to-day, and we shall need them in even a greater degree for the vaster surplus of Canadian products to come to us from the great west in the near future."

Hon. George E. Foster, who replied to the Budget Speech, said that in 1896 the Liberals had complained that an expenditure of $20,000,000 on consolidated fund account was entirely too large. But now they sought to justify an expenditure of $89,000,000. In 1896 they complained of the excessive burden of taxation. Since then they had taken $280,000,000 in excess of what the Conservatives would have taken had the old figures been taken as a basis of comparison, and the expenditure had been $427,000,000 more. In concluding, he urged the creation of a special committee to investigate and report impartially upon all items of public expenditure, and the appointment of a permanent Tariff Commission to adjudicate upon, after thorough scientific investigation, all proposals for tariff changes.

IN YOUR BOY'S INTEREST

Keep Him Out of a Job that Leads to Nowhere

Don't let your boy get into a blind-alley situation, such as that of messenger-boy, van-boy, door-boy, dock-boy, etc. These jobs usually lead to nowhere. There are hundreds of boys to-day who, because they are in situations with no prospects, will swell the army of casual laborers later on. Give them a chance of becoming skilled in some occupation; and there are hundreds of such occupations fully described in "Careers."

A CITY OF CHAMPAGNE

Epernay, France, is a Subterranean City of Wine

Epernay, in France, the centre of the rioting which recently took place in the wine-growing districts, is a vast subterranean city of champagne.

There are miles and miles of underground galleries, like streets, hewn out of the solid chalk, and flanked with millions of bottles of champagne of all blends and qualities.

It is not an inviting place, this subterranean city of wine. All is dark, dank and damp, with the temperature about zero. Yet in this low temperature, and under these dark and unhealthy conditions, thousands of workers spend the bulk of their waking lives.

For although the champagne is stored for so long as five and six years underground, it is not left alone there or unattended. Every one of the millions of bottles must be shaken up day by day. If this is not done regularly and properly, the wine ceases to ferment, and is spoiled.

Every now and again, too, in the earlier stages, each bottle must be opened for a fraction of a second, and a small quantity of the fermenting wine allowed to escape.

It is worse than useless to take any medicine internally for muscular or chronic rheumatism. All that is needed is a free application of Chamberlain's Liniment. For sale by all dealers.

700 MILES OF FENCE

C.P.R. Will Use 5,000 Miles of Wire in Prairie Provinces

Over 5,000 miles of wire will be used by the Canadian Pacific this year in building new fences along their lines in the prairie provinces.

This quantity of wire will build 700 miles of fence, which is the amount suggested for the work of the year. The fences are seven strands high, the wire used being the class without barbs.

Some of the old fences will be replaced, but for the most part the wire will be used in the construction of fences where there are none at the present time.

The work of building is done by contract; the company supply the posts, the contractors supplying the wire and doing the work. This latter will be done by one of the local companies.

ADVERTISE IN THE TIMES.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 60 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 80 volumes and handsome sectional bookcases will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 80 volumes to the schools, lodge society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily, and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured:—

STOPS A COUGH IN ONE NIGHT

The Story of Sufferers From Bronchitis, Asthma and Catarrh Proves the Value of Catarrhozone.

A cough may be Catarrhal with a dry tickling in the throat, it may be accompanied by a partial stoppage of the nostrils and shortage of breath Often there is a gagging in the throat and every cough tears and hurts.

Coughs have a hundred different causes, yours may be due to any of the following :—

Asthma	Inflamed Throat
Exposure	Bronchitis
Enlarged Tonsils	Pneumonia
Inflammation	Croup
Stomach Disorders	Pleurisy

The one remedy upon which physicians are relying to-day is Catarrhozone. It removes the cause of the cough, doesn't smother it. Catarrhozone is soothing, healing "direct cure" and cures the conditions that cause the cough.

Catarrhozone is infinitely superior to cough medicines, tablets, sprays, and emulsions, which for the most part are of no practical value except to ease the cough for the time being. Often liquid cough remedies contain opium, morphine and cocaine! With Catarrhozone you take no drugs—you employ nature's way—just inhale Catarrhozone's soothing, healing vapor and relief and cure follow promptly.

It's simply wonderful to think how quickly a bad throat or catarrh can be cured with Catarrhozone. Its rich balsamic vapor is carried along with the breath to the innermost recesses of the lungs, bronchial tubes and chest, making it impossible for the germ of any disease to live. Thus soreness in the chest is at once alleviated—phlegm is loosened and ejected from the throat, old standing coughs are removed.

REMEMBER THIS, you breathe Catarrhozone and it will cure any Winter ill. Large size, guaranteed, costs $1.00, and lasts two months; smaller sizes, 25c and 50c. Beware of imitations and insist on "CATARRHOZONE" only. By mail from the Catarrhozone Co., Kingston, Ont.

The Morning Times

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

TUESDAY, MAY 30th, 1911.

THE IMPERIAL CONFERENCE.

In London Tuesday, under the presidency of the Prime Minister of Great Britain, fifteen British Premiers or ministers representing all the self-governing overseas dominions of the Empire met to discuss those great questions in which the existence of an empire with land on every continent and islands in every sea, give rise.

No more convincing demonstration of the solidity and oneness of the British Empire could easily be given the world, says the Ottawa Journal. These representative ministers are in London voluntarily, they went there of their own wish, and because of the desire of the nations they respectively represent. Without a word of written constitution, these various nations, though world scattered, are bound as close to each other and to the Motherland by ties of blood, similarity of government, and identity of interest, as New York state and California are bound to each other, and to the nation of which they form a part.

There was a time when the ideal of advanced Imperial thinkers was a vast parliamentary and constitutional federation, in which each portion of the empire would form a legislative part. To-day, because of a natural development along another line, that idea is not so much entertained. True, much may, in guture, be done in the way of mutual inter-empire tariff concessions, and by a development of the present Imperial Conference into some still more imperially representative body. But such growth as the future may see will come gradually, and through an extension of the present forces, rather than by the sudden creation of some vast artificial binding tie, whose existence may serve to chafe rather than to unite. To the eye of faith the developments of the past dozen years, from the almost accidental creation of the colonial conference, and on through its growth into the Imperial Conference, and its gradual adoption of responsibility and definite duties, indicate and outline a more sure, natural and steady progress than any that would be likely under more forced conditions.

THREW AWAY MONEY.

Miser's Generous Act in New York Almost Made a Riot.

Throwing dimes, quarters and bills to the winds of Broadway, New York a man who said he was a miner from Mexico, staying in the Hotel Imperial, created so much excitement that a riot almost resulted.

He called up a number of youngsters and threw a handful of change in the air. It was picked up and the boys clamored for more. He walked on, the crowd only pausing to pick up the money he scattered. He went into a hotel for more change and came out loaded with nickels, dimes and quarters, which he laughingly

RE-OPEN BRIBERY CHARGES.

New Evidence Against Illinois Senator to Render His Expulsion Certain.

Washington, May 29.—The Republican leaders of the Senate Committee on Privileges and Elections have decided to accept the Democratic resolution ordering a re-opening of the Lorimer investigation, and when the vote is reached Senator Dillingham, the chairman, will simply not present his proposed substitute to the La Follette plan for a special committee, and let the Democratic substitute be adopted with the support of the regular Republican vote. This means that the full committee will be instructed to proceed to the further probing of the corruption charged against the election of Senator Lorimer.

EXPULSION IS CERTAIN.

The feeling in the Senate now is that the ultimate expulsion of Mr. Lorimer is certain. An influential member of the Committee on Privileges and Elections who last session voted for Mr. Lorimer, talked yesterday in a way that made it plain that the new evidence brought out in Illinois had convinced him that he had made a mistake. Mr. La Follette has already announced his purpose of definitely connecting Mr. Lorimer personally with the corruption used in his behalf, and in the opion of some of the men who formerly voted for Mr. Lorimer that connection has already been established. The new investigation and the new testimony will give ample excuse to Senators for changing their votes over to the anti-Lorimer column and many of them are eager for the chance.

Mr. La Follette did not get an opportunity to conclude his speech yesterday. Then Mr. Dillingham will make a brief statement and the voting will begin.

WORLD'S CROP PROSPECTS.

Bumper Wheat Crop in Argentina—Excellent Crop in Canada.

Washington, May 27.—Crop prospects in most foreign countries are fairly satisfactory. The Department of Agriculture here so describes the situation. Partial failures of the corn crop in Argentina and Uruguay and the backward season in almost all Europe are the only untoward conditions.

A bumper crop of wheat may be had in Argentina if the season proves good. The acreage planted is probably the greatest in that country's history. The same is true of its acreage in flaxseed and oats. Argentina's corn crop, however, shows the smallest yield for years. Uruguay's small crop is a failure. Winter wheat seeding in Australia has been so interrupted by rain as greatly to decrease the area sown. Heavy yields of oil seed and wheat in British India are indicated.

FAVORABLE CONDITIONS IN CANADA.

Spring wheat in Canada gives excellent promise. The seed was in the soil on May 1, over probably 80 per cent. of the land to be sown.

Central Europe shows but fair conditions. Winter wheat is rated average in Germany, but rye is under average. Austria and Hungary report unsatisfactory conditions. Russia, on the whole has fared very well with its cereals. They wintered well except in some parts of the south, where extensive replowings were necessary.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and

HAVE YOU ATTENDED

Ogilvie's big flour demonstration now going on in your city? If not you are missing an educational treat in cookery. The ground floor of the T. A. S. Hall, Simcoe street, has been rented for this purpose. Demonstrations commence at 2.30 sharp. Afternoon tea served free to housewives until June 7th.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards. Easy payments, 10 per cent. cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

PUBLIC NOTICE

NOTICE is hereby given that pursuant to the provisions of The Consolidated Municipal Act, 1903, the Council of the City of Peterborough, intends at a meeting thereof to be held at the Council Chamber in the City of Peterborough, on Monday, the third day of July, 1911, at the hour of 8 o'clock P. M., to pass a by-law to stop up and close that part of Water Street, in the said City of Peterborough, formerly known as the River Road, as shown on Registered Plan No. 14 for the City of Peterborough, described as follows:—that is to say—Commencing at a point where a concrete monument is planted in the easterly limit of said Water street at the distance of twelve hundred and fifty-nine and nine-tenths feet measured north 14 degrees 9 minutes east astronomic along said easterly limit of said Water Street, from its intersection with the northerly limit of Hilliard Street, where another concrete monument is planted —thence north 11 degrees 34 minutes east, a distance of one hundred and seven and four-tenths feet — thence north 7 degrees 36 minutes east a distance of ninety-two and four-tenths feet—thence north 4 degrees, 31 minutes east a distance of one hundred and fifty-nine and five-tenths feet —thence north 8 minutes east a distance of eighty-eight and eight-tenths feet—thence north 6 degrees 59 minutes west, a distance of ninety-two and two-tenths feet, thence north 10 degrees, 17 minutes west, a distance of two hundred and twenty-six and five-tenths feet, more or less, to where another concrete monument is planted in the easterly limit of said Water Street and thence southerly following along the easterly limit of said Water Street and the westerly limit of the property of the Auburn Power Company of Peterborough (Limited) to the place of beginning, and containing by admeasurement seventeen one hundredths of an acre more or less and shown on the plan filed in the office of the City Clerk by the portion colored red; and when so closed up to convey the same to The Auburn Power Company of Peterborough (Limited) the owner of the land adjoining said street on the east for the consideration that the said Auburn Power Company will lay a main in its proposed new dam across the River for the use of the City and the Water Commissioners from the eastern limit of said Water Street to the property of The Auburn Woollen Company, Limited, on the east side of the River.

AND ALSO to grant to the said Company on payment of $1 per year the right to use a further part of said Water Street to extend the westerly face of a proposed concrete revetment wall westerly under the said street at the slope or batter of not more than one foot horizontal to one and one-half feet vertical, to the full depth of the said proposed concrete wall; the westerly edge of the top of said wall to be on, or easterly of, the westerly limit of the above described land as shown and described on a typical diagram, or cross section of the proposed wall filed in the office of the City Clerk.

AND TAKE NOTICE that at the said time and place the Council will hear in person or by Counsel or Solicitor any one whose land might be prejudicially affected thereby and who petitions to be so heard.

Dated this 19th day of May, 1911.

S. R. ARMSTRONG,
City Clerk.

FLYING FREAKS

Amazing Ideas for Aeroplanes Described by Fred T. Jane

It is perhaps a matter for congratulation that many of the aeroplanes invented evinces a reluctance to leave Mother Earth for aerial regions; otherwise the list of aviation tragedies might be considerably augmented. For, judging by some of the freaks described by Mr. Fred T. Jane in "All the World's Airships," they certainly seem more fanciful than practical.

For instance, Rev. P. Cannon, who in 1909 designed an airship, taking his idea for the design from the first and tenth chapters of the Book of Ezekiel, which describes how, in the middle of the whirlwind, there were the likeness of four living creatures with wings which "ran and returned as the appearance of a flash of lightning. . . . And when they went I heard the noise of their wings like the noise of great waters. . . ."

As a specification, this did not probably satisfy the Patent Office in its original form; but the machine was built, and its successor, Ezekiel II., is now in course of construction.

Another freak described by Mr. Jane is the French flapper "Columb," which has lattice wings, with slats that open and close as the wings rock; but there is no record of its having flown. Germany has, among its freaks, the Geisler ornithoplane, which has flexible planes running over and under rollers to produce what is described as a "wave motion"; and this bears the footnote, "No record of any success." Another German machine, the Schulke flapper, has a gnat-shaped body, containing the "works," and paddles that feather on the up-stroke, giving it the appearance of a disjointed moth.

There is the Herbert monoplane, for instance, for which it is claimed that the large supporting tubes close telescopically. The tail folds over on to the back of the machine. The wings are easily and quickly detached. The entire machine can be made to occupy less space than an automobile in less than five minutes' actual time, and is quickly remounted.

The United States has an Irvine helicopter, which looks like a miniature topsy-turvy railway; the Richman machine, that has a tandem tricycle for its body, and something resembling a revolving parasol above; and the Twining flapper, with a bicycle frame and wings worked by "man power only." Another strange machine is the Lake "direct lift" aeroplane, with hollow, curved planes, against which "heated elastic fluid" is to be discharged to give lifting power.

TWO LOVE-MAKERS

How it Was that One of Them Won Out in the Race

Two young fellows were after a blonde. Number 1 could play eighteen holes in bogey and ride any jumper that ever wore a saddle. He was built like an ox. He wore his chest a few inches in front of himself, and no one could tell him where to get off. Inasmuch as he was a big, husky good-looker with all the manly accomplishments, he had a panel picture of himself leading Miss Blonde into a flat.

Number 2 belonged to the sub-duffer class, no matter what game he tackled. When he swung at a golf ball he usually hit himself on the ankle. In sailing a boat, he did not know a sheet from a sail. He ducked all kinds of athletic sports. In company he became mixed up and often had to be rescued. He was no ring performer, and he knew it.

Therefore, to avoid making too many breaks he would go to the blonde and confidentially ask her to be his true friend and steer him through the shoals. Number 1 would be sent out on the links, but Number 2 would remain under cover, and complain of feeling a trifle knocked out, and permit the blonde to put cold cloths on his head. Then he would give a couple of those long yearning looks and tell her that no one else had ever been quite so good to him.

Number 1 was trying to demonstrate that he was a dandy fellow, and Number 2 was trying to convince her that she was an ace of a girl.

"That poor boy needs a bright and clever woman to take care of him," said she. "He has learned to depend upon me, and it would be cruel to turn him adrift."

Number 2 won by a long way. The moral of this story is to star the lady, and she will discover your good points.

SANG AT HIS FUNERAL

Ficco's Voice Sounded from a Phonograph Record

We hear now and then of a man reading his own obituary in the papers, but it is a rare thing for a dead man to sing at his own funeral. Pietro Ficco, a shoemaker and amateur musician, had a very great fondness for the phonograph.

He purchased a good many records and occasionally sang into his own phonograph and kept records of the songs. He was taken seriously ill. He realized that he could not recover, and being a poor man and unable to afford much of a funeral he requested that his phonograph should be utilized to furnish the music for the funeral service.

He picked out the "Angel's Serenade" and Gounod's "Ave Maria," sung by himself, and these were used, and thus the dead man took an important part at his own funeral service. He instructed that his phonograph and seventy-two records, a number of them his own, should be sent to his mother in Italy.

NOT EASY TO INTOXICATE

A Manchester man, charged with drunkenness, pleaded that he had only three pints of beer, and, in reply to the Magistrate, explained that it took 16 or 17 pints to make him drunk.

A BETTER WORLD

No Poverty, He Says, a Hundred Years From Now

Mr. Edison is in favor of books made of nickel. He is also in favor of steel furniture, so the "Cosmopolitan Magazine" tells us. The reason for this change is the expensiveness of wood. Steel furniture is light, and can afterwards be stained to resemble any kind of wood. Edison also believes in building with reinforced concrete in which steel is embedded. "Reinforced concrete is not only cheaper than brick and steel, but it is fireproof," and will practically last for ever. Edison continues: "The day of the seamstress wearily sewing her seam is also ended. There is no reason why women should do what machinery can do better. There will be no poverty in the world a hundred years from now." There is no limit to the cheapness with which things can be made. The world will soon be flooded with the cheap, not the poor, product of machinery. Why should poverty continue? Poverty was for a world which only used its hands. Now that men have begun to use their brains, it is decreasing."

To revolutionize war Edison has invented a new storage battery of great power, but light enough to carry. If submarines can use them the submarine may become so formidable that it will not be worth while to build battleships."

EARLY BERRIES

A Carse of Gowrie gooseberry bush has distinguished itself by rearing a fine crop of fully-formed berries. The bush is in a sheltered situation between two brick walls.

INDIFFERENT WORKMEN.

The French Government's scheme for the insurance of workmen goes into effect July 3rd. It requires that for two months prior to that date workmen and workwomen make formal application for the benefits of the insurance. The local authorities of each town, village and commune have supplied the prospective beneficiaries with blank slips of paper, which they are to fill out and hand in. The result has been most extraordinary. There have been few applications.

According to Government Estimates

$100,000,000.00

Was Made in Western Town Property During the Year 1909

Did you anticipate in these huge profits or did you "pigeon-hole" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at $100 or $500, and now it is worth $10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from $50 to $100 each, or are you going to be the man who will have from $1,000 to $10,000 in cash as a result of having bought property in this town in this year of grace, 1911?

POE A COMING COMMERCIAL CENTRE

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to rivers and lakes and large forests are easily accessible from this point. These natural resources insure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forests furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.

The town is located on the main line of a transcontinental railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

Poe townsite was recently placed on the market and already over 200 lots have been sold and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada who are now profiting by their foresight.

The townsite is high and dry and very suitable for building purposes.

OPPORTUNITY

is useless unless you possess the courage to act. You might possess great wisdom, you might read a good deal or travel much and thus see all kinds of opportunities to make money, but unless you have the courage to act on your judgment and wisdom all of these desirable qualities are entirely useless.

Lots in Poe are a good investment at present price. The town is bound to grow rapidly. Owing to the easy terms of payment you have the ability to buy and if you do not buy now it is because you are lacking in courage, and the chances are you will never be like the man you now admire most, rich, courageous and wise.

TORRENS TITLE.

Poe townsite is held by us under the Torrens system of title. Under this system the title is guaranteed by the Government, therefore absolutely safe.

PRICES AND TERMS.

Prices of lots range from $50 to $100 each, and they can be purchased on terms of one-tenth cash, balance in eighteen equal monthly payments; or quarter cash, balance in six, twelve or eighteen months.

INFORMATION

We have issued an attractive circular giving full information pertaining to the town and its prospects, together with map showing lots for sale. If you wish to receive this attractive circular cut out and fill in the attached coupon and mail it to us to-day.

BISHOPS' PALACES

They Do Not Now as Formerly Vie In Pomp and Magnificence with Royal Abodes

Bishops' palaces nowadays are not what they were. In bygone times they vied in pomp and magnificence with the abodes of Royalty itself. To-day the buildings remain, but they are put to much more sober uses. When it is recalled that in former days the Archbishop of Canterbury alone possessed something like a score of palaces scattered over the South of England some notion may be gathered of the scale on which the Church did things in this respect in earlier times. Portions of these, in most cases in ruins now, may still be seen at Croydon, Maidstone, Oxford, Wrotham, and elsewhere; but nowadays the Primate has only two official residences—namely, at Canterbury and Lambeth.

Curiously enough, the one at Canterbury is quite modern, having only been erected within the last fifteen years. Before this the country residence of the Archbishop was at Addington, near Croydon, where the palace is now in private hands. A fine park is one of the features of the estate, the cost in keeping up which was one of the reasons why the Archbishop's residence was transferred. Nowadays the Archbishop spends most of his time at Lambeth, one of the most magnificent and historic of all the existing episcopal residences.

The Archbishop of York formerly had many palaces also. Of these the only one now remaining, in addition to that of Bishopthorpe, is that at Southwell, now occupied by the Bishop of Southwell. In very early days there was a residence in London attached to the see of York, the remains of which may still be seen in the shape of the old water gate in the Victoria Embankment Gardens. For that matter, however, most of the bishops had London residences, in those days usually known as inns, the sites of which may still be traced in such names as Chichester Rents, Salisbury Rents, Ely Place, and so on. Bishopthorpe, the only residence of the Archbishop of York nowadays, is one of the largest of all the episcopal palaces, though architecturally not so fine as some of the others, notably Ely and Wells.

The Bishop of London's principal residence is at Fulham, which has been identified with the see of London for centuries. A moat right round the grounds of the palace testifies unmistakably to the antiquity of the building, though the greater part of that standing to-day is comparatively modern. The Bishop of London has also a house in St. James's Square, where many memorable meetings have been held.

Whereas most bishops formerly had several palaces, there are some seen to-day which have none at all.

A FRIEND OF THE CRADLE

Alluding to the accidents of birth, Lord Warwick told an amusing story recently. Some years ago when he was connected with the Warwickshire Yeomanry, and drilling his men on the common, a man in very poor circumstances and indifferent health came up and said, "Good morning, Colonel, I know you very well, my lord." The peer answered that he did not remember the man, whereupon the latter rejoined, "My lord, I am the baby that you were vaccinated from."

A WHITE ROSE JOKER

Confusion Which Followed an Advertisement in a Paris Paper

A practical joker inserted this advertisement in a morning paper published in Paris:—

"A wealthy gentleman wishes to meet a lady with a view to matrimony. Means not essential.—Address——"

This was followed a day or two later by another notice:—

"A lady with a large fortune wishes to become acquainted with a gentleman with a view to matrimony. Means a secondary consideration.—Address ——"

The joker received in all about one hundred and fifty replies, and he answered by letter in these terms:—

"Will you meet me at two o'clock on Sunday afternoon next at the Cafe——, Place de la Bourse? Please wear a white rose."

The joker's next move was to write to M. Lepine, the head of the police, subscribing himself "Un Bon Republicain":—

"A Royalist demonstration is to take place at two o'clock on Sunday afternoon next in the Place de la Bourse. The Royalists can be identified by a white rose, which each will wear."

On the Sunday following, at two o'clock in the afternoon, the approaches to the Place de la Bourse were obstructed with carriages, motor-cars, and taxicabs. The "fare" in each was decorated with a white rose. Soon the coachmen and drivers were within measurable distance of coming to blows, while four political agents of the police who were present took notes and kept the demonstrators under surveillance. Gradually, however, the truth leaked out. For the most part the victims made the best of the situation, but one or two testy old gentlemen and a few peevish ladies betook themselves to the Police Commissioner to lodge a complaint. The Commissioner, however, greatly annoyed himself, gave them scant attention.

FEEDING BRAN TO FOWLS

Bran is rich in phosphates when compared with many other foods fed to poultry, and as phosphates account for the formation of bone, growing poultry may with advantage be allowed a certain proportion of it. It is also useful for laying hens, and if used occasionally as a change and to add bulk to the morning mash, the birds will be greatly benefited by it. In using bran, however, it should never be mixed with other meals in a dry state, as then it is liable to set up a derangement of the digestive organs owing to its irritating nature. Bran, before being used, should be scalded with boiling water, and left for an hour at least to cook and swell. A little may then be added to the soft food of growing chickens, or it may be used for laying hens in conjunction with pea or bean meal, using equal parts of each, and drying off these by the addition of sharps. A mash thus made is good for feeding in summer time.

PECULIAR CARROT

An Aberdeen taxi-driver has succeeded in growing a carrot which bears so complete a resemblance to the human foot that it has a corn on the big toe.

Work on the addition to the post office is proceeding satisfactorily. The cement basement is approaching completion.

CORONATION OIL COMPANY, LIMITED

Capital 850,000 Shares of a par value of $1.00 Each

"Incorporated in Canada, Directed and Managed by Canadians"

This Company commenced business operations on May 16th, 1911, and expects to complete and bring in its first well within ninety days from that date. The Company owns a lease of 40 acres for twenty years, situated in the heart of the oil producing territory in the Midway field, Kern County, California. Within about one and a half miles of this property there are now seven actively producing wells.

Subscriptions Are Now Asked For

150,000 shares of the Capital Stock of the Company at 15 cents each.

A Further Issue of

150,000 shares will be offered later at 25 cents each.

NOTE PARTICULARLY,—The Company is not over capitalized; its shares are non-assessable (no personal liability) and they are offered at a reasonable price; THE DIRECTORS SHARES AND THE SHARES ISSUED IN PAYMENT OF THE LEASE ARE PLACED IN ESCROW AND MAY NOT BE SOLD UNTIL ONE YEAR FROM DATE OR UNTIL OIL IN PAYING QUANTITIES IS PRODUCED.

For Prospectuses, Maps of the field and full information, write to

James Middleton & Co.,
421 George Street,
Peterboro', Ont.

—OR—

General Securities Co., Ltd.,
441 Richards Street,
Vancouver, B. C.

P. S.—The Vancouver-Midway Oil Company (a Vancouver Company), operating in the same field, brought in a well several days ago and its stock jumped from 15 cents per share to from 85 cents to $1.10 per share.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash; in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realizing handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK

429 Pender St., W., Vancouver, B.C. Phone 871

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $200 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of it is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some idea about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

SOME $5,000 FEES

Mr. Astor, Millionaire, Gave $6,000 For an Interview

The largest sum that has ever been given for an interview was that paid by Mr. Astor, the millionaire newspaper proprietor, to a journalist who succeeded in interviewing the Khedive of Egypt. The amount was $5,000.

Just before the Treaty of Peace between Russia and Japan was signed, a New York journal paid a prominent American $1,500 for half an hour's conversation respecting the doings of the President at Portsmouth, N.Y. The professional interviewer received $250 for his "copy."

The editor of a Berlin paper drew a cheque for $5,000 in favor of a journalist who had secured for his newspaper a lengthy interview with Prince Bismarck when the estrangement between him and the German Emperor took place.

A New York journal offered their London representative $5,000 if he could succeed in interviewing Mr. Bayard concerning the Venezuelan bother with the United States. Mr. Bayard, however, absolutely refused to be "pumped," and in consequence the money was not earned.

Lieutenant Hobson, the American naval hero, received, it is said, $5,000 for verbally describing to a journalist his gallant exploit on the Merrimac.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM BUNTON, LATE OF THE CITY OF PETERBOROUGH, IN THE PROVINCE OF ONTARIO, TICKET AGENT, DECEASED.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Sec. 56, that all persons having claims against the estate of the said William Bunton, who died on or about the 17th day of January, 1911, are required on or before the 10th day of June, 1911, to send by post, prepaid, or deliver to Dr. R. J. Stafford, Federal Life Building, Hamilton, Ontario, administrator of the said estate, their Christian and surnames, addresses and descriptions, the full particulars of their claims and the nature of the security, if any, held by them and

TAKE NOTICE, that after said last-mentioned day the said administrator will proceed to distribute the assets of the deceased amongst the persons entitled thereto, having regard only to the claims of which he shall then have notice, and the administrator will not be liable for any claims or for assets or any part thereof to any person or persons of whose claim notice shall not have been received by him, and such persons shall be peremptorily excluded from the benefit of such distribution.

Dated at Toronto this eighth day of May, A. D., 1911.

A. P. POUSSETTE,

Solicitor for the said Administrator, 617 Bonded Avenue, Toronto.

NOTICE TO CONTRACTORS.

TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope 'Tender for Station Buildings,' will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.

Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.

Section 3.—From Mile 5 to Mile 165 east of Quebec bridge.

Section 4.—From the Quebec bridge westward to Mile 45.

Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.

Section 6.—At Cochrane in the Province of Ontario.

Section 7.—From the divisional

Section 8—From Moncton to Napadogan, in the Province of New Brunswick.

Section 9.—From Mile 125.5 to Mile 159 west of Moncton.

yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.

Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.

Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario.

Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN, Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa, this 12th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

SPELLING REFORM

Mr. Bernard Shaw Thinks it is Time to Do Something in this Matter

Mr. Bernard Shaw, at a meeting of the English Association at University College, London, expressed himself in sympathy with those who were laboring for a reform in spelling. After agitating for a period of 30 years, he said, it was really time for them to do something. Whatever was done there must be a standard, and when they came to deal with the English language it would be necessary to dispel from their minds the idea that "it can simplify the job." "You must take the line of least resistance," proceeded Mr. Shaw. "I dare say you will take it whether you want to or not, but if you think that line is a system which departs as little as possible from the present system, that is your mistake; it is the line of most resistance. To employ words from a list altered according to phonetic spelling only looks like the spelling of an illiterate man who has not been educated. We have it in the style of Artemus Ward, Josh Billings, and Mr. Dunne writing as 'Dooley.' It is very comic, but you will never get it introduced as a classical and standard type. It will be very much better to introduce new letters. Take the word 'thumps' and spell it with a final 'm.' Everybody laughs, but if you spell it with a new letter for the 'th' and a new sort of vowel for the 'u,' nobody would find it comic or ridiculous." Proceeding, Mr. Shaw said if they had gone to work in a sensible manner they would have settled the system 30 years ago.

STILL RUTHENIANS

But Good Canadians—Term Galician is a Misnomer

A citizen of Ethelbert, Man., recently wrote to a Winnipeg paper complaining that Ruthenians are very frequently termed Galicians. The correspondent points out that Galicia is at present peopled by Ruthenians, Poles, and Jews, so that, strictly speaking, there is no Galician, as a nationality. Generally speaking, however, every individual coming from this Austrian province of Galicia is a Galician, but while the Poles and Jews are known as such, it is only the Ruthenians who is to-day spoken of as a Galician. He further makes it clear that while many Ruthenians come from Galicia, others come from Bukovina, Hungary, Ukrainia and other European countries, and to these the term Galician is a misnomer. He, therefore, feels that the term should be dropped altogether.

"A nation," says this correspondent, "is a group of people speaking one language, possessing one literature, one history, etc. As is well known, the Poles, the Jews and the Russians each have their own literature and history; therefore, the Poles, Jews and Russians are three different nations. The Ruthenians have and use a language of their own; they have a literature and history of their own, other than that of the Russians or the Poles; they are a nation, approximating thirty-five million souls. They inhabit the largest part of eastern Galicia, almost the whole of Bukovina, the north-eastern part of Hungary, and that southern part of Russia called Ukrania.

"There a great number of Ruthenians in North America, also in South America, and in Eastern Asia. Thus are the Ruthenians widely scattered. This, however, does not interfere with the national game, which has existed for many centuries.

"There is no Galician language; there is no Galician literature or Galician history, and there is no Galician nation or people.

"Having been under persecution in Galicia, we came out to Canada, the country of freedom. We have our home-sweet-home here, and we are progressing both economically and educationally. We are Canadians and are loyal to our Government. We are still Ruthenians (Ukrainians) and there is nothing which will destroy our national name, which we esteem and will preserve always."

THAT "CURSED" WEED

A Story about Mr. Gladstone and Tobacco

In his book of reminiscences, "One City and Many Men," Sir Algernon West, the defendant in the recent society case, who for some time was Mr. Gladstone's private secretary and most trusted confidential adviser, says that the G.O.M. "hated the smell of tobacco, and once accused me of bringing the odious aroma of the 'cursed' weed into his room. Meanly anxious to excuse myself, for I never smoked before going into his presence, I said I had been sitting for half an hour with Sir William Harcourt. Such was Mr. Gladstone's innocence that he said, 'Does Harcourt smoke? I am sure if he does he must always change his clothes before he comes to me, for I have never perceived that he smokes.'"

A BUSY MORNING

It was at St. Andrews, the home of golf, where the links stretch away over the moors by the sea, and dear, quiet Aunt Mary had gone up from London to visit a golfing family of nephews and nieces. At tea the first afternoon someone managed to stop talking golf long enough to ask:—

"Well, Aunt Mary, and how did you spend the morning?"

"Oh, I enjoyed myself immensely, my dear. I went for a walk on the moor. A good many people seemed to be about, and some of them called out to me in a most eccentric manner. But I didn't take any notice of them. And oh, my dear, I found such a number of curious little round things. I brought them home to ask you what they are."

Hereupon Aunt Mary opened her work-bag and produced twenty-four golf-balls!

WHAT IS MADNESS?

Never use the words "madness," "lunatic," or such obsolete terms, as they convey an entirely different meaning to what I hope to be able to show you is the real meaning of mental disorder. There is really no distinction between mental disorder and physical disorder. The distinction which has been made in the past is purely an arbitrary one, and one which, no doubt, has its basis upon superstition.

The first open air band concert of the season will be given in Victoria Park one week from to-night.

Sprained Wrist And Ankle

After Being Laid up With Great Pain for Ten Days, Relief Was Gained Instantly by Applying

NERVILINE.

One of the most soul-distressing accidents that can befall one is a bad ankle or wrist sprain. "If I had only known of 'Nerviline' earlier, I could have saved myself an enormous amount of pain, and many agonizing nights of sleeplessness." Thus writes P. P. Quinn, a young farmer living near Brockville.

TESTIMONIAL NO. 4266. "I tumbled from a hay loft to the barn floor and sprained my right ankle and left wrist. They swelled rapidly and caused excruciating pains. It was not convenient to go to the city, and the liniment in the house was useless. When I got Nerviline relief came quickly. It took down the swelling, relieved the pain, and gave me wonderful comfort.

"I can recommend Nerviline for strains, bruises, swellings, muscular pains, and sore back. I have proved it a sure cure in such cases."

Think what it might some day mean to you to have right in your home, ready for an accident or emergent sickness, a bottle or two of Nerviline. Get it to-day. 25c. or five for $1.00, all dealers or The Catarrhozone Co., Kingston, Ont.

FOR STONEY LAKE

For the week commencing Monday, May 29th, the steamers will leave Lakefield on the arrival of the morning train, returning in time to connect with the evening train on Monday, Tuesday, Friday and Saturday.

STONEY LAKE NAVIGATION CO.

F. G. Young, Manager.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Tent For Sale.

Tent for sale—Large, only in use a few weeks, very reasonable. Apply W. J. L. Elliott, head of Weller St.

More Humane Killing.

We publish elsewhere a letter in regard to the killing of dogs by the police. We trust Chief Thompson will adopt the chloroform method hereafter. It certainly would be more humane. We understand chloroform is generally used in the larger cities, as being better and safer than shooting.

Chimes Have Arrived.

Rev. Canon Davidson has received notice that the Chimes have arrived in Quebec, and they will doubtless reach Peterborough in a day or two. An expert is coming with them, who will superintend the installation of the bells in St. John's church tower.

A Painful Injury.

While working on a machine in McDonald's Mill, Mr. F. Christopher, who resides at 460 Parnell street, met with a very painful accident. He was struck in the arm with a large hook, severing an artery. Dr. Marshall and McCullough dressed the wound, but not before the injured man had lost considerable blood. He is now doing nicely.

The College Girl.

Only a very limited audience was present at the Opera House last night, when the drama, "The College Girl" was presented. Had the performance been better advertised, there would no doubt been fewer empty seats. Evidently the manager of this company has yet something to learn.

Board of Trade To-Night.

A special meeting of the Board of Trade will take place this evening in the Assembly Hall of the Collegiate Institute, when Mr. Ryerson Ritchie will deliver an address on matters pertaining to the Board of Trade. Every member is requested to be present.

A Jewish Synagogue.

That Peterborough is rapidly developing into a cosmopolitan city, is shown by the fact that a Jewish Synagogue is to be established here, where the Jews will be able to worship in their own way. Already, we understand, funds have been collected for the purpose. There are now about 15 Jewish families in Peterborough, and these are to be considerably increased in the near future, as several of them are about to bring their families to this country.

Something New For Peterborough.

Miss MacPhee, who is head demonstrator for the Ogilvie Flour Mills Company, has been sent to this city to show the housewives the new and simple up-to-date methods of making bread and pastry from their celebrated Royal Household Flour. Miss MacPhee invites every lady of Peterborough to attend her classes during her stay in your city at 1.30 p.m. sharp.

To Our City Subscribers.

The large additions being made to The Times' mailing lists these days makes it necessary to ask our subscribers, both old and new, to promptly notify us in cases of non-delivery. The paper should be in the home not later than 7 each morning. Our carriers are warned not to throw the paper over the fence, or where the wind or rain will get at it. Please telephone the office if this is not being done.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists.

Take Hall's Family Pills for Constipation.

Died At Nicholls Hospital.

There passed away at Nicholls Hospital yesterday morning, Mr. William Hornback, in the 62nd year of his age. Mr. Hornback for some years has had charge of Mr. George Graham's horses, and is well known to the patrons of the Oriental Hotel. The deceased was a lover of the dumb animal, and particularly of horses. Mr. George Graham accompanied the remains to Cobourg yesterday. The deceased is survived by a sorrowing mother, brother and sister.

Oil Fatal to Rubber Tires.

On Saturday a Times' reporter was invited by Mr. Millard, 225 Hunter-street, who keeps a bicycle repair shop, to inspect the tires of the large number of wheels which are there for repair. Several of the tires were in bad shape, being eaten through in many places. Mr. Millard says that it is the oil that is being put on the streets that is destroying the outer tires. He says that in a little while there won't be a perfect tire in town either bicycle or automobile. He thinks that all who are interested will have to get together and take united action to have the Council adopt some other method of keeping the dust down.

Death of Former Well Known Citizen

The announcement of the death of Mr. J. J. Wetherup, of Vancouver, which occurred last evening in that city, after a short illness will be received with sincere regret by a large number of friends and relatives in this district. The deceased was born in the township of Fenelon, and later moved to Lindsay, and went into the hardware business, and later for many years, conducted a piano and organ business. He was a faithful member of the Cambridge-street Methodist church, a Conservative in politics, and a much respected citizen. He leaves a widow and young daughter to mourn his loss.

CANADIAN PACIFIC.

Important announcement. Commencing Sunday, June 4th, a solid through train will leave Toronto at 10.30 p.m., and daily thereafter for Vancouver, B.C., running through without change. Splendid equipment first and second class, Tourist and standard sleeping cars. New train will be known as the "Vancouver" Express.

Next Homeseekers' Excursion, on Tuesday, May 30th. Cheap round trip rates to Winnipeg, Regina, Calgary, Edmonton, etc. Secure tickets etc. from W. McIlroy, Peterborough, Ont.

Mr. Donald Downie Honored.

When it became known by the personal friends of Mr. "Don" Downie, that he was about to leave Peterborough to take up his residence in the West, a number of them decided to visit him in a body, which they did on Saturday night, and to tell him what they think of him. It is needless to say that they were cordially received and hospitably entertained. Mr. Downie will be greatly missed, especially by lovers of tennis, of which he is an expert player. He left yesterday to attend the Millers' Convention in Detroit, after which he will return to Peterborough for a few days, previous to taking his departure for the West. The Times joins in wishing him good luck in his new home.

Borne to the Grave.

The funeral of the late Mrs. T. H. G. Denne, took place yesterday from the family residence, Park street, the remains being followed to the last resting place by a large number of sorrowing relatives and friends. Rev. F. J. Sawers, of St. Luke's church, conducted the funeral services, which were of an unusually solemn and impressive character. The pall bearers were Dr. Morrison, Mr. E. H. D. Hall, Mr. Vincent Eastwood, Mr. A. H. Stratton, Mr. Alex Elliott and Mr. Joseph Mills. The late Mrs. Denne will long be remembered by her many friends, by whom she was greatly beloved. Her kindly disposition and affectionate nature endeared her to all who had the pleasure of her acquaintance. The bereaved family has the heartfelt sympathy of the whole community.

MARK TWAIN'S WORKS.

If You are interested in obtaining a complete set of all his books at one-half the former price on the easy payment plan, it will cost nothing to get full particulars and a new thirty-two page book "Little Stories About Mark Twain," Address Times Office.

MUNICIPALITY OF NORTH MONAGHAN
COURT OF REVISION

Notice is hereby given that the first sitting of the Court of Revision for the Township of North Monaghan, will be held in the Town Hall, on Monday, the 5th day of June, 1911, at two o'clock in the afternoon.

Those interested are asked to attend.

G. W. BENNETT,
Township Clerk.
North Monaghan, May 20, 1911.

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Addition to Postoffice Building, Gananoque, Ontario," will be received until 4 p.m., on Wednesday, May 31, 1911, for the work mentioned.

Tenders will not be considered unless made upon and in accordance with conditions contained in forms furnished by Department.

Plans and specifications to be seen on application to the caretaker, Post office, Gananoque, Ont., and at the Department of Public Works, Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 15, 1911.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Miss Edith McClennan has returned from an extended visit with friends in Ottawa.

Mrs. D. B. Denison, who has been seriously ill in Nicholls Hospital is recovering.

Capt. Thomas, ex-fireman, is spending a few days visiting friends in Oshawa.

Mrs. F. A. Morden, of Port Hope, is the guest of Mrs. V. B. Fair, 460 Sherbrooke street.

Mrs. Gobson, Brock street, returned from California, where she spent the winter.

Mr. Keith Leeh has returned from Toronto where he has been undergoing a course of instruction at Stanley Barracks.

The Misses Parrington, of Woodstock, are the guests of Chief and Mrs. Thompson, Charlotte street.

The many friends of Mrs. Dawson Kennedy, who has been quite ill for some time, will be pleased to learn that she is recovering.

Mr. Herbert P. Bland, representing the Canadian Linotype Limited, Toronto, was in the city yesterday and called on the Times.

Miss Mabel Moore underwent a serious operation in Nicholls Hospital a few days ago, from which she is recovering nicely.

Major Geo. W. Bennett, Provincial Inspector of Highways, will leave to-morrow morning for Sault Ste. Marie.

LITTLE LOCAL LINES

Census taking will start Thursday morning.

The City Council will meet in regular session on Monday evening next.

War on the caterpillars is being waged by many who have shade trees. The city should also join in cleaning the nests off the street trees.

The Bay of Quinte Conference will meet in Port Hope on Thursday.

Board of Trade meeting this evening in Assembly Hall of the Collegiate Institute.

The regular monthly sewing meeting will be held at the Children's Shelter this afternoon instead of on Thursday.

Mrs. Goodfellow, 177 Gilmour St., aged 91, has been stricken with paralysis, and no hope of her recovery is entertained.

Rev. Mr. Keith delivered an address at the meeting of the Young People's Society of the Murray street Baptist Church, last night. His subject was the "Early Chapters of the Book of Genesis."

A Treat.

The Ogilvie Flour Mills Company of Canada, the largest milling concern in the British Empire, have rented the ground floor of the T.A.S. Hall, as being the most convenient they could secure to accommodate an audience. Miss Jean MacPhee, graduate of Household Science, Guelph, and the Boston Cooking School, is showing the easiest and most economical methods of handling their high grade Royal Household flour, also serving a delightful afternoon tea free of charge. The Ogilvie Flour Mills Company cordially invite every lady in Peterborough to attend at 2.30 p.m. sharp every afternoon until June 7th.

OBITUARY

William A. Walton.

On Saturday last there passed away, at the residence of his sister, Mrs. F. J. Burgess, Lakefield, William Alexander, youngest son of the late Joseph Walton, formerly of North Monaghan, and also of Peterborough.

The deceased was born in Peterborough, his late father being one of the best known residents in this city. Later, however, Mr. Walton, Jr., went West, and stayed a considerable time, but on his health breaking down, about a year ago, he was forced to return and stay with his sister. After ailing for some time he passed away, while seated in his chair, on Saturday afternoon, death being due to heart failure.

The funeral will leave the residence of his brother-in-law, Mr. F. J. Burgess, Albert street, Lakefield, this afternoon at 1.30 and proceed to the Little Lake cemetery for interment.

SOWING HIS WILD OATS
REAPING A HARVEST OF SORROW

How many young men can look back on their early life and regret their misdeeds. "Sowing their wild oats" in various ways. Excesses, violation of nature's laws, "wine, women and song"—all have their victims. You have reformed but what about the seed you have sown—what about the harvest? Don't trust to luck. If you are at present within the clutches of any secret habit which is sapping your life by degrees; if you are suffering from the results of past indiscretions; if your blood has been tainted from any private disease and you dare not marry; if you are married and live in dread of symptoms breaking out and exposing your past; if you are suffering as the result of a misspent life—**DRS. K. & K. ARE YOUR REFUGE.** Lay your case before them confidentially and they will tell you honestly if you are curable.

YOU CAN PAY WHEN CURED

We Treat and Cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD and URINARY COMPLAINTS, KIDNEY and BLADDER Diseases and all Diseases Peculiar to Men.

CONSULTATION FREE. Books Free on Diseases of Men. If unable to call, write for a Question Blank for **HOME TREATMENT.**

Dog Saves a Child From Game Cock.

Omaha, Neb., May 29.—Forced against a fence and viciously attacked by a large game cock, Bessie Savage, a 2-year-old child, was saved from probable blinding and the rooster torn to death by the child's dog. The rescue and the killing occurred before the startled gaze of Bessie's mother, and several neighbors.

A cry of pain and alarm from the child attracted the attention of Mrs. Savage and the other women while they were conversing on the rear porch. "Dona," a fine Scotch collie, darted from the group and raced to the aid of his little mistress, just as the game cock was pecking furiously at her eyes.

Seizing the rooster by the throat, the dog shook, dragged and tore it around the yard until it was dead. In the midst of his attack the canine laid his victim down for an instant, and when it kicked feebly he fell upon it again and made sure of the death.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM BUNTON, LATE OF THE CITY OF PETERBOROUGH, IN THE PROVINCE OF ONTARIO, TICKET AGENT, DECEASED.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Sec. 38, that all persons having claims against the estate of the said William Bunton, who died on or about the 17th day of January, 1911, are required on or before the 10th day of June, 1911, to send by post, prepaid, or deliver to Dr. R. J. Husband, Federal Life Building, Hamilton, Ontario, administrator of the said estate, their Christian and surnames, addresses and descriptions, the full particulars of their claims and the nature of the security, if any, held by them, and

FURTHER NOTICE, that after said last-mentioned day the said administrator will proceed to distribute the assets of the deceased amongst the persons entitled thereto, having regard only to the claims of which he shall then have notice, and the administrator will not be liable for any claims or for assets or any part thereof to any person or persons of whose claim notice shall not have been received by him, and such persons shall be peremptorily excluded from the benefit of such distribution.

Dated at Toronto this eighth day of May, A. D., 1911.

A. P. POUSSETTE,
Solicitor for the said Administrator.
617 Euclid Avenue,
Toronto.

VOL XXXIV NO. 28 PETERBOROUGH, ONTARIO, WEDNESDAY MAY 31 1911 PRICE TWO CENTS

$200 GRANTED BOY SCOUTS FOR REPRESENTATION AT CORONATION

PETERBOROUGH WILL SEND TWO REPRESENTATIVES.

Boat Houses May be Erected on the Water Front Lots at Once—End of Dalhousie street and Extension of Water Along the River to be Cleaned up and Clearly Defined.

The City Fathers met in Committee of the Whole last night, all the members being present.

The Boy Scouts were represented by a deputation consisting of Judge Huycke, T. F. Matthews, F. D. Kerr and Mr. Neill, local chief scoutmaster, who asked that the Council make a grant toward defraying expenses of two boy scouts representing Peterborough at the Coronation.

Judge Huycke explained that the movement for Canadian Boy Scouts to attend the Coronation is a Dominion one, and the executive for the Province of Ontario had allotted for Peterborough two representatives. The expenses of each boy will amount to $200, and his honor suggested that the city make a grant of such sum; the two hundred needed for the second boy could be raised by private subscriptions.

Mr. T. F. Matthews offered that a number of municipalities are making similar grants; Toronto's Board of Control authorized an expenditure of $500 in this direction.

Mr. F. D. Kerr pointed out that in addition to the $400 needed, each boy will have to provide a special outfit for the trip at his own or family's expense.

Moved by Ald. Kernaghan, seconded by Ald. Bradburn.—That a grant of $200 be made for the purpose asked.—Carried.

BAND IN PARK JUNE 21st

The 57th Band were given permission to play in Victoria Park on June 21st, instead of in the evening of June 22nd, Coronation Day.

IMPROVEMENTS AT THE POLICE STATION.

Architect Blackwell submitted revised plans for proposed improvements to police station. His estimate is now $3,600, a reduction of $1,500 from the first estimate.

This matter was referred to the Property Committee and Alderman Graham to report in Monday night.

PROTESTANT HOME SEWER.

The construction of the sewer to connect with the new Protestant Home was referred to the engineer, to undertake the work as soon as the law governing such matters will allow.

A QUESTION OF WATER.

On motion of Ald. Bradburn, seconded by Ald. Edgar,—The matter of entering into a new agreement with the Water Commissioners for water for public purposes was left in abeyance till Monday night. In the meantime his worship will endeavor to gain the consent of the Commissioners to furnish water free for use on the public parks and on the public library grounds.

Last year the city was charged $2,000 for water for public purposes, and the Commissioners now agree to furnish this service for $1500.

THE CATERPILLAR PEST.

Ald. Edgar enquired if the city was going to undertake the extermination of the caterpillars on the street trees.

Ald. Graham replied that this course was resorted to some years ago, but more trees were destroyed by the corporation men in burning the pests than by the pests themselves.

Council thought that action on their part would be of no avail, and better results would accrue from the citizens looking after the trees on and in front of their property.

A PARK MATTER.

On motion of Ald. Duncan, the Board of Works was authorized to remove the fence at the Charlotte-Park streets Park, and remove same to the King Edward Park.

A WEATHER EYE ON CITY PROPERTY.

Ald. Bradburn is keenly alive to the necessity for the corporation keeping in mind just what property it really owns, and to the need for guarding against squatting thereon. No more encroaching upon the streets by private buildings for him. Last night Ald. Bradburn insisted that all obstructions be removed from the Water street extension from Sherbrooke street to Dalhousie street and up the latter highway to George and said streets clearly defined. Also that the debris from the late fire, together with the railway siding that ran into the Houedry property, be cleaned away. His motion to this effect, seconded by Ald. Buller, carried.

THE BOAT HOUSE QUESTION.

The Council will permit of the erection of new boat houses along the river front, the scene of the late fire, AT ONCE. Lots will be rented at a nominal fee of $1 a year. No buildings, however, may be erected across the end of Dalhousie street. The boat houses must all be of uniform design, of plain lumber and kept decently painted. No liquor may be used therein, and generally speaking their conduction will be subject to a by-law to be passed at Monday night's Council meeting.

INDUSTRIAL COMMISSION DEPARTMENT.

Moved by Ald. Graham, seconded by Ald. Bradburn,—The matter of the department of the Industrial Commission be referred to the Manufacturers' Committee to report on Monday night.—Carried.

GRANT FOR PRIZES.

On motion of Ald. Duncan, the Reception Committee was authorized to act in the matter of making a small grant to an excursion coming here from Toronto on June 17th, said grant to go towards purchasing prizes.

A SERIOUS ACCIDENT

Yesterday evening a serious accident occurred to little Johnny Begley, and as a result the little fellow lies in a precarious condition in St. Joseph's Hospital.

The little fellow was playing on Charlotte street west, where contractors are erecting a new house, and was climbing a ladder when he fell to the ground alighting on his shoulder and head. When picked up it was thought that he was dead. Dr. McNulty was sent for and examined the injured lad, and found that his shoulder was broken and he had concussion of the brain. The little fellow was conscious at a late hour last night, but his condition is very serious.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents . . . . . .

WELLAND $11, PETERBOROUGH $20.

Editor Morning Times.

Sir,—With power costing only $11 per horse power at Welland, and $20 in Peterborough, how can Peterborough expect to get industries? A man to fill the position of Industrial Commissioner, and earn his salary, would require to be a hypnotist.

Civis.

WHAT IS THE COUNCIL DOING?

Editor Morning Times.

Sir,—What in Sam Hill is the Council dilly-dallying over the power question so long for? Why not follow the plan laid down by Hon. Adam Beck? It is the only practical one, and unless we make a move some one else will get there first and gobble up what is left of our natural power, Get a move on.

Civis.

TO MAKE GOOD BANK LOSSES.

Editor Morning Times.

Sir,—Mr. Crothers, who is quite in the front rank of the Conservative party, has laid it down at St. Thomas that the Ottawa Government is liable to those losing through the hideous thieving in connection with the so-called Farmers' Bank. This statement is very gratifying, and shows that the Conservative party recognizes the obligation of the Government for its own blunders. There can be no doubt, therefore, that Mr. Borden's government will indemnify all losers by the Farmers' Bank swindle. This is as it should be. Innocent people should not be at the mercy of sharpers through the negligence of a government department. That the whole thing was a contemptible and merciless piece of robbery Mr. Fielding manfully admits, but he should have gone farther and made the loss to the people good. It was no fault of theirs. In Britain if you ask them where all their 'smart' people are they point to the jail. It ought to be so here. It will come, no doubt in due time. In the meantime Mr. Crothers' statement affords hope for the victims of those who stripped even the dead in their eagerness to enjoy and parade their ill-gotten gains.

J. H. Burnham.

LEAVE FOR WEST

Mrs. Robert Mann and Miss Marjory Mann, of 216 London street, leave this morning for Grand Forks, B.C., where they will reside in future with her two sons who are in business in the Western town. Mr. Mann will remain in Peterborough for some time before he leaves to join them. They will be much missed by their many friends. Mrs. Mann was a member of George street Methodist Church, and was a consistant workers of many of the societies connected with the church.

NO MORE OIL FOR STREETS

BOARD OF WORKS WILL FALL BACK UPON WATER.

The Destruction of Rubber Tires Settles the Fate of Oil as a Dust Laying Agent in Peterborough.

The city is going to discontinue the use of oil on the streets and return to the water sprinkling system. Two tanks of oil are on the road to this city, and they will be the last that will be ordered by the present Board of Works.

This question was raised at last night's Board of Works meeting, and Ald. Graham said he would like to hear Ald. Duncan's opinion.

Ald. Duncan—"I say, cut it out. I have only the rim of my bicycle left. It is destroying all the rubber tires in the town."

The Mayor offered that oil lays the dust well and improves the streets, and its action on rubber wear is unfortunate.

Ald. Buller—"I'd sooner pay a little more and have water sprinkling. In Boston they have discontinued the use of oil altogether."

Ald. Morgan—"Perhaps they are putting a glass of rubber into tires these days that won't stand oil. Or could we not get a better quality of oil.

It was here conceded that the better quality used last year was too odorous altogether.

The Mayor—"Something will have to be done. I'm besieged every day, and can't go down street without being buttonholed by indignant citizens."

At this juncture, when Ald. Metheral advised that 6 tanks of oil had already been used, and two more were on the road, it looked as though oiling the streets generally was going to be far more expensive than street watering.

Ald. Buller—"People complain to me that they have had on their streets neither oil or water as yet this year."

Moved by Ald. Duncan, seconded by Ald. Morgan,—That no more oil be ordered for use on the streets, and that the City Engineer be instructed to sprinkle the streets with water, either by contract or day labor.—Carried.

The Engineer estimated that the application of "Tarra" on Simcoe street west 34c a square yard, which cost, however, might have been considerably reduced by use of more suitable apparatus. Taking this experiment as a basis one block on George street coated with "Tarra" would cost $74.75. This is dearer than oil for one application, but "Tarra" might prove cheaper in not requiring so frequent treatment.

ALLEGED BROCK ST. ROLLER RINK NUISANCE

A Largely Signed Petition of Brock Street Residents, Complaining that Brock Street Roller Rink is an Unbearable Nuisance.

A largely signed petition of Brock street residents, complaining that Brock street Roller Rink is an unbearable nuisance, was before the City Fathers last night. The petitioners among others things complained that profanity and rowdyism prevailed, while the machine organ, with its everlasting repetition of three tunes, is enough to drive adjacent residents frantic.

Dr. McClennan was present in support of the petition. He said the petitioners had been referred by the Police Commissioners to the County Crown Attorney who in turn referred them to the City Council.

Ald. Brown—"Have the police no authority in this matter?"

Dr. McClennan—"They seem to have authority to run it."

Ald. Graham—"Would it not be as well for a couple of policemen to go up there Saturday nights, instead of to the Peterborough Hardware Store."

It was conceded that the police were needed to keep the sidewalk clear at the latter point.

Chief Thompson explained that the police have no control over the interior of the rink, unless called in by the owners. He knew of no disturbances occurring in the neighborhood.

Ald Bradburn offered that Council could do nothing in the matter but license the rink, and that would not abate the nuisance complained of.

The City Solicitor explained that this question is one not of public, but of private nuisance, in which Council were powerless to act. The residents on Brock street, however, have a right to action. They could be opined, secure an injunction.

On motion of Ald. Duncan seconded by Ald. Graham, the matter was left in abeyance until Monday night for further consideration.

OFFICERS OF THE Y.W.C.A. BOARD

Mrs. A. W. Cressman Was Elected President.

The Y.W.C.A. Board held its first meeting of the Association year on Monday. There were eighteen ladies present, and the following were elected to serve in office for the year 1911-1912:

President—Mrs. A. W. Cressman.
Vice-President—Miss M. Dickson.
Secretary—Mrs. A. Stevenson.
Treasurer—Miss Morrow.
Finance Committee—Mrs. J. Wood, Convenor.
House Committee—Mrs. Wm. Walsh, Convenor.
Bible Committee—Mrs. W. Roger, Convenor.
Educational Committee—Miss Weir Convenor.
Physical Committee—Mrs. Malcolm McCulloch, Convenor.
Membership Committee—Mrs. R. Neill, Convenor.
Social Committee—Mrs. H. P. Kennedy, Convenor.
Reception Committee—Mrs. W. D. Scott, Convenor.
Program Committee—Miss L. Rush, Convenor.
Junior Committee—Mrs. M. A. Morrison, Convenor.

An expression of appreciation was extended Mrs. Roger for her faithful services during her years of office.

The association girls are planning a pleasant lawn social for Tuesday evening, June 6th, and they cordially invite their many friends to enjoy it with them.

Low Water in Upper Lakes.

It is said that the water in the back lakes is considerably lower this season than usual, caused, no doubt, by the dry spring and the lack of rainfall. It is, however, not likely that any difficulty or loss will be occasioned by users of power. The waste (if it can be called by that name) occurs when the drives come down, as stop logs are taken out of the dams, which of course, draws off the surplus water at once. To replace this water after the drive passes through, the stoplogs are put in, with the result that the flow of the river is considerably curtailed, and the water consequently drops to a low point.

HOW'S THIS?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
F. J. CHENEY & CO., Toledo, O.
We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists.
Take Hall's Family Pills for Constipation.

CITY BOARD OF WORKS IN BRIEF BUT BUSY SESSION

CHAMBERLAIN STREET TO BE GRAVELLED.

Approaches and Sidewalks to and on Smith Street Bridge to be Attended to at Earliest Possible Moment.

The City Board of Works met last night with Chairman Ald. Metheral in the chair. There were also present, His Worship Mayor Morrow, Aldermen Graham, Morgan, Brown, Anderson, Duncan and Buller.

Regarding the building of a new concrete walk in Victoria Park, from County Building to steps immediately east of the fountain, the Horticultural Society wrote saying they wished the city to do the work. The latter has agreed to pay $200 of the cost of this work, which is calculated to amount to $300.

Engineer T. A. S. Hay, said it is doubtful if the work can be kept within $300, as stipulated, owing to re-design of the approach to Court House.

The Engineer was instructed to prepare and submit an estimate for this work at his earliest convenience.

It was offered that any excess over $300 might be secured from the County, but the latter Council was not credited with a policy of liberality in such a direction.

Messrs. Ackerman's and Kennear's cellars were flooded the night of May 23rd (the occasion of the electrical storm), the surface water backing into their premises. Notice to this effect was received by the Board, but no action taken thereon.

The Engineer will report on an application for a sewer on College street from Murray to McDonnell streets.

The Engineer will report on a petition for a granolithic walk on West side of Downie street, from London to Dublin streets.

As the law now requires that all petitions for sidewalks and sewers must first be reported on by the City Engineer, before further action is taken by Council, a number of such petitions were referred to the Engineer in bulk.

Dr. Wightman was granted permission to cut down an old basswood tree opposite his property.

The McDonald estate were granted permission to continue using the city's property on Rink and Crescent streets for industrial purposes on executing a document recognizing the city's ownership thereof. The Estate to pay a nominal rent of $1 a year These conditions will also apply to other parties affected.

The Engineer was instructed to strike the grade for Concession street to permit of Mr. Ferguson building a walk to his house.

A cement crossing will be laid on Dale avenue, adjacent to Mr. Butcher's residence. Also crossings on the south side of Aylmer, on Edinburgh street, and on south of Dublin across Aylmer street.

On motion of Ald. Buller, seconded by Ald. Duncan, a report of the possibilities of getting gravel from Leary's pit, Monaghan, is to be furnished. Should the township Council permit of this gravel being drawn at a reasonable price, it will be used for grading the whole of Chamberlain street.

The Mayor insisted that the Engineer get busy grading the approaches to Smith street Bridge, and constructing sidewalks thereto and thereon.

A new sidewalk is to be laid on the west side of the market square. It is understood the City Trust Commissioners will pay the cost of this work.

Moved by Ald. Duncan, seconded by Ald. Graham.—That the space between curb and sidewalk in front of the police station and city hall on Water street be filled in with cement.—Carried.

By request of Ald. Brown the owner of 574-576 Sherbrooke street was given permission to fill in and lay a curb at his own expense. The Engineer to give the line.

HOW MUCH POWER DOES RIVER AFFORD?

The Times has learned, on what it regards as good authority, that the total power available at Fenelon Falls runs from 300 to 1600 horse power, according to the season. In midsummer, when the water is low, the flow of the river above the mark required for purposes of navigation, amount only to 300 horse power. If this is true, the public should know it. A chain is only as strong as its weakest link, so likewise the water-power available on the river can only be measured by what it will develop at its lowest ebb. If only 300 horse power is available during the "dry" season at Fenelon Falls, it naturally follows that the same conditions exists further down stream, unless the flow of the water is augmented by other feeders below Fenelon Falls. Unfortunately it cannot be said that the small streams which enter the waterway much more than offset absorption and evaporation. The only protection to power users (saying nothing whatever about navigation), is the proper conservation of water in the lakes, which act as reservoirs to "tide over" the dry period. In view of the proposal to invest a large sum of money in water power, the city authorities should look well into this whole matter.

Death of an Infant.

The infant child of Mr. and Mrs. Robert Dickson passed away yesterday morning, at 516 Bolivar street, after a brief illness. Service will take place at the house at 2 o'clock this afternoon, the funeral proceeding to Little Lake Cemetery at 2.30 o'clock.

INSPECTOR GOES OVER RURAL MAIL ROUTE

Hon. J. R. Stratton, M.P., believes in doing things. Besides securing an appropriation for a fine new dock on the Little Lake, and a number of wharves at various points on the river, as well as a substantial addition to our local post office building, now under construction, he is interesting himself in securing rural mail delivery in different directions. On Monday last he took P.O. Inspector Merrick, of Kingston, in his automobile over the new mail routes. The Monaghan route commences at Jackson Park, runs along the boundary between North Monaghan and Smith to the Emily boundary and Gravel road on the 12th concession, returning to Peterborough over the Gravel road on the 12th concession.

Yesterday morning the Inspector and Mr. Stratton motored over the proposed rural mail route through the centre of Smith, which is as follows:

East Communication road, north to Third Concession, east to Middle Line, north to Fourth Concession, west to East Communication road, north to Fifth Concession, east to Middle road, then north to Seventh Concession, then west to Quarter Line, north to Eighth Concession, and west to Finger Board Then north to Ninth Concession, east to Middle Line, south to Seventh Line, east to Lakefield River Road south to Fourth Line, west to Middle Line, then south Middle Line to city.

The inspector will report on this matter immediately to the Department, when tenders for the route will be asked for. The proposed route will cover a journey of 22 miles, the courier to leave about 1 o'clock daily.

Proper Food Will Alone Correct Many Ills.

"There's a Reason"

Something New For Peterborough.

Miss MacPhee, who is head demonstrator for the Ogilvie Flour Mills Company, has been sent to this city to show the housewives the new and simple up-to-date methods of making bread and pastry from their celebrated Royal Household Flour. Miss MacPhee invites every lady of Peterborough to attend her classes during her stay in your city at 1.30 p.m. sharp.

DR. CLIFFORD TO LAY CORNER STONE.

On Thursday, June 29th, Rev. Dr. John Clifford, of London, England, will lay the corner stone of the new Murray street Baptist Church, which is to be erected on Murray street. Dr. Clifford is regarded as the most conspicuous figure in the Baptist ministry in England, and in the world. His visit to Peterborough will be regarded not only by those connected with that denomination as a most important event, but will be of interest to all other church goers in this city.

ROYAL
5c 10c
BIG VAUDEVILLE SHOW AND MOTION PICTURES.

BIG ATTRACTIONS

THREE VAUDEVILLE ACTS AND MOTION PICTURES.

LOVERING AND GRAHAM
High Class Character Singing
Beautiful Costumes Good Voices

JULES JACOBS.
German Comedian.

DEMOS JONES
Singing and Dancing Act.

These are three acts of high class Vaudeville that come direct from the Majestic, Toronto, and which should prove pleasing to all patrons of the Royal. All lovers of good and high class singing should not fail to hear Miss Anna Lovering and Madaline Graham.

MOTION PICTURES.

Pictures at the Royal are changed every day. Every time you visit the Royal you see new and different pictures, always the latest subjects by the best makers.

Remember the Royal is the coolest and most comfortably seated place of amusement to go to in the evening. Big electric suction fan and eight ceiling fans going all the time.

COUNCIL WILL NOT RE-OPEN QUESTION OF LATE INDUSTRIAL COMMISSIONER'S RETENTION

WILL BE PLEASED, HOWEVER, TO HEAR THE VIEWS OF ANY COMMITTEE ON FUTURE OF DEPARTMENT.

The City Fathers received a resolution from the Manufacturers and wholesale and retail merchants of Peterborough to the effect that the re-engagement of Mr. Duggan would be in the city's best interests. Also asking a date for an interview on this question between the City Fathers and a Citizens' Committee, of which Mr. W. H. Denham is the convenor.

Ald. Graham—"I thought we had dealt with that matter?"

The Mayor—"So we did at the May meeting of Council."

Ald. Graham—"I don't see any use in opening the matter up again."

Ald. Edgar moved, seconded by Ald. Buller,—That Council grant the committee an interview on the night of Monday, June 5th.

Ald. Morgan—"We don't want to hash and rehash this question again and again. This Council has made up its mind definitely."

Ald. Bradburn—"If the committee attend Monday's meeting of course we'll give them a hearing. But as far as opening up the matter again, I don't see what good that will do."

Ald. Graham moved in amendment that the clerk be instructed to reply to Mr. Denham that so far as Mr. Duggan is concerned the Council has already taken action in the matter, and cannot see what end would be served in granting an interview on that question. But as to the future of the Industrial Commission Department, Council would be pleased at any time to hear the views of any committee appointed to interview them on the subject.—Carried by a vote of 8 to 2.

The motion of Aldermen Edgar and Buller was lost on the same division.

Settling Drowned Land Claims.

Mr. James Dickson, O. L. S., of Fenelon Falls, is busily engaged in settling what is known as "drowned land claims" in connection with the Trent Canal. These claims are made in connection with the flooding of the land on the route of the waterway, by the construction of new dams and raising the water for navigation purposes. Mr. Dickson has had long experience in work of this kind, and knows how to estimate damages of this kind, better perhaps, than any other man in the country.

The first band concert of the season will take place on Friday evening, in Victoria Park.

OTONABEE POWER CO'S PLANT NOT FOR SALE TO PETERBOROUGH

At the City Council meeting last night, Mayor Morrow read a letter from Mr. Ferguson in reply to his enquiry if the company would give the city an option on their plant, and at what purchase price. Mr. Ferguson replied that the property was not for sale; this had been decided upon in the best interests of the shareholders. In some quarters, however, it is freely asserted that should this power plant not have changed hands already it will do so in the near future.

In this connection, we are in a position to assure our readers that the City's Power Committee are not asleep on the question of municipal ownership of power, of which there is plenty available.

Toronto won a double header from Buffalo yesterday.

OBITUARY

There passed away at Coboconk on Monday last an old and esteemed resident, in the person of Mrs. J. H. Ham. The deceased lady had not been in the best of health for some little time, although her death was not looked for. Of a kindly and affectionate disposition, she was beloved by all who had the pleasure of her acquaintance. She leaves a husband and grown up family, who have the sincerest sympathy of their many friends in their irreparable loss. The funeral will take place this afternoon at 2 p.m.

For soreness of the muscles, whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

ASQUITH'S SCHOOL DAYS

Recalled by Former Schoolmate of the Prime Minister of England—Some of His Characteristics

His political friends and foes alike have agreed that few men have achieved fame and honor in a more brilliant fashion than Mr. Asquith. He has attained has been accomplished "off his own bat." As a youth he won a scholarship at the City of London School, and he has kept and maintained himself ever since. The latter entered the City of London School in 1864, when he was twelve years of age, and, as will be seen from the following reminiscences of Mr. Thomas Thwaites, of Barnet, who was at school with the Prime Minister, the latter soon began to give indications of his extraordinary capabilities.

"Within six months of his entry into the school," said Mr. Thwaites, "young Asquith had secured the Divinity prize and also the Latin prize. The following year he got the prize for general proficiency, and in 1866 the Classical Progress Prize; the next year the first Classical prize fell to him, as well as Sir William Titus's scholarship. Then in 1869 and 1870 he was captain of the school, declaiming the fame of John Carpenter, the founder, in Greek, and gaining such prizes as the Latin Verse prize, English History prize, gold medal for general proficiency, and the Mowlem prize for English.

"It is surprising," continued Mr. Thwaites, laughingly, "that during the time Mr. Asquith was at school, if any boy thought of going in for some special prize he usually retired from the contest when he heard that young Asquith was also competing.

"Still, in spite of his brilliancy, we little dreamt that we were classing with the future Prime Minister of England. It was not easy to imagine, in spite of young Asquith's brilliance in the schoolroom, that the boy who lived at Highbury and walked from there to the City, via Goswell Road, in order to save the bus fares which were too expensive in those days, would one day sit at the head of the British Cabinet.

"And Mr. Asquith himself has confessed that such an ambition never entered his mind; for he stated at a dinner given to him by the John Carpenter Club—that association of old boys of the City of London School who see to keep alive the memory of the founder—on the occasion of his being made Home Secretary, that occasionally on his way from school he would look with a 'sense of awe-struck solemnity at the Houses of Parliament and the members entering, little thinking of the part he himself would play there in the future.'

"I cannot say that young Asquith was popular. He was not good at games. He didn't like them. He seemed to stand aloof, and acquired the reputation of being what we term 'stand-offish.' Not because he was naturally unsociable, but simply because it was work, and work alone, which appealed to him. Boyish play was not part of his programme, and apparently he refused to force himself to be as other boys.

Very Tenacious

"I can picture him now—a small, neither square-headed lad, with a pronounced North-country accent and very taciturn manners, but whose speech, when he did let himself go, was very much to the point. There was one subject upon which he was very decided, and that was the great superiority of practically everything in the North of England to anything in the South. And as the majority of the boys of the school were from the South, this topic naturally led to very heated arguments. But young Asquith showed remarkable tenacity in sticking to his guns, and I have since heard that when, as a sixth-form boy, he became a member of the debating society as an advanced Liberal, he was even then strongly opposed to Women's Suffrage.

"Apropos of the doings of this debating society, I might mention that Dr. Abbott, the head master, has related that, as president of the society, he often attended the debates; but as his duties were practically nominal, and as time with him was very precious, it was his custom to take a batch of exercises from the schoolroom and correct these while presiding over the debates. But when Mr. Asquith entered the society he became so interested in the eloquence of the future Prime Minister that he found it difficult to concentrate his mind on the exercises, and, finally, whenever young Asquith held the floor, Dr. Abbot was obliged to resign himself to willing attention.

"The City School, now standing upon the Thames Embankment, looks a much more swell affair than the old building in Milk Street, but it is in the nature of things that it cannot hope to send forth many pupils destined to run a similar course to Mr. Asquith. Some of us old scholars may be Conservatives, but I don't care two straws what shade of politics we affect; in admiration of our old school-fellow Tories and Liberals are at one."

KITCHENER'S HUNTING SPOILS

Lord Kitchener brought home with him from his trip through the Soudan, Uganda, and East Africa a fine collection of trophies of the chase which he shot during his tour, writes a London correspondent. Among the more notable of these is a very good specimen of the Soudan giant eland, one of the specis which Mr. Selous is sojourning at the present time in Bahr-el-Ghazal in order to obtain for the Natural History Museum.

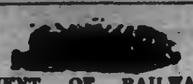
OPERATED ON HIMSELF

A young Roumanian surgeon, who has astonished Paris by performing upon himself, M. Fraicon, has been studying a new anaesthetic, which leaves a patient lucid while suppressing sensibility, and as he was suffering from hernia he resolved to try the efficacy of the anaesthetic. It was administered to him, and sitting down at the operating table he calmly performed the necessary operation on himself, stitched up the wound, and then went off to bed. M. Fraicon is now, it is pleasing to learn, in a fair way to recovery.

Judge, Sportsman, Naturalist.

It is not six months ago since Mr. Justice Grantham, whose remarks from the Bench have caused so much criticism, travelled many thousands of miles by land and water on a moose-shooting expedition, although he is seventy-five years of age. A great lover of all kinds of outdoor recreations and sport, Sir William likes anything better than door-stalking or cricket, and as a student of nature few have equals. One of his favorite pastimes is to take a number of local children over his country estate at Redhill, and explain to them the various trees, flowers, and birds.

ADVERTISE IN THE TIMES.



DEPARTMENT OF RAILWAYS AED CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted cheque for the sum of $16,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheques thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 13th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of contract can be seen and form of tender obtained at this department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., H. J. Lamb, Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 9, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Seaforth Ontario,' will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

HOW JEWELS ARE SET

Four Distinct Methods of Setting a Diamond—Art is Simple

Few people outside the jewellery trade have any idea how the brilliants that they admire are fastened into their settings, and a great many retail jewellers who have sold jewellery for years are equally ignorant. The art of setting jewels is comparatively simple, the skill of a setter depending upon his knowledge of the strength of the material and the delicate touch required, which can only be gained by years of practice.

There are only four distinct methods of setting a diamond, though mountings are made which involve two or more of these methods. The most common is the clamp or claw. The operator imbeds this mounting, whatever it may be, in warm shellac on the end of a stick (six inches of broom handle is generally used), leaving the setting exposed. This cools and holds the delicate piece of jewellery firm in all parts. He then, with a thin file, files all the clamps, bringing them up to sharp points. Then with a scraper or graver shaped like a chisel (all his cutting tools are miniature chisels of different shapes) he digs out a bearing or shoulder for the edge of the stone on the inside of each clamp.

He now, with a pair of sharp-pointed pliers, bends the clamps inward or outward, as they happen to require, until the stone will just squeeze into the circle of clamps. Then the stone is pressed firmly down until the edge rests squarely on the bearing of each clamp. This leaves the ends of the clamps sticking up past the edge of the stone. The next step is to push all these ends over the edge and burnish them tight. A piece of soft steel about three inches long is used for this, filed to a small square end, and fitted in a round handle. When the clamps are all firm in their places, they are bright cut, as the term is. The clamps are trimmed to a point with three cuts, two on the sides and one on the top.

The setter cuts away from the stone and must be careful not to dig too deep into the gold, or he will push the whole clamp away from the stone; then, to make a good job, the stone must come out and the clamp beat forward again. Some who manufacture the finest goods do not believe in bright-cutting clamps on rings, as the sharp edges left are very severe on gloves worn over them. A setter employed by these firms merely sets the clamps to a point, and the polisher buffs it round on top, when the work gets the last finish.

RULES THE RICHEST MAN

Rockefeller's Secretary, Miss Adam, is a Vigorous Woman

The only person on earth that John D. Rockefeller, the Oil King, takes orders from is a woman, and that woman is not Mrs. John D. Rockefeller. She is his secretary, Miss Adam. She is a clear-cut, precise, strong, vigorous woman, like Katherine Harrison, who was H. H. Rogers's secretary for many years.

Miss Adam looks after the Oil King's correspondence, makes all of his engagements, and is his remembrancer, so that he forgets none of them. She goes through his correspondence every morning, and picks out the letters she thinks worth while for him to see. The rest of them she either mentions, or else she answers them without asking his advice, because she knows his wishes so thoroughly.

Sometimes Mr. Rockefeller, who is getting to be quite a mild and tolerant sort of man, is inclined to follow the suggestion of some of his correspondents, or to do as he is requested by an acquaintance or a friend. Miss Adam has been with him so long and knows him so well, and has his confidence so absolutely, that she does not hesitate to take a stand against him, if she does not believe in the wisdom of what is suggested. Nine times out of ten the man of many millions bows to her will.

For soreness of the muscles whether or indeed by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

MATRIMONIAL MASCOTS

Queer Ideas Among the Hindus for Finding a Mate

Here is a tip for unmarried lady readers with matrimonial ambitions. Buy cards at a shop that is about to close for the day, or, having looked upon a bridegroom at a marriage ceremony, turn your back upon him and go straight home. Result, a happy marriage within a few months.

Anyhow, according to Mr. R. A. Leslie Moore, who has made a close study of the people of India, the Hindus consider this an infallible recipe for securing husbands. Among other quaint ideas prevalent amongst Indian people, Mr. Moore mentions that they believe that anyone killing a frog will never get married. On the other hand, according to a picturesque Bengali fancy, if a butterfly entered and flitted about a house there would soon be a marriage in the family; and if a butterfly persisted in hovering about any particular person, that person was destined for early connubial bliss.

WHALES WERE STRANDED

Thirty-Seven of Them Were Left Floundering in the Sands

Thirty-seven monster whales were stranded recently on the coast of Perkins Island, North Tasmania. The whales, among which there was only one cow, quarrelled, and in chasing the female, entered the shallows. All their attempts to jump back into the deep water failed, and as the tide receded they were left floundering on the sands, in which they half-buried themselves in their struggles, with the result that they perished in a short time. A number of persons who saw the spectacle formed a syndicate with a capital of $1,500, to recover the ambergris from the carcases. They have already obtained 3,000 pounds of the valuable commodity.

PEER AND PLAYWRIGHT

Lord Howard de Walden, the plaintiff in the recent remarkable law-suit, is one of England's wealthiest peers, being credited with an income of $1,000,000 a year. As "T. E. Ellis" he has figured as the author of several plays, and was one of the earliest supporters of the movement for a National Theatre as a Shakespeare memorial. An ardent sportsman and soldier, he served with distinction during the South African War. He is exceedingly skilful with sword and gun, and once he achieved the unique feat of shooting a pheasant and hare almost at the same moment. He fired at the bird and brought it down. The report disturbed the hare, which jumped up almost at his feet and made off. Like a flash he turned round, fired the other barrel, and killed the hare.

It is worse than useless to take any medicine internally for muscular or chronic rheumatism. All that is needed is a free application of Chamberlain's Liniment. For sale by all dealers.

THE PRINCE MUST BEHAVE

According to a custom in China the members of the imperial family are above the law. Prince San-Chi has been doing just as he likes recently, fortified with this immunity. It is said that there is not a hygienic law that this interesting person has not broken. In fact, his great recreation seems to have been to defy the police. At length to the endurance of the police there came a limit, and on representations being made to the Minister of the Interior, that official brought the matter under the notice of the Regent, who has not only abolished the "convention," but the Prince's recreations also, and given instructions that in future he must act as an ordinary citizen or stand the consequences.

SHOOTING EXTRAORDINARY

The Marquess of Ripon, one of the three finest covert shots in England, recently entered upon his sixtieth year. The story goes that he can shoot a rocketing pheasant at such an angle as to catch the dead bird in his hand without moving from his position! Fifteen thousand head of game fell to his gun in one year. The other great passion of the Marquess's life is music, and that is fully shared by his beautiful and gifted wife, for both are great supporters of the opera. The Marquess is also an enthusiastic collector, and during the past twenty years has amassed a marvellous lot of Dresden china, said to be worth at least $250,000.

WHERE SWINDLING IS EASY

There is no country in the world where so many administrative formalities are necessary for the simplest things as in France, and this excess of red tape makes swindling comparatively easy. The French swindler acquires an exhaustive knowledge of all the needs and trickiness of red tape and its formalities, and soon discovers the weak points in them.

A CURIOUS CUSTOM

The village of Hambridge possesses a remarkable charity. It is known as the Alford Bread Charity, and provides that every laborer and householder in the parish shall receive bread. The customary distribution has recently been made, and every one in the parish except the parson, the farmers, and tradesmen, were recipients.

SMALL-POX IN ANCIENT EGYPT

An interesting historical discovery is reported in a mummy whose skin still shows what are apparently clear evidences of severe small-pox. The body was that of a tall man of middle age, and came from one of the royal tombs.

SCARCITY OF DOMESTICS

The housewives of Berlin are in an unfortunate plight, and their dependent men folk are in a position not less enviable, owing to the remarkable dearth of domestics, chiefly attributed to Germany's industrial prosperity, which creates a great demand for female labor in all branches of commerce and manufacture.

O'K
Extra Mild, Remember
Many people would drink ale, in preference to all other malt beverages, if ale did not make them bilious.
This O'K brew is brewed especially for those people. It is extra mild and extra light, and lets you enjoy the creamy deliciousness of real old English ale without the heaviness and excessive bitterness. In easily—opened seal stoppered bottles. No broken cork or tinfoil in the glass.

WHAT THE MINISTER SAID

Did Not Improve Matters for Calhoun Clay

A story has been told of a colored minister who, while holding a meeting in a chapel, became wrought up to such a high pitch of excitement that he cried out, "I see befo' me ten chicken-thieves, includin' Calhoun Clay!"

Instantly Calhoun Clay rose and left the church. He was very angry.

The next day he brought powerful influence to bear upon the minister, who promised to apologize.

So, at the meeting in the chapel the next evening the old minister said, "I desire to retract mah last night's remark when I said I see befo' me ten chicken-thieves, includin' Calhoun Clay. What I should have said, dear brethren and sistern, was—I see befo' me nine chicken-thieves, not includin' Calhoun Clay!"

ADVERTISE IN THE TIMES.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 50 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 50 volumes and handsome sectional bookcases will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 50 volumes to the schools, lodge, society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, September 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the H. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily, and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured:—

Style Store for Men

Heaviness at Pit of the Stomach

A Feeling of Uneasiness Before and After Meals Is Quickly Cured With Nerviline.

Nearly everyone gets an occasional attack of indigestion and knows just what that heavy feeling means in the stomach. "I was subject to stomach derangements and my health was seriously hampered on this account. After meals I belched gas, has a weighty sensation in my stomach and over my left side. The first relief I got was from Nerviline—I used it three times a day and was cured. I continue to use Nerviline occasionally, and find it a wonderful aid to the stomach and digestive organs."

The above letter comes from Mr. P. R. Stetson, wife of an important merchant in Brockton, and still further proof of the exceptional power of Nerviline is furnished by A. E. Rossman, the well known upholsterer of Chester, who writes: "Let everyone with a bad stomach use 'Nerviline,' and I am sure there will be few sufferers left. I used to have cramps, rumbling noises, gas on my stomach and severe fits of indigestion. Nerviline was the only remedy that gave me relief, and I found it so entirely satisfactory that I would like to have my letter of recommendation published broadcast in order that others may profit by my experience."

You'll find a hundred uses for Nerviline—it's a trusty household remedy that sells to the extent of a million bottles per year—that's the best proof that it must cure and give unlimited satisfaction. Refuse anything offered in place of Nerviline, 25c per bottle, five for $1. All dealers, or The Catarrhozone Co., Kingston, Ont.

The Morning Times

The only morning daily newspaper published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing materials, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 4 o'clock.

CANADA'S HIGH-GRADE COLONISTS.

From the Portland Oregonian.

The recent colonist movement of the transcontinental railroads broke all previous records. This movement was merely a shifting of the people from one part of the United States to another, and while both sections involved may have profited by this redistribution of population, the nation gathered no new recruits. Almost simultaneously with our own colonist movement there has been a similar one in Canada. Our northern neighbors, however, have been more fortunate, for while some of their people have shifted from eastern to western Canada, the greater part of the movement has been by newcomers. During the season just closed there entered Canada through the port of Halifax alone more than 40,000 new settlers.

Canada is thus drawing on the old world for additions to her population and at the same time is luring many highly desirable citizens from the American side of the line. Accurate statistics on the dimensions of this movement from the United States are not obtainable, but American citizens are flocking over the border, all the way from the Atlantic to the Pacific. The United States is a distinct loser by this operation, for the reason that nearly all of the people leaving the American side are comparatively well-to-do. They are taking the money that they have accumulated in this country and are using it in the development of Canada. We do not get anything like a fair exchange in the newcomers that enter the United States from Europe, for as a rule the incoming European seldom has more money than the minimum allowed by law.

Canada, for some unknown reason, seems to be getting a much better class of immigrants from the old world, as well as from the United States. Of the 40,000 who entered through Halifax this year, more than 30,000 were of British origin, the Scotch predominating. The habits and industries of this class make them preferable to the type that enters through the Atlantic ports of the United States. The completion of the Panama Canal will tend to give the Pacific coast a better choice of immigrants.

Oregon, Washington, and Idaho still have resources that can be developed to great advantage by these new citizens, both of the immigrants and the people already here will profit greatly by such additions to our population.

EDITORIAL NOTES.

The population of Ireland keeps decreasing, but not because the Irish are losing vitality. The main reason is that it has become so easy to get from Ireland to Canada.

Emperor William has appointed King George a general field marshal in the Prussian army. It will give King George an opportunity to order another uniform, that's all.

If you think your sorrows are great think of those of the rich American women who have made plans to live Queen Mary.

CHURCH SEAT COLLAPSED.

Three Stalwart Scotchmen Were too Much for It.

Brantford, Ont., May 29.—Some amusement and excitement was caused in a local church yesterday when a seat collapsed during service. It was occupied by three stalwart Scotchmen, who were attending church for the first time since their arrival in the country and suddenly found themselves on the floor. Other seats were hurriedly found for them.

WAS RE-PACKED AND THEN CARRIED BY A MAN FROM THE CITY HALL TO PARKDALE.

Who Owns the Stuff?

Toronto, May 29.—The thrilling dynamite story, involving alleged attempts to blow up cables of the Hydro-Electric system, which was published last week by an evening paper is rendered harmless by the explanation of Mr. A. C. D. Blanchard, the engineer in charge of the trunk sewer.

"Donnelly & Graham, contractors, are building a section of the trunk sewer," said Mr. Blanchard to-day. "They built a little shed on the south west corner of Bay and Front streets for the tools of their employees. Underneath this shed there is an excavation like a cellar, and in one corner of this cellar there is a hole in the ground. When men are working underground digging out the tunnel for the sewer, they often encounter huge boulders, which cannot be removed with picks. Dynamite is used to get them out of the way. Mr. Graham explained to me that one of his men put five or six sticks of dynamite in the hole in the cellar under their shed at the corner of Bay and Front streets. A few caps were wrapped up and placed in another part of the excavation. The men must have some dynamite available and they cannot bring it down town a stick at a time. I consider that Donnelly and Graham showed no lack of care whatever. There are no buildings very close to the place where the dynamite was kept. If it had exploded it would have blown their own shed to pieces. I would not have agreed to their keeping a whole box of dynamite stored there, but five or six sticks were harmless."

GERMANY DESIRES COPY OF THE ARBITRATION TREATY.

The Ambassador at Washington Has Made the Request, Opening Negotiations.

Washington, May 29.—Count Von Bernstoff, German Ambassador, today told Secretary Knox that he had been instructed by his Government to ask for a copy of the proposed arbitration treaty already under negotiations between the United States and Great Britain and France. Secretary Knox complied with his request, and it is now announced that formal negotiations with Germany are thereby considered to have been begun.

Goderich Man Was Drowned Up North.

Sault Ste Marie, Ont., May 29.—Through the capsizing of a canoe at Michipicoten yesterday afternoon, Jas. Coleman met death by drowning. Coleman, who hails from Goderich, Ont., had gone out alone while the barge McKee, on which he was employed, finished loading. The remains will arrive here to-night for burial.

Hon. Sydney Fisher is to Tour Ontario.

Montreal, May 29.—Hon. Sydney Fisher, Minister of Agriculture, is planning to make a tour of Ontario next month to speak in the interests of the proposed reciprocity agreement. According to his present plans, Mr. Fisher's tour of Ontario will begin at North Wellington on June 20th. He will visit a number of other places.

HEAD-ON COLLISION ON THE BURLINGTON RAILROAD OUT IN NEBRASKA.

Ball Players are Hurt.

Denver, Colo., May 29.—At least nine persons were killed and twenty injured this morning in a head-on collision between eastbound and westbound passenger trains Nos. 9 and 12 on the Burlington Railroad, ten miles east of McCook, Neb.

The engineers of both trains are reported among the dead.

The members of the Denver and Omaha baseball teams of the Western League were passengers on the westbound train, the Colorado Limited.

A number of the members of both teams were slightly hurt. James McGill, president of the Denver team, had a bone of his foot broken. Pitcher Kinsella had his face badly cut, and second baseman Lloyd suffered minor injuries. No members of either teams were badly hurt.

The day coach on the limited was totally wrecked, and in this car most of the casualties occurred.

The tourist car and baggage cars were thrown on their sides, but so far as known their occupants escaped serious injury.

Surgeons and nurses have been summoned from McCook and other nearby towns.

The fireman, brakeman and express messenger of the westbound train are reported among the killed.

DEPARTMENT OF RAILWAYS AND CANALS.

ONTARIO—ST. LAWRENCE CANALS.—RAPIDE PLAT CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Improving Lower Extreme to Lock No. 24," will be received at this office until 16 o'clock, on Friday, June 9th.

Plans, Specifications, and Form of Contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $9,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES, Secretary.

Department of Railways and Canals, Ottawa, May 19th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

MARK TWAIN'S WORKS. ... If You are interested in obtaining a complete set of all his books at one-half the former price on the easy payment plan, it will cost nothing to get full particulars and a new thirty-two page book "Little Stories About Mark Twain," Address Times Office.

INDIFFERENT WORKMEN.

The French Government's scheme for the insurance of workmen goes into effect July 3rd. It requires that for two months prior to that date workmen and workwomen make formal application for the benefits of the insurance. The local authorities of each town, village and commune have supplied the prospective beneficiaries with blank slips of paper, which they are to fill out and hand in. The result has been most extraordinary. There have been few applications.

PUBLIC NOTICE

NOTICE is hereby given that pursuant to the provisions of The Consolidated Municipal Act, 1903, the Council of the City of Peterborough intends at a meeting thereof to be held at the Council Chamber in the City of Peterborough, on Monday, the third day of July, 1911, at the hour of 8 o'clock P. M., to pass a by-law to stop up and close that part of Water Street, in the said City of Peterborough, formerly known as the River Road, as shown on Registered Plan No. 14 for the City of Peterborough, described as follows:—that is to say—Commencing at a point where a concrete monument is planted in the easterly limit of said Water street at the distance of twelve hundred and fifty-nine and nine-tenths feet measured north 14 degrees 9 minutes east astronomic along said easterly limit of said Water Street, from its intersection with the northerly limit of Hilliard Street, where another concrete monument is planted —thence north 11 degrees 34 minutes east, a distance of one hundred and seven and four-tenths feet — thence north 7 degrees 36 minutes east a distance of ninety-two and four-tenths feet—thence north 4 degrees, 31 minutes east a distance of one hundred and fifty-nine and five-tenths feet —thence north 8 minutes east a distance of eighty-eight and eight-tenths feet—thence north 6 degrees 50 minutes west, a distance of ninety-two and two-tenths feet, thence north 16 degrees, 17 minutes west, a distance of two hundred and twenty-six and five-tenths feet, more or less, to where another concrete monument is planted in the easterly limit of said Water Street and thence southerly following along the easterly limit of said Water Street and the westerly limit of the property of the Auburn Power Company of Peterborough (Limited) to the place of beginning, and containing by admeasurement seventeen one hundredths of an acre more or less and shown on the plan filed in the office of the City Clerk by the portion colored red; and when so closed up to convey the same to The Auburn Power Company of Peterborough (Limited) the owner of the land adjoining said street on the east for the consideration that the said Auburn Power Company will lay a main in its proposed new dam across the River for the use of the City and the Water Commissioners from the eastern limit of said Water Street to the property of The Auburn Woollen Company, Limited, on the east side of the River.

AND ALSO to grant to the said Company on payment of $1 per year the right to use a further part of said Water Street to extend the westerly face of a proposed concrete revetment wall westerly under the said street at the slope or batter of not more than one foot horizontal to one and one-half foot vertical, to the full depth of the said proposed concrete wall; the westerly edge of the top of said wall to be on, or easterly of, the westerly limit of the above described land as shown and described on a typical diagram, or cross section of the proposed wall filed in the office of the City Clerk.

AND TAKE NOTICE that at the said time and place the Council will hear in person or by Counsel or Solicitor any one whose land might be prejudicially affected thereby and who petitions to be so heard.

Dated this 19th day of May, 1911.

S. R. ARMSTRONG,
City Clerk.

Foreign Settlers Pay Up For King's Present

Ottawa, May 29.—An interesting illustration of the loyalty of the new settlers in the West has been afforded by a proposal made by the Saskatchewan Grain-Growers Association, that the farmers of that province should, as the representatives of the greatest grain producing Province in the Empire, present some proof of their fealty to the Sovereign upon the occasion of his coronation. The order went forth assessing each member fifteen cents towards such a presentation. The result has been an amazing avalanche of replies, but the most significant feature has been the manner in which the American settlers have responded. Here is a sample list from Kenasmith, Sask.:

Twelve Americans, two Canadians, one Englishman, and two Norwegians It is said that the proportion of American subscribers throughout the Province is about the same.

WORK ON VOTERS' LISTS.

Although there is no immediate indication of any intention of the Dominion Government to hold an election this year, orders have been issued for the night staff of the printing bureau to report for duty and set to work at the printing of the voters' lists for the whole Dominion. This is in pursuance of a request made by the clerk of the Crown-in-Chancery, as far back as February last, he taking the ground that the law requires that the lists shall be printed every year. So far no action has been taken to order a preparation of new lists in the unorganized districts of Ontario or in Manitoba. In the former case the law provides that such lists shall be prepared by a board of judges between August 1st and October 15, unless a proclamation to the contrary is issued by the Governor-in-Council, and so far no such proclamation has been issued. In the case of manitoba, the lists are to be prepared by a board of judges between July 1 and August 15, but there is no provision in the law by which this operation may be suspended, so that it is taken for granted that these lists will be revised this summer.

FINANCE MINISTER CHANGES PLANS.

Hon. W. S. Fielding has changed his plans for the parliamentary vacation, and will sail on Thursday on the Royal George for Montreal with his family, for England, to obtain the benefit of the ocean voyage, and to take in the coronation spectacle. He will be back in Ottawa early in July.

Canada a Century Ago.

London, May 29.—Lords Mercury, ancent Lloyd George's speech to the Imperial Conference, says that less than a century ago Canada was disgracefully misgoverned. Lord Durham's report, as an instrument in the hands of philosophic radicals, has become the tables of stone of the new Liberal colonial policy.

Americans who live along the Mexican border may now come out from behind the barns and resume their spring plowing.

GOVERNMENT ASKED TO HELP IN EXTERMINATION.

Calculators Estimate Country is Infested by 40,000,000 Rodents Which Do Annual Damage of $50,000,000—Doctors Condemn Them as Disease Carriers.

London, England, May 29.—War on the rat has been declared by both doctors and farmers in England. The council of the Central Associated Chambers of Agriculture have applied to the Government to take up the extermination of the rodents on a country wide scale, both on the ground of their danger as disease carriers and the damage they do to property. Ingenious calculators have arrived at an estimate showing that England is infested by 40,000,000 rats and they do damage to the extent of $50,000,000 every year.

Doctor James Canthie, a well-known specialist in Oriental diseases, who has studied the rat in China and Europe, has alarmed everybody by declaring there is latent disease among rats in many parts of the country and it is liable to break out in an epidemic similar to the great plagues that devastated London and was described by Defoe.

Farmers living along the Manchester ship canal testify that hundreds of rats come ashore every night from vessels on the canal, and the evidence from the coast ports is similar.

RECIPROCITY WILL SEND AMERICANS TO CANADA.

Washington, May 29.—So filled with indignation over the reciprocity agreement are the members South Dakota delegation that they appeared again before the Senate Committee on Finance to-day to protest against it.

"The treaty," said W. H. Lyon, "will promote United States emigration to Canada."

"If Canada wants to share in the great United States markets, let it pull down the British emblem and put up the Stars and Stripes."

Won't Investigate McNamara's Abduction.

Washington, May 29.—Congress will not investigate the "kidnapping" of J. J. McNamara from Indianapolis on a charge of being implicated in the alleged dynamiting of the Los Angeles Times' plant.

The Rules committee of the House at the conclusion of to-day's hearing on the resolution of Representative Berger (Socialist, Wisconsin,) decided not to report it. The committee concluded that, as Representative Corbley (Democrat, Indiana,) is now pressing a resolution before the House Judiciary Committee, which if adopted, would amend the extradition laws to prevent a repitition of the McNamara incident, an investigation would be unnecessary.

"Our baby cries for Chamberlain's Cough Remedy," writes Mrs. T. B. Kendrick, Rasaca, Ga. "It is the best cough remedy on the market for coughs, colds and croup." For sale by all dealers.

Barns Were Fatal, Mrs. Staunton Dead.

Toronto, May 30.—Mrs. Sarah Staunton, the woman injured in the fire that broke out early Friday morning above the restaurant at 128 York street, died at St. Michael's Hospital this morning. The fire had started in Mrs. Staunton's room, caught in her clothing, and before she was rescued by the firemen her face and body had been badly burned. She was a woman about 60 years of age, had been occupying rooms at the above address for about two weeks, and nothing is known as to her previous address ot relatives.

Killed Four, Then Suicided.

Pawnee City, Neb., May 29.—J. A. McVittie, his wife and two children Were shot and a third child dangerously wounded, in their beds early to-day by Jim Fidler, a farm hand, who had been working for McVittie. Fidler later shot and killed himself.

Archbishop Keane Resigns.

Rome, May 29.—Archbishop John Keane, of Dubuque, Iowa, to-day resigned his archbishopric to accept an appointment as titular archbishop of a see, the name of which is not yet announced.

NOTICE

Sealed Tenders endorsed "Tender" will be received by the undersigned up to two o'clock p.m.

JUNE THE FIRST, 1911

for the following:—

Scrape and remove all old paint and rust, etc., and repaint the Locks Bridge, on the boundary between the city and North Monaghan. The county will supply material (paint and oil). All work to be done properly and securities for the proper carrying out and completion of work, to the satisfaction of W. G. Howden, chairman of the Roads and Bridges committee.

The lowest or any tender not necessarily accepted.

A marked check for $25.00 must accompany each tender as a guarantee for the proper execution of contract.

ED. M. ELLIOTT,
County Clerk.
Peterborough, May 22nd, 1911.

$100,000,000.00

Was Made in Western Town Property During the Year 1909

Did you anticipate in these huge profits or did you "pigeon-hole" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at $100 or $500, and now it is worth $10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from $50 to $100 each, or are you going to be the man who will have from $1,000 to $10,000 in cash as a result of having bought property in this town in this year of grace, 1911?

POE A COMING COMMERCIAL CENTRE

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to rivers and lakes and large forests are easily accessible from this point. These natural resources insure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forests furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.

The town is located on the main line of a transcontinental railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

Poe townsite was recently placed on the market and already over 200 lots have been sold and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada who are now profiting by their foresight.

The townsite is high and dry and very suitable for building purposes.

OPPORTUNITY

is useless unless you possess the courage to act. You might possess great wisdom, you might read a good deal or travel much and thus see all kinds of opportunities to make money, but unless you have the courage to act on your judgment and wisdom all of these desirable qualities are entirely useless.

Lots in Poe are a good investment at present price. The town is bound to grow rapidly. Owing to the easy terms of payment you have the ability to buy and if you do not buy now it is because you are lacking in courage, and the chances are you will never be like the man you now admire most, rich, courageous and wise.

TORRENS TITLE.

Poe townsite is held by us under the Torrens system of title. Under this system the title is guaranteed by the Government, therefore absolutely safe.

PRICES AND TERMS.

Prices of lots range from $50 to $100 each, and they can be purchased on terms of one-tenth cash, balance in eighteen equal monthly payments; or quarter cash, balance in six, twelve or eighteen months.

INFORMATION

We have issued an attractive circular giving full information pertaining to the town and its prospects, together with map showing lots for sale. If you wish to receive this attractive circular cut out and fill in the attached coupon and mail it to us to-day.

INFORMATION COUPON

Gentlemen,—With a view to buying property in Poe, Alta., please send me full information with map and price list, and oblige,

Yours Truly,

THE THRILLERS OF AVIATORS

Confessions of Some of the Famous Flying Men as to Their Most Exciting Moments

"Flying is one of the safest means of travel imaginable, providing that reasonable precautions are observed," said Wilbur Wright recently, and Mr. Grahame-White fully agrees with this view. At the same time, it would seem that, although every precaution is taken, it is impossible to ensure absolute safety from mishap. One of the most careful flyers to-day is Mr. Grahame-White, who has made hundreds of flights under all sorts of conditions. And yet he came to grief recently at Eastbourne.

An equally careful aviator is Mr. Le Blanc, whom Mr. Grahame-White defeated in the Gordon Bennett international speed race at Belmont Park, and who had a most marvellous escape from death at that meeting. He was flying at a pace of seventy miles an hour in a 100-h.p. Bleriot, which, he says, "is almost unmanageable without its full power. Suddenly, high in the air," continues Mr. Le Blanc, in his account of the incident, "my gasolene pipe jarred loose from the motor, and I was absolutely bereft of power—a plaything for the wind. I sat tight through a few terrible seconds, realizing that I had to fall, but hoping that I might fall on soft turf. Then a gust of wind caught the planes of my machine and hurled it against a telegraph pole at terrific speed. The machine struck the pole about twelve feet above ground, and struck so hard that the pole snapped in two places." Naturally, everybody expected that Mr. Le Blanc was killed outright, but, by a miracle, he escaped with only a few bruises.

A "Tough Time"

It was at Belmont Park, too, that Count de Lesseps had a thrilling escape. "I had soared up to a height of six thousand feet," he says, "when I seemed to be plunged into a cloud land. I could see nothing. I had no compass, and could not tell where I was heading, but I knew the only thing to do was to stay up where I was. After an hour—it seemed much longer to me—I finally got out of the clouds. At least I made out the hangars of my 'home tack,' and swooped down on them, but my troubles were not over, for a stiff wind had come up while I was above the clouds. My Blériot is not very good in wind jockeying, and I had a tough time in getting back to earth. Once or twice I thought I was gone."

Hubert Latham's second attempt to cross the English Channel in a Blériot furnished the biggest thrill of his life. "I started, he says, "in the morning from Calais cliffs, followed by a torpedo boat. The sea was smooth and grey. On and on I drove, when suddenly, to my horror, my engine began missing fire. I knew I would have to come down. There was no help for it, and down I plunged into the sea. As I struck the cold water I felt myself wondering if I was due for the bottom. But the aeroplane righted itself, and floated perfectly. I clambered as far out of the waves as I could and resolved to take things coolly. My aeroplane might sink at any moment, or I might be swept out to sea. The torpedo boat was not in sight. But finally the boat did come, and it was a glad moment when I was hauled out of the water, and the boat was headed for home with the aeroplane in tow."

Trapped in Mid-Air

That daring American aviator, Mr. Walter Brookins, tells of a thrilling experience he had at Atlantic City last year, when he reached the altitude of 5,675 feet, and then found himself without a drop of gasolene. "I had started out," he says, "to smash the altitude record, and I knew I was higher than I had ever been before. The cold bothered me quite a little. The crowds of people were just a blur, and the ocean was just a bowlful of blue water.

"Suddenly my motor began skipping. First two cylinders stopped sparking. I thought the spark plugs were missing fire, but suddenly a thought came to me that fairly froze my blood—I had forgotten to fill my gasolene tank before I went up. I was trapped in mid-air with a helpless motor. Then the engine stopped altogether. I began to volplane down in long circles. I took great dives that made my hair stand on end, but I knew that I would have to keep cool if I came out alive. It seemed to me that I was shooting down at a rate of ninety-five miles an hour. All at once the long million-dollar pier loomed in front of me. If my machine wouldn't rise and clear it I was a goner. I set my rising planes, and the gallant little Wright roadster rose and cleared the obstruction like a horse taking a hurdle, and I landed safely on the sandy beach."

GAS ENGINES V. STEAM ENGINES

The Newest Means of Propelling the Great Dreadnoughts

In the future it is practically certain that the gas-engine will take the place of the steam-engine as a means of propelling our great ships through the water. Several of the warships in the British Navy are now fitted with oil as well as steam-engines, and their success has been astonishing.

The introduction of oil fuel is of great value from the naval standpoint. In the first place, it gets rid of the great difficulty of coaling at sea, and, in the second place, it enormously reduces the number of stokers carried. All the toil and strain of stoking is removed, and between an oil-fired and a coal-fired stokehold you have all the difference between an inferno and a holiday trip. No fires have to be cleaned out at short intervals. All the stoker has to do is to turn on or off his valves, supplying oil to the burners.

In the engine-room the change is as great. These gas-engines operate like the well-known petrol engine used to drive most motor-cars, the gas being mixed with air, and exploded in a number of cylinders. No smoke is given off, and there will be no funnels needed to carry off the fumes. Thus there will be no obstruction to the range of the guns and no vulnerable spot at which an enemy can aim. —Horners' Weekly.

Work on the addition to the post office is proceeding satisfactorily. The cement basement is approaching completion.

CORONATION OIL COMPANY, LIMITED

Capital 850,000 Shares of a par value of $1.00 Each

"Incorporated in Canada, Directed and Managed by Canadians"

This Company commenced business operations on May 16th, 1911, and expects to complete and bring in its first well within ninety days from that date. The Company owns a lease of 40 acres for twenty years, situated in the heart of the oil producing territory in the Midway field, Kern County, California. Within about one and a half miles of this property there are now seven actively producing wells.

Subscriptions Are Now Asked For

150,000 shares of the Capital Stock of the Company at 15 cents each.

A Further Issue of

150,000 shares will be offered later at 25 cents each.

NOTE PARTICULARLY,—The Company is not over capitalized; its shares are non-assessable (no personal liability) and they are offered at a reasonable price; THE DIRECTORS SHARES AND THE SHARES ISSUED IN PAYMENT OF THE LEASE ARE PLACED IN ESCROW AND MAY NOT BE SOLD UNTIL ONE YEAR FROM DATE OR UNTIL OIL IN PAYING QUANTITIES IS PRODUCED.

For Prospectuses, Maps of the field and full information, write to

James Middleton & Co.,
421 George Street,
Peterboro', Ont.

—OR—

General Securities Co., Ltd.,
441 Richards Street,
Vancouver, B. C.

P. S.—The Vancouver-Midway Oil Company (a Vancouver Company), operating in the same field, brought in a well several days ago and its stock jumped from 15 cents per share to from 85 cents to $1.10 per share.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realizing handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK

429 Pender St., W., Vancouver, B.C. Phone 871

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $200 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of it is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some idea about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

CANNIBAL CITIES

Fashionable Nowadays to Gather in All the Little Suburbs

Birmingham is patting itself on the back and announcing with pride that it is now the second city in the kingdom, or perhaps one should say the third, if London be counted.

Birmingham has just absorbed four neighboring towns, Aston Manor, Yardley, Kings Norton, and Erdington. This means an addition of 250,000 inhabitants, which brings Birmingham's total population to 850,000, or very nearly that of Glasgow. If she could only have swallowed Handsworth, as she greatly desired to do, the Midland metropolis would have been well on the way to the million mark.

It is the fashion nowadays for big towns to gather in all the little ones around them. Some few years ago Torquay doubled her area at one swoop by collecting St. Mary Church, Babbacombe, and Cockington, and increased her population from 25,000 to 35,000.

Dover has done the same sort of thing by including several neighboring villages which have increased the area of the borough boundaries by fully 10,000 acres.

The greatest amalgamation which England has ever seen was accomplished last year, when the six big Pottery towns became one under the official name of the County Borough of Stoke-on-Trent.

These six towns were Burslem, Hanley, Longton, Stoke, Fenton, and Tunstall, and between them they have a population of very nearly a quarter of a million. No doubt the three other townships of Lyme, Stone, and Alsager will eventually join forces, and so make Stoke one of the half-dozen greatest cities in the kingdom.

A DEAF AND DUMB JOKE

"The most laconic person I know of is a deaf and dumb chap in our neighborhood," said a man who was travelling by train to the city. "He never writes on his little pad more than enough to convey his meaning. He is a good euchre-player, and one night he won a watch and chain from a young man. The latter's father met the mute. The deaf and dumb man produced his little pad. On it the irate father wrote, 'I understand you won Bob's gold watch the other night.'

"He handed it to the deaf and dumb man, and expected to see him offer to give up the spoil. Not so however. Instead, he took the pad, wrote two words carefully on it, and returned it.

"Inscribed thereon were the words, 'And chain.'"

NOTICE TO CONTRACTORS.

TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope 'Tender for Station Buildings,' will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.

Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.

Section 3.—From Mile 5 to Mile 105 east of Quebec bridge.

Section 4.—From the Quebec bridge westward to Mile 45.

Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.

Section 6.—At Cochrane in the Province of Ontario.

Section 7.—From the divisional

Section 8—From Moncton to Napadogan, in the Province of New Brunswick.

Section 9.—From Mile 125.5 to Mile 159 west of Moncton.

yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.

Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.

Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario.

Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa, this 12th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

UNION WITH BAHAMAS

Proposal of Annexation to Canada is Altogether New to the People of the Islands

It seems to have been Canadian visitors to the Bahamas this winter who gave life to the movement there for annexation to the Dominion.

This is what the Nassau Guardian says:—

"Generally it is the unexpected that happens; and if any one on January 1st of this year had prophesied that within a few weeks the citizens of Nassau would be indulging in animated discussion of the question of the incorporation of the Bahamas with the Dominion of Canada the idea would have been scouted and the predictor's powers of foresight loudly derided. Yet such has been the case, and owing to the vigor and energy displayed recently by two or three of those Canadian visitors whom we are always glad to welcome to our city in bringing the subject into public notice, the topic of union with Canada has been very widely and generally debated. Members of the Legislature and business men have been interviewed at length by the progoters of the scheme, two public meetings have been held, and finally on Monday night a resolution passed the House of Assembly inviting the Government to make enquiries of the Dominion Government as to the feasibility of arriving at some arrangement for the admission of this colony into the Dominion with the status of a province. Admittedly of an unauthorized nature and carried on by private individuals with no official credentials from Canada or the Canadian Government, the campaign has been actively conducted, with the result, it must be confessed, that many persons have been induced to regard the idea of union with favor, and have committed themselves at least as far as approving the initiation of official negotiations."

FRANK MOTTA

Italian interpreter in the Toronto Police Court, whose investigations into the death of a compatriot in a street row has led to several arrests.

A QUEER ANIMAL

Species Unknown of Monkey-like Animal Found on Bunch of Bananas —Puzzles Scientists

What is it?

That question has sprung dozens of times to the lips of those who have seen the queer little animal in the possession of Mr. Joseph Portlance, of 1643 Notre Dame Street west, Montreal. Ever since being found ten months ago on a bunch of bananas in Mexico, Titu, as his owner calls him, has puzzled the scientists and naturalists in their efforts to find out exactly what variety of animal he is.

In general appearance resembling a monkey, Titu is about twenty-two inches long, with a coat mouse colored on his back, and pure white on the under side of his body. Unlike any known monkey Titu has a pouch like a kangaroo. An unusually long tail, barred with black and white, flat like a beaver's, long hind legs, powerfully muscled like those of a kangaroo, and short front ones, both terminating with the hand-like feet of the monkey, are some of the curious little animal's possessions. His head is as curious as his body. In shape it looks like the head of an opossum. Around each eye is a black ring that makes Titu look wonderfully wise and causes much amusement among the visitors who come to his master's shoemaker's shop.

The little animal is very fond of the warmth of the stove, and sits by the hour on his haunches with hands on knees, like an old man warming himself.

Titu is not very partial to human society, but is very fond of a big cat belonging to his master, liking nothing better than to nestle up to the feline's side and go off to sleep with his long tail coiled around him.

The little animal's liking for heat got him into trouble. When he came into the possession of Mr. Portlance his tail was about two feet long. One day he stuck it in the fire. In his efforts to sooth the pain he has eaten off fully six inches of the caudal extremity.

PURCHASED OLD LANDMARK

An old landmark, the Duke of Cambridge Hotel, Toronto, has been purchased by the C.P.R. The buildings had great historical interest to the old residents, and particularly the veterans of 1866 who served in the Fenian Raid. The property was a great military headquarters, and some of the tables and furniture used by the soldiers are still there and highly prized by Mr. and Mrs. Crawford and the family. It was on these tables the orders for the operations of the defending force were written and despatches sent. The railway will use the property in connection with the new C.P.R. freight yards.

HOUSEFLIES AND DISEASE

Mr. Walter E. Collinge, in the column of "Knowledge" devoted to economic biology, gives a list of the diseases which have been proved by experiment to be disseminated by houseflies. He also deplores the fact that there are a great many people who do not appreciate the danger that exists, and makes the confident statement that before long, thanks to the excellent work that is being carried on, the public will demand that steps shall be taken to control the pests and minimize the risks that are run.

The first open air band concert of the season will be given in Victoria Park one week from to-night.

FIND OUT IF YOU HAVE CATARRH

Don't Wait Till Consumption Develops, Cure Yourself Now.

CATARRHOZONE.

Is the discovery of this wonderful curative medicine the entire race is given freedom from Catarrhal diseases, including Asthma, Bronchitis and Throat Weaknesses.

Is catarrh in your nose?
Does it affect your hearing?
Is your throat husky?
Are your eyes watery?
Is your breath offensive?

These are the indications of Catarrh—now why continue to live in misery when cure is guaranteed with Catarrhozone? So sure is Catarrhozone to cure that thousands recommend it—tell of its wonderful merit after being cured themselves. Read this:

How Catarrhozone Cures.

Miss Worrel is a resident of Clarksville, Da., and has been the means of pointing the way to health of many of her friends.

"I received such extraordinary benefit that I have induced many of my friends to use it also. My catarrh was so bad a year ago that I despaired of ever getting cured. I am sure my lungs were somewhat affected also. The relief I got from Catarrhozone was remarkable. I improved under this treatment very quickly, and was cured so thoroughly the disease has never returned."

Get the large dollar size of Catarrhozone; it contains a beautiful hard rubber inhaler and medicine that lasts two months. Smaller sizes, 25c and 50c each. Beware of imitations—accept only "Catarrhozone," sold by all reliable dealers or by mail from The Catarrhozone Company, Kingston, Ont.

FOR STONEY LAKE

For the week commencing Monday, May 29th, the steamers will leave Lakefield on the arrival of the morning train, returning in time to connect with the evening train on Monday, Tuesday, Friday and Saturday.

STONEY LAKE NAVIGATION CO.
F. G. Young, Manager.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Tent For Sale.

Tent for sale—Large, only in use a few weeks, very reasonable. Apply W. J. L. Elliott, head of Weller St.

Y.W.C.A. Moonlight.

The annual moonlight excursion, under the auspices of the Y.W.C.A. will take place on the evening of Thursday, June 15th, per steamer Stoney Lake. The boat will leave the Wolfe street wharf at 8 o'clock and return about 10.30. The public are cordially invited to attend this excursion, and enjoy an evening on the water.

Two Handsome Hacks.

Mr. Robert Gibbs, with his usual enterprise, has just added two superb new hacks to his well-equipped livery barn. The hacks were made by the Gay Company, Oshawa, and are thoroughly up-to-date, being rubber tired and upholstered in fine leather. Mr. Gibbs has now five hacks in commission.

More Seats in the Parks.

His Worship Mayor Morrow suggested at a meeting of the Property Committee the other day, that more seats be provided for Central Park and the two little parks on Park street. This was suggested by a writer in The Times a short time ago, and we are glad to see that it is being followed. Parks without seats is like a church without similar accommodation.

Six Months in the Central.

A man named W. T. Collins faced Magistrate Dumble yesterday, charged with obtaining money under false pretences. It appears that Collins, who originally came from Norwood, was doing work in the city as organizer of a fraternal society. He cashed a cheque for $15 at the Montgomery House. He had no account in the bank on which the cheque was drawn, hence he was arrested. Collins pleaded guilty and was given six months in the Central Prison.

Special Meetings Ended.

The last of the meetings in St. Paul's Church, conducted by Prof. Lowe was held last night, and was largely attended. These meetings have been very interesting, and have been the means of awakening many to a sense of their danger in regard to things spiritual. The illustrated feature of Prof. Lowe's addresses was also a very great help.

Harem Skirt on the Streets.

The real harem skirt made its first appearance on the streets of Peterborough yesterday. It did not create any special notice. Those who met the lady wearing it in some cases took a second look, but that was all. The lady was accompanied by a wild West cowboy. Both belonged to the Rex Theatre.

He Will Recover.

Mrs. Carter, mother of George Carter, who was injured by a street car collision in Toronto on Friday last, went up to see her son. She was accompanied by Dr. Young, who has charge of the case. It appears that no bones were broken, but some internal injuries were sustained. The young man, however, will recover.

Royalty in Peterborough.

It is not every day that a real live prince passes through our city, which was the case yesterday morning, when His Royal Highness Prince Leopold of Battenburg, went down to Montreal from Toronto on the midnight. This prince is a cousin of King George, and is on his way home after touring the world.

Mr. W. H. Thorne, piano tuner for the R. P. Wilks Co., Toronto, is in the city for a day or two. Orders left at The Times' Bookstore will be promptly attended to.

A Treat.

The Ogilvie Flour Mills Company of Canada, the largest milling concern in the British Empire, have rented the ground floor of the T.A.S. Hall, as being the most convenient they could secure to accommodate an audience. Miss Jean MacPhee, graduate of Household Science, Guelph, and the Boston Cooking School, is showing the easiest and most economical methods of handling their high grade Royal Household flour, also serving a delightful afternoon tea free of charge. The Ogilvie Flour Mills Company cordially invite every lady in Peterborough to attend at 2.30 p.m. sharp every afternoon until June 7th.

The 57th Inspection.

The annual inspection of the 57th Regiment took place last night, in the presence of Col. Ogilvie, D.A.A.-C., of Kingston. The Regiment turned out in force, headed by both bands. The inspecting officer spoke in complimentary terms of the appearance and efficiency of the officers and men. After inspection, the Colonel and staff were entertained by the officers of the Regiment.

Black Flies Bad.

The Times was informed yesterday that the period of black flies is now on, and that people are being driven from Stony Lake by the fierceness of these horrid little insects. Fortunately, they remain only a few days. While present, however, they make things somewhat lively, especially for the "tenderfoot", who is not accustomed to be eaten alive.

Two Popular Trips.

The steamer Stoney Lake has an excursion booked for Tuesday, June 27th, under the auspices of the Woodmen, that should, and no doubt, will, attract a large crowd. The commodious steamer will leave the Wolfe St. wharf at 8 o'clock, and will arrive in Lindsay in the evening where the excursionists will take train for Peterborough, arriving home at 9 o'clock. Returning the steamer will, the following morning bring the Lindsay Woodmen to Peterborough, reaching this city in the evening, when the party will entrain for home. These two trips should be borne in mind.

One Cook

May make a cake "fit for the Queen," while another only succeeds in making a "pretty good cake," from the same materials.

It's a matter of skill!

People appreciate this, who have once tasted

Post Toasties

A delicious food, made of white corn—flaked and toasted to a delicate, crisp brown — to the "Queen's taste."

Post Toasties are served direct from the package with cream or milk, and sugar if desired—

A breakfast favorite!

"The Memory Lingers"

Canadian Postum Cereal Co., Ltd., Windsor, Ontario.

CANADIAN PACIFIC

KING'S BIRTHDAY

Single Fare. Good going June 2nd and 3rd, returning up to and including Tuesday, June 6th.

Secure tickets early at City Ticket Office.

W. McILROY, Agent, Peterboro.

ONTARIO—ST. LAWRENCE CANALS.—MURRAY CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Dredging Murray Canal," will be received at this office until 16 o'clock on Wednesday, May 31st.

The specification and form of contract to be entered into can be seen on and after Friday, May 12, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario-St. Lawrence canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation and place of residence of each member of the firm.

An accepted bank cheque for the sum of $1,500 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 10th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

TENDERS FOR STEEL BRIDGES

Tenders (endorsed Tender), will be received by the undersigned for the steel work or superstructure of two bridges known as Spencer's Bridge, Dummer, and Brown's Falls Bridge, Burleigh,, in the County of Peterborough, up to One O'Clock P.M.,

JUNE 19th, 1911

The lowest or any tender not necessarily accepted.

Plans and specifications may be obtained from the County Clerk or seen at the County Office, Peterborough.

ED. M. ELLIOTT,
County Clerk.

Peterborough, May 29th, 1911.

SOCIAL AND PERSONAL

The Times will be pleased to receive notice of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mr. W. H. Thorne, piano tuner, of Toronto, is in town for a few days, on business.

Mr. and Mrs. W. Henderson, Walton street, have returned from a visit with friends in Oshawa.

Mrs. S. F. M. Touchbourne, of 20 Benson avenue, is confined to her room through illness.

Mrs. H. J. Case, of New York, is visiting her sister, Mrs. Young, 305 Stewart street. Mrs. Young will receive on Wednesday.

Mr. Danny Simons, Peterborough's popular comedian, is spending a few days at the home of his mother in this city.

Mr. E. T. Carr, formerly of the local Quaker Oats Company, but now of the Chicago office, is in the city for a couple of weeks in the interests of the company.

The many friends of Mrs. Frank Mason, who has been confined to St. Joseph's Hospital for some weeks, will be pleased to learn that she has recovered sufficiently to return to her home.

LITTLE LOCAL LINES

Mr. Arthur Greer, son of Mr. J. H. Greer, electrician, has been appointed to the position of Assistant Purser on the large ferry Ontario, U.S.A., which plys between Cobourg and Rochester.

On account of the low water in the streams tributary to the lakes and rivers adjacent to the lumber camps, difficulty is being experienced in getting out the winter's cut of logs.

Lindsay Post: At a session of the police court on Saturday afternoon Mr. A. J. Wardrobe, of the Grand Union Hotel, was fined $51.10 for an infringement of the Liquor License Act.

A man named Heckles Smith was assessed $2 at the Police Court yesterday for being drunk. He did not have the collateral and was sent up on the hill for 10 days. A similar term was given his chum for a like offence.

JUDICIAL NOTICE

TO THE CREDITORS OF
THE CENTRAL MILLING CO.
OF PETERBOROUGH, LIMITED.

PURSUANT to the Winding-up Order made by the High Court of Justice in the matter of the Ontario Companies Act and Amendments thereto, and in the matter of the Central Milling Company of Peterborough, Limited, bearing date the fourth day of May, 1911.

The Creditors of the above named Company and all others who have claims against the said Company formerly carrying on business in the City of Peterborough, in the County of Peterborough, are on or before the 15th day of June, 1911, to send by post, prepaid to W. R. Morris, Liquidator, of the said Company, at his office, 375 Water Street, Peterborough, their Christian and Surnames, addresses and descriptions, the full particulars of their claims and the nature and amount of the securities (if any) held by them and the specified value of such securities verified by oath and in default thereof they will be excluded from the benefits of the said Act and Winding-up Order.

The undersigned Master at Peterborough, of the High Court of Justice will on the 16th day of June, 1911, at eleven o'clock, in the forenoon, at His Chambers in the Court House, in the City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice and let all parties then attend.

Dated this 16th day of May, 1911.

E. C. S. HUYCKE,
Local Master at Peterborough.

HALL, HAYES & HALL,
116 Hunter St., Peterborough,
Solicitors for Liquidator.

JUDICIAL NOTICE

TO THE CREDITORS OF
Canadian Cordage and Manufacturing Co., Ltd.

Pursuant to the Winding-up order, made in the High Court of Justice in the matter of the Canadian Cordage and Manufacturing Company, Limited, and in the matter of the Winding-up Act bearing date the 7th day of December, A.D., 1910, the creditors of the above named the Canadian Cordage and Manufacturing Company, Limited, and all others who have claims against the said Company, formerly carrying on business in the City of Peterborough and elsewhere, are, on or before the 3rd day of July, A.D., 1911, to send by post, prepaid, to George Walford Hatton, Liquidator of the said Company, at his Office, 397½ George street, in the said City of Peterborough and Province of Ontario, their Christian and surnames, addresses and description, the full particulars of their claims, and the nature and amount of their securities, if any, held by them and the specified value of such securities, verified by oath, and in default thereof, they will be peremptorily excluded from the benefits of the said Act and of the said order.

The undersigned the Local Master of the High Court of Justice at Peterborough, will on the 6th day of July, 1911, at 11 o'clock in the forenoon, at His Chambers in the Courthouse at the said City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice. And let all parties then attend.

Dated at Peterborough this 22nd day of May, 1911.

E. C. S. HUYCKE.
Local Master at Peterborough.

SYDNEY MEDD,
Solicitor for Liquidator.
Bank of Commerce Bldg., Peterboro.

TO BUILDERS

Improvements at Central School

Tenders (marked "Tender for School Improvements") will be received by the Peterborough Board of Education up to

Monday, June 5th, at 5 p.m.

for certain improvements to be made at the Central School.

Plans and specifications can be seen at the office of Wm. Blackwell, Architect, Water Street.

TENDERS TO BE ADDRESSED TO G. H. THOMPSON, SECRETARY PETERBOROUGH BOARD OF EDUCATION.

The lowest or any Tender not necessarily accepted.

TO BUILDERS, STEAM HEATERS AND PLUMBERS

-: TENDERS MARKED :-

"TENDER FOR SCHOOL IMPROVEMENTS"

will be received by the Peterborough Board of Education up to

Monday 5 p.m., June 5th

for the following works.

1st—For completing the 3rd Storey of the King Edward School.

2nd—For completing the present System of Steam Heating in the King Edward School.

3rd—A new System of Steam Heating and Plumbing in the old School, formerly used as a Collegiate Institute.

Plans and Specifications can be seen at the office of Wm. Blackwell, Architect, Water Street.

Tenders to be addressed to G. H. Thompson, Secretary Peterborough Board of Education.

The lowest or any Tender not necessarily accepted.

HAVE YOU ATTENDED

Ogilvie's big flour demonstration now going on in your city? If not you are missing an educational treat in cookery. The ground floor of the T. A. S. Hall, Simcoe street, has been rented for this purpose. Demonstrations commence at 2.30 sharp. Afternoon tea served free to housewives until June 7th.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards. Easy payments, 10 per cent. cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

VOL XXXIV NO. 129 PETERBOROUGH, ONTARIO, THURSDAY JUNE 1 1911 PRICE TWO CENTS

SEEK TO ASCERTAIN POWERS OF CHURCH TO CONTROL MARRIAGE LAWS OF QUEBEC—A TEST CASE

Montreal, May 31.—Another step in the now famous Hebert-Clouatre marriage case was taken yesterday, when attorneys for Madame Clouatre filed an inscription, asking that the appeal from the judgment annulling her marriage with Emile Hebert be heard June 12.

The marriage was annulled by Judge Lamarsdeau, because of a decree that had been issued by Archbishop Bruchesi against the marriage of Roman Catholics by Protestant ministers. Emile Hebert and Maria Emma Clouatre are both Roman Catholics, but their marriage was celebrated by a Protestant minister, Rev. Mr. Timmerlake.

It is likely that the case will be fought through the courts as a test case to ascertain what powers the Roman Catholic Church possesses with regard to marriage in this Province.

GRAMOPHONE RECORDED EVIDENCE

Montreal, May 31.—A novel experiment was tried for the first time in Canada at the Court House, that of a trial "reported by a gramophone."

The experiment was attended by Chief Justice Sir Melbourne Tait, Sheriff Lemieux, Messrs. N. K. Laflamme, K.C., Rosario Genest, advocate, and A. St. Martin, an official court stenographer.

A show trial was started, Sir Melbourne acting as judge, Mr. Laflamme as attorney for the plaintiff, Mr. Genest as attorney for the defendant, and the Sheriff Lemieux as the inevitable witness. After a prolonged sitting the gramophone recited what had taken place.

The object was to ascertain if it would be possible to conduct the business of courts without court stenographers.

THE OTONABEE POWER COMPANY TO SPEND LARGE AMOUNT

Mr. W. G. Ferguson stated that the Otonabee Power Company, Limited, of which he is President, has recently acquired from Messrs. Daniel Moloney and R. S. Bolton, of Douro, about 50 acres of land on the Douro side of the Otonabee River, between dams numbers Four and Five, lying West of Lakefield Branch of the Grand Trunk Railway, for the purpose of developing dams numbers Four and Five under one head. The Company propose to construct their headraces through this property and erect their Power House below Lock No. 5 of sufficient size and capacity to develop the total flow of the Otonabee River. Their new work will cost upwards of $200,000, and will enable the Company to place upon the market in Peterborough a large quantity of surplus electric power, which will be available for new industries and for existing industries which are contemplating enlarging their works. The Company feel that if intending manufacturers are aware of the fact that there is actually existing a large quantity of surplus electric power available for immediate use it will have a more pronounced effect in inducing them to locate in Peterborough.

During the Spring of 1907 the Company had Messrs. Ross & Holgate, consulting Engineers of Montreal, prepare plans and specifications with a view of developing this water power, but before the plans were actually completed, it will be remembered, that a very severe financial depression took place in Canada and the United States which had the effect of curtailing the output of existing factories and checking the establishment of new industries. Under the circumstances the company decided that it was not in its interests to proceed with this development and place upon the market a large amount of surplus power for which no market could be found and from which no revenue could be derived, and especially so when the electric companies had already on hand an ample surplus of electric power to supply existing industries. Since that time the consumption of electric power in Peterborough has been constantly and continuously increasing until at the present time there is a shortage of electric power to supply existing demands and to supply immediate future requirements, hence the Company has decided that it is in its own best interests and in that of the citizens of Peterborough to proceed at once with the development of thir power so soon as some minor details can be arranged satisfactory to the Company.

Hand Was Crushed.

Richard Green, an employee of the C.G.E. Blacksmith Department, who resides in Ashburnham, was the victim of a painful accident while at work yesterday morning. In some way he had his hand caught beneath a heavy hammer, crushing it badly. The services of Dr. Young were called in and the injured man was taken to Nicholls Hospital, where his injuries were attended to.

School Report.

The following is the report of S.S. No. 1, North Monaghan, for the month of May:

By percentage—

Sr. IV. Class—Verta Ward, 76; Myra Ward and Ivan Lillico, equal, 74; Mollie Campbell, 72.; Hazel Moncreif, 59; Leona Dobbin, 52.

Sr. IV.—Clara Dobbin, 83.

Jr. IV.—Ernest Payne, 74.

Jr. III.—Dinnah Bingham, 78; Clara Payne, 70.

Jr. II.—Mary Ward, 71; Lila Dobbin, 48.

First Book—Olive Snowden, Leighton Snowden, Edgar Milben.

Primer—Ida Watd and Mildred Young, equal; Cecil Fowler, Marjorie Clarke, Gwennie Armstrong, Hattie Armstrong.

Those who attended every day are: Ivan Lillico, Verta Ward, Myra Ward, Clara Dobbin, Ernest Payne, Clara Payne, Ida Ward and Mildred Young.

Nine-Year-Old Killed Father.

Bullocks, N.C., May 29.—Silas Cameron, a wealthy farmer was shot and killed by his nine-year-old son at the family home near here to-day as a result of a dispute between Cameron and his wife. The lad said he fired to save his mother from injury.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

MILK IN BOTTLES.

Editor Morning Times.

Sir,—I think the Council should pass a by-law abolishing the present unsanitary method of milk delivery. The tin cans now used by milk vendors, are nothing less than receptacles for all kinds of microbes and germs. Besides, the milk is frequently churned almost into buttermilk before it reaches the customer.

By adopting the bottle method there is no chance of infection, as the bottles are securely corked and the milk cannot "churn."

I hope the Times will advocate the above, and thus confer an everlasting benefit on the community.

One Who Knows.

DOMINION ELECTIONS THIS YEAR (?)

Editor Morning Times.

Sir,—The Mail and Empire and the Toronto News are loud in proclaiming to the people that a general election is at hand, while the Globe and our own Examiner is equally strong in asserting that nothing of the kind is probable. Now, what has The Times to say on the subject?

Conservative.

Reply—The Times is not in a position to throw any light on the subject. All we are able to do is to express our opinion. In view of the fact that the census is being taken this year, we cannot see how an election can be brought on before a redistribution of the constituencies is made. It will probably take months to do this. There is sure to be a long fight in Parliament over the redistribution bill, and should methods of obstruction prevail, it will mean a long session of the House next winter or Spring, when this matter will doubtless come up. We do not think the Opposition can afford to force a dissolution before redistribution, hence there will be no election this year.—Ed. Times.

COUNCIL AND BOARD OF TRADE.

Editor Morning Times.

Sir,—I would suggest to the members of the Board of Trade the advisability of arranging their meetings so as not to conflict with the meetings of the Council. If the Board of Trade is any good at all it should encourage the attendance of Aldermen at their meetings. On Tuesday evening, for instance, there was a meeting of the Council as well as a meeting of the Board of Trade, at which Mr. Ryerson Ritchie was to speak. The result was that the latter meeting was so poorly attended, the address was not given.

Public Opinion.

Reply—Mr. V. Eastwood, President of the Board of Trade, informed The Times yesterday that the meeting of the Board was arranged to take place before the notices of the Council meeting were sent out. He very properly deplored the evident lack of interest by the citizens in Board of Trade matters.—Ed. Times.

"WE SHUT OUR TEETH ON POPE'S DECREE"

Rev. Dr. Carman, Methodist Superintendent, Denounces Ne Temere Decree—Not Under Union Jack.

Stratford, May 31.—Dr. Carman handled the "Ne Temere" decree this morning at the London Methodist Conference without gloves. "We have only one voice for that. We shut our teeth on it and with eyes wide open say to the Pope at Rome 'Not under the British flag.' We are prepared to say to the venerable Pontiff that he has no authority to enter and break up a properly legalized marriage. I hold that a marriage by aMethodist minister is as valid as if performed by the Pope himself."

Touching Church Union, Dr. Carman declared the proper way to take votes was for every man to stand up and say, yes or no. He decried "troop voting."

NEW GONG AND INDICATOR WANTED AT PUMPING STATION

WOULD COST THE CITY $200 OR MORE.

This is in Connection With the Fire Alarm System—F. W. and L. Committee think a 15-inch Bell Only Would Answer the Purpose.

The City's Fire, Water and Light Committee met last night, chairman Ald. Morgan, presiding. There were also present, Mayor Morrow and Aldermen Graham, Edgar, Metheral and Kernaghan.

Chief Thompson reported the loss of 450 feet of fire hose, destroyed by fire on the night of the fire at the old Bridge works, on May 9th. The loss of this hose was due to an attempt to save a number of boat houses.

FIREMEN'S UNIFORMS.

Specifications for firemen's uniforms for 1911 were submitted, by Chief Howard; they provide for the same class of uniform as furnished last year in every particular.

The committee will invite tenders for uniforms for the current year.

The Waterworks Department reported that the gong at the pumping station in connection with the fire alarm system is not working satisfactorily: this gong is not loud enough and at times will not ring at all. A new bell with indicator, such as the waterworks department needs would cost $300.

Chief Howard—"The Engineer asks for an indicator that would, should he be away from the pumping station when an alarm is rung, give him on his return to the building information as to the fire. There are occasions when he is outside the station and cannot hear the present gong."

The Mayor—"I'd get a bell that would alarm the Engineer at the pumping station, even were he at the head of the dam."

Chief Howard—"A 15-inch bell would probably give an alarm loud enough. This alone would cost $125 or $150."

It was thought that the purchase of a 15-inch bell would answer all purposes, without the additional expense of an indicator such as they have at the fire hall.

The Clerk was instructed to get prices for a 15-inch bell and an indicator separately for guidance of the committee as to what course to adopt in this connection.

NEW STREET LIGHTING SYSTEM.

The Electric Power Co's proposition to furnish the city free of charge with current for illuminating a new system of group incandescent street lights for a period of three years, was discussed.

The company would furnish sufficient current for at least 220 lights, grouped five on a stand, such as may be seen outside the Lundy Block on George street. This would allow for some forty stands of great illuminating capacity, which would, if the proposition is accepted be used apart from the present street lights, at most desirable points, thus affording very acceptable additional street illumination. Each of the stands, with lamps, however, would cost in the neighborhood of $50, which expense would have to be borne by the city. For forty stands this would mean $2,000 not provided for in the estimates. Ald. Morgan did not think that should embarrass the Council, as from the present outlook the city stands to save the $4,000 at one time contemplated for maintenance of the Industrial Commission Department.

The committee will ascertain the price of these stands together with other information before taking any definite action.

The chairman was authorized to have the lamps fixed in position on Smith street bridge and connected up.

PAID THE BILL.

Ald. Morgan at this juncture said that his fyle contained a bill from Chief Howard, amounting to $21.20 for expenses to Toronto and Montreal in connection with securing cheaper power from the Bell Telephone Co., for the fire alarm system. This matter had been on fyle now for a couple of years and should be settled one way or another.

Ald. Graham—"At the time in question—(1908) the Chief said he would pay his own expenses. What do you think about it Mr. Chairman?"

Ald. Morgan—"I'm being converted so frequently that I hardly like to give my opinion (laughter). But the Chief by his interview with the Bell people has certainly saved the city about $200, and it would only be fair to pay the bill asked."

Ald. Edgar—"If he made the trips in the city's interests his expenses should be paid."

Ald. Graham—"He didn't go for the city, he made the trips to suit himself."

Ald. Edgar—"Well, joint interests were served."

Chief Howard claimed that Ald. Batten had assured him that should he effect a saving for the city his expenses would be met.

Ald. Graham—"Ald. Batten made that remark, but without authority. I don't object to the bill, but I do to the principle. The Chief said he would pay his own way and should stand by his statement."

Moved by Ald. Kernaghan, seconded by Ald. Edgar,—That the bill be paid.

Aldermen Graham and Metheral moved in amendment, that no action be taken.

The motion carried and the bill will be paid.

The Chief by his trips certainly saved the city considerable yearly expense by securing cheaper power for the alarm system, and the committee moved in the right direction.

MORE LIGHTS.

His Worship offered that the residents on Homewood avenue would like the arc light in their neighborhood changed to incandescent lamps.

Ald. Duncan asked that a light be placed at the end of Dalhousie and Water streets, at the river. This will be necessary when said streets are opened.

The committee will make a tour of inspection on the question of re-adjustment of street lights and provision of new ones, when the foregoing petitions will be looked into.

MUST PAY UP OR—

The City Solicitor will be instructed to take steps to force George Stevens to pay for the scrap iron he got from the fire hall a couple of years ago.

Ald. Metheral offered that the Fire, Water and Light Committee should arrange for a shed in which to keep their apparatus at the fire hall. The Board of Works have a shed there which is partly used by the Department. Now that a sweeper is coming there will be no room in the Board of Works' shed for any other apparatus than their own, hence the request that the F.,W. and L. Department secure their own shed accommodation.

NEW ASSISTANT CHIEF.

Ald. Morgan thought it might be advisable for the committee and Chief Howard to agree upon the selection of an assistant chief for the fire hall. They might perhaps get together and talk the matter over in a quiet way, which might have a tendency to avoid future misunderstanding.

Ald. Graham—"I don't think we have any right to interfere in this matter. The Chief should have the privilege of appointing his own officers; but all things being equal, the assistant should be a local man."

Chief Howard replied that when the time comes he would be only too pleased to confer with the committee. While it was imperative that he should engage his men and officers—otherwise he could not be expected to have any control over the department—he would gladly confer with the committee on all questions affecting the interests of the department.

"I would prefer a local man as assistant," concluded Chief Howard, "as a stranger would find it difficult to become conversant with the city's streets; Peterborough is a hard city to learn."

THE CENSUS.

The work of taking the census in West Peterborough will commence at eight o'clock this morning, and every one should be prepared for the call of the enumerators. They have 21 days to complete their work.

SUNSTAR WINS THE DERBY RECORD CROWD AT EPSOM

Epsom, May 31.—Sunstar's time was 2 minutes 36 4-5 seconds, 1 3-5 seconds slower than the record made over the Derby course last year by Mr. Fairier's Lemberg.

J. B. Joel, by his victory to-day won a double event bet, having laid $500 against $37,500 that Sunstar would win the One Thousand Guinea Stakes and also the Derby.

While Mr. Joel has been remarkably successful as ahorse racer of late years, he has a personal unpopularity on the turf which has more than once been demonstrated by the hooting of his victories. The winning owner was given the chilliest kind of a reception by the spectators in the grand stand when he led Sunstar in to the paddock after the finish.

Cavendish Logs "Hung Up."

The Cavendish Lumber Company, which operates on the Trent waters, has had a drive of logs "hung up" this year. This means that the supply of water in the creeks was not sufficient to float them down, consequently they must remain where they are till next season. Fortunately the Peterborough Lumber Company, as well as the McDonald Lumber Company, succeeded in getting their logs to deep water during the spring freshets.

Kaiser's Son Injured.

Charlottenberg, Germany, May 29.—Prince Joachim, youngest son of the Kaiser, was slightly wounded in the leg to-day during the manoeuvres here.

DASTARDLY WORK OF TRAIN WRECKERS

Ridgetown, May 31.—A deliberate case of train wrecking caused the death of two men half a mile east of the town at 4 o'clock this morning.

TheNew York express, en route to Chicago on the Michigan Central struck a broken rail, and the engine and seven coaches were piled in a heap.

The passenger coach was at the rear of the train and the occupants fortunately escaped serious injury, but engineer Stephen Quinlan and fireman Russell Oakes were instantly killed.

An examination of the rails indicates a deliberate case of wrecking. A section house near the scene of the accident was found broken open and a crowbar with which the rails had been evidently pried off the ties was lying on the right of way near by.

The wrecked coaches were express and baggage cars which account for the fact that the wreck was not a disaster of appalling magnitude

ENGINE THAT MADE A RECORD.

St. Thomas, Ont., May 31.—All indications point to a deliberate attempt to wreck the M.C.R. train, a mile east of Ridgetown. The tool house of Section Foreman A. Lamb was broken into last night and the tools found at the scene of the wreck were taken therefrom. Alongside the track were found two crowbars and a wrench, also bolts and nuts off the fish plate, which was removed.

The engine was number 8422 which made a record run last June. It tipped over on the engineer's side and the engineer was found dead in his seat, crushed by the tender. Foreman Oakes was scalded to dead. Two baggage cars were derailed.

FIVE BURNED TO DEATH

Silverton, B.C., May 31.—A raging fire, swept by a high wind, almost wiped out the city of Silverton at an early hour yesterday morning, and as a result the leading hotels and the business section are amass of ruins.

Three bodies have so far been recovered from the ruins of the Windsor Hotel, where the fire is said to have originated, and it is feared at least two other lives were lost. F. L. Fairgrieve, bartender, R. Fairgrieve, and R. McTaggart are the known victims.

The Victoria Hotel was also gutted by fire, but all the people residing there have been accounted for; no serious injury was suffered by them.

A panic ensued at the Windsor following the alarm of fire, and a number were seriously hurt in their attempt to reach the street. These were rushed to the hospital, where their wounds were dressed.

HORSE NEARLY KILLED BY ELECTRICITY

Seems to be a Strong Current From Electric Street Light Connection on George Street.

Ald. Duncan notified the city's Fire Water and Light Committee last night that Fanning's delivery horse received a severe electric shock yesterday, apparently from current escaping from an electric street light connection opposite Campbell's barber shop, above Coleman's confectionery on George street. The animal all but collapsed. A citizen also received a shock at this point yesterday. The current, Ald. Duncan offered seemed to be running down the pole to the ground.

Chairman Ald. Morgan said he would have the Peterborough Light and Power Co. look into this matter at once.

MARK TWAIN'S WORKS. ...
If You are interested in obtaining a complete set of all his books at one-half the former price on the easy payment plan, it will cost nothing to get full particulars and a new thirty-two page book "Little Stories About Mark Twain." Address Times Office.

A Sneezing Epidemic

It's Not Influenza—But Catarrh that Comes With Change of Season.

Every second person that you meet seems to have a sneeze and stuffed feeling in the forehead and nostrils. To cure promptly, say half an hour, there is nothing worth using except Catarrhozone. You inhale its balsamic vapor, and feel as if you were among the Norway Pines. This is because Catarrhozone contains a healing medicine, light as pine air, which is breathed straight into the lungs and bronchial tubes. Away goes the cold, sneezing and catarrhal cough cease, bronchial irritation stops; in short, you are cured of catarrh by a pleasant, simple remedy free from sedative and irritants. Catarrhozone is a good safe, family remedy for coughs, colds, croup, sore throat, that may be taken by young and old with absolute certainty of swift permanent cure. Try "Catarrhozone," but beware of the substitutor who may try to induce you to take something instead of "Catarrhozone." Large size lasts two months. Price $1.00. Smaller sizes 25c and 50c. Sold by all dealers, or The Catarrhozone Company, Kingston, Ont.

The Morning Times

WEDNESDAY, MAY 31st, 1911.

THE IMPERIAL CONFERENCE.

Practically the Imperial Conference in London has already decided that no attempt is to be made yet to bring about any formal closer touch between Great Britain and the overseas Dominions as regards the foreign relations of the empire. This proposition of Sir Joseph Ward, premier of New Zealand, for a standing joint Imperial Advisory Council found no support. Milder propositions looking to some concerted mutual medium of approach fell flat. The Conference may arrive at desirable agreements upon specific propositions conducing to homogeneity and good understanding within the empire; but nothing is to be done to help make the empire a more efficient unit in its dealings with foreign nations.

The Ottawa Journal thinks that perhaps this is as well. Perhaps as well to go too slow than too fast, in such a regard. If Canada, Australia, New Zealand, South Africa, have it in them to remain British, there may be no hurry for political formulae; while if on the contrary any of these over-seas dominions, owing to peculiar conditions—such as, with us, a vast foreign immigration—should by a majority come to be ready to change from British ideals—the country would in any case break away from any formulae which might now be set up.

What we in this country, however, should rightly be concerned about, is that if we propose to continue to drift along under the British flag without definite political responsibility to it, we should do it in a self-respecting way—namely, by preparing ourselves either to be able to assist that flag if it gets into trouble and we wish to stick to it, or to protect ourselves if we cut loose from it. Certainly, fine talk about our content to remain in the family of British nations, such as brother Bourassa treats us to, and some others who have less excuse by origin, is contemptible enough if we propose to continue to allow the taxpayers of the United Kingdom to pay for all the police.

Death of a Montreal Man.

Ocala, Fla., May 30.—Albert H. Ingles, a telegraph operator, formerly of Montreal, was found dead in a local hotel yesterday. He came here from New York some time ago for his health, having suffered a nervous breakdown.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to obtain patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

CURED OF LEPROSY, WOMAN HAS MARRIED.

Disease is Not So Dangerous to Others as is Tuberculosis, Doctors Say.

New York, May 30.—That leprosy can be cured is apparently demonstrated by the discharge of two patients at Blackwell's Island Hospital here after several years treatment in isolation. The first patient was allowed his freedom eight months ago, but no announcement was made until this week as it was feared that if any publicity were attached to the case life would be unbearable for the patient.

SHOT A PLAYMATE.

Fourteen-Year-Old Boy is Held on a Serious Charge.

Windsor, Ont., May 30.—A bullet, deliberately fired by Edward Handley of Walkerville, according to spectators, nearly ended the life of Louis Fortin, his playmate, on Saturday night. Both boys are about 14 years of age. Fortin is in Hotel Dieu in a precarious condition and may die. Handley is held by the police headquarters awaiting the outcome of his companion's injuries.

The police claim that they have evidence that there was bad blood between the boys, although Handley claims that the shooting was accidental.

QUEEN CHARLOTTE

The Capital City of the Islands

THE LAST WEST

The only town on Graham Island that has a monthly pay roll, and the only sawmill shipping lumber to foreign ports.

The only town having a railway gazetted to its very doors on the island.

The only city on Graham Island having electric light, city water, miles of sidewalks, churches, school, hospital, postoffice, first-class drug store billiard hall, city hall, hotels, boarding house, barber shop and other general stores, and the only newspaper published on the Island, the Queen Charlotte News.

We are positively the centre of all the vast wealth of the entire Islands, including farm lands, timber lands, coal and metalliferous mines. These products must come out at Queen Charlotte City, through the Honna River Valley, and through which the Island Railway must run according to charters already granted.

The combined townsite interests cover one thousand acres, of which five hundred are practically level alluvial soil with no rocks.

A fine water power from the Honna River, good drainage and the best harbor on the entire Islands.

Our lots are all 50 feet by 120 feet, ranging in price from $150 to $300; one-third cash, balance on time at 6 per cent., or deeds can be had at once if desired.

Fully 200,000 acres of farm lands, suitable for mixed farming, only await the hand of man, a large portion of which is already located.

The verdure clad mountains are vast treasure vaults of gold, copper, silver and other precious metals, while our valleys are underlaid with a wealth of the finest coal and covered with a vast forest of spruce, hemlock and yellow cedar. These, coupled with our fisheries, are at the very doors and within sight of Queen Charlotte City.

Taking all these facts into consideration, and with the present progress being made in developing our resources, which are at the gateways of transportation both by water and railway, with the advent of the completion of the Grand Trunk Railroad, Queen Charlotte City is destined to be one of the province's most prosperous cities.

It is owned largely by the wealthiest and most honorable men of our province, who would not be a party in misrepresenting facts and are prepared to endorse every statement herein made.

The townsite company are now offering a further 75 lots on Second avenue at a very low price and on easy terms, if taken at once, and under conditions that will make you a 100 per cent. on your investment in 90 days, for 20 per cent. of the gross proceeds will be used by letting a contract for the clearing and grading of Second avenue from Third street west. The company guarantees to advance the remaining 75 unsold lots on Second avenue from $150 to $225 as soon as the first 75 have been sold. The company is making this effort in order to join with the government in making Second avenue the trunk road through the townsite from the Wilson-Robinson coal fields, Honna River Valley, Lawn Hill and Miller Creek districts. Now you can secure any unsold lot on Second avenue, including fourteen in Keith's addition, to-day for $150, except corners, on easy terms, 1-4 cash, balance 6, 12 and 18 months at 6 per cent. This will positively be your last chance for a cheap lot in Queen Charlotte City, for every lot in the townsite will surely go from $500 to $1000 when the public realize that in the Inland River railroad from Queen Charlotte to the head of Massett Inlet is to be started this summer, in addition to the present work already outlined, thus giving work to an army of men. There are at least 5000 citizens of Vancouver who have invested in the various resources of the islands. Conclusive evidence of these facts, a landscape drawing of the townsite and a portion of Graham Island inscribed with an intelligent edition of the resources of the islands can be seen at the office of J. J. Miller, 32 Hastings street, Vancouver, B. C., Agent for Vancouver, and plans at office of "Times", Peterboro'.

QUEBEC STEAMSHIP CO., Ltd.

River and Gulf of St. Lawrence

Summer Cruises in Cool Latitudes

S. S. "Canadoc" 1900 tons, recently fitted out on the Clyde specially for this service, with all modern comforts, sails from Montreal at 4 p.m. Thursdays, 9th and 22nd June, 6th and 20th July, 3rd, 17th and 31st August, 14th and 28th September, and from Quebec the following day at noon, for Pictou, N. S., calling at Gaspe, Mal Bay, Perce, Grand River, Summerside, P.E.I., and Charlottetown, P. E. I.

NOTICE

Sealed Tenders endorsed "Tender" will be received by the undersigned up to two o'clock p.m.

JUNE THE FIRST, 1911

for the following:—

Scrape and remove all old paint and rust, etc., and repaint the Locks Bridge, on the boundary between the city and North Monaghan. The county will supply material (paint and oil). All work to be done properly and securities for the proper carrying out and completion of work, to the satisfaction of W. G. Howden, chairman of the Roads and Bridges committee.

The lowest or any tender not necessarily accepted.

A marked check for $25.00 must accompany each tender as a guarantee for the proper execution of contract.

ED. M. ELLIOTT,
County Clerk.
Peterborough, May 22nd, 1911.

CORONATION OIL COMPANY, LIMITED

Capital 850,000 Shares of a par value of $1.00 Each

"Incorporated in Canada, Directed and Managed by Canadians"

This Company commenced business operations on May 16th, 1911, and expects to complete and bring in its first well within ninety days from that date. The Company owns a lease of 40 acres for twenty years, situated in the heart of the oil producing territory in the Midway field, Kern County, California. Within about one and a half miles of this property there are now seven actively producing wells.

Subscriptions Are Now Asked For

150,000 shares of the Capital Stock of the Company at 15 cents each.

A Further Issue of

150,000 shares will be offered later at 25 cents each.

NOTE PARTICULARLY.—The Company is not over capitalised; its shares are non-assessable (no personal liability) and they are offered at a reasonable price; THE DIRECTORS SHARES AND THE SHARES ISSUED IN PAYMENT OF THE LEASE ARE PLACED IN ESCROW AND MAY NOT BE SOLD UNTIL ONE YEAR FROM DATE OR UNTIL OIL IN PAYING QUANTITIES IS PRODUCED.

For Prospectuses, Maps of the field and full information, write to

DEPARTMENT OF RAILWAYS AED CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted cheque for the sum of $16,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheques thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheques of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 13th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of contract can be seen and form of tender obtained at this department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., H. J. Lamb, Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 9, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

SEALED TENDERS addressed to the undersigned, and endorsed 'Tender for Public Building, Seaforth Ontario,' will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

"NO USE FOR BREEZE"

It's Only Thing That Escapes U. S. Steel Corporation.

The United States Steel Corporation is willing to pay a million dollars to the man who will discover a method which will enable the company to profitably dispose of a by-product which is called "breeze."

The Steel Corporation uses all its waste product save "breeze." Gas escaping from the blast furnaces is converted into power by producer gas engines. Dust escaping from the cement works at Buffington in time is now captured and converted into a saleable product, but "breeze" so far is a waste. It is nothing but coke dust.

All coke product is sifted, and anything which screens less than three-eighths of an inch is "breeze," so rich in carbon that it has many times the heat power of coal. No furnaces can be constructed with grates fine enough to burn it. Fifteen thousand tons a month of "breeze" accumulated at the coke ovens in Gary. So far the only use for it is for ventilation in the zinc smelting, but it is costly. Experiments where "breeze" is mixed with sawdust for fireproof tile manufacturing have also been tried.

FINDS AN ANCIENT OWL

Connecticut Man Makes Odd Discovery in Tree Trunk.

From that are found alive in the hearts of trees hundreds of years old must take a back jump. Fire Warden George W. Mills, of Broad River, Conn., cut down a great oak, and says he found in its interior a live owl, which had apparently been there for years, living on the grubs.

Mills has the owl, alive, to back up his statement. Bird fanciers say the bird is of an unknown species, which opinion Mills cites to uphold his contention that the hooter is of an extremely ancient species. The owl is grayish white in color and his eyelids are immovable, the result of his being continuously in the dark and never having to close them. Light seems to cause him actual pain.

STAGE FOR THE NORTH

Service by Teams into the Peace River Country Has Been Started

A stage line into the Peace River Country from Edson, Alberta, has been started. Twenty teams are operating five stages between Edson and Big Smokey, which is opposite Grande Prairie. From this point provision has been made for carrying passengers by team into the Peace River district.

Mr. Taft, who has charge of the service, was formerly government guide in the north, and was among the first to recognize the necessity of a stage line into the Peace River district. He has been over the road several times, establishing stopping places where his passengers can stop over night and secure meals. He has also cached horse feed along the route, out of Edson. The hay that he has cached has cost him $100 a ton. On one of his trips last winter, when he had a foot frozen and his cached feed was stolen, he had to pay five cents per pound for hay and $3 a bushel for oats. These prices still obtain, but when the weather moderates there will be an abundance of feed on meadows along the road. At present most of the settlers are leaving their effects in Edson. There is a scarcity of feed also on the route from Lesser Slave Lake to Sturgeon Lake. The present road is 235 miles in length, but the government has five gangs of men working on a short cut that will reduce the distance to 200 miles.

A LONG VENDETTA

Indiana Men Fight Over Event of 14 Years Ago.

Nicholas Kiefner was arrested in Brazil, Ind., on a charge of assault for whipping James Tucker. The arrest revealed a vendetta of fourteen years' standing, which was sworn to by Kiefner when he was a boy of eleven years.

Fourteen years ago Tucker was teaching school. He whipped Kiefner for some youthful prank and Kiefner did not return to school. He vowed to repay the whipping in kind.

When the pair met for the first time in all those years, Kiefner recalled the incident and informed Tucker that he intended to make good. He did.

BABY ILL; CALL FIREMEN

Chicago Mother, Terrorized, Brings Hook and Ladder to Relief

When baby becomes ill, send in a fire alarm.

This was effectively tried in Chicago by Mrs. Mary Rothschild, when her baby had a severe coughing spell. She rushed into the street shouting fire and neighbors sent in fire alarms. Two companies responded. When a battalion chief asked where the blaze was, the reply of the mother was, "Never mind the fire! Baby's choking. Don't stand there doing nothing. Help me!"

The firemen called a doctor and the baby was soon himself again.

ACTOR-MANAGER 21 YEARS

"I have recently calculated that I have spent, on the whole, $30,000 in commissions to authors for plays that I have never been able to produce," said Mr. George Alexander, who is one of those managers who like to encourage unknown dramatists. The postman brings him thirty plays a week on an average, and each one is carefully considered. And he has only once refused a play that afterwards made a great success.

Short Skirts Forbidden.

Representative Arthur Towlesbury has introduced to the Massachusetts State Legislature a Bill which forbids the wearing of any skirt that does not come six inches below the knee cap. The Bill does not exempt bathing dresses, nor does it fix any age limits. Another article in the Bill aims at low-necked dresses. In the future in Massachusetts the Bill would prohibit any woman appearing in public in a gown which does not have pronounced shoulder-straps.

ADVERTISE IN THE TIMES.

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

MOTOR ACROSS SAHARA

Denver Woman Plans Strange Trip in Specially Constructed Auto.

Herman A. [illegible] of Denver, Col., is to [illegible] the chauffeur on an automobile trip through the Sahara desert. [illegible] party is now in New York to take the steamer for Africa. The trip will consume about six months.

The trip will be made in a specially constructed automobile built by Mrs. Julian Heber, of Denver, a ranch owner, and she will be accompanied by a young woman companion from New York city, Mrs. Lo[illegible] Hale. Guides have been engaged in Algiers, and the trip through the desert will commence as soon as the party lands.

FIGHT THE ROAD HOG

What an English Writer Says of the Tyranny of Some Motorists

Apparently the people in the Old Country, as well as in Canada, have fears of the careless motorist. Hear what John Lloyd says in an English paper:—

"I think it is time that something should be done to protect the general public against the encroachments of the motorist. The public are very long-suffering, but things have now reached such a pass that there is no longer any safety for the pedestrian either in the streets of the towns or in the country roads. If a pedestrian is walking across a street and a motor-car or motor-bus is approaching, the driver seems to think that all he has to do is to 'toot' his horn, and there his duty ends. The pedestrian ought then, he considers, to scurry out of the way or get killed. He seems to think that the pedestrian is little more than a trespasser on the highway, and that if he does get run down he is guilty of contributory negligence for being on the road at all. As often as not, when a motor runs into a pedestrian or a horse vehicle, it is the chauffeur who adopts the attitude of an aggrieved person, not the man he has run down. The public themselves are absolutely powerless. One sees this in the streets every day. It is impossible to stand up and argue with a machine rushing towards you at anything from twelve to over twenty miles an hour; your life depends on your agility in getting out of the way.

"A chauffeur becomes utterly indifferent to all the amenities of the road if he wants to get round some horsed vehicle. He thinks nothing of terrifying a horse or two, and considers they may regard themselves as lucky if they escape physical damage. This is bad enough in towns, but in some country districts it has become almost impossible for ladies with children to go driving, as they used to do. I want it to be distinctly understood, of course, that I have not any objection to motor traffic properly conducted. What I object to is the callousness and the lack of consideration displayed by the average man in the motor towards everybody else. I think it is time these people should realize that others besides themselves have an equal right to the roadway."

THE KING'S SECRETARY

Sir Arthur Bigge Saw Service in the Zulu War

Sir Arthur Bigge, one of King George's private secretaries, is a soldier by profession, and saw active service during the Zulu War. He became Groom-in-Waiting and assistant private secretary to Queen Victoria in 1886, but at first was rather diffident about taking any appointment at Court when it was offered to him. In his difficulty he consulted a very well-known soldier and asked his advice. "Well, it all depends," replied the latter; "if you have the sense I credit you with, you will accept the offer and thank your lucky stars that it has come your way. If, on the other hand, you are a fool, you will stay in the Army." "I had to take the post," Sir Arthur Bigge remarked, when relating this incident, "in order to vindicate my intelligence."

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

ETIQUETTE FOR MEN

Some Things it is Not Good Form for Men to Do

Etiquette may be described as the oil that greases the machinery of social life, says John Bull. It is the passport to good society. Its assiduous practice conduces not only to the comfort of one's friends, relatives, and acquaintances, but, what is far more important, also gives rise to a pleasant glow of self-satisfaction.

In no circumstances is the practice of etiquette more essential than when at table. Many people who are perfectly polite at lunch and dinner, have at breakfast manners of a savage. This should not be. For example, it is very bad form to sniff loudly and suspiciously at one's egg. It is disturbing to other people. It arouses in them feelings of apprehension which may be quite groundless. If there is anything wrong with your egg, drop it under the table when no one is looking.

Marmalade should never be spread with the fingers. You might be called upon to shake hands with the rate-collector or some other caller during the morning, and many fastidious people have a rooted objection to shaking a hand "that stinketh closer than a brother."

Drinking from the saucer is not only a mark of ill-breeding, but also an indication of great thirst, an early-morning malady best concealed.

Make as little noise as possible whilst eating. It is inconsiderate to drown the conversation. If you are breakfasting alone—which is to be recommended—you may, of course, make a noise like a sausage-machine if you are so disposed.

Never speak with your mouth full. Arguments punctuated by flying crumbs are not always convincing. Besides, it is wicked to waste good food.

Endeavor not to laugh when you are drinking. Tea and coffee stains are not easily removed.

Never say "What's this?" when you know perfectly well what it is. If you don't like it, give it to the cat. If you have no cat, throw it out of the window.

When lunching in public, avoid looking intently at your neighbor's plate. He has to eat what's on it, not you. Keep your eyes fixed on your own plate, or the waiter may think you have finished, and snatch it away.

Never unbutton your waistcoat when half-way through a meal. It is best to let out the strap at the back before entering the room.

Never haggle about the bill. If it is more than you can pay, wait until you can speak to the manager alone. If you are undercharged, pay, and leave the restaurant as quickly as possible.

A careful study of these little points will not only make the path of life more smooth, but will also raise you in the estimation of your friends and relatives.

It is worse than useless to take any medicine internally for muscular or chronic rheumatism. All that is needed is a free application of Chamberlain's Liniment. For sale by all dealers.

BOYS AFTER REDSKINS

They run Away from New York for Canada.

The Hudson Bay Company might have been alarmed by a report sent out by the New York police recently that two small boys started north one afternoon with the intention of wiping out every redskin in Canada, all thoughtless of the danger that may be done to the fur trade. The leader of the expedition is Leon R. Saden, eight years old, the son of Capt. W. R. Saden, whose business is sailing yachts. Leon's companion is Maurice Gotlieb, ten years old.

Capt. Saden says that when Leon went he took with him $70 from the captain's bureau drawer. The captain also says that Leon's thirst for Indian blood was inspired by the writings of a popular juvenile author whose works Leon received at Christmas.

Captain Saden talked with Leon's school teacher, who questioned some of the boys at Public School 87 and learned that before Leon went away he had told some of his plans and tried to secure a larger following by buying ice cream for recruits. Many at the cream, but only Maurice Gotlieb kept the contract when it came time to march.

CARVINGS OF AN ANCIENT RACE

Mr. Clement Wragge paid a visit lately to what are known as the "tattooed rocks," on the coast near Raglan, New Zealand, and as a result he is distinctly of opinion that they are the work of neither Tamil nor Maori, but are the inscriptions of a very ancient race of sun worship people, antedating the advent of the Maori by untold centuries. The spinal circle, ovals, crosses, and squares, he says, are most significant, and confirm his opinion that New Zealand has been inhabited by early man. He considers the inscriptions are probably connected with those at Easter Island and Central and South America, and are Atlantean or Lemurian in origin; further, that the Maori copied the spiral from the relics of those ancient people, and did not imitate it.

Machine Reads Character

Appraising human beings under one classification or another is a favorite pastime of many investigators. The Popular Mechanics Magazine contains a picture of a machine which an Englishman uses to read character. Color affords the test, and the result shows the subject's degree of "perseverance," on which his status depends.

TRAVELS 10,000 MILES

Seven Weeks Old Son of Army Officer Holds Record

Howard, son of Major and Mrs. Horace D. Bloombergh, who arrived in Atchison, Kansas, with his mother, since his birth, seven weeks before, has travelled 10,000 miles. He went from Manila to San Francisco on an army transport. He is believed to be the greatest travelled baby of his age in the United States.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 40 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 80 volumes and handsome sectional bookcases will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 80 volumes to the schools, lodge, society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough, having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily, and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured:—

Style Store for Men
H. LeBRUN & CO.
High Class Ready to Wear Clothing and Men's Furnishings.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realizing handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK

429 Pender St., W., Vancouver, B.C. Phone 871

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $200 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of if is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some idea about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

FLAVELLE WOULD BOOST SALARIES

OF METHODIST PREACHERS IN TORONTO CONFERENCE—HE ADDRESSED THEM.

Committee Appointed—And Recommendation Will Probably Go to Conference.

Toronto, May 30.—A strong argument for higher salaries for Methodist preachers throughout the Toronto Conference was made this morning by Mr. J. W. Flavelle before the Toronto East District meeting in Carlton street Methodist Church.

Mr. Flavelle seemed to know just what each minister was getting, and he advocated an all-round salary boost. He regarded the present ministerial stipends as much too low in the face of the increased cost of living, and the financial demands on the clergymen.

His sentiments met with a ready response, and a committee was at once chosen to consider his address and report on it this afternoon.

It is almost certain that the district meeting will send on to conference a recommendation for higher salaries.

The financial statements and membership returns from the various churches were read, and though there is a slight decrease in membership, due to the movement of population to the north, the finances are shown to be in a healthy condition.

This afternoon the question of the Church Union is being dealt with, and some action is likely to be taken on the matter of the ne temere decree.

Mr. Kendry President.

Mail and Empire: Development work will begin on the Waldman veteran claims, near the Vipond and Hollinger, in Tisdale, as soon as the railroad is in. Julius Messer, who is manager of this property for the Royal Porcupine Gold Mines, Limited, is in Porcupine making arrangements for this work. Two shot drills will be set up for the exploration work. The Royal consists of 320 acres. The company is capitalized at $3,000,000, with James Kendry of Peterborough, president; Jacob Rapont, of New York, vice-president; Sydney Berubeim, of New York, treasurer; T. E. Bradburn, of Peterborough; A. A. Allen, of New York; Hamilton Kilgore, of New York, and W. N. Akert, of Wilmington, Del. directors; B. E. C. Van Ripes, of New York, secretary.

NOTICE TO CONTRACTORS.

TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope "Tender for Station Buildings," will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.

Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.

Section 3.—From Mile 5 to Mile 105 east of Quebec bridge.

Section 4.—From the Quebec bridge westward to Mile 45.

Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.

Section 6.—At Cochrane in the Province of Ontario.

Section 7.—From the divisional

Section 8—From Moncton to Napadogan, in the Province of New Brunswick.

Section 9.—From Mile 125.5 to Mile 159 west of Moncton.

yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.

Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.

Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario.

Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa, this 12th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

LATEST FROM APSLEY

The home of Wm. Bird of Wollerton Co., Hastings, was totally destroyed by fire the morning of the 26th, while Mrs. Bird and her brother were milking. Cause unknown. There were three children in the house, aged about 2, 4 and 6. On discovering the fire Wm. Patterson, the brother, rushed in to save the children, got the eldest boy out the window, went back for the other two and Mrs. Bird saw him come to the window with one in each arm, but was overcome and falling back was burned with the two children. There was also about $600.00 cash in the house. Nothing was saved. The house was insured for $900.00. Wm. Bird was away at the time, and did not hear of the fire until near home Saturday.

BASKET SOCIAL.

On Wednesday evening, May 24th, a basket social was held in the Temperance Hall, to aid in repairing the building. A very large crowd gathered in the village, and at the appointed hour, were gently reminded of the time by a bell vigorously rung. The people present enjoyed a splendid programme, which opened with the singing of "All Hail the Power of Jesus' Name" by the choir. Master Roy Brown next recited in his usual splendid style. The chairman's address came next, but like some other chairmen, Mr. Soules gave sundry reasons why he should not make a speech and ended his excuses with a fine speech. Next came the "Kitchen Exercise" drill where seven little girls impersonating the days of the week told some lazy housewives in the audience how they should keep house in the "right way." Do they practice all they told them in their playhouses I wonder? The next piece on the programme was a mouth organ solo rendered by Mr. Thos. Coomes. It was thoroughly enjoyed by all. Mr. Harold Tucker gave a fine recitation, which was received with the usual applause. Miss Stevens and Miss E. Bullied now rendered a splendid dialogue, entitled "When I Was Young", in which Miss Bullied gave some splendid hints as to how young people should act and how they did act, when she "was young." It was thoroughly appreciated by the audience, especially the young men. Whether they agreed or not could not well be discerned. A solo was next rendered by Miss Ella Brown, who, though the noise at the back was very great, sang as sweetly as usual. Miss Brown's solo was followed by a recitation by Mr. Dick Bullied, which was well received by all and greatly applauded. Mr. Will Tucker next favored the audience with a violin solo, enjoyed by all present. Next came the most important part of the programme when the boxes were auctioned by Mr. Bullied. The baskets were very prettily decorated and sold very well. Though the noise at the back was great and the boys at times slow in expressing their wishes, the auctioneer succeeded very well in getting rid of his "goods." Great thanks are due him for the capable way he did his work and the great patience he showed in overcoming all opposition.

After the sale of the boxes the gentlemen set out on a quest for the owner of their boxes and the lunches were partaken of amidst a great deal of laughing and joking. Thanks to the efforts of the ladies the tastiness of the lunches was very much added to by ice cream which could be obtained at a moderate price.

After the lunch, perhaps the best number on the programme was rendered by four old bachelors and four old maids who gave splendid reasons for never marrying, and then on the stage, before the audience all the spinsters promised "to be true" and went away leaning on the arms of their "Intendeds."

The evening closed with the singing of "God Save the King", when all went home declaring they had had a lovely time. The evening was financially successful, the proceeds being $58.50. Great thanks are also due the Methodists who very kindly helped in the preparations and program.

LATEST FROM KEENE

Mrs. A. D. Anderson spent last week in Norwood.

Miss Stella Shearer was the guest of Miss Kathleen Powel on Wednesday and Thursday.

Mr. Geo. Gall has returned home, after spending a few days in Toronto on business.

Mrs. D. McGregor of Toronto, was the guest of Miss Pearl McCam on Thursday.

Miss Spilsbury of Peterboro spent the holiday in Keene the guest of Miss Bella McIntyre.

Mr. A. St. A. Smith visited friends in Peterboro Wednesday.

Mr. Wm. Kempt returned Friday after spending a few days in Toronto

Mr. C. Gordon of Peterboro, was in the village Thursday.

Miss Elsie Fletcher spent the 24th with her parents here.

Mr. J. H. Cruickshank returned to Toronto Thursday after spending a few days with Mr. Wm. Campbell.

Dr. V. H. McWilliams spent a day or two last week in Toronto.

Mr. Wallace Wood was in the village Wednesday and Thursday.

Miss Mary Miller visited friends in Westwood on the 24th.

Mr. A. St. A. Smith spent Sunday and Monday in Peterboro.

Rev. Wm. Johnston left Monday for Port Hope, where he will attend Conference.

Miss Fowlds is the guest of Miss McCrea.

Was Arrested in Canada.

Boston, May 30.—Louis F. Gates, a former Boston Attorney, who was arrested in Calgary, Canada, for the local police, returned to this city yesterday in the custody of inspectors.

Gates was arrested on an indictment warrant charging him with forgery in endorsing a cheque for $3000 on October 23, 1909, and uttering the same, and also for the larceny of $5,761.26 in four counts from a Cambridge woman.

Roberts Admits Reconciliation.

Hamilton, May 30.—Roland Roberts who was reported to have been reconciled to his wife after he kidnapped their children in Toronto, admitted this was true on Saturday, but said he thought it would be as well if some people attended to their own business and cleaned up their own back yards.

Has Been Asleep Six Weeks.

Kankakee, Ill., May 30.—Miss Hulda Schmidt, daughter of an alderman, has been asleep six weeks, and physicians are unable to arouse her from her trance.

HORSE DISTEMPER

Prince Edward Farmer Solemnly Declares Nerviline Is a Specific.

"After fifty years experience raising horses I can safely testify that no remedy gives such good results for an all-round stable liniment as Nerviline." Thus opens the very earnest letter of J. J. Evanston, who lives near Wellington, P.E. "I had a very valuable horse that took listemper a month ago, and was afraid I was going to lose him. His throat swelled and hard lumps developed. His nostrils ran and he had a terrible cough. I tried different remedies, but was unable to relieve my horse of his pain and suffering till I started to use Nerviline. I mixed a bottle of Nerviline and sweet oil and rubbed the mixture on the throat and chest three times aday and you would scarcely believe the way that horse picked up. Nerviline cured him. I also have used Nerviline for colic in horses and cows, and earnestly recommend it to every man that is raising stock."

NERVILINE CURES QUICKLY

For strains, sprains, swellings, colic, distemper, cough, and colds, no liniment will prove so efficacious in the stable as "Nerviline"—it's good for man or beast, for internal or external use. Wherever there is pain, Nerviline will cure it. Refuse substitutes. Large bottles 25c., five for $1.00, at all dealers, or The Catarrhozone Co'y., Kingston, Ont.

FOR STONEY LAKE

For the week commencing Monday, May 29th, the steamers will leave Lakefield on the arrival of the morning train, returning in time to connect with the evening train on Monday, Tuesday, Friday and Saturday.

STONEY LAKE NAVIGATION CO.

F. G. Young, Manager.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Tent For Sale.

Tent for sale—Large, only in use a few weeks, very reasonable. Apply W. J. L. Elliott, head of Weller St.

Mr. W. H. Thorne, piano tuner for the R. P. Wilks Co., Toronto, is in the city for a day or two. Orders left at The Times' Bookstore will be promptly attended to.

Signalling Certificates.

Signalling certificates have been granted the following: 57th Regiment, Lieut. G. K. Rackham, Lieut. J. A. Brightman, Privates F. Austin C. Bartlett, D. Hall, G. Latimer, M. C. Metheral, P. C. X. Reynolds, 24th Field Battery, Sergt. T. Edwards, Gunner S. Barens.

Handsome Photos.

Rev. Canon Davidson brought a fine photograph of the People's Chimes, to the Times office yesterday for the inspection of our editorial staff. The bells are hung in proper order, and present a very unique appearance. They will be placed in the tower of the church in exactly the same order.

Theatrical.

"A Prince for a Day" was presented at the Opera House on Tuesday night to a rather dimunitive audience The performance was not above the average, which is not saying very much for it. The lightness of the house was due, to some extent at least, to the fact that their advertising was rather poorly done.

Accident to Harry Roddy.

Mr. Harry Roddy, who formerly was employed in the electric works here,, and who is well-known in baseball circles in Peterborough, had the misfortune to fall from a telegraph pole a few days ago, at Murray Bay, Quebec, and fracture one of his legs. He is now in the hospital and is doing well.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of every ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Conference Now On.

The Bay of Quinte Conference of the Methodist Church of Canada is now in session at Port Hope. It is being attended by the local pastors of that denomination. Rev. J. E. Moore, former pastor of Mark street Church, passed through the city en route to the conference. As regards the supplying of the various pulpits throughout the city on Sunday next, it is understood that the ministers will return and fill their own respective pulpits.

Queen Mary Hospital.

His Worship, Mayor Morrow has been elected Chairman of the Board of Queen Mary Hospital, and Mr. S. R. Armstrong, Secretary.

First Band Concert.

The first open air band concert of the season will take place to-morrow evening, at Victoria Park. The band never was in better shape than it is at present, so that these weekly concerts are sure to be well patronized.

Use Fly Paper.

A citizen informed The Times yesterday that ordinary fly paper, tied around the tree with a string, will afford an impassable barrier for the caterpillar. He will be obliged to stay either one side or the other. Thousands will attempt to cross, and will perish in the effort. It may be worth trying.

Chimes Are Here.

The People's Chimes arrived yesterday morning, and are now at the station. It is expected that the representative of the manufacturers will arrive to-day, and the work of taking out the good old bell from the tower of St. John's church will be proceeded with, after which the chimes will be at once installed.

New Rector Gets Reception.

Rev. F. J. Sawers, the new rector of St. Luke's Church, was tendered a formal reception on Tuesday evening by the members of the congregation. The chair was occupied by Mr. E. A. Peck, who in a few appropriate words introduced Mr. Carpenter, of St. John's, who delivered a thoughtful and interesting address. Rev. Canon Davidson and Mr. Trumpour were unable to be present. A good musical programme was presented, after which refreshments were served. The Rector thanked the parishioners for their kind reception and said he looked forward to a very happy and successful ministry.

Wedded in Cuba.

A wedding of much local interest took place recently at Havana, Cuba, when Miss E. Dutton, daughter of Mr. A. H. Dutton, Pharmist, Grace Hospital, Boston, and niece of Mrs. (Dr.) Browett of this city, became the wife of Mr. Theodore Lilley, of Waterbury, Connecticut, son of late Governor Lilley, of that State. Mr. Lilley is a graduate of Yale University, 1909. The happy couple are at present honeymooning in Porto Rico and Cuba. The bride's sister, Miss Fanny Dutton, spent a couple of months in Peterborough last summer the guest of Mrs. Browett, and while here, made many acquaintances, who will receive this intimation with much interest.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mr. W. H. Robertson, of The Times is in Toronto to-day on business.

Miss Nellie Wood accompanied by Miss Lizzie Scott, have gone to Clifton Springs to spend a few weeks.

Mrs. John Wood accompanied by her daughter, Miss Annie, are spending a few weeks in Toronto.

Mr. John Rae, left on Tuesday for Winnipeg, where he intends visiting friends for a week before leaving for Edmonton, to visit his son.

LITTLE LOCAL LINES

Census workers begun this morning at 8 o'clock.

The addition of seats to the parks will make these breathing places much more attractive.

The weekly shoot of the Peterborough Gun Club will be held at the Driving Park this evening at 6.30. The new traps have arrived. Ammunition on the grounds.

Mr. and Mrs. Wm. Jackson wish to thank all the neighbors and the friends who were so kind to their daughter, Violet, in her illness, and also for the floral tributes.

Golf.

The following is the draw for the Captain's prize, the game of which will be played at the golf links, and must be concluded by Monday, June 4th:

Miss L. Davidson vs. Miss G. King.
Miss Gladman vs. Mrs. Goodwill.
Miss M. Gladman vs. Miss O'Rheinhart.
Miss M. Rodgers vs. Miss F. Cameron.
Miss H. Davidson vs. Miss E. Morrow.
Miss Delematre vs. Miss Hamilton.
Miss Rheinhart vs. Miss Fhir.
Miss N. Hall vs. Miss Sanderson.
Miss F. Hamilton vs. Mrs. W. H. Hill.
Miss Archer vs. Miss Edwards.
Miss Halliday vs. Mrs. Grant.
Mrs. R. R. Hall vs. Miss Muriel Rodgers.
Miss Denison vs. Mrs. A. H. Stratton.
Mrs. Ritchie vs. Miss Perks.
Mrs. McClellan vs. Mrs. Clarkson.

BOY SCOUTS

EDITED BY A SCOUT.

Boy Scouts are requested to contribute to this column.

There will be a meeting of the 3rd Troop at 7.30 sharp at the Armories Friday night.

Coronation Day is coming—We can not all go to the Old Country, but we will show our brother Scouts who do go, that we can have a big time here.

Patrol leaders McClelland, Eastwood, Clark and Walker are second class Scouts now, having passed the following examinations:

Elementry knowledge of First Aid and bandaging.

The Morse Code for every letter in the alphabet.

Described satisfactory one shop window out of four after one minutes observation.

Went a mile in 12 minutes (20 paces walking and 20 paces running alternately).

Lay and light a wood fire in the open, using no more than two matches.

Cook a quarter pound of meat and two potatoes without cooking utensils other than the regulation billy.

Have 15 cents in the savings bank.

Know the principal points of the compass.

All the rest of the troop has only their First Aid to pass, then they are second class. So let us dig in, boys.

We would like to see our parents out to watch us drill in Central Park on Friday nights.

It was decided at the Patrol leaders' meeting at the Y.M.C.A. on Tuesday evening last, that the officers would take steps on the afternoon of Saturday, June 3rd, to arrange for a good camping ground in the direction of Chemong.

Sergt. Sharp, of our Bugle Band, is going to Kingston with the 45th Regiment. We know he will have lots of practice and a big time.

If all goes well we expect to camp for two weeks this summer.

Let all turn out on the dot Friday night.

Edited by a Scout.

AUTO BUS DAILY TRIPS

TO CHEMONG.

The Rutherford-Grimes Auto Bus will make its regular trips to Chemong Park every day, leaving the McLaughlin Garage, Simcoe street, at nine a.m., returning at ten a.m.; making a second trip at two p.m., returning at three. Return fare 50 cents, children 25c. Car will leave Garage at 8 p.m. for Chemong, returning from Park at 9 p.m. on Saturdays only.

The Bus will call at the Snowden House, the National and the Oriental each trip.

The bus may be engaged by the hour or trip at low rates. Particulars as to rates at the garage.

Miss Pearce vs. Miss Kingan.
Miss M. Rush vs. Miss Crane.
Miss Davies vs. Mrs. Aylmer.
Miss D. Hall vs. Mrs. Gardiner.
Miss B. Morrow, bye.
Miss Morrow, bye.

DEPARTMENT OF RAILWAYS AND CANALS.

ONTARIO—ST. LAWRENCE CANALS.—RAPIDE PLAT CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Improving Lower Extreme to Lock No. 24," will be received at this office until 16 o'clock, on Friday, June 9th.

Plans, Specifications, and Form of Contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $9,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES, Secretary.

Department of Railways and Canals, Ottawa, May 19th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

TENDERS FOR STEEL BRIDGES

Tenders (endorsed Tender), will be received by the undersigned for the steel work or superstructure of two bridges known as Spencer's Bridge, Dummer, and Brown's Falls Bridge, Burleigh, in the County of Peterborough, up to One O'Clock P.M.,

JUNE 19th, 1911

The lowest or any tender not necessarily accepted.

Plans and specifications may be obtained from the County Clerk or seen at the County Office, Peterborough.

ED. M. ELLIOTT, County Clerk.

Peterborough, May 29th, 1911.

JUDICIAL NOTICE

TO THE CREDITORS OF THE CENTRAL MILLING CO. OF PETERBOROUGH, LIMITED.

PURSUANT to the Winding-up Order made by the High Court of Justice in the matter of the Ontario companies Act and Amendments thereto, and in the matter of the Central Milling Company of Peterborough, Limited, bearing date the fourth day of May, 1911.

The Creditors of the above named Company and all others who have claims against the said Company formerly carrying on business in the City of Peterborough, in the County of Peterborough, are on or before the 15th day of June, 1911, to send by post, prepaid to W. R. Morris, Liquidator, of the said Company, at his office, 375 Water Street, Peterborough, their Christian and Surnames, addresses and descriptions, the full particulars of their claims and the nature and amount of the securities (if any) held by them and the specified value of such securities verified by oath and in default thereof they will be excluded from the benefits of the said Act and Winding-up Order.

The undersigned Master at Peterborough, of the High Court of Justice will on the 16th day of June, 1911, at eleven o'clock, in the forenoon, at His Chambers in the Court House, in the City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice and let all parties then attend.

Dated this 19th day of May, 1911.

E. C. S. HUYCKE, Local Master at Peterborough.

HALL, HAYES & HALL, 116 Hunter St., Peterborough, Solicitors for Liquidator.

JUDICIAL NOTICE

TO THE CREDITORS OF Canadian Cordage and Manufacturing Co., Ltd.

Pursuant to the Winding-up order, made in the High Court of Justice in the matter of the Canadian Cordage and Manufacturing Company, Limited, and in the matter of the Winding-up Act bearing date the 7th day of December, A.D., 1910, the creditors of the above named the Canadian Cordage and Manufacturing Company, Limited, and all others who have claims against the said Company, formerly carrying on business in the City of Peterborough and elsewhere, are, on or before the 3rd day of July, A.D., 1911, to send by post, prepaid, to George Walford Hatton, Liquidator of the said Company, at his Office, 397½ George street, in the said City of Peterborough and Province of Ontario, their Christian and surnames, addresses and description, the full particulars of their claims, and the nature and amount of their securities, if any, held by them and the specified value of such securities verified by oath, and in default thereof, they will be peremptorily excluded from the benefits of the said Act and of the said order.

The undersigned the Local Master of the High Court of Justice at Peterborough, will on the 6th day of July, 1911, at 11 o'clock in the forenoon, at His Chambers in the Courthouse at the said City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice. And let all parties then attend.

Dated at Peterborough this 22nd day of May, 1911.

E. C. S. HUYCKE, Local Master at Peterborough.

SYDNEY MEDD, Solicitor for Liquidator. Bank of Commerce Bldg., Peterboro.

HAVE YOU ATTENDED

Ogilvie's big flour demonstration now going on in your city? If not you are missing an educational treat in cookery. The ground floor of the T. A. S. Hall, Simcoe street, has been rented for this purpose. Demonstrations commence at 2.30 sharp. Afternoon tea served free to housewives until June 7th.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards Easy payments, 10 per cent cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

VOL XXXIV NO. 130 PETERBOROUGH, ONTARIO, FRIDAY JUNE 2 1911 PRICE TWO CENTS

REGULAR MONTHLY MEETING OF THE PULBLIC LIBRARY BOARD

The regular monthly meeting of the Peterborough Public Library Board was held in the Board room of the Library on Thursday evening, June 1st, 1911, at 8 p.m.

There were present Mr. E. H. D. Hall, chairman Mayor Morrow, and Messrs. D. Walker, D. Spence, A. Mowat, H. R. H. Kenner, H. Ritchie J. Corkery and T. F. Matthews.

The minutes of the previous meeting were read and confirmed.

The following communications were read:

From Hon. J. S. Stratton to the Librarian, advising that he had written to the King's Printer, asking that the Peterborough Public Library be placed on the mailing list to receive Government publications issued by the King's Printer. To the Minister of the Interior, asking that he be good enough to send a complete set of Topographical Maps, and to the Hon. Sydney Fisher, asking that he be good enough to send to the Public Library, bound copies of the year book from 1904.

Moved by Mayor Morrow, seconded by Mr. Matthews,—That these communications be received, and that the thanks of the Board be tendered Mr. Stratton for his interest in securing for the Library these maps and publications.—Carried.

From Inspector Richard Lees, with reference to the library of the defunct Model School at Norwood, asking on what terms, if any, these books could be placed in the Public Library.

Moved by Mr. Matthews, seconded by Mr. Corkery,—That this communication be referred to the Library Committee, and that Mr. Lees be notified of the action of the Board.—Carried.

From Inspector Nursey, with reference to the applications of Miss H. M. Cahill and Mr. Dela Fosse, to attend the Summer School to be held in Toronto in June.—Received.

From The H. W. Wilson Company, Minneapolis, regarding the Book Review Digest.

Moved by Mr. Ritchie, seconded by Mr. Mowat,—That this communication be referred to the Library Committee.—Carried.

From the Cambridge University Press, with reference to the payment for the encyclopaedia Brittannia.

Moved by Mr. Walker, seconded by Mr. Matthews,—That as soon as the encyclopaedia Brittainica is completed, the treasurer is authorized to issue a cheque in their favor for $116.00.—Carried.

Mayor Morrow read the report of the Finance Committee, recommending the payment of the following accounts:

Ontonabee Power Co.	$ 11.00
Otonabee Power Co.	2.80
T. A. Rideer	.40
Peterboro Hard. Co.	2.25
John W. Butcher	1.00
White Bros.	1.00
C. S. McClelland	1.00
Peterboro Examiner	5.00
Peterboro Review	9.80
McClelland & Goodchild	232.56

Mr. Matthews, chairman of the Property Committee, reported verbally that as authorized he had made arrangements with Messrs. Adamson and Dobbin to make the connections necessary for sprinkling the lawn and with Mr. E. Ward for screens for 26 windows.

Moved by Mr. Kenner, seconded by Mr. Spence,—That the Property Committee be and is hereby authorized to have the tan lights over the windows fixed, to permit of them being opened to improve the ventilation of the building, and that a bar or gate be placed at the entrance to the stack room to prevent members from trespassing.—Carried.

Moved by Mr. Walker, seconded by Mr. Matthews,—That Mr. Dela Fosse be given three weeks' leave of absence to attend the session of the summer School for Librarians to be held in Toronto in June and that the Library Committee be authorized to secure an assistant during his absence.—Carried.

A deputation from the Medical Association, consisting of Drs. Greer, Buchanan and Morgan, waited upon the Board and asked that certain medical works in the reference library be placed in the library of the Medical Association and that the Board assist the Association in purchasing new books.

Moved by Mr. Matthews, seconded by Mayor Morrow,—That the request of the deputation from the Medical Association be referred to the Library Committee of the Board, to confer with the Library Committee of the Medical Association and report at the next meeting of the Board.—Carried.

The meeting then adjourned.

GUELPH ENDORSES INDEPENDENT TIRE CO. BY-LAW BY BIG VOTE

Guelph, June 1.—Guelph ratepayers by their vote on the Independent Tire Company by-law, gave no uncertain sound as to their endorsation of the proposition to loan the company $20,000 for twenty years, at 4½ per cent., on the security and conditions arranged between it and the City Council. Of the votes polled, 1,257 went for, and only 94 against the by-law.

OBITUARY

Florence May Preston.

The funeral of Miss Florence May Preston, who died on Wednesday, after a lingering illness, will leave the family residence, 295 McDonnell street, at 2 o'clock to-day, for interment at Lakefield.

Deceased who was in her 21st year, leaves to mourn her loss a sorrowing mother, three sisters and one brother. The sisters are Mrs. Fitzgerald of Hamilton, Mrs. Turnbull of Stockton, Manitoba and Miss Eva at home. The brother is Aldus of Vancouver. He arrived in the city a few days ago, having been notified of the serious condition of the deceased.

Mrs. Robert Goodfellow.

Hannah Laing, relict of the late Robert Goodfellow, passed away yesterday afternoon, in her 92nd year. The funeral will leave the residence of her son-in-law, Mr. Josiah Robertson, 177 Aylmer street, on Saturday, June3rd, 1911, at 3 o'clock. Service will be held at the house at 2.30. Friends are requested not to send flowers.

NOTICE

Take notice that—

1. The Council of the Corporation of the City of Peterborough intends to construct as a local improvement a sewer on Cambridge street between Cedar street and McDonnell street, and intends to specially assess a part of the cost upon the land abutting directly on the work.

2. The estimated cost of the work is $894.22, and of which $194.50 is to be paid by the Corporation. The estimated special rate per foot frontage is $0.514137. The special assessment is to be paid in thirty annual instalments.

3. A petition against the work will not avail to prevent its construction.

Dated the 1st day of June, 1911.

S. R. ARMSTRONG.

Tenders For Clothing

Sealed tenders, addressed to Ald. Morgan, Chairman of the Fire, Water and Light Committee, and endorsed, "Tender for Clothing," will be received for Firemen's Uniforms, up to noon, on

June 20th, 1911,

at the office of the undersigned, where copies of the specifications may be obtained. The lowest or any tender not necessarily accepted.

S. R. ARMSTRONG,
City Clerk.

Strawberry Festival.

The 57th Regiment Band announce that they will hold a concert, strawberry festival and social in the Riverside Park on the evening of Friday, June 23. The directors of Riverside Park have kindly placed the beautiful grounds at the disposal of the band, and it should be an ideal place for the holding of such an event. Further announcements will be given later.

Charged With Stealing $30.

Vernon Killingbeck appeared before the Police Magistrate yesterday morning to answer a charge of stealing $30 from Robt. Brown. John Dougherty, summoned to appear on the same charge, had left town, but was arrested in Port Hope yesterday morning. The case was enlarged until Wednesday next, when Dougherty will be on hand.

F. Wease paid a fine of $5.75, including costs for being drunk and disorderly on Wednesday.

Two citizens charge with violation of the sanitary laws were given two weeks in which to comply with the health by-law.

Unearthed Ancient Coin.

While digging in his garden a few days ago, Mr. John Sinclair, who resides at 43 Durham street, dug up a coin which proved to bear a very old date. Mr. Sinclair states that he has often dug up old coppers and thought this was one, but on rubbing the dirt off he discovered that it was a silver coin of about the same size as a quarter.

Becoming curious, he thoroughly cleaned it when it was found to be a silver coin bearing the date of 1816 and the name of George III. This coin is probably of considerable value and is much prized by Mr. Sinclair. —Lindsay Warder.

MARK TWAIN'S WORKS.
If You are interested in obtaining a complete set of all his books at one-half the former price on the easy payment plan, it will cost nothing to get full particulars and a new thirty-two page book "Little Stories About Mark Twain," Address Times Office.

Preparing For Coronation Day.

Every Boy Scout in Peterborough who desires to partake in the ceremony of installing the chimes in St. John's Church on Coronation Day, is urgently requested to attend drill at the Armouries on Friday evening at 7.30. Mr. Miller, Scoutmaster of Troop No. 3, will be in charge of the entire company for one hour's drill. —W. J. Neale, Chief Scoutmaster.

J. M. Howell, a popular druggist of Greensburg, Ky., says, "We use Chamberlain's Cough Remedy in our own household and know it is excellent." For sale by all dealers.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

A GARBAGE BY-LAW NEEDED.

Editor Morning Times.

Sir,—I think, Mr. Editor, that what is needed just at present more than anything else is a garbage by-law, making the daily removal of garbage compulsory. As matters are now, it is almost impossible to get rid of the waste in connection with the home. Man should be given a contract to look after and remove all garbage, at least twice or three times a week during the warm weather. At the meeting of the Council, which I understand, is booked for Monday evening next, I hope something will be done in this connection.

Tenant.

THE STATEMENT DOUBTED.

Editor Morning Times.

Sir,—The article on the quantity of water available for power is an eye-opener. I cannot but doubt the statement that the flow of the river is only 300 horse power at its lowest ebb. You should, I think, give your authority for the statement. Your informant may only be speaking at random, or he may have an object in belittling the splendid power resources which our chain of rivers and lakes afford.

An Old Timer.

Reply—The Times is not at liberty at present to disclose the name of its informant in regard to the amount of power available at Fenelon Falls. Suffice it to say that he is a gentleman who has a high reputation as an engineer, and one who would not make a statement not in accordance with the truth. He claims to have measured the stream at that point, both in high and low water.—Ed. Times.

WHAT THE R.C. CHURCH CLAIMS.

Editor Morning Times.

Sir,—Papal decrees or those of the Church of Rome usually take, it for granted that they are a law unto themselves and that where they and the civil laws conflict the latter must yield to the former since the former are God-given (sic) and the latter the laws of mere errant humanity. Sometimes there is nothing more than a theoretical objection to such a claim. In some cases however, the objection becomes practical and unavoidable. No Temere is clearly a case in point. It lays it down that marriage of all Catholics (both parties being Catholic) before a Minister or Civil Magistrate will be no marriage at all. Now the law of the State or civil law is that all people of the required age (and otherwise as set out in the Statutes) can be married civilly or by a Minister. Here than the Church of Rome deliberately defies the State. Why? Because it says it is superior to the State, and indeed is supreme over all things temporal and that it disapproves of the civil law. If it said that no persons not being married according to the ordinances of the Catholic Church can remain in the Catholic Church, well and good. But what right has that Church to say that certain persons (all Catholics, a Catholic and an unbaptized person, a Catholic and a Protestant who has not been baptized in the Catholic Church, all fallen-away Catholics, that is, those who have become Protestants (or infidels) are not married at all if married by Ministers or Civil Magistrates as the civil law permits and directs? To yield to such a claim as this is to yield home, parentage and the rule of the people up to the Church of Rome. And yet it is this that the Church now for the first time in hundreds of years boldly demands. Why? Because she thinks that her triumph is at hand that Protestantism is a failure and that a great effort will put her in the saddle again as she was in the middle ages. It is a great crisis—perhaps the greatest since the attack of the Spanish Armada upon England when we narrowly escaped being brought under the dominion of the cruel Philip II., the Inquisition and the absolute rule of the Church of Rome. If the Church triumphs now, if we allow her to do what would be common treason and rebellion in any other body or church how can we blame her for what will follow, for shall we not have put our own necks in the yoke?

THE WEATHER.

Westerly winds and about the same temperature.

CHURCH NEEDS HYDRO-ELECTRIC POLICY, DECLARES DR. CARMAN

SO-CALLED MODERN SCHOLARSHIP IS MENACE TO CHRISTIANITY—ADHERES TO DOCTRINE OF JOHN WESLEY.

Stratford, Ont., June 1.—"What Christianity in Canada needs is a Hydro-Electric policy," declared Rev. Dr. Carman, General Superintendent of the Methodist Church, in the remarkably forceful address with which he opened the Ministerial session of the London Conference, yesterday.

The venerable speaker was arraigning the inroads of what he bitterly termed the flamboyantly paraded so-called scholarship of modern thought among the ministry.

HYDRO-ELECTRIC CHRISTIANITY.

"What right have these modern apostles of negligibility to say to me: 'You're an old fogey, you're antiquated; you're behind the times'? Am I? Are we? What about your Hydro-Electric?" he continued. "Men of purpose and vision sought to lighten up the pathways of the people. By strands of steel they linked with Niagara Falls, they tied to the cataracts of continents: They are using the powers of nature to give light and power. That is the project for Christianity in this time of stress. Fasten on to the central power. God is the great central power. Tie up to the Lord God."

Dr. Carman declared that the rock of Christianity was the Bible. "I am not called upon to boast of the so-called modern scholarship, thank God," he declared, amid a storm of applause. The modernists had reduced things to reductio as absurdum. There was a lack of simple, plain Saxon logic. "Wesley had no trouble," he continued, with grilling cynicism. "He just went on as though Adam had really lived. He just went on as though Moses was no myth. He actually believed the Bible. Such was the amazing simplicity of Wesley."

SALARY SEEKERS.

The General Superintendent added that the Ministry should be true to John Wesley's fundamentals or leave the Methodist Church. "I count him a mean man," he added, "who goes coddling around the Methodist Church or its institutions for the salary he gets out of it, and goes out and controverts Methodist doctrines."

In concluding Dr. Carman emphasized the necessity for muscular Christianity in certain circumstances.

BANDITS HELD UP A FREIGHT TRAIN

Niagara Falls, N.Y., June 1.—The police to-day are making a thorough search of the Canadian frontier for four bandits who yesterday held up an Erie freight train within the city limits and succeeded in getting away with about a car load of merchandise.

The robbers boarded the train at the yards. A little way beyond they cut the air hose, slackening its speed. While the train was still in motion, two men rushed forward to the cab levelling guns at the engineer and fireman and forced them to bring the train to a standstill.

Two others of the gang opened the cars and tumbled the merchandise into the road. Covered wagons drove up and the booty was hastily loaded and hurried away. The value of their haul has not yet been determined.

TORONTO MAN TOOK HIS LIFE

A North Toronto Milkman, Worried Over Business, Grew Despondent.—A Wife and a Child Left.

Toronto, June 1.—Between six and seven o'clock this morning, Mr. Philip Little, of Victoria avenue, North Toronto, was found hanging in a horse stable adjoining his house.

He had gone out early to look after his cattle, but the body was still warm when found by Mr. Robert Day and some other neighbors. For some time past Little had been worrying about his business. He was a milkman and had had trouble with his help, and experienced difficulty in getting his milk kept fresh for the time necessary to dispose of it to advantage. He had been working all hours and last night had decided to consult his doctor as his health had given way under the strain.

He is survived by a widow and one child, and much sympathy is expressed for the family in the town.

Is there anything in all this world that is of more importance to you than good digestion? Food must be eaten to sustain life and must be digested and converted into blood. When the digestion fails the whole body suffers. Chamberlain's Tablets are a rational and reliable cure for indigestion. They increase the flow of bile, purify the blood, strengthen the stomach, and tone up the whole digestive apparatus to a natural and healthy action. For sale by all dealers.

Mexican Rebel Executed.

San Diego, Cal., May 31.—Capt. Tony Vegas, of the rebel forces, at Tijuana, Lower California, Mexico, who shot and killed a Mexican named Pacheico during a row, was taken out and executed by a rebel firing squad soon after sunrise to-day.

NATIONALISTS OPEN CAMPAIGN

What Lavergne Says—Declares Tariff Measure Is to Hide Scandals of a Rotten Regime.

Montreal, June 1.—Fully six thousand people gathered in the Ontario street skating rink last night to hear Messrs. Monk, Bourassa, and Lavergne open the Nationalistic campaign in this Province. All the speakers were united against the Government and in the advancement of the cause of the French-Canadians, but otherwise were oddly disunited in regard to the subjects which they chose to discuss and their attitude towards them.

Mr. Monk spoke strongly against reciprocity, while Mr. Armand Lavergne contented himself with a denunciation of the Administration, stating that reciprocity was a matter of figures, and that he was interested in principles.

Mr. Bourassa outlined the ideals of the Nationalists, but said little on the subject of reciprocity, although he agreed that the Government must appeal to the people at the polls before foisting such an important measure as reciprocity upon them.

Mr. Lavergne made a strong fighting speech, declaring that the Laurier Administration was corrupt and merited the execration of the people. Reciprocity had been adopted to hide the scandals of a rotten regime. On the other hand, Imperialists and a crowd of Toronto financiers could not persuade the people that reciprocity meant annexation.

Mr. Bourassa's address created great applause. He twitted the Ministers who had arranged the reciprocity pact, and commented in a sarcastic vein on the arguments which they advanced in its favor.

London, May 31.—Queen Mary's coronation crown of diamonds weighs nineteen ounces, also

FORTRESS WAS BLOWN UP 150 SOLDIERS PERISHED

San Juan del Sur, Nicaragua, June 1.—The fortress on Tiscapa Hill, Managua, was blown up at three p.m. yesterday afternoon.

One hundred and fifty soldiers perished in the explosion.

All the ammunition in the fortress was destroyed. The cause of the explosion, is as yet unknown.

Strict cable censorship has been established from Managua.

Washington, June 1.—One hundred and fifty people were killed in the explosion of the fortress Laloma, at Managua, Nicaragua, according to a colegram to the State Department today from the United States Minister The cause of the explosion is not known.

GIRL SLEEPS SIX WEEKS.

Miss Hazel Schmidt, Vandalia, in Long Trance.

Vandalia, Ill., May 31.—Miss Hazel Schmidt, daughter of former Alderman Schmidt, has slept almost continuously for six weeks. At the beginning of her illness she was seized with severe pains in the head and stomach, and then would lapse into semi-unconsciousness. She feared she was going into a trance, and begged her parents not to let her go to sleep.

MAY BE A PETERBOROUGH MAN KILLED ON RAILWAY.

Letter has Been Received From a Western Man for Information.

The following letter has been received by our esteemed evening contemporary, The Examiner, and indicates that a Peterborough man has met death by falling from a C.P.R. train out west:

Canmore, Alta., May 27, 1911.

Dear Editor,—On the 24th inst., a man who said he was from Peterborough, in a conversation with some friends shortly before the accident, fell from a C.P.R. train and was killed. He was of medium height and slight build. He had light hair and a heavy moustache of a little darker color. He was about 35 years old. He was a machinist, and as he stated he was on his way from Vancouver east to look for work. In his pocket was one piece of paper, a letter written on the 23rd of March, of this year, by a lady who signed herself, Lill, and in the letter she spoke of one whom she named Albert.

These are the only facts I can give you. Perhaps by publishing them, the unknown man may be identified. His clothes and little belongings are in the possession of the policeman, Mr. Akrigg. Any letter addressed to him or myself will receive a prompt reply. His remains were buried here by the government of the park.

Sincerely yours,
ANDREW WALKER,
Presbyterian Minister.

Now is the time to get rid of your rheumatism. You will find Chamberlain's Liniment wonderfully effective. One application will convince you of its merits. Pry it. For sale by all dealers.

NEW MILITIA EQUIPMENT.

The New Military Equipment Received in Peterborough Consists of Four Guns With 12 Lumber Carriages.

The new military equipment received in Peterborough consists of four guns with twelve lumber carriages. They are of the latest quick-firing pattern, having a range of about six thousand yards and are fitted up with the best and most modern equipment.

Fifty-six sets of saddlery have also been received for the use of the battery. In the sets are comprised the best material and trappings that can be secured and are consistent with the best that is on the market for the carrying on of modern warfare.

The battery officers are busy selecting their men for the trip to Petawawa on June 12th. Prospects are bright for a big turnout.

Ottawa People Generous.

Ottawa, May 31.—The Board of Control has voted $250 for the entertainment of the Gliddon tourists when they arrive here next month. They have also granted $200 towards defraying the expenses of the Ottawa Boy Scouts who will go to England.

A New Heart Stimulant.

Baltimore, May 31.—Poison from the tropical toad is declared by Dr. John Abel, of Johns Hopkins, a more powerful heart stimulant than digitalis.

Death List Totals Twenty-five.

Berlin, May 31.—Twenty-five persons in all perished in the floods which followed several cloudbursts yesterday in Southern Germany. Great damage was done to crops.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM BUNTON, LATE OF THE CITY OF PETERBOROUGH, IN THE PROVINCE OF ONTARIO, TICKET AGENT, DECEASED.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Sec. 38, that all persons having claims against the estate of the said William Bunton, who died on or about the 17th day of January, 1911, are required on or before the 15th day of June, 1911, to send by post, prepaid, or deliver to Dr. R. J. Husband, Federal Life Building, Hamilton, Ontario, administrator of the said estate, their christian and surnames, addresses and descriptions, the full particulars of their claims and the nature of the security, if any, held by them, and

TAKE NOTICE, that after said last mentioned day the said administrator will proceed to distribute the assets of the deceased amongst the persons entitled thereto, having regard only to the claims of which he shall then have notice, and the administrator will not be liable for any claims or the assets or any part thereof to any person or persons of whose claim notice shall not have been received by him, and such persons shall be properly excluded from the benefit of such distribution.

Dated 31 Toronto this eighth day of May, A. D., 1911.

A. P. POISSETTE,
Solicitor for the said Administrator.
69 Bond Avenue, Toronto.

OTTAWA PEOPLE CLAMOR FOR "TARVO"

Ottawa, June 1.—The driveway between Elgin and Lisgar streets will be out of commission to-day. The officials are spreading "Tarvo" over the road. This solution with the peculiar name, is a mixture of tar and oil and is used to lay the dust.

The mixture was used as an experiment above Bank street last fall and besides killing the dust, it preserved the road. One mile and a half of the road has been completed at Rockcliffe, and the residents of the vicinity are clamoring for more "Tarvo."

The cost of laying this solution is about 2c per square yard. The commission has about 15 miles of road under their supervision and Superintendent Stewart expects to have the whole system under "Tarvo" by the fall.

"Tarvo" is the mixture that was applied to Simcoe street, from the City Hall to Mr. C. Brown's store, and which the City Engineer estimated would cost the city 3½c a square yard.

A Gain of Over 1900.

Winnipeg, Man., June 1—The board of assessors' report just issued shows that the population of Winnipeg increased last year 19,238, a gain over the previous year of 16 per cent. and, as compiled from the assessment rolls, a total population of 151,956. This is a record year except that of 1906 when the percentage of gain showed an increase of 22 per cent. The report also shows an increase in assessment values of $15,069,030. The exempted property in this year valued at $27,511,350, which added to the rateable realty assessment of $172,677,250 gives a total realty valuation for the City of Winnipeg of $200,188,600.

Americans Rushing In.

Winnipeg, June 1.—Bruce Walker, Dominion Immigration Commissioner at Winnipeg, has announced that this year will see at least 200,000 American farmers come into Western Canada, and up to the present the increase from the British Isles shows fully 40 per cent. over last year and will reach the enormous total of another 200,000 to be added to the population of the West this year.

Increase of Wages.

Kingston, May 31.—President Baker, of the Kingston and Pembroke Railway, brought good news for conductors, brakemen and mechanics at the round house in this city yesterday. They will get an increase of about ten per cent. all round.

Asks for Ottawa Fire Chief.

Ottawa, May 31.—Fire Chief Graham, of Ottawa, is to have an auto for his use in answering fire alarms. The Board of Control having voted $3,500 for the purpose. A motor hose waggon and chemical combined has already been ordered by the city.

Criticised Court's Ruling.

Cincinnati, May 31.—For adopting resolutions criticising the court's ruling the case against Boss George B. Cox, Judge W. L. Dickson declares the members of the Ministerial Association in contempt of court.

ROYAL
5c 10c
BIG SPECIAL SHOW

3 SPECIAL ACTS 3

EMILE TURENNE & CO.
The World's Greatest Cannon Ball Jugglers.
THE STEELE SISTERS.
Australian Singers and Dancers.
ERNEST BRINKMAN
Character Singer.

These are three of the biggest, best and most expensive acts ever brought to the Royal. Emile Turenne & Co. play with cannon balls in juggling as other men would with marbles. Their performance is simply wonderful. The Australian singers and dancers and Ernest Brinkman come direct from the Majestic where they broke the house records.

MOTION PICTURES.

Another big change of Motion Pictures. Something grand and something new to be seen at every visit to the Royal.

Remember the Royal is the coolest and most comfortably seated place of amusement to go to in the evening—Big electric suction fan and eight ceiling fans going all the time.

"GLENWOOD" STONY LAKE

How to Tell Bronchitis

Always Recognized by Dry Hacking Cough and Rough Breathing.

Any doctor will tell you that only by a remedy carried by air direct to the affected parts can bronchitis be cured. The very reason why Catarrhozone cures is because it contains a healing medicine lighter than air, which is breathed through the bronchial tubes and lungs, carrying soothing balsams and essences as it goes. No wonder after twenty years of awful suffering, Capt. James Dunlop, of Kingston, commander of the R. & O. str "Bohemian" was cured thoroughly by Catarrhozone. "I suffered 20 years, and although I took treatment all that time permanent relief was not obtained till I used Catarrhozone, which is the best known cure for Bronchitis on the face of the globe, pleasant to use, quick to relieve, and sure to cure." A truly wonderful treatment for Catarrh, Asthma, Throat Trouble and Bronchitis is Catarrhozone—thousands it has cured, say so.

Get a large dollar outfit of Catarrhozone; it contains a beautiful polished hard rubber inhaler and medication to last two months. Smaller sizes 25c and 50c, at all reliable dealers, or The Catarrhozone Company, Kingston, Ont.

The Morning Times

FRIDAY, JUNE 2nd, 1911.

POPULATION CHANGES IN IRELAND AND SCOTLAND.

In spite of land acts and reports of general prosperity in Ireland, the population of that island continues to decrease. The census figures just made public show that the present population is 4,381,951, a loss of 76,824 in the last ten years. Scotland still shows an increase, but it is so small that it excites much comment and is likely to alarm British statesmen who base national efficiency largely on military strength at home. The gain for Scotland is only about 250,000, the smallest on record for a decade since that between 1851 and 1861.

Both the Irish and the Scotch appear to have left their native lands in the last ten years rather because of better opportunities in new countries than because of fresh grievances at home. Much of the emigration from Scotland is due to the opening of western Canada. The Irish continue to seek the United States very largely. In 1906 the number of Scotch emigrating first became larger than the number of Irish emigrants, and the statistics for every year since have shown a greater departure of Scotsmen than Irishmen.

Conditions in Scotland evidently are not favorable to holding a large population. One reason for this appears to be the breaking up of small holdings, in the Highlands, for the creation of deer forests. In the last twenty years the land area under cultivation has decreased by 232,633 acres, while the deer forests have increased by 1,248,566 acres.

With this change continuing unchecked, it would be only a question of time when Scotland would become a great pleasure ground for British and American millionaires. Overseas no doubt, those of Scottish blood will prosper, for they are a thrifty race, and most of them will still be under the British flag. However, important land legislation is proposed for Scotland in order to encourage small holdings and a return to the land.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may purchase a homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

ONEMEE SECURES FINE NEW ARMORY

Onemee is to have a new armory. The Militia Department at Ottawa, has announced that a class D armory of cement and brick will be built in the village on the site of the old frame drill shed.

It is now a settled policy with the Militia Department to build armories where companies are stationed in order to keep them up to their full strength.

A Costly Hug.

Putnam, Conn., May 31.—In the City Court here yesterday William White, 27 years of age, of Plainfield, was sent to jail for a year and fined $205 for placing his arms about a woman when she passed him on the street. This is the heaviest penalty ever imposed in the State for a similar offence.

Suicided in Jail.

Sudbury, May 30.—On Saturday afternoon last Albert Anderson, who was brought down to Sudbury from Chapleau, violently insane and confined in the jail, committed suicide in his cell by hanging. He burst the straps with which his wrists were bound, fastened them together, and hung himself to the bars of his cell.

QUEEN CHARLOTTE

The Capital City of the Islands

THE LAST WEST

The only town on Graham Island that has a monthly pay roll, and the only sawmill shipping lumber to foreign ports.

The only town having a railway gazetted to its very doors on the island.

The only city on Graham Island having electric light, city water, miles of sidewalks, churches, school, hospital, postoffice, first-class drug store billiard hall, city hall, hotels, boarding house, barber shop and other general stores, and the only newspaper published on the Island, the Queen Charlotte News.

We are positively the centre of all the vast wealth of the entire Islands, including farm lands, timber lands, coal and metalliferous mines. These products must come out at Queen Charlotte City, through the Hosma River Valley, and through which the Island Railway must run according to charters already granted.

The combined townsite interests cover one thousand acres, of which five hundred are practically level alluvial soil with no rocks.

A fine water power from the Hosma River, good drainage and the best harbor on the entire Islands.

Our lots are all 50 feet by 120 feet, ranging in price from $150 to $300; one-third cash, balance on time at 6 per cent., or deeds can be had at once if desired.

Fully 200,000 acres of farm lands, suitable for mixed farming, only await the hand of man, a large portion of which is already located.

The verdure clad mountains are vast treasure vaults of gold, copper, silver and other precious metals, while our valleys are underlaid with a wealth of the finest coal and covered with a vast forest of spruce, hemlock and yellow cedar. These, coupled with our fisheries, are at the very doors and within sight of Queen Charlotte City.

Taking all these facts into consideration, and with the present progress being made in developing our resources, which are at the gateways of transportation both by water and railway, with the advent of the completion of the Grand Trunk Railroad, Queen Charlotte City is destined to be one of the province's most prosperous cities.

It is owned largely by the wealthiest and most honorable men of our province, who would not be a party in misrepresenting facts and are prepared to endorse every statement herein made.

The townsite company are now offering a further 75 lots on Second avenue at a very low price and on easy terms, if taken at once, and under conditions that will make you a 100 per cent. on your investment in 90 days, for 20 per cent. of the gross proceeds will be used by letting a contract for the clearing and grading of Second avenue from Third street west. The company guarantees to advance the remaining 75 unsold lots on Second avenue from $150 to $225 as soon as the first 75 have been sold. The company is making this effort in order to join with the government in making Second avenue the trunk road through the townsite from the Wilson-Robinson coal fields, Hosma River Valley, Lawn Hill and Miller Creek districts. Now you can secure any unsold lot on Second avenue, including fourteen in Keith's addition, to-day for $150, except corners, on easy terms, 1-4 cash, balance 6, 12 and 18 months at 6 per cent. This will positively be your last chance for a cheap lot in Queen Charlotte City, for every lot in the townsite will surely go from $500 to $1000 when the public realize that in the Island River railroad from Queen Charlotte to the head of Masset Inlet is to be started this summer, in addition to the present work already outlined, thus giving work to an army of men. There are at least 5000 citizens of Vancouver who have invested in the various resources of the islands. Conclusive evidence of these facts, a landscape survey of the townsite and a portion of Graham Island complete with an illustrated edition of the resources of the islands can be seen at the office of J. J. Miller, 32 Hastings street, Vancouver, B. C., Agent for Vancouver, and plans at office of "Times", Peterboro'.

QUEBEC STEAMSHIP CO., Ltd.

River and Gulf of St. Lawrence

Summer Cruises in Cool Latitudes

NOTICE

Sealed Tenders endorsed "Tender" will be received by the undersigned up to two o'clock p.m.

JUNE THE FIRST, 1911

for the following:—

Scrape and remove all old paint and rust, etc., and repaint the Locks Bridge, on the boundary between the city and North Monaghan. The county will supply material (paint and oil). All work to be done properly and securities for the proper carrying out and completion of work, to the satisfaction of W. G. Howden, chairman of the Roads and Bridges committee.

The lowest or any tender not necessarily accepted.

A marked check for $25.00 must accompany each tender as a guarantee for the proper execution of contract.

ED. M. ELLIOTT,
County Clerk.
Peterborough, May 22nd, 1911.

CORONATION OIL COMPANY, LIMITED

Capital 850,000 Shares of a par value of $1.00 Each

"Incorporated in Canada, Directed and Managed by Canadians"

This Company commenced business operations on May 16th, 1911, and expects to complete and bring in its first well within ninety days from that date. The Company owns a lease of 40 acres for twenty years, situated in the heart of the oil producing territory in the Midway field, Kern County, California. Within about one and a half miles of this property there are now seven actively producing wells.

Subscriptions Are Now Asked For

150,000 shares of the Capital Stock of the Company at 15 cents each.

A Further Issue of

150,000 shares will be offered later at 25 cents each.

NOTE PARTICULARLY,—The Company is not over capitalized; its shares are non-assessable (no personal liability) and they are offered at a reasonable price; THE DIRECTORS SHARES AND THE SHARES ISSUED IN PAYMENT OF THE LEASE ARE PLACED IN ESCROW AND MAY NOT BE SOLD UNTIL ONE YEAR FROM DATE OR UNTIL OIL IN PAYING QUANTITIES IS PRODUCED.

For Prospectuses, Maps of the field and full information, write to

James Middleton & Co.,
421 George Street,
Peterboro', Ont.

—OR—

General Securities Co., Ltd.,
441 Richards Street,
Vancouver, B. C.

P. S.—The Vancouver-Midway Oil Company (a Vancouver Company), operating in the same field, brought in a well several days ago and its stock jumped from 15 cents per share to from 85 cents to $1.10 per share.

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIANINVESTOR

SINGLE-LETTER BLUNDER

Some That Cost People Dearly—Others that Caused But a Laugh

The inhabitants of the coast town of Almeria, in Southern Spain, have been enjoying themselves hugely of late at the expense of a lady who has been involved in a law-suit as a result of her illegible writing. She sent a letter to a fruit-grower in the country asking him, at his earliest convenience, to forward by train to her address one thousand "naranjas" (oranges). The person to whom the letter was addressed construed the badly-written order as being one for a thousand "naranjos" (orange trees). Imagine the surprise and feelings of the fair Almerian when twenty heavily-laden wagons stopped next morning at her front door, each one filled with young orange trees, already for planting! The lady refused to pay for them, because, she said, it wasn't her fault if the man was unable to read. The merchant, on the other hand, declared it was her duty to pay, as he wasn't to blame if customers couldn't write legibly. Experience is a dear school; but the signora learned what a big difference one little letter may make in a word.

This difference was equally evident to the famous professor of Greek at the University of Edinburgh, whose students rubbed out the initial letter "B" from the classroom notice, so that it read: "Professor Blackie will not meet his lasses to-day"; and also to the students who beheld the amended final decree: "Professor Blackie will not meet his asses to-day." The genial professor used to deny the authenticity of this story, when Mrs. Blackie would laughingly say, "It was just what you would have done."

This incident reminds one of the amusing blunder made by a servant-girl who had been dismissed from her situation, and, seeking to soften the heart of an obdurate mistress, begged to be reinstated in her service in a letter which began with the startling salutation,—"Dear Madman"! Even such a term of endearment, however, failed to produce the desired effect.

Most people will have heard of the ludicrous mistake, due to the difference of a letter, that was made by an old man, who uttered the somewhat astounding complaint that he had suffered for years from "ulsters" in the stomach.

BURGLARS' UMBRELLAS

The Most Ingenious Affairs Ever Used by a Thief

Among a collection of articles used by burglars when engaged in their nefarious calling is one particular contrivance that arouses great interest.

In appearance it resembles a large umbrella that has seen hard service. It was formerly the property of a burglar, and it was by its means that he was able to enter the second story of a building. Removing the cover a stick wound with ropes is revealed. The stick opens like a telescope or a jointed fishing-rod. Wound round it is a rope ladder, made of strong material, and about 15 feet in length.

The ladder is only wide enough for one foot to be placed on the rungs. The extending stick was used to raise one end of the ladder to the window through which the operator wished to enter, and on the upper end of the ladder are two hooks to be fastened to the sill.

This imitation umbrella is regarded as one of the most ingenious affairs ever made use of by a thief.

TWO CHICKEN HINTS

Some poultry yards are so fortunately situated that there is abundant protection from wind and rain, and later in the season from sun, but some are exposed, and in this case it is necessary to provide artificial shelter. If the chickens are exposed to wind and rain their development is retarded and they are less healthy. It is a good plan to place the drinking vessels beneath shelter, as during cold weather it prevents the water from freezing, and during hot weather it keeps it cool. Green food should not be stinted, as this is a very necessary item in the diet of chickens. Those birds enjoying their freedom will obtain all they require, but those in runs should be supplied liberally with green food in one form or another. Without it the blood becomes heated, and the internal organs are likely to get out of proper order.

WHAT X-RAYS CAN DO

Digestion Can be Watched and the Heart Movement Watched

Dr. Hall Edwards, the heroic doctor, who has suffered so severely in trying to find methods of protecting the operator from the wonderful X-Rays, has just been calling attention to the fact that their use is almost exclusively confined to medicine and surgery.

But within recent months even more wonderful uses of the mysterious rays have been discovered.

The presence of consumption can now be ascertained by the X-rays, as those parts of the lungs which have been attacked by the deadly disease do not allow them to pass as easily as the healthy tissue.

Digestion can be watched, the movement of the heart noted, and the presence of tumors ascertained. Besides being of benefit in certain skin diseases, the rays also stimulate the white corpuscles of the blood, and thus help the patient to throw off disease.

It was recently announced that a foreign doctor who busily engaged on an apparatus by means of which the microscope could act in conjunction with the X-rays, and he is hoping that when it is perfected doctors will be able to examine the brain cells.

Oysters have every reason to be pleased with the discovery of the X-rays, as now they are used to see whether pearls have formed. Instead of opening the shell to see, as was formerly done, the rays are directed on the oyster, and if no pearl is revealed the bivalve is returned to the bed of the ocean until he has grown one. Thus the life of the oyster is prolonged and fewer are wasted.

The customs officers of many countries also use the rays to examine packets and parcels which are supposed to contain contraband. Foreign bodies in metal casings can also be ascertained by their use.

MILLIONS FOR BRIDGES

Fantastic Notions of Some Freak Minds of the Past

Twenty-one years ago it was suggested that England could pacify Ireland and banish many grievances of the Emerald Isle by bridging the Irish Sea from Dublin to Holyhead, and St. George's Channel from Carnsore Point, the most south-eastern point of Ireland, to St. David's Head, Pembrokeshire. And the man who first conceived this "grand idea" still has faith in it, although he candidly confesses that the two bridges would cost a matter of $750,000,000 each.

While the scheme may be possible, it can scarcely be said to be a practical one, and reminds one somewhat of other fantastic building schemes which have cost millions of money, and have proved of no value or use to anybody. There is, for instance, the sham castle on Bathwick Hill, high above Bath, which is nothing but a battlemented wall, and which was built by a Ralph Allen for no other object than to improve the view from his town house near the North Parade.

Scattered through the country are quite a number of towers built for no object beyond that of enabling the owner to get a better view of the surrounding country than his neighbors. One of the most elaborate is Beckford's Tower, on Lansdown, Bath. Rising to a height of 157 feet, it was built by the eccentric author of "Vathek," partly as a place of retreat and partly that he might see his Wiltshire mansion, Fonthill Abbey, twenty-six miles away. Then there is a tower near Ammerdown Park, in Somerset, rising 150 feet.

"PAPA" DOESN'T COUNT

The Wife and Mother is Boss on Nunivak Island

The paradise of the mother-in-law has been discovered. Nunivak Island, a low, marshy bit of land lying in Behring Sea just off the Alaskan coast, between the mouths of the Yukon and Kuskokwim rivers, is its location, and suffragettes who are looking for campaign material will do well to ask a few anthropologists for further information regarding this little fragment of the great territory of Alaska.

The wife and mother is boss on Nunivak Island. It would be understating the case to say that she wears the trousers, for skirts are a garment known only by hearsay to the women of all the uncivilized Northern Alaska tribes. The Nunivagmute wife not only wears trousers, but lives up to them.

For instance, when a young Nunivagmute brave begins to think of marriage and pops the question to a buxom belle with a complexion like rich Jersey cream and a roly-poly figure clad in a muskrat parka he does not receive the time-honored answer, "Go see papa." He is referred to mamma, and what mamma says goes.

The mothers of the young people conduct all the negotiations. After that papa and the girl have nothing to say about the matter, and instead of promising his bride-to-be a sealskin for a wedding present the prospective groom is compelled to pay over to the mother-in-law a number of sealskins varying with the age and physical attractions of the bride.

Nor can he borrow the sealskins from the village Shylock. He must have killed a stated number of walrus and seal with his own hand before he is regarded as an eligible suitor, and be able to convince the girl's mother that he can make good as a provider of food and clothing before he can have the daughter.

HARDY STEEPLEJACK

A hardy steeplejack engaged in repairing a 240 feet chimney near Lisburn, Antrim, fell about 240 feet, but was only off work during the following meal-hour. Then he resumed work as if nothing had happened!

The addition of seats to the parks will make those pleasing places much more attractive.

O'K

The Food Drink

Many people drink O'Keefe's "Special Extra Mild" Ale solely for its food properties. Being brewed of finest hops and malt, it contains all the body and brain building elements of these grains. It is because we use the best, that

O'Keefe's

Special Extra Mild ALE

is so rich and creamy—so thoroughly enjoyable—so well as so nutritious and wholesome. It's "extra mild" remember, and never makes you bilious. In Crown stoppered bottles. No broken cork or dirt in the glass.

"The finer that is you always find it."

DEPARTMENT OF RAILWAYS AND CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted cheque for the sum of $20,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheques thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 13th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of contract can be seen and form of tender obtained at the department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., H. J. Lamb, Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 9, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Seaforth Ontario," will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signature, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

TIPS ON OCEAN LINERS

Some of the Stewards Make Big Money from Passengers

To tip or not to tip? That is the question which is agitating the minds at the great time of tourists between Europe and America. And it would certainly seem that travellers have just cause for complaint, judging by the tips which are expected of them. Upon an Atlantic liner one pays at least $10 in tips after a seven days' journey. This is made up as follows: Bedroom steward, $2.50; table steward, $2.50; deck steward, $1.25; bootsman, $1.25; library steward, $1.25; smoking-room steward, $1.25. That is the average man's scale. Passengers occupying expensive suites of rooms often give five times as much.

Indeed, there is no limit to the amount of money which a steward who has a knack of making himself useful to passengers can amass. Two hundred or three hundred dollars a voyage is often made by first-class stewards, and one of them did so well that he not only purchased a fine house out of his savings, but sent his son to one of the leading colleges.

There was a story told in a Liverpool court some time ago in an American passenger on one of the liners had distributed over $25 in tips, and then took it back because he felt he was badgered for more. There is certainly no compulsion to tip, and the rule with most companies is that the steward who pockets less than a dollar a day from each passenger will find himself liable to lengthy confinement. A gentleman who, however, after years of the pleasure of a voyage, finds the bedroom steward's ministrations very lacking, which has about twelve passengers to look after, cannot be very well up with those ranging from $5 to $25.

BETTER BE SINCERE

Strength Lies in Character; Deceit in Weakness

Nothing adds so much to one's personal power as the knowledge that one is absolutely sincere.

If your life is a perpetual sham and deceit, if you know that you are not what you pretend to be, you cannot be strong or exercise any real influence. Others will find you out.

If there is a mote in your eye, set about trying to remove it. Don't fence with it, and try to deceive yourself that it is not there. Other people see it, if you don't.

If there is a continual struggle going on inside you as to whether you are really honest with yourself or not, be sure that there is something wrong. Endeavor to eradicate this.

If you do not trust yourself, you will be unable to look the world in the face. You will "shuffle" out of things, and in time will become so shy that your whole moral being will be besmirched.

Strength lies in character. Deceit is weakness; sham and pretence are cobwebbing. Only the genuine and sincere are worth while. Be true to yourself always; then there will be no looking back or turning away to avoid the searching glance of those who are really true.—Home Companion.

PERJURY SYNDICATE

Men Who Manufactured Evidence for Use in Constantinople

A "perjury syndicate," which did a flourishing business in manufactured evidence supplied to litigants at the law-courts in Constantinople, has just come to an end through internal disagreement, and details of its peculiar methods are published. The personnel of the syndicate was composed of pensioned ushers and other petty officials attached to the courts. This organization devotes itself to providing, at reasonable charges, witnesses for the services of litigants who arrive at court insufficiently provided with testimony. The society's agents are to be found outside the doors of all branches of the judicature, including those dealing with divorce and chancery cases, and by reason of the extensive experience of its members, gained by long service in official posts of trust, it is able to supply any class of evidence desired, not as unintelligent perjury, but in a form appropriate to the usual preference of the particular judge detailed to try the case. The success of the society has so widened its sphere of operations that its terms are now on a low cash basis. The charges for even the highest class of testimony supplied—that in divorce proceedings—are so reasonable, that for two medjidiehs ($1.56) a head the society will provide a petitioning wife with eye-witnesses, of straightforward and convincing simplicity of bearing, of the actual ill-treatment on the part of the respondent required to secure the desired separation.

The collapse of this organization is due to internal dissension among its members as to whether the basis of the division of profits should take account of the additional strain and conscience and religious conviction entailed by the more complicated cases submitted to the society, or whether regard should be had only to time spent in attendance at court. This dispute led to a brawl, which attracted the attention of the police. Without a single exception, all the members of the society have offered to give evidence for the Crown, and so high an appreciation of each other's abilities is shown by the late associates of the disbanded enterprise that the most intricate and harrowing revelations have been promised to the authorities by ex-members eager to obtain the benefits of service in the witness-box. It is stated that with the dissolution of this association the main supplementary source of livelihood for a large number of meagerly pensioned court officials in Constantinople has been removed.

Wine and Food

In the French Army nearly three times as much is spent on wine as on bread, vegetables, and preserved food put together.

Short Skirts Forbidden.

Representative Arthur Tewksbury has introduced to the Massachusetts State Legislature a Bill which forbids the wearing of any skirt that does not come six inches below the knee cap. The Bill does not exempt bathing dresses, nor does it fix any age limits. Another article in the Bill aims at low-necked dresses. In the future in Massachusetts the Bill would prohibit any woman appearing in public in a gown which does not have pronounced shoulder-straps.

ADVERTISE IN THE TIMES.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realising handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK

429 Pender St., W., Vancouver, B.C. Phone 871

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $200 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of it is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some idea about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

RAILWAYS SELL SOME ODD THINGS

When Unclaimed Baggage is Auctioned —People Buy "Pigs in Poke" Out of Curiosity

Every year railways dispose of unclaimed baggage by auction, and as the buyers bid on trunks or parcels without knowing their contents, there is always excitement.

The distribution of goods and chattels bought at auction in the baggage-room at Windsor Station, Montreal, recently, took place when a motley crowd, all agog with curiosity, besieged the patient officials, who trundled out trunks, hauled down sacks, and generally disposed of the accumulation with more speed than the onlooker, ignorant of the methods by which baggage is handled, would have supposed possible.

The opening of purchasers on the premises was made against the rules, in order that the floor space might be kept clear for the wheeling and carrying out of trunks and boxes as they were handed handed over to the buyers; but not a few impatient men pried surreptitiously into the bundles retrieved in exchange for sums of money which ran from two to ten dollars, and their hasty investigations brought to light a few quaint collections of odds and ends.

One man, who had fondly hoped to find in his bundle something which might be of use in the replenishment of his wardrobe, fished out of thick wadding one of those wire forms on which female bodices are fitted; while another discovered the contents of a large substantial trunk to be wholly unsubstantial and petrified bread.

Yet on the other hand, a rather shabby "tel-escope" bag yielded at least half a dozen suits of fleece-lined underwear; and a man who had bought largely in past years said that two years ago he sold for $60 the goods bought for $20. The majority of the bidders were dealers in second-hand clothes, and men who make money in the handling of ordinary every-day rags, bought extensively.

A trunk, bearing the label of "Bow's Emporium, Glasgow," was undone in the sleigh to which it was carried for transportation, and showed plainly that the former owner of it had forsaken the ranks of the bachelors, since dainty bits of lingerie were found mixed up with masculine collars, shaving apparatus, and a voluminous book on baseball.

Most of those who experienced disappointment took their losses philosophically, but one disheartened individual, finding not even a tray in the trunk for which he had expended five dollars, burst into a torrent of self-accusation and pity; and another, grumbling at large to anyone who would listen, promptly refused for his pile an offer of the same amount for which he himself had paid.

There seemed to be a preponderance of boots in many of the sacks, and the cutting of the string which held together a soft, large blanket loosened a choking cloud of fine feathers. In a small hand bag had been carefully packed a plate, a knife, a cracked cup and a bottle of pickles; and an attractive sign, done in black and white, "For sale, or to let. Apply to B. Gilmour," was tenderly taken out in company with two "Halma" boards, one-half of a bed and a disjointed baby's chair.

NOTICE TO CONTRACTORS.

TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope "Tender for Station Buildings," will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.

Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.

Section 3.—From Mile 5 to Mile 165 east of Quebec bridge.

Section 4.—From the Quebec bridge westward to Mile 45.

Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.

Section 6.—At Cochrane in the Province of Ontario.

Section 7.—From the divisional

Section 8—From Moncton to Napadogan, in the Province of New Brunswick.

Section 9.—From Mile 125.5 to Mile 159 west of Moncton.

yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.

Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.

Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario.

Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,

P. B. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa, this 12th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for

LICENSE FOR 600 YEARS

A London Inn Which Was Established in 1276

What romantic stories of London life are recalled by the history of "Ye Olde Whyte Harte," probably the most ancient, and certainly the most interesting of London's inns, which is at present in course of reconstruction. Established as long ago as 1276, at the top of Drury Lane, it has outlived all other inns, in that part of the Metropolis, at any rate. It was first built on a plan familiar to all readers of Dickens's novels—with the courtyard opening on to the main thoroughfare, with wooden galleries running round the building, approached by steps from the courtyard.

Good times there must have been for the Whyte Harte when the citizens of London passed its doors in their thousands when accompanying the condemned criminals on their way to Tyburn, and many a goodly sum must have passed into the coffers of mine host for the privilege of viewing the procession from its windows. Special interest was attracted to the Whyte Harte when Jack Sheppard went to Tyburn accompanied by a crowd numbering some 200,000, and also when Jonathan Wild went to the gallows. Both of these worthies were for some time residents of Drury Lane, and also publicans in that locality, and doubtless they were frequenters of the Whyte Hartes.

In the early days of the history of the Whyte Harte Drury Lane was inhabited by a very different class of people from those who now occupy it. In it lived the Earl of Anglesby, for some time Lord Privy Seal; the Earls of Clare and Craven, and numerous other members of the aristocracy.

And in what was known as the Coal Yard, which abutted on the garden wall of the Whyte Harte, was born Nell Gwyn in 1650. It was as an orange-girl, holding a basket of fruit in the pit of the King's Theatre, which stood where Drury Lane Theatre now stands, that she first attracted the attention of Charles II. Nelly's abode was the house at the top of Drury Lane and the corner of Wych Street, and it is Pepys who in his Diary writes that on the 1st of May, 1667, on his way to Westminster, he "saw pretty Nelly standing at her lodging door in Drury Lane in her smock sleeves and bodice, looking on at the milkmaids dancing with a fiddler before them. She seemed a mighty pretty creature."

SIR J. A. SIMON

An Amusing Incident in One of His Early Cases

Sir J. A. Simon, Solicitor-General, England, is often termed "Silent Simon" by his friends. It is a description which only partly fits. When the use of the tongue is necessary, Sir John Simon can use it with wonderful effect, but when talking is not necessary he does not talk. A story is told of one of Sir John's earliest briefs. He was counsel for the defence in a case which turned upon the identification of the prisoner. On the day before the trial Sir John entered a small shop and asked for a packet of pins. "We don't sell them," said the tradeswoman; "go to Second-st's." The next day the tradeswoman appeared as a witness and swore to the identity of the prisoner. "Do you always remember faces?" asked Sir John. "Always," said the witness, stoutly. "Have you ever seen me before?" "Never," said the witness. "Would it surprise you to learn," said Sir John, "that I entered your shop yesterday and asked for a packet of pins?" The witness collapsed, and the case was won.

MILKING MACHINERY

Not Sufficient Data Yet to Prove Its Success

Milking by machinery has gained much ground of late, and about 150 machines, mostly of the pressure and suction type, are in use. At the same time, it cannot be said that this question has yet found a satisfactory solution. Experiments have lately been in progress at a well-known Danish dairy farm, with a view of comparing the relative values of hand milking and milking by machinery. The experiments were made on cows and heifers, a certain number of each being respectively hand milked and machine milked. In the concluding stages of the experiments, a trial was given to the new milking cup, "Thrie-hopper," by means of which all the milk is drawn from the cows, and subsequent milking by hand obviated. For comparative purposes, a course of hand and machine milking was conducted, extending over three to four months, with the ultimate result that nearly the same amount of milk was obtained by both systems. In the case of full-grown cows, a rather larger quantity of milk appears to have been obtained by hand milking, whereas heifers gave a larger yield when milked by the machine. The chemical composition of the milk does not appear to have been affected by the different methods of milking, nor was there any difficulty in the application of the machine, whereas it was observed that the animals behaved somewhat differently when milked by hand. A machine fitted with two cups does the same work as three hand milkers, being able to milk 50 to 60 cows in two to two and a half hours. There are perhaps not yet sufficient data to prove whether, in the long run, machine milking will give better or less satisfactory results than hand-milking, or even such good results as are obtained by the latter method, but undoubtedly it will be easier to form an opinion when the cows are more accustomed to being milked by machinery.

DISTRESS IN THE STOMACH

Hundreds of Thousands of Bottles of Nerviline Used Every Year for Curing Cramps, Diarrhoea, and Stomach Disorders.

Deadly cramps—the symptoms are not to be mistaken. Suddenly and without warning the patient experiences such agony in the stomach as to contort the countenance and cause him to cry aloud for help.

LETTER NO. 4677.

Then it is that the wonderful power of Nerviline can make itself felt—it cures so quickly, you would think it was made to cure cramps, and cramps only.

"Last summer I was stricken with a frightful attack of cramps. I feared the pain in my stomach would kill me.

"My eyes bulged out and the veins in my forehead stood out like whipcords.

"My cries attracted a neighbor, who came to my assistance, and in a moment or two handed me a half a teaspoonful of Nerviline in some sweetened water.

"It seemed as if an angel had charmed away the pain. In ten seconds I was well. Nerviline has a wonderful name in this locality, and is considered best for cramps, diarrhoea, flatulence, stomach and bowel disorders. I urge all my friends to use Nerviline.

"MANLEY M. LEGARDE,
Williamsburg.

No home is safe or can afford to miss the manifold advantages of having Nerviline on hand in case of accident or emergent sickness. 25c a bottle, five for $1. All dealers, or The Catarrhozone Company, Kingston, Ont.

FOR STONEY LAKE

For the week commencing Monday, May 29th, the steamers will leave Lakefield on the arrival of the morning train, returning in time to connect with the evening train on Monday, Tuesday, Friday and Saturday.

STONEY LAKE NAVIGATION CO.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Tent For Sale.

Tent for sale—Large, only in use a few weeks, very reasonable. Apply W. J. L. Elliott, head of Weller St.

Mr. W. H. Thorne, piano tuner for the R. F. Wilks Co., Toronto, is in the city for a day or two. Orders left at The Times' Bookstore will be promptly attended to.

Census Men at Work.

The census enumerators started to work this morning in every city, town, village and hamlet in the Dominion. They have 21 days in which to accomplish their task. Each enumerator reports to the Commissioner for the riding, who in turn reports to the Census Department at Ottawa.

Boy Scout Column.

The Times has started a column of the paper to be devoted to Boy Scouts, and their movements. All Boy Scouts are asked to contribute to this department on matters pertaining to scout work. The column will be edited by one of themselves, which should make it of interest to all boys connected with the Scout movement.

No Race Suicide.

The way the potato bugs are commencing to materialize would indicate that there is sure to be a good crop this season. A citizen informed The Times yesterday that he has some early potato vines from which he picked several hundred bugs of variegated colors. He then quit counting, on the assumption that the census enumerators would finish the job.

Wires a Protection.

It is said that the network of electric and other wires that are now to be found in almost every town and city in the country is a protection against lightning. A prominent electrician asserted that one of the safest places during an electric storm was in a power house, where electricity is generated. It is not, however, the most comfortable spot during such a time, as the blue flame of the current may be seen playing along the powerfully charged wires, with hisses and noise like a huge serpent.

Tandem Motor Cycles.

Two tourists on a tandem motor cycle passed through Peterborough yesterday on their way west from Montreal. They were going to Buffalo and Rochester, and thence down the south side of Lake Ontario to Montreal. Mr. Watson, one of the tourists, said that where the roads were good they were able to dash along at a 30-mile clip.

Not This Summer.

It is rumored that the C.P.R. will not get busy on construction work from Bathurst to Toronto through Cobourg, Port Hope and lake front towns this summer. Location work and right of way is to proceed right along, we understand. Meanwhile, there will be considerable speculation all along the line as to whose property will be hurt, or required or benefitted by the C. P. R. new line.—Port Hope Guide.

Advice to Delivery Boys.

The Mitchell Advocate of recent date contains the following advice that does not seem out of place in Peterboro: — "Complaints are frequently heard that delivery rigs are frequently driven on the boulevards in front of residences, and that delivery boys run across lawns instead of keeping to the walks. Probably in no place is greater pride taken than in our town in keeping lawns and boulevards in good shape. Would it be well for those who employ delivery boys to instruct them to respect the town by-laws in regard to boulevards and lawns?

Moving Picture Shows.

The new provincial regulations governing moving picture machines and operators comes into effect on Thursday, the 1st of June, as provided in the bill when it was introduced in the Legislature. The names of the Board of Censors, on which there will be three members, will be announced to-day or to-morrow by the Hon. Col. Matheson, Provincial Treasurer, who is expected to return to the Parliament Buildings to-day after several weeks absence through illness. The licenses have been graded, as June is the first month in the license year. Film exchanges must pay a license of $500 a year, the exhibitor $100, and the operator $5. Licenses paid in later months are graded according to the time they are paid. The films must be passed by the censors before being shown in the province.

SOCIAL AND PERSONAL

The Times will be pleased to receive notice of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mr. R. J. G. Sutherland, has returned from South Beach.

Dr. Holloway attended the Dental Convention at Toronto yesterday.

Mr. J. C. McNaughton, of Port Hope, is the guest at the Snowden House.

Mrs. A. F. Goodier, of Kenora is visiting her sister Mrs. J. R. Stratton, at "Stratbornford."

Mr. Ed. Carr of the Quaker Oats Company's offices, Chicago, is home on a holiday.

Mr. Burnham Spillsbury has accepted a position with his father on the Government dredge at the Soo, and left yesterday morning.

Rev. Mr. Ferguson, of Picton, was the guest of Mr. W. C. Austin yesterday. Rev. Mr. Ferguson was a resident of this district some 22 or 25 years ago.

LITTLE LOCAL LINES

The 57th Bugle Band met at the Armouries last night for practice.

The Peterborough Poultry Association met in regular monthly session last evening.

The butcher boys of Lindsay have decided that they will not work on the afternoon of Saturday next, the King's birthday. The shops, however, will be open as usual.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of every ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

DEPARTMENT OF RAILWAYS AND CANALS.

ONTARIO—ST. LAWRENCE CANALS.—RAPIDE PLAT CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Improving Lower Entrance to Lock No. 24," will be received at this office, until 16 o'clock, on Friday, June 9th.

Plans, Specifications, and Form of Contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $9,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

HAVE YOU ATTENDED

Ogilvie's big flour demonstration now going on in your city? If not you are missing an educational treat in cookery. The ground floor of the T. A. S. Hall, Simcoe street, has been rented for this purpose. Demonstrations commence at 2.30 sharp. Afternoon tea served free to housewives until June 7th.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards Easy payments, 10 per cent cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

VOL XXXIV NO. 131 PETERBOROUGH, ONTARIO, SATURDAY JUNE 3 1911 PRICE TWO CENTS

THE FINANCE COMMITTEE PREPARES FOR MONDAY NIGHT'S COUNCIL MEETING

The City Council's Finance Committee met yesterday afternoon, Chairman Ald. Bradburn presiding. There were also present Mayor Morrow and Ald. Buller.

Moved by Ald. Bradburn, seconded by the Mayor,—That the Mayor be authorized to sign the renewal application for the bond of the tax collector, and that a cheque be issued for the premium.—Carried.

Moved by the Mayor, seconded by Ald. Buller,—That the City Solicitor be instructed to collect an account $8.50 from D. W. Dumble for street sprinkling.—Carried.

Mr. Dumble disputes this account.

A letter was read from C. H. Sproule, Assistant Provincial Treasurer, enclosing a cheque for the balance of railway taxes due the city, after deducting charges for patients in asylums.—Received.

A number of accounts were certified to and payment thereof will be recommended at Monday night's Council meeting.

MRS. PHILIPS WILL STAND BY IMPRISONED HUSBAND

Toronto, June 2.—To save the father of her two bright little girls from the cells of Kingston penitentiary, Mrs. J. B. Phillips, who was shot by her husband, a mining engineer, in their handsome home at 264 St. George street, on the evening of Victoria Day, will take the witness stand and testify in his defence.

She will declare that the shooting was accidental, and will describe how the affair occurred of which she was the victim. Mrs. Phillips will also bring expert evidence on the behalf of her husband to show that if he had at any time any intention of murdering her she would have had no chance whatever of escaping the bullet.

According to the wife she has always been unwilling that there should be any prosecution. As his wife the Crown will be unable to call her as a witness, and yesterday she voluntarily went to T. C. Robinette, the counsel for her husband, and demanded that she be called by him to give evidence.

The story told by Mrs. Phillips to Mr. Robinette also denies that at any time of the shooting Phillips was in an intoxicated condition, or in a frenzy as the result of excessive drinking. She will claim that her husband was moving his revolver from the dresser to his desk when she entered the room with a jug of water.

On opening the door she called to him, and at the time he had the revolver in his hand. As he turned, startled, his arm, the one which held the weapon, struck the side of the dresser, and the unexpected jar caused his finger to tighten on the trigger, firing the revolver. By some unlucky chance it was pointed towards her, and the shot entered her breast and emerged from the left shoulder.

Seeing her fall and believing that he had been the cause of her death, Phillips declares that he then shot himself. The bullet entered above his heart. He says that after that he has no recollection of what he did and that he does not remember the shooting. He also declares that it was accidental.

Besides the evidence of Mrs. Phillips, Mr. Robinette will call a number of witnesses to prove that the prisoner was such an expert shot that if he had desired to murder his wife the bullet would have gone true to its mark. It will also be shown that on the day of the shooting he had not been drinking heavily, and that when he arrived home he was sober.

"There is nothing what ever to prove that the affair was anything but an unavoidable accident," said Mr. Robinette. "We will prove that the prisoner was not intoxicated that evening and that he had no intention whatever of shooting his wife. Mrs. Phillips feels her positions most keenly, and will do everything possible to have her husband restored to her."

On the other hand the Crown allege that the crime was premeditated. They declare they have enough evidence to prove that Phillips shot his wife with intent to kill her, and that he will be convicted even if she takes the witness stand in his favor.

Witnesses will be called to show that at the time of the shooting he had been drinking heavily, and previously had been in an ugly mood for some days. Crown Attorney Corley was reticent in discussing the matter, however. "All I have to say is that I will press the case," was the only statement he would make.

IN THE POLICE COURT.

Phillips appeared in the Police Court this morning. He was looking remarkably well, and appeared to have entirely recovered from the effects of his self inflicted wound. No evidence was taken, and a remand was made until next Thursday, when the investigation will be held.

The trial will be one of the most sensational legal battles that the Toronto courts have ever known. Mr. Robinette will fight the prosecution at every step, and the Crown are equally determined to convict. This was most aptly illustrated by the following remark made by an official this morning: "We will either send Phillips to the penitentiary or the asylum."

IF I WERE MAYOR
What I Would Do

ABOLISH THE OFFICE.
Editor Morning Times.

Sir,—If I were Mayor I would insist on abolishing the office of Industrial Commissioner for the present, or at least until we were in a position to offer substantial inducements in the shape of power.

I would have our excellent City Clerk look after the industrial end of the game. That he would do good work I am convinced. He, at least, could not possibly accomplish less than has been accomplished during the past year.

Economy.

REGIMENT OF HIGHLANDERS.
Editor Morning Times.

Sir,—There are so many young men coming to Canada from the land of the heather, that I am going to suggest to the military authorities that a Highland regiment be organized in Peterborough. Since arriving in this country from Scotland, I had the good fortune to find my way to Peterborough, where I expect to make my home. I meet dozens of Scotch laddies every evening, and I know that a real Scotch regiment could easily be formed.

Your suggestion to have letters written to your paper suggesting ideas on matters and things is why I now write.

If I were Mayor of this place I certainly would make an effort to carry out the above.

Alex. Patterson.

DOING ALRIGHT.
Editor Morning Times.

Sir,—A good deal is being said through the public press of the city, and especially through The Times regarding what certain individuals would do if they were in the mayor's chair. I am not one of those, for I think our mayor is doing alright. His letter the other day on the power question showed that he was not the servant of a clique, but stood out manfully in the interests of the whole people. The day, I trust, has gone by when men not elected to the council are able to control that body. If the gentlemen who are finding so much fault with the council could be induced to enter the council, and take the oath of office, there would, I fancy be an end to their present attitude, which I am sure is not in the best interests of the community.

Ajax.

CHINESE LAUNDRIES.
Editor Morning Times.

Sir,—I noticed a cut in The Canadian Laundryman a short time ago, in which the Asiatic laundryman was dampening clothes by spewing water out of his filthy mouth over the clothes which he was engaged in ironing. This is, I understand, a common practice amongst these Asiatic rat-eaters. If I were Mayor of Peterborough (or any other city), I would see that a stringent law was in force providing for the inspection of the Asiatic laundries. If this were done there would, I am sure, be fewer of them in existence. We often wonder when an epidemic of sickness occurs, where it originates. I can tell you, Sir, that it frequently is born and spread from these Chinese dives, where the most unsanitary conditions exist.

I happen to have lived for some years in close proximity to a Chinese laundry, and know whereof I speak. Most of these are laundries only in name, being brothels and opium joints

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

WE WANT BRITISH SETTLERS.
Editor Morning Times.

Sir,—It is satisfactory to know that Canada is now getting its full share of British young men and women. They are the kind of people that Canada needs to keep her thoroughly British and Protestant. I know that many of our people say hard things about the English immigrant and pretend to cherish a warm regard for immigrants of other nationalities. Therefore, let those who speak the English tongue—English, Irish and Scotch — assist the fellow-countrymen to master the troubles and difficulties which all new comers experience for the first year or so. The Times has always been their friend, and I would therefore commend it to their patriotic support.

An English Canadian.

THE DEAR OLD BELL.
Editor Morning Times.

Sir,—The public at large cannot but feel a sort of regret at the removal of the dear old bell of St. John's. It has for over half a century called the people to their several churches, and has rung with joyous gladness the news of British victories not only during the Crimean War, but of later battles in South Africa. It has tolled the mournful dirge over souls departed. In other words it has "mourned with the mourners", and rejoiced with those who have had occasion to rejoice. It has served all alike, regardless of creed or race. God bless the dear old bell! That it may long continue its heavenly work, in its new and somewhat less conspicuous environment, is the heart felt desire.

I would suggest to Rev. Canon Davidson as to the other Protestant ministers of the city, that they should regard the removal of the dear old bell as a suitable theme for a pulpit discourse.

A Methodist Church-Goer.

THE SUPPLY OF WATER.
Editor Morning Times.

Sir,—I was astonished to read in The Times that the flow of water at Fenelon Falls only amounted to 300 horse power during the low water season. If this is a fact, all the talk of an exhaustible supply of water in our river, is nothing but bosh. The construction of dams so as to conserve the water is alright just now, but when the country away to the north—the high table land which drains into our chain of lakes—is opened up, there will be greater amount of evaporation, and consequently a greatly diminished flow. Then what will become of the great power plants?

I think, before a dollar is invested in the purchase of water power, the city should have this matter thoroughly looked into by an expert. In the meantime, it might be well to go a little slow until the quantity of water available for power purposes is definitely known.

A.Y.Z.

TRIED AT LAST WHEN OTHERS ALL FAILED

AND DODD'S KIDNEY PILLS CURED THE POSTMASTER.

F. Tippins Had Suffered for Years and Spent Hundreds on Doctors and Medicines, But Found the Real Cure at Last.

Tippins, P.Q., Que., June 2—(Special).—If Dodd's Kidney Pills have a more enthusiastic friend anywhere in Canada than Mr. F. Tippins, postmaster here, we would like to hear from him. And Mr. Tippins is always ready to tell why he praises the great Kidney Remedy.

"After recovering from an attack of Grippe," the postmaster says, "I took a pain in my back. I suffered for nearly three years and it kept growing worse all the time. I was attended by all the doctors around, but got no relief, and I got so bad I had to keep to my bed. After spending about $200 on doctors and medicines I gave up all hope.

"One day I told my wife to go and get me a box of Dodd's Kidney Pills and that would be the last medicine I would try. After using about half the box I began to feel better, so I kept on taking them. When I had taken two boxes I was able to get up, and ten boxes cured me completely."

Dodd's Kidney Pills cure where all other medicines fail.

"A NE TEMERE" SESSION, MONDAY

London Conference Will Devote a Session to Discussion of Catholic Church Decree.

Stratford, June 2.—Monday afternoon promises to be the final live session of the London Conference, as it was decided this morning to discuss the "Ne Temere" decree and church union then.

The president, Dr. Warner, will move a resolution touching the attitude of the Conference on the decree. The delegates will be a solid phalanx against it, but on church union unanimity is not expected.

There is one medicine that every family should be provided with and especially during the summer months viz, Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

How Bank Lost a Million.

London, May 31.—At the Charing Cross Bank prosecution to-day it was stated that Canadian railway schemes in which the bank was involved would cost over a million dollars.

THE WEATHER.

Local showers.

CHAIRMAN OF CITY'S MANUFACTURERS' COMMITTEE INSTRUCTED TO TAKE SUCH STEPS LAST EVENING.

Ald. Anderson Takes Exception to Committee's Action in the Matter of a Park for East City—He Thinks the Old Clancy Property on Which City Holds Option is the Most Desirable That Can be Found.

The City's Manufacturers' Committee met yesterday evening at five o'clock.

There were present Mayor Morrow and Chairman Ald. Buller, Aldermen Anderson, Bradburn and Edgar.

Moved by Ald. Bradburn, seconded by Ald. Edgar,—That the chairman and Ald. Anderson see if they can locate a property in the East Ward containing three or four acres suitable for a park, and secure an option on same. Also that the chairman be authorized to have a valuation made of property in the West that he thinks suitable for park purposes, and have a by-law prepared for submittal to the electors, providing for the purchase of park lots in East, South and West City.—Carried.

Ald. Anderson strongly objected to that portion of the foregoing resolution in reference to securing options on other lots for park purposes in East City than the one on the old Clancy property at the northwest corner of Hunter and Mark streets, already held by the committee, pursuant to authority for such procedure vested in them by the Council. Ald. Anderson contends that there is not as suitable a location for park purposes in the whole East Ward as the old Clancy property which is centrally situated. The main reason for the purchase of a number of small parks is to afford suitable playgrounds for the little folk in each ward readily available to those residing in that particular ward. And should a site at one corner of the East Ward be selected as a park the object of the movement would be lost, and citizens might as well content themselves with the Nicholl's Oval, unquestionably the best playground in Peterborough, with no other drawback than that of its distance from all wards but the north. He was only voicing the sentiments of his fellow-citizens of East City in saying that the Clancy property is the most desirable lot in sight across the river out of which to create a park, and any lot not as centrally located would not meet with the East Ward's endorsation.

Moved by Ald. Bradburn, seconded by Ald. Edgar,—That the chairman interview the president of the Board of Trade, and ascertain if the Board will give the Council the correspondence and effects of the department of the Industrial Commission of the city.—Carried.

Moved by Ald. Buller, seconded by the Mayor,—That a grant of $10 be made to the Provincial Circulating Library for the Blind.—Carried.

The uniform success that has attended the use of Chamberlain's Colic Cholera, and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all dealers.

Fatally Hurt in Runaway.

St. Thomas, May 31.—J. Marsh, of Union, was probably fatally hurt in a runaway on the road a mile outside of Union. W. V. Wilson and Elijah Marsh escaped injury.

Riots in Canary Islands.

Las Palmas, Canary Islands, May 31.—Renewed disorders resulting from the delay in the discussion of the bill in the Spanish Parliament providing for the division of the Canary archipelago, broke out here to-day. The mob attacked the Government buildings, and many windows were broken. The civil guard fired on the crowds and finally dispersed the rioters.

St. Louis, May 31.—Rather than give up man's dress, which she has worn for fourteen years, Mrs. Augusta Seib, masquerading as "Gus Seib" accepted a sentence of 56 days in the workhouse.

MADERO OFF TO MEXICO CITY TO ORGANIZE NEW GOVERNMENT

El Paso, Tex., June 2.—Francisco I. Madero was astir early to day preparing for his departure at 10:30 for Mexico City to discuss with President De La Barra the problem of forming a new Government for Mexico.

Going by way of Eagle Pass, Texas Senor Madero intends after crossing the border, to travel in a special train, guarded by armed insurrectos. He will visit Torreon, Zacatecas and Aguas Calientes, in an effort to pacify that section of the country. Senor Madero is due to arrive in Mexico City at 10 a.m. next Wednesday.

MADERO IS OPTIMISTIC.

He was greatly pleased with the prospects of reaching Mexico City.

"It is, of course, the climax of the revolutions," he said. "It seems our triumph is completed; we began our fight in the open field, we are marching in peace to the stronghold of those who were once our foes. No one, six months ago, would have believed that so great a change could come to a country. Then the coutry was divided between bitter enemies. Now I trust all the hatred will be forgotten, for, after all, it was a hatred merely for a social condition. As Mexicans we are all brothers. I trust tranquility will spread throughout the land."

"But When He Blew the Mare She Coughed, and the Blow Almost Killed Father."—Advt.

KISSED HER CHILDREN GOOD-BYE THEN LEFT ON "LONG JOURNEY"

MYSTERIOUS DISAPPEARANCE OF MRS. THERESA GIBSON—NO TRACE OF YOUNG MOTHER.

She Left Little Ones Who are Now Wards of the Children's Aid Society. "Some day," They Say, "She Will Come Back to Us."

Toronto, June 2.—The pathetic story of a woman, deserted by her husband, and unwilling to face the world with her misery and poverty, was revealed this morning when the three children of Mrs. Theresa Gibson were made wards of the Children's Aid Society.

The charge on which they were committed was that they were "deserted by their mother," but no official mention was made of the sorrow and sufferings of the little family and the grief that goaded the mother to desertion.

It was on November 12th of last year that the first act in this domestic tragedy occurred. On that day the mother came late in the evening to her little home in the Berkeley Apartments, and with eyes streaming with tears kissed her little ones good bye. With the last few pennies she bought them some candy, and then turned to leave.

GOING ON A LONG JOURNEY.

"Where are you going, mother?" the eldest asked with eyes wide open, in surprise at her unusual emotion.

"I'm going on a long journey," she whispered with faltering lips, and with another outburst of tears, passionately kissed her loved ones again and passed from the room. Since then no trace of her has been seen. It seems that she has completely disappeared.

The following morning the children were taken to the Children's Aid Society. Mr. William Duncan, the superintendent, notified the police and the official frag net was thrown out over the city for her, but their efforts were in vain.

The children are also in ignorance of her fate. They do not know where she is, but believe that she is in the country and will soon return to them. They do not comprehend, and kind friends conceal the fears that are entertained from them.

It was ascertained that the woman had been ill for some time, and as her children said: "She was sick. She often said so and that she was also very tired. But some day she will come back to us, and we will again be happy."

The children are Archie aged 10; Neil, aged nine; and Edna, aged eight. All were kept, the officials say, with the greatest possible care that the mother could give them and when taken to the Shelter, were clean and neat. They are well-mannered, good looking children, and have cheerful, happy dispositions.

Mrs. Gibson was a woman of education and refinement. She is about 30 years of age. An unfortunate marriage and successive misfortunes led up to the desertion of the children and her complete disappearance.

Tenders For Clothing

Sealed tenders, addressed to Ald. Morgan, Chairman of the Fire, Water and Light Committee, and endorsed, "Tender for Clothing," will be received for Firemen's Uniforms, up to 4 o'clock p.m., on

June 20th, 1911,

at the office of the undersigned, where copies of the specifications may be obtained. The lowest or any tender not necessarily accepted.

S. R. ARMSTRONG,
City Clerk.

NOTICE

Take notice that—

1. The Council of the Corporation of the City of Peterborough intends to construct as a local improvement a sewer on Cambridge street between Cedar street and McDonnell street, and intends to specially assess a part of the cost upon the land abutting directly on the work.

2. The estimated cost of the work is $574.22, and of which $104.50 is to be paid by the Corporation. The estimated special rate per foot frontage is $0.514137. The special assessment is to be paid in thirty annual instalments.

3. A petition against the work will not avail to prevent its construction.

Dated the 1st day of June, 1911.

S. R. ARMSTRONG.
Clerk.

ROYAL
5c 10c
BIG SPECIAL SHOW

3 SPECIAL ACTS 3

EMILE TURENNE & CO.
The World's Greatest Cannon Ball Jugglers.
THE STEELE SISTERS.
Australian Singers and Dancers.
ERNEST BRINKMAN
Character Singer.

These are three of the biggest, best and most expensive acts ever brought to the Royal. Emile Turenne & Co. play with cannon balls in juggling as other men would with marbles. Their performance is simply wonderful. The Australian singers and dancers and Ernest Brinkman come direct from the Majestic where they broke the house records.

MOTION PICTURES.

Another big change of Motion Pictures. Something grand and something new to be seen at every visit to the Royal.

Remember the Royal is the coolest and most comfortably seated place of amusement to go to in the evening—Big electric suction fan and eight ceiling fans going all the time.

Grape Fruit Growing.

Isn't it awful the way Jack Canuck and Uncle Sam have acquired the Grape Fruit appetite in the last few years? This winter's supply for their breakfast tables spread from ocean to ocean, will exceed four million boxes—which means approximate ly three quarters of a billion pomelos —the other name for Grape Fruit. Since the Grape Fruit was discovered commercially, its cultivation has grown in Florida, Jamaica and the Isle of Cuba to an enormous source of wealth, and the records show returns of some $700 per acre. The trees are planted 70 to the acre, with a minimum average of seven boxes to the tree. As a rule the fruit is sold on the tree at an average price of $1.50 per box, leaving expense of boxing, picking and other incidental bugaboos of the fruit growers to the buyer. Impressed with the enormous profits realized from Grape Fruit growing, a number of Toronto business men have recently formed the Toronto Tropical Fruit and Development Company, Limited, and have secured "The Manhattan Estates", a tract of over 500 acres of the choicest fruit land in Cuba, and are undertaking the development of this grove. An announcement appears in to-day's issue of this paper and will give an insight into the intentions of the Company.

BRITISH TOURISTS

Arrangements for a Tour of the Maritime Provinces

F. W. Frier, publisher of the London Colonizer, has arranged to conduct two large parties of British tourists and home-seekers on a trip through Nova Scotia and New Brunswick early in the summer. The party will tour Nova Scotia, leaving Quebec via the Intercolonial Railway for Amherst. After a five-day sojourn there, the party will visit Oxford and Pugwash, and go to New Glasgow via Brown's Point on the short line. They will spend a day looking over the industries of New Glasgow and the surrounding country, and will go from thence to Sydney. They will be shown the many features of interest throughout Cape Breton, and the opportunities for farming and market gardening will be impressed on the visitors, many of whom are men of means, who are looking over Eastern Canada with a view to settlement. They will return from Sydney to Halifax by the I.C.R., and from thence will tour the South Shore and the Annapolis Valley. The party is to be personally conducted by Mr. Frier by special arrangement with the Nova Scotia government.

KILL ALL HOUSE FLIES

Earl Grey Advises Ottawa's Mayor to Inaugurate Campaign

Earl Grey wrote a letter to the Mayor of Ottawa, urging an immediate warfare on house flies. He suggested that a systematic campaign should be inaugurated, and calls on the Mayor to take the lead. His Excellency thinks that Ottawa, as the capital, should set an example to other cities, both in a campaign to kill the flies before they breed and in removing unsanitary conditions.

BRITISH IMMIGRANTS

J. Bruce Walker Speaks of the Enormous Increase

"When Hon. Mr. Sifton sent me to Scotland in 1902 to supervise the work of the Government in immigration in that country," said J. Bruce Walker, Commissioner of Immigration, "the complete list of the immigrants to Canada in ayear was about 2,000. When I left in 1907 to go to London for the Government, it had increased to 30,000 per annum. Since the year 1907 the advance is 100 per cent. This year we will get from that country 60,000 people.

"The Welsh immigration is also developing in an extraordinary manner. Thousands of residents of the principality are removing to the Dominion. There have been numbers of people from the mining districts of Wales, but the great majority have come from the farming regions, and the immigrants are the sons and daughters of Welsh people who have lived on the land for many generations. In the principality splendid service for Canada has been rendered by John Williams, formerly M.P.P. for Melita.

"From Scotland, at the period of my work there, there were but four steamers making monthly voyages to Canada. Now there are eight sailings per month, and sometimes ten. The total immigration for this calendar year will be 400,000 people, and of this number 45 per cent. will be from Great Britain."

GATEWAY MIDDLE WEST

Six Points Where American Immigrants Enter Canada

Between Kenora and the Rockies there are six points where United States immigrants enter Canada. The chief of these is North Portal, a few miles south of Moose Jaw. During every day of the year ending March 31st there passed ten carloads of settlers' effects—northward, ever northward. The total number of cars was 3,713, more than ten for every working customs' day in the year. And with the cars came the settlers—northward, ever northward. German-Americans, Swedish-Americans, Norwegian-Americans, Canadian-Americans, and Americans—all bearing northward, where land is twenty dollars an acre instead of sixty or a hundred. During the year there were 27,943 of these trekkers, nearly ninety a day. North Portal is the southern gateway to Saskatchewan and Alberta, as Winnipeg to the eastern gateway.

INDIANS GET CASH

The Songhee tribe of Indians, British Columbia, are no longer "poor." Every head of a family in the tribe is to receive $10,000 cash. There are about forty-five of them. The Province of British Columbia is to pay it. Their reservation within the limits of Victoria has been transferred to the Province. A new reservation will be given the Indians in return, the old one going to the Province. The Indians get the money in actual cash; it will not be placed in a trust fund.

RAILWAY CONSTRUCTION

Engineers have been instructed to begin at once on the location of the Canadian Pacific Railway line from Glentay, sixteen miles west of Smith's Falls, to Toronto, and it is expected that this railroad will be in operation in about two years. Steel will be laid on the new railway from Victoria Harbor to Bethany, near Peterboro', this year, and before the snow flies it is expected that wheat will be hauled from that harbor.

Electricity for Farmers

The Ontario Government is sending officials to Europe to study the application of electricity to agriculture, with a view to extending to the rural communities the benefits of the hydro-electric system.

RICH, BUT NOT IDLE

Mr. John R. Booth, the millionaire lumberman of Ottawa, is in his eighty-sixth year a few days ago. He celebrated his last birthday by going out for a hard day's work at an hour when most younger men were still in bed. Friends who sought to congratulate him found him employed and entered like any of his workmen. Mr. Booth was born at Waterloo, Que., on April 5, 1826. He went to Ottawa fifty years ago, and started out with a small shingle mill at the Chaudiere.

GREEN GOODS SWINDLE

Some United States Crook is Operating a Bank Note Scheme

A system of swindling is being operated in various parts of Canada by men who are commonly known as "green goods men." A large number of farmers have had letters sent them by some person in the United States offering to sell bundles of counterfeit bank notes which, the writer said, he had made. The writer of these letters has represented himself to be an expert engraver, formerly employed by one of the bank note companies, and that he had produced plates duplicating one, five and ten dollar bills. He would try to make an appointment with his intended victim. Should he succeed in doing so the procedure is for the writer of the letters to meet his victim at some place over the line, and show him a genuine bank note as a sample of his work. If the victim decides to purchase a quantity of these so-called "duplicate notes," he is shown a package of genuine bills or a package faced with a genuine bill, which is afterwards exchanged for another package of worthless paper. In the event of this game succeeding, there is no redress for the victim, as it is an offence against the law for a person to attempt to purchase counterfeit money. The fact that the green goods man conducts his operations from points outside of Canada covers his trail very completely, and makes it almost impossible for the police to secure an arrest.

SKIN GRAFTING CASE

An extraordinary operation was performed at Victoria Hospital, London, by Dr. Edwin Seaborn, on William Hayden. The man had the misfortune to lose the lower part of his nose, and his index finger was fastened to the bone of the nose so that it will grow on. In a short time the finger bone will be amputated at the proper point, and with the use of some of the skin of the finger the nasal organ is expected to resume something like a normal appearance.

MINISTERIAL SALARIES

At the Presbyterian Synod in Woodstock it was reported that less was being donated now for ministers' salaries than five years ago. This was considered unjust, and the dearth of ministers was attributed to the small salaries paid. One of the lay delegates urged the adoption of a system to fix a minimum of $1,200 a year, with a parsonage for the pastors.

Solidified Gasoline

Solidified gasoline for automobiles is a stiff white jelly in block form, which is converted into liquid by the addition of 1% per cent. of alcohol and sesptone. Space economy is the advantage claimed.

[redacted]

NOTICE TO CONTRACTORS. TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope "Tender for Station Buildings" will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.

Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.

Section 3.—From Mile 5 to Mile 105 east of Quebec bridge.

Section 4.—From the Quebec bridge westward to Mile 45.

Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.

Section 6.—At Cochrane in the Province of Ontario.

Section 7.—From the divisional Section 8—From Moncton to Napadogan, in the Province of New Brunswick.

Section 9.—From Mile 126.5 to Mile 159 west of Moncton.

yard at Graham, Ontario, eastward for a distance of 66 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.

Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.

Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario,

Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.

Dated at [redacted], this 12th day of May, 1911.

Newspapers [redacted] this advertisement without authority from the Commissioners will not be paid for it.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realizing handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK
429 Pender St., W., Vancouver, B.C. Phone 871

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $900 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of it is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some idea about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

OCEAN COURTSHIPS

Many Girls Coming to Canada to Find Husbands May Fall in Love on the Big Liners

"It is on the cards that some of the girls who are going to Canada in quest of husbands will find them before they get there," said an official of a well known line of steamships, according to Tit-Bits. "They may discover that affinities among their fellow passengers or the officers of the boat.

"Most of the big companies forbid their officers to hold intercourse with passengers, and particularly lady passengers; but I know three officers who first made the acquaintance of their present wives as passengers. There was, too, a case in one of the best-known services a few years ago of a surgeon marrying a rich American lady whom he met for the first time on his ship.

"As for the passengers falling in love—well, considering the opportunities, it is not surprising. We had a young lady who was going somewhere in Canada. When the boat reached New York the immigration officers would not allow her to land, as she was unaccompanied. It then turned out that on the way across she and another second-class passenger—a respectable mechanic—had come to an understanding. So the difficulty was overcome by their going to the city hall, obtaining a marriage-license, returning to the ship with the parson, and getting married in the library.

"A few years ago, I remember, a girl was sent for to join her affianced in Canada. She landed at Quebec all right, but left the train at Montreal and vanished. It was discovered that she left the train there because her luggage was in the office in her own name. Well, there was a big hunt for her, and her fiance—who, I should say, had sent her, while she was still in England, enough to pay her passage and meet other expenses—was naturally much distressed. At last the mystery was solved. She claimed her luggage in the name of Mrs. ——. Now, the name was that of a man who had been among her fellow-passengers."

MONEY IN TOBACCO BOX

Brighton Farmer Hid It Then Forgot It

William F. Firman, a wealthy farmer of Brighton, Ont., seven years ago hid a tin tobacco box away in his barn. In the box were a number of bank notes. After putting the box and money away Mr. Firman forgot where he put them. Recently he remembered, found the box, but the money was a sight. They were waterscaked and apparently destroyed.

The notes had become blackened and rotten, and any attempt to separate the bills resulted in their falling to pieces. As he himself could do nothing, he went to Toronto and consulted Mr. Ira B. Thayer, an old acquaintance ,who introduced him to Mr. J. S. Loudon, Assistant General Manager of the Standard Bank of Canada, who generously undertook the task of finding out the denominations and the banks issuing the bills. Several days were spent in the work, but finally it was discovered that the bills were two of the Bank of Nova Scotia, two of the Canadian Bank of Commerce, one of the Molson's Bank, one of the Dominion of Canada, one of the United States of America, one Dominion Bank bill, one of the Banque de St. Hyacinthe, one of the Bank of Montreal, and one of the Bank of New Brunswick.

There were other bills so far gone that it was impossible to make out the names of the banks that issued them. However, Mr. Loudon succeeded in returning to Mr. Firman $145 of the money thought to have been destroyed.

CATHOLIC YOUNG MEN

A Catholic Young Men's Association was organized at Fort William and twenty-five thousand dollars collected for organization purposes. The object is to cater to the moral, mental and physical wants of boys and young men, and to make the association a national one.

FIGHT THE HOUSE FLY

The Necessity of a Campaign to Exterminate the Pest

This is a question that comes to the fore every year as regularly as summer approaches. Instead of being regarded as a necessary evil, as was the case some years back, movements are at last being set on foot to systematically exterminate the pest, but even now the majority of people do not realise what a menace to life and what a terrible disease-breeder it is. Screens are all very well to keep the flies out of our buildings, and fly-paper and other exterminators undoubtedly fill their own place, but what ought to be impressed upon the public is the stern necessity for removing the causes that breed flies. This is one of the cases where entire prevention is the only means of cure, and cleanliness seems to be both the beginning and the end of the house fly problem.

Across the border a systematic plan of campaign has this year been adopted. Cash prizes are being offered to the pupils of the public schools in many of the cities for the best essays on "The House Fly as a Carrier of Disease," in the belief that in this way children and parents both will become familiar with sanitary principles. Florida, Tennessee, and Louisiana have all adopted the prize plan, and the Kentucky Federation of Women's Clubs has signified its approval. In North Carolina a "Fly Catechism" is been distributed containing questions and answers such as this specimen one: "Do flies ever kill anyone? They killed more American soldiers in the Spanish-American War than the bullets of the Spaniards." Travelling fly-exhibits are being put on view, and insurance and other business companies are issuing special circulars containing fly facts. Within the last few months New York and Boston and other large cities have passed regulations providing for screening from flies and dust all food, candy, etc., offered for sale.

If we had no stables, and no sewage discharging into open waterways, two of the great causes of the fly pest would disappear, but as we are likely to have both for some time yet, we must make our rules fit the situation. If every housewife would realize the seriousness of the question and try to live up to the full extent of her own responsibility (such as keeping garbage cans covered, and when empty sprinkling them with lime or kerosene, keeping the back yards empty of all refuse, using every means to kill all flies that get in past the screens), much could be accomplished by the women alone in minimizing the fly evil.

VICTIMS OF CONSUMPTION

Since the first of the year, there have been 323 deaths in Montreal from tuberculosis and 500 cases have been reported to the authorities.

Dr. Laberge, health officer, speaking of the large number, says the increase is not so much that the disease is growing, but that the doctors are reporting the cases better than they did before.

BONES AND SKULLS WERE UNEARTHED

Fourteen Skeletons Were Turned Out of a Trench Near Weston by Cellar Diggers

Bones and skulls, comprising fourteen skeletons, possibly of Indians were dug up by a road-scraper at Weston shortly after excavation had been commenced for the foundation of a new Presbyterian Sunday school hall. A remarkable fact in connection with the accidental discovery of the skeletons is that they were only eighteen inches below the surface.

The reasons for the conclusion that the bones were those of Indians are many. The Weston road, which runs along beside the scene of the find, was, according to history, formerly an Indian trail. It is also close to the east bank of the Humber River, which in earlier days was navigable for flat bottomed boats and canoes. An examination of the skulls themselves reveals unmistakably aboriginal anatomical features. Two years ago a skeleton with Indian beads was unearthed just off the main street of Weston, and four or five years ago the skeleton of an Indian chief was found wrapped in a blanket. The contractor for the excavation work says that while a scraper was at work on a drain being run through the property, he noticed some bones in the earth disturbed. The next turn of the scraper unearthed more bones and skulls, and before the ditch was finished fourteen skulls were found.

One resident says the skeletons were not those of Indians, but the bones of gallant Canadians who fought in the *Rebellion of 1837* or the War of 1812. He said that many lost their lives at Weston during the former trouble and that there were so many fatalities that, instead of burying the bodies in separate graves, the people dug a trench and threw them all in together.

The bones and skulls are pretty well preserved and look as if their age should be measured, not by centuries, but by decades or years. An examination of the teeth in some of the jawbones shows them to be in a state of perfect preservation. They look sounder than a lot of the teeth being used in 1911 for purposes of mastication. The skeletons, as an examination of their relative positions before being taken from the ground showed, indicated that the bodies at the time of interment were thrown into the trench together without any orderly arrangement.

No Race Suicide.

The way the potato bugs are commencing to materialize would indicate that there is sure to be a good crop this season. A citizen informed The Times yesterday that he has some early potato vines from which he picked several hundred bugs of variegated colors. He then quit counting, on the assumption that the census enumerators would finish the job.

O'Keefe's PILSENER LAGER

Of course, O'Keefe's "Pilsener" is pure, sparkling and wholesome. But you drink lager for pleasure, as well as for health, so we make O'Keefe's "Pilsener" unusually delicious as well as unusually good. Insist on having O'Keefe's.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 50 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 50 volumes and handsome sectional bookcase will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 50 volumes to the schools, lodge society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough, having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily, and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be issued:—

Style Store for Men
H. LeBRUN & CO.
High Class Ready to Wear Clothing and Men's Furnishings.

WHOLESALE AND RETAIL WINE AND SPIRIT MERCHANT, 709 YONGE STREET, TORONTO

According to Government Estimates

$100,000,000.00

Was Made in Western Town Property During the Year 1909

Did you anticipate in these huge profits as did you "pigeon-hole" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at $100 or $500, and now it is worth $10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from $50 to $100 each, or are you going to be the man who will have from $1,000 to $10,000 in cash as a result of having bought property in this town in this year of grace, 1911?

POE A COMING COMMERCIAL CENTRE

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to rivers and lakes and large forests are easily accessible from this point. These natural resources insure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forests furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost.

The town is located on the main line of a transcontinental railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

Poe townsite was recently placed on the market and already over 200 lots have been sold and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada who are now profiting by their foresight.

The townsite is high and dry and very suitable for building purposes.

OPPORTUNITY

is useless unless you possess the courage to act. You might possess great wisdom, you might read a good deal or travel much and thus see all kinds of opportunities to make money, but unless you have the courage to act on your judgment and wisdom all of these desirable qualities are entirely useless.

Lots in Poe are a good investment at present price. The town is bound to grow rapidly. Owing to the easy terms of payment you have the ability to buy and if you do not buy now it is because you are lacking in courage, and the chances are you will never be like the man you now admire most, rich, courageous and wise.

TORRENS TITLE.

Poe townsite is held by us under the Torrens system of title. Under this system the title is guaranteed by the Government, therefore absolutely safe.

PRICES AND TERMS.

Prices of lots range from $50 to $100 each, and they can be purchased on terms of one-tenth cash, balance in eighteen equal monthly payments; or quarter cash, balance in six, twelve or eighteen months.

INFORMATION

We have issued an attractive circular giving full information pertaining to the town and its prospects, together with map showing lots for sale. If you wish to receive this attractive circular cut out and fill in the attached coupon and mail it to us to-day.

INFORMATION COUPON

Gentlemen,—With a view to buying property in Poe, Alta., please send me full information with map and price list, and oblige,

Yours Truly,

Name .....

P. O. and Province.....

THE WALCH LAND CO.

Lands, Townsites and Investments

NORTHERN CROWN BANK BUILDING, CORNER PORTAGE AVENUE AND FORT ST., :: WINNIPEG, CANADA

The Morning Times

SATURDAY, JUNE 3rd, 1911.

THE FRENCH BIRTH RATE.

It is indisputable that the French are among the most resourceful and ingenious people in Europe. The fact is clearly demonstrated in their statistics of births and deaths recently made public. Since their birth rate does not increase, Frenchmen are refusing to die. Thus are they preventing too unfavorable a ratio of births to deaths in the republic.

In 1910 there were approximately 70,000 more births than deaths, but the excess was due to the fact that there were only 793,771 deaths last year, whereas in 1900 the deaths numbered 853,295. The birth rate per 1,000 population was 21.2 in 1900 and only 19.7 in 1910. But the death rate has declined in greater ratio, having been 21.9 per 1,000 in 1900 and 17.9 per cent. in 1910.

Much comment has been caused in recent years by the falling birth rate in France. It is evidently the result of prudence, and one great cause is the unwillingness of the peasants to have more children than they can provide for comfortably by subdivision of land, farms having been reduced to the minimum limit of subsistence. But French statesmen may now take courage. Patriotism, always strong, has come to the rescue of the nation in a successful attempt to preserve the living. There has been, too, an increase in the number of marriages, certain restrictions and formalities having been removed by law.

INS AND OUTS

The Examiner printed a paragraph the other day which stated that 'two trains running wild caused several persons to be injured in Illinois a few days ago.' This g.f.j. would suggest that all trains should be thoroughly tamed before being allowed out alone.

• • • •

The Review says that if the rebels catch Mexico's President they will shoot him off hand. He will thus Diaz a hero.

• • • •

The great fog which enveloped Peterborough's industrial horizon has lifted somewhat. It won't be mist.

• • • •

It gives us a terrific shock every time we hear our friends praise our enemies.

• • • •

Our little Hunter street contemporary recently printed an article on Hell. This g.f.j. hopes the editor was not handing out inside information.

• • • •

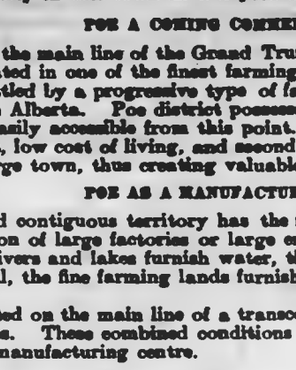
A writer in a contemporary says it is embarrassing to have to write home for money. Which, doubtless, is true, but it's a whole lot better than walking.

Sufferers from disordered digestion and a debilitated condition of the stomach and liver can be cured by the use of Chamberlain's Stomach and Liver Tablets. Try it. For sale by all dealers.

OUR PUBLIC SCHOOLS

A Lindsay Physician Says They Should Aid Morality More

Dr. White, of Lindsay, strongly criticises the public schools for failing to help public morals and public health. "The schools are not," he says, "the aid to public morals that they should be. Immorality is more prevalent in the schools, and, consequently, out of the schools, than it ought to be, and the time for education in this regard is not fully taken advantage of. The school, too, is not the aid to public health it ought to be. Teachers do not know enough about these matters, or, if they do know, they do not impart it to the young mind when it is most likely to receive and assimilate it."



SILVER DAWN

Owned by Mr. Æmilius Jarvis and exhibited at the Toronto Horse Show. This horse was imported recently.

RANG CHURCH BELL

Imprisoned, He Startled Kingston Suburb at Midnight

The Village of Portsmouth was startled recently at midnight by the ringing of St. John's Church bell. Fearing the village was on fire the residents rushed into the streets. Investigation showed that the bell was rung by the organist who had been practising late, and who had been locked in the edifice. He pulled the bell rope so as to be released.

PEACE RIVER COUNTRY

Fort Vermillion Says It Is Adapted to Mixed Farming

Sheridan Lawrence, Fort Vermillion, writes as follows of the Peace River country: "We have a great country for mixed farming, our great drawback being want of a market for produce. I have some six thousand bushels of wheat on hand, good stuff, some being raised five years ago. This last summer's crop was frozen, so was not cut at the right time.

"The majority of farmers here are farming in a small way, and sell for what they can get as soon as threshed to the threshing companies, price ranging from 75 cents to $1.25 in trade.

"If you buy flour it is $5 to $6 per cwt., sugar $20 per cwt., nails $18 per cwt., dry fruits, at a bargain, four lbs. for a dollar, and everything else accordingly, so the margin is small for the farmer."

COMEDY AND TRAGEDY

The Grim Circumstances of a Death in Montreal

While her husband was deliberately building a trap and arranging a noose to hang himself, Mrs. Jos. Bourdon, in wild alarm, went to the Recorder's Court office, Montreal, and asked the officials to intervene, to arrest him, or do anything to save his life. She did not have $3 for a warrant, so the officials sent the man a letter asking him to explain his conduct. That was the best thing they could think of. Bourdon was found hanging to the noose and quite dead. Many hours after he had tightened the noose about his neck a bailiff leisurely approached the house at 1118 C. Papineau Avenue, with the official document, asking Bourdon to explain his conduct. His widow had to explain that Bourdon was dead.

MILLIONS OF JUNE BUGS

Farmers in Middlesex County report that in their spring plowing they found the earth teeming with millions of June bugs, which do great damage to basswood, plum and cherry trees. The beetles lay their eggs in the ground, and after hatching, the insect, known as the white grub, eats on the roots of grain for three years before emerging as the June bug.

LAST SPIKE DRIVEN

The last spike completing the Copper River and Northwestern Railway between Cordova, on tidewater, and Kennecott, where the Bonanza copper mountain is situated, has been driven. Work on the railway, which is 197 miles long, and cost $30,000,000, was begun Nov. 15, 1907. The construction of the road was one of the most remarkable engineering feats of modern times.

GOLD AT KENORA

Excitement is running high at Kenora over the results of the development work in the Ophir Gold Mine. At 100 feet depth, the vein is twelve feet high with an enormously rich streak three feet wide. Visible gold is found in the All Party vein and the streak is producing specimens showing nuggets, leaves and wires of solid gold ever seen in this or any other district.

PENSIONS OF PEERS

Some Sums English Taxpayer Pays to Aristocracy and Others—Interesting History

For more than 300 years the heirs of Lord d'Auvrequerque have been drawing comfortable pensions for something an ancestor did 317 years ago. It was in 1694 that William III granted to Henry de Nassau, Lord d'Auvrequerque, his heirs, and assigns for ever, the sum of $16,000 a [illegible] and faithful services"—which, in fact were those of a purely hominal political nature. Lord Cowper, to whom the fourth in of this yearly sum was paid, commuted a portion of it in 18[illegible] for $200,000 down, but his heirs still receive $1,875 annually.

There is the case of the Schomberg pension, granted also by William III. He burdened the State with the sum of $20,000 a year to the Schomberg s; and, though portions of this have been commuted by descendants, England still pays out $3,600 annually to people who, it is alleged, are not in any way connected with the original Schomberg family.

Earl Nelson gets $25,000 a year through holding the Nelson title and representing the famous admiral's family—in the indirect line. In a like manner Lord Rodney gets $5,000 a year, but he is the direct descendent of the gallant seaman who defeated De Grasse.

The largest of the perpetual pensions is that received by the Duke of Richmond. It amounts to $65,000 a year. The story of this pension takes one back to the days of Queen Elizabeth, who got a duty of one shilling per chaldron on all coal exported from the Tyne and burned in England. Her successor held this duty until the reign of Charles II., who granted it to the first Duke of Richmond. He and his heirs received it for over a century, till in the time of George III. it was changed to the present annual pension, which is known as the Richmond Shilling.

The Duke of Norfolk obtains $300 a year from the Exchequer for what are known as "ancient fees," and the Duke of Rutland $100 under a like heading. These sums are nominal, it is true, yet the recipients do nothing whatever to earn them.

The first Duke of Grafton was granted by Charles II. a certain import duty known as "prisage and butlerage" upon wines. In 1806 the then existing duke commuted this duty for the annuity of $34,350, and his heirs still receive yearly this handsome income.

But it is not to be supposed that it is only the aristocrats who have been granted free pensions on the national Exchequer. Seventy thousand dollars odd is paid out on account of the Courts of Justice for compensation to those whose offices have been abolished. One old man is still alive who obtains $275 a year because through the operation of a new Act he was deprived two generations ago of the privilege of selling forms in court. Laundresses who lost their work some twenty years ago through the Law Courts being removed from Westminster to their present site opposite Temple Bar still receive from $400 to $550, according to their status. A "Preacher at Rolls," formerly of the old Chancery Division, is paid $500 annually, though not a sermon has he preached for innumerable years; and there are many other instances in which the taxpayer is called on to pay every year.

BURGLARS' MESSAGES

Scotland Yard Detectives Never Solved a Certain One

It is a fact not generally known that professional "crooks" frequently use cyphers of their own invention in order to communicate with their confederates. Quite a number of these are preserved in the "Black Museum" at Scotland Yard, and all of them have been deciphered—save one. This solitary exception, which has baffled all the experts, was found on a burglar named Macdonald, who was sentenced some time back at the Old Bailey to twenty years' penal servitude for the attempted murder of Detective-inspector Hooper and other officers by shooting at them with a revolver while he was being taken in a four-wheeled cab to Euston Station in custody.

The Foreign Office, the Secret Service, and the Home Office experts have all in turn tried their hands at it, but without success. Yet it is known to be a genuine cryptogram, and not a mere meaningless jumble of signs and letters.

Its construction must be very elaborate, for many of those that have been deciphered are of exceedingly intricate construction. One took six weeks to unravel. It was worth the trouble, however, for it revealed the clue to the hiding-place of $18,000 worth of stolen jewellery.

A FIGURE FREAK

Here is a little freak in figures which will interest you, and help you to entertain your friends:

Put down the number of your living brothers.

Double the number.

Add three.

Multiply result by five.

Add number of living sisters.

Multiply result by ten.

Add number of dead brothers and sisters.

Subtract 150 from result.

The right-hand figure in this total will be the number of deaths.

The middle figure will be the number of living sisters.

The left-hand figure will be the number of living brothers.

Artificial Camphor

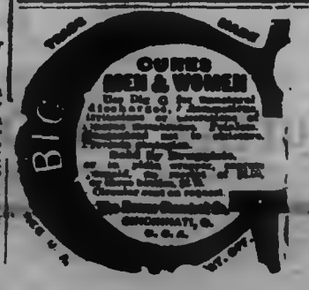
There is now in operation in New York State an artificial camphor factory, the product of which is intended to compete in the market with the natural substance. It is maintained that it does not differ, except in the manner of its origin, from that extracted from the camphor trees of Formosa.

HUNDRED YEARS OLD

Mrs. Maria Lloyd, Aurora, was the Centre of a Great Celebration

A unique birthday party was celebrated in Aurora. Mrs. Maria Lloyd was the centre of the fun, for she was 100 years old that day. Strong, vigorous, cheerful, she proved the life of the party, with a mind as bright and a memory as fresh as that of a young girl. One hundred years ago Mrs. Lloyd's name was Walker, though she was a very wee member of the family, being born on April 14, 1811, in the good old County of Tyrone, Ireland. In 1832 the family sailed [illegible] and emigrated to the woods of Canada. The voyage took the ship over nine weeks. They settled first near Thorncliffe, then up in King Township, near Hollidtown north of Middle York, and she remembers the old pioneer days of upper Yonge Street perfectly. In 1831 she married Mr. William Lloyd, a York County pioneer farmer. During the rebellion of 1837 she became a personal friend of William Lyon Mackenzie, and her house was looted by the loyalists in search of arms. All they got, however, on that occasion was provisions.

In 1879 occurred the death of her husband, since when Mrs. Lloyd has resided at Aurora with her daughter Mrs. James Carter, where the party was held on Good Friday. At the supper table that evening were seated with her six persons whose combined ages with Mrs. Lloyd's, amounted to 600 years! There are ten of Mrs. Lloyd's children still living, and thirty children and fourteen great-grandchildren are on to perpetuate the traditions of Lloydtown and her memories of the early days of the North York pioneers.



MUNICIPALITY OF NORTH MONAGHAN

COURT OF REVISION

Notice is hereby given that the first sitting of the Court of Revision for the Township of North Monaghan, will be held in the Town Hall, on Monday, the 5th day of June, 1911, at two o'clock in the afternoon.

Those interested are asked to attend.

G. W. BENNETT.
Township Clerk.

North Monaghan, May 20, 1911.

NOTICE

Sealed Tenders endorsed "Tender" will be received by the undersigned up to two o'clock p.m.

JUNE THE FIRST, 1911

for the following:—

Scrape and remove all old paint and rust, etc., and repaint the Locks Bridge, on the boundary between the city and North Monaghan. The county will supply material (paint and oil). All work to be done properly and securities for the proper carrying out and completion of work, to the satisfaction of W. G. Howden, chairman of the Roads and Bridges committee.

The lowest or any tender not necessarily accepted.

A marked check for $25.00 must accompany each tender as a guarantee for the proper execution of contract.

ED. M. ELLIOTT,
County Clerk.

Peterborough, May 22nd, 1911.

ADVERTISE IN THE TIMES.

PUBLIC NOTICE

NOTICE is hereby given that pursuant to the provisions of The Consolidated Municipal Act, 1903, the Council of the City of Peterborough, intends at a meeting thereof to be held at the Council Chamber in the City of Peterborough, on Monday, the third day of July, 1911, at the hour of 8 o'clock P. M., to pass a by-law to stop up and close that part of Water Street, in the said City of Peterborough, formerly known as the River Road, as shown on Registered Plan No. 14 for the City of Peterborough, described as follows:—that is to say—Commencing at a point where a concrete monument is planted in the easterly limit of said Water street at the distance of twelve hundred and fifty-nine and nine-tenths feet measured north 14 degrees 9 minutes east astronomic along said easterly limit of said Water Street, from its intersection with the northerly limit of Hilliard Street, where another concrete monument is planted—thence north 11 degrees 34 minutes east, a distance of one hundred and seven and four-tenths feet — thence north 7 degrees 38 minutes east a distance of ninety-two and four-tenths feet—thence north 4 degrees, 31 minutes east a distance of one hundred and fifty-nine and five-tenths feet—thence north 8 minutes east a distance of eighty-eight and eight-tenths feet—thence north 6 degrees 59 minutes west, a distance of ninety-two and two-tenths feet, thence north 10 degrees, 17 minutes west, a distance of two hundred and twenty-six and five-tenths feet, more or less, to where another concrete monument is planted in the easterly limit of said Water Street and thence southerly following along the easterly limit of said Water Street and the westerly limit of the property of the Auburn Power Company of Peterborough (Limited) to the place of beginning, and containing by admeasurement seventeen one hundredths of an acre more or less and shown on the plan filed in the office of the City Clerk by the portion colored red; and when so closed up to convey the same to The Auburn Power Company of Peterborough (Limited) the owner of the land adjoining said street on the east for the consideration that the said Auburn Power Company will lay a main in its proposed new dam across the River for the use of the City and the Water Commissioners from the eastern limit of said Water Street to the property of The Auburn Woollen Company, Limited, on the east side of the River.

AND ALSO to grant to the said Company on payment of $1 per year the right to use a further part of said Water Street to extend the westerly face of a proposed concrete revetment wall westerly under the said street at the slope or batter of not more than one foot horizontal to one and one-half feet vertical, to the full depth of the said proposed concrete wall; the westerly edge of the top of said wall to be on, or easterly of, the westerly limit of the above described land; as shown and described on a typical diagram, or cross section of the proposed wall filed in the office of the City Clerk.

AND TAKE NOTICE that at the said time and place the Council will hear in person or by Counsel or Solicitor any one whose land might be prejudicially affected thereby and who petitions to be so heard.

Dated this 19th day of May, 1911.

S. R. ARMSTRONG.
City Clerk.

How to Tell Catarrh

As Experienced Physician, Says the Following Symptoms are Sure Signs.

You can always tell catarrh by the following well known signs:—

Eyes red and watery?
Difficulty in breathing?
Are the nostrils stuffy?
Do you sneeze frequently?
Is your throat hoarse?
Do you spit phlegm?
Oppression in the chest?
A ringing in the ears?

If you have any of these indications of catarrh cure the trouble now—stop it before it gets into the lungs or bronchial tubes—then it may be too late. The remedy is "Catarrhozone," a direct breathable cure that places antiseptic balsams and healing medication on every spot that's tainted by catarrhal germs.

There can be no failure with Catarrhozone—for years it has successfully cured cases that resisted other remedies. "No one can know better than I the enormous benefit one gets from very first day's use of Catarrhozone," writes T. T. Hopkins, of Westvale, P.Q. "I had for years a stubborn case of Bronchial Catarrh, ear noises, headache, sore eyes, stopped-up nose and throat. It affected my appetite and made my breath rank. Catarrhozone cured quickly."

Get Catarrhozone, use it and you are sure of cure—beware of imitations and substitutes. Large size Catarrhozone with hard rubber inhaler lasts two months and is guaranteed. Smaller sizes 25c and 50c. By mail.

Strawberry Festival.

The 57th Regiment Band announce that they will hold a concert, strawberry festival and social in the Riverside Park on the evening of Friday, June 23. The directors of Riverside Park have kindly placed the beautiful grounds at the disposal of the band, and it should be an ideal place for the holding of such an event. Further announcements will be given later.

The Times at Summer Resorts.

Readers of The Times leaving the city during the summer months, may have The Times mailed to any address, during their absence. Orders left at the Times' bookstore will receive attention.

ADVERTISE IN THE TIMES.

VICTIM OF BATH TUB TRAGEDY HAD A RIVAL IN GIRL "ANNA"

New York, June 2.—Under arrest on a technical charge of operating an automobile without a license, Harry A. Scheib, a chauffeur, whose wife's body was found in a bathtub in apartment number 23 at the Modern Tenements at No. 511 East 78th street on Monday, in circumstances which mystify the police, has been removed to the tombs, following his dramatic identification of the body at the city morgue. It is believed Mrs. Scheib had been dead since Christmas.

Reports that the woman was a member of a wealthy Massachusettes family and that she had married Scheib against her parents wishes, came from Springfield last night. She is believed to be Elizabeth O'Grady, daughter of a wealthy Springfield publisher.

The name of another woman was brought into the case last night with the discovery of a letter, dated New York, April 19, found in Scheib's room at No. 2066 Broadway, care of Cimotti's Garage. So important was the letter considered by the police, that they sent half a dozen detectives out at once to find the writer "Ana" who seems to have had an intimate knowledge of affairs in the Scheib family. The letter follows:

"ANNA'S" LETTER.

"My Dear Henry:—I received a telegram from my sister this morning stating that my mother was very sick and that I should come home, so I a mtaking the first train. I tried to get you on the 'Phone this morning, but you were not around. I wanted you to see me to the train, dearie. I do wish I could have seen you before I went, as I do not feel a bit sure of you and it worries me.

"You know my boy you can trust me . . . I do not feel envious of your wife, but I am glad that you can see me, too. Oh, dear, I don't know what I am driving at, so I will not try any further. You told me you enjoyed yourself Sunday night, but I want to have you tell me again so do in your next letter. I am going to send you some things to care of for me as soon as I get home.

"Please, Henry Dear, be good until I get back to you, won't you? I will be back as fast as I can and that will be very shortly. I will write to you as soon as I arrive home and tell you many more things. At present my mind is all mussed up and has been since Sunday night.

"Oh, dear boy, I wish I were with you now, and will be soon, too, and then for keeps.

"But dearie, do not worry as I will not get you into trouble with your wife. That is why I let you know all about my folks so that you can get square with me in case I make trouble for you. Now, so long, my boy, and write to tell me that you are very, very fond of me. With all my love and kisses, thoughts and soul, I am yours,

ANNA.

"P.S.—Will send you an address to write to.'"

"That's my wife all right," Scheib exclaimed coolly when he was permitted to view the body at the Morgue. Suddenly he burst into tears, and begged to be taken away. He said he would attend to the burial if he was allowed to do so.

Later Scheib dictated a statement to Coroner Herman Hellenstein making certain statements which the police are seeking to verify.

It developed yesterday that Mrs. Scheib was a talented musician and singer and that she was a daughter of a business man of Springfield, Mass. Scheib told his friends that she had studied at Wellesley College, and after a short engagement was married to him in Jersey City. According to Scheib, she was jealous of him and caused him much annoyance.

WAS WRITING A STORY.

Among the effects of the dead woman was a roll of manuscript which showed she had dabbled in the works of famous philosophers and liberal writers and was contemplating the writing of a story or novel. There were about forty sheets of copy paper in the roll. Everything was written in lead pencil.

On one of the sheets was a draft of a novel, headed, "A Woman Story." Under it was the word "Beware." Then this foreword: "This book contains an immoral story that is not to be read by persons whose morality is wobbly. It is not written to harm innocent minds, nor to glorify evil, but it is just to tell a true story to those who are strong minded enough not to be led into evil through it, but who are interested in the study of character and social conditions. It is meant as a horrible example, and the moral is evident all through the tale."

PRISONER'S STATEMENT.

"To cure her of the habit of complaining," Scheib said to Coroner Hellenstein, "I took her to Amityville, L.I., last year, where I got a job as chauffeur, but was out so much of the time that my wife complained more than ever. So we came back to New York, and on September 9th 1910, we rented a three-roomed apartment at 511 East 78th street."

Scheib went on to say that for a time his wife ceased her protests, but about Christmas she became jealous again and he decided that he would no longer attempt to mollify her. He said she frequently left him and visited with friends about town and would remain away for several days at a time. The names of these friends he did not disclose.

"She was a Suffragette," said he, "and was constantly talking about the rights of women. On February 2nd, after a quarrel with my wife, I returned home and found that she had left me again. She wrote that she could not endure my conduct any longer. I did not want the residents in the house to know that we didn't get along well together, so I reported that she had gone to Cleveland, O., to visit a relative. I then paid the room rent to Mr. Smith, the Watchman, and did not enter the apartment until April 15th, when I spent the night there. I expected my wife would return at any time and feared that if she found our apartments occupied by others she might do something desperate. So I continued to pay the rent regularly until three weeks ago, sometimes paying it in person or sending the money by messenger."

Inquiry among the dwellers in the Modern Tenements, where the couple lived, developed that Mrs. Scheib was not seen by any one after Christmas, nor was Scheib seen after December 31st.

DENIES THE CHARGES.

In view of the charge laid before the Committee of the Whole Council, Wednesday evening, that the Brock street Roller Rink is a nuisance to contingent residents, we publish the following letter of denial:

Sir,—I wish to reply through your paper to some of the statements made at a meeting of the committee of the Whole Council on Tuesday night in reference to the Brock street Roller Rink. As manager of the rink, I wish to state emphatically that there has been no rowdyism or unseemly conduct within the rink; in fact it is one of the best conducted rinks in the province and the slightest sign of ungentlemanly conduct results in the expulsion of the offender. The statement was made that we have only three tunes for our band organ. As a matter of fact we have nearly thirty. Once again, it was stated that one of the police force had opened and closed the rink the other night. This is an impossibility, as I alone carry the key to the rink and open and close the building myself every evening. Hoping that these explanations will show that the statements in question were rather long drawn, I remain,

Yours truly,

L. E. Pitcher.

A Fountain Pen

Practically Given Away

The Times has arranged for a supply of the famous Diamond Point Pens "Safety Clip" 14 karat Solid Gold Fountain Pens, which will practically be given away to our subscribers. 20 coupons cut from The Times, together with 75c in cash will get you your choice of these three splendid pens.

The holders are made with pearl and gold bands, and all gold full chased, gold filigree, or full mounted German Filigree, similar to illustrations, and are fully guaranteed by its makers, there being a guarantee certificate with each pen.

COUPON.

Twenty of these coupons cut from The Times and presented at The Times Book Store with 75c in cash, will secure one of these splendid 14 kt. Solid Gold Rimmed Fountain Pens.

Cuban Grape Fruit Groves Pay Enormous Dividends

A SAFE AND SURE INVESTMENT

Ninety miles west of Havana lie the beautiful Manhattan Estates in the heart of Cuba's most profitable and bountiful section. We intend, with your co-operation, to develop 502 acres of this wonderful sandy soil into a prosperous and self-sustaining institution of rich agricultural products.

It requires a large amount of money to go into this business properly, and it takes considerable time for the grape-fruit trees to mature.

When they are three years old they will each bear on an average one box, which is worth not less than one dollar on the tree. The fourth year we average three boxes per tree, which means $4.00, and this continues until the seventh year, when the average from a tree amounts to between seven and twenty crates; retailing in the Canadian and American markets as high as $10 a crate.

But bear in mind that these trees in full bearing will not have cost more than five dollars each, consequently once maturity is arrived at the profits are continuous and tremendous.

As we intend planting over 40,000 grape-fruit trees, you can readily see that 100 per cent. annually is a conservative estimate.

We Pay Our Way As We Go.

During the past year I have placed many dollars' worth of stock, mostly amongst my relatives, personal friends and business acquaintances. I HAVE TOLD THEM WHAT I HERE REPEAT TO YOU, that I am giving the affairs of this company, and will continue to give them, as careful attention as if I owned the whole company, and I AGREE NOT TO RECEIVE ONE CENT OF SALARY for my services until after I have made the company pay you DIVIDENDS OF TWENTY-FIVE PER CENT. ON EVERY DOLLAR YOU INVEST WITH ME IN THIS ENTERPRISE.

When you and I receive twenty-five per cent. on our investments, I will not need a salary, and right here I want to state that we have agreed that NO SALARY SHALL BE PAID TO ANY OFFICER until at least twenty-five per cent. dividends have been earned and paid to all our stockholders.

Further—we have no bond interest to meet; we do not even have to pay any taxes until we have an income. EVERY DOLLAR RECEIVED WILL BE USED FOR THE DEVELOPMENT OF THE COMPANY'S PROPERTY.

Commercial grape-fruit orchards are wonderful wealth-producers.

I want to draw a check to your order for 100 PER CENT. DIVIDENDS EVERY YEAR, and I not only want to do it, but expect to do it.

I have thoroughly investigated the possibilities for profit in growing grape-fruit on a large scale, and have seen the actual results accomplished.

YOUR MONEY SHOULD WORK FOR YOU AS HARD AS YOU WORK FOR IT, and I am desirous for this reason that you know the grape-fruit industry as I know it, and I want you to send for our booklet de luxe, fully illustrating and describing this wonderful and prosperous industry.

(Signed) S. J. MURPHY.

STATUTORY INFORMATION

(Filed with the Provincial Secretary of Ontario)

Authorizad Capital $200,000 — **Shares $100.00 Each**

1. The incorporators and at this date directors are E. V. O'Sullivan, John M. Ferguson, and James E. Day (Barristers), James A. McNevin (Law Student), and Mary Donevan, Eileen Jamieson, and Amy I. Naftel (Stenographers), all of 34 Victoria street, Toronto. Any shareholder not in arrears is qualified to be a director. The by-laws provide no remuneration for acting as director except fees and traveling expenses for attending meetings. Directors may be paid for special services.

2. Each incorporator subscribed for one share, 7 in all, and by by-law of the Company 993 shares are to be issued to Sterndale J. Murphy, of Toronto, who is the vendor to the Company, under an agreement between him and it dated 4th January, 1910, for the sale of certain Cuban lands, the consideration being 993 paid-up shares, $700 cash, and the assumption of a debt of $9,000.00 on the land, payable in installments (until Nov. 15, 1912) to the Cuban Commercial Company of Havana, under contract between it and Mr. Murphy, dated 3rd December, 1909. Copies of these contracts may be inspected on any business day at the office of the Company's Solicitors, Day, Ferguson and O'Sullivan, Toronto. The preliminary expenses are incorporation and legal fees and printing, and are estimated at under $1,000. No commission has as yet been authorized on sale of stock, but the directors may authorize payment of a commission not exceeding 25 per cent.

3. To make the contract binding it has been decided to go to allotment on receipt of application for one share. Shares are offered for sale on the terms that 25 per cent. be paid on allotment, 25 per cent. three months thereafter, and balance on call of the directors, calls not to be more than 25 per cent. of the subscription, and at least three months to elapse between calls.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM BUNTON, LATE OF THE CITY OF PETERBOROUGH, IN THE PROVINCE OF ONTARIO, TICKET AGENT, DECEASED.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Sec. 56, that all persons having claims against the estate of the said William Bunton, who died on or about the 17th day of January, 1911, are required on or before the 10th day of June, 1911, to send by post, prepaid, or deliver to Dr. R. J. Hurlbut, Federal Life Building, Hamilton, Ontario, administrator of the said estate, their Christian and surnames, addresses and descriptions, the full particulars of their claims and the nature of the security, if any, held by them, and

TAKE NOTICE that after said last-mentioned day the said administrator will proceed to distribute the assets of the deceased amongst the persons entitled thereto, having regard only to the claims of which he shall then have notice, and the administrator will not be liable for any claims or the assets or any part thereof to any person or persons of whose claim notice shall not have been received by him, and such persons shall be peremptorily excluded from the benefit of such distribution.

Dated at Toronto this eighth day of May, A. D., 1911.

A. P. POUSSETTE,

Solicitor for the said Administrator.
927 Bonded Avenue,
Toronto.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

QUEBEC BRIDGE COST $12,000,000

A Description of the New Structure Which Will Span the St. Lawrence

The new Quebec Bridge, according to contracts awarded, will cost $12,000,000. The bridge is on the line of the Transcontinental Railway, where it crosses the St. Lawrence River near Quebec, and will be the largest cantilever bridge in the world, the suspension span being the longest single truss span ever designed, exceeding that of the celebrated Forth Bridge, Scotland, by 90 feet. In working out the design, Mr. Graham has had in consultation a commission of the world's most expert bridge engineers, whose work has extended over a period of two and a half years. This will be the only bridge over the St. Lawrence River east of Montreal, and will be used by the Transcontinental Railway and any other roads that may require it. It is expected that the bridge will be ready for traffic by 1915. The St. Lawrence Bridge Company, which succeeded in competition with German, British and United States firms, is a purely Canadian company, comprising the Dominion Bridge Company, Montreal, P.Q., and the Canadian Bridge Company, Walkerville, Ont. The design which has been adopted will have K webb system in the cantilever and anchor arms. The suspended span is of a modified Pratt type. The length of the centre span is to be 1,800 feet. The total length of the structure is 3,239 feet, or about three-fifths of a mile. The suspended span is 640 feet long, 110 feet deep to the centre and 70 feet at each end. The cantilever arms are 580 feet long, 70 feet deep at the end and 310 feet high over the main post. The anchor arms are 520 feet long. The width of the bridge between the trusses is 88 feet. The bridge will be 150 feet above high-water. The depth of the water in the centre of the river is 200 feet All members in the anchor arms and those immediately over the main pier, as well as the floor arms, will be built of carbon steel. The cantilever arms and suspended spans will be of nickel steel. The piers are all to be built of cement concrete below water, and granite-faced masonry filled with cement concrete above water. The abutments are to be of granite masonry. The caisson over the main pier on the south side will be 180 feet by 55 feet. The north side will be built in two sections, each caisson being 65 feet long by 60 feet wide. The bridge will accommodate a double track railway, and will have a four-foot sidewalk on each side for foot passengers. There are over 100,000 cubic yards of masonry in the piers and abutments. The weight of steel in the superstructure is estimated at 100,000,000 lbs. The transportation of this immense quantity of steel will require the use of 1,477 freight cars of 60,000 pounds capacity, or 67 trains of 25 cars each.

SWEET PEASE

They will Grow in Almost Any Kind of Soil

No other flower has a place in so many gardens as the sweet pea, and almost no other gives such a maximum of reward for a minimum expenditure of labor. They will grow in almost any kind of soil, and, provided they are liberally furnished with sun and water, they respond generously. They do best on well-drained clay land. Though the season this year is late, sweet peas should be already planted, for they can scarcely be planted too early. The reason for this is that they do best in a very cool soil, and if sown early their roots have time to grow and reach down into a cool strata of ground, which helps them to withstand the later heat of the summer. They thrive best out in the open, and another point to remember is that they do not grow so well if grown for several successive years in the same spot. The universally accepted method nowadays for sowing them is to sow in a trench. The trench should be a foot deep and wide enough for a double row, the seeds sown, and covered with earth to the depth of only an inch. When the plants are three or four inches high the rest of the soil should be added, gradually, until finally the trench is filled. If the little plants are very close together they should be thinned. The earth must be kept well cultivated. Every gardener has his own way of supporting peas. Wire fencing is often used, and lattice work made of strings, and the old-fashioned way of using brush is a very satisfactory, though perhaps hardly so neat. Whatever is used ought to be in position before it is needed; then when the first little tendrils appear they will have something to which to cling.

SOLDIER, LAWYER, STATESMAN

Sketch of the Life of the Late Sir Alphonse Pelletier

The late Sir Alphonse Pelletier, Lieutenant-Governor of Quebec, was distinguished as a soldier, lawyer and statesman. His regime at Spencerwood has been peculiarly happy, and he kept up the best traditions of the official residence for hospitality and intellectual activity. He was born at Riviere Ouelle, Quebec, in 1837, his father being Mr. J. M. Pelletier. He took his degree at Laval, and was called to the Quebec Bar in 1860, being appointed a Q.C. nineteen years later. He commanded the 9th Battalion during the Fenian Raid of 1866, and had also had other military experience. He represented Kamouraska in the Commons from 1869 to 1877, and in the latter year was called to the Senate. He was Minister of Agriculture in the Mackenzie Administration from January, 1877, until the resignation of that Government. His appointment as Lieutenant-Governor of Quebec dates from September 15, 1908, and he had filled several other important and responsible positions with credit and ability.

MOOSE ON EXHIBITION

There was exhibited in the Pioneer Market at Calgary at the end of December the carcass of a magnificent moose, weighing nearly 1,000 pounds, the exhibit attracting a great deal of interest. When the story of the moose, which when alive must have been six feet high at the shoulders, was told the interest deepened, for the animal was shot near the main thoroughfare of Edmonton.

SEVENTEEN IN THE TRAIN.

NO ATHEISM IN COLLEGES

Dr. Graham Says They Were Never More Spiritual Than To-Day

Rev. Dr. Graham, Educational Secretary of the Methodist Church, has made the following statement: "People say that our colleges are hotbeds of sensualism and atheism. No man who is not blind can say that. Any man who knows the universities of this country and the United States will say that they were never more spiritual than they are to-day. Three-fifths of the students of the universities of this continent and five-sixths of the teaching staffs are members of some evangelical church." He pointed out that not only was the Bible now more widely read than ever before, but in his opinion it was more intelligently read, and its spiritual meaning was better understood than ever before. As further evidence that the present is a better age than a century ago, the preacher referred to the revived interest in and the progress made by missions in late years, and to the awakening and movement towards better things in the Orient and in other nations of the world.

SHIPBUILDING ON THE COAST

A Big Plant for the Esquimalt Graving Dock Company

The inauguration of a big shipbuilding enterprise on the Pacific coast which will be able to take a share in the building of Canada's new naval vessels is indicated by the passing of an order in council granting a subsidy for a dry dock and ship repair plant of the first class to the Esquimalt Graving Dock and Shipbuilding Co. The subsidy provided for under the statute passed last session is three and a half per cent. per annum on the total cost for a period of thirty-five years. According to the estimate of the engineers of the Department of Public Works on the plans submitted, the total cost of the dry dock, wharf, repair machinery, building, etc., will be $6,627,800. The dock will be 900 feet long, 41 feet deep and 128 feet wide, and capable of accommodating the largest vessels afloat. The promoters are Messrs. Bullen, the well-known shipbuilders of the Pacific coast, who have associated with Denny Bros. of Dunbarton, Scotland, one of the largest shipbuilding firms in the United Kingdom.

AN ARTILLERY TEAM

The officers commanding field batteries have received instructions to the effect that one man from each of the 15 highest field batteries in last year's efficiency list will be taken on the composite team which goes to England in August for the artillery competitions. There will also be eight men from the heavy artillery and seventeen from the coast defence, making a team 40 strong.

TREES IN NORFOLK COUNTY

Thirteen hundred acres of land in Norfolk County have been purchased by the Ontario Government for reafforestation. White, red, Scotch and jackpine, black locust, and other varieties of trees suited to the district are being planted. Tests are also being made with oak, walnut, butternut and chestnut.

Bars in Montreal

By a new by-law the bars of Montreal have to close at eleven every night except Saturday, when the hour is 7 o'clock.

JUDICIAL NOTICE

TO THE CREDITORS OF

THE CENTRAL MILLING CO.

OF PETERBOROUGH, LIMITED.

PURSUANT to the Winding-up Order made by the High Court of Justice in the matter of the Ontario Companies Act and Amendments thereto, and in the matter of the Central Milling Company of Peterborough, Limited, bearing date the fourth day of May, 1911.

The Creditors of the above named Company and all others who have claims against the said Company formerly carrying on business in the City of Peterborough, in the County of Peterborough, are on or before the 15th day of June, 1911, to send by post, prepaid to W. R. Morris, Liquidator of the said Company, at his office, 375 Water Street, Peterborough, their Christian and Surnames, addresses and descriptions, the full particulars of their claims and the nature and amount of the securities (if any) held by them and the specified value of such securities verified by oath and in default thereof they will be excluded from the benefits of the said Act and Winding-up Order.

The undersigned Master at Peterborough, of the High Court of Justice will on the 16th day of June, 1911, at eleven o'clock, in the forenoon, at His Chambers in the Court House, in the City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice and let all parties then attend.

Dated this 15th day of May, 1911.

E. C. S. HUYCKE,
Local Master at Peterborough.

QUEEN CHARLOTTE

The Capital City of the Islands

THE LAST WEST

The only town on Graham Island that has a monthly pay roll, and the only sawmill shipping lumber to foreign ports.

The only town having a railway gauntted to its very doors on the island.

The only city on Graham Island having electric light, city water, miles of sidewalks, churches, school, hospital, postoffice, first-class drug store billiard hall, city hall, hotels, boarding house, barber shop and other general stores, and the only newspaper published on the Island, the Queen Charlotte News.

We are positively the centre of all the vast wealth of the entire Islands, including farm lands, timber lands, coal and metalliferous mines. These products must come out at Queen Charlotte City, through the Honna River Valley, and through which the Island Railway must run according to charters already granted.

The combined townsite interests cover one thousand acres, of which five hundred are practically level alluvial soil with no rocks.

A fine water power from the Honna River, good drainage and the best harbor on the entire Islands.

Our lots are all 50 feet by 120 feet, ranging in price from $150 to $300; one-third cash, balance on time at 6 per cent., or deeds can be had at once if desired.

Fully 200,000 acres of farm lands, suitable for mixed farming, only await the hand of man, a large portion of which is already located.

The verdure clad mountains are vast treasure vaults of gold, copper, silver and other precious metals, while our valleys are underlaid with a wealth of the finest coal and covered with a vast forest of spruce, hemlock and yellow cedar. These, coupled with our fisheries, are at the very doors and within sight of Queen Charlotte City.

Taking all these facts into consideration, and with the present progress being made in developing our resources, which are at the gateways of transportation both by water and railway, with the advent of the completion of the Grand Trunk Railroad, Queen Charlotte City is destined to be one of the province's most prosperous cities.

It is owned largely by the wealthiest and most honorable men of our province, who would not be a party in misrepresenting facts and are prepared to endorse every statement herein made.

The townsite company are now offering a further 75 lots on Second avenue at a very low price and on easy terms, if taken at once, and under conditions that will make you a 100 per cent. on your investment in 90 days, for 20 per cent. of the gross proceeds will be used by letting a contract for the clearing and grading of Second avenue from Third street west. The company guarantees to advance the remaining 75 unsold lots on Second avenue from $150 to $225 so soon as the first 75 have been sold. The company is making this effort in order to join with the government in making Second avenue the trunk road through the townsite from the Wilson-Robinson coal fields.

Honna River Valley, Lawn Hill and Miller Creek districts. Now you can secure any unsold lot on Second avenue, including fourteen in Keith's addition, to-day for $150, except corners, on easy terms, 1-4 cash, balance 6, 12 and 18 months at 6 per cent. This will positively be your last chance for a cheap lot in Queen Charlotte City, for every lot in the townsite will surely go from $500 to $1000 when the public realize that in

"GLENWOOD" STONY LAKE

CALCUTT BREWING AND MALTING CO.
——— Limited ———

DEPARTMENT OF RAILWAYS AED CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted cheque for the sum of $10,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheques thus sent in will be returned by the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.
Department of Railways and Canals,
Ottawa, May 13th, 1911.
Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of contract can be seen and form of tender obtained at this department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., H. J. Lamb, Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works,
Ottawa, May 9, 1911.
Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Seaforth Ontario," will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the offices of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works,
Ottawa, May 1, 1911.
Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

There is one medicine that every family should be provided with and especially during the summer months viz., Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

The Peterborough Poultry Association met in regular monthly session last evening.

INSANE IN THE JAILS

A Scandal That They are There, Says Sir William Meredith

That the insane should be confined in jails is a most lamentable thing, according to Chief Justice Meredith, when addressing a grand jury in Toronto. "The jail is no place," said His Lordship, "for persons who have committed no offence against the law. These people are suffering from an ailment, and every day that they are kept without proper treatment lessens the probability of their recovery. A law has recently been passed by the Legislature providing that insane people must be kept in some safe and comfortable place. This law seems to have become almost a dead letter, so far as the enforcement of it is concerned. The difficulty is that no proper place has been provided for the confinement of these people. It is a scandal in this age and this province that such a condition should exist."

LINE TO LABRADOR

A Railway Project from the Saguenay to Cape Charles Bay

A cable states that a syndicate has been formed in London for the construction of a railway from the Saguenay River to Cape Charles Bay, on the east coast of Labrador, a point 600 miles from Quebec. The enterprise, which will connect with the Quebec and Saguenay line, which M. J. O'Brien will build during the next 18 months to Murray Bay, 90 miles from the ancient capital. The promoters say that Cape Charles Bay is open all the year round, and from that port fast steamers will make Liverpool in 53 hours, or land mails in Chicago 24 hours before they could reach New York by any of the other routes.

HELPED HORSE INDUSTRY

The Late J. P. Wiser, Prescott, Imported Some Valuable Animals

John Phillip Wiser, who died recently at Prescott, was active in the stock breeding industry. The stables in connection with the Wiser distillery are capable of feeding 1,000 cattle. From these barns the first cattle were exported to Great Britain, and Mr. Wiser could claim to be the pioneer in the export cattle trade. In addition to his interests in Canada, Mr. Wiser was the President of the Dominion Cattle Company, that operated a ranch of 1,750,000 acres in the Panhandle district of Texas. When their lands were opened for settlement by the United States, Mr. Wiser acquired a ranch in Lyon and Wabaunsee counties, Kansas, where he had as many as 4,000 cattle that were bred and fattened for the Kansas City and Chicago markets. Selling out the above business in 1905, he had since confined his attention to his business in Prescott. To the live stock industry of Canada the enterprise and intelligence of Mr. Wiser was of great value. He served as a member of the Ontario Agricultural Commission in 1880, and imported at great expense the celebrated Rydyk Hambletonian Stelton, and other high-bred trotting stock into Canada, notably Chestnut Hill, Phil Sheridan, Hiram Woodruff, Orient, Wm. B. Smith, Barbara Patchen, and Joe Brown.

ELIMINATED THE VICTORY

Canada's Defeat of Americans in 1812 Will Not be Reproduced in London

Despatches from London state that it has been decided to eliminate from the pageants at the Festival of Empire the representation of the defeat of a large American force by a small Canadian force during the war of 1812 lest it should prove distasteful to the United States visitors. Mr. Martin Burrell, speaking of the matter in the Canadian Parliament, thought there was no force in this objection, and asked an explanation. Hon. Mr. Fisher said Canada contributed to the general expenses of the Festival. She had nothing to do with the arrangement or character of the pageants. Sir Wilfrid Laurier pointed out that in the older United States school books, at least the battle of Chateauguay was not described as a Canadian victory. But he did not think any satisfactory reason had been advanced for eliminating the true character of the Canadian victory. "History is history," observed Sir Wilfrid, "but we have nothing to do in the matter; it was not referred to us. The matter, I understand, is in the hands of a committee. If I had been a member of that committee I would have done otherwise."

PENNY SAVINGS BANKS

An amendment to the Penny Bank Act, provides that the Minister of Finance may fix the rate of interest to be allowed on deposits made by the Penny Banks in the Government Savings Bank or the Post Office Savings Bank. The rate is not to exceed one per cent. in advance of that paid to depositors in the Government Savings Bank and the Post Office Savings Bank.

THE LINE TO PORCUPINE

Work on the branch between Porcupine and the main line of the T. & N. O. Railway at Iroquois Falls is being rushed, and it is now quite certain that trains will be running the first week in July. Only two or three miles of grading remains to be finished. Three or four of the mines are in full swing, the Dome having 340 men on the list last pay day.

CARBON TOOL PLANT

Port Hope will soon have the first high carbon tool steel plant in Canada. The new structural steel buildings of the International Tool Steel Co., at the west of the harbor, are under rapid construction, and it is expected that the plant will be in operation in June.

PAY OUT TREATY MONEY

H. A. Conroy, inspector of treaty No. 9; Lucien Lamothe, assistant inspector, and Dr. A. L. MacDonald, of Abazandria, have left on a trip to the Arctic Ocean in connection with the paying of treaty money and other matters connected with the Indian agencies. They will proceed to Edmonton, thence to Fort McMurray, down the Athabasca River to Lake Athabasca, down Slave River to Great Slave Lake, and down the Mackenzie River to the Arctic Ocean. They will be away about six months.

IRREGULAR VOTING

Principles Which the Judge Said Had Been Violated

The local option by-law in Bastard and Burgess, Leeds County, was quashed by Judge Sutherland on the ground that the principles of the law had been violated in the following way:—

That voters were interfered with;
That the voting was not secret;
That canvassing was permitted in the polling booths;
That one booth was furbed with horse blankets in a harness shop, where the proprietor, not an official, was allowed to sit;
That two of the booths were halls in which as many as fifteen persons were present at a time;
That a woman voter was allowed to address the crowd, saying: "For God's sake and for your children's sake, vote it (the drink traffic) down to-day";
That one voter marked the ballot openly on the deputy returning officer's table;
That two voters were in one voting compartment at one time;
That throughout the whole of the voting on one sub-division, no control was exercised over any person who desired to enter the hall and to speak to voters as they came in;
That two voters, elderly people, marked their ballots out in the yard while sitting in their cutters, the ballots having been sent out by the deputy returning officer.

CONSOLIDATE THE EMPIRE

Statement on the Imperial Conference by Sir Wilfrid Laurier

Sir Wilfrid Laurier has made the following statement regarding the Imperial Conference: "Canada recognizes in its fullest sense the great importance of the Imperial Conference. This Dominion is neither indifferent nor lacking in appreciation of its value. The Conference is an advisory body with possibilities. It has already done excellent work, and I believe it is destined to do even better work in the future. Much of its strength is found in the element of personal contact in the meeting of the representatives of the component parts of the Empire. It may be that in the matter of co-operation we may have gone as far as is advisable at the present time. Reading British history demonstrates that all British communities are slow to move. This is the trend of the British mind; it is the record of British institutions. There is steady progress; but it is step by step as new needs make changes imperative. And progress will go on, step by step, in the line of making for the betterment of mankind and the universal peace of the world, for the consolidation of the British Empire is and will be a powerful factor for the good of the whole human race."

TROUT GETTING SCARCE

A Resident Says Fish are Also Smaller Than Formerly

That New Brunswick's good reputation as a province abounding in fish is in danger, especially in the matter of trout fishing, is the claim made by Harold C. Secord, Penobsquis, N.B., in a letter to the St. John Telegraph. I declare and believe, says Mr. Secord, as one who lives alongside one of the best fishing streams in the country, the Kennebecasis and its tributaries, especially the South Branch, and enjoying the right to fish in them at any time during the open season, that I am right when I say that the trout are getting scarce and small, being unmercifully slaughtered by unsatisfied sportsmen during the hot summer months—June, July and August. It seems to me that the Government fails to pay any attention to the grievances of the farmers who complain of so much damage done to their hay crop along the banks every year. But they will only have to wait till we have a few years of six months' fishing, when it won't be worth the trouble to fish for trout. May is the only month in which a sportsman can be satisfied with the number and size of fish he gets, although he might be given a chance during the hunting season.

BRAVE BOY SCOUTS

George Jackson, Dunnville, who was given a "Boy Scout" medal, had gone to the rescue of two brothers who were drowning in a river, and after saving one boy, returned in a fatigued condition to rescue the other lad, but was unsuccessful. A silver medal was merited by Charles Richardson, of Peterboro, who put to shame a number of men one day last summer by plunging into a river and rescuing a drowning man after a desperate tussle. A scroll of honor was given to Scout Thomas Hobbs, of Toronto, for assisting in the rescue of a drowning man from the Don River.

ORIENTAL ADVERTISING

Some Japanese advertisements possess a wealth of imagery unknown to the western advertiser. A Tokio draper announced that "Our goods are sent to customers' houses with the speed of a shot from a rifle."

A large store displayed a poster inscribed:—"Why not visit our shops? We can satisfy every possible want of yours. Every one of our assistants is as complaisant and obliging as a father who seeks to dispose of a downright daughter. You will be as welcome as a ray of sunshine coming after a day of ceaseless rain."

BIG MILLING MERGER

The International Milling and the Canadian Cereal and Milling companies have consolidated. This results in an all-Canadian organization, the Canadian Cereal and Milling Company, obtaining through the International a large connection in Western Canada, while in turn the International will secure the advantages of the connection of the Cereal Company in Ontario and Eastern Canada.

Boy Scout Column.

The Times has started a column of the paper to be devoted to Boy Scouts, and their movements. All Boy Scouts are asked to contribute to this department on matters pertaining to scout work. The column will be edited by one of themselves, which should make it of interest to all boys connected with the Scout movement.

Shooting Pains in Side, Arms, Back

Prove the Presence of Rheumatism Virus, Which is Cured Quickest by Nerviline—Rub It In.

Pains in the muscles, in the sides, the back, the neck, or the chest—they always carry with them great discomfort. If the inflammation is severe the pain will be intense. If allowed to continue they are dangerous. Nothing so quickly cures local inflammation and drives away pain as Nerviline. Nerviline does this because it penetrates so deeply. Nerviline is not only powerful, but soothing. By relieving congestion it cures pain. It does this always. It cannot fail because it is a true antidote for pain. You can scarcely find anybody that will not tell you wonderful things about the pain-curing power of Nerviline. Remember, that there is not an ache or pain that Nerviline will not cure immediately. Nerviline is an anchor of health in every household.

Refuse anything that may be offered you instead of Nerviline, which is guaranteed for rheumatism, neuralgia, sciatica, lumbago, and all muscular aches and rheumatism pains.

Large 25c bottles or five for $1.00, at all dealers, or The Catarrhozone Company, Kingston, Ont.

FOR STONEY LAKE

For the week commencing Monday, May 29th, the steamers will leave Lakefield on the arrival of the morning train, returning in time to connect with the evening train on Monday, Tuesday, Friday and Saturday.

STONEY LAKE NAVIGATION CO.
F. G. Young, Manager.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Tent For Sale.

Tent for sale—Large, only in use a few weeks, very reasonable. Apply W. J. L. Elliott, head of Weller St.

Mr. W. H. Thorne, piano tuner for the R. P. Wilks Co., Toronto, is in the city for a day or two. Orders left at The Times' Bookstore will be promptly attended to.

Banks Closed To-day.

The banks of the city will be closed to-day, it being the King's birthday.

The First Band Concert.

The first open-air band concert of the season took place last night in Victoria Park, the splendid band of the 57th Regiment rendering a fine programme. There was a large turn out of citizens, and more especially the younger classes.

A Serious Charge.

Samuel Newhall, who was brought to the city on a charge of rape, and who pleaded not guilty to that charge on Wednesday, was arraigned before His Worship, Magistrate Edmison, and the evidence in the case was taken, after which he was committed to a higher court for trial.

Phone Service Extended.

The Bell Telephone Company, with its usual enterprise, has extended its line to include Crowe's Landing, Clarina, Gilchrist Bay and Karwatha Park. Already there is connection with Juniper Island, McCracken's and Landry, and Burleigh Falls.

By-law Passed.

By a majority of 138 Campbellford yesterday passed the by-law authorizing the Council to go ahead with the new public library, for which Mr. Carnegie has given a grant of $10,000 There was much opposition to the project, but its supporters polled every vote, thus ensuring its passage.

Stopped Runaway.

On Thursday at noon, Mr. Briggs, of the Quaker Oats Company stopped what might have proved a disastrous runaway, when he rushed out a stopped a carter's horse that was tearing across Hunter street at great speed, the waggon swaying from side to side. Mr. Briggs grabbed the horse by the bridle and after strenuous jerking brought it to a standstill.

Dougherty Pleads Guilty.

John Dougherty was arraigned before his Worship Magistrate Dumble in the Police Court yesterday morning, on a charge of stealing $54 on Robert Brown, who was staying at a local hotel. Dougherty pleaded guilty, and was remanded for sentence until Wednesday 7th, when Vernon Killingbeck will also appear for trial on the same charge. The two young men are jointly charged with the theft. Killingbeck pleaded not guilty in the Police Court Thursday morning. It was at first thought that the sum was only $30, but it was afterwards found out that it was the larger amount. Dougherty skipped out of the city, but was arrested at Port Hope and brought back for trial.

Found Dead in Bed.

The death occurred with tragic suddenness during Thursday night of William George Cook, of 480 Driscoll Terrace, East City. He appeared to be in perfect health the previous night; in fact was buying horses, but was found dead in bed on Friday morning. Dr. Morgan was called in and death was pronounced to be due to heart failure. The deceased, who was a veterinary surgeon and originally a resident of Norwood, came to Peterborough four years ago, and has during that period carried on his practice, both in Peterborough and in Norwood. He was 54 years of age, and is survived by a wife, three sons William, Jack and Robert, and three daughters, Maud, Bessie and Persilla, and a sister, Mrs. William Sedgwick, of Toronto. The funeral will take place this afternoon at 4 o'clock, to the Little Lake cemetery.

Baseball To-day.

The Peterborough Midland League team will journey to Port Hope today, to play a Midland League game against the Port Hope aggregation. The latter, under the management of Henry Surphlis, the veteran pitcher, are said to be a very fast bunch and the Pets will have their work cut out for them to grab a victory to-day. The team will leave for Port Hope on the 11.45 G.T.R. train to-day, with the following players in the bunch:

McFadden, c.
Quinlan, p.
M. O'Brien, 1st b.
O'Hearne, 2nd b.
Rahmel, s.s.
Wettlaufer, s.s.
Murphy, 3rd b.
Shaw, l.f.
W. O'Brienm c.f.
Craig, r.f.
Brydie, utility.

ADVERTISE IN THE TIMES.

Robbed En Route.

Yesterday Mr. John Kylie, the Hunter street shoe merchant, received several cases of boots and shoes from the United States. When he opened the cases he was surprised to find that they had been broken into, apparently in transit, and a number of pairs stolen. The matter was at once referred to Mr. W. S. Dodd, of the C.P.R., who is making an investigation.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mr. Harry Phelan and Dr. McNulty were in Lindsay this week on business.

Mrs. A. Fleming of Kinkadar, is visiting her sister, Mrs. McMillan, Water street.

Miss Lulu Jones of Fenelon Falls, is visiting her aunt, Mrs. W. R. Jones, 168 McDonald street.

Mrs. P. Lund of Wardner, B. C., who has been the guest of Mrs. D. Breckenridge, Auburn, for the past week, left yesterday for Chatham, where she will visit friends before she returns home.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of every ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

OBITUARY

Margaret Frances Donoghue.

A bright young life was cut short by the death of Margaret Frances Donoghue, which occurred early yesterday morning after a short illness, at Nicholls Hospital.

The deceased was the youngest daughter of Mr. and Mrs. Daniel Donoghue, of 295 Simcoe street, and was only 18 years of age. She was a bright, intelligent girl, and well liked by her many friends. Miss Donoghue was a member of the Sodality of St. Peter's Cathedral. Death was due to an attack of appendicitis. She is survived by a mother, father, two brothers, Edward and Raymond, and three sisters, May of Rochester, and Vivian and Eileen living at home.

The funeral will take place to-morrow afternoon at 2.30 to St. Peter's Cathedral and from thence to St. Peter's cemetery for interment.

Mrs. Violet Wilson Wright.

Mrs. Violet Wilson Wright, wife of Mr. Frank Convery, of 332 Reid St., passed away on Thursday night at Nicholls Hospital, aged 22 years. Death was due to heart failure during confinement.

Deceased was a constant attendant of St. Andrew's church and was a member of the choir for some years. She was a daughter of the late Gordon Wright and was well known and highly respected.

She was of a bright and loving disposition and was always willing to associate herself with any good work connected with the church or otherwise.

Besides leaving a wide circle of sorrowing friends to mourn her loss, she is survived by a husband.

The funeral will take place this afternoon at 3.30 p.m. to Little Lake cemetery. Rev. James Rollins, B.A., will officiate at the house.

IF I WERE MAYOR

Continued from Page 1.

civic authorities desire to protect white laundries and Canadian labor, they will at once prepare a by-law which will make the Celestials live like Christians and not like dirty low down heathens, that they are.

Canadian.

THE LOCAL POST OFFICE.

Editor Morning Times.

Sir,—If I were Mayor I would use my influence with the Post Office authorities to have the new addition which is now being erected, built at the same height as the rest of the structure. I am told that the new addition is to only be one storey high which would be anything but satisfactory to the appearance of the street.

J. E. P.

TAX THE FOREIGNERS.

Editor Morning Times.

Sir,—If I were Mayor I would try and impose a tax on the foreigners who come into the city to slaughter goods. They are only here, as a rule a few weeks at a time, but long enough to seriously disturb trade in certain lines and pays no tax therefor. Protect the home merchant at all cost. It is he who provides most of the taxes to run the city government.

Anti-Foreigner.

LITTLE LOCAL LINES

The preparatory service of the Communion was held in St. Paul's Church last night.

Yesterday was Division Court day, when a number of cases were disposed of by His Honor Judge Hayden.

It is said that our local picture show people may be forced to charge 10c instead of 5c admission fee, on account of the advance in licenses.

HER WEIGHT INCREASED FROM 100 TO 140 POUNDS.

Wonderful Praise Accorded Peruna the Household Remedy

Mrs. Maria Goetz, Orlenta, Oklahoma, writes:

"My husband, children and myself have used your medicines, and we always keep them in the house in case of necessity. I was restored to health by this medicine, and Dr. Hartman's invaluable advice and books. People ask about me from different places, and are surprised that I can do all of my housework alone, and that I was cured by the doctor of chronic catarrh. My husband was cured of asthma, my daughter of earache and catarrh of the stomach, and my son of catarrh of the throat. When I was sick I weighed 100 pounds; now I weigh 140.

"I have regained my health again, and I cannot thank you enough for your advice. May God give you a long life and bless your work."

Division Court Sittings took place yesterday, and remained in session until nearly eight o'clock, one case being unfinished when court adjourned.

Jesse Airies, who was up on remand for illegal fishing, was dismissed yesterday at the Police Court by Magistrate Dumble.

AUTO BUS DAILY TRIPS

TO CHEMONG.

The Rutherford-Grimes Auto Bus will make its regular trips to Chemong Park every day, leaving the McLaughlin Garage, Simcoe street, at nine a.m., returning at ten a.m.; making a second trip at two p.m., returning at three. Return fare 50 cents, children 25c. Car will leave Garage at 8 p.m. for Chemong, returning from Park at 9 p.m. on Saturdays only.

The Bus will call at the Snowden House, the National and the Oriental each trip.

The bus may be engaged by the hour or trip at low rates. Particulars as to rates at the garage.

JUDICIAL NOTICE

TO THE CREDITORS OF

Canadian Cordage and Manufacturing Co., Ltd.

Pursuant to the Winding-up order, made in the High Court of Justice in the matter of the Canadian Cordage and Manufacturing Company, Limited, and in the matter of the Winding-up Act bearing date the 7th day of December, A.D., 1910, the creditors of the above named the Canadian Cordage and Manufacturing Company, Limited, and all others who have claims against the said Company, formerly carrying on business in the City of Peterborough and elsewhere, are on or before the 3rd day of July, A.D., 1911, to send by post, prepaid, to George Walford Hatton, Liquidator of the said Company, at his Office, 397½ George street, in the said City of Peterborough and Province of Ontario, their Christian and surnames, addresses and description, the full particulars of their claims, and the nature and amount of their securities, if any, held by them and the specified value of such securities, verified by oath, and in default thereof, they will be peremptorily excluded from the benefits of the said Act and of the said order.

The undersigned the Local Master of the High Court of Justice at Peterborough, will on the 6th day of July, 1911, at 11 o'clock in the forenoon, at His Chambers in the Courthouse at the said City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice. And let all parties then attend.

Dated at Peterborough this 22nd day of May, 1911.

E. C. S. HUYCKE,
Local Master at Peterborough.
SYDNEY MEDD,
Solicitor for Liquidator,
Bank of Commerce Bldg., Peterboro.

DEPARTMENT OF RAILWAYS AND CANALS.

ONTARIO—ST. LAWRENCE CANALS.—RAPIDE PLAT CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Improving Lower Extreme to Lock No. 24," will be received at this office until 16 o'clock, on Friday, June 9th.

Plans, Specifications, and Form of Contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $9,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.
Department of Railways and Canals,
Ottawa, May 19th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

HAVE YOU ATTENDED

Ogilvie's big flour demonstration now going on in your city? If not you are missing an educational treat in cookery. The ground floor of the T. A. S. Hall, Simcoe street, has been rented for this purpose. Demonstrations commence at 2.30 sharp. Afternoon tea served free to housewives until June 7th.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards
Easy payments, 10 per cent cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

CONSTITUTIONAL BLOOD DISEASE.

Patient No. 16474. "The spots are all gone from my legs and arms and I feel freed now. I am very grateful to you and shall never forget the favor your medicines have done for me. You can use my name in recommending it to any sufferer. I am going to get married soon. Thanking you once more, etc.'

SAYS TWO MONTHS CURED HIM.

Patient No. 16705. Age 21. Single. Indulged in immoral habits 4 years. Deposit in urine and drains at night. Varicose Veins on both sides, pains in back, weak sexually. He writes:—"I received your letter of recent date and in reply I am pleased to say that after taking two months' treatment I would consider myself completely cured, as I have seen no signs of them coming back (one year).

THE WORLD SEEMS DIFFERENT.

Patient No. 12982. "I have not had a regular Emission I don't know when and am feeling fine. The world seems altogether different to me and I thank God for directing me to you. You have been an honest doctor with me."

VARICOSE VEINS CURED.

Case No. 16666. Symptoms when he started treatment:—Age 21, single, indulged in immoral habits several years. Varicose Veins on both sides—pimples on the face, etc. After two months' treatment he writes as follows:—"Your welcome letter to hand and am very glad to say that I think myself cured. My Varicose Veins have completely disappeared for quite a while and it seems a cure. I work harder and feel less tired. I have no desire for that habit whatever and if I stay like this, which I have every reason to believe I will, Thanking you for your kind attention." etc.

GAINED 14 POUNDS IN ONE MONTH.

Patient No. 13262. This patient (aged 35) had a chronic case of Nervous Debility and Sexual Weakness and was run down in vigor and vitality. After one month's treatment he reports as follows:—"I am feeling very well. I have gained 14 pounds in one month, so that I will have to congratulate you." Later report:—"I am beginning to feel more like a man. I feel my condition is getting better every week." His last report:—"Dear Doctors—As I feel this is the last month's treatment that I will have to get, I thought at one time I would never be cured but I put confidence in you from the start and you have cured me."

CURES GUARANTEED OR NO PAY

We treat and cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases peculiar to men.

VOL XXXIV NO. 132 PETERBOROUGH, ONTARIO, MONDAY JUNE 5 1911 PRICE TWO CENTS

VANCOUVER'S BIG STRIKE WILL START TODAY

Both Employers and Workers Take An Uncompromising Attitude.

Vancouver, B. C., June 4.—The Trades and Labor Council at its regular meeting last night, with an attendance of one hundred representatives of fifty-two trade unions, stood by their attitude of last week's special meeting. This is to declare a general strike to-day, unless the Builders' Association submits to arbitration of the present differences. The strike decision was left in the hands of the executive committee with full power to act.

A feature of the meeting was the distribution of hand-bills. One called upon all organized and un-organized wage-workers of Vancouver to cease work on Monday, as a protest against the declaration of war upon, and annihilation of organized labor by the Master Builders' Association, backed by the Federated Employers' Association of the Pacific Coast. Organized labor, the paper said, must accept the challenge of the manufacturers' association and fight to a finish for their existence.

Another handbill headed, "Beware of What You Eat," contained a list of city bakers who were declared to be unfair to organized labor, and appealed to all citizens to "ask for union-made bread."

ARBITRATION NOT WANTED.

Vancouver, B. C., June 4.—The only new feature to-day in the labor dispute is the reply of the Master Builders'-Association to the City Councils offer to mediate. They say they do not feel that it will serve any good purpose for them to meet the union delegates at the present time. The builders add that they are opposed to the closed shop principle, which they say has been detrimental in every city in which it has been tried. They conclude that they are willing to lay their position before a committee of Council, or other tribunal, if such is to be constituted to inquire into the dispute.

JACK M'GILLIVARY, A LINDSAY MAN, KILLED BY ELECTRICITY

Lindsay, Ont., June 3.—(Special).—Jack McGillivery was electricuted here this afternoon by being grounded, 1000 volts passing through his body.

A new transformer had been put on a pole and guy wires were being placed when McGillivery, who had no rubber gloves on, touched a fuse block and at the same time an end of one of the guy wires swung round and formed the deadly connection.

McGillivery was a Mason, an Oddfellow, a fireman and a popular citizen.

RESPECTABLE CITIZENS WERE LISTED AS CATTLE IN MONTREAL

Montreal, June 2.—The first day of the fifth decennial census taking in Montreal, revealed the mild acquiescense of the general public in answering the forty odd questions put to them and the inability of many of the enumerators to grasp the meaning of their work, which led to many farcical blunders.

One intelligent census taker brought his schedule for horses and cattle in last night with the names of many Hebrew citizens marked upon it, having misunderstood the meaning of schedules numbered one and six. Others placed the names of living persons upon schedule two for the dead, and when they were not able to reconcile the question with the living persons before them the visit was postponed until the census commissioner was consulted to help unravel the difficulty.

A visit to the central offices of the various wards last night showed a number of the enumerators with large cloth-bound satchels under their arms receiving explanations from the different commissioners.

St. John's Old Bell Tolled

At the evening service at St. John's Church last night, Rev. Canon Davidson refered to the present bell which hangs in the tower of that historic edifice and has served the church for 96 years. It has not only served St. John's, but the other city churches as well. The Reverend gentleman also referred to the obtaining of the bell for the church through the exertions of the members, some of whom are still worshipping at St. John's. Last night was the last occasion on which the dear old bell will serve St. John's and at the close of the service, Rev. Mr. Davidson asked that the bell be tolled while the members left the church. It is very gratifying to the members to know that the bell is going to a sister church.

New County Maps.

The Times' Map Department has issued fine new wall maps, in four colours, of the counties of Victoria and Durham. These maps sell for $3.50 each, and are up to date in every detail. We have now under way a splendid map of the United Counties of Stormont, Dundas and Glengarry, which will be ready for delivery in a short time. Our staff is also working on a similar map of Leeds and Grenville.

Farmers' Institute Annual Meeting.

The annual meeting of the West Peterborough Farmers' Institute will be held on the farm of Robert Hambidge, Esq., lot 20, concession 15, Township of Otonabee, on Tuesday, June 13th, at 2 o'clock p.m., sharp, for the election of Officers, when the following programme will be followed:

1. President's report.
2. Discussion thereon.
3. Report of Executive Committee and Financial Statement by the Secretary Treasurer.
4. Auditors' report.
5 and 6. Suggestions of points at which to hold Regular and Supplementary meetings.
7. Election of Directors and Auditors.
8. Suggestions as to how the Institute can be improved or made more useful.

Hon. J. R. Stratton, M.P., Mr. T. E. Bradburn, M.L.A., Mr. H. B. Cowan, Editor "Farm and Dairy," and Mr. C. Duff, B.S.A., District Representative, have been invited to give short addresses.

We invite all members to come and bring their families along, as the intention is to make the afternoon with a picnic, and we expect to have a profitable and pleasant time. Do not fail to come.

OBITUARY.

Mr. David Allison.

There passed away on Saturday last with terrible suddenness, Mr. David Allison, 607 Water street, aged 73 years. Mr. Allison was in excellent health up to the very hour of his death. For seven or eight years he was a trusted employee of the Ashurst Woolen Company, and was held in high esteem by all who knew him. He went over to the mill about ten o'clock on Saturday, and was soon after stricken with heart failure, expiring in a few minutes, before medical aid could be secured.

Mr. Allison was a consistent member of the George street Methodist Church. He leaves a wife and young family of three—two girls and a boy.

The funeral will take place to-morrow afternoon at 2.30 to the Little Lake cemetery. Rev. Mr. Couch will conduct the services at the house at two p.m.

NO DOGS IN JAP POLAR DASH.

Members of Antarctic Expedition Will Carry Their Own Supplies.

Tokio, June 4.—Sydney telegram reports that Lieutenant Shirase has resolved to dispense with horses and dogs on his next dash toward the south pole, the members of the expedition themselves carrying the minimum of indispensable supplies. The expedition will select a suitable spot and bivouac there for several months, or until the melting of the ice in the polar circle will permit further progress.

Australian authorities are extending the warmest hospitality to the explorer, and Count Okuma and the other supporters of the exposition are determined to finance the enterprise at all costs.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of every ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO.,
Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Hon. Mr. Oliver Departs.

Ottawa, June 4.—Hon. Frank Oliver left last night for the West, and will shortly be joined by Hon. William Paterson. There will be meetings at Winnipeg, Brandon, Portage La Prairie, Saskatoon, Regina, Edmonton and other points.

Much of the same ground as that figuring in Mr. Borden's tour will be covered, either before or after the Conservative leader gets there.

Whooping cough is not dangerous when the cough is kept loose and expectoration easy by giving Chamberlain's Cough Remedy. It has been used in many epidemics of this disease with perfect success. For sale by all dealers.

ADVERTISE IN THE TIMES.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

A GARBAGE BY-LAW.

Editor Morning Times.

Sir,—I would call the attention of our City Fathers to the necessity that exists for a suitable garbage by-law, with regularly appointed scavengers. All cities, I believe, have a system that provides for the removal of garbage. I hope there will be no delay in providing a system for Peterborough.

A. Wallis.

THE OTONABEE POWER CO.

Editor Morning Times.

Sir,—I notice that the Otonabee Power Company has announced that its property is not for sale, and that they propose to develop it themselves. Just here let me say that if the company will do this, it would relieve the city from the necessity of purchasing a power plant. They would be obliged to market the power themselves and thus the city would be taking no chances at all. I would suggest that a contract be made with one or both of the power companies for what the city will require for domestic and street lighting for say 99 years. If a reasonably low rate is secured, the city need not go into the light and power business themselves at all. If this could not be obtained, it would of course, be up to the city to provide its own, in which case the two companies should be obliged to remove their poles from the streets.

All that is needed, Mr. Editor, is a firm Council, who will deal with the matter in a business-like way.

Ratepayer.

NO COMMISSIONER REQUIRED.

Editor Morning Times.

Sir,—I see the Council propose at to-night's meeting to again take up the matter of an Industrial Commissioner for Peterborough. I hope they will decide that, under existing circumstances, to abolish the office altogether. I saw a letter in The Times a few days ago, in which it was stated that power was being offered in Welland for $11 per horse power, while we understand the rate in quantities in Peterborough is $20. How in the name of common sense can we expect to overcome this handicap? An Industrial Commissioner would, as your correspondent puts it, have to be a hypnotist to induce any industry to locate in Peterborough, and pay $9 per horse power more than it can be had in other places.

I am one of those who believe that it is up to the power companies and the city to get together on some basis that will be mutually satisfactory, in order to secure industries. The power companies are vitally interested for they must sell their product. My idea is, let the power companies give power at $10, and the city exemption from taxes, as far as the law will permit them.

I commend the above to the consideration of His Worship Mayor Morrow and the members of the Council.

Ratepayer.

It is worse than useless to take any medicine internally for muscular or chronic rheumatism. All that is needed is a free application of Chamberlain's Liniment. For sale by all dealers.

DECORATION DAY ON SUNDAY, JUNE 25TH

Oddfellows Will Make New Departure in Honoring Dead.

At a joint meeting of the Committees of the Otonabee and Peterborough Lodges of Oddfellows, held on Saturday evening, it was decided to decorate the graves of the deceased brethern on Sunday, June 25th. The ceremony as everybody knows, is a religious one, and is beautiful in its character. For some years the difficulty of getting the members of the order together on a week-day has been increasing, and it was therefore felt that the sermon could have better results if performed on Sunday. The joint committee therefore selected the above date.

The brethern will assemble at their headquarters on Sunday, June 25th, and proceed in a body to the cemetery, where the beautiful and impressive ceremony will take place.

SIR ALLAN MAY ONCE MORE FACE ELECTORS

TELLS NORTH YORK MEN THAT HE WILL AGAIN CONTEST THE RIDING.

If an Election is Brought on Before the Natural End of the Present Parliament—Government Ready to go to the Country Any Time.

Newmarket, June 3.—The nomination meeting of the Liberals of North York this afternoon was like many other political gatherings productive of a surprise.

For months past it has been the current rumor that Sir Allen Aylesworth, Minister of Justice, the present member, would make the meeting of to-day his valedictory to his old electors, and that T. C. Robinette, K.C., of Toronto, would secure the nomination. What happened was not that at all. It became apparent early in the day that the electors of North York were not at all disposed to allow their distinguished member to retire, and that he would have to do some hard work among them before they would consent to allow him the rest he has earned.

Mr. Robinette was on hand to urge upon the Minister the necessity of running again, and the upshot of it all that the situation was left indefinite.

Sir Allen Aylesworth spoke very frankly about the deafness that has so terribly handicapped him, and told his electors that he could not undertake to run again if the present Parliament ran its regular course of two years more. If, however, the election should be brought on before that, he asked the meeting to give him time to think what he would do, and the matter was left at that.

THE C.P.R. RENUMBERS TRAINS FROM COAST TO COAST

Toronto, June 3.—Every train on the Canadian Pacific Railway bears a new number to-day. The change was made on Saturday night.

No two trains on the road from the Atlantic to the Pacific bears the same number, a fact unique in the history of railroading.

Trains running between Toronto and Montreal, known heretofore to the public as Nos. 3, 4, 5, 6, 98 and 99, will hereafter be known as 17, 18, 21, 22, 29 and 24.

A certain series of numbers has been allotted to through passenger and freight trains and local passenger and local freight trains, so that in the future the numbers will not conflict and will indicate the class as well as the territory in which the train runs.

COMPLETE NAVAL AUTONOMY FOR OVERSEAS DOMINIONS

London, June 3.—None of the delegates to the Imperial Conference would discuss a report current here two days ago that this body had voted in favor of complete naval autonomy for Canada, Australia and New Zealand, but that definite action had been taken is the inference to be drawn from the significant admission of one of the delegates, who, on being asked if the conference had acted upon the matter, replied: "My lips are sealed by a pledge, therefore I can neither affirm nor deny the report I cannot even discuss the matter now.

Another delegate said: "Is the story true? I cannot answer. I have given my word not to discuss this or any other that is before the conference."

All the delegates have passed their word of honor not to reveal anything withheld from the official report. The delegates seen were absolutely amazed when told that the matter was known outside the conference.

Their astonishment was so real as to give credence to the report.

400 BOATS IDLE ON GREAT LAKES

Buffalo, June 2.—With twenty big freighters swinging idly behind the breakwater here owing to scarcity of cargoes, and a heavy reduction in the number of boats in commission, shipping interests are taking a pessimistic view of the outlook for the season's business on the Great Lakes.

"Not in more than fifty years has there been such general slackening," said Capt. J. J. H. Brown, to-day. "Shipments are almost at a standstill at both ends of the lakes, and there are 400 boats idle between here and Duluth. Only half of the total lake vessel capacity is in commission at the present time, and one-third of these boats could take care of the business offered."

Official customs figures show a decrease of 70,000 tons in coal shipments from this port for May and a decrease of 295,000 tons for the first two months of navigation. Salt shipments show a decrease of nearly fifty per cent.

Shipments of cement have dropped from 365,000 barrels to 126,000 and railroad iron from 14,000 to 6,500 tons. Receipts of grain this week will be the smallest since the opening of navigation.

TEACHER WORTH $6,000,000.

Young Woman Refuses to Give Up Vocation for Life of Ease.

Atlanta, Ga., June 4. — Heir to $6,000,000 and with $30,000 now in her possession, Miss Lillian Swygert continues to follow her chosen vocation of a school teacher in the mill district of this city. Miss Swygert came to Atlanta six years ago to take a position as teacher. Soon after her arrival she fell heir to $16,000 upon the death of her father, $14,000 upon the death of her half sister, and several thousand additional left by another relative. Last November she was left $6,000,000 in the will of an uncle in Germany.

Mr. Smiff Won't Go.

Bobcaygeon Independent: Sir Jas. Whitney has gone to England to attend the coronation. Mr. Adolphe Smiff, the gentleman who writes the leading articles for this great journal received a very pressing invitation from George to be sure and come over for the fandango, that the string of the Palace latch was always outside for Smiff and the spare room always aired, but the old boy could not go. The fishing season opens on the 15th for one thing, and for another, the potato bugs are sitting around the garden fence watching for the taters to come through.

The Sweet Singer of Canada Sings the Reciprocity Song Before King George—Advt.

SERMONS LIKE STONES, FREE OF NUTRIMENT

Galt, June 3.—"I would as soon expect a boy to grow on a porridge made of sawdust as a religious mind on the matter served up from some pulpits. Some sermons are as devoid of nutriment as stones are of pepper and horse-raddish. Others are as enlarged and as elaborate as some productions of the milliner, and as unsuitable to the pulpit as the hats are for the pew."

In the foregoing terms Rev. Charles Deacon, of Fergus, spoke to the probationers at the Hamilton conference last evening. While disclaiming any intention to reflect on the preaching of to-day, he affirmed that such things as he had described did exist. The speaker said he had no love for religious controversy, and deplored the fact that everlasting hair-splitting was indulged in in some quarters.

This afternoon all the delegates to the conference will be entertained to a monster picnic in Victoria Park.

CHURCH FOOTBALL LEAGUE.

That St. John's is a good fighting team was again demonstrated on Saturday afternoon, when they trimmed the league leaders. A record crowd assembled to witness this match, as it was expected to be the match of the season, up to the present at least, and the result justified the expectations. It was a clean game and played fairly throughout by both teams and very ably and impartially refereed by Mr. Retton, who is certainly a capital referee. Both teams played their best and a splendid game was witnessed. At half time the score stood at one goal each. Result—St. John's 2, St. James 1. The winning team plays Coldsprings on the Exhibition ground on Thursday night. Kick off at 6.45.

MAY COST ONTARIO SEVERAL MEMBERS

Toronto, June 4.—The authorities at Ottawa have it figured out pretty accurately how the census is going to affect the seating capacity of the ensuing Parliament at Ottawa.

From what information can be obtained, Ontario is to lose five seats, and one of these is to be the seat now held by Mr. W. F. McLean, whose riding will be split up between Toronto and the other two Yorks.

There will be but one Huron, and probably only two Middlesexes.

The Maritime Provinces are to lose three of their present seats, and British Columbia is to be practically what it is now.

The big additions will be made in the north-western provinces, where there are to be twenty-five new seats and of these the Liberals figure on winning at least twenty, while they hope to increase their following in Ontario.

The basis of representation will be one member to every 33,000, instead of 25,000, as on the last census.

BIG COMBINE IN ALL FRUIT

Consolidation, Planned by Montreal, New York and Baltimore, Affects Leading Trading Concerns—Combination Headed by S. D. Giorgio.

New York, June 3.—(Special).—It is understood that arrangements have been practically perfected looking to the consolidation of the Atlantic Fruit Company, The Central American Growers and Transportation Co., J. Simon & Co., of Sama; the Simon Fruit Co. and other fruit and steamship concerns, in which Joseph Di Georgio and associates are interested.

To this end a new company is in process of formation, which will have a total authorized capital stock of $12,000,000. An issue of $5,000,000 bonds is also contemplated to acquire additional banana lands.

Mr. Di Giorgio will head the new combination the title of which, it is said, will be the Atlantic Fruit and Steamship Company, with headquarters in this city.

As a result of the consolidation the company will own a line of steamers which will be increased from time to time, according to the needs of the company. New York and Baltimore capitalists are understood to be associated with the new enterprise. Permanent organization is likely to be perfected in the early future.

"THE NATIONS' AWAKENING."

The Times is in receipt of a very pretty little folder from Messrs. Headley Bros., Ashford, Kent, England, showing the cost of war. On the front appears a cut of His Majesty King George and Sir Edward Grey, and on the opposite page President Taft.

The growing cost of war is shown in a startling way. In 1691 for Britain the total was £ 31,737,327, and for 1911, £29,360,700. The Franco-German war cost £544,000,000; the South African war cost Britain £211,000,000. The English killed and wounded amounted to 44,000 men and the Boers, 4,000. The Russo-Japanese war cost Japan £300,000,000, and Russia £300,000,000. The former lost 125,000 men killed and wounded.

THE WEATHER.

Local showers.

FOUR MILES OF SUFFRAGETS

London, June 3.—"The only thing that interests us," Miss Christabel Pankhurst once said, "is the impossible. We know that because we have done it." Certainly the ladies of suffragette persuasion, have managed to do some very startling and wonderful things, many of which, twenty years ago, their sisters would have thought impossible.

Their processions of last year were admittedly marvels of organization, and this year they will have one which by all accounts is to totally eclipse its predecessors. Instead of being two miles long the procession of June 17, is to be four miles in length, and instead of walking four abreast, as hitherto, the ladies are to walk seven deep.

The procession, a gigantic army of white-robed women, is to include a pageant of ex-prisoners, who have suffered in the cause, and a pageant of great women who in the past have helped to make their countries great.

STABBED WIFE EIGHTY TIMES

Gigantic Army of White-Robed Women Will Include a Pageant of Ex-Prisoners.

Pittsburg, Pa., June 3.—Angered because his wife gave a neighbor child $15 when she acted as godmother, Michael Kozur savagely stabbed his wife eighty times as she was preparing a meal in their home in Braddock. The woman is dying in the hospital. Kozur sat at the table and sharpened the knife as his wife was preparing the dinner.

The license fee for moving picture shows, which was placed at $100, has been lowered to $50.

ROYAL
5c 10c
BIG SHOW TODAY

The Royal has secured a big attraction for the first of this week in Perry Edward's Musical Comedy Company comprising ten performers, eight pretty girls and two gentlemen, presenting to-day, a hilarious musical comedy, "Hogan's Alley." Pretty girls, handsome costumes, catchy music. Don't miss to-day's great event of the season at the Royal at the usual prices, 5c and 10c.

MOTION PICTURES.

Another big change of Motion Pictures. Something grand and something new to be seen at every visit to the Royal.

Remember the Royal is the coolest and most comfortably seated place of amusement to go to in the evening—Big electric suction fan and eight ceiling fans going all the time.

ADVERTISE IN THE TIMES.

IN THE FAR NORTH

How the Queen of Holland Helped a Missionary

Rev. E. W. Greenshields, of Cumberland Sound, sailed for Moosonee diocese, a barren isolated region, in a boat commanded by a Dutch crew. One night while off the coast of Labrador their boat was sunk by an iceberg, and until daybreak the crew, in a lifeboat, faced death in an awful storm. Rev. Mr. Greenshields was the only one in the party who knew the coast, and he was able to guide them to an island, where they were fed and cared for by the Eskimos. News of the outer world penetrates this region but once a year, but sufficient particulars reached Holland regarding the heroism of the Anglican missionaries in the far north of Canada to enlist the sympathy of Holland's Queen in the work. The good Queen knighted Mr. Greenshields.

PROSPERITY FOR THE WEST

The Grand Trunk Pacific to Spend $17,000,000 this Year

Seventeen million dollars will be spent by the Grand Trunk Pacific during 1911 in constructing new lines and erecting station buildings throughout the West. There will be 600 miles of work undertaken on the Branch lines and completed during the present season. This will include the Calgary branch, Battleford branch, Melville-Regina branch, Alberta Coal Branch, Regina-Boundary branch, Moose Jaw branch, Prince Albert Branch, and Biggar to Calgary. There will also be 265 miles of main line track laid, as well as 300 miles further grading on the branch lines. Arrangements are also being made for the erection of 140 station buildings. This is the largest and most expensive year's work that the Grand Trunk Pacific has undertaken. The majority of new branch lines to be constructed will be laid in districts hitherto totally untouched by railroad development. Rapid strides have already been made towards completing the main line between Edmonton and the Coast, and up to the present 365 miles of steel has been laid. From Edmonton, going west, the line is completed as far as Prairie Creek, which is the entrance to the foot hills of the Rockies, and from the Coast, working towards the Rockies, 105 miles of track has already been laid. This year the work will be pushed ahead as rapidly as possible, and from Prairie Creek fully another 165 miles will be completed, while from the west end 100 miles are to be constructed. The Alberta Coal branch will tap an entirely new country by running a line from Bickerdike on the main line through the Pacific Peace coal fields, as well as those of the Yellowhead, and provision has been made for 69 miles of it to be constructed this year. Another entirely new branch will be constructed between Regina and Moose Jaw, a distance of 49 miles. Besides all this construction work a vast mileage of grading is to be accounted for, and this will be carried on to the extent of two hundred miles on the Regina Boundary Branch branch and those others which will not be completed. In addition to the above, the Company is erecting some of the largest bridges in the West. Over the Red Deer River on the Tofield-Calgary branch an enormous bridge, 200 feet high, is now under construction. Another huge bridge has just been completed at Prairie Creek on the main line. A third is to be constructed farther west over the Athabaska River. Another over the Skeena River, which is to be the largest on the Transcontinental.

MISTY MORN
A Canadian-bred beauty, owned by Mr. Macmillan Jarvis.

DAY FOR KILLING GOPHERS

The Prize-Winner Killed 514 of These Animals

Days are set apart in various places for a great variety of objects, and certainly one of the most unusual days is one set apart for killing gophers. Medicine Hat, Alberta, held its second annual gopher day. Owing, probably to there still being several inches of snow on the ground, the gophers killed this time were fewer in number than those slaughtered a year ago. However, enough were destroyed to give this season's crop a better chance for growth. The supper and entertainment following upon the day of killing were well enjoyed, and it is said that there will be no difficulty in celebrating gopher day every year—if the gophers can stand it. The man who won the prize for the greatest destruction killed five hundred and fourteen gophers, and the winners of second and third prizes accounted for two hundred and one hundred and fifty-three, respectively. The winners seem to be in the same class as several royal hunters in Europe who are noted for getting great bags in their vast hunting grounds.

Stopped Runaway.

On Thursday at noon, Mr. Briggs, of the Quaker Oats Company stopped what might have proved a disastrous runaway, when he rushed out and stopped a cayuse's heads that was coming down Hunter street at a rapid pace. The animal, frightened by the noise of a passing motor, was trying to make its escape from the harness by the kicking and after considerable jerking brought it to a standstill.

PROTECT THE HOMES

Strong and Healthy Children the Bulwark of the Country

Mrs. Asa Gordon, editor of the White Ribbon Bulletin, Ottawa, says that to produce a strong nation we must produce strong and healthy children, but the evils that threaten the homes were apparent to everyone. Among the more common evils that must be combatted, Mrs. Gordon enumerated the following: Cigarette smoking, cheap novels, cards, drink, and the social evils, including the white slave traffic and impurity in the schools. The great responsibility rested on the home, and the W.C.T.U. was therefore the greatest organization of women in Canada. Mrs. Gordon contended, since it stood first and foremost for reform in the home. Women's missionary societies and patriotic organizations have but a second place in moral reform, she said. Women alone should make the laws that govern them and their children, according to Mrs. Gordon's views. "I don't believe it was ever intended for men to make laws for women or children," she said. "Men have schemes continent-wide, such as engineering feats and all the great works of industry and enterprise, but they cannot come down to legislate for women and children. For instance, no woman would ever sign a law to commit a child to jail. Children are never criminals—they are delinquents. Nor would any woman sanction a law permitting the marriage of a girl twelve years of age, as was formerly the law of Manitoba, and is to-day legal in the Province of Quebec."

COURTESY IN THE OFFICE

The head of a typewriter factory sales staff observed the other day, that, with few exceptions, it was easier—much easier—to secure an audience with a millionaire director or a high-salaried executive head when you really had business with him than it was to consult the ledger keeper or chief office clerk; comparatively less difficult to interview a cabinet minister than a chief messenger. Men who have risen from the ranks are often more courteous and approachable than the understrapper who holds down a fifteen dollar-a-week stool.—Canadian Century.

AGAINST IMPERTINENCE

In a wholesale fur house in Quebec, known from one end of Canada to the other, more people have been discharged for returning an impertinent or querulous reply over the telephone or counter than from any other cause. From the time an employee in the service until he reaches the highest post, the mandate is urbanity.—Canadian Century.

NOTICE TO CONTRACTORS.' TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope "Tender for Station Buildings,' will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.
Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.
Section 3.—From Mile 5 to Mile 105 east of Quebec bridge.
Section 4.—From the Quebec bridge westward to Mile 45.
Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.
Section 6.—At Cochrane in the Province of Ontario.
Section 7.—From the divisional
Section 8—From Moncton to Napadogan, in the Province of New Brunswick.
Section 9.—From Mile 125.5 to Mile 159 west of Moncton.
yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.
Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.
Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario,
Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,
P. E. RYAN,
Secretary.
The Commissioners of the Transcontinental Railway.
Dated at Ottawa, this 12th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realising handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $200 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of it is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some idea about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

BALLOT-BOX THE THING

Labor Leader Says Day for Strikes is Past

In an address to the Labor men of St. Catherines, President McLaughlin of the Dominion Trades Congress, laid down the principle that if labor is to obtain proper recognition it must send representatives to the Municipal Councils, Legislatures and Parliaments. He said the day of obtaining redress by strikes is rapidly passing. The only means now at hand is the ballot box.

Referring to the Los Angeles case, he said he personally knew McNamara, and could not believe his guilty of the dynamite charge. He declared that in order to convince labor of the ironworkers' guilt the case would have to be decided by some tribunal other than the courts of the United States. The methods of the detectives in effecting the arrests were severely denounced.

NEW LIEUTENANT-GOVERNOR

Sketch of the Career of Sir Francis Langelier

Sir Francis Langelier, the new Lieutenant-Governor of Quebec, early won a name in his native province as an able and sagacious lawyer. After a brilliant career at Laval he was called to the Bar in 1861. After a short stay in Paris he was appointed professor of Roman law and later professor of civil law and political economy at Laval. He was created a Q.C. in 1878. He has published a number of books on law. He was elected to the Quebec Legislature for Montmagny in 1873 and for Portneuf in 1878. He has also represented Megantic and Quebec Centre in the House of Commons. He was a Commissioner of Crown Lands and afterwards Provincial Treasurer in the Joly Cabinet of Quebec. He married Virginie Marie Legare of Quebec City, but she died in 1891. His appointment as Chief Justice of the Superior Court of Quebec dates from 1907, and he resigned his seat for Quebec Centre to accept the office. He was created Knight Bachelor in June, 1907.

BROTHERS DIE TOGETHER

Joseph and Bernard Dugan, two brothers, lost their lives off Prospect, N.S. They left their home in an auxiliary boat to attend to their trawls. The men did not return, and a small steamer which arrived at Prospect reported having seen an upturned boat and a man's cap floating in the vicinity of the place where the Dugan brothers were last seen before a heavy squall came along.

DUKE AS EMIGRANT AGENT

The Duke of Connaught, in receiving the freedom of Glasgow, referred to his Canadian appointment. No dominion beyond the seas had more Scots than Canada, in whose advancement and prosperity they played an important part. Emigration from Britain must be expected to continue, and he hoped more would wend their way Canadaward.

A HOT SUMMER

Is Predicted this Year—Canadians May Expect Surplus Heat from Continent of Europe

A famous European weather prophet has just declared that the coming summer is to be far and away the hottest of the last five years. He points out that since 1906, which was very warm, the summers have all over Europe been remarkable for rain and low temperatures.

These four year spells of bad summers, he declares, always end in an exceptionally hot one.

Weather, according to his theory which is accepted by many meteorologists, runs in twenty-year cycles. There are fifteen variable summers then four particularly poor ones, and then a blazing hot one. Then the cycle starts all over again. He quotes as proof the years from 1886 to 1891 and those from 1866 to 1874. In both these cases four wretched summers were followed by a brilliant one. And a brilliant, blazing one is due now in Europe. Perhaps it will be so in Canada, too.

This is not the first time the suggestion has been made that the weather is a sort of merry-go-round, and that when the clerk of the weather has worked through his supply he starts and gives us the same all over again.

In Shakespeare's time it was believed that the merry-go-round took forty years to turn." Later, the weather-wise declared it was eighty-one.

Thirty years ago many meteorologists, noticing that in those years in which sunspots were thickest cyclones were unusually prevalent, suggested that the weather cycle took eleven years to turn, because it is every eleventh year that sunspots come thickest. But this theory, like the older ones, was soon abandoned.

One reason why there have been so many different theories is that there need not to be sufficiently accurate weather records to test them by.

The meteorological offices of Europe would be very glad if they knew what the weather was like a hundred years ago as well as they know the weather of the last thirty.

So the newest theory, the one that makes this coming summer a brilliant one, is the only one that meteorologists are inclined to accept, for it is the only one that has stood the test of experience.

The theory that Europe's cycle of weather turns once in twenty years is not based simply on the weather of recent years.

A theory that deals in periods of twenty years must be ancient to be reliable. Luckily, the dates of the grape harvests of France and Germany can be traced back nearly a thousand years, and from the date of each year's harvest estimates have been made of the amount of each year's sunshine.

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all

CURES CATARRH

Stomach dosing was found ineffective, and the principle of inhalation was finally perfected. Even the Romans and the Ancient Greeks used it, but not in the scientific manner that the physicians prescribes to-day. The most wonderful results have been secured with a new treatment known as "Catarrhozone," which sends germ destroying vapors directly into the air passages of the nose, throat, bronchial tubes, and lungs.

Sick. Pure Essences are Breathed Right to the Spots That Are Sick. Cure Follows.

Catarrhozone proves especially good in those chronic cases where mucus drops down the throat, sickens the stomach, and pollutes the breath. When the nostrils are stuffed, only a few breaths through the inhaler are needed to clear the passages, and where there is coughing and sore bronchial tubes, the soothing, healing properties of Catarrhozone act almost as magic.

Once you stop taking medicine into the stomach and get the healing oils and pure balsams of Catarrhozone at work you can be sure of quick and lasting cure for nose colds, catarrh, weak lungs, bronchitis and speaker's sore throat.

CATARRHOZONE.

Beware of imitations. Three sizes, 25c, 50c and $1, the latter being guaranteed. Sold by all dealers in medicine, or by mail from the Catarrhozone Co., Kingston, Ont.

Strawberry Festival.

The 57th Regiment Band announce that they will hold a concert, strawberry festival and social in the Riverside Park on the evening of Friday, June 23. The directors of Riverside Park have kindly placed the beautiful grounds at the disposal of the band, and it should be an ideal place for the holding of such an event. Further announcements will be given later.

The Times at Summer Resorts.

Readers of The Times leaving the city during the summer months, may have The Times mailed to any address during their absence. Orders left at the Times' bookstore will receive attention.

ADVERTISE IN THE TIMES.

The Morning Times

MONDAY, JUNE 5th, 1911.

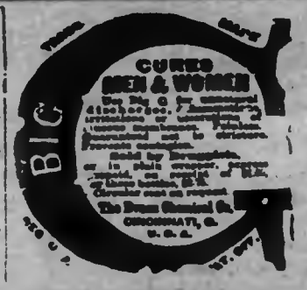
BOATING ACCIDENTS.

The recent boating accident in Humber Bay near Toronto, by which two young ladies lost their lives, should be a warning to every one, even those who feel confident as to their ability to manage a boat and to swim, says the Kingston Standard. The two young men who were saved could swim and knew fairly well how to manage a sail boat. In addition to that, the boat—a sailing dinghy—is supposed to be one of the safest crafts afloat, almost impossible to capsize; and yet that is just what happened. The young ladies did not change their seats when the boat was being brought about and over she went leaving all four struggling in the water.

No matter how seaworthy a sailing boat may be she will capsize under certain circumstances, so that there is no absolute safety, even with the most skillful management; and, *of course, if there is ignorance of* the art of sailing, the danger is ten-fold greater. It has often been said that one cannot capsize a dinghy even if one tries. The Humber accident proves this statement to be false. But when we come to a different form of craft, like the canoe, it is simply tempting Providence for inexperienced people to venture out in one in anything like stormy weather—it is bad enough in calm weather when one lacks experience—and this no matter how powerful a swimmer one may be.

Yet, in spite of warnings, young people will risk their lives in small craft about which they know little. If no warnings can prevent this, then their escort should at least see that there are some life preservers in the boat. If the Toronto dinghy had been provided with life preservers, the two young ladies referred to would in all probability have been alive to-day.

The woman of to-day who has good health, good temper, good sense, bright eyes and a lovely complexion, the result of correct living and good digestion, wins the admiration of the world. If you digestion is faulty Chamberlain's Stomach and Liver Tablets will correct it. For sale by all dealers.



MUNICIPALITY OF NORTH MONAGHAN

COURT OF REVISION

Notice is hereby given that the first sitting of the Court of Revision for the Township of North Monaghan, will be held in the Town Hall, on Monday, the 5th day of June, 1911, at two o'clock in the afternoon.

Those interested are asked to attend.

G. W. BENNETT.
Township Clerk.
North Monaghan, May 20, 1911.

TENDERS FOR STEEL BRIDGES

Tenders (endorsed Tender), will be received by the undersigned for the steel work or superstructure of two bridges known as Spencer's Bridge, Dummer, and Brown's Falls Bridge, Burleigh., in the County of Peterborough, up to One O'Clock P.M.,

JUNE 19th, 1911

The lowest or any tender not necessarily accepted.

Plans and specifications may be obtained from the County Clerk or seen at the County Office, Peterborough.

ED. M. ELLIOTT,
County Clerk.
Peterborough, May 29th, 1911.

CANAL NOTES.

The first three piers and the concrete bottom of the new dam are now in on the south side and the carpenters are busy building on the formes for the top of the dam to cover the piers, which will complete all the work inside the coffer dam. The coffer dam work on the north side from the lock approach wall has been going steadily on and the work of sheeting up has commenced ready for putting in the pumps for unwatering. The north piers will be built before any more are constructed on the south side, the construction working towards the slide from the north.

The No. 8 dredge has been very busy at the cut taking out immense quantities of blasted rock and keeping the tugs more than busy handling the scows.

The new tug, the Nitche, is having her new boiler installed to replace the first boiler, which leaked badly, and will be in commission again in a few days.—Hastings Star.

Cuban Grape Fruit Groves Pay
Enormous Dividends

A SAFE AND SURE
INVESTMENT

Ninety miles west of Havana lie the beautiful Manhattan Estates in the heart of Cuba's most profitable and beautiful section. We intend, with your co-operation, to develop 502 acres of this wonderful sandy soil into a prosperous and self-sustaining institution of rich agricultural products.

It requires a large amount of money to go into this business properly, and it takes considerable time for the grape-fruit trees to mature.

When they are three years old they will each bear on an average one box, which is worth not less than one dollar on the tree. The fourth year we average three boxes per tree, which means $4.00, and this continues until the seventh year, when the average from a tree amounts to between seven and twenty crates; retailing in the Canadian and American markets as high as $10 a crate.

But bear in mind that these trees in full bearing will not have cost more than five dollars each, consequently once maturity is arrived at the profits are continuous and tremendous.

As we intend planting over 40,000 grape-fruit trees, you can readily see that 100 per cent. annually is a conservative estimate.

We Pay Our Way As We Go.

During the past year I have placed many dollars' worth of stock, mostly amongst my relatives, personal friends and business acquaintances. I HAVE TOLD THEM WHAT I HERE REPEAT TO YOU, that I am giving the affairs of this company, and will continue to give them, as careful attention as if I owned the whole company, and I AGREE NOT TO RECEIVE ONE CENT OF SALARY for my services until after I have made the company pay you DIVIDENDS OF TWENTY-FIVE PER CENT. ON EVERY DOLLAR YOU INVEST WITH ME IN THIS ENTERPRISE.

When you and I receive twenty-five per cent. on our investments, I will not need a salary, and right here I want to state that we have agreed that NO SALARY SHALL BE PAID TO ANY OFFICER until at least twenty-five per cent. dividends have been earned and paid to all our stockholders.

Further—we have no bond interest to meet; we do not even have to pay any taxes until we have an income. EVERY DOLLAR RECEIVED WILL BE USED FOR THE DEVELOPMENT OF THE COMPANY'S PROPERTY.

Commercial grape-fruit orchards are wonderful wealth-producers.

I want to draw a check to your order for 100 PER CENT. DIVIDENDS EVERY YEAR, and I not only want to do it, but expect to do it.

I have thoroughly investigated the possibilities for profit in growing grape-fruit on a large scale, and have seen the actual results accomplished.

YOUR MONEY SHOULD WORK FOR YOU AS HARD AS YOU WORK FOR IT, and I am desirous for this reason that you know the grape-fruit industry as I know it, and I want you to send for our booklet de luxe, fully illustrating and describing this wonderful and prosperous industry.

(Signed) S. J. MURPHY.

STATUTORY INFORMATION

(Filed with the Provincial Secretary of Ontario)

Authorizad Capital $200,000 **Shares $100.00 Each**

1. The incorporators and at this date directors are E. V. O'Sullivan, John M. Ferguson, and James E. Day (Barristers), James A. McNevin (Law Student), and Mary Donevan, Eileen Jamieson, and Amy I. Naftel (Stenographers), all of 34 Victoria street, Toronto. Any shareholder not in arrears is qualified to be a director. The by-laws provide no remuneration for acting as director except fees and traveling expenses for attending meetings. Directors may be paid for special services.

2. Each incorporator subscribed for one share, 7 in all, and by by-law of the Company 993 shares are to be issued to Sterndale J. Murphy, of Toronto, who is the vendor to the Company, under an agreement between him and it dated 4th January, 1910, for the sale of certain Cuban lands, the consideration being 993 paid-up shares, $700 cash, and the assumption of a debt of $9,000.00 on the land, payable in instalments (until Nov. 15, 1912) to the Cuban Commercial Company of Havana, under contract between it and Mr. Murphy, dated 3rd December, 1909. Copies of these contracts may be inspected on any business day at the office of the Company's Solicitors, Day, Ferguson and O'Sullivan, Toronto. The preliminary expenses are incorporation and legal fees and printing, and are estimated at under $1,000. No commission has as yet been authorized on sale of stock, but the directors may authorize payment of a commission not exceeding 25 per cent.

3. To make the contract binding it has been decided to go to allotment on receipt of application for one share. Shares are offered for sale on the terms that 25 per cent. be paid on allotment, 25 per cent. three months thereafter, and balance on call of the directors, calls not to be more than 25 per cent. of the subscription, and at least three months to elapse between calls.

CHILD SUICIDE NOW EPIDEMIC IN VIENNA.

Scarcely a Week Passes Without Record of Case or Attempt at the Crime.

Vienna, June 2.—Hardly a week passes in Vienna without the record of an attempt at suicide by some child of tender years. Sometimes a pitiful scrawl is left recording the state of mind that led to the resolve to put an end to the troubles of life; more often parents or school masters are left to draw their own conclusions.

Yesterday a child of 12, a daughter of a worker in a Vienna factory, lost a half penny, and, being afraid of punishment, she went up stairs, took down her father's gun and shot herself. Fortunately the child was not fatally injured. Last week a schoolboy of 9 in Vienna broke the straps of his school satchel. He bolted himself in a small room and hanged himself out of the window through chagrin at the accident.

This sort of thing has become so common that it is now treated as somewhat of a joke. For instance, the boy of a secondary school in a small provincial town caused a panic among the staff of teachers on April 1 by hanging a dummy, dressed to resemble a schoolboy in the usual uniform and a school cap, to the top of a high tree in the playground. At the foot of the tree a paper was pinned, "I was forced to do this, as I was not put up a class at the end of the term."

As the dummy was a fair imitation of a small boy and hung far above the heads of the assembled teachers, it caused a considerable stare, until the carpenters had flung it down—when everybody remembered it was April 1.

Fatally Shot Over Bowl of Sugar.

Chicago, May 30th—Because he refused to pay 25c for a bowl of sugar which he had spoiled by pouring a cup of tea into it, Carl Johnson, 19 years old, was shot and fatally wounded yesterday by Charlie Moy, owner of a chop suey restaurant. Moy is held at the police station charged with manslaughter.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM BUNTON, LATE OF THE CITY OF PETERBOROUGH, IN THE PROVINCE OF ONTARIO, TICKET AGENT, DECEASED.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Sec. 38, that all persons having claims against the estate of the said William Bunton, who died on or about the 17th day of January, 1911, are required on or before the 15th day of June, 1911, to send by post, prepaid, or deliver to Mr. R. J. Fleming, Victoria Life Building, Hamilton, Ontario, Solicitor of the said estate, their Christian and surnames, addresses and descriptions, the full particulars of their claims and the nature of the security, if any, held by them; and

TAKE NOTICE, that after said last mentioned day the said administrator will proceed to distribute the assets of the deceased amongst the persons entitled thereto, having regard only to the claims of which he shall then have notice, and that the said administrator will not be liable for any claims or demands or any part thereof of any person of whose claim notice shall not have been received by him, and such person shall be precluded from recovering any part of the said assets of which the said administrator shall have distributed.

Dated at Toronto this eighth day of May, A. D. 1911.

A. P. POUSSETTE,
Solicitor for the said Administrator,
62 Bond Avenue, Toronto.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of three years from date of homestead entry (including time required to obtain patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth $300.00.

HAVE YOU ATTENDED

Ogilvie's big flour demonstration now going on in your city? If not you are missing an educational treat in cookery. The ground floor of the T. A.S. Hall, Simcoe street, has been rented for this purpose. Demonstrations commence at 2.30 sharp. Afternoon tea served free to housewives until June 7th.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards Easy payments, 10 per cent cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

GIGANTIC FEAST FOR BABY HEIR

Rejoicings for the Infant Son of Lord Fitzwilliam—Miner Guests Who Raise His Wealth

Viscount Milton, the five-weeks-old son of the Earl and Countess Fitzwilliam, was christened in the private chapel of Wentworth Woodhouse, the most splendid mansion in England. Monster rejoicings of the Earl's tenants took place in the great park around the house, where eight great tents were filled with the seven thousand guests invited to the feast. The baby who was the hero of the day is the child of good fortune. He is the long-awaited heir of many millions, the future owner of many great estates in England, Ireland, and Canada and some of the richest coalfields in Yorkshire belong to his heritage.

It was strange to think of that baby, with its blinking eyes and tiny, helpless hands, receiving the homage of the great strong laboring men, toilers in the darkness of the earth. One day that little pink morsel of humanity will have the power of vast wealth, and will be the lord over these men's lives.

The child was christened in the private chapel of Wentworth House, and only the Earl and Countess, with their immediate relatives and closest friends, were present. Mr. Venn, the vicar and private chaplain, conducted the service, and in the gallery the Wentworth Church Choir sang an anthem of thanksgiving and joy. Afterwards, in the dining-room of the mansion, Countess Fitzwilliam cut the christening cake in the presence of his lordship the baby, who regarded the operation with great gravity, and of numerous guests.

The cake was much larger than the baby. It was a giant cake of wonderful architecture, suitable to an infant who is to be so monstrously rich. It weighed eight hundredweight and was nearly six feet high. At the top was a cradle containing a sugar baby, surrounded by sugar cherubs. It around the admiration and enthusiasm of four little girls, to whom the arrival of a baby brother has brought a new source of delight.

Immense preparations had been made for the entertainment of the seven thousand guests. On the broad lawns were many great marquees, and tables were spread for a mighty feast. Sir Joseph Lyons was the caterer, and it taxed the resources of even his company to provide for so many guests so far from London.

A special train left St. Pancras with an army of 300 waiters, eight truck loads of food, cutlery, and china and linen, amounting to eighty tons in weight. All the morning they were busy in and out among the trees preparing one of the most gigantic picnics ever held in an English park. By the afternoon they were ready down to the last knife and fork, for the invasion of guests.

Brass bands played on the lawn, and and in one part of the park there was a great fair, with steam roundabouts and swings. The miners and their lasses danced old Yorkshire dances in the open air, and enjoyed themselves with hearty enthusiasm. An ox was roasted whole, and the smell of the meat rose as rich incense into the air, and put a keen edge on the appetites of men who, as Yorkshiremen, are always ready for a square meal. Carvers flourished their knives and cut off slices of the well-browned meat. In a little while there was only a carcass with gaunt ribs.

In the tents where the miners sat down to the long tables there was a great clatter of knives and forks, a tremendous din of voices speaking in the broad Yorkshire dialect, and roars of laughter that shook the tent poles. Glasses were raised to the health of the young heir, and when Earl Fitzwilliam came among them, putting a hand on this man's shoulder, giving a hand clasp to this man and that, with a hearty word and a cheery smile for all of them, they sprank to their feet and gave such cheers as scared all the rooks in the park.

For these miners have a soft spot in their hearts for Earl Fitzwilliam. He is a good sportsman and a good soldier, and he has the spirit of adventure in his blood. In the South-African War he fought at the head of some of his own Yorkshire lads. He went out on a romantic voyage to search for the famous treasure of the Cocos Islands, and had a hairbreadth escape from death. He is a generous-hearted man and simple in spite of all his wealth, and so the miners who work for him were glad because of the luck that has come to him with a son and heir.

In the afternoon and evening there was a great display of fireworks, and high above the quiet park rose swift rockets bursting like shells and scattering balls of colored light and golden showers of stars which were reflected in the mirror of the broad lake.

The baby's wrap at the christening was the scarf which William the Conqueror took from his arm at the Battle of Hastings in 1066 and handed to an ancestor of Earl Fitzwilliam as a mark of appreciation for valor and service.

TORTOISE SHELL

The Finest Specimen is Said to Come From the Indian Archipelago

The finest tortoise shell is said to be that which comes from the Indian Archipelago, although much of that obtained on the Florida coast is of the very best quality. There are three rows of plates on the back of the animal, called "blades" by the fishermen. In the central row are five plates, and in each of the others four plates, the latter containing the best material. Besides these there are 25 small plates round the edges of the shell, known as "feet" or "noses." The biggest turtle does not furnish more than 14 pounds of shell. Formerly the undershell was discarded as worthless, but now it is much esteemed for its delicacy of coloring. Sometimes imitation of tortoise shell is made of the horns of cows.

TRAVELS 10,000 MILES

Seven Weeks Old Son of Army Officer Holds Record

Howard, son of Major and Mrs. Horace D. Bloomburgh, who arrived in Atchison, Kansas, with his mother, since his birth, seven weeks before, has travelled 10,000 miles. He went from Manila to San Francisco on an army transport. He is believed to be the greatest travelled baby of his age in the United States.

RECEIVE $25,000 YEARLY FOREVER

Descendants of the Farmer Who Hid Charles II. in the Oak Tree Still Receive $3 a Week

The fact that Mr. Gerald Balfour resigned his pension of $5,000 a year, granted for his services as President of the Local Government Board, recalls many interesting things about pensions in particular and general.

Mr. Brodrigh successfully waged war against the granting of perpetual pensions. Now there remain only three. The heirs of the Duke of Schomberg, $2,600; of Lord Rodney, $10,000, and of Lord Nelson, $25,000. In 1837 no fewer than $30 perpetual pensions were commuted for a little over $3,500,000.

In 1891 the Duke of St. Albans commuted his pension, a sinecure assigned to his ancestors by James II. as Master of the Hawks, for close on $150,000.

The Earl of Rodney's pension was granted by George III., and has already cost the nation well over $350,000.

The Power of Kings

Until quite lately, $10,000 a year was paid to the descendants of Signor Henry de Nassau d'Auverquerque. The Bank of England acquired it recently. It was granted in 1694 by William III., and so little is known about it that Sir R. E. Welby, Secretary of the treasury in 1887, when questioned, could only reply that the Signor was an adherent of William III., and the King had the power to grant such pensions.

But older still is the pension that was granted by Charles II. to a farmer named Richard Penderel. He was the identical farmer who hid the King from the pursuing soldiers in an oak tree. The pension filtered down through one source and another, generation after generation, and in 1906 applications to the courts resulted in holding a little girl as the legal successor of Penderel, and the granting to her of nearly $5 a week.

Ex-Ministers are rewarded with pensions according to their salary and number of years of service. The best pension that is to be obtained by an M.P., though, is the one granted when the Speaker retires.

While he is in office he gets $25,000 a year, and on his retirement he is paid $20,000 a year for life, with a seat in the House of Lords.

Viscount Cross, ex-Home Secretary, has made a good thing out of his services. He was Home Secretary for about seven years, and received in all $175,000 in salary. When he retired from office he was granted an allowance of $10,000 a year, and up to date has drawn another $175,000 from that source.

Lord George Hamilton is another who gets $10,000 a year, and many others are paid various smaller amounts.

$150,000 a Year for Judges

A grateful country, however, rewards its servants far more handsomely than is generally believed. It costs the Government, for example, about $150,000 a year to pension off its judges alone. Last year the annual pension bill for judicial services had risen to $215,000.

Mr. Gerald Balfour is not the only one who has given up his pension. Almost exactly two years ago Sir John Gorst, a member of the famous Fourth Party, gave up $6,000 a year.

Admiral Sir Nathaniel Bowden-Smith, who retired from the Navy a few years ago, absolutely refused to accept one of the vacant pensions of some $1,500 a year. He stated that there were others who needed it more than he did, and hoped that the Admiralty would see fit to let some famous sailor come into his own at an earlier period than would otherwise have been the case.

The home of the pension hunter, though, is undoubtedly the United States. The story of the American Army pensions reads like a romance.

There is, to start with, a Pensions Bureau, with a staff of 2,000. It deals with some quarter of a million claims for army pensions every year.

It is well over forty years ago since the Civil War ended, yet every year an average of 14,000 claims come in to the Bureau.

Pension Sharks in U.S.A.

The war with Spain is now twelve years old. Yet to-day the number of those drawing pensions is equal to the number who actually took part in the fighting.

People are actually receiving pensions for the war with Mexico that happened sixty-four years ago. There is a class of people in the United States, known as "pension sharks," and, owing to their activity the number of pensioners has risen from 85,966 in 1865 to 946,194 in 1900. A large number of these pensioners never served in the field, and many have no need whatever for a pension. Last year the annual grant for this gigantic fraud amounted to $200,000,000.

Of curious pensions that have been granted a page might easily be filled. The French taxpayers, for example, are still paying out for a shooting accident which happened over 150 years ago. In 1755, the Dauphin, while out partridge shooting, accidentally shot one of his suite. He was so seriously injured that the king granted a pension of $1,200 a year to him and his descendants for ever.

GENEROUS CARNEGIE

Hamilton Library Board received a letter from Andrew Carnegie, in which he offered to increase his gift for the new Hamilton library from $75,000 to $100,000 if the board would undertake to spend $12,500 each year on its maintenance. As the city already spends $22,000 on the library, the Secretary was instructed to at once notify Mr. Carnegie that his generosity was appreciated and his gift accepted. It is likely that the money will be spent in making the building more elaborate, as the plans and specifications have already been adopted.

BRITISH EDUCATIONISTS

For the purpose of inspecting the schools which are especially engaged in industrial, technical, commercial, and applied art training, four distinguished English directors of education are in Canada. Each member of the party is studying a special department or departments of education. Mr. Donald, of Barnsley, is making a special study of commercial work; Mr. Sharpe, of St. Helen's, is studying technical education; Mr. Pinkus, of West Bromwich, is interested especially in manual training, domestic science and art, and Mr. Johnson, of Ealing, in music and general education.

CANADIAN FOLKLORE

A Legend of the St. Lawrence Found Among Mr. Weyeth's Papers

A legend about the "High Rocks" near Brockville has been found in verse among the papers of the late Mr. H. C. Weyeth. The story tells how Claire, a young novitiate among a company of French priests, encamped near the St. Lawrence (then the Cataraqui), wandered away into the forest one moonlight night, and was lost, his friends, after prolonged search giving him up for dead. He, however, had sunk down exhausted and fallen asleep.

"Claire slept and woke and started,
For a maid stood by his side;
'Twas the White Fawn, Great Wolf's daughter,
And the fled Knife's promised bride."

The maiden lifted him up and led him to the recess in the rocks, nursed him tenderly, and by signs and nods, frowns and smiles made him understand that to leave his retreat meant death.

Meanthme Red Knife wondered at the coldness of his promised bride, and an accident gave him the clue. White Fawn fell one day returning from the cave and sprained her ankle, and, lying in her wigwam for days, she worried about Claire. At last she made up her mind to confide in her bosom friend, the Swan, so that she might get word to him. It was an unlucky decision, for the Swan was secretly in love with Red Knife, and triumphantly told him the news.

In demon rage he hurried to the shore, slew and scalped her lover and awaited White Fawn. When at length she came and saw her dead she made one wild leap from the precipice into the waters below and was lost forever. Then

"The spirit seized the Red Knife,
And narrowed the cavern walls,
And the murderer, caught between them,
For mercy faintly calls.

"And yearly the walls closed in,
And the Red Knife screams in pain,
Louder and sharper ever,
As the year comes round again

"When God speaks in His thunder,
When the High Rocks drip with spray,
Draw near the cavern, stranger,
Thou shalt hear the redskin pray.

"And the Sachems drowned the Swan,
For her falsehood 'neath the waves,
That murmuring of the lovers,
Chant a requiem o'er their graves.

"Some half-effaced rude pictures,
Which the moss-grown rocks still keep,
Are left to tell the story
Of the Indian Maiden's Leap."

It is said that there is a peculiar echoing sound of the waters about the cave that may have given rise to the story of Red Knife's pain and prayers. These legends of early life in Canada are valuable records.—Ross Rambler.

LADY EILEEN BUTLER

One of the six young women chosen by Queen Mary to act as train bearers at the Coronation. Lady Butler is the eldest daughter of Lord and Lady Lanesborough, and is 19 years old.

BONAR LAW'S RETORTS

Canadian in British Parliament Has a Reputation for Repartee

The heckler does not get much change out of Mr. Bonar Law, the Canadian elected M.P. for Boot'e, England. At a meeting in Dulwich on one occasion he was referring to the baby-like language of a proclamation addressed to the Chinese Coolies in South Africa, when someone shouted out that it was written by Lord Selborne. To which Mr. Law immediately replied, "I really do not believe it; but if it is written by Lord Selborne there is only one possible explanation. He knows that it is intended, not for the Chinese, but for the House of Commons, and he has written the proclamation down to the level of the present House."

Mr. Law was speaking in Glasgow during one General Election, and happened to refer to the attitude Mr. Balfour then took on the fiscal question. He pointed out that the "English people love compromise," and instanced the course taken by Henry VIII. at the time of the Reformation. At this juncture the following question was handed up to be considered: "Is the candidate aware that Mr. Balfour is a bachelor and that Henry VIII. was much the reverse?" "Yes," was the candidate's apt retort; "but possibly Mr. Balfour might not be a bachelor if he could be sure of getting rid of his wives as easily as did Henry VIII.!"

GOVERNMENT HOUSE

The new Government House of Ontario will be built in North Rosedale, at the head of Glen Road, a short distance to the east of the St. Andrew's College Gardens. The property is a portion of Chorley Park, belonging to the estate of the late John Hallam and contains 12 acres. The price paid was about $125,000.

ADVENTURE OF A QUEEN.

Woman and Policeman Hurt in Scene in Which Wilhelmina Figured.

The Hague, June 2.—Queen Wilhelmina, while driving with Princess Juliana, has had a startling adventure. A woman suddenly stepped off the pavement and threw a large, white envelope into the royal carriage.

A policeman on a bicycle who was escorting the carriage, dashed for the woman, but he lost control of his machine, knocked her down and fell under the wheels of the carriage.

The Queen clasping the little princess in her arms, ordered her carriage to stop, and the two victims were picked up. Neither of them was badly injured. The woman, who imagines that she is being pursued by enemies, had written a letter to the queen begging for protection.

Cold on The Chest

Had Suffered for Weeks—Used Fourteen Different Remedies Without Effect.

Cured Quickly By "NERVILINE."

No stronger proof of the wonderful merit of Nerviline could be produced than the letter of Miss Lucy Mosher, who for years has been a well-known resident of Windsor, N.S.

"I want to add my unsolicited testimonial to the efficacy of your wonderful liniment, "Nerviline." I consider it the best remedy for a cold, sore throat, and wheezing tightness in the chest, etc., and can state that for years our home has never been without Nerviline. I had a dreadful attack of cold, that settled on my chest, that fourteen different remedies couldn't break up. I rubbed on Nerviline three times a day, used Nerviline as a gargle, and was completely restored. I have induced dozens of my friends to use Nerviline and they are all delighted with the wonderful power over pain and sickness.

TESTIMONIAL NO. 3785.

"You are at liberty to publish this signed letter, which I hope will show the way to health to many that need to use Nerviline.

(Signed) "LUCY MOSHER."

All sorts of aches, pains and sufferings—internal and external—yield to Nerviline. Accept no substitute; 25c per bottle, or five for $1.00. All dealers, or The Catarrhozone Company, Kingston, Ont.

DEPARTMENT OF RAILWAYS AND CANALS.

ONTARIO—ST. LAWRENCE CANALS.—RAPIDE PLAT CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Improving Lower Entrance to Lock No. 24," will be received at this office until 16 o'clock, on Friday, June 9th.

Plans, Specifications, and Form of Contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $9,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.
Department of Railways and Canals,
Ottawa, May 19th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

JUDICIAL NOTICE

TO THE CREDITORS OF

Canadian Cordage and Manufacturing Co., Ltd.

Pursuant to the Winding-up order, made in the High Court of Justice in the matter of the Canadian Cordage and Manufacturing Company, Limited, and in the matter of the Winding-up Act bearing date the 7th day of December, A.D., 1910, the creditors of the above named the Canadian Cordage and Manufacturing Company, Limited, and all others who have claims against the said Company, formerly carrying on business in the City of Peterborough and elsewhere, are, on or before the 3rd day of July, A.D., 1911, to send by post, prepaid, to George Walford Hatton, Liquidator of the said Company, at his Office, 397½ George street, in the said City of Peterborough and Province of Ontario, their Christian and surnames, addresses and description, the full particulars of their claims, and the nature and amount of their securities, if any, held by them and the specified value of such securities, verified by oath, and in default thereof, they will be peremptorily excluded from the benefits of the said Act and of the said order.

The undersigned the Local Master of the High Court of Justice at Peterborough, will on the 6th day of July, 1911, at 11 o'clock in the forenoon, at His Chambers in the Courthouse at the said City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice. And let all parties then attend.

Dated at Peterborough this 22nd day of May, 1911.

E. C. S. HUYCKE,
Local Master at Peterborough.
SYDNEY MEDD,
Solicitor for Liquidator,
Bank of Commerce Bldg., Peterboro.

AN ACTIVE LIFE

Sketch of the Career of the Late Archbishop McEvay

The late Archbishop McEvay was born in Lindsay in 1853. In that city he received his early education, completing his classical studies at St. Michael's College and the University of Toronto. He then took a post graduate course in theology in the Grand Seminary, Montreal, after which he was ordained at Trenton by Archbishop Cleary in 1882, at the age of twenty-six. As a priest his first duties were at Kingston, but he was soon transferred to the Diocese of Peterboro', and given charge of the missions of Bobcaygeon, Galway and Fenelon Falls. From this time on his progress in the Church was exceptionally rapid, his clear insight and business ability, together with his religious zeal and profound learning, carving out for him a speedy and distinguished career.

In 1887 he was appointed as rector of St. Peter's Cathedral, Peterboro', where he was at once entrusted with the renovation of the edifice, the purchase of property for the future hospital, and the acquisition of a number of houses for parochial use, all of which undertakings he brought to a most successful issue.

From Peterboro' the future Archbishop was transferred to Hamilton, where, in addition to his duties as rector, he was private secretary to the Bishop. In 1889 he was made Vicar-General of Hamilton, undertaking the administration of the diocese.

From that time he was singled out for Papal notice, for he was appointed private Chamberlain to his Holiness Pope Leo XIII. Shortly after this honor was bestowed upon the Monsignor he was advanced to his first bishopric, being elected Bishop of London, in which position he remained for over eight years.

On April 13, 1906, the Pope's signature was subscribed to the Bull which conferred upon the Bishop the highest sacred position which Ontario could offer a Roman Catholic—that which confirmed his appointment to the Archdiocese of Toronto, and on June 17 of the same year he was officially installed in the Archbishopric.

GIVES CINCINNATI A PARK

Former Canadian Makes $80,000 Gift to Porkopolis

L. A. Ault, of the Ault-Wiborg Co., of Cincinnati, Ohio, and Toronto, and president of the board of park commissioners of Cincinnati, has presented that city with 154 acres of land, valued at $80,000, to be used for park purposes. The property is located near the Linwood water tower, overlooking the Little Miami River, and affords an obstructed view of the Ohio River and Ohio Valley. The only condition attached to the gift was that the city improve Principio Street, as an approach to the park, which has been named the Ault Park. Mr. Ault has notified Park Expert Kessler to let him know of other properties adapted for park purposes, as he plans to give these to the city.

Mr. Ault is a native of Mille Roches, Ont., and was at one time a clerk in Cornwall. A year or so ago he bought a tract of land at the head of Sheek Island, in the centre of the Long Sault Rapids, which it is understood, he intends converting into a public pleasure resort, providing the municipal authorities will undertake to keep it up.

CATTLE KING DEAD

Richard A. Gibson Was Widely Known All Over America

One of the best-known breeders of shorthorn cattle and sheep in America died at Delaware, Ont., in the person of Richard A. Gibson.

During his career he had been connected with numerous breeders' associations and was one of the best and most favorably known men in the industry on the continent. He was a judge of rare ability, and had held official positions in many organizations. He had the distinction of being the only Canadian ever elected to the Presidency of the American Shorthorn Association. He was also Past President of Canadian and American kennel associations, and was an ex-President and life member of the Dominion Shorthorn Breeders' Association.

LIVERPOOL TO QUEBEC

How the Newfoundland Premier Would Shorten the Route

Sir Edward Morris, Premier of Newfoundland, wishes to shorten the route between Liverpool and Quebec by way of Newfoundland. "In New York," said Sir Edward, "are the representatives of a powerful English syndicate, which has acquired rights to a railway running out of Quebec and has a charter to build a railway in the direction of Cape St. Charles on the Coast of Labrador. I see no reason why such a railway should not be constructed and operated in connection with a new line of fast steamers between St. Charles and Newfoundland.

"From Cape St. Charles to Quebec is about 1,000 miles; on a railroad of standard gauge this distance could be covered at 60 miles an hour, which means that passengers would be landed in Lower Canada and the United States a day earlier than by the Lusitania route."

NIGHT OWL AT GALT

A night owl was recently offered for sale at Galt market. The owl had killed and partly devoured a fine duck belonging to a farmer close by. He set a trap and caught the bird by two of its claws. The bird was not hurt, and the farmer endeavored to dispose of it alive and thus repay himself for the loss of the duck.

FOUND BUFFALO CARCASS

A curio which it is hoped will eventually find a resting place in the British Museum, has been acquired by James Fleming, of the American Hotel, Medicine Hat. It is a perfect head of a buffalo, preserved in an alkali formation for twenty-five years. The entire carcass was found by Sam McKay in a dried up alkali lake, sixty miles from Medicine Hat. He chopped off the head and brought it in to Mr. Fleming.

ADVERTISE IN THE TIMES.

DIAMONDS IN CANADA

Gems May be Found, but Mineralogist Not Hopeful

"It is quite possible, in fact, likely, that diamond-bearing rocks may be found around Porcupine."

The statement was made by Mr. R. A. A. Johnston, mineralogist of the geological survey at Ottawa.

"But whether diamonds could be extracted as to render the find commercially important is quite another matter," added Mr. Johnston.

Mr. Johnston has been working for the past few weeks on the samples of rock in which the first Canadian diamonds were discovered by Mr. Charles Camsell, of the survey in British Columbia.

"The discovery is of no commercial importance," he said. "I have found it impossible to separate the diamonds from chromite and other varieties of rock in which they appear in the specimens found, without necessarily breaking them up into small pieces.

INCIDENT AT A FUNERAL

Both Roman Catholics and Presbyterians Claimed the Corpse

A peculiar incident happened at Charlottetown when, at the funeral of Mrs. McKinnon, two hearses, one sent by the Presbyterian Church and the other by the Roman Catholics, appeared to claim the remains, while two graves had been dug, one in the Protestant and the other in the Catholic cemetery, for the same woman. It was contended on the one hand that the woman had left money with the Presbyterian minister for her burial, while her relatives, who are Catholics, stated she had received rites of their Church. The funeral ceremony was conducted by the priest and burial took place in the Catholic cemetery.

FACTS ABOUT FOWLS

To pluck a fowl speedily, place it in boiling water for a few minutes. When you remove it you will find a good many feathers have come off, and the rest will yield to a very light plucking.

If you are uncertain as to the age of a fowl, partly steam or boil it in a little water for about an hour before browning it in the oven, and it will be as tender as a young chicken.

WHAT A MARBLE WILL DO

Everybody knows that a marble placed in a kettle will prevent fur collecting round the inside, but few people know that a large clean marble, say a glass alley, boiled in milk, porridge, custard, or sauce, will automatically stir the liquid as it cooks. This prevents any chance of the liquid burning, and saves you the trouble of constant stirring, besides giving you both hands free to attend to your other duties.

FINANCIAL TIMES ON CANADA

The Financial Times, London, England, says: "Canada, despite all that is said by the enthusiastic agents, is not, in the opinion of shrewd observers, really desirous of receiving British emigrants except those of the laboring classes, but is willing to absorb all the surplus capital this country is able to spare."

One Thing at a Time

The woman who aspires to a career is advised by an expert not to think of having a husband. No woman, it is explained, can manage two big things at the one time and hope to make a success of both.

JUDICIAL NOTICE

TO THE CREDITORS OF

THE CENTRAL MILLING CO.

OF PETERBOROUGH, LIMITED.

PURSUANT to the Winding-up Order made by the High Court of Justice in the matter of the Ontario Companies Act and Amendments thereto, and in the matter of the Central Milling Company of Peterborough, Limited, bearing date the fourth day of May, 1911.

The Creditors of the above named Company and all others who have claims against the said Company formerly carrying on business in the City of Peterborough, in the County of Peterborough, are on or before the 15th day of June, 1911, to send by post, prepaid to W. R. Morris, Liquidator, of the said Company, at his office, 375 Water Street, Peterborough, their Christian and Surnames, addresses and descriptions, the full particulars of their claims and the nature and amount of the securities (if any) held by them and the specified value of such securities verified by oath and in default thereof they will be excluded from the benefits of the said Act and Winding-up Order.

The undersigned Master at Peterborough, of the High Court of Justice will on the 16th day of June, 1911, at eleven o'clock, in the forenoon, at His Chambers in the Court House, in the City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice and let all parties then attend.

Dated this 18th day of May, 1911.

E. C. S. HUYCKE,
Local Master at Peterborough.

QUEEN CHARLOTTE

The Capital City of the Islands

THE LAST WEST

The only town on Graham Island that has a monthly pay roll, and the only sawmill shipping lumber to foreign ports.

The only town having a railway gazetted to its very doors on the island.

The only city on Graham Island having electric light, city water, miles of sidewalks, churches, school, hospital, postoffice, first-class drug store billiard hall, city hall, hotels, boarding house, barber shop and other general stores, and the only newspaper published on the Island, the Queen Charlotte News.

We are positively the centre of all the vast wealth of the entire Islands, including farm lands, timber lands, coal and metalliferous mines. These products must come out at Queen Charlotte City, through the Honna River Valley, and through which the Island Railway must run according to charters already granted.

The combined townsite interests cover one thousand acres, of which five hundred are practically level alluvial soil with no rocks.

A fine water power from the Honna River, good drainage and the best harbor on the entire Islands.

Our lots are all 50 feet by 120 feet, ranging in price from $150 to $300; one-third cash, balance on time at 6 per cent., or deeds can be had at once if desired.

Fully 200,000 acres of farm lands, suitable for mixed farming, only await the hand of man, a large portion of which is already located.

The verdure clad mountains are vast treasure vaults of gold, copper, silver and other precious metals, while our valleys are underlaid with a wealth of the finest coal and covered with a vast forest of spruce, hemlock and yellow cedar. These, coupled with our fisheries, are at the very doors and within sight of Queen Charlotte City.

Taking all these facts into consideration, and with the present progress being made in developing our resources, which are at the gateways of transportation both by water and railway, with the advent of the completion of the Grand Trunk Railroad, Queen Charlotte City is destined to be one of the province's most prosperous cities.

It is owned largely by the wealthiest and most honorable men of our province, who would not be a party in misrepresenting facts and are prepared to endorse every statement herein made.

The townsite company are now offering a further 75 lots on Second avenue at a very low price and on easy terms, if taken at once, and under conditions that will make you a 100 per cent. on your investment in 90 days, for 20 per cent. of the gross proceeds will be used by letting a contract for the clearing and grading of Second avenue from Third street west. The company guarantees to advance the remaining 75 unsold lots on Second avenue from $150 to $225 as soon as the first 75 have been sold. The company is making this effort in order to join with the government in making Second avenue the trunk road through the townsite from the Wilson-Robinson coal fields, Honna River Valley, Lawn Hill and Miller Creek districts. Now you can secure any unsold lot on Second avenue, including fourteen in Keith's addition, to-day for $150, except corners, on easy terms, 1-4 cash, balance 6, 12 and 18 months at 6 per cent. This will positively be your last chance for a cheap lot in Queen Charlotte City, for every lot in the townsite will surely go from $500 to $1000 when the public realize that in the Island River railroad from Queen Charlotte to the head of Masset Inlet is to be started this summer, in addition to the present work already outlined, thus giving work to an army of men. There are at least 5000 citizens of Vancouver who have invested in the various resources of the islands. Conclusive evidence of these facts, a landscape drawing of the townsite and a portion of Graham Island coupled with an illustrated edition of the resources of the islands can be seen at the office of J. J. Miller, 82 Hastings street, Vancouver, B. C., Agent for Vancouver, and plans at office of "Times", Peterboro'.

ADVERTISE IN THE TIMES.

DEPARTMENT OF RAILWAYS AND CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted cheque for the sum of $16,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 13th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of contract can be seen and form of tender obtained at this department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., H. J. Lamb, Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 9, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

SEALED TENDERS addressed to the undersigned, and endorsed 'Tender for Public Building, Seaforth Ontario,' will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

There is one medicine that every family should be provided with and especially during the summer months, viz., Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

The Peterborough Poultry Association met in regular monthly session last evening.

MONUMENT FOR WOLFE

Toronto Men Propose Memorial for Hero of Quebec

With the object of erecting a monument to Gen. Wolfe, hero of the Plains of Abraham, a number of prominent Toronto men met in the board-room of the Bank of Commerce.

It is proposed to erect the monument over Wolfe's grave, in England. Amongst those present were the Lieutenant-Governor, Col. James Mason, Sir Edmund Walker and Mr. P. C. Larkin. The result of the meeting was the appointment of a committee consisting of a large number of prominent Toronto men to deal with the matter.

RT. HON. JAMES BRYCE

British Ambassador to the United States "More than three-fourths of my work at Washington," said Mr. Bryce, in an address to the Canadian Club, Toronto, "is in connection with Canada."

BONES WERE OF INDIANS

Dr. Orr Inspected the Recent Discovery at Weston

Dr. R. B. Orr, Superintendent of the Provincial Museum, after a visit to Weston, where the bones of fourteen human beings had been unearthed by workmen breaking the ground for a new church building, stated that there was no question about their being the skeletons of Indians. The very arrangement of the bones, he says, when they were unearthed was sufficient ground for such a conclusion. He stated that the skulls were close together and that the bones forming the rest of the skeletons lay in such a manner as to form a sort of cart-wheel, with the skulls as the hub. He added that this was the customary mode of burial among the Indians centuries ago, and that ont only were these Indian skeletons, but they had been there for probably three hundred or more years. Dr. Orr secured two skulls to take measurements of their various dimensions and also to preserve as curios.

PEPPER CHOKED CHILD

Brother's Mischievous Prank Caused Death of Two-Year-Old

With his mouth full of black pepper, little two-year-old Romeo Dombreuski, of 204 Plesis Street, Montreal, choked to death. The father, Mr. Edward Dombreuski, was moving into the house with his family, and everything was in confusion. Some of the household supplies were on the table in the kitchen. Romeo and his brother, Laurea, three years old, were playing, and got hold of a box containing pepper. It is believed that in their play Laurea filled his little brother's mouth with the burning spice. When his cries brought the family, a doctor was quickly summoned, but all attempts to save his life were unavailing.

NOBLE FRENCH FARMERS

Tilled Soil in York County Hundred Years Ago

Was the country around Richmond Hill, York County, once settled by French nobles who were fugitives from the French Revolution? So asked E. Harrison, in a paper read before the members of the York Pioneer and Historical Society.

Mr. Harrison had arrived at this conclusion after a thorough and careful perusal of the titles of the various farms in that vicinity, many of which remain in the original French names. The land had been given to the fugitives gratis from the British Government, and when in 1814 the French Monarchy was restored they returned to France, owing to their dislike of the rigid Canadian winters.

Another historical paper was read by Mr. John Montgomery, son of John Montgomery of 1837 Rebellion fame. It told of early political troubles, giving a graphic description of the burning of Montgomery Hotel. Mr. Montgomery produced a watch, which his father had hid in his sock during the bombardment, and he said the old man had put all his money, which was about $70, in the other sock.

TO PRIVY COUNCIL TWICE

Judgment has been given in Montreal in a case which has already been decided by the Privy Council and has been twenty-seven years before the courts.

In 1884 Andrew Rough bought a piece of land through the Eastern Townships Bank, but refused to take it because he could not get a clear title to it. The bank sued him and won. The Privy Council decided in his favor seven years ago. Next the lawyers for the bank found a flaw in the proceedings and appealed to the Superior Court. The case was recalled and judgment given in favor of the bank. It will go again to Privy Council.

WHAT IS MADNESS?

Never use the words "madness," "lunatic," or such obsolete terms, as they convey an entirely different meaning to what I hope to be able to show you is the real meaning of mental disorder. There is really no distinction between mental disorder and physical disorder. The distinction which has been made in the past is purely an arbitrary one, and one which, no doubt, has its basis upon superstition.

CANADA MUST BE READY

English General Sounds Tocsin and Welcomes Canadian Navy

In an address to the Empire Club of Toronto, Major General C. W. Robinson, of Ealing, London, England, said it was absolutely necessary for Canada to have command of the Great Lakes.

Canada was destined to be a great naval power, he said, and he was glad that a nucleus of a Canadian navy had been laid. He spoke particularly of the Rush-Bagot Treaty, and said that if the United States violated any of the terms of the treaty, Canada was entitled to take the same action. So far as Canada was concerned, it could not sustain its territorial supremacy so long as the power to the south had the opportunity of placing vessels on the Great Lakes. By nature, Canada seemed destined to be a naval power, but this it could only become by remaining with Great Britain and Australia one united empire. Some people talked of Canada becoming an independent nation, but such she was to-day. If Canada were outside the Empire she would soon lose the individuality now enjoyed and would become an important part of some other stronger nation. He therefore welcomed the formation of a Canadian navy. Even if British ships arrived off Canada's shores within a week of the declaration of war, it would be impossible for them to steam up the narrow and easily-destroyed canals. It therefore was necessary that Canada should have a navy of her own to assist in the preservation of the Unity of the Empire.

Two great lessons learned from the War of 1812 were the necessity of supremacy on the Great Lakes and the necessity for large cities to look to the defence of their borders. In order to be prepared for an active defence, General Robinson favored a system of compulsory military training in Canada. Since 1812 many important changes had been made, and Canada was in a better position today to withstand the attacks of foreign nations, provided that troops could be mobilised quickly. But it must be remembered that in 1812 every man was compelled to have a military training. Everyone between the ages of 16 and 60 was compelled to have his arms and be qualified for service. He did not think the present cordial relations between Canada and the United States would be disturbed, but Canada should be ready at all times to defend her shores.

HON. ROBERT ROGERS

Of Manitoba, who will probably enter the Federal arena as one of Mr. Borden's lieutenants.

QUEBEC IS FORTUNATE

Great G.T.P. Railway Shops to be Stationed There

The greatest railway workshops in Canada outside of Winnipeg will be erected within a few miles of Quebec city in connection with the Grand Trunk Pacific, according to Hon. S. N. Parent, chairman of the Transcontinental Commission. The plans of the proposed workshops are most extensive. It was announced that tenders would be called for the erection of the new station of the Grand Trunk Pacific in Quebec at the end of May, and the tenders for the workshops would be called for as soon as details had been arranged.

GENEROUS CARNEGIE

Hamilton Library Board received a letter from Andrew Carnegie, in which he offered to increase his gift for the new Hamilton library from $75,000 to $100,000 if the board would undertake to spend $12,500 each year on its maintenance. As the city already spends $23,000 on the library, the Secretary was instructed to at once notify Mr. Carnegie that his generosity was appreciated and his gift accepted. It is likely that the money will be spent in making the building more elaborate, as the plans and specifications have already been adopted.

BRITISH EDUCATIONISTS

For the purpose of inspecting the schools which are especially engaged in industrial, technical, commercial, and applied art training, four distinguished English directors of education are in Canada. Each member of the party is studying a special department or departments of education. Mr. Donald, of Barnsley, is making a special study of commercial work; Mr. Sharpe, of St. Helen's, is studying technical education; Mr. Pickles, of West Bromwich, is interested especially in manual training, domestic science and art, and Mr. Johnson, of Ealing, in music and general education.

TRAVELS 10,000 MILES

Seven Weeks Old Son of Army Officer Holds Record

Howard, son of Major and Mrs. Horace D. Bloomberg, who arrived in Atchison, Kansas, with his mother, since his birth, seven weeks before, has travelled 10,000 miles. He went from Manila to San Francisco on an army transport. He is believed to be the greatest travelled baby of his age in the United States.

PUBLIC NOTICE

NOTICE is hereby given that pursuant to the provisions of The Consolidated Municipal Act, 1903, the Council of the City of Peterborough, intends at a meeting thereof to be held at the Council Chamber in the City of Peterborough, on Monday, the third day of July, 1911, at the hour of 8 o'clock P. M., to pass a by-law to stop up and close that part of Water Street, in the said City of Peterborough, formerly known as the River Road, as shown on Registered Plan No. 14 for the City of Peterborough, described as follows:—that is to say—Commencing at a point where a concrete monument is planted in the easterly limit of said Water street at the distance of twelve hundred and fifty-nine and nine-tenths feet measured north 14 degrees 9 minutes east astronomic along said easterly limit of said Water Street, from its intersection with the northerly limit of Hilliard Street, where another concrete monument is planted —thence north 11 degrees 34 minutes east, a distance of one hundred and seven and four-tenths feet — thence north 7 degrees 38 minutes east a distance of ninety-two and four-tenths feet—thence north 4 degrees, 31 minutes east a distance of one hundred and fifty-nine and five-tenths feet —thence north 8 minutes east a distance of eighty-eight and eight-tenths feet—thence north 6 degrees 59 minutes west, a distance of ninety-two and two-tenths feet, thence north 10 degrees, 17 minutes west, a distance of two hundred and twenty-six and five-tenths feet, more or less, to where another concrete monument is planted in the easterly limit of said Water Street and thence southerly following along the easterly limit of said Water Street and the westerly limit of the property of the Auburn Power Company of Peterborough (Limited) to the place of beginning, and containing by admeasurement seventeen one hundredths of an acre more or less and shown on the plan filed in the office of the City Clerk by the portion colored red; and when so closed up to convey the same to The Auburn Power Company of Peterborough (Limited) the owner of the land adjoining said street on the east for the consideration that the said Auburn Power Company will lay a main in its proposed new dam across the River for the use of the City and the Water Commissioners from the eastern limit of said Water Street to the property of The Auburn Woollen Company, Limited, on the east side of the River.

AND ALSO to grant to the said Company on payment of $1 per year the right to use a further part of said Water Street to extend the westerly face of a proposed concrete revetment wall westerly under the said street at the slope or batter of not more than one foot horizontal to one and one-half feet vertical, to the full depth of the said proposed concrete wall; the westerly edge of the top of said wall to be on, or easterly of, the westerly limit of the above described land; as shown and described on a typical diagram, or cross section of the proposed wall filed in the office of the City Clerk.

AND TAKE NOTICE that at the said time and place the Council will hear in person or by Counsel or Solicitor any one whose land might be prejudicially affected thereby and who petitions to be so heard.

Dated this 19th day of May, 1911.

S. R. ARMSTRONG,
City Clerk.

FOR STONEY LAKE

For the week commencing June 5th Steamer Stoney Lake will leave Lakefield on the arrival of the morning train from Peterborough, returning to connect with the 4.40 train for Peterborough on Monday, Tuesday, Wednesday and Thursday.

STONEY LAKE NAVIGATION CO.
F. G. Young, Manager.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Tent For Sale.

Tent for sale—Large, only in use a few weeks, very reasonable. Apply W. J. L. Elliott, head of Weller St.

Attend Divine Service.

The annual church parade of the Canadian Order of Foresters took place yesterday evening to Knox church, where the Rev. Mr. Keith, pastor of the church, delivered the annual sermon.

New Military Dress.

The Peterborough Battery is supplied this year with a new style of riding trousers, known as Bedford cords. This style was heretofore worn only by officers, and they will be henceforth worn by the entire battery.

57th Regiment Church Parade.

The 57th Regiment headed by their two bands, assembled at the Armouries yesterday, and paraded to St. John's church, where the Rev. Canon Davidson delivered the annual sermon. There was a large number of people out to see the parade.

Another Bank for Peterborough.

The Times is informed on good authority that another of the large banking institutions is likely to open a branch in Peterborough. It is said that the management is convinced that Peterborough is destined to become in the near future an important city, and they therefore propose to get in at once and thus grow up with the place.

Wanted General Servant.

Wanted General Servant. Apply Mrs. G. N. Gordon, 360 Simcoe St., Peterborough.

A Musical Treat.

Miss Chalmers, soprano soloist of Toronto Conservatory of Music and Miss Lulu McGill, a brilliant pianist, pupil of Mr. Gliddon's, will combine to give a musicale this evening at the Conservatory of Music. All interested may secure cards of invitation by communicating with the Conservatory of Music.

Pigeons Released.

Mr. W. F. Skitch, local manager of the Canadian Express Company, released 50 homing pigeons, which were received on Saturday from Bedford, Mass. The birds were given their freedom on Armour's Hill, early yesterday morning, and will return to Bedford a distance of 450 miles.

Injures Horses' Feet.

A resident of the country told The Times yesterday that the oil on the streets was not only playing havoc with rubber tires of all kinds, but it was injuring the feet of the horses. It seems to effect the hoofs of the animals similar to the way it effects rubber.

To Be Inducted.

The induction of the Rev. Dr. Langfeldt, formerly pastor of St. Luke's church, will take place on Wednesday evening at Innisfil. His Lordship Bishop Reeves, of Toronto, will conduct the induction ceremony and Rev. Mr. Trumpour of All Saints Church, Peterborough, will preach the induction sermon.

Vital Statistics.

The vital statistics for the month of May this year are much higher than those for the same month last year. The statistics are:

	Marriages	Deaths	Births
May, 1911 ...	20	29	45
May, 1910 ...	11	17	37

Early Delivery.

Once again we ask our city subscribers to promptly notify the office by telephone or otherwise when The Times is delivered AFTER 7 o'clock. Our carriers have undertaken to complete their work each morning BEFORE 7 o'clock. Please let us know if this is not being done.

The Old Bell.

The work of removing the old bell from St. John's Church tower begins this morning. A writer in The Times refers to it as the "dear old bell," a sentiment which we believe is general amongst the people of the city. That it may long continue its sacred work in its new surroundings is the wish of all.

Attended Knox Church.

The members of Queen Alexandra Circle, No. 136, Ancient Order of Foresters, and Court Stanley, attended service at St. Paul's Church last night. The latter marched to the church in a body. The centre pews of the Church were reserved for the visitors. Rev. Mr. Pogue preached an eloquent and impressive sermon, in which the benefits of fraternal organizations were appropriately referred to.

To Camp June 11th.

The Peterborough Battery will go into camp on June 11th instead of 12th, as announced in a previous issue. The Battery will assemble at the Armouries on Sunday next at 1 o'clock, when they will take their departure for Petawawa, where the military camp is being held this year. Recruiting will take place to-morrow night, all ranks are requested to assemble at the Armouries on Friday night, June 9th, at 7 o'clock, for final instructions.

Boy Scout Uniforms.

The uniform required by the Boy Scouts selected to go to England will cost each boy $12.50 and will consist of the following articles: 1 sweater coat, 1 waterproof cape, 1 kit bag, 1 pair of blue shorts, 1 khaki shirt, 1 pair of rubber deck shoes, 1 belt, 1 haversack, 1 hat, 2 pairs of stockings, 1 scarf, 1 staff, 1 knife, case and lanyard, 1 billy-tin, 1 water bottle, 1 whistle and lanyard, 1 pair coat straps, 1 money pouch, 1 Bible, 2 suits underwear, 1 brush and comb, 1 whisk, 1 brush and blacking, 1 tooth and nail brush, 1 pair gloves, 1 diary, lead pencils, needle, thread, and buttons, knife, fork and spoon. Each Scout should start with a good heavy pair of black walking boots.

Mails From Peterborough.

Charlie Wilder, an Austrian, 37 years of age, who said that he belonged to Peterborough, was arrested on Friday in Toronto in the Police Court when he went down to try to arrange for the discharge of Millie Senner, a 17-year-old girl, who had been arrested on a charge of vagrancy. The girl had been out from England but a short while and was to be deported.

The charge against him was laid by Staff Inspector Kennedy. The police had received information about the man, and charged him with procuring Beatrice Wilson, who has been living at 89 Edward street, for immoral purposes. The Wilson girl was arrested some days ago on a charge of theft, but was allowed to go on suspended sentence. The man is alleged to have got into communication with her as she left the police court. Staff Inspector Kennedy has been looking for Wilder for some days.

City Council To-Night.

There will be a meeting of the City Council this evening, when considerable important business will be to the fore.

A Sad Message.

Mr. J. P. Cunningham, of the Peterborough Music Company, received a telegram on Friday morning, conveying the sad news of his mother's death, which took place at Austin, Man. Mr. Cunningham left the same evening to be present at the funeral which took place yesterday afternoon. Mrs. Cunningham was 67 years of age and leaves a husband, 3 sons and 2 daughters to mourn her sudden demise. She was originally a resident of Ops, Victoria County, but went with her husband and family to Manitoba 25 years ago.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Mr. Harris Ardiel was the guest at Strathormond over Sunday.

Miss Ethel Packenham, of Toronto, is the guest of Mrs. James Fanning, city.

Miss Lottie Davis has returned from her visit to Charma, accompanied by her sister, Miss Edna Davis.

Mrs. Geo. A. Biggs left Saturday evening for a visit to friends at Orono.

Miss Grace Widdifield, of Owen Sound, is the guest of Mrs. Roland Deane, Gilmour street.

Dr. and Mrs. Crawford are spending a few days in the city, the guests of Mr. and Mrs. T. A. S. Hay, before leaving for their home in Ottawa.

Mrs. M. Miller, who has been visiting her son, A. C. Miller, Robinson street, left for home on Saturday.

Mr. Wm. Fair, of Millbrook, father of Mr. Robert Fair, of this city, is seriously ill. He is 84 years of age.

Miss Muriel Rogers is entertaining on Tuesday afternoon at a "linen" shower in honor of Miss Alberta Gooding.

Dr. Macolm McCulloch and Mrs. McCulloch are in Montreal, where the Dr. is attending the reunion of the McGill Medical Graduates.

His Honor Judge Roger, of Cobourg, with Mrs. Roger, spent a couple of days in the city last week.

Dr. and Mrs. Neal have returned from Niagara Falls, where Dr. Neal read a paper before the Ontario Medical Association in Convention there.

Mr. Fred Hall of Montreal is spending a few days in Peterborough, previous to going west to fill an important position.

Mr. "Herb" Edmison, has returned to Winnipeg, after spending a few days the guest of his parents, County Magistrate and Mrs. Edmison.

Mr. W. J. Young, of Smith, formerly of this city, was taken to Nicholls Hospital a few days ago, suffering from nervous prostration.

Mr. F. P. Lloyd, of Toronto, was in the city on Saturday on business connected with The Times' Map Department.

Mr. C. Nugent, of Lindsay, was the guest of his uncle, Mr. John Nugent, on Saturday.

Mrs. McDermid, Weller street, entertained at a Kitchen shower Friday afternoon last, for Miss Alberta Gooding.

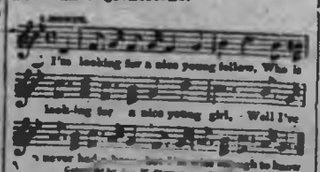
Mrs. Alfred Simmons' spent a few days in the city last week, the guest of her parents, Mr. and Mrs. R. M. Roy. Mrs. Simmons was on her way to Montreal to join her husband.

What New York is Doing in Popular Songs.

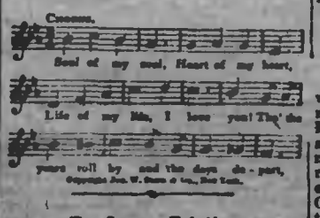
Spring is here and with it come the song birds with their haunting bewitching airs and clever euphonious lyrics. Some of these melodious creations enjoy but a brief existence, while others make a more lasting impression on the busy throng and come in for a longer period of popularity.

Two of these favored ditties emanating from New York, the birthplace of popular songs, have just come to our notice and we print a small extract of each.

The first of these, "I'M LOOKING FOR A NICE YOUNG FELLOW, WHO IS LOOKING FOR A NICE YOUNG GIRL" is one of those ingenious numbers calculated to appeal to the boys as well as the girls. It has a most tantalizing tune, set to a playful bubbling lyric. This musical hit as they term a success in professional parlance, will surely be all the rage during the summer season and will hold sway with the bands and dance orchestras.



"SOUL OF MY SOUL, HEART OF MY HEART, LIFE OF MY LIFE, I LOVE YOU" is the title of the second and more pretentious number; a song of high artistic merits, the poem being by the well known Harry Allen, who contributes so many clever verses to the leading magazines, while the music is by Norma Scott, a composer of international reputation for her high class vocal compositions.



To Learn Printing.

We require a bright young man to learn the printing trade. This is a rare chance for a good boy. Apply at Times business office.

ADVERTISE IN THE TIMES.

Dare You Marry?

SECRETS OF HOME LIFE

Statements made by patients taking the New Method Treatment. They know it Cures

No Names or Testimonials used without written consent

CONSTITUTIONAL BLOOD DISEASE.

Patient No. 16474. "The spots are all gone from my legs and arms and I feel good now. I am very grateful to you and shall never forget the favor your medicines have done for me. You can use my name in recommending it to any sufferer. I am going to get married soon. Thanking you once more, etc."

SAVE TWO MONTHS CURED HIM.

Patient No. 16765. Age 21. Single. Indulged in immoral habits 4 years. Deposit in urine and drains at night. Varicose Veins on both sides, pains in back, weak sexually. He writes:—"I received your letter of recent date and in reply I am pleased to say that after taking two months' treatment I would consider myself completely cured, as I have seen no signs of them coming back (one year)."

THE WORLD SEEMS DIFFERENT.

Patient No. 13923. "I have not had a regular Emission a don't know when and am feeling fine. The world seems altogether different to me and I thank God for directing me to you. You have been an honest doctor with me."

VARICOSE VEINS CURED.

Case No. 16888. Symptoms when he started treatment:—Age 21, single, indulged in immoral habits several years. Varicose Veins on both sides—pimples on the face, etc. After two months' treatment he writes as follows.—"Your welcome letter to hand and am very glad to say that I think myself cured. My Varicose Veins have completely disappeared for quite a while and it seems a cure. I work harder and feel less tired. I have no desire for that habit whatever and if I stay like this, which I have every reason to believe I will. Thanking you for your kind attention," etc.

GAINED 14 POUNDS IN ONE MONTH.

Patient No. 13322. This patient (aged 58) had a chronic case of Nervous Debility and Sexual Weakness and was run down in vigor and vitality. After one month's treatment he reports as follows:—"I am feeling very well. I have gained 14 pounds in one month, so that I will have to congratulate you." Later report:—"I am beginning to feel more like a man. I feel my condition is getting better every week." His last report:—"Dear Doctors—As I feel this is the last month's treatment that I will have to get, I thought at one time I would never be cured but I put confidence in you from the start and you have cured me."

CURES GUARANTEED OR NO PAY

We treat and cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases peculiar to men.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

VOL XXXIV NO. 133 PETERBOROUGH, ONTARIO, TUESDAY JUNE 6 1911 PRICE TWO CENTS

SILENCE LAST REFUGE SAYS ORANGE SENTINEL

Strong Langurge Regarding the Papal Decree on Mixed Marriages

The ne temere decree is receiving rough handling by all the Protestant Churches, as well as by many of the fearless, outspoken newspapers of the country. In referring to this matter, the Orange Sentinel, says that it has drawn attention on two or three occasions to the policy of silence which the Roman Catholic Church has adopted with regard to the marriage decree. This is the historic method by which Rome has met nearly every agitation which threatened serious results for the Church. The underlying idea is that it is impossible for one person to maintain an argument, and that if nothing is said on the other side the discussion must die out for the very want of materials. It is the policy of passive resistance, which the Chinese, as well as the Roman Catholic Church, has found to be most effective.

It is of the utmost importance, however, that the Protestants of Canada should not be deceived in this way. The discussion of this marriage decree, and its disastrous effects upon the homes of the land, should be maintained even though no Roman Catholic apologists arise to defend this decree of the church.

The Catholic Register this week, for instance, has nothing but a few vulgar jibes at the Methodist ministers who have expressed their hostility to the papal decree. No attempt is made in the columns of that journal to show by a course of logical reasoning that the Roman Church occupies a defensible attitude. If the facts were such as to support a defence we may be sure it would be made. But silence is the last refuge of a man who lives in error, and has no argument in defence of his conduct. That is one reason why lay members of the Roman Church are not allowed to argue with Protestants on religious questions.

That silence is a potent weapon we must admit. But it should not be allowed to become effective in this instance. The interests of Protestantism demand that on this question at least the Roman Church should be dragged into the light. If it cannot stand the light, then it must accept the consequence. We hear a great deal of boasting about the immovability of the church. The gates of Hell shall not prevail against it, we are told. But it is not enough to make such a reply to the charge that a priest has gone into a home and separated husband from wife and cast the children into the world without name and without legal status.

To talk about the gates of Hell in a circumstance of this kind shows an utter disregard for the real issue, and it proves beyond question that there is absolutely no defence for what we cannot help thinking is criminal conduct on the part of many priests of the Roman Church.

They have created a situation which Canadians, if they are self-respecting, must not allow to continue. The Protestant citizens of Canada owe it to themselves, to their fathers who handed down their liberties, and to the children who have a right to inherit them, that this iniquitous decree shall be dealt with by legislation from the supreme governing bodies of the Dominion.

All that is necessary is that the Protestant pulpit should perform its duty courageously and with persistence. It is not enough to pass a resolution or preach a sermon. More than that should be done. Many resolutions should be passed and many sermons preached until the people of Canada are aroused to the point where they will insist upon the government of the country providing an ample remedy for the intolerable condition which is being brought about by the promulgation of the decree of Ne Temere.

THE CENSUS TAKING IS NO EASY TASK

The way of the census enumerators is not a path of roses. Thus, the special enumerators have found the first few days of the census collection. It is said that some of the Chinese lodgers object to answering the questions asked by the census men. The aversion of the Chinese is due to their ignorance of the language. The restaurant keepers readily answer the questions, and in some cases it will, no doubt, be necessary to get them as interpreters for the unenlightened laundry men.

The young men of the city are particularly delicate when the question of salary is broached. Many do not like to answer until it was pointed out to them that they were compelled to do so. The enumerators are bound under oath to secrecy, and whatever is told them is kept secret.

While You Wait.

Sons of Athens, are you clean
This straw lid of mine, that's seen
Seasons two, bear this in mind—
It has breasted many a wind.

Treat it gently Greek of Greeks;
It is ancient, and it leaks.
Yet I cherish it, old friend—
See if that bum braid will mend.

Do not curl your lips the while
You apply those acids vile;
Dear, indeed, it is to me—
Treat it not contemptuously.

Sons of Athens, as you clean
This old straw, and hint of sheen,
Damage not my comrade, true—
For I can't afford a new.

—Denver Republican.

Rev. J. P. Wilson of Lindsay, formerly pastor of the George street Church, will go to Napanee for the next term, while Rev. S. J. Shorey will take Mr. Wilson's Lindsay Church.

COUNCIL WILL ASK THAT CARS RUN ON DECORATION DAY, SUNDAY, JUNE 25

COUNCIL REFUSES TO RE-OPEN THE CASE OF THE DISCHARGED FIREMEN.

Otonabee Power Co. Ask Co-operation of Council in Securing a Settlement of Conditions Upon Which They Can Develop Power at Both Their Dams—Offer City 500 h.p. at $15 per annum for a 24 Hour Service.

The City Council met in regular monthly session last night.

There were present Mayor Morrow and Aldermen Morgan, Anderson, Kerneghan, Graham, Brown, Edgar, Metheral, Bradburn, Duncan and Buller.

A communication from D. W. Dumble offered the city a strip of land from Benson avenue to Bethune for street purposes; the city to furnish sewer connection with the houses erected thereon, and other local improvements; the street to be named Fitzgerald street.

THE DISCHARGED FIREMEN.

The following communication was read from George Grange, the late Deputy Chief Fireman:—

"I beg leave to request that your honourable body reconsider the action of my dismissal from the department as Deputy Chief and wish to state that I consider the action too severe. Were I proven guilty of any wrongdoing of a minor nature it would be my first offence and a lesser punishment would probably serve the interests of the department and justice equally as well. During my three years service I have tried to perform my duties to satisfaction of every person. I have been obedient to the Chief and courteous to the members of the Council and all citizens. While I am compelled to protect my innocence and assure you I was not a party to writing the offensive letter directly or indirectly, I am at the same time extremely sorry that the unpleasantness occurred.

"Thanking you in anticipation.

"I am your obedient servant,

"GEORGE GRANGE."

A petition from citizens asked that the discharged firemen be given an opportunity of stating their case before the Council or the Fire, Water and Light Committee.

Mr. G. N. Gordon addressed Council in the interests of Grange and Thomas, the late captain of the Fire Brigade. He asked that the men be given a hearing, when they claim that they can give information and facts regarding their alleged offence that neither the committee or Council are conversant with.

Ald. Graham—"This thing has been thoroughly threshed out by the Committee and the Council, and the men did not avail themselves of appearing in their own defence. There is no need of any further action."

Ald. Anderson said the Council never took a more unpopular step than when they discharged these firemen, an action that has met with widespread disapproval. They were not guilty of anything that justified their discharge in so summarily a manner.

Moved by Ald. Graham, seconded by Ald. Metheral,—That no action be taken.

Moved by Ald. Anderson, seconded by Ald. Edgar, in amendment,—That the Chief be instructed to reinstate the men.

The amendment was lost on a vote of 6 to 4.

The Ayes and Nays on the motion resulted as follows:

AYES	NAYS.
Duncan	Buller
Brown	Bradburn
Metheral	Edgar
Graham	Anderson
Kerneghan	
Morgan	

The motion that no action be taken consequently carried.

POWER AT $15.

In a lengthy communication the Otonabee Power Co. asked the Council for co-operation in securing from the Dominion Government a settlement of certain details in connection with their lease of No. 4 and 5 dam. And the communication stated that the company's offer made on March 18th, 1907, to supply the city with 500 h.p. at $15 per annum for a 24 hour service still stands good.

In addressing the Council on this subject Mr. R. R. Hall, amongst other things, stated that the company is at present negotiating with parties who are willing to take 600 h.p. from them at $20 a h.p. This would mean the employment of several hundred hands. Both dams developed under one head would supply 4000 horse power.

This was sent to the Power Committee.

We shall refer to this question fuller in a later issue.

WILL HAND OVER EFFECTS.

Ald. Buller reported that President Eastwood of the Board of Trade saw no reason why the effects of the Industrial Commission Department should not be handed over to the city. Mr. Dan. O'Connell also concurred in this view and had said that the Board of Trade would be happy to co-operate with the Council in any way to advance the city's interests.

GRANT FOR EXHIBITION.

The Directors of the Peterborough Industrial Exhibition waited upon Council, soliciting the usual annual grant, which, however, they want increased from $400 to $1000. The directors ask this, Mr. R. H. Leary said, in the interests of the city of Peterborough, which has been largely advertised by the yearly exhibition. "I think," he added, "it's up to the city to get the necessary grounds. We will erect the buildings; but we cannot finance both buildings and grounds. Something will have to be done this fall regarding grounds, as our present lease expires this year."

J. J. Turner, Sr., endorsed Mr. Leary's opinion, and asserted that during the last few years the Exhibition had improved considerably, "and we hope," he said, "to continue the good work."

This matter was referred to the Finance Committee with power to act.

REPORTS.

Reports of the different Committees were submitted by their respective chairmen and adopted. The business of these committees has been published in these columns as the Aldermen met.

SITE FOR NEW CITY HALL.

A special committee submitted the following:

Gentlemen,—Your committee appointed in regard to a site for the city hall beg leave to report that they arranged with Mr. Langford to obtain options on several properties that might be considered suitable for this purpose.—Received.

AN EXPENSE ACCOUNT.

Ald. Graham took exception to a clause in the Fire, Water and Light Committee's report, recommending payment to Chief Howard of his account of $21.26 for trips to Montreal and Toronto in 1906, regarding the city fire alarm system.

Ald. Graham said that at the time this expense was incurred, the Chief had agreed to pay his own expenses.

To Ald. Bradburn, Ald. Morgan replied, he endorsed the payment of the account with a view to clearing the matter from off his committee's file, and because he believed the Chief's interviews with the Bell people had assured to the city a saving of several hundred dollars.

The way The Times remembers the transaction is this: It was verbally understood that should the Chief secure a saving to the city, his expenses were to be paid; otherwise, he was to pay his own way.

Ald. Graham asked for the Ayes and Nays on Ald. Morgan's resolution that the report be adopted. This resulted as follows:

AYES	NAYS.
Buller	Duncan
Bradburn	Metheral
Edgar	Brown
Kerneghan	Graham
Anderson	
Morgan.	

The report was accordingly adopted as read, and the Chief will get payment of the account in question.

BY-LAWS.

A by-law to authorize the Commissioners of the City Trust to convey land to the Protestant Home Board, for the erection thereon of a new home, passed its several readings.

A by-law authorizing the borrowing of $10,000 to assist in building a new Protestant Home also passed Council.

A by-law authorizing the execution of an agreement with the Protestant Home Board for maintenance of indigents in the new building, past muster. The agreement provides that the cost of maintaining unfortunates shall not exceed $8 a month for each person admitted by authorization of the city, up to two-thirds of the Home's available accommodation. Should the cost of same at any time be less than $8 a month or exceed that amount, the demands to be either diminished or increased as the case may be, on three months' notice.

A by-law to authorize the construction of a sewer on Cambridge street passed Council.

A by-law to authorize the execution of an agreement with the Peterborough Water Commissioners for water for public purposes for the sum of $1500 a year, was adopted.

RESOLUTIONS OF THANKS.

Moved by Ald. Graham, seconded by Ald. Kerneghan,—That the thanks of this Council be extended to Mr. J. H. McClellan, for arranging for the conveyance of Mr. Bryan and Hon. Adam Beck over the Lift Lock and up the Canal and river.—Carried.

Moved by Ald. Metheral, seconded by Ald. Graham,—That the thanks of the Council be forwarded to the Hon. J. R. Stratton for securing an appropriation for the construction of a wharf at Spaulding's Bay, and the completion of the wharf in East City.—Carried.

STREET CARS ON DECORATION DAY.

Moved by Ald. Buller, seconded by Ald. Bradburn,—That the Street Railway Co. be requested to run their cars on Decoration Day, Sunday, June 25, from 9 a.m. to 8 p.m. for the convenience of citizens wishing to take part in and witnessing the ceremonies at the Little Lake cemetery.—Carried.

FINAL SHOTS.

Ald. Brown's suggestion that the street connecting Sherbrooke and Bolivar streets be named William street, was sent to the Property Committee.

Moved by Ald. Morgan, seconded by Ald. Anderson,—That a hydrant be placed at the corner of Cambridge and McDonnell streets—Board of Works with power to act.

The Board of Works were given power to act in arequest that a crossing on Ware street be moved.

Ald. Brown's suggestion that a street be purchased to connect Bolivar with Patterson streets was sidetracked, there being no funds in the estimates for the acquisition of new streets.

On motion of Ald. Anderson and Morgan, the Property Committee was given authority to level up and seed down the site of the old drill shed in East City, as an aid to beautifying that ambitious ward.

Deafness Cannot Be Cured
by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of every ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Stop It, You Villain, Stop It!—Advt.

WILL CITY RETURN TO USE OF OIL ON THE STREETS?

Mr. Parsons of the British-American Road Oil Co., Toronto, waited upon the Committee of the Whole City Council last night, with specimens of road oil at present used with satisfactory results in Toronto, Niagara Falls, St. Catharines and other Canadian cities and towns, and without injury to rubber tires. The specimens he submitted were Vulcan oil at 5c a gallon (with but a slight odor that passes away in a very few hours). Parkways oil at 8c (quite odorless) and Asphaltic oil at 8c a gallon, needing but one application a year.

The latter oil would have to be laid carefully and at considerable trouble, expense and inconvenience. Its application would call for a sprinkler with large holes, the oil would have to be spread over the street with a stable broom, covered with screenings and rolled a couple of days after. But one application the season would suffice.

The Parkways odorless oil is applied with an ordinary sprinkler, and requires no further operations. It is used in Queen's Park and Rosedale, Toronto and is guaranteed to have no destructive effect on rubber tires. In fact it is pumped into its tanks through a rubber hose. Two applications the year would suffice. Mr. Parsons offered to send along a tank of this oil at 8c gallon, its market price, and should it not accomplish the desired results, to charge no more than 5c gallon for it, the price of Vulcan or ordinary road oil.

Mr. Parsons contended that the trouble with the oil used by us this year was due to lack of penetrating power. His company's Parkways brand is used extensively on Toronto highways extensively travelled by autos and bicycles, and no complaint of its destroying tires has been heard of. 15,000 gallons, the width of a sprinkler is needed for a mile of roadway.

This matter will be taken up by the Board of Works at its next meeting.

INDUSTRIAL COMMISSION DEPT. TO BE CONTINUED

CITY CLERK ARMSTRONG WILL TEMPORRILY SUPERVISE CORRESPONDENCE.

Miss Thompson, Mr. Duggan's Stenographer to be Continued in Office—Negotiations With Another Factory in Progress.

The Committee of the Whole City Council took up the question of the Industrial Commission Department.

Ald. Buller, chairman of the Manufacturers' Committee, reported that his committee had thought Mr. Armstrong might give an eye to the requirements of the department, until such time as Council had an opportunity of making permanent arrangements. Miss Thompson, the late Commissioner's stenographer could be engaged to answer all correspondence.

His Worship offered that negotiations have been under way a month now with a concern seeking location.

Ald. Morgan thought the city could do without an Industrial Commissioner until such time as we have cheap power to offer. He did not approve of an expenditure of $4,000 a year for a man to sit in his office and dictate and answer correspondence. His view of the situation was that with cheap power available, a commissioner should go out after industries, like representatives of large business concerns, and not wait in his office for business to come to him.

Ald. Metheral endorsed Ald. Morgan's views, and offered that $4,000 decided last year as the cost of the department could be used to better advantage. Heretofore, he offered, the manufacturers committee had handled all industrial business, and Mr. Armstrong the correspondence, which was not by any means light. And while the results might have been discouraging, he did not know that Mr. Duggan, with $4,000 at his disposal for the year, had made any brilliant showing. He advised that the engagement of a Commissioner was not desirable at the present time.

Ald. Anderson though that a Commissioner should be engaged; other cities and towns are picking up industries, while Peterborough is getting none. He agreed with Ald. Morgan that a live commissioner would go out after industries, and not rely upon correspondence. But he did not believe Peterborough had lost any industries for want of cheap power. By substantial concerns are looking for sites and reduced tx power. Big substantial concerns are looking for sites and reduced taxation more than power, as inducements to locate.

City Clerk Armstrong was here asked what he thought of looking after the department temporarily. He replied that he would prefer that a commissioner be engaged, but his time was at the Council's call, and he was engaged to attend to the duties demanded of him.

Moved by Ald. Edgar, seconded by Ald. Brown,—That the engagement of Miss Thompson, be left in the hands of the Mayor and chairman of the Manufacturers' Committee, with power to act; and that in the meantime the City Clerk attend to the duties of the Industrial Commission Department.—Carried.

Moved by Ald. Duncan, seconded by Ald. Graham,—That the Clerk's salary be increased by $100 a year to date from June 1st, for increased duties in connection with the Industrial Commission Department, and as secretary of the Hospital Board.—Carried.

It is understood that Mr. Armstrong's connection with the Industrial Commission Department is but temporary, pending future arrangements.

Earlier in the evening a letter was received from Mr. W. H. Meldrum, who offered to act as Industrial Commissioner at a salary of $1200 a year and expenses, together with a bonus of $300 on every industry secured.—This went to the Manufacturers' Committee.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

A GOOD IDEA.

Editor Morning Times.

Sir,—Permit me the use of your columns to say that the man who suggested that the power companies and the city get together, has a level head. These two interests are identical, and as they have one common purpose in view, it should be an easy matter to arrive at an understanding.

If the city will grant a fixed assessment, and in some cases perhaps a site, the power people should be willing to meet this by a low rate for power.

Merchant.

THE CHIMES.

Editor Morning Times.

Sir,—I think, now that the inauguration of the People's Chimes is close at hand, that some recognition should be made the gentlemen to whose efforts the city is indebted for the beautiful bells. In this connection Rev. Canon Davidson comes first. He worked early, and late, in season and out of season, in securing the necessary funds. Then probably next in order, comes Mr. G. C. Wainwright, the treasurer of the Chimes Fund, who likewise performed a strenuous stunt in the popular effort. There were others who should also receive favorable mention in connection with the Chimes movement.

I would suggest that a suitable tablet be engraved and placed in the tower of St. John's Church, giving the names of the gentlemen who labored so hard and successfully in securing such a magnificent set of bells for Peterborough.

Presbyterian.

WHAT IS THE GAME?

Editor Morning Times.

Sir,—I see by the local papers that the Otonabee Power Company state that they propose to spend a couple of hundred thousand dollars in developing power from their two dams. If this is true, which I frankly confess I doubt, would it not be well for the Council to find out just where they are at in respect to this particular power? I understood that our late Industrial Commissioner had secured an option on the Otonabee Companys property for the sum of $225,000. It would appear from the above that there was no option given, and that this was only a blue.

As the question of power is one of vital importance to the Municipality, I think the Council should act quickly.

A GREAT CENSUS

Numbering the People is a Big Task—Some Interesting Points as to Work in Old Country

In view of the fact that this is Census Year in Canada it is interesting to note how Great Britain and Ireland take their Census. Some interesting points as to the great census in the Old Country this year are as follows:

The first Sunday in April was census night, when all the people in Great Britain and Ireland were numbered.

A census form, to be filled up by the occupier, was left during the previous week at every dwelling-house by the census-takers, who are officially known as enumerators.

There were about 40,000 of these census-takers, and they dealt with 9,000,000 census papers. The printing and classifying of these forms has been a big job. It occupied the staff of the Census Office for nearly a year, and it will take two years to sort and tabulate the forms after they are filled up, so that the whole work of the census from start to finish will occupy three full years.

All the forms were called for by the enumerators on Monday, April 3rd.

Refusal to fill up the form is punishable by a fine of $25, but although such a refusal is not uncommon they rarely persist in it, but give way to a little coaxing and explanation.

One particularly stubborn individual, however, was absolutely deaf to argument when the last census was taken ten years ago. He simply would not fill up the form, nor would he consent to give the information necessary to enable it to be filled up for him. So he was summoned and fined $25. His was the only family not included in the census.

Another householder, a lady, sent $25 on her own account as "conscience money." She had, she explained, understated her age. If all the ladies who do this same thing would act in a similar manner, the British Exchequer would be the richer by many thousands of five-pound notes, for experience shows that large numbers of the fair sex make themselves out on census day to be younger than they really are.

Twenty-five is the age at which most of them cease to grow any older, at all events on paper. This was clearly shown during the last census, which took place, of course, in 1901.

A novelty about this census is that children helped to take it. Circulars were sent to every headmaster and mistress throughout the Kingdom, with special hints, and dummy census papers. These latter the older children were taught to fill up in proper manner, special attention being directed to the "occupation" column.

Thus, if a child's father is a cab-driver, for example, the child was asked to impress upon his father the necessity of stating the exact kind of cab he drove—whether a "taxi," a hansom, or a four-wheeler. If the mother should happen to be a nurse—was she a trained and certified nurse, or an uncertified one, or merely an ordinary nurse to children?

Soldiers were enumerated by their own officers, except in the case of small garrisons of less than one hundred troops, when the ordinary enumerators did the work. This arrangement applies to India, and other stations abroad, as well as to the home stations.

British sailors in both the naval and the mercantile marine were enumerated by the captains of the ships in which they were serving.

The prisoners in jails were counted, the paupers and tramps in the workhouses, the lunatics and idiots in the various asylums, the dwellers in the common lodging-houses, even the human derelicts who were sleeping out-of-doors that night were, so far as possible, accounted for, scarcely one was missed.

When all is completed, it is expected that this year's census—which is the twelfth of Great Britain and the eleventh of the United Kingdom—will show the total population of the British Isles to be about 46,000,000, an increase of something like 5,000,000 in ten years.

MINE DISCOVERY

Vast Quantities of Rich Ore by Line of G. T. P.

It was learned at the G.T.P. offices, Winnipeg, that reports have been received from prospectors that vast quantities of rich minerals have been discovered along the main line of the company, which runs through the Yellow Head Pass on the western slope of the Rockies. Silver, iron and copper have been found about fifty miles beyond Tete Jaune Acbe, and it may be expected that great mining developments may take place in this district.

REV. DR. SHEARER

Of Toronto, and well known throughout Ontario for his moral reform work. He has issued a warning to young girls that women agents of the "white slave" traffic are making Canada a recruiting ground.

A Jarrow bride has distinguished herself by stealing a pair of boots from a shop door on her way home from church.

To Camp June 11th.

The Peterborough Battery will go into camp on June 11th instead of 12th, as announced in a previous issue. The Battery will assemble at the Armouries on Sunday next at 1 o'clock, when they will take their departure for Petawawa, where the military camp is being held this year. Recruiting will take place to-morrow night, all ranks are requested to assemble at the Armouries on Friday night, June 9th, at 7 o'clock, for final instructions.

TOOTHPICK OR MATCH?

Coroner's Jury Heard Evidence in Powder House Explosion

"You ought to be sent to jail," said the Crown Attorney to a witness who told the Coroner's jury which inquired into the explosion at the Blaster's Friend Powder Works at Sandpoint, Ont., that he had seen an employe going around the powder house with a match behind his ear. The witness who saw the match said it was used as a toothpick. Then the Crown Attorney grew wrathy and told him he should be sent to jail for trifling away the time of the jury.

Finally the jury returned a verdict that the explosion was due to unknown causes. They also advised greater precautions for the safety of employes, recommending that the plant be prohibited until better protection of human life was inaugurated.

PASTOR POORLY PAID

Went Behind $300 in Couple of Years

Rev. W. M. Lee, of Dunnville, asked the Hamilton Presbytery to allow him to accept a call to Pettypiece, Man. Couldn't keep the wolf from the door on the salary paid him at Dunnville, he said.

"I had $300 when I went there a couple of years ago, and I leave $150 in debt. There is nothing else for me to do. In four years I have not spent a hundred dollars on myself," said Mr. Lee.

The members of the Presbytery made some rather cutting statements with respect to the Dunnville congregation. Sir Thomas Taylor remarked that 25 years ago the Dunnville congregation paid a salary of $1,200 a year and free manse. Now they pay much less and provide no manse. It was a disgrace, he said.

Action will be taken later.

TWO VICTIMS OF A FIRE

Invalid and Nurse Lost Lives in Rawdon Township

Mrs. Patrick Cain, and her stepdaughter, Ellen Maloney, lost their lives in a fire at their late home in Rawdon township, Hastings County. Mrs. Cain had been ill in bed, and one morning her husband, Patrick Cain, went off to the post office at Minto to get his mail. The disaster occurred during his absence. Ellen Maloney apparently had been waiting on Mrs. Cain when the fire originated in the kitchen. She was found lying at the foot of the stairs leading from the parlor above. The victims were not dead when found, but they died shortly after being removed, without recovering consciousness. The farm house was practically destroyed.

NOTICE TO CONTRACTORS. TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope 'Tender for Station Buildings,' will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1.—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.
Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.
Section 3.—From Mile 5 to Mile 165 east of Quebec bridge.
Section 4.—From the Quebec bridge westward to Mile 45.
Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.
Section 6.—At Cochrane in the Province of Ontario.
Section 7.—From the divisional
Section 8—From Moncton to Napadogan, in the Province of New Brunswick.
Section 9.—From Mile 125.5 to Mile 159 west of Moncton.
yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.
Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.
Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario.
Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,
P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.
Dated at Ottawa, this 12th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realising handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $200 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of it is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some idea about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

-: TENDERS MARKED :-

"TENDER FOR SCHOOL IMPROVEMENTS"

will be received by the Peterborough Board of Education up to

Monday 5 p.m., June 5th

for the following works.

1st—For completing the 3rd Storey of the King Edward School.

2nd—For completing the present System of Steam Heating in the King Edward School.

3rd—A new System of Steam Heating and Plumbing in the old School, formerly used as a Collegiate Institute.

Plans and Specifications can be seen at the office of Wm. Blackwell, Architect, Water Street.

Tenders to be addressed to G. H. Thompson, Secretary Peterborough Board of Education.

The lowest or any Tender not necessarily accepted.

Tandem Motor Cycles.

Two tourists on a tandem motor cycle passed through Peterborough yesterday on their way west from Montreal. They were going to Buffalo and Rochester, and thence down the south side of Lake Ontario to Montreal. Mr. Watson, one of the tourists, said that where the roads were good they were able to dash along at a 30-mile clip.

QUEEN CHARLOTTE

The Capital City of the Islands

THE LAST WEST

The only town on Graham Island that has a monthly pay roll, and the only sawmill shipping lumber to foreign ports.

The only town having a railway gazetted to its very doors on the island.

The only city on Graham Island having electric light, city water, miles of sidewalks, churches, school, hospital, postoffice, first-class drug store billiard hall, city hall, hotels, boarding house, barber shop and other general stores; and the only newspaper published on the Island, the Queen Charlotte News.

We are positively the centre of all the vast wealth of the entire Islands, including farm lands, timber lands, coal and metalliferous mines. These products must come out at Queen Charlotte City, through the Honna River Valley, and through which the Island Railway must run according to charters already granted.

The combined townsite interests cover one thousand acres, of which five hundred are practically level alluvial soil with no rocks.

A fine water power from the Honna River, good drainage and the best harbor on the entire Islands.

Our lots are all 50 feet by 120 feet, ranging in price from $150 to $300; one-third cash, balance on time at 6 per cent., or deeds can be had at once if desired.

Fully 200,000 acres of farm lands, suitable for mixed farming, only await the hand of man, a large portion of which is already located.

The verdure clad mountains are vast treasure vaults of gold, copper, silver and other precious metals, while our valleys are underlaid with a wealth of the finest coal and covered with a vast forest of spruce, hemlock and yellow cedar. These, coupled with our fisheries, are at the very doors and within sight of Queen Charlotte City.

Taking all these facts into consideration, and with the present progress being made in developing our resources, which are at the gateways of transportation both by water and railway, with the advent of the completion of the Grand Trunk Railroad, Queen Charlotte City is destined to be one of the province's most prosperous cities.

It is owned largely by the wealthiest and most honorable men of our province, who would not be a party in misrepresenting facts and are prepared to endorse every statement herein made.

The townsite company are now offering a further 75 lots on Second avenue at a very low price and on easy terms, if taken at once, and under conditions that will make you a 100 per cent. on your investment in 90 days, for 20 per cent. of the gross proceeds will be used by letting a contract for the clearing and grading of Second avenue from Third street west. The company guarantees to advance the remaining 75 unsold lots on Second avenue from $150 to $225 as soon as the first 75 have been sold. The company is making this effort in order to join with the government in making Second avenue the trunk road through the townsite from the Wilson-Robinson coal fields, Honna River Valley, Lawn Hill and Miller Creek districts. Now you can secure any unsold lot on Second avenue, including fourteen in Keith's addition, to-day for $150, except corners, on easy terms, 1-4 cash, balance 6, 12 and 18 months at 6 per cent. This will positively be your last chance for a cheap lot in Queen Charlotte City, for every lot in the townsite will surely go from $500 to $1000 when the public realize that in the Island River railroad from Queen Charlotte to the head of Masset Inlet is to be started this summer, in addition to the present work already outlined, thus giving work to an army of men. There are at least 5000 citizens of Vancouver who have invested in the various resources of the islands. Conclusive evidence of these facts, a landscape drawing of the townsite and a portion of Graham Island coupled with an illustrated edition of the resources of the islands can be seen at the office of J. J. Miller, 82 Hastings street, Vancouver, B. C., Agent for Vancouver, and plans at office of "Times", Peterboro'.

ADVERTISE IN THE TIMES.

DEPARTMENT OF RAILWAYS AED CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted cheque for the sum of $16,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 13th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of contract can be seen and form of tender obtained at this department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., H. J. Lamb, Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

SEALED TENDERS addressed to the undersigned, and endorsed 'Tender for Public Building, Seaforth Ontario,' will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

There is one medicine that every family should be provided with and especially during the summer months viz., Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

Deputy Chief Grange of the Fire Department handed in his uniform on Saturday.

FORTUNES CAME WITH THE IDEAS

Inventions That Have Been Worth Millions to the Men Who Owned Them

The report that an invention for making salt has recently been sold to an American syndicate for no less than $5,000,000 once again illustrates the remarkable value of good ideas in these days of keen competition in the commercial world. We cannot, of course, all think out time and labor-saving devices which are going to bring us in a cool million, but we can keep our eyes open for useful inventions which, although they may not at the moment seem very profitable, may prove little gold-mines; for the fact should not be overlooked that some enormous fortunes have been made from little things.

Simple toys, puzzles, and games, have often proved such a success as to put thousands of dollars into the pockets of their inventors. The man who invented the tin rattle for babies retired with a quarter of a million of money, while the man who thought out the idea of the returning ball, which consisted of an ordinary rubber or wooden ball to which was attached a long elastic cord, profited to the extent of $50,000 per annum. The flying top had a rush of popularity which enabled its inventor to live in the lap of luxury for the remainder of his life, while the once popular toy known as "Dancing Jim Crow" is said to have yielded its patentee an annual income of upwards of $75,000.

Inventor of Roller Skates

It is not so many years ago that everyone laboriously laced his own boots from the lowest hole to the top. There was none of that lightning crossing of the laces into the neat little hooks with which the modern lace-boot is provided. The inventor of the boot-hook, H. A. Snipp, sold his patent outright for the sum of $250 and the purchasers are said to have made $1,250,000 out of the idea.

When Harvey Kennedy introduced the shoe-lace he made $2,500,000, and Mr. Plimpton, the inventor of the roller-skate, made a similar fortune out of his idea. Probably our readers will remember a legal action which took place some years ago, when in the course of the evidence it transpired that the inventor of the metal plates used for protecting the soles and heels of shoes from wear sold 12,000,000 plates in 1879, and in 1887 the number reached a total of 143,000,000, which realized profits of $1,150,000 for the year.

Badly Rewarded

But the inventor does not always reap such magnificent rewards for his genius. Take the case of Mr. J. Longridge, the famous engineer who invented the wire-wound gun, for instance. Longridge invented the gun in 1854, and did all in his power to place it before the authorities, but they would have nothing to do with it. Thirt yyears afterwards, however, the Ordnance Department at Woolwich, subjected one of the guns to exhaustive tests, and so satisfactory were the results that they declared that nothing could equal it for heavy ordnance. Unfortunately, the inventor died from a broken heart before this end was attained.

In all the world's history, however, there is no more startling instance of ingratitude and forgetfulness than the history of Henry Cort, a native of Gosport. He expended the whole of his private fortune of $100,000 in perfecting his inventions for puddling iron and rolling it into bars and plates. Then he was robbed of the fruits of his toil by the villainy of certain Government officials, and in the end left to starve. This was in 1784. Since that day Cort's inventions have conferred upon Great Britain an amount of wealth equivalent to $2,500,000,000, and given constant employment to about 600,000 workmen for the past four generations.

DANGEROUS EXPLOSIVES

The Great Precautions that Have to be Taken by Workmen

On the outside of the wrapping of frozen dynamite feathery crystals gather. These crystals are called "whiskers," and they are more "irritable" than dynamite itself. So touchy are they that anybody treading heavily near them is sufficient to set them off by concussion.

Cordite is another dangerous explosive, more so during its manufacture than after. Easy as it is to handle in its final form it is a favorite explosive with anarchists and bomb-throwers. It is made from a mixture of nitro-glycerine, gun-cotton, and vaseline.

The nitro-glycerine store is a most extraordinary building, buried literally under a mound and reached by a brick-lined passage through the earth. Nitro-glycerine itself is an almost colorless liquid, and so careful are the men who handle it, that if a single drops falls on the leaden floor it is at once wiped up with a damp rag. All the water that comes from this underground building is carefully drained into a neighboring pond, and every week this is blown up by dynamite on account of the dangerous explosive matter contained in it.

Even in the manufacture of such a comparatively "harmless" explosive as gunpowder the greatest precautions have to be taken. On entering the building where the powder is being turned out, all matches, pipes, and any steel instruments have to be given up, and special boots have to be put on to prevent any grit reaching the soft leather floor of the buildings.

IMMIGRANTS FOR THE WEST

There is a steady influx of immigrants to Toronto, bound for all the different points in the West, very few of them leaving the train ere they reach Winnipeg. In four days eleven special trains left the Union Station, each train carrying from eight to twelve coaches, or about eight thousand people.

MR. BORDEN'S TOUR

Mr. R. L. Borden will leave for the West in July to make a political tour over the ground which the Prime Minister traversed last year. It is understood that the speakers whom Mr. Borden will take to help him set the prairies on fire will be Judge Doherty, Chief Whip George Perley, and Mr. H. B. Ames.

The uniform success that has attended the use of Chamberlain's Colic Cholera, and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all dealers.

CANADA'S SONS WIN AT HARVARD

Out of Fifty Students Seventeen Won Fellowships and Scholarships at That College

That the fifty Canadians now studying at Harvard University are able to hold their own with the youth of Uncle Sam is proved by the fact that in the announcement of annual awards for fellowships and scholarships at that college, no less than seventeen, ranging in value from $150 to $1,150, have been won by Canadian students.

The most lucrative prize, which is the Hooper Fellowship, of the value of $1,150, goes to T. Thorvaldson, of Arnes, Man., a graduate of the University of Manitoba, who has been pursuing advanced studies in chemistry at Harvard during the last three years. The Frederick Sheldon Fellowship, of the value of $1,000, goes to Norman S. B. Gras, of London, Ont., a post-graduate student of history. Both these fellowships are available for study abroad, and Messrs. Thorvaldson and Gras will spend next year at universities in Europe.

Two Thayer Fellowships, of the value of $540 each, have been awarded to W. G. Peterson, of Montreal, son of Principal Peterson of McGill, and to Garnett G. Sedgwick, of New Glasgow, N.S. Mr. Peterson received his B.A. from McGill in 1906, and, now for three years a Rhodes scholar at Oxford. He is a candidate for the degree of Ph.D. in history at Harvard. Arthur E. R. Stah, of Vancouver, B.C., a graduate of Queen's University, gets the Saltonstall Scholarship of $400; and J. W. Mavor, of Toronto, a son of Professor James Mavor, of the University of Toronto, secures the Gibbs' Scholarship of $250.

Austin Scholarships of the value of $250 each have been awarded to Henry Chedat, of Vancouver, B.C., professor of romance languages in the College of British Columbia, to Professor H. C. Simpson, of Trinity College, and to Professor John S. Turner, of King's College, Windsor, N.S. The Austin Scholarships are awarded to professors in other colleges who desire to spend a year in post-graduate study at Harvard, the competition being open to all the educational institutions of Canada and the United States.

Eight University Scholarships, valued at $150 each, go to Canadian students as follows: Harold G. Black, Pugwash, N.S.; James W. Estey, Fredericton, N.B.; Walter A. McCubbin, Bolton, Ont.; Charles Louis Townsend, Montreal; James F. Bridges, Cascumpec, P.E.I.; Calvin W. Day, Kingston, Ont.; Arthur R. Kaiser, Billtown, N.S.; and John A. T. Westherbee, New Glasgow, N.S.

PRINCE CHING
The first constitutional Prime Minister of China.

WORKMEN'S GRUESOME FIND

Human Bones, Believed to be Indian's, Found in Chimney

A gruesome find was made by workmen engaged in making alterations at the old Albion Hotel, Kingston. In an old chimney the workmen found a quantity of what are believed to be human bones.

In connection with the finding of the bones a strange tale is told. Old residents say that many years ago the building now used as the Albion Hotel was the military headquarters, and that one day an Indian who had some trouble with the militia, suddenly disappeared and was never heard from again. The finding of these bones has led some to believe that the Indian met with foul play and that these are his bones.

NEW HOTEL IN WINNIPEG

The new G.T.P. Hotel to be erected on Broadway will be an ornament to Winnipeg. A site has been chosen on what was formerly a portion of old Fort Garry. The building will have a frontage of a whole block on the south side of Broadway between Fort Garry and Garry Streets, and will be ten storeys in height, with an exterior of sandstone in the French chalet style. The total cost of construction and equipment will be well over the million dollar mark.

TRANS-PACIFIC LINERS

Contracts for the building of two new trans-Pacific liners, of 15,000 tons register, speed of 18 knots, will be let in England shortly; they will be on a par of their passenger accommodation with the Atlantic liners of the company. They will be able to make the run between Yokohama and Victoria in ten days. It is probable that they will be ready to enter service during 1912.

SASKATOON WATERMAINS

The Prairie Construction Company, of Saskatoon, have been awarded the contract for laying about four and one-half miles of water mains and sewer mains in the city of Saskatoon, at a cost of $53,977.

ADVENTURE OF A QUEEN.

Woman and Policeman Hurt in Scene in Which Wilhelmina Figured.

The Hague, June 2.—Queen Wilhelmina, while driving with Princess Juliana, has had a startling adventure. A woman suddenly stepped off the pavement and threw a large, white envelope into the royal carriage.

A policeman on a bicycle who was escorting the carriage, dashed for the woman, but he lost control of his machine, knocked her down and fell

Coughs, Colds,

Bronchitis

If there is an ailment in the throat or chest, it is surely essential that the remedy be conveyed direct to the affected part. It's because the healing vapor of Catarrhozone is breathed into the sore, irritated throat and bronchial tubes, because its balsamic fumes kill the germs and destroy the cause of the trouble. These are the reasons why Catarrhozone never yet failed to cure a genuine case of Catarrh, Asthma, Bronchitis or Throat Trouble.

The wonderful soothing vapor of Catarrhozone instantly reaches the furthest recesses of the lungs, produces a healing, curative effect that is impossible with a tablet or liquid, which goes merely to the stomach, and falls entirely to help the throat and lungs.

To permanently cure your winter ills, your coughs, sneezing, and Catarrh, by all means use a tried and proven remedy like Catarrhozone. But beware of the substitutor and imitator. Look for Catarrhozone only, 50c and $1, at all dealers.

JUST BREATHE IT.

TENDERS FOR STEEL BRIDGES

Tenders (endorsed Tender), will be received by the undersigned for the steel work or superstructure of two bridges known as Spencer's Bridge, Dunsmer, and Brown's Falls Bridge, Burleigh,, in the County of Peterborough, up to One O'Clock P.M.;

JUNE 19th, 1911

The lowest or any tender not necessarily accepted.

Plans and specifications may be obtained from the County Clerk or seen at the County Office, Peterborough.

ED. M. ELLIOTT,
County Clerk.

Peterborough, May 29th, 1911.

ADVERTISE IN THE TIMES.

The Morning Times

TUESDAY, JUNE 6th, 1911.

THE SPEED MANIA AND THE AUTO.

It is devoutly to be hoped that the Indianapolis automobile race is the last of its kind, either in the United States or Canada. The toll of dead and severely injured claimed by such races renders them a menace rather than a benefit to the great industry whose steady expansion and development all rejoice to see.

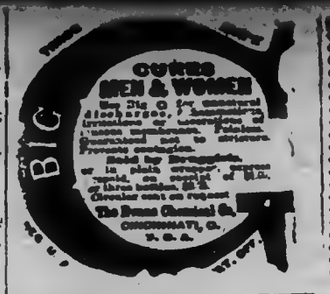
The automobile is tested by constant and hard use under all conditions. Terrific speed in a race which inevitably maims and kills tests nothing and demonstrates nothing, except the thirst for thrills and the indifference to risks felt by many patrons of such spectacles.

Science, art, industry and invention must march, and necessary or unavoidable sacrifices must be submitted to with resignation. But recklessly to court peril, deliberately to pander to the speed mania, is to reflect discredit on our otherwise humane age and civilization. We must do nothing to increase the amount of cruelty and brutality in modern society; the whole trend is toward conservation, amelioration of social conditions, increase of safety and comfort and happiness. Reckless races mean reckless driving at other times, disregard of public and private rights, the taking of dangerous chances in the routine of life.

The automobile intensifies the joy and pleasure of life and makes for health, convenience, variety. Why debit it with death, injury and savagery?

WAR AND THE EFFECTS.

Like Premier Asquith, President Taft, in discussing "insults" as a cause of war, reminds us of the days of private feuds and duels, when it required superhuman courage to avoid "the field of honor." If, he asks gentlemen no longer fight over questions of honor and vital interest, why should civilized nations fight over them? Where is the "humiliation" involved in agreeing to settle



any and all international disputes by judicial arbitration?

What, after all, is war—war without gloss, vainglory and excitement? Mr. Taft gets down to prose and reality when he says that war is wholesale slaughter, anguish, pillage, destruction, staggering burdens.

True, there is discipline in war and preparations for it, and certain virtues are revealed or fostered by it. But, as an eminent philosopher once said, there is a moral equivalent of war. There are many callings and tasks in industrial and civil life which call for discipline, self-denial, rough and hard work, endurance, obedience to chiefs, co-operation. To substitute arbitration for war is not to make life a soft snap for all and to imperil the vigor of the race. It is simply to divert our best energies, and virtues into constructive channels.

HE FAVORS RECIPROCITY AND WOULD VOTE AGAINST ALL MOTIONS IMPERILLING IT.

Seeks to Amend Fact-Amendment He Proposes No Fisheries Would Kill the Agreement.

Boston, Mass., June 5.—In a telegram sent to Henry M. Whitney, Senator Henry Cabot Lodge explains in detail his position in regard to the amendments to the Canadian reciprocity bill. The statement comes in answer to an inquiry made of Senator Lodge by Mr. Whitney, and is as follows:

"Your telegram received. My views are the same as explained to you and others last winter. I shall vote for the reciprocity agreement. I shall vote against all hostile amendments, or against any amendment which would endanger the acceptance of the agreement by Canada.

"I shall vote for the Root amendment because it makes the bill conform to the agreement submitted by the President to Congress, and the bill now pending in the Canadian Parliament. As the President said in his speech in Chicago, the House bill is not in exact conformity with the agreement. The house amended the agreement by omitting one clause. The Root amendment in effect restores this clause.

"The amendment I have planned to offer is regard to the fisheries is not intended to change the terms of the agreement. It is a new section enlarging the mutual abolition of the bounty fees, and privileges.

"As the agreement now stands our fishermen would have to complete fishermen would have to compete with the bona-fide subsidized industry. This will be impossible and would mean the extinction of the deep sea fisheries, which would be a misfortune in itself and an injury to the consumers. This is true of no other industry affected. But I shall not offer even this amendment unless I am satisfied it will not endanger the passage or the acceptance of the bill."

Washington, June 5.—The Senate Finance Committee to-day resumed hearings on the Canadian reciprocity bill, Herman Ridder, until recently, president of the American Newspaper Publishers' Association, being called to the witness chair. Mr. Ridder had not proceeded far when Senator McCumber, of North Dakota, startled the committee by challenging one of his statements as an "absolute falsehood." Senator McCumber's action brought a quick protest from Senators Stone and Bailey, who declared that witnesses should not be insulted.

Mr. Ridder had made the statement that the newspapers of the country and the Publishers' Association had not attempted to suppress facts or to color stories sent from Washington on the subject of reciprocity, when Senator McCumber interrupted with his charge of falsehood.

FIRM AGAINST AMENDMENTS.

To Senator Stone of Missouri, President Taft again made it clear today that he opposed to any amendment whatsoever to the Canadian reciprocity agreement. Senator Stone had heard a report that Administration opposition to the Root amendment was not entirely sincere, and that Senator Root has been assured privately that President Taft would bot be displeased if his amendment were adopted.

"I came to the White House," said the Senator, "to find out for myself whether the President was in earnest in opposition to the Root amendment. And I found out. He told me that he was against the amendment proposed by Senator Root, and would be against anyproposed by any other Senator, Democrat or Republican. That settles it for me. I am going back to the Senate to carry the fight along those lines. Every true friend of reciprocity will do the same thing. If we begin by tacking on "harmless amendments" we will end by attaching others which will destroy the bill."

"Our baby cries for Chamberlain's Cough Remedy," writes Mrs. T. B. Kendrick, Rasaca, Ga. "It is the best cough remedy on the market for coughs, colds and croup." For sale by all dealers.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM BUNTON, LATE OF THE CITY OF PETERBOROUGH, IN THE PROVINCE OF ONTARIO, TICKET AGENT, DECEASED.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Sec. 38, that all persons having claims against the estate of the said William Bunton, who died on or about the 17th day of January, 1911, are required on or before the 15th day of June, 1911, to send by post, prepaid, or deliver to Dr. R. J. Husband, Federal Life Building, Hamilton, Ontario, administrator of the said estate, their Christian and surnames, addresses and descriptions, the full particulars of their claims and the nature of the security, if any, held by them, and

TAKE NOTICE, that after said last mentioned day the said administrator will proceed to distribute the assets of the deceased amongst the persons entitled thereto, having regard only to the claims of which he shall then have notice, and the said administrator will not be liable for any claims or the assets or any part thereof to any person or persons of whose claim notice shall not have been received by him, and such person shall be peremptorily excluded from the benefit of such distribution.

Dated at Toronto this eighth day of May, A. D., 1911.

A. P. POUSSETTE,
Solicitor for the said Administrator.
167 Bloor Street West,
Toronto.

A Fountain Pen

Practically Given Away

The Times has arranged for a supply of the famous Diamond Point Pens "Safety Clip" 14 karat Solid Gold Fountain Pens, which will practically be given away to our subscribers. 20 coupons cut from The Times, together with 75c in cash will get you your choice of these three splendid pens.

The holders are made with pearl and gold bands, and all gold full chased, gold filigree, or full mounted German Filigree, similar to illustrations, and are fully guaranteed by its makers, there being a guarantee certificate with each pen.

COUPON.

Twenty of these coupons cut from The Times and presented at The Times Book Store with 75c in cash, will secure one of these splendid 14 kt. Solid Gold Rimmed Fountain Pens.

Cuban Grape Fruit Groves Pay Enormous Dividends

A SAFE AND SURE INVESTMENT

Ninety miles west of Havana lie the beautiful Manhattan Estates in the heart of Cuba's most profitable and bountiful section. We intend, with your co-operation, to develop 502 acres of this wonderful sandy soil into a prosperous and self-sustaining institution of rich agricultural products.

It requires a large amount of money to go into this business properly, and it takes considerable time for the grape-fruit trees to mature.

When they are three years old they will each bear on an average one box, which is worth not less than one dollar on the tree. The fourth year we average three boxes per tree, which means $4.00, and this continues until the seventh year, when the average from a tree amounts to between seven and twenty crates; retailing in the Canadian and American markets as high as $10 a crate.

But bear in mind that these trees in full bearing will not have cost more than five dollars each, consequently once maturity is arrived at the profits are continuous and tremendous.

As we intend planting over 40,000 grape-fruit trees, you can readily see that 100 per cent. annually is a conservative estimate.

We Pay Our Way As We Go.

During the past year I have placed many dollars' worth of stock, mostly amongst my relatives, personal friends and business acquaintances. I HAVE TOLD THEM WHAT I HERE REPEAT TO YOU, that I am giving the affairs of this company, and will continue to give them, as careful attention as if I owned the whole company, and I AGREE NOT TO RECEIVE ONE CENT OF SALARY for my services until after I have made the company pay you DIVIDENDS OF TWENTY-FIVE PER CENT. ON EVERY DOLLAR YOU INVEST WITH ME IN THIS ENTERPRISE.

When you and I receive twenty-five per cent. on our investments, I will not need a salary, and right here I want to state that we have agreed that NO SALARY SHALL BE PAID TO ANY OFFICER until at least twenty-five per cent. dividends have been earned and paid to all our stockholders.

Further—we have no bond interest to meet; we do not even have to pay any taxes until we have an income. EVERY DOLLAR RECEIVED WILL BE USED FOR THE DEVELOPMENT OF THE COMPANY'S PROPERTY.

Commercial grape-fruit orchards are wonderful wealth-producers.

I want to draw a check to your order for 100 PER CENT. DIVIDENDS EVERY YEAR, and I not only want to do it, but expect to do it.

I have thoroughly investigated the possibilities for profit in growing grape-fruit on a large scale, and have seen the actual results accomplished.

YOUR MONEY SHOULD WORK FOR YOU AS HARD AS YOU WORK FOR IT, and I am desirous for this reason that you know the grape-fruit industry as I know it, and I want you to send for our booklet de luxe, fully illustrating and describing this wonderful and prosperous industry.

(Signed) S. J. MURPHY.

STATUTORY INFORMATION

(Filed with the Provincial Secretary of Ontario)

Authorized Capital $200,000 — **Shares $100.00 Each**

1. The incorporators and at this date directors are E. V. O'Sullivan, John M. Ferguson, and James E. Day (Barristers), James A. McNevin (Law Student), and Mary Donevan, Eileen Jamieson, and Amy I. Naftel (Stenographers), all of 34 Victoria street, Toronto. Any shareholder not in arrears is qualified to be a director. The by-laws provide no remuneration for acting as director except fees and traveling expenses for attending meetings. Directors may be paid for special services.

2. Each incorporator subscribed for one share, 7 in all, and by by-law of the Company 993 shares are to be issued to Sterndale J. Murphy, of Toronto, who is the vendor to the Company, under an agreement between him and it dated 4th January, 1910, for the sale of certain Cuban lands, the consideration being 993 paid-up shares, $700 cash, and the assumption of a debt of $9,000.00 on the land, payable in installments (until Nov. 15, 1912) to the Cuban Commercial Company of Havana, under contract between it and Mr. Murphy, dated 3rd December, 1909. Copies of these contracts may be inspected on any business day at the office of the Company's Solicitors, Day, Ferguson and O'Sullivan, Toronto. The preliminary expenses are incorporation and legal fees and printing, and are estimated at under $1,000. No commission has as yet been authorized on sale of stock, but the directors may authorize payment of a commission not exceeding 25 per cent.

3. To make the contract binding it has been decided to go to allotment on receipt of application for one share. Shares are offered for sale on the terms that 25 per cent. be paid on allotment, 25 per cent. three months thereafter, and balance on call of the directors, calls not to be more than 25 per cent. of the subscription, and at least three months to elapse between calls.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

HAVE YOU ATTENDED

Ogilvie's big flour demonstration now going on in your city? If not you are missing an educational treat in cookery. The ground floor of the T. A. S. Hall, Simcoe street, has been rented for this purpose. Demonstrations commence at 2.30 sharp. Afternoon tea served free to housewives until June 7th.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards Easy payments, 10 per cent cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

FROM A SOUTH WINDOW IN CANADA

"Love, Laughter and Life"

HOW THE MOTHER CAN KEEP YOUNG

The greatest cause of the mother's worn look is the want of sleep. Insomnia is the greatest enemy of the face, as well as the entire health and nervous system. If you want to look healthy, with a clear skin, bright eyes, and an elastic step, put away all the daily troubles and worrying thoughts at bedtime. It is perhaps difficult to put away the worries of the day, but it is a matter entirely of self-control, and a simple motto should be remembered: "Sleeping time must not be thinking time." Fresh air is an important rule, and never work, sit, or sew, in a room that has not fresh air coming into it. The bath is one of the essentials for the complexion. A warm plunge bath at the end of the day, and a stimulant will be given to the circulation and skin if a plentiful supply of cold water is used each morning. Don't worry. Remember there are no ills so hard to bear as those which never materialize. Keep sunny; not merely when fortune smiles, but when the dark clouds gather. There is nothing like inner sunshine as a life brightener and health maker. If you do not believe that cheerfulness makes for health and happiness, try living up to these rules. Perhaps they cannot all be kept at once, but make a beginning now.

SILVER AND BLUE EVENING GOWN

One of the daintiest evening gowns is a combination of silver and blue patterned on lines set forth in the above cut. The skirt foundation is a lovely shade of pale blue satin, over which is artistically draped a tunic of silvery morquisette. The marquisette is also used for the bodice and sleeves, the latter finishing with a double frill of fine white lace. The clever handling of a silver chiffon fichu makes it the most attractive feature of the gown, falling as it does to the bottom of tunic. A wide band of lace heads the deep hem on each end, and a garland of tiny pink chiffon roses encircles the bodice in the manner shown. The coiffure ornament is a band of silver gauze ribbon, edged with crystal bead fringe, finished on the right side with a wreath of roses matching those on the bodice.

FIFTEEN MILLION ROSES

The rose gardens at the White City, Shepherd's Bush, this year, will, it is claimed, be the finest in the world. Messrs. Paul are laying them out on an elaborate plan. One design represents a coronet with a white crown, salmon pink and scarlet base, and centres of a brilliant orange scarlet. Large stars will be made of the scarlet American rose "Richmond," and some trees of "Juliet" roses, fiery scarlet and yellow, gloriously scented, have been planted. It is estimated that the rose gardens will show at least fifteen million blooms.

WAS SHE FORTY-FOUR?

A young man had just chaffingly declared that a woman could not keep a secret.

"Oh, I don't know!" said the lady. "I've kept my age secret ever since I was twenty-four."

"Yes," he replied; "but one of these days you will give it away. I am as sure of it as that I am standing here."

"Well," she said, with confidence, "I think that when a woman has kept a secret for twenty years, she comes pretty near knowing how to keep it."

HINTS ON CLEANING

Some Information of Value to the Good Housekeeper

A Piece of Camphor kept with the silver which is not in constant use will keep it from tarnishing.

Coffee is a Good Disinfectant. A little burned on hot coals will purify a sick room and abolish bad smells.

Kettles may be thoroughly cleaned by boiling a few potato peelings in them. They should be afterwards thoroughly rinsed.

When Washing valuable china or cut glass it is a good plan to place a heavy Turkish towel at the bottom of the basin. This prevents all danger of the china and glass getting chipped.

Wipe all Knives in paper before washing them, and they should be cleaned as soon as washed by rubbing them with a cork dipped in very slightly moistened knife-powder, and then dusted.

Marble Mantelpieces will look like new, after this treatment: Dissolve an ounce of soda in a quarter of a pint of water and add to it enough whiting to make a paste. Rub this well into the marble, and when dry wash it off with clean water.

It is not Generally Known that a slice of lemon put into the copper when boiling clothes will make them beautifully white and take all the stains out of pocket handkerchiefs and children's pinafores. Cut the lemon with the rind into slices, and let it remain in the boiler till the clothes are ready to come out.

Marks on Kitchen Walls which have been caused by carelessly striking matches on them will disappear if rubbed first with the cut surface of a lemon, then with a clean cloth dipped in whiting. Afterwards wash the surface with warm water and soap, and then quickly wipe with a clean cloth wrung out of clear water.

If you Want your sewing machine to do satisfactory work, remember that it requires to be kept clean. After every ten hours' work it needs oil, but the surplus oil should be carefully wiped off, or the work will be stained. Always work it steadily, and never start or stop with a jerk. The best way to finish off a machine seam is to turn the material round and stitch back for about an inch. This saves tying the threads, which takes up a lot of time, especially if there be many seams.

CUTS PIE FAIRLY

Machine Divides It Into Six Equal Pieces at One Stroke

No more will the restaurant Romeos wrangle because Florence, the belle of pie jugglers, shows partiality. A heartless machine has been invented that insures peace in the lunch counters of America by dividing every pie into six equal parts with a mathematical precision that admits of no dispute. The machine consists of a plate with a jointed handle curving over it. Depending from the handle are six knives, arranged like the spokes of a wheel, on a spring device, which gives resiliency to the stroke. The pie is placed on the plate of the machine and the handle pressed down. The knives divide the pie into six pieces at one blow, and not only cut each piece exactly the same size, but saves the time required to divide the pie with an ordinary knife. Hotels and restaurants will find one of these implements indispensable.

The fairest of to-day's brides may be the mother-in-law of the future.

BOOKS THAT REALLY TEACH you the things you want to know, and in a simple, practical way that you can understand.

Our Illustrated catalogue, which will be sent you free upon request, tells all about the Practical Mechanical Books for Home Study that we [illegible]. CARE OF CLOTHES

Teach Children to Look After Their Clothing Properly

Many a woman who is an expert in the cleaning of paint, and who has taught her children correct table manners, has neglected to teach them to care for their clothes properly, and, indeed, many women do not seem to understand that process.

How many throw their clothes down on a chair when they take them off at night? True, they may fold them, but the neatly folded garments laid on top of each other on the back of a chair become creased, and are not properly aired.

When the garments which have been worn next to the body, and have necessarily absorbed the moisture from the pores, are removed, they should be hung where there is a circulation of air, that they may be properly dried and aired.

Hang up the garments, letting them get thoroughly dry and aired before putting them on again, or before putting them away in the cupboards or the drawers.

When one gives the matter a moment's thought it will readily be seen how untidy and insanitary it is to treat the garments as many people do, throwing them down in an unaired heap during the night, and putting them on again in the morning.

Another bit of advice in regard to the care of the clothes is to remove any grease-spots immediately on taking off the gown.

Rub it at once with some French chalk, rubbing the chalk on the soiled spot lightly, and letting the garment lay overnight in the chalk, then shaking it off the next day.

Magnesia may be used instead of the chalk; but whichever you select, remember that the best way to treat a white garment is to rub it with chalk or magnesia when you take it off, fold it in blue tissue-paper, and lay it away in the big box or drawer until you want to wear it, then shake out the chalk. You will be surprised to know how long a white blouse may be worn without sending it to the cleaner if you treat it in this way.

GETTING OVER MEASLES

The Necessity of Watching the Little Patients Carefully

In spite of all that has been said by doctors against the old custom of considering measles a "mild disorder," many mothers do not realize even now how much care is necessary with regard to the child who is convalescing after measles. Chills are extremely dangerous at this time. A large number of cases of consumption are the outcome of a chill caught after quite a mild type of measles. Ear mischief also may arise after measles, and it is important to prevent the child sitting in draughts, and to summon the doctor immediately on any appearance of earache. A course of nourishing food and cod-liver oil is generally required at this time, and the wearing of warm woollen combinations will help to prevent chills.

BEADED NET TUNIC

Tunics grow more elaborate each day, and the beaded variety is beautiful. These are not among the impossible things for idle fingers, and if a woman is at all clever with her needle she can fashion one herself at about one-third the cost asked for them in the shops. Most of the new tunics are long, reaching almost to the hem of the satin slip. The shorter tunics are usually shaped around bottom, and almost always are pointed on sides and finished with a tassel.

VIGILANCE

Mistress:—"Bridget, what business has that policeman in my kitchen every night?"

Bridget:—"Shure, mum, he's a sargint, and he says he has come in to see if any common constable is sneakin' off his bate."

Strawberry Festival.

The 57th Regiment Band announce that they will hold a concert, strawberry festival and social in the Riverside Park on the evening of Friday, June 23. The directors of Riverside Park have kindly placed the beautiful grounds at the disposal of the band, and it should be an ideal place for the holding of such an event. Further announcements will be given later.

ADVERTISE IN THE TIMES.

Doctors Condemn Oily Liniments

The Public Are Warned to be Careful of These Strong-Smelling Oily Liniments Containing Harmful Acids, Ammonia, etc.

Many people have clung to the old-fashioned idea that a thick, greasy liniment is the best kind. Doctors say not—and they know.

Recently a number of these white, oily liniments were analyzed, and they were found to contain an enormously high percentage of harmful acids, and such irritating chemicals as ammonia, etc. For the moment they may cause a warm sensation when first applied, but their continued use never cures rheumatism, and only deteriorates the skin, sets up inammation and causes endless trouble.

When a doctor warns you to quit using a white, oily liniment—do so. He knows that athick liniment can't penetrate, can't sink through the pores and reach the seat of the pain.

When asked his opinion a few days ago, Dr. Roberts stated that he considered a strong, penetrating, pain-subduing liniment, such as "Nerviline," to be superior to any of the white ammonia liniments. In his twenty-five years of practice he had witnessed cases of rheumatism, sciatica and lumbago that simply would not respond to ordinary treatment—but Nerviline cured them. The same physician also spoke of the great advantages of keeping a preparation like Nerviline in the house always, because of cramps, diarrhoea, stomach disorders, earache, toothache, headache and such minor ailments. Nerviline is a first-class cure. There is scarcely an ache or a pain, internal or external, that Nerviline won't cure. In thousands of homes no other pain-relieving medicine is used. Fifty years' continued success and the endorsement of the profession are proof that Nerviline is the liniment for the home.

Any good druggist or dealer can supply the large 25c bottles of Nerviline.

DEPARTMENT OF RAILWAYS AND CANALS.

ONTARIO—ST. LAWRENCE CANALS.—RAPIDE PLAT CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Improving Lower Entrance to Lock No. 24," will be received at this office until 10 o'clock, on Friday, June 9th.

Plans, Specifications, and Form of Contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $9,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order.

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 19th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

JUDICIAL NOTICE

TO THE CREDITORS OF

Canadian Cordage and Manufacturing Co., Ltd.

Pursuant to the Winding-up order, made in the High Court of Justice in the matter of the Canadian Cordage and Manufacturing Company, Limited, and in the matter of the Winding-up Act bearing date the 7th day of December, A.D., 1910, the creditors of the above named the Canadian Cordage and Manufacturing Company, Limited, and all others who have claims against the said Company, formerly carrying on business in the City of Peterborough and elsewhere, are, on or before the 3rd day of July, A.D., 1911, to send by post, prepaid, to George Walford Hatton, Liquidator of the said Company, at his Office, 397½ George street, in the said City of Peterborough and Province of Ontario, their Christian and surnames, addresses and description, the full particulars of their claims, and the nature and amount of their securities, if any, held by them and the specified value of such securities, verified by oath, and in default thereof, they will be peremptorily excluded from the benefits of the said Act and of the said order.

The undersigned the Local Master of the High Court of Justice at Peterborough, will on the 6th day of July, 1911, at 11 o'clock in the forenoon, at His Chambers in the Court-house at the said City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice. And let all parties then attend.

Dated at Peterborough this 22nd day of May, 1911.

E. C. S. HUYCKE,
Local Master at Peterborough.

SYDNEY MEDD,
Solicitor for Liquidator,
Bank of Commerce Bldg., Peterboro.

FROM MONTREAL TO PORT ARTHUR

Government Aid to the Canadian Northern in Building the New Line

The Government will ask Parliament to guarantee the bonds of the Canadian Northern Railway Company to the extent of $34,000 per mile for the whole distance from Port Arthur to Montreal via Sudbury and the Ottawa Valley. The new line will, with the completion of the Grand Trunk Pacific, give practically all eastern Ontario points three competing lines to the West, and to the West it will give three competing lines to Canadian seaports. It will open up an immense stretch of rich agricultural and mineral country in northern Ontario and the Ottawa Valley. It will run through the clay belt of the Ontario hinterland at distances varying from 20 to 50 miles from the line of the National Transcontinental Railway which skirts the northern part of the clay belt. In addition the company proposes to construct a line from the Georgian Bay north to the main line, tapping a country now reserved by railways. The company has now a through line from Ottawa to Quebec. It is proposed to begin at once the construction of a line branching off from this at Hawkesbury to Montreal. From Ottawa the road will run on the south side of the Ottawa River to the Chats, about thirty miles west of Ottawa. From there it will cross the Ottawa River and run along the north shore to Portage du Fort, where it will again cross the Ottawa, and proceed thence nearly in a straight line to Sudbury, and thence along the route now surveyed to Port Arthur.

HENRY L. STIMSON
The newly-appointed Secretary of War for the United States.

A WESTERN PIONEER

W. H. Elford, a Durham Farmer Who Went West Years Ago

Away back before the middle of last century W. H. Elford, now of Carman, Man., was born on a farm in Durham county, Ont. In 1883 he went to the Canadian West. He had a few hundred dollars and some effects. He took with him three horses, a cow and a wagon, and located near Carman, renting the farm he now lives on and owns along with surrounding acres. Forethought led him to bring along a tent. In this he lived for some eight months while a house was being erected. Lumber had to be hauled twelve miles, and although the teaming was done in July, it was necessary to build brush portages across some low places. Mr. Elford now has three half-sections instead of a small rented farm. Bluffs have been allowed to stand here and there for shelter, and the home is well surrounded by trees. He has five daughters and three sons. His advice to newcomers to the West is to keep out of debt, unless absolutely unavoidable. If possible, he says, keep out of obligation in regard to implements, and do not discard a machine because it does not work well. He also urges the advisability of clean, pure seed, and the cropping of a moderate acreage under thorough cultivation rather than a greater number of acres half done. Then, he says, begin seeding down early to keep humus in the soil, and get stock as soon as possible.

FIRE IN HISTORIC CHURCH

The historic Gordon Church at St. Elmo, near Cornwall, Ont., made famous by Ralph Connor's "Man from Glengarry," recently had a narrow escape from destruction. As the people were assembling for worship smoke came pouring out of the vestry into the church. Investigation showed that fire had started at the door and had made some progress under the floor, which was chopped so as to get water on to the flames. It is thought that the fire was caused by someone carelessly dropping a lighted match.

TEN STOREYS THE LIMIT

The City Council of Calgary, Alberta, has passed a by-law prohibiting the erection of buildings more than ten storeys in height. The feeling in Calgary is that the overpoweringly tall edifice is not a beauty spot, but rather an architectural eyesore. Hence that tabooing of the "scraper."

CAPTURED A MINK

A mink was captured alive in the heart of Guelph, and the hunters accepted an offer of $4 for the little fur-bearer within ten minutes of its capture.

INDEPENDENT TELEPHONES

Chairman Mabee, of the Board of Railway Commissioners, granted the application of the eleven independent telephone companies of western and central Ontario for an order compelling the Bell Telephone Company to give these companies long-distance connections over the Bell Company's system. The connection will be tried for twelve months, and if it works out satisfactorily, then the conditions arranged by the board's order may be made permanent.

ADVERTISE IN THE TIMES.

JUMPERS AT FALL FAIRS

Mr. J. Lockie Wilson Has a New Scheme to Increase the Attendance

Mr. J. Lockie Wilson, superintendent of agricultural societies, intends to stimulate the interest in Fall fairs by having the farmers of the country enter their horses in jumping competitions, for which handsome prises will be given. At present the only extra attraction at Fall fairs are the trotting races, and Mr. Wilson thinks that if jumping competitions were held the farmers would enter their horses and some good sport would follow. It also would lead to more extensive breeding of high-class jumpers.

CHURCH BARS LADIES

Methodists Don't Want Them as Delegates to Conferences

Ladies cannot act as delegates to the annual conferences of the Methodist church. So it was decided at the annual court of appeal, held in Toronto, the decision being unanimous. The matter was brought up by the British Columbia Conference.

The court also confirmed the duties of the quarterly and trust boards of the individual congregations. These committees meet separately except on financial questions, when a special board is appointed by the two.

BRANTFORD'S NEW INDUSTRY

Hustling City Lands Big Buffalo Concern

A Canadian branch of the Buffalo Brake Beam Company will be established in Brantford, in order to cater to the growing business consequent on the development of the west and the expansion of railways. The firm constructs brake beams, but will likely manufacture other lines in connection with railway cars. As yet the site has not been selected, nor is it known how many hands will be employed. The Buffalo plant is a big concern, and the Canadian possibilities are said to be excellent. President S. A. Crone, Buffalo, was in the city completing the deal. No concessions are asked from the city.

CROSSED THE BOUNDARY

In 1910 the number of persons who crossed the international boundary line to the United States was 94,496, sub-divided as follows: United States citizens, 22,293; Canadian citizens, 44,338; other aliens, 27,336. In the year ending June 30, 1910, the United States commissioner's report showed that 116,277 persons left the United States to come to Canada. Of the number 78,697 were American citizens, 15,203 were Canadians, and the balance were citizens of other countries.

TO USE NORTHERN ROUTE

The Hudson Bay railway officials will this year ship in their supplies for the work in the far north by way of York Factory. A steamer will be loaded at Halifax and it will proceed by way of the straits and the Hudson Bay to Port Nelson. It is expected that a great deal of time will be saved in this way. Last year supplies were sent in from Winnipeg and many difficulties were encountered.

JUDICIAL NOTICE

TO THE CREDITORS OF THE CENTRAL MILLING CO. OF PETERBOROUGH, LIMITED.

PURSUANT to the Winding-up Order made by the High Court of Justice in the matter of the Ontario Companies Act and Amendments thereto, and in the matter of the Central Milling Company of Peterborough, Limited, bearing date the fourth day of May, 1911.

The Creditors of the above named Company and all others who have claims against the said Company formerly carrying on business in the City of Peterborough, in the County of Peterborough, are on or before the 15th day of June, 1911, to send by post, prepaid to W. R. Morris, Liquidator, of the said Company, at his office, 375 Water Street, Peterborough, their Christian and Surnames, addresses and descriptions, the full particulars of their claims and the nature and amount of the securities (if any) held by them and the specified value of such securities verified by oath and in default thereof they will be excluded from the benefits of the said Act and Winding-up Order.

The undersigned Master at Peterborough, of the High Court of Justice will on the 16th day of June, 1911, at eleven o'clock, in the forenoon, at His Chambers in the Court House, in the City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice and let all parties then attend.

Dated this 10th day of May, 1911.

E. C. S. HUYCKE,
Local Master at Peterborough.

A Breathless Ride of Twenty Miles More Under a Red Hot Sun This

A lament has lately centred round a breathless ride of twenty miles [illegible] merely as a record of hard riding, but because it illustrates certain qualities. Field-Marshal Sir [illegible] White V.C., when a major on the staff in India, covered 210 miles in two days through a wild and difficult stretch of the enemy's country, in order to join the "Gay Gordons" at Kabul, where they were starting on that immortal march to Kandahar.

In the very early days of Natal Mr. Richard King covered the distance from Durban to Grahamstown, 10 miles, in ten days, through a hostile and comparatively unknown country with not a single bridge over rivers and streams. However, in traveling to precisely the same destination from Cape Town, a distance of 700 miles Sir Harry Smith beat the above record, for he performed the journey in six days.

But to Archibald Forbes, the famous war correspondent, doubtless belongs the best riding record. To begin with, he covered a hundred miles on the day following the Russian assault on Plevna, in order to reach Bucharest and telegraph home his account of the engagement. This, however, he completely put in the shade during the Zulu War of 1879, when, after the Battle of Ulundi, he rode alone over 118 miles of trackless country swarming with Zulus, in the short space of fifteen hours, to reach a telegraph office with news of the victory for English newspaper readers. He then continued his ride to Pietermaritzburg, 170 miles farther south, which he achieved in a little over twenty-nine hours! And all this by a man suffering from a wound in his leg received during the battle!

As for records in marching on foot, there seems to be no end to them. Only a year or two ago an English regiment, the Shropshire Light Infantry, on conclusion of some arduous manoeuvres, covered a distance of fifty-five miles in two days without a single man falling out, and carrying the burden of full equipment.

Then there was the Kabul to Kandahar march of 316 miles in thirty days; and only a short time ago the 19th Battalion of the Chasseurs-a-pied in France marched sixty-eight kilometres—over forty English miles—in one day, though even this astonishing feat is put completely in the shade by the forced march of the famous Light Division in the Peninsula, when the troops, carrying from 50 to 60 pounds each on their shoulders, covered sixty-two miles in twenty-six hours!

NEED OF GOOD SEED

As Direct Method of Ensuring Larger Returns

The absolute necessity of good seed as the most direct method of insuring larger returns, not only in larger yields, but also in crops free from weed impurities, is being fully realised by thousands of young farmers throughout the entire West, says a Winnipeg paper. The use of impure seed, low in vitality, means nothing but ruin and disappointment to the sower. Pure seed of a pedigreed strain, on the other hand, is too expensive to buy in large quantities from the various seed firms, and the only course left open to the farmer of average means is that of growing the seed himself, or securing it from some neighbor who has grown it, and for which he will ask a good figure. A few bushels should be bought and planted on a carefully prepared piece of land, free from weeds, and the crop carefully harvested and stored for next season's seed.

After obtaining successful results for a few years, many farmers even go further, and by a system of selection and elimination gradually build up a strain of the variety he is growing, which may be either a heavier yielder, more resistant to smut or frost, or stronger in the straw, and so forth. Such work, however, requires more time, and at present is mostly left to specialists or experimental farms in this Western country. There are, however, some private growers throughout the West who are interested in the work, and are obtaining very satisfactory results.

THE SPEED OF FLIGHT

Hints as to Shooting Ducks When on the Wing

If you have any doubt as to the swiftness of the canvasback on the wing where business calls, just fire at the leader in a string some time when you've the chance. Duck shot, when propelled by the proper quantity of powder, travels pretty quickly itself, but if your charge brings down any member of that string of ducks at all it will be the fifth or sixth bird back of the leader. If you would have a chance of dropping the leader, you will have to aim not less than ten feet ahead of him. Then he will more than likely run plumb against your shot. When he drops it will be a quarter of a mile or so further on, for he can't stop short of that distance even after he is dead. On the other hand, I have found that the mallard duck is lazy, as wild duck activity on the wing goes. He seldom cares to cover more than a mile a minute, but he can if he wants to, for I have timed him when he was hitting the wind at a good 75-mile clip. The mallard's every-day style of getting over the country takes him along about a 50-mile-an-hour rate. The black duck can show about the same speed as the mallard.

The wild goose is an astonisher on the fly. It has a big, heavy body to carry, and to see one of these fowl waddling on the ground you wouldn't suppose it could get away from you very fast on the wing. But the way it manages to glide from one feeding place to another on occasion has a suddenness to it that is aggravating to the best of wing shots.

To see a flock of honkers moving along so high that they seem to be sweeping the cobwebs off the sky, you probably wouldn't care to bet that they were travelling at the rate of 90 to 100 miles an hour in the day, for the wild goose never fools any time away. His is always a business gait.—Rod and Gun.

A SWISS VILLAGE

One Will be Built About a Mile South of Golden, B.C.

With the increase of Swiss guides in and around the Canadian Pacific Railway resorts in the mountains it has been decided to erect a Swiss village in the valley of the Columbia about a mile south of Golden, B.C. and name the village Edelweiss. Each little home will be placed upon a rocky promontory, and a start has been made with six chalets. Later on it is intended to increase this number to twenty, and with development a big Swiss village will likely be the outcome. Here the guides will live when not engaged in actual work during the tourist season, and the village itself will no doubt become a point of attraction for many people. These Swiss guides are in great demand, and it was felt that to induce them to settle in the country steps must be taken to make them contented. There is nothing that will do this like giving them homes of their own amid surroundings that will make them feel as if they were back in Switzerland.

VANDALISM OR ROBBERY

Unknown Persons Tried to Wreck Statue of Maisonneuve

Montreal authorities were greatly exercised recently when they found that an effort had been made by some unknown persons to wreck the famous statue of Maisonneuve, opposite Notre Dame Church. It was noticed by the caretaker that a large statue of Jeanne Mance, at the base of the pedestal, was out of plumb, and examination showed that the bronze statue, weighing over a ton, had been pried over eight inches off its base, and was nearly toppled over into the fountain around the statue. It was evident that whoever was responsible for the mischief had been disturbed, as they had left behind them a large iron crow bar with which they had pried the statue over.

It is not known whether robbery or mere vandalism was the motive.

TO BLOW UP SCHOOL

Vancouver Boys Wanted to Emulate Los Angeles Miscreants

Four small boys of Vancouver, the eldest only thirteen years of age, confessed that they were only waiting to obtain a full two-minute cap before blowing up the school which they attended.

With two sticks of dynamite and the end of a fuse placed in holes in the basement of a two-roomed school on Wilson Road, South Vancouver, the lads were found.

They stated that they had been fired to attempt the deed through reading of the explosions at Los Angeles and other cities. The boys claimed, however, that they had no intention of lighting the fuse when school was in progress, but meant to wait until there was no one in the building.

RIEL REBELLION RECALLED

Adam W. Graham, St. Thomas, who lost his property at Fort Garry in 1870, has been given $562 by the Government. In the troublous times in the Canadian West in 1871 Mr. Graham and a number of others were captured by the rebel, Louis Riel, and imprisoned for ten weeks at old Fort Garry. About three years ago Mr. Graham started a movement to secure compensation for the losses incurred while a prisoner at Fort Garry, including loss of clothing, ten weeks' time and travelling expenses. Although it is over forty years since that loss was incurred, Mr. Graham received no interest, the amount representing about his actual loss at the time.

INCOME OF INTERCOLONIAL

The corrected figures for the operations of the Intercolonial Railway during the year ending March 31 last, show that the gross income of the road amounted to $9,963,782. The surplus was $373,712.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 50 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 50 volumes and handsome sectional bookcase will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 50 volumes to the schools, lodge society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily, and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured :—

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Tent For Sale.

Tent for sale—Large, only in use a few weeks, very reasonable. Apply W. J. L. Elliott, head of Weller St.

L.O.L. Meeting.

The regular meeting of L.O. Lodge No. 80, will take place this evening. A full attendance is requested.

The Times at Summer Resorts.

Readers of The Times leaving the city during the summer months, may have The Times mailed to any address during their absence. Orders left at The Times' bookstore will receive attention.

A Peterborough Boys' Success.

It will be pleasing news to the hundreds of friends of Mr. Harry Rush, jr., son of ex-Mayor Rush, to learn of his promotion to the position of manager of the Dominion Bank, Windsor. Mr. Rush will please accept the congratulations of The Times.

Rural Mail Boxes Here.

The post office boxes for the rural mail delivery route from Peterborough to Fowler's Corners and return have arrived at the Peterborough post office and subscribers may obtain their boxes by applying to the postmaster here. The sooner the boxes are placed in position, the sooner the delivery will be commenced.

C.P.R. to Orillia.

The order has gone forth, says the Orillia Packet, that the C. P. R. line between here and Coldwater must be ready by July 1st at latest and the Toronto Construction Co. is working till ten o'clock every evening, to get the work on the esplanade finished. It is estimated that 150,000 yards of filling will be required. Of this, 20,000 will come out of the big cutting at Silver Creek, and the remainder from the sand pits near by. A temporary switch is being laid to aid in filling in the esplanade, but it is not the intention to have any permanent switches north of Mississaga street. The front of the filling will be riprapped.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mr. R. Ruddy, K.C., was in Toronto yesterday on business.

Mr. J. B. McWilliams is down from his Stoney Lake cottage for a day or two.

Mr. D. O'Connell, K.C., and Mr. Harry Phelan, are in Orillia to-day on business.

The Misses Sadie and Florence Rowe, of Collingwood, are the guests of Mrs. Crowe, 508 Rubidge street.

Mrs. Bert. Mashon of Toronto, is in the city visiting with Miss Morgan of East City.

Miss Webber, of Montreal, spent Sunday in the City, the guest of Mrs. Adamson, Stewart street.

Mrs. John Wilson, of Galt, and her son, Mr. John Wilson, are in the city, called here by the illness of Mrs. Wm. Hardill.

Mr. and Mrs. Walter Libby, are on a visit to St. Catharines and the Falls. They will be accompanied by their son Walter, from Port Dalhousie.

Lindsay Post: Mr. Myles Hamilton, Manager of the Bank of Montreal, Fenelon Falls, is in town today. It is rumored that his mission in town to-day is to trim his friend, Mr. G. H. Hopkins in a friendly game of golf.

New Train Service to "Lake of Bays."

An important feature that will be inaugurated during the coming season will be a new train service to the "Lake of Bays" district. A standard Grand Trunk passenger train will leave Toronto with through coaches, parlor cars and dining cars at 10.15 o'clock in the morning, daily except Sunday, for Huntsville, reaching the latter point at about three o'clock in the afternoon, connecting with the steamers for points in the "Lake of Bays" district, and affording passengers the opportunity of reaching their destination in time for dinner.

The Sunday evening boat service from the WaWa Hotel, Britannia, Point Ideal, Portage, Deerhurst and other important calling ports on the "Lake of Bays" to Huntsville will be run on same schedule as for season 1910, during the months of July and August, and which will be a boon to week-enders desiring to return to the city for business on Mondays.

OBITUARY

Mrs. Kearney.

The death took place yesterday afternoon of Ellen Leonard, wife of Mr. P. A. Kearney, Young's Point, after a lengthy illness. Particulars of the funeral will be announced later.

Col. Robert Z. Rogers.

Word has been received in the city of the death at his home, "Woodside," Grafton, Ont., of Lieut-Col. Robert Z. Rogers, aged sixty-nine years. The deceased was a brother of Col. H. C. Rogers, formerly Postmaster of Peterborough, and a cousin of Mr. R. B. Rogers. He was very well known and most highly respected in Peterborough, and the intelligence of his death will be heard with genuine grief here. The funeral will take place on Wednesday afternoon at Grafton.

Mrs. James Girven.

There passed away at her home, 598 Sherbrooke street, Peterborough, yesterday morning at 10.30, the wife of Mr. James Girven, aged 55 years. Mrs. Girven had been ill for some time and had been confined to her room for nearly three months. Mrs. Girven was formerly Miss Jane Miller of Otonabee, daughter of the late John Miller. Mrs. Girven leaves her husband and three daughters to mourn her loss. The funeral will take place from the family residence to-morrow afternoon at 2.00 o'clock and proceed to Little Lake cemetery for interment. Mrs. Girven was a member of St. Andrew's church and was highly appreciated by her neighbors and friends.

Miss Veronica Doherty.

A bright young life went out yesterday morning in the person of Miss Veronica Doherty, youngest daughter of Mr. John Doherty, 155 Stewart street, after a three weeks' illness of spinal meningitis. The deceased was nineteen years of age, and was a favorite among a large circle of friends and acquaintances, who deeply regret her demise. Previous to her illness, she held a position in Miss Allen's millinery store. Besides her bereaved parents, three sisters, Misses Mary, Erminie and Laura, and one brother, Lorne, are left to mourn her loss.

The funeral will take place from the family residence to-morrow morning at nine o'clock to St. Peter's Cathedral and thence to St. Peter's cemetery.

Mrs. Edmund Morphet.

Death removed yesterday afternoon, at ten minutes after two o'clock, a highly esteemed and respected resident of this city, in the person of Mrs. Edmund Morphet, who passed peacefully away at the Nicholls Hospital. The deceased lady was 63 years of age, and had been afflicted with poor health the past fifteen years. But despite physical weakness the late Mrs. Morphet was blessed with a cheerful self-sacrificing and lovable disposition that endeared her to a large circle of friends and acquaintances, who will learn of her demise with sincere regret. She had been confined to her home since the beginning of the year, and was taken to the Nicholls Hospital three weeks ago in the hope that unremitting professional attendance might assure her recovery, but to no avail.

The deceased was a life-long adherent of the Anglican faith, and a loyal and consistent member of St. John's Church, in the work of which she took an earnest and active interest as long as her health would permit. As a member of the Woman's Auxiliary, she exemplified the principles of true Christianity to a marked degree.

The late Mrs. Edmund Morphet was born in Barnstable, England, and came to this country with her parents, at an early age. They settled first at Bowmanville, Ontario, subsequently removing to Port Hope, where deceased was united in marriage to Mr. Morphet some 45 years ago. About five years afterwards Mr. and Mrs. Morphet made their home in Peterborough.

The deceased is survived by her husband, two sons and one daughter. The sons are Mr. Herbert W. Morphet, secretary of the Toronto Savings and Loan Co., and Mr. Vernon Morphet, of the freight department of the Quaker Oats Co. The daughter is Mrs. (Rev.) Walter Archbold, of Hastings, (on the Hudson River) New York, U.S.A.

The funeral will take place to-morrow afternoon from the family residence, 350 Aylmer street, to the Little Lake cemetery.

Mary H. Thompson.

There passed away at the family residence, 107 Hazlitt street, yesterday morning, Mary Helen Thompson, eldest daughter of Mr. and Mrs. W. H. Thompson, aged 9 years. The deceased had been a sufferer from heart trouble for some time. She was a bright and lovable child, and her demise will be sincerely mourned.

Those left to mourn besides her parents, are three brothers, Robert, William and Albert, and one sister, Edna.

The funeral service will be conducted by Rev. F. C. Sawers, at the family residence, to-morrow at 2.30 o'clock, after which the funeral will take place to Little Lake cemetery.

Outdoor Sport and Zam-Buk.

Every athlete, every ball-player, every swimmer, every canoeist, every man or woman who loves outdoor life and exercise, should keep a box of Zam-Buk handy.

Zam-Buk is a purely herbal preparation, which, as soon as applied to cuts, bruises, burns, sprains, blisters, etc., sets up highly beneficial operations. First, its antiseptic properties render the wound free from all danger from blood poisoning. Next, its soothing properties relieve and ease the pain. Then its rich, herbal balms penetrate the tissue, and set up the wonderful process of healing. Barbed wire scratches, insect stings, skin diseases, such as eczema, heat rashes, ringworm, babies' heat sores, chafed places, sore feet—are all quickly cured by Zam-Buk. It also eases and cures piles. All druggists and stores. Use Zam-Buk Soap, 25c per tablet.

For soreness of the muscles, whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

NERVOUS, LIFELESS DEBILITATED MEN

YOUNG MEN AND MIDDLE-AGED MEN, the victims of early indiscretions and later on course, who are listless in life—you are the ones we can restore to manhood and revive the spark of energy and vitality. Don't give up in despair because you have treated with other doctors, used electric belts and tried various drug store nostrums.

Our New Method Treatment has enriched hundreds from the ranks of despair, has restored happiness to hundreds of homes and has made successful men of those who were "down and out." We prescribe specific remedies for each individual case according to the symptoms and complications—we have no patent medicines. This is one of the secrets of our wonderful success as our treatment gets at fault, for we prescribe remedies adapted to each individual case. Only curable cases accepted. We have done business throughout Canada for over 20 Years.

CURABLE CASES GUARANTEED OR NO PAY

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been poisoned? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion free of Charge. Books, Free—"Boyhood, Manhood, Fatherhood." (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. No names on boxes or envelopes. Correspondence Confidential. Question List and Cost of Treatment FREE FOR HOME TREATMENT.

The GRESSMAN Company Limited

KING VICTOR EMMANUEL II MONUMENT, $20,000,000

Rome, June 5.—Nearly one million people witnessed the dedication yesterday of a magnificent monument to King Victor Emmanuel II., grandfather of the present king. Interest was added to the occasion by combining therewith a celebration of the granting of the constitution by King Charles Albert in 1848, the same constitution which still rules United Italy.

King Victor Emmanuel, Queen Helena, the Queen Mother Margherita, who appeared for the first time at an official function since the death of King Humbert in 1900; Dowager Queen Maria Pia of Portugal, the surviving daughter of King Victor the Dowager Duchess of Genoa, the Dowager Duchess of Aosta, the Count of Turin, the Duke of the Abruzzi and other members of the Royal House were present.

8000 MAYORS.

Not only the people of Rome but thousands from the provinces joined in making the event one of national importance. The mayors of various towns and cities throughout the Kingdom, who were in attendance, numbered eight thousand.

BIGGEST IN THE WORLD.

The monument is the most colossal structure of the kind in the world. It occupies the left section of the Capitaline Hill and opens into the very heart of Rome on the Piazza, where stands the Palace of Venice, which Paul III. erected. In front is the Corso, the leading thoroughfare of the city, so that the equestrian statue of the King Liberator in gilded bronze can be seen from a great distance shining against the white marble back ground of the Colonnade. The statue is forty feet high and weighs fifty tons. It was cast in 16 pieces, the work occupying two and a half years.

The monument is composed of a great portico in white marble with sixteen immense columns surmounted by a frieze, and at the end is quadrigae in bronze. In front of the colonade stands the gigantic equestrian statue of the father of the country on a richly decorated pedestal, leading to which are grand staircases decorated with fountains, statues, groups and antenae with gildred figures. The entire length of the monument is 500 feet, its depth is 450 feet and its height is 250 feet.

Notwithstanding the relative cheapness of the marble and labor in Italy, the monument when completed will have cost about $20,000,000 and will represent thirty years' work. King Humbert laid the corner stone of the great structure on March 22, 1895.

One of the incidents of the dedication was the cheering of a priest who climbed the steps of the monument. Senators and deputies surrounded him with as much enthusiasm as the populace. Opening his gown, the priest showed a tri-color sash, the emblem of the mayorality, saying:—"I am Canon Paolucci, Mayor of Horiano Abruzzi. In 1848, as Mayor, I took the oath of loyalty to the King and the constitution, and I thought it my duty to come here to-day and pay a tribute of homage to the father of our country."

CANADIAN PACIFIC.

Change in time, commencing June 4th, trains which formerly left Peterborough at 4.38 p.m. will leave at 4.26 p.m. for Toronto and West.

Trains which leaves Peterborough for Ottawa and Montreal at 12.10 a.m. midnight on week days, will also run on Sundays.

New County Maps.

The Times' Map Department has issued five new wall maps, in four colours, of the counties of Victoria and Durham. These maps sell for $3.50 each, and are up to date in every detail. We have now under way a splendid map of the United Counties of Stormont, Dundas and Glengarry, which will be ready for delivery in a short time. Our staff is also working on a similar map of Leeds and Grenville.

VOL XXXIV NO. 134 PETERBOROUGH, ONTARIO, WEDNESDAY JUNE 7 1911 PRICE TWO CENTS

PUBLIC SCHOOL TEACHERS APPOINTED FOR ENSUING YEAR

Mr. W. H. Hill submitted the following report to the Board of Education which was adopted as read:

Gentlemen,—Your Committee on Appointments have carefully considered the matters referred to it, and beg leave to report and recommend the following:

1. That the following teachers be re-appointed on the Public School and Kindergarten Staffs at salaries according to the schedule adopted by the Board:

Yeomey, H. A.
Downey, R. F.
Richardson, W. L. C.
Kelly, J. W.
Rossel, J. M.
Park, M. H.
Kerr, F. E.
Walbey, W. H.
Storey, W. J.
Neale, W. J.
Morrow, Miss E.
Halbert, Miss M.
Martin, Miss K.
Morley, Miss D.
Thomlinson, Miss E.
Smith, Miss E. B.
Jenkins, Miss E.
Peters, Miss A. E.
Morrow, Miss M.
Cairns, Miss C.
Thomas, Miss E. L.
Perrin, Miss L.
Deane, Miss M.
Carey, Miss E.
Thompson, Miss B. L.
Erskine, Miss M. P.
Ross, Miss M.
Stubbs, Miss M. C.
Lightfoot, Miss J.
Rannie, Miss M. R.
Brown, Miss E.
Staples, Miss A.
Jackson, Miss J.
Moore, Miss M.
Cadwell, Miss N.
Carmichael, Miss S. E.
Walker, Miss F.
McDonald, Miss E. A.
Elliott, Miss L.
McQuarrie, Miss E.
Bennett, Miss P. S.
Warner, Miss M. R.
Rush, Miss L. B.
Gillespie, Miss A.
Cameron, Miss A. V.

2. That the following special teachers of Manual Training, Household Science, Art and Music, employed jointly by the Education Department and the Board of Education be re-appointed at salaries according to schedule:

Steinhoff, Miss.
McRae, Miss.
Davies, Miss.
Hagerman, A. F.

3. That Miss Esme Thomlinson who has been supplying on the staff be appointed permanently from the 1st of September at the minimum salary for teachers holding Second Class certificates.

4. That
Miss Olive M. Fisher
Miss J. M. V. Runnings,
Miss Lillian Ord,
the holders of first class certificates, and Miss Florence E. Foster, the holder of a second class certificate, be appointed to the Public School staff at minimum salaries according to certificate and schedule.

5. That Mr. Walter Northcott be appointed janitor of the Central School buildings, salary to be according to schedule and duties to start 1st July. There was a number of excellent applicants and your committee selected Mr. Northcott because of his successful experience in similar work, and his general qualifications.

6. To remove all ambiguity in the agreement made with the teachers, your committee recommend that clause "6" be amended and read as follows:

"The Board of Education and the teacher may, at their option, respectively terminate (his engagement, prior to or subsequent to the expiration of said year, by giving notice in writing to the other of them at least two calendar months previously, but so that such engagement may terminate on the last day of December or March."

And that the following additional clause be added to the agreement:—

"Teachers desiring re-appointment on the termination of their contract, (30th of June) shall give notice in writing to the secretary of the Board previous to date of termination of said contract."

7. Your committee would further recommend that this Amended Agreement be signed by the members of the Public School teaching staff according to the regulations of the Education Department.

8. That Mr. E. C. Scrigley be appointed a member of the Board of Examiners for the Entrance Examinations.

9. As authorized your committee have advertised for two Kindergarten Directresses, and the applicants will be dealt with at a later date.

10. Your committee would recommend that in the event of duly qualified candidates presenting themselves for training as Assistant Kindergarten teachers, that such candidates be trained by the Directress of the Queen Alexandra Kindergarten class.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

THE RIGHT WAY.

Editor Morning Times.

Sir,—I see considerable interest is being taken on the power question, and I venture to ask you to publish a few words from me on this subject: I was pleased to notice that the suggestion made by The Times, that the power companies and the city get together and arrange for a supply of power, was likely to bear fruit. Mr. W. G. Ferguson's letter to the Council on Monday night shows that the Ottawa Power Company is willing to meet the city on such a scheme. If the Peterborough Light and Power Company will also join, it would make things easy, provided they will accept a rate for power sufficiently low to enable the city to compete with other places. I understand that power can be had in other places at the rate of $10 per horse power. If this is so, Mr. Ferguson's figures will have to be lowered considerably.

The Times is doing good work in regard to this matter and I take pleasure in handing you my subscription to your bright and newsy paper.

E. E. Ford.

INJURES HORSES FEET.

Editor Morning Times.

Sir,—I saw an item in The Times to-day, stating that the oil which is being used on the streets of the city is injuring the hoofs of horses. I believe this is true, for my horse is suffering from some disease of the hoofs, which I never noticed before.

The sooner the abominable stuff that is being spread on the streets is used up, the better.

Horseman.

THE REX THEATRE GOING TO MONTREAL

Local Company Has Splendid Offer Which Has Been Accepted.

The Rex Theatre Company has accepted an offer made them by Montreal people to remove their theatre to the Canadian Metropolis, and the work of taking down the spacious tent will be started at once. It is understood that a splendid stand has been secured, on which the tent will be erected, and where a large business is assured.

It was found by the management that the difficulty experienced in securing attractions was such as to make it almost impossible to keep the performance up to the high standard intended.

Constipation brings many ailments of Canada, the largest milling country in its train and is the primary cause of much sickness. Keep your bowels regular madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by all dealers.

OBJECT TO STREET CARS ON SUNDAY

Ministerial Alliance Do Not Like Street Cars on Decoration Day.

The Ministerial Association have taken action in regard to the proposal to make Sunday, June 25th, Oddfellows' decoration day. At their meeting, held on Monday last, the matter was dealt with, and the secretary was instructed to write the Oddfellows in regard to the matter.

The Times is advised that the Council has no power to grant the street railway the privilege of operating their cars on Sunday. The company would be liable to a heavy fine were they to do so.

The Ministerial Association say that decorating the graves on Sunday would demoralize every Sunday school in the city, besides empty the churches both morning and evening. One of the leading ministers called up the Times last night, and said that he did not see why Saturday afternoon could not be substituted. It was a half holiday in quite a number of factories and places where men were employed.

MODERN MAN-KILLING MACHINES WILL NOT ABOLISH WAR

They that think that modern improvements in implements of war will have the effect of decreasing the possibilities of war reckon without regarding the lessons taught by modern wars. Many persons thought that the very destructiveness of modern weapons would so scare the nations that they would hesitate about provoking war or commencing hostilities. Long range rifles with equipment for accurate sighting; cannon that would *shoot hell* into the enemy's camp; armored cruisers impervious to shot, yet mounted with guns capable of destroying anything; torpedo boats and submarines stinging like wasps; all these were the things that were going to do away with the necessity for their own use. We were told that fifteen years ago, but the Spanish-American, the British Boer and the Russo-Japanese wars have come and gone, and what tribute did they pay to modern invention? Nothing whatever. The "big butchers' bills" of the Napoleonic, Crimean, or

Once Bad Enough.

Mr. Jones (reading his paper): "Here is a story of a double drowning."

Mrs. Jones: "Dear, dear! Isn't that awful. It's bad enough to be drowned once."

In cases of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by all dealers.

THE WEATHER.

Showers with a little higher temperature.

CONTRACTS FOR SCHOOL IMPROVEMENTS AWARDED

THEY GO TO THE LOWEST TENDERER IN EACH CASE.

Mr. Vincent Eastwood Insisted That the Tenders Should Be Published in the Interest of the Public, who Really Pay the Bills.

The Property Committee of the Board of Education, of which Mr. R. Fair is chairman, reported last night that they had awarded the contracts for public school improvements as follows:

REPORT OF PROPERTY COMMITTEE.

To the Chairman and members of the Board of Education:—

Gentlemen,—Your Property Committee beg leave to report as follows:

As authorized your Committee had plans drawn by Mr. Blackwell, architect, for several works to be undertaken at the different schools, and after carefully considering the plans and specifications submitted, your committee advertised for tenders and beg to recommend

1. That the contract for the completion of the third flat at the King Edward school be awarded to Messrs. Rose & Hickey for the sum of $2,495.00, and that Mr. Adam Hall be awarded the contract for the heating and plumbing of this building at $1,616.00.

2. That Mr. W. J. Johnston be awarded the contract for the work to be undertaken at the Central school building for the sum of $4,460.00, and that the contract for the plumbing and heating of this building be awarded to Mr. R. G. Sturgeon at $537.00.

3. That Mr. C. A. J. Duranceau be awarded the contract for the heating, plumbing, ventilation, etc., of the old Collegiate Institute building for the sum of $3,323.47.

These are the lowest tenders in each case.

The action of the Board was confirmed.

Mr. Eastwood was surprised that the report did not embody the figures of all tenderers.

Mr. Fair and others submitted that such procedure is not customary with the Board. The tenders, however, Mr. Fair offered are available to Mr. Eastwood or any other person sufficiently interested to enquire into them.

Mr. Eastwood contended that all the tenders should be published. He was not finding fault with the committee, in whose judgment he had every confidence, but was suggesting publicity from a standpoint of public interest.

Mr. Fair contended that it would not be just to unsuccessful competitors to publish their tenders. The publication of their figures would have a tendency to lessen future competition for the reason that people are apt to class the high tenderers as extortionists not advisable to patronize.

Dr. Morrison could not see that public interest would be served by publishing all the figures when the lowest tenders have been accepted.

Mr. Eastwood replied that the invitation for tenders for all public work provides that the lowest tender be not necessarily accepted, for the reason that it is not always safe to award contracts to lower bidders. A good man always figures on the safe side, and should be be high in comparison with others he does not care who knows his figures after the contract is awarded. The City Council's tenders for cement, rubber, etc., and all public work, is open for publication. The same principle should apply in this case; it is the public's money we are spending, and the public should be taken into our confidence.

Mr. Fair said there was nothing to hide regarding the transaction; the press could publish the figures if they liked, although he could not agree that it would be fair to the contractors to do so. Besides, such a course as ordering the publication of all tenders had never been resorted to by the Board, and he would not like to establish such a precedent.

Mr. Eastwood—"That's it; the figures in such cases have not been heretofore published, and I want to make a start now."

Col. Miller and Dr. Burnham endorsed Mr. Eastwood's stand.

Moved by Mr. Eastwood, seconded by Col. Miller.—That all the tenders be published.—*Lost on a vote of 7 to 3.* Dr. Burnham voted with the mover and seconder.

THE TENDERS.

King Edward School.

Finishing 3rd. Floor—Rose & Hickey, $2,495.00; W. J. Johnston, $2,681.00; Thos. Rutherford, $2,995.00; Pearson Bros, $3,360.00; R. S. Trew, $3,600.00.

Heating and Plumbing—C. A. J. Duranceau (heating only), $1,400.00; Adam Hall, $1,616.00; R. G. Sturgeon, $1,670.00; W. A. Archibald, $1,834.00; Adamson & Dobbin, $1,870.00.

INDUSTRIAL CHARTS FOR THE PUBLIC SCHOOLS

THEY ARE CALCULATED TO GIVE SPLENDID OBJECTIVE LESSONS.

Board of Education in Regular Monthly Session Last Night — Improvement Needed in Ventilation at Collegiate Institute.

The Board of Education met in regular monthly session last night, when there were present Chairman John Crane, and Messrs. Adams, Dr. Morrison, Hill, Fair, Ackerman, Hays, Eastwood, Col. Miller, Dr. Brown and Miss J. E. Linklater Burnham.

Miss McBride, Miss B. M. Brown, and Miss J. E. Linklater tendered their resignations as teachers on the Public School Staff.—Received.

Acceptances of positions on the Public School Staff were to hand from Miss Ord, Miss Runnings, Miss Fisher and Miss F. E. Foster.

John Simpson tendered his resignation as janitor of the South Central School.—Received.

G. W. Oke's application for the position of janitor was referred to the committee on appointments.

H. B. Spotton, High School Inspector, reported that, satisfactory appropriations having been arranged, the grading of class-rooms has been restored.

Principal H. R. H. Kenner reported that the gravitation system of ventilation for the Collegiate Institute is not working satisfactorily now the furnace is not in use. Windows have to be opened, which is not a desirable ventilation method. A fan system is what is really needed.

Mr. Kenner also advised the Board that the heating of the north east and north west class rooms on the first storey of the Institute is poor, the little folk, frequently on cold days, have to sit in wraps to keep themselves warm.

Both these matters were referred to the Property Committee with power to act.

Mr. Kenner also suggested that there be published a calendar of the Collegiate Institute, setting forth the subjects taught, text books required, etc. The supervision committee was given power to act on this question.

DATE OF SCHOOL OPENING.

Mr. W. H. Hill moved that as the customary date for school opening after the summer vacation—September 1st—falls on a Friday, and labor day a public holiday, falls on the next Monday, school this year does not re-open until Tuesday, September 5th.—Carried.

CORONATION DAY CEREMONIES.

Dr. Morrison reported that, under instructions from the Supervision Committee, the secretary had written the Central Committee in charge of Coronation Day ceremonies that the Board's Committee would be pleased to meet them on any given date on the question of school children taking part in the programme part in the programme to be arranged. No reply, however, had yet been received.

The general opinion of the Board on this matter seemed to be that it would not do to disturb the little folk in the examination preparations by a very active participation in the local ceremonies on June 22.

INDUSTRIAL CHARTS.

Dr. Morrison reported that the Supervision Committee had been approached with a view to procuring for the schools, industrial charts. There are 39 of these charts, which cost $100; they are arranged in sets of 13 to a cabinet, and are not composed of illustrations, but of actual specimens of industrial results in concise detail. Inspector Mowat had selected one cabinet of 13 charts at $30, subject to the Board's approval. He offered that the charts selected include specimens of silk, wool, shelled iron, steel, cotton, paper making, coffee, tea, coal, etc., in all stages of development, and would offer valuable object lessons and render certain branches of study exceedingly intelligible.

The Board approved of and confirmed the selection made.

PARENTS INVITED TO ATTEND INSPECTION OF CADETS FRIDAY

WILL BE HELD IN RIVERSIDE PARK.

The Little Folk Have Invariably Won High Credit From Their Military Inspector—They are a Splendid Corps of School Cadets.

Principal H. R. H. Kenner, notified the Board of Education last night, that the annual inspection of the Institute Cadet Corps will take place at the Riverside Park on Friday afternoon next at two o'clock. He requested that the Board be represented on that occasion, and that provision be made for driving the inspecting officer to and from the grounds.

Mr. Kenner's request was acquiesced in, and Col. Miller and Mayor Hays were deputed to represent the Board.

Col. Miller spoke in strong eulogy of the marked efficiency of past cadet corps inspected. He was present at an annual inspection when he had been simply astounded at the admirable way in which the little folk had been drilled. On that occasion the inspecting officer complimented the cadets in a very flattering manner, and expressed his amazement that parents and citizens in general had not availed themselves of the opportunity to witness what he was pleased to characterize as a splendid exhibition of military drill. Colonel Miller hoped that on Friday afternoon the park will be thronged with parents and other visitors.

Major Hays endorsed Col. Miller's views, and remarked that last year the inspecting officer had classed Peterborough's cadets amongst the best in the Dominion.

The Board cordially invites parents and citizens in general to be present at the annual inspection Friday afternoon.

To Galt Horse Show

Mr. J. J. Breen left on Tuesday morning with a carload of horses and appointments for the Galt Horse Show. The consignment consisted of eight of Mr. Stratton's high-bred and high-stepping beautiful horses.

The Galt Horse Show is one of the best out-door exhibitions in Canada. The competition is the keenest, and the horse that gets the Blue ribbon has to win it and deserve it.

"Strathormond" stables made a splendid showing at Toronto, Ottawa and Montreal, two of Mr. Stratton's horses taking the championships of Canada—one in Toronto and one in Montreal.

A beautiful horse is a great attraction and Peterborough has no reason to feel ashamed of the local horses that have come to the front so conspicuously this year.

Mr. Breen informed The Times that the horses with the exception of two are in good shape. "Midget" the best runabout horse, without any doubt, in Canada, is considerably under the weather and may not be exhibited at Galt show, and "My Pride," which is said to be the best show horse in America, while out exercising the other day, caught his shoe in the railway track and is suffering a wrench that has produced a slight lameness, which it is hoped, will be better by show time. Otherwise Peterborough horses may be expected to make the usual showing.

Taft is Easy.

A Washington despatch says "Taft will stand for re-election." Some men are easy and will stand for anything.

THE DUSTMAN

HOW DOT SAW HIM ONE NIGHT

"I don't want to go to bed," said Dot for about the tenth time since nurse had begun to undress her.

"Be a good girl," said nurse, "and go to bed without any more fuss, and I'll stay with you till you go to sleep."

"But I'm not sleepy," said Dot, still protesting, "and I don't want to go to bed."

"Not sleepy. Well, the Dustman will soon be here now. It's past his time already, for you are half-asleep after all, Miss Dot," said nurse, tucking her into bed.

Dot had often wondered why people said "the Dutsman was coming" when she was getting sleepy, and now she said, "Nurse, does the Dustman come to see you every night, and do you see him, and why can't I stay up one night and see him, too?"

"What a lot of questions to be sure," said nurse as she sat down by the fire. "No, he doesn't come to see me; I'm too big. But there, try to go to sleep now, dear, and I'll stay up here for a little while.

"I would like to see him just once," thought Dot. "I'll keep awake just a little while and see if he comes," and she lay back on her pillow and watched the firelight flickering on the ceiling, for nurse had turned out the light and the room was in semi-darkness.

It was very quiet, and Dot lay very still, but she was wide awake; every now and then a cinder would fall softly to the hearth, otherwise there was no sound, and nurse sat still in her armchair looking at the fire.

As she lay in her cot, by turning her head Dot could see the door quite plainly in the flickering light, and presently she got tired of watching the light on the ceiling and turned round facing the door; it was just closed but not fastened, and as she looked Dot thought she saw it move slightly.

Yes, she was sure of it, the door was slowly, very slowly, opening.

She lay quite still, and saw it swing open about six inches, and then she saw a tiny man about a foot high peep round the door into the room. He nodded his head and smiled at Dot, and with a finger placed against his lips walked softly into the room on tiptoe.

He was dressed in a costume made of red poppy petals, and round his throat was a necklace of tiny dried poppy seedheads; on his wrists were bracelets of the same. As he walked the seeds in these rustled and rattled softly, like whispering fairy voices. On his head was a half-opened poppy bul serving as a cap. In one hand he held a large red poppy flour; it had no stalk, but he held it by the tips of the petals all gathered together in his hand.

Softly he walked across the room to where nurse sat, and as he moved the scent of his poppy petal dress floated through the room, and made Dot feel sleepy. It evidently had the same effect on nurse, for her head began to nod forward drowsily as the little man skipped lightly on to a chair behind the one on which she sat.

Dot did not say a word, but she tried hard to keep awake to see what he was going to do next.

Very quietly the little man dipped a hand into the flower that he was holding, which evidently served as a bag, for he lifted a handful of poppy pollen, or, as some call it, poppy dust, out of it, and lightly sprinkled it in nurse's eyes as she sat with her head resting on the back of the chair, almost sound asleep. Then he jumped to the ground again and came towards Dot.

"Who are you?" said Dot, as he came closer, but even as she spoke she guessed what his answer would be.

"I'm the Dustman," replied the little man, "so come, you must go to sleep now," and he dipped his hand into the poppy bag again.

"Oh, please, wait a moment before you send me to sleep," cried Dot. "I want to ask you something."

"Well, you must be quick, then, for I have a lot to do to-night."

"Please tell me," said Dot, "do you always send nurse to sleep every night when she goes to bed, because she says she never sees you?"

"Of course I do," replied the Dustman, and his voice sounded farther away. "Of course she never sees me," he continued, "for she does not believe I exist, and she hasn't seen me to-night either, because my scented dust makes her sleepy the moment I come into the room, and then I throw this dust in her eyes and send her sound asleep at once, as she is now," and he nodded his head at the nurse's sleeping figure.

"Then why haven't I gone to sleep too?" inquired Dot.

"Because you believed in me and wanted to see me so much that I thought I would let you for once, but you are half asleep, you know; the scent of my dress is sending you to dreamland."

"I'm not," said Dot, indignantly; but the little man's voice sounded farther away still as he finished speaking, and she began to wonder if she really was falling asleep after all.

"Don't contradict; it's rude!" said the Dustman, frowning and dipping his hand once more into the poppy bag.

"I really don't think I'm going to sleep," murmured Dot drowsily.

"Well, you are sound enough asleep now," cried the Dustman with a gay laugh, as he threw a handful of the dust into Dot's blinking eyes.

And sure enough she was.

COMPLIMENTARY

Miss Woodby:—"So Mr. Smart really said he considered me very witty, eh?"

Miss Knox:—"Not exactly; he said he had to laugh every time he met you."

A LICENSE NECESSARY

"You need not hesitate about smoking that cigar. It is my favorite brand."

"Smoke them yourself?"

"All the time."

The man looked at it suspiciously, lighted the torch, and took a few puffs.

"How do you like it?"

"Well," he replied guardedly, "I was just wondering."

"Wondering what?"

"If you have to get a permit from the health officer to smoke them."

To Camp June 11th.

The Peterborough Battery will go into camp on June 11th instead of 12th, as announced in a previous issue. The Battery will assemble at the Armouries on Sunday next at 1 o'clock, when they will take their departure for Barriefield, where the military camp is being held this year. Sunday night, all ranks are [illegible] night, all ranks are [illegible] instructions.

LADY LAURIER

A Pen Picture and Warm Tribute by the Canada Century

A current number of the Canada Century gives the following pen portrait of Lady Laurier.

"The wife of the Premier leads in the pleasant whirl of gaieties. Like her illustrious husband, she possesses those charming characteristics which have made him the idol of the French race in Canada. That natural sympathetic courtesy and gentle kindliness which is so conspicuous in the Liberal leader is a gift enjoyed in no less marked degree by his amiable wife. The most timid visitor in her presence feels at ease. Her gracious tact, kindly words and simple womanly ways impress favorably everybody who meets her. In social matters she shows no political preferences, and treats Conservatives and Liberals with a cordial warmth and a quiet dignity that win all hearts. It is more than forty-two years since Mademoiselle Zoe Lafontaine became the wife of Monsieur Wilfrid Laurier, a brilliant young lawyer with political aspirations. In Arthabaska, the peaceful little Quebec town where they have spent the major portion of their lives, the Laurier home has been for over a quarter of a century a place of sunshine and of joy, and a centre of wide and generous hospitality to the friends and followers of the great Liberal chief. Lady Laurier has no children, but is passionately fond of little people, flowers and pets. Through those early years of persevering labor the gentle soul and loving heart of Madame Laurier have been an unfailing source of strength and inspiration to her husband. Their modest little cottage was always open to receive their troupes of friends. Home making and home keeping she instinctively loves, and she is never happier than when sitting at her own fireside surrounded by the familiar faces of her old and trusted friends. Lady Laurier was educated in the Good Shepherd Convent at Montreal, and is an accomplished musician. She taught music for some years before she was married, and is very proud of the fact. She is essentially democratic in feeling, and cares really very little for popular applause or social distinction, except that which is based on personal merit and inherent nobility of character. Lady Laurier is an ideal lady and a noble type of womanhood. In conjunction with Mrs. Mackenzie, the wife of the first Liberal Premier of the Dominion, Lady Laurier, when she first came to the capital, did much to break up the political monotony of the long and dreary period that the followers of the present government spent in opposition. When her husband was returned and acclaimed as premier in 1896 she continued the good work, opposition and government members alike being welcome at her Ottawa home.

NOTICE TO CONTRACTORS. TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope "Tender for Station Buildings," will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.

Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.

Section 3.—From Mile 5 to Mile 105 east of Quebec bridge.

Section 4.—From the Quebec bridge westward to Mile 45.

Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.

Section 6.—At Cochrane in the Province of Ontario.

Section 7.—From the divisional Section 8—From Moncton to Napadogan, in the Province of New Brunswick.

Section 9.—From Mile 125.5 to Mile 159 west of Moncton.

Yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.

Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.

Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario.

Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,

P. B. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.
Board at Ottawa, this 22th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realise this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realizing handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK

429 Pender St., W., Vancouver, B.C. Phone 871

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $200 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of it is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some ideas about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

HARRY PHELAN,

AGENT FOR PETERBOROUGH DISTRICT, FOR B. & R. CO., CALGARY.

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

DUMB ANIMALS

Some Queer Habits of Cats, Mice, Flies, Snakes, Goldfish and Sheep

A fly on a window pane will crawl to the top, fly back to the bottom and crawl up again. This order is seldom reversed. Why, no one knows. It is on record that a fly crawled up a window pane thirty-two times, remaining each time a wing.

Hens scratch for food with the sun behind them, the reason being that the rays reflect on the minute particles. A blind hen will pick grain and not miss a kernel

Cats seldom lie with their feet to the fire. Usually they lie on their left side. Dogs lie with their forepaws to the fire.

A mouse will ignore a food supply sufficient for a meal and run great risks to nibble at a wholesale supply. It will hide at the source of food supply and not depart therefrom until actually disturbed. It is not true that a mouse runs to its hole at the first alarm.

Find a harmless little snake the length of a lead pencil and provide a box for it in the house, visit it daily, and at the end of three months it will crawl to you for food.

Goldfish usually swim around a globe to the right. They can be taught to take a fly out of the hand in six weeks' time. The presence of other fish in the globe is generally ignored by goldfish. Drop a piece of chip on the surface of the water and it will frighten a fish.

Sheep spend more time grazing than do cattle and horses. Sheep will eat for twelve hours out of the twenty-four.

DRY PICKED POULTRY

A Series of Recent Experiments in Cold Storage

Canadian exporters of poultry should be interested in a recent series of experiments in connection with the cold storage of poultry, which have shown that the method of scalding chickens by plunging them in water just below boiling point to facilitate the removal of the feathers affects the keeping quality of the prepared birds. This method in the past has been very commonly practised by exporters of poultry in the United States and other countries. The experiments under review revealed the fact that deterioration is greater in the case of scalded fowls than in those that were dry-picked, and the bacteriological examination proved that the number of bacteria was increased when the birds were drawn before being placed in cold store. Dry-picked birds in good condition, promptly stored and kept for three and six months, are stated to have been hardly distinguishable from freshly killed fowls.

NOT AN IDLE DUKE

Norfolk Has Charge of the Coronation Preparations

One duke at any rate cannot be accused of leading an idle life. This is the Duke of Norfolk, who, as Earl Marshal of England, has practically the whole of the arrangements for the Coronation in his hands. He has opened special offices to deal with the many matters of detail with which he is confronted, and is at work there early and late. The Duke is a particularly fast worker, and has the routine of his department at his fingers' ends, while his memory is little short of marvellous, and he can recall without much effort what was done at the last Coronation.

THE MISCHIEVOUS MATCH

One of the Chief Causes of the Daily Fire Loss

The common match is a Canadian mischief maker. It was one of the chief causes of an average daily fire loss last year of $64,639, or $3.14 per capita. It helped to swell the list of deaths [illegible] numbering 256.

FOXES FOR PROFIT

The Skin of the Silver Fox is Steadily Rising in Value in this Country

A good deal has been written of late years as to the possibilities of raising foxes for profit, says Rod and Gun. Mr. T. L. Borrowman, of Wyoming, Ontario, is believed to be the pioneer in the field of fox raising in confinement in Ontario and he has met with a good deal of success. In the course of a recent interview he said: "The breeding of the silver fox is comparatively new, and is so full of little points and conditions that are required to make a success of it at the start, that few, unless they have acquired some knowledge beforehand, are successful at first. The silver fox is our most valuable fur-bearing animal. His skin is steadily advancing in price, and within the last five years has advanced over three hundred per cent. At the Lampson January fur sales in London, England, 1910, there were skins sold that brought as high as $3,000, so it is easily seen now how profitable a business it is. It was at one time thought that the silver fox would not breed in captivity, but they are now raised quite successfully in wire pens. They breed once a year, in March, their young numbering from three to nine, according to the age of the mother. The puppies attain their full growth by fall, and the stock is generally disposed of by then. I sell almost all my surplus stock alive, as there are a great number of people eager to start into breeding them. I have been in the business for the past sixteen years, but owing to not knowing how to handle them, was unsuccessful for a number of years, but now I have the best of success with them. I think I have one of the most profitable businesses in Lambton or any other country."

SURROUNDED BY WOLVES

Blind River Man Killed Two, the Rest Being Driven Off

A story of an attack by wolves upon a hunter named Thomas Koswack is told by a local paper at Blind River. Koswack was hunting in the neighborhood of one of the Hope Lumber Company's camps when in the dark of the evening he was surrounded by the wolves. He shot and killed two, but still the fierce animals pressed upon him. Fortunately, however, the noise of the wolves and the shooting attracted the attention of those at the camp, and reinforcements arrived in time to drive off the wolves. The hunter believed his life to be in danger, and thinks he was saved only by the arrival of assistance. Bounty was claimed upon the two animals killed.

LARGE PAPER MILL

A huge paper mill, having a capacity of one hundred tons a day, is to be constructed at Espanola, Ontario, the model town of the Spanish River Pulp and Paper Mills, at a cost of between $960,000 and one million dollars.

NURSERY STOCK

The Principal Regulations Governing the Importation Thereof

The attention of all persons who intend to import nursery stock into Canada is called to the regulations of "The Destructive Insect and Pest Act," which may be obtained on application to the Department of Agriculture, Ottawa.

In particular they should note the following regulations governing the conditions under which nursery stock may be admitted:—

"5. All persons importing nursery stock into Canada shall give notice to the Minister of Agriculture within five days of despatching the order for the same, and they shall again notify the Minister on the arrival of the shipment in Canada."

"Notice shall also be given to the Minister by all transportation companies, Custom House brokers and other persons importing or bringing nursery stock into Canada, immediately such a consignment is received by them. Such notice shall include the name of the consignor and the consignee, the points of origin and destination, the name of the company carrying the nursery stock, as well as the nature, quantity and origin of same."

"6. European nursery stock, and such other imported vegetation or vegetable matter as the Minister may determine, entering Canada, may be allowed to proceed and shall be inspected at the point of destination, but must not be unpacked except in the presence of an inspector."

RACERS WITH JEWEL CASKETS

With Age and Success the Collection Frequently Becomes Valuable

Every great racehorse, says an English exchange, has his special toilet-case, marked with his name and provided with a special lock. Each animal has his own basins, pans, and pails for the toilet, his feeding utensils, brushes and combs.

A racehorse has many sets of towels of various grades, and has blankets for all weathers. These are marked and numbered, and are kept beautifully clean and well-aired. The belongings of the horse are carried about in his toilet-case when travelling.

Besides all this luxury every great horse nowadays must have a jewel-case, and with age and success the the collection frequently becomes very valuable. In the casket, which is a compartment of the box, are kept the various trinkets presented by admirers. These consist largely of articles of wear, such as bridles finished in silver and gold, silver-chained and mounted halters, and combs and brushes mounted in handsome style.

FOR A SEED FARM

The 960-acre large Bow Park Farm, near Brantford, has been sold to the Dominion Canners' Hamilton, which includes about 50 canning factories and controls a large proportion of the canned goods in Canada. The property is to be converted into a seed farm, to grow and improve vegetable seeds which have so far been mostly imported from other countries.

Library Voting Contest

TWO HANDSOME LIBRARIES OF 80 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 80 volumes and handsome sectional bookcases will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 80 volumes to the schools, lodge society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough, having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured :—

EARACHE, TOOTHACHE!

To Cure the Pain in Ten Seconds and Get Instant Relief, Nothing Equals

NERVILINE.

Fifty years ago Nerviline was used from coast to coast and in thousands of houses this trusty liniment served the entire family, cured all their minor ills, and kept the doctor's bills small. To-day Nerviline still holds first rank in Canada among pain-relieving remedies—scarcely a home you can find that doesn't use it.

TESTIMONIAL NO. 4398 — From Port Hope, Ont., Mr. W. T. Greenaway, of the Guide newspaper staff, writes: "For twenty years we have used Nerviline in our home, and not for the world would we be without it. As a remedy for all pain, earache, toothache, cramps, headache and disordered stomach, I know of no preparation so useful and quick to relieve as Nerviline."

Let every mother give Nerviline a trial; it's good for children, good for old folks—you can rub it on as a liniment or take it internally.

Wherever there is a pain, Nerviline will cure it. Refuse anything but Nerviline, 25c per bottle, five for $1.00, all dealers or The Catarrhozone Co., Kingston, Ont.

TENDERS FOR STEEL BRIDGES

Tenders (endorsed Tender), will be received by the undersigned for the steel work or superstructure of two bridges known as Spencer's Bridge, Dummer, and Brown's Falls Bridge, Burleigh, in the County of Peterborough, up to One O'Clock P.M.,

JUNE 19th, 1911

The lowest or any tender not necessarily accepted.

Plans and specifications may be obtained from the County Clerk or seen at the County Office, Peterborough.

ED. M. ELLIOTT,
County Clerk.

Peterborough, May 29th, 1911.

ADVERTISE IN THE TIMES.

The Morning Times

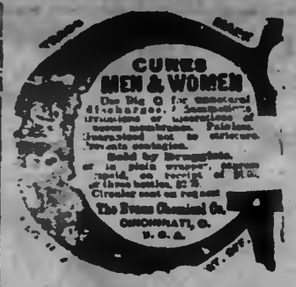
WEDNESDAY, JUNE 7th, 1911.

THE "NE TEMERE" DECREE.

Archbishops and bishops of the Roman Catholic Church in Canada will be well advised if they recommend to the Mgr. Stagni the withdrawal of the "Ne Temere" decree. Public resentment is growing. All the powerful Protestant bodies are bitterly hostile, says the News. The season of Conferences is at hand, and a succession of strong resolutions may be expected. If the decree remains in force it will surely be tested in the courts—and found wanting. It must be clear to every prelate that British law cannot permit the assumption by any Church or sect of authority superior to that of the State. When the Church undertakes to declare null and void a marriage legally solemnized by a State official it takes an impossible position, and invites strife and ill-feeling.

In Germany the decree was suspended by the Vatican "to preserve peace and tranquility." The main reason given in "Provida," the suspending order, lay in the fact that Protestants and Catholics were closely commingled and that mixed marriages were frequent. The same reason stands in Canada and in the United States. It is understood that the American prelates are petitioning for the withdrawal of the decree. The Canadian Church cannot, in decency, do less.

There is a constant effort by ultramontanes in Canada to strive for more and more political control. To have influence at Ottawa is their ideal. But it may as well be said now that there is a lively public opinion which is vigorously hostile. Any pretence of legal authority or any assumption of common rights with the State on the part of the Church will be resisted. This "Ne Temere" decree cannot be permitted to stand, for it is assuredly out of harmony with the spirit of a British democracy. The Protestant Churches do well to denounce it, and the Roman Catholic hierarchy will make a mistake in attempting to justify its pretensions.



New Train Service to "Lake of Bays."

An important feature that will be inaugurated during the coming season will be a new train service to the "Lake of Bays" district. A standard Grand Trunk passenger train will leave Toronto with through coaches, parlor cars and dining cars at 10.15 o'clock in the morning, daily except Sunday, for Huntsville, reaching the latter point at about three o'clock in the afternoon, connecting with the steamers for points in the "Lake of Bays" district, and affording passengers the opportunity of reaching their destination in time for dinner.

The Sunday evening boat service from the WaWa Hotel, Britannia, Point Ideal, Portage, Deerhurst and other important calling ports on the "Lake of Bays" to Huntsville will be run on same schedule as for season 1910, during the months of July and August, and which will be a boon to week-enders desiring to return to the city for business on Mondays.

MAN KILLING MACHINES

Continued from Page 1.

the American Civil War, fought with the antiquated weapons that were to become obsolete, have not been equalled in recent wars. The awful destructiveness predicted did not forthcome. Even in naval fights, where so much was expected, there was nothing doing of especial importance. The mines that were to "smite the main" did but little destruction. The guns of the American fleet trained on Morro castle killed only a Cuban mule. Dewey evaded the mines, sailed into Manila harbor and called his gallant men from the awful conflict to breakfast.

TACTICS AND STRATEGY WINS.

The advantage of modern warships was more in evidence in the Sea of Japan, but victory was as usual with the man who struck quickly and often. The palm goes to tactics and strategy rather than to science and invention. The "awful destructiveness" of modern engines of war was missing. If there was increased facilities for killing there was also increased facilities for saving life. Perhaps the "big butcher's bill" has been reduced by modern methods of fighting. The line of battle at Waterloo was ten miles long; at Mukden it was ninety. Troops fight now in extended order instead of in close formation or in solid squares as at Waterloo. A lot of bullets go to waste now that could not miss a mark if men were massed. In olden days, too, man scorned to hide behind hills or stumps or stones. They deemed it cowardly, and so they stood out like men with their faces to the foe. It was magnificent, and it was war too at that time, but it does not "go" now.

In extended order there must be individual action, and the soldier to enjoined to make use of cover. It is not cowardly in such circumstances to save your own life. A dead man is of no use to an army, and a wounded man is a positive hindrance. We have made some improvement, no doubt, in our instruments of war, but we have made more by adopting common sense methods of fighting. The chivalrous days when men rallied around the standard of the king until the bodies lay in heaps—those days are gone.

SOLDIERS SENSIBLE NOW.

The King does not go to battle now—neither does his standard. Soldiers do not rush to save a banner or a flag. These things are left behind. The soldier is a sensible man. He stays in his trench or behind his cover of rock or earth or wood, and he blazes away at what looks to him like a spot where an enemy may be hid. The days of chivalry is gone, if that sort of foolhardiness could be called chivalry that demanded he should expose his body to the enemy as the outward and visible sign of courage.

The failure of those refined instruments of death to produce results should make us skeptical of the use of airships in future battles. Tennyson's visions of "airy navies grappling in the central blue" is all right as adream, but although it is hazardous to discount invention, yet I doubt if it ever emerges from its dream condition. War, at any rate, is not to be done away with by fear of airships dropping lyddite shells into crowded cities, or into the strong-walled fortifications of the enemy. The really potent influence for the prevention of war is what Burns called the "damnation of expenses."

WAR NOT A LUXURY.

Preparing for war is costly enough; engaging in it is a luxury that can be enjoyed only by the Rockefellers of nations, and by them only for a limited time. If, as Norman Angell says, the nations learn that the victor is no better off in the end than the vanquished, but worse, the prospect of prolonged peace will become brighter. But let no one think that the perfection of mankilling implements will prevent war. If the builders and makers of these implements thought for a moment that the very battleships and weapons would bring about their own disuse, they would soon cease making them and would discourage further invention in that line.

A Fountain Pen

Practically Given Away

The Times has arranged for a supply of the famous Diamond Point Pens "Safety Clip" 14 karat Solid Gold Fountain Pens, which will practically be given away to our subscribers. 20 coupons cut from The Times, together with 75c in cash will get you your choice of these three splendid pens.

The holders are made with pearl and gold bands, and all gold full chased, gold filigree, or full mounted German Filigree, similar to illustrations, and are fully guaranteed by its makers, there being a guarantee certificate with each pen.

COUPON.

Twenty of these coupons cut from The Times and presented at The Times Book Store with 75c in cash, will secure one of these splendid 14 kt. Solid Gold Rimmed Fountain Pens.

Cuban Grape Fruit Groves Pay
Enormous Dividends

A SAFE AND SURE INVESTMENT

Ninety miles west of Havana lie the beautiful Manhattan Estates in the heart of Cuba's most profitable and bountiful section. We intend, with your co-operation, to develop 502 acres of this wonderful sandy soil into a prosperous and self-sustaining institution of rich agricultural products.

It requires a large amount of money to go into this business properly, and it takes considerable time for the grape-fruit trees to mature.

When they are three years old they will each bear on an average one box, which is worth not less than one dollar on the tree. The fourth year we average three boxes per tree, which means $4.00, and this continues until the seventh year, when the average from a tree amounts to between seven and twenty crates; retailing in the Canadian and American markets as high as $10 a crate.

But bear in mind that these trees in full bearing will not have cost more than five dollars each, consequently once maturity is arrived at the profits are continuous and tremendous.

As we intend planting over 40,000 grape-fruit trees, you can readily see that 100 per cent. annually is a conservative estimate.

We Pay Our Way As We Go.

During the past year I have placed many dollars' worth of stock, mostly amongst my relatives, personal friends and business acquaintances. I HAVE TOLD THEM WHAT I HERE REPEAT TO YOU, that I am giving the affairs of this company, and will continue to give them, as careful attention as if I owned the whole company, and I AGREE NOT TO RECEIVE ONE CENT OF SALARY for my services until after I have made the company pay you DIVIDENDS OF TWENTY-FIVE PER CENT. ON EVERY DOLLAR YOU INVEST WITH ME IN THIS ENTERPRISE.

When you and I receive twenty-five per cent. on our investments, I will not need a salary, and right here I want to state that we have agreed that NO SALARY SHALL BE PAID TO ANY OFFICER until at least twenty-five per cent. dividends have been earned and paid to all our stockholders.

Further—we have no bond interest to meet; we do not even have to pay any taxes until we have an income. EVERY DOLLAR RECEIVED WILL BE USED FOR THE DEVELOPMENT OF THE COMPANY'S PROPERTY.

Commercial grape-fruit orchards are wonderful wealth-producers.

I want to draw a check to your order for 100 PER CENT. DIVIDENDS EVERY YEAR, and I not only want to do it, but expect to do it.

I have thoroughly investigated the possibilities for profit in growing grape-fruit on a large scale, and have seen the actual results accomplished.

YOUR MONEY SHOULD WORK FOR YOU AS HARD AS YOU WORK FOR IT, and I am desirous for this reason that you know the grape-fruit industry as I know it, and I want you to send for our booklet de luxe, fully illustrating and describing this wonderful and prosperous industry.

(Signed) S. J. MURPHY.

STATUTORY INFORMATION

(Filed with the Provincial Secretary of Ontario)

Authorized Capital $200,000 — **Shares $100.00 Each**

1. The incorporators and at this date directors are E. V. O'Sullivan, John M. Ferguson, and James E. Day (Barristers), James A. MacNevin (Law Student), and Mary Donovan, Eileen Jamieson, and Amy I. Naftel (Stenographers), all of 34 Victoria street, Toronto. Any shareholder not in arrears is qualified to be a director. The by-laws provide no remuneration for acting as director except fees and traveling expenses for attending meetings. Directors may be paid for special services.

2. Each incorporator subscribed for one share, 7 in all, and by by-law of the Company 993 shares are to be issued to Sterndale J. Murphy, of Toronto, who is the vendor to the Company, under an agreement between him and it dated 4th January, 1910, for the sale of certain Cuban lands, the consideration being 993 paid-up shares, $700 cash, and the assumption of a debt of $9,000.00 on the land, payable in installments (until Nov. 15, 1912) to the Cuban Commercial Company of Havana, under contract between it and Mr. Murphy, dated 3rd December, 1909. Copies of these contracts may be inspected on any business day at the office of the Company's Solicitors, Day, Ferguson and O'Sullivan, Toronto. The preliminary expenses are incorporation and legal fees and printing, and are estimated at under $1,000. No commission has as yet been authorized on sale of stock, but the directors may authorize payment of a commission not exceeding 25 per cent.

3. To make the contract binding it has been decided to go to allotment on receipt of application for one share. Shares are offered for sale on the terms that 25 per cent. be paid on allotment, 25 per cent. three months thereafter, and balance on call of the directors, calls not to be more than 25 per cent. of the subscription, and at least three months to elapse between calls.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM BUNTON, LATE OF THE CITY OF PETERBOROUGH, IN THE PROVINCE OF ONTARIO, TICKET AGENT, DECEASED.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Sec. 38, that all persons having claims against the estate of the said William Bunton, who died on or about the 17th day of January, 1911, are required on or before the 10th day of June, 1911, to send by post, prepaid, or deliver to Dr. R. J. Hunford, Federal Life Building, Hamilton, Ontario, administrator of the said estate, their Christian and surnames, addresses and descriptions, the full particulars of their claims and the nature of the security, if any, held by them.

AND FURTHER, that after said last-mentioned day the said administrator will proceed to distribute the assets of the deceased amongst the persons entitled thereto, having regard only to the claims of which he shall then have notice, and the administrator will not be liable for any claims or for assets or any part thereof to any person or persons of whose claim notice shall not have been received by him, and such persons shall be prosecutorily excluded from the benefit of such distribution.

Dated at Toronto this eighth day of May, A. D., 1911.

A. P. POUSSETTE,
Solicitor for the said Administrator.
627 Bloor Avenue, Toronto.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

HAVE YOU ATTENDED

Ogilvie's big flour demonstration now going on in your city? If not you are missing an educational treat in cookery. The ground floor of the T. A. S. Hall, Simcoe street, has been rented for this purpose. Demonstrations commence at 2.30 sharp. Afternoon tea served free to housewives until June 7th.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards Easy payments, 10 per cent cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

THIRD IRISHMAN TO GUARD ROYAL LIVES AT CORONATION

London, June 5.—Besides the combined royalties of Europe, there will be two international groups represented at the coronation of King George. They will be so closely related that almost their entire attention will be devoted to each other rather than to to pomp and circumstance around them.

For the cleverest crooks and the smartest sleuths in the world are gathered in London. They coming has been unannounced, but they are here right enough, and many came along months ago, slipping in before the scrutiny at the ports grew strict.

Some are anarchists, bent on plots against particular rulers; others are out for any pelf that may be picked from the unwary. The greatest hindrance to the Anarchists is the knowledge that a blow struck at this coronation would close the doors of England against aliens in a way never permitted before.

The entire nation, irrespective of party, would declare the time had gone for preserving England as a haven for the foreign refugee. But the occasion is tempting to the desperate—a whole bunch of royalties and their representatives within the explosion area of a well-directed bomb! And on the eve of the late King Edward's crowning just such a mad plot was discovered in the nick of time.

GUARDS ROYAL GUESTS.

So from now on till all the potentates and delegates have left for home, the police of London and all the capitals are working in unison to prevent a tragedy of world-staggering import. Chief among these anxious guardians of the great is Detective Superintendent Patrick Quinn, for he has direct charge of the safety of the royal guests. His record is a wonderful one, and has landed him at last at the head of the special department covering royalties against anarchist attacks. When the British monarch travels abroad, Quinn is always in attendance; when foreign rulers visit England it is Quinn who keeps watch and ward over their lives.

Native of an obscure village in Mayo, he joined the London police as a plain constable, but his alertness, command of languages, and decision of character have carried him to the top. Most of the crowned heads of Europe have decorated him, and they rely on him implicitly to see them through public pageants like the coronation procession. It is curious that though the Irish are often charged with being disloyal, Quinn is the third Irishman in succession to hold this guardianship of royalty. William Melville preceded him as the attendant of King Edward, and before that Patrick McIntyre watched over the safety of Queen Victoria.

DUKE MUST RISE EARLY.

Not only have the police to watch for plots and robberies; they have to plan the order and regulation of the streets during the crowded hours of ceremonial processions. All the details, from the passage of the royal vehicle to the control of the meanest cab, and the closing of the street barriers, have been drawn up, scanned, and finally approved at Scotland Yard.

To show the drastic nature of their plans, it may be mentioned that they will see to it that the doors of Westminster Abbey are opened at half-past six on Coronation morning, and closed to all but the royal party at 9 o'clock. Nobody who drives to the Abbey will be able to gain access to the line of route after half-past eight. As the King does not leave Buckingham Palace till after ten o'clock, it will be seen that many a duchess and peer will have to rise unwontedly early and go unfed and uncommonly long time.

BORDEN WILL LEAVE ON HIS WESTERN TOUR ON JUNE 15

Ottawa, June 5.—R. L. Borden today leaves on his visit to Nova Scotia. He will reach Halifax on Wednesday and spend the week in addressing meetings, mainly in Halifax and the Western counties on behalf of the Provincial party.

Returning to Ottawa on Thursday, the 15th, Mr. Borden will proceed West at midnight. His tour to Manitoba, Saskatchewan, and Alberta will last until the middle of July, when he will come back for reopening of Parliament. Not only are preparations being made for large meetings at the places in the west at which he was originally designated to speak, but at five additional "points," namely, Qu'Appelle, Binscarth, St. Pierre, Morden, and Somerset. The request for these meetings have come principally from boards of trade and similar organizations.

REPORTS OF COMMITTEES OF THE CITY COUNCIL

At Monday night's Council meeting the following reports were adopted:

BOARD OF WORKS.

Gentlemen:—

Your Board of Works beg leave to report and recommend as follows:—

1. That N. T. Laplante and the McDonald Estate be notified by the City Solicitor that the property on the shore of Little Lake at Lake and Crescent Streets is city property, and that the Solicitor take such steps as are necessary to protect the City's rights.

2. That a request of the Bell Telephone Co. to be permitted to place a pole on the south side of Hunter St. between Stewart and Rubidge Streets and two poles on the south side of Wolfe Street east of George Street, be granted, the poles to be erected as directed by the City Engineer.

3. That the request of H. Wightman for permission to remove a tree on the southwest corner of Charlotte and Rubidge Streets be granted, the City Engineer having reported that he saw no objection to granting the request.

4. That the City consent to the McDonald Estate occupying Perry St. east of George Street and an unnamed street north of Perry St. at a nominal rental of $1 a year, and that Mr. Watt be notified that he must pay a small rental of $1 a year for the part of the unnamed street he occupies, and that the City Solicitor prepare the necessary papers, and have them executed.

5. That no more oil be ordered for use on the streets and that the City Engineer be instructed to have the streets watered either by contract or by day work.

6. That the City Engineer give F. Ferguson the grade for the sidewalk on Concession Street.

7. That the Chairman and the City Engineer be authorized to have a crossing put in on Dale avenue, on Aylmer Street at Dublin Street, and on Aylmer Street at Edinburgh St.

8. That the Chairman interview the Council of North Monaghan and ascertain whether gravel can be obtained from Leary's pit.

9. That, provided the City Trust will pay the expense, the City Engineer be instructed to lay a sidewalk on the west side of the market square.

10. That the matter of the filling of the west approach to the Smith Street bridge be left with the Mayor, the Chairman and the City Engineer.

11. That the space between the sidewalk and the curb on Water St. at the City Buildings be filled in with concrete.

12. That permission be given to the owners of Nos. 547 and 576 Sherbrooke Street to construct a curb on the Street, the work to be done as directed by the City Engineer.

J. W. ETHERAL,
Chairman.

PROPERTY COMMITTEE.

Gentlemen:—Your Property Committee beg leave to report as follows:

1. We recommend that the continuation of Smith Street east of the [illegible] and that the street from Water St. past the Queen Mary Hospital be named Langton Avenue in memory of the late John Langton, who was a member of Parliament from this county for some years and the first Auditor-General for Canada, and who owned the property in that locality previous to Mr. Hilliard's time.

2. We authorized the Mayor and Chairman to procure the necessary trees for the King Edward Park and the Queen Mary Hospital grounds, and have them planted.

3. We let the contract for furnishing ice for the fountains at the Police Station and the Central Park for this season to the Allin Ice Co., price $75.00.

4. We authorized the Chairman to procure screens for the windows for the Queen Mary Hospital.

5. We instructed the City Solicitor to prepare a by-law to provide for the purity of milk and to embody in it all the provisions authorized by law and the suggestions of the Board of Health and providing that the milk must be delivered in bottles.

6. We referred the request from the Board of Health that scavengers be licensed and a letter from the City Solicitor on the subject to the Police Commissioners.

7. We authorized the Medical Health Officer to go to Toronto and purchase the necessary apparatus for testing milk, and authorized the payment of his expenses.

8. We requested the Chairman of this Committee and the Medical Health Officer to prepare plans for a small building for a smallpox hospital and procure prices for its construction.

9. We procured prices for putting in lawn services at the Public Library grounds and for screens for the windows and doors of the Public Library, and accepted the offer of Adamson & Dobbin for the first and of E. Wand for the second, and referred them to the Chairman of the Property Committee of the Library Board with the request that he see that the work is properly done, and also authorized him to purchase 50 ft. of lawn hose.

10. We authorized the Chairman of this Committee to make necessary repairs to the drinking fountain at the police station.

11. We received tenders for painting the band stand at Victoria Park and awarded the work to Coleman Bros., at $30.00.

12. We requested the Peterborough Light & Power Co. to connect the wires to the lights on the band stand at Victoria Park.

13. We recommend that the Chairman be authorized to purchase seats for the Central Park and for the small park on Park street.

14. We recommend that H. E. Hawley be given the contract for caring for the small park at the corner of Park and Charlotte Streets at $10 for the season.

15. We received tenders for coal for the city buildings, fire hall and Queen Mary Hospital and authorized the Chairman to divide the order for the quantities required among the dealers in the city.

16. We recommend that permission be given to erect boat houses on the river bank north of the Canadian Pacific Railway bridge on the terms as drawn by the City Solicitor and in accordance with a plan made by the City Engineer, and that those who formerly had boat houses on that ground be allowed a week in which to sign the agreement and pay one year's rent, they to be given choice of location in order of application, and if any berths are left that they be let to others in order of application.

GEO. H. DUNCAN,
Chairman.

SMALL INCOMES AND MARRIAGE

Sensible Advice to Young Couples Whose Revenue is Very Much Limited

A particularly violent old cynic once remarked that only millionaires could afford to marry, but as he made this remark at the opera after observing a lady with about $125,000 worth of jewels scattered over her person, we may, perhaps, excuse him on the ground that his nerves were temporarily shattered at the thought of so much money being wasted on personal adornment.

If only millionaires could afford to marry, it would be a poor look-out for the rest of us, but, as it happens, the old cynic's remark has no foundation in fact, for thousands of couples are married and living happily on a wage that never averages more than $10 a week.

It isn't so much what you earn as what you spend that makes for happiness in married life. You may be very happy on $10 a week if you marry the right partner, and you can be very wretched on $125 a week if you marry the wrong one.

This is good advice that all of us should ponder over, for it is one of the golden rules to happines summed up in one word—we may call it contentment. Be content, and you will be happy.

The conditions facing a woman beginning married life are such that it is absolutely necessary for her to be able to make a little go a long way. The cost of living is very high, and wages are anything but high. Indeed, they are so low that economy is necessary all the time.

A young wife always has a desire to be well dressed. She needs a little pleasure to set off her work. At times her husband may not be able to work because times are slack or because the season is bad and trade is stagnating. Yet all the time the same expenses are going on as when he is working full time and drawing full money.

For the woman with proper ideas of married life there is only one way. She must know all the practical little household economies. It requires much knowledge and excellent management to make both ends meet, especially when the ends need so much stretching at times. But if she is a sensible woman she will never have any trouble, and will be able to manage to a nicety.

A man who has made a study of those who are unsuccessful in life said: "The poor are poor because they have poor ways."

It is the truth. The young housewife cannot afford to have poor ways. If she has poor ways, then she is lost, and so is all thought of happiness, for home, in the true sense of the word, cannot exist if she has poor ways.

With her weekly allowance as a basis, she must sit down and calculate to a nicety how much she can afford to spend, and just how she is going to spend it. She must learn how and what to buy. She must discover the best shops and markets, and she must see that her purchases are cheap and good. Anyone can buy things that are cheap and nasty, but it takes a sensible woman to buy things that are cheap and good.

Then she must have a good knowledge of housekeeping, while cooking, sewing, and all the other domestic arts are essential to home happiness. These are essential in any case, but they are doubly so when the couple marry on a small wage.

You have often heard the expression that a couple are happy because they "pull together." A husband, as well as a wife, should practise little economies, and combine with his partner to keep the ends of domestic finance well met. Thus only can happiness be assured.

There is always a certain risk in marrying on a small wage. It is wise to consider deeply and well before the final step is taken, for once taken you cannot draw back. If you are not extravagant, if you are careful and contented with very little, then there is no reason why you should not marry, provided your loved one holds similar views and tastes to your own.

But think over it well.—Family Journal.

DRAPED THEATRE CAP

Cloth of gold was beautifully and cleverly draped to form a charming theatre cap, which fitted as our illustration portrays. A black aigrette caught directly in front with a cabochon of brilliants was the only adornment.

Make it a Rule to rub all grease from the kitchen-range and gas-stove while still hot, with newspaper. If rubbed of then there is no difficulty in cleaning the stove afterwards.

ADVERTISE IN THE TIMES.

NOTICE TO CONTRACTORS.

Tenders for Car Shops at Transcona, near Winnipeg, Man.

SEALED TENDERS, addressed to the undersigned, and marked on the envelope "Tender for Shops" will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa until 12 o'clock noon, of the 11th day of July, 1911, for the construction and erection complete, in accordance with the plans and specifications of the Commissioners, of shops east of Winnipeg.

Plans, details and specifications may be seen at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ont., and Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied by the Commissioners, which may be had on application to Mr. W. J. Press, Mechanical Engineer, Ottawa, Ont.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway for the sum of one hundred thousand dollars ($100,000).

The cheque deposited by the party whose tender is accepted will be deposited to the credit of the Receiver General of Canada as security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa June 2, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

DEPARTMENT OF RAILWAYS AND CANALS.

ONTARIO—ST. LAWRENCE CANALS.—RAPIDE PLAT CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Improving Lower Extreme to Lock No. 24," will be received at this office until 16 o'clock, on Friday, June 9th.

Plans, Specifications, and Form of Contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $9,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order.

L. K. JONES,
Secretary.

Department of Railways and Canals, Ottawa, May 19th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

JUDICIAL NOTICE

TO THE CREDITORS OF

Canadian Cordage and Manufacturing Co., Ltd.

Pursuant to the Winding-up order, made in the High Court of Justice in the matter of the Canadian Cordage and Manufacturing Company, Limited, and in the matter of the Winding-up Act bearing date the 7th day of December, A.D., 1910, the creditors of the above named the Canadian Cordage and Manufacturing Company, Limited, and all others who have claims against the said Company, formerly carrying on business in the City of Peterborough and elsewhere, are, on or before the 3rd day of July, A.D., 1911, to send by post, prepaid, to George Walford Hatton, Liquidator of the said Company, at his Office, 397½ George street, in the said City of Peterborough and Province of Ontario, their Christian and surnames, addresses and description, the full particulars of their claims, and the nature and amount of their securities, if any, held by them and the specified value of such securities, verified by oath, and in default thereof, they will be peremptorily excluded from the benefits of the said Act and of the said order.

The undersigned the Local Master of the High Court of Justice at Peterborough, will on the 6th day of July, 1911, at 11 o'clock in the forenoon, at His Chambers in the Courthouse at the said City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice. And let all parties then attend.

Dated at Peterborough this 22nd day of May, 1911.

E. C. S. HUYCKE,
Local Master at Peterborough.

SYDNEY MEDD,
Solicitor for Liquidator,
Bank of Commerce Bldg., Peterboro.

NO DISTURBANCE FOR LONG TIME

Canada and the United States Have Been at Peace for a Hundred Years

A century of peace between Canada and the United States is the theme of interviews obtained from several Canadians.

Hon. Mr. Justice Riddell

"All parties fully recognize that political union between the United States and Canada is wholly out of the question. As well ask Michigan to leave the United States and unite her destinies with those of the Dominion as ask Canada to unite hers with those of the United States," said Mr.

HON. MR. JUSTICE RIDDELL

Justice Riddell, of Toronto. "And yet we should not forget that we are in great measure of kindred origin, of the same tongue, of kindred institutions and kindred aspirations. We are, however, on both sides of the line, too prone to dwell on something which is not our true glory. We should all think and say less of warlike prowess exhibited in the past, and think and say more of peace and the many treaties whereby peace was preserved. There are many histories of the War of 1812 but none of the arbitration treaties since 1793; and yet these should be considered the real glory of the past. I know of no more useful project than the publication and circulation among our people of the story of these treaties, the proceedings under them and the splendid result. The mind of our people should be filled with the grandeur of peace, not with the horrors of war. 'Peace on earth.'"

Archibald McGoun, K.C.

"One of the messages to humanity of the Prince of Peace was 'Think not that I am come to send peace on earth: I came not to send peace but a sword,'" said Archibald McGoun, K.C., Montreal. "And yet it is only Christianity that can bring peace to nations. The citizens must force their governments to respect the rights of other nations, especially the weak. Foreign policy should be magnanimous, but if magnanimity is met with a hostile return, a great Power must fall back on its inherent force to maintain the just rights of its people. Under Canning, Aberdeen and Gladstone, honest efforts were made in this direction, but the most striking example was the policy of James VI., the great Peacemaker, who was in advance of his time in insisting that even Spaniards were entitled to the observance of international good faith. Lord Mansfield extended the same rule to Pagan nations. The doctrine of Anglo-Saxon supremacy is utterly pernicious. It is an insult not only to other nations, but even to members of other races in the British and American nations. But fraud and corruption, equally with war and violence, are subversive of national peace, and where these are used sentiments are kept alive which will justify resort to war if the injured nation thinks it can be successfully undertaken. Canada must assume no subordinate role. She must have all the attributes of national greatness in her dealings with all other countries, and this is quite attainable as a full partner in the control of the British Empire. Towards the United States we must show, not subservience, but friendliness and a spirit of justice and fair play."

Inspector Hughes

"Throughout the ages it has been the practice of mankind to celebrate the anniversaries of great national achievements, says Inspector Hughes, Toronto, "and of victories which marked epochs in human progress, or which broke some of the bonds of tyranny and gave freedom to a nation or to a race. As the minds of men have grown broader and more accustomed to the vision of the true brotherhood of man, the tendency grows stronger to celebrate the anniversaries of deeds and discoveries which have brought joy and hope and uplift and progress and happiness to the whole of humanity. It is clearly in harmony with the modern ideal to celebrate a century of peace between two great nations and to note the marvellous development made during this wonderful peace epoch. Such a celebration will do much to awaken higher ideals and standards in the minds of men and women throughout the world. The union of two great Anglo-Saxon nations in celebrating the achievements of peace should be a suggestive example to all nations, and it should reveal more clearly to Great Britain and the United States themselves the highest moral ideal which humanity can yet conceive, which is unity."

PLOWMEN WANT A GRANT

The Ontario Plowmen's Association, which was formed recently, have asked the Minister of Agriculture for incorporation, and also for a grant of $1,000

CROSSED THE BOUNDARY

In 1910 the number of persons who crossed the international boundary lines to the United States was 94,496, sub-divided as follows: United States citizens, 23,598; Canadian citizens, 44,253; other aliens, 27,396. In the year ending June 30, 1910, the United States commissioner's report showed [illegible] persons left the United States to come to Canada. Of the [illegible] were [illegible] citizens, and the [illegible] were citizens of other countries.

HEWING THE WAY TO PROSPERITY

J. Bousfield, Formerly of Peel County, Has Now a Thousand-Acre Farm in the West

J. Bousfield, of McGregor, Manitoba, was born on the farm of his father near Milton, Ontario, about 1860. The father died when the eldest of the family, the subject of this sketch, was fifteen years of age, and on the boy fell the responsibilities that attached to the making of a living for a mother and a family of smaller children on an Ontario farm in the seventies. He seems to have been fairly successful, but felt and responded to the lure of the West, arriving at what they call Douglas, Man., in the year 1881. A homestead was taken up three miles north of the station; four quarter sections of C.P.R. land added and Mr. Bousfield proceeded in a pretty extensive way for those days to tear up the turf and put it into wheat.

About 1890 one of the quarter-sections was traded for a half interest in an elevator, and Mr. Bousfield went in to work the reform of the elevator system. The life proved too strenuous, and Mr. Bousfield turned his equity into a creamery. Before the first year was over he came to the conclusion that if that venture were to be made go, cream would have to be gathered from a larger area than it commonly came from in those days, so he set about going after more business, and was successful. For eight or nine years the creamery made from $10,000 to $20,000 worth of butter per year. Then came the slump in dairying and boom in grain growing that put most of the creameries in Manitoba out of business—Bousfield's as well as the rest. So he pulled his horses off the cream routes, having by this time not much else in the world in the way of capital, drove the bunch to his present farm, which is a few miles from Macgregor, and shaped around for a fresh start. A year or two was spent selling farm implements and land, then for the second time he went in for farming on his own account.

This time Mr. Bousfield started with the conviction that stock-raising and grain growing combined was the only farming system to be permanently relied upon, and being right in the midst of a number of old-time breeders, had soon a foundation herd of Shorthorns. Since he has added Clydesdale horses and Yorkshire swine, having made some recent purchases in horses that promise well for the future of the stud. The farm has grown to an area of a section and a half, produces from 8,000 to 10,000 bushels of grain a year, about 300 tons of hay, besides pasture for over 100 head of cattle and horses.—Farmers' Advocate.

INCOME OF INTERCOLONIAL

The corrected figures for the operations of the Intercolonial Railway during the year ending March 31 last, show that the gross income of the road amounted to $9,843,783. The surplus was $373,713.

Cash in Brantford

Brantford in three days raised $117,000 for Y.M.C.A. purposes.

JUDICIAL NOTICE

TO THE CREDITORS OF

THE CENTRAL MILLING CO.

OF PETERBOROUGH, LIMITED.

PURSUANT to the Winding-up Order made by the High Court of Justice in the matter of the Ontario companies Act and Amendments thereto, and in the matter of the Central Milling Company of Peterborough, Limited, bearing date the fourth day of May, 1911.

The Creditors of the above named Company and all others who have claims against the said Company formerly carrying on business in the City of Peterborough, in the County of Peterborough, are on or before the 15th day of June, 1911, to send by post, prepaid to W. R. Morris, Liquidator, of the said Company, at his office, 376 Water Street, Peterborough, their Christian and Surnames, addresses and descriptions, the full particulars of their claims and the nature and amount of the securities (if any) held by them and the specified value of such securities verified by oath and in default thereof they will be excluded from the benefits of the said Act and Winding-up Order.

The undersigned Master at Peterborough, of the High Court of Justice will on the 16th day of June, 1911, at eleven o'clock, in the forenoon, at His Chambers in the Court House, in the City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice and let all parties then attend.

Dated this 15th day of May, 1911.

QUEEN CHARLOTTE

The Capital City of the Islands

THE LAST WEST

The only town on Graham Island that has a monthly pay roll, and the only sawmill shipping lumber to foreign ports.

The only town having a railway gazetted to its very doors on the island.

The only city on Graham Island having electric light, city water, miles of sidewalks, churches, school, hospital, postoffice, first-class drug store billiard hall, city hall, hotels, boarding house, barber shop and other general stores, and the only newspaper published on the Island, the Queen Charlotte News.

We are positively the centre of all the vast wealth of the entire Islands, including farm lands, timber lands, coal and metalliferous mines. These products must come out at Queen Charlotte City, through the Honna River Valley, and through which the Island Railway must run according to charters already granted.

The combined townsite interests cover one thousand acres, of which five hundred are practically level alluvial soil with no rocks.

A fine water power from the Honna River, good drainage and the best harbor on the entire Islands.

Our lots are all 50 feet by 120 feet, ranging in price from $150 to $300; one-third cash, balance on time at 6 per cent., or deeds can be had at once if desired.

Fully 200,000 acres of farm lands, suitable for mixed farming, only await the hand of man, a large portion of which is already located.

The verdure clad mountains are vast treasure vaults of gold, copper, silver and other precious metals, while our valleys are underlaid with a wealth of the finest coal and covered with a vast forest of spruce, hemlock and yellow cedar. These, coupled with our fisheries, are at the very doors and within sight of Queen Charlotte City.

Taking all these facts into consideration, and with the present progress being made in developing our resources, which are at the gateways of transportation both by water and railway, with the advent of the completion of the Grand Trunk Railroad, Queen Charlotte City is destined to be one of the province's most prosperous cities.

It is owned largely by the wealthiest and most honorable men of our province, who would not be a party in misrepresenting facts and are prepared to endorse every statement herein made.

The townsite company are now offering a further 75 lots on Second avenue at a very low price and on easy terms, if taken at once, and under conditions that will make you a 100 per cent. on your investment in 90 days, for 20 per cent. of the gross proceeds will be used by letting a contract for the clearing and grading of Second avenue from Third street west. The company guarantees to advance the remaining 75 unsold lots on Second avenue from $150 to $225 as soon as the first 75 have been sold. The company is making this effort in order to join with the government in making Second avenue the trunk road through the townsite from the Wilson-Robinson coal fields, Honna River Valley, Lawn Hill and Miller Creek districts. Now you can secure any unsold lot on Second avenue, including fourteen in Keith's addition, to-day for $150, except corners, on easy terms, 1-4 cash, balance 6, 12 and 18 months at 6 per cent. This will positively be your last chance for a cheap lot in Queen Charlotte City, for every lot in the townsite will surely go from $500 to $1000 when the public realize that in the Island River railroad from Queen Charlotte to the head of Masset Inlet is to be started this summer, in addition to the present work already outlined, thus giving work to an army of men. There are at least 5000 citizens of Vancouver who have invested in the various resources of the islands. Conclusive evidence of these facts, a landscape drawing of the townsite and a portion of Graham Island coupled with an illustrated edition of the resources of the islands can be seen at the office of J. J. Miller, 82 Hastings street, Vancouver, B. C., Agent for Vancouver, and plans at office of "Times", Peterboro'.

Individual instruction. Pupils may enter at any time.

School is open all the year. No interruption of work by holidays. Send for free first lesson in Shorthand.

Write for a copy of our handsome new catalogue.

THE FLAVOR

and purity of our beer wins many friends. No expense is spared in the brewing and bottling.

Calcutt's Lager Beer Ale and Porter

costs you no more than you have often paid for inferior kinds. If you would get the best results drink Calcutt's.

50,000 Bushels Barley Wanted. Highest price paid at Brewery for well cleaned Barley.

CALCUTT BREWING AND MALTING CO.
Limited

It is said that our local picture show people may be forced to charge 10c instead of 5c admission but, on account of the advance in lumber.

ADVERTISE IN THE TIMES.

DEPARTMENT OF RAILWAYS AED CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted cheque for the sum of $16,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 13th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of contract can be seen and form of tender obtained at this department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., H. J. Lamb, Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

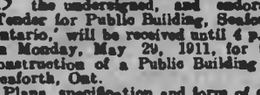
Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 9, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.



SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Seaforth Ontario," will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

There is one medicine that every family should be provided with and especially during the summer months viz., Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

Deputy Chief Graves of the Fire Department, Ottawa, is in Toronto on Saturday.

G.T.P. HOTELS

Will be Built in the West—One at Edmonton Will Cost $750,000

$750,000

That the Grand Trunk Pacific railway company will build a modern and up-to-date hotel at Edmonton was confirmed by W. P. Hinton, general passenger agent of the company at Winnipeg. The site selected by the company is the most ideal for the purpose, it being on McDougal Avenue. As to the amount that the building will cost Mr. Hinton could not announce, but from information received it will be in the neighborhood of something like $750,000. The Grand Trunk Pacific has concluded negotiations with other cities along their main line in the West to build hotels, and it is stated that the offer made Edmonton is a very liberal one compared to that which the company have made to other cities.

The hotel when completed will be one of the best in the West and will cater to the very highest class of trade. The excavations for the building will be started as soon as possible. Mr. Hinton also stated that the Grand Trunk Pacific would have a union station with the Canadian Northern railway built at Edmonton in the near future, but when, he did not know.

The Grand Trunk Pacific is also building for its passenger service several large engines for the Pacific coast end of its line. The Baldwin locomotive works at Montreal have an order for about six of the engines. Mr. Hinton stated that he thought these engines were for the Prince Rupert line. They will be of the latest pattern and will weigh about 345,000 pounds, with the tender when ready, or over 170 tons.

SIR GLENHOLME FALCONBRIDGE
Chief Justice, who presided at the Jardine murder trial at Goderich.

ST. JOHN HARBOR

Big Work to Complete the Dredging This Summer

The work the dredge Fielding has been doing in deepening the harbor entrance at St. John, N.B., will be completed before the steamers come again in the fall. Then it will be possible for a steamer drawing up to thirty feet of water to enter and dock even at dead low tide, so no matter how the tide is when the harbor mouth is reached, the steamers will be able to come up and dock. The new channel will be four hundred feet wide. It is understood the work is now pretty well advanced. In fact most of the mud digging has been completed. Unfortunately, some big boulders have been uncovered right in the channel, and until these are removed the other work done is of little practical advantage. To get the boulders and ledges down to grade will be a big summer's job for the dredging crew, but divers and dynamite will be used, and it is expected the last vestige of the rocks will be out of the way and a straight channel, thirty feet deep and four hundred feet wide, available before next winter.

A MILE PER DAY

Building Programme of the Canadian Northern Railway

One mile of new railway for every day of the year for the past twelve years is the construction record of the Canadian Northern Railway in Canada. In 1911, in Alberta alone, the Canadian Northern will endeavor to build one mile a day for every working day of the year. In other words they will come pretty close to constructing 300 miles of railway within the province if they carry out their programme for the coming year.

OLD ENGLISH GENTLEMAN

Sir Oswald Mosley is a Type of Old Times

A living copy of the familiar figure created by artists to represent John Bull is Sir Oswald Mosley, who is endeavoring to popularize wholemeal bread. And not only has Sir Oswald earned for himself the title of John Bull by reason of his appearance, but also on account of his characteristics. He is a country gentleman of the old school, a keen agriculturist, a great breeder of short-horns, an extensive gardener, and possesses a fine museum of British birds. But he takes to modern pleasures gaily, judging by the fact that he is as keen a motorist as he is a lover of horseflesh. He owns a number of cars and is a prominent member of the Automobile Club. It is because he considers that present-day indigestion and decay of teeth is due to fancy white bread that Sir Oswald is encouraging the villagers of Rolleston, Staffs, of which place he is squire, to use wholemeal bread.

BEAVER IN THE WEST

A strange animal has been attracting the wonder of residents along the banks of the Assiniboine river in the vicinity of Armstrong's Point. The district is thickly wooded, and some mystery surrounded the movements of the visitor. A young man decided to do his part in unravelling its peculiar features, and procured a gun, went out into one afternoon recently, and on sighting the animal burrowing in the sand, shot it in the head. On investigation he was surprised to find that he had killed a beaver.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all dealers.

FIVE ACRES, PLUS

What Boys Were Able to Do on a Small Farm

Near a Maritime Province town a man, his wife, and two sons lived on a five-acre lot. The head of the house ran a carriage shop and paid little attention to the land. The boys paid less attention, and were on the road to nothing in particular. The father died, leaving the place involved. Then the boys awakened, and began to till the five acres. Last year they expected to sell by the end of the season over one thousand dollars' worth of produce from the five acres. Among other things they marketed one half acre of tomatoes and one acre of green beans. The little farm is no longer involved.

BIND THE EMPIRE CLOSER TOGETHER

Sir Joseph Ward, Premier of New Zealand, Extends Greetings to the People of Canada

Sir Joseph Ward, Premier of New Zealand, is in Canada on his way to England. "We want to cement the bonds of the Empire closer together," he said. "We want to give your trade a preference in our market, and we want a similar preference from you in return. We are doing that with the rest of the Empire. We are seeking to build up our trade with the countries within the British Empire rather than with countries outside of the Empire. To this end we have already conceded 12.56 per cent of the tariff revenue of New Zealand, which amounts to two and a half million dollars." The people of New Zealand, Sir Joseph Ward said, knew something about Canada, and in turn he supposed opeople here knew something about New Zealand. One of the things about which they were concerned in New Zealand was making their people contented. The Government of New Zealand sought the preservation of the infants, looking after them until they were twenty-one years of age. The Premier also spoke of the provision that was made for caring for the women of the country at critical periods, and caring for the aged people by means of old-age pensions."

"You cannot find one statesman of our country," the Speaker continued, "who would favor repealing one of those laws. We are working out our destiny in our own way. We come to Canada and we find a people here who look happy, and who are also in their own way working out their own destiny. Your way may be different from ours, but you are working in the right direction."

HON. SENATOR L. J. FORGET
The Montreal Financier who died at Nice, France.

COMMENTS ON CROPS

Made by Statisticians Who Find Reason for Decrease in Yield in Saskatchewan

The final statistics of crop yields and acreage in crop in 1910 reveal the fact that the Province of Saskatchewan raised a total grain crop of 145,671,663 bushels. Although the returns show that an increasing amount of attention is being devoted to mixed farming, the province still holds a premier place as a wheat-growing country, having raised 72,666,399 bushels of that cereal, exceeding by four million bushels the estimate issued early in the season. This was grown on 4,664,824 acres, or 579,834 more than were harvested in 1909, an average of 15.58 bushels per acre.

While the aggregate, as well as the average, yield is lower than in the previous year, when conditions combined to favor the grain grower in every part of the province, they disclose results much more favorable than the earlier reports appeared to indicate.

In point of wheat production, Saskatchewan stands first among the provinces of the Dominion, and second in North America, being overtopped only by the State of Minnesota, which last year repeated exactly its 1909 yield of 94,060,000 bushels. Of 1,966 acres of fall wheat sown, 496 were winter killed. The yield on 1,471 acres was 25,504 bushels, or an average of 17.34 bushels per acre.

The total acreage under oats in the province was 2,090,007 acres and the production thereon, 63,215,296 bushels, representing an average yield per acre of 30.46.

Under barley, 238,294 acres produced 5,819,918 bushels, an average per acre of 24.54. 296,230 acres were devoted to flax, an increase over the previous year of 77,120, producing 3,044,138 bushels. This works out at 7.63 bushels per acre, or within a point of the estimated yield.

The returns show that improper or insufficient preparation of the soil to retain moisture was a more important factor than the lack of rainfall in accounting for this year's decrease of production. It is generally admitted by the correspondents that where improved cultivation methods of farming were followed, profitable and altogether more satisfactory crops were harvested.

The precipitation throughout most of the province was sufficient to have obtained good results in most of the principal crop areas if these methods had been more generally applied.

ADVERTISE IN THE TIMES.

Straight Talk on Danger of Colds

Let your cold gain headway and you can't keep it from running into Catarrh.

Catarrh never stays in the same place—it travels down into the lungs, then it's too late!

Drive colds and catarrh right out of your system while you have the chance.

Easily done by inhaling Catarrhozone, which instantly reaches the true source of the trouble, gets right where the living germs of catarrh are working.

CATARRHOZONE.

A Convenient Inhaler Treatment Is the Proper Remedy to Cure.

You see, Catarrhozone is simply healing balsams and rich, pure oxygenes, and is able to patch up the sore spots and remove that tender sensitive feeling from the nose and throat.

Hawking and spitting cease, because the discharge is cured. The nostrils are cleared, headache is relieved, breath is purified. Every trace of Catarrh, bronchial and throat weakness is permanently cured.

Shun medicines that con tain harmful drugs—use a safe remedy that is prescribed by doctors, that is used in hospitals, that is endorsed by thousands Catarrhozone has cured. For winter ills, there's nothing half so good.

Two months' treatment, large size, price $1, and guaranteed. Small size, 50c, all reliable dealers, or The Catarrhozone Co., Kingston, Ont. Beware of dangerous substitutes and imitations for "Catarrhozone."

FOR STONEY LAKE

For the week commencing June 5th Steamer Stoney Lake will leave Lakefield on the arrival of the morning train from Peterborough, returning to connect with the 4.40 train for Peterborough on Monday, Tuesday, Wednesday and Thursday.

STONEY LAKE NAVIGATION CO.
F. G. Young, Manager.

The Rutherford-Grimes Auto Bus will make its regular trips to Chemong Park every day, leaving the McLaughlin Garage, Simcoe street, at nine a.m., returning at ten a.m.; making a second trip at two p.m., returning at three. Return fare 50 cents, children 25c. Car will leave Garage at 8 p.m. for Chemong, returning from Park at 9 p.m. on Saturdays only.

The Bus will call at the Snowden House, the National and the Oriental each trip.

The bus may be engaged by the hour or trip at low rates. Particulars as to rates at the garage.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Tent For Sale.

Tent for sale—Large, only in use a few weeks, very reasonable. Apply W. J. L. Elliott, head of Weller St.

L.O.L. Meeting.

The regular meeting of L.O. Lodge No. 99, will take place this evening. A full attendance is requested.

Fell 15 Feet.

Yesterday morning while working on the roof of the creamery, Mr. Roland Shuperland slipped and fell to the ground, a distance of 15 feet. He fortunately escaped with a sprained ankle and a few bruises.

Funeral To-day.

The funeral of the late Mrs. Edmund Morphet, will leave the family residence, No. 350 Aylmer street, this afternoon at 2.30.

The Old Bell is Down.

Last night the men who are putting in the chimes, succeeded getting the old bell down to terra firma. It was taken out of the tower by the south upper window, and lowered by blocks and tackle.

Y.W.C.A. Lawn Party.

The lawn party last night given by the girls of the Y.W.C.A., was a success, notwithstanding the unfavorable weather. Dainty refreshments were served in the gymnasium. The orchestra rendered a choice programme of music during the evening.

With Load of Furniture.

Mr. Fred Roy and party of friends left yesterday on his trips. little [illegible] with a load of furniture, for [illegible]. Roy has a [illegible] last night.

which will be on June 15. Boats are being gotten in readiness and fishing tackle brightened up; and if there is not a splendid supply of fish stories on the "morning after", it will be most surprising.

The Men at Work.

The work of removing the old bell from the tower of St. John's Church is proceeding nicely. A gang of men are at work, and in the course of a couple of weeks the Chimes will be installed. The old bell will be taken to All Saints' Church at once, and in a few days no doubt, will again be calling the people together to worship.

Cement Walk in Park.

Work on the cement walk in Victoria Park, from the Court House down to the water fountain is proceeding nicely. A gang of men are at work, and will finish the job in a few days. It will be a great improvement when completed, and will add greatly to the appearance of the park.

Send-Off for Scouts.

Chief Scoutmaster W. J. Neale wishes all the Peterborough Boy Scouts to assemble at the market Square on Thursday morning at 7.15 o'clock to give a send-off to Scouts Wilfrid Stratton and Max Patterson who are leaving on the 7.42 train to join the Boy Scouts' contingent for the Coronation.

Rev. Mr. Coon for Lakefield.

The many friends in Peterborough of Rev. Mr. C. H. Coon, of Mark street church, and family, will be pleased to learn that they will not be moved to Trenton, as first suggested, but will go to Lakefield for the ensuing term. The Rev. C. E. Cragg, B.A., D.D., of Roxboro, is to be his successor in Peterborough.

CANADIAN PACIFIC.

Change in time, commencing June 4th, trains which formerly left Peterborough at 4.36 p.m. will leave at 4.20 p.m. for Toronto and West.

Train which leaves Peterborough for Ottawa and Montreal at 12.10 a.m. midnight on week days, will also run on Sundays.

To Learn Printing.

We require a bright young man to learn the printing trade. This is a rare chance for a good boy. Apply at Times business office.

BASEBALL.

Games this week in Juvenile League:

June 8—Tecumsehs at Lights, 6.30.
June 9—Midgets at Tecumsehs 4.30.
June 10—Leafs at Midgets, 2.30.

Boy Scouts.

Mr. W. J. Miller, Scoutmaster, has asked that every boy of the 3rd troop of Boy Scouts, is expected to be on hand sharp at 7.30 at the Armouries Friday night. There will be a business meeting in the bandroom from 7.30 to 8 for the 3rd troop only. The boys not getting there on time will not be able to pass the last examination for the 2nd class badge. Every boy must be in full uniform as usual Don't forget camp arrangements.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Mr. and Mrs. W. H. Meldrum returned yesterday from Stoney Lake, where they spent the week-end.

Rev. Mrs. Rollins went to Cobourg yesterday, where she will attend the Presbytery.

Mrs. Kerr is spending a few days in Cobourg, attending the Presbytery in connection with St. Andrew's church.

Mrs. H. M. Harper, went to Cobourg yesterday, where she will attend the Presbytery. While in Cobourg she will be the guest of Mrs. D. Ewart.

The many friends in Peterborough of Miss Katie Gordon of Queen's University, will extend their hearty good wishes for her future happiness on the occasion of her marriage to Mr. W. P. Nickle, M.P.P., which took place in Kingston yesterday.

OBITUARY

Mrs. P. A. Kearney.

[illegible] dawn of the passing of Ellen [illegible], wife of P. A. Kearney, of [illegible]'s Point, on Monday afternoon, [illegible] gloom over the community and was received keenly with deep regret by a large number of friends.

The late Mrs. Kearney was 60 years [illegible] and for many years resident [illegible], where held in high esteem by [illegible] within and many in contrast.

The late Mrs. Kearney was a member for many years of St. Mary's R. C. Church.

Those left to mourn her loss besides her husband are one son Thomas of British Columbia, four daughters, Mrs. McDonough, Klondike; Mrs. Brooks, South Beach, and Misses Ida and Jean at home.

The funeral will take place to-day from the family residence, Young's Point, at ten o'clock, and proceed to St. Mary's church cemetery for interment.

WEDDING BELLS.

Swan—Penn.

A very pretty house wedding took place on Saturday last, June 3rd, at the residence of Mr. and Mrs. E. Pemberton, 134 Rubidge street, when Miss Lillian Gertrude Penn, of "Ivy House" Blakeney, Gloucestershire, Eng., eldest daughter of Mrs. E. W. Penn, was united in marriage to Mr. George J. Swan, of London, Eng., nephew of Mr. and Mrs. Pemberton. Rev. Mr. Trumpour of All Saints' church officiated. The bride was given away by her brother, Mr. W. Penn and the groom was assisted by Mr. E. Pemberton. After the ceremony, music, etc., was indulged in and a very pleasant time was spent. Mr. and Mrs. Swan received a large number of handsome presents as well as the best wishes of the guests and friends. After a few days stay in Peterborough, the happy couple will leave for Toronto, where they will in future, reside.

Hanna—Donaldson.

The home of Mr. and Mrs. W. T. Donaldson, Centreville, was the scene of a very interesting event, on Wednesday, May 31st, when their charming daughter, Miss Amy E., was united in marriage to Mr. Albert Hanna of Janetville. The nuptial knot was tied by Rev. D. A. McKenzie, B.A., Centreville, in the presence of a number of relatives and invited guests.

The bride was given away by her father and entered the room to the strains of Mendelssohns wedding march, played by her cousin, Miss Nellie Syer, of Postypool.

The bride was handsomely attired in a directoire gown of cream satin, trimmed with Irish point lace, and carried a beautiful shower of roses and lily of the valley. Miss Marion Donaldson, niece of the bride, performed the duties of flower girl.

The groom's gift to the bride was an amethyst brooch set in pearls, to the pianist an amethyst brooch and to the flower girl a gold chain and locket.

Among the many valuable and beautiful gifts to the bride was a cabinet of sterling silver from Centreville congregation, also an address of appreciation of her excellent services in the choir, Sabbath school and W.F.M.S. The travelling gown was of green foulard silk, over which was worn a rajah silk coat and hat to match.

After the ceremony, guests to the number of fifty, partook of a dainty dejeuner. The bride and groom left for Buffalo and Niagara Falls. Mr. and Mrs. Hanna will reside at Janetville, and they carry with them the best wishes of a large circle of friends for their future welfare, in which the Times cordially joins.

Feel Well-fed All Day On Grape-Nuts Food

"There's a Reason"

Read "The Road to Wellville," in pkgs.

Off For Galt.

Eight of the Strathcormond Stable horses, with equipment, left for the Galt Horse Show yesterday by C.P.R. express, Mr. Stratton's horses will enter into twenty events in the show which takes place on Thursday, Friday and Saturday of this week. With the exception of "My Pride" and "Midget" the horses are in excellent condition. These two—among the best—are badly under the weather and have only been taken in the hope that change of air might affect them so as to enable them to be exhibited.

LITTLE LOCAL LINES

Mr. B. F. Ackerman has purchased a splendid new six-passenger McLaughlin-Buick, now on exhibition at the McLaughlin Garage, Simcoe street.

The Rev. B. W. Rankin, director of South American Evangelical Mission gave an illustrated lecture on Brasil, in St. Paul's Presbyterian church last night.

The Times is informed that it is the intention of the Jews of the city to build a synagogue at an early date.

Mr. Charles Curtis, the popular and enterprising manager of the Curtis' Brick Works, states that building operations this season are booming.

A very interesting and exceedingly enjoyable dramatic entertainment was given last night in St. John's school room, by the D.W.Y.C. of St. John's Church. The characters were well maintained, those taking part acquitting themselves in a creditable manner.

A vagrant at the Police Court yesterday was remanded until to-day.

The Fire Department received a telephone call yesterday morning to 321 Aylmer street, the occasion being a burning chimney. No damage.

Real Tact.

The really tactful man is the man who can tell the truth without shaming the devil.

Lame shoulder is nearly always due to rheumatism of the muscles, and quickly yields to the free application of Chamberlain's Liniment. For sale by all dealers.

The GRESSMAN Company Limited

PICCADILLY HOUSE BRINGS $7,500 FOR CORONATION DAY.

Two Hundred Guineas Asked For One Window Along Route of the Procession.

London, June 5.—Remarkably big prices are being asked and readily obtained in the west end for seats to view the Coronation procession.

In Piccadilly, the agreed price for the use of a house, having accommodation for a large party on June 22, is 1500 guineas, (about $7,500).

Not far away 1200 guineas ($6000) is being demanded for the use of a house for both days. Almost equally high prices are being obtained for accommodation in St. James street. A conservatory is to be had for 2000 guineas, ($5000) and probably many people will be eager to secure it.

The occupiers of flats in good positions along the route are reaping a harvest, readily obtaining 300 to 400 guineas for three or four windows.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of every ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

ADVERTISE IN THE TIMES

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Breakwater at Bare Point, Port Arthur, Ont." will be received at this office until 4 p. m., Wednesday, July 5, 1911, for the construction of a Breakwater at Bare Point, Port Arthur, Electoral District of Thunder Bay and Rainy River, Ont.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department, and at the offices of E. B. Temple, Esq., District Engineer, Port Arthur, Ont.; J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto; H. J. Lamb, Esq., District Engineer, London, Ont.; and J. L. Michaud, Esq., District Engineer, Merchants' Bank Building, St. James St., Montreal, Que.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Tenders are asked for two modes of construction, and each contractor must send in with his tender an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the higher of the bids, which cheque will be forfeited if the contractor decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. [illegible],
Secretary.

Department of Public Works,
Ottawa, June 2, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

SELECTION
Of material with care in construction make SHUR-ON EYE-GLASSES stay in place, grace the face, and help the eyes.
Selection of the right size, the right guard, and accurate judgement make Shur-ons more satisfactory when we supply them.

VOL XXXIV NO. 135 PETERBOROUGH, ONTARIO, THURSDAY JUNE 8 1911 PRICE TWO CENTS

GREAT EARTHQUAKE MARS MADERO'S DAY OF TRIUMPH

VIOLENT EARTHQUAKE SHATTERS MILITARY BARRACKS, WHICH FELL ON 70 SOLDIERS.

Tremendous Losses Are Probable in Southern Mexico—Scenes of Terror at the Capital.

Mexico City, June 7.—Thousands of persons who have flocked to this city to participate in the welcome to Francisco I Madero, jr., leader of the successful revolution, were thrown into a panic by an earthquake shock which seriously damaged many of the city buildings to-day.

Ten soldiers are reported crushed to death in the city barracks and nearly every prisoner in the "Belem" jail was injured, but so far as is known there were no casualties in the city proper. Fears are entertained, however, that great damage and possibly total destruction has resulted from the earthquake in places south of the city. Communication with this section is interrupted.

Owing to the interest in Madero's home-coming, the city has been uncomfortably crowded for the last few days. Every lodging house and hotel has been filled and last night hundreds were unable to secure accommodation anywhere.

TERRIBLE EXCITEMENT.

The earthquake shook the city just before daylight. At the first shock every light was extinguished and there was a rumble like artillery fire which prevailed for several moments. The populace was terrified. Men, women and children in various stages of dishabille, rushed screaming into the streets. The darkness added to the confusion and for a time many thought that the rebels had attacked the city and blown up the powder magazines at the forts.

Terrified women, herding the children about them, fled to the churches, where they prayed frantically for aid. The excitement was intense, but the police and soldiers, aided by clear-headed citizens, did their best to reassure the frightened people and soon order was restored.

Investigation showed that the full force of the earthquake had been felt at the big barracks on the outskirts and the Belem prison. The garrison in the military buildings was caught when the roof fell in and a number of soldiers were killed and others were injured. At the prison a wall collapsed and crushed the jute room and the main corridor in which many prisoners were confined.

Pavements of the main streets of the city were ripped up by the force of the disturbance, and water mains were put out of commission.

Fortunately the main portion of the city is built on made ground and the houses, while damaged in spots, were not rendered inhabitable.

Following the initial shock frequent tremors were felt, but none was of sufficient force to add to the damage.

GREAT FIGURES IN STREETS.

The oscillations moved from north to south and opened fissures in the streets. The adobe houses crumbled, but the dead in these cannot be numbered at present.

The shock was most severely felt in the western part of the city, though buildings in the central part were rocked.

The only foreigner killed was a Chinese.

Warehouses at the central station collapsed and an engineer was killed.

NATIONAL PALACE DAMAGED.

A private boarding school building was wrecked but none of the occupants was injured.

The National Palace had one of its walls cracked and the keystone of one of the arches was displaced.

The ancient cathedral at Santo Domingo was damaged.

SENATE WILL ADOPT ROOT'S AMENDMENT TO RECIPROCITY

Washington, June 7.—The Senate Finance Committee considered the Canadian reciprocity bill in executive session for four hours to-day, and then adjourned until to-morrow without reaching a decision as to a report or as to the Root or other amendments.

Washington, June 7.—In response to an urgent request Secretary of State Knox appeared before the Senate Finance Committee to-day to explain further the Canadian reciprocity agreement.

An opinion from Secretary Knox as to the effect of the Root and other amendments was sought. The committee met in executive session.

Secretary Knox, it is understood, reiterated the contention of the Administration that amendments to the reciprocity measure would be fatal to it. He was questioned at length by members of the committee.

While Mr. Knox was before the committee Senator Nelson, of Minnesota, appeared in the anti-room and sent in a request for a hearing on his proposed amendments to the bill.

This request coupled with a somewhat heated debate on the Root amendment, it was said, might delay the final vote in committee until to-morrow.

New York, June 6.—A Washington despatch to the Tribune says that the Canadian Reciprocity agreement will be adopted by the Senate without amendment, and with more than thirty votes to spare, is a prediction based on a careful poll of the Senate. This poll shows a remarkable change in sentiment, due in a large measure to the fight President Taft has made for the legislation, and to the overwhelming public opinion and to the overwhelming public sentiment in favor of the agreement.

As it is at present lined up, the Senate stands on the reciprocity measure as follows:

FOR RECIPROCITY—Republicans 23, Democrats 35—total 58.

AGAINST RECIPROCITY—Republicans 25, Democrats 3—total 28.

DOUBTFUL—4.

In view of the overwhelming majority for the agreement, the impression prevails that it will prove impossible to amend the bill.

If this be the case there are several Senators now opposed to the measure who may find it expedient to vote for it.

MAN RIDES TWO MILES ON PILOT OF ENGINE

Martinsburg, W. Va., June 6.—While Ray Van Meter, a Berkeley County farmer, was driving across the Baltimore and Ohio tracks last night, his buggy was hit by a train, and the horse killed. The buggy with Van Meter in it, was picked up on the pilot and carried two miles. Van Meter in the meantime crawled along the footboard into the cab, and informed engineer Kerser of the accident, demanding that the train be stopped and the splinters of his buggy be removed from the pilot.

When this had been accomplished, Van Meter sarcastically asked whether he would be arrested for stealing a ride. He was but slightly injured.

GOOD PROGRESS ON THE G.T.P.

Ottawa, June 7.—(Special.)—Reports received by the Chief Consulting Engineer of the Grand Trunk Pacific are to the effect that good progress is being made upon the mountain section.

The labor supply has improved and before winter sets in the two ends will be so far advanced that next summer it will be possible to join the gap.

When this is done the Western through line from Winnipeg to Prince Rupert will be finished.

Collingwood Schreiber leaves on the 15th inst. for Prince Rupert to inspect the Pacific section. After that he will go over the line from Edmonton east.

BIGAMIST GETS TWO YEARS.

Toronto Woman Brought Husband Had Him Arrested.

Niagara Falls, Ont., June 5.—Jas. Leach, formerly of Buffalo, more recently of Dunkirk, N.Y., was sentenced to two years in the Central Prison this morning by Magistrate Gibson, for bigamy and perjury. Jas. Leach came here in January, 1910, with number one in Toronto, and married Mary Warren of Victoria avenue, of this city, and moved to Dunkirk, N.Y. Not hearing from his first home since wife number one secured the aid of detectives, and followed him from one place to another, finally locating him in Dunkirk, N.Y., where she found he was living with another woman. Chief [illegible] Provincial Police here, took the matter up with the United States immigration officials, and Leach was brought over to the authorities here.

The prisoner pleaded guilty to the charge. Wife number one appeared in court with her mother.

Million Dollar Building Opened.

Montreal, June 6.—Six hundred medical graduates of McGill University are in Montreal to-day to take part in the opening of the new million dollar building of the medical faculty.

The official opening will take place to-night. His Excellency Earl Grey will be present and perform the opening ceremony.

The representation at the medical faculty takes place this afternoon.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

IS THIS FAIR OR JUST?

Editor Morning Times.

Sir,—If the other papers of the country, which claim to be fearless in the exercise of their duties, would only follow the example of The Times in regard to the question of mixed marriages and kindred matters, there would soon be an end put to Romish aggression and intolerance. In regard to this claim of the Pope that the Ne Temere decree corresponds with the law of Quebec but the decree never came into force until 1908 and there were surely marriage laws in the Eastern Province before that time. Consequently the edict must have been directed towards Roman Catholics in the other provinces. According to this ruling children of Roman and Protestant parents are liable to be declared illegitimate at any time. Since the introduction of this act, there has not been a proper equality between the two churches. In Quebec a Protestant minister cannot marry a Catholic and a Protestant, while in Ontario a Catholic priest is privileged to marry two Protestants.

It is no wonder that Protestant ministers will not submit to this injustice. A prominent clergyman told me that as a Protestant minister, he will not stand to see Protestants treated as the unequal of Roman Catholics, emphatically declared the speaker. They will carry the protest to the highest court of the Empire and if that fails, something else has got to be done. The agitation must be kept up, even until the constitution of Canada is changed, if that is necessary.

I hope The Times will continue to stand by its guns, and thus earn the hearty good will and gratitude of all Protestants. To strengthen your strong arm I hope that hundreds of them will become subscribers to the paper, and thus show in a tangible manner their appreciation of the splendid work that is being done.

Equal Rights.

SUNDAY AT THE GRAVES.

Editor Morning Times.

Sir,—I see the Ministerial Association has taken action in opposing the proposal to decorate the graves of the Oddfellows on Sunday. This is no more than I expected, judging from the attitude of the same body in refusing to bury the dead on Sunday. What they can find objectionable in the proposal of the Oddfellows, is more than I can see. The function is a purely religious one, and is specially suited for the Sabbath day.

I hope the Association will reconsider the matter, and instead of opposing it, that they will actively assist in making the occasion one in which an impressive lesson may be drawn regarding the uncertainty of life.

An Oddfellow.

OUR BAND.

Editor Morning Times.

Sir,—I would like to say a word or two in favor of our band. I think, sir, that a good band does as much or more to advertise the town than anything else. We have a musical organization of which we may well feel proud. It is run on respectable lines. Intoxication, is, I believe, unknown amongst our bandsmen. This in itself is enough to give it a stand-

Continued on Page 8.

Says He Was Paid to Spy.

Muskogee, Okla., June 5.—John Delaney, quoted in a confession last night as having said he was employed by John J. McNamara, secretary and treasurer of the International Association of Structural Iron Workers, as spy on non-union work and that he marked the places where dynamite was to be placed, stuck to his story to-day.

STORY CONTRADICTED.

Cincinnati, O., June 5.—The confession of John Delaney, as far as it relates to Cincinnati, is flatly contradicted by labor leaders, contractors, and the police records.

PRESBYTERY VOICES ITS PROTEST OVER QUEBEC MARRIAGE LAW

NOT CONDEMNING THE NE TEMERE AS APPLYING TO ROMAN CATHOLICS, BUT INTERFERENCE WITH THE CIVIL LAW.

Toronto, June 7.—The Toronto Presbytery, dealing with the situation that has arisen from the recognition of the canon law as part of the civil law of the Province of Quebec, especially as that has to do with marriage, went on record yesterday as strongly opposing the present position of the law as interpreted by the courts in that province.

A resolution was passed as follows:

"The Presbytery of Toronto expresses its satisfaction that the question as to the interpretation of the civil code of Quebec seems likely to be submitted to the Privy Council.

"Further, the Presbytery expresses the hope that the General Assembly while recognizing the right to exercise discipline over its members within its proper sphere, and whilst maintaining earnestly the sanctity of the marriage relationship, will frame a deliverance that will give guidance as to the principles involved, and will take what action may seem wise, looking towards the securing of the equality of all churches before the law, the removing of existing injustice and resisting of the civil power from the acknowledgement of the unwarranted claims of the Church of Rome."

Rev. Dr. W. G. Wallace and Rev. Dr. J. A. Turnbull, members of the committee appointed to deal with the matter, spoke strongly in support of the motion, which was agreed to with enthusiasm.

Rev. Dr. Wallace stated this morning that the resolution was not aimed at the Ne Temere decree of the Catholic Church so far as it affected its own people. The opposition was to the civil law, thus giving the church the power to say what the civil law should be.

The matter was of importance also because the Archbishop of Montreal was reported as claiming for the church jurisdiction in the case of any who had ever been baptized by the Catholic Church even though they became Protestants afterwards.

Rev. Dr. Turnbull declared that the situation was so serious as to demand that it be taken up at once and made right.

KING WILL CROSS CANADA WHILE ON HIS WAY TO INDIA

HIS MAJESTY IS REPORTED TO BE LIKELY TO VISIT ALL THE CANADIAN CITIES.

En Route to be Crowned as Emperor —Would Establish a Precedent.

Montreal, June 7.—A special to the Herald from Ottawa to-day says:

"It is reported here from a reliable source, that a visit will be made to this country by His Majesty King George.

"The King will visit Canada en route for India, where he will be crowned as Emperor.

"His Majesty will visit all important cities in the Dominion during his journey across the country, and will sail for India from Vancouver."

Should this report prove to be true the event it forecasts will make King George's reign epochal, establishing, as it would, the precedent of the Sovereign of the Empire visiting the outlying portions of the British Dominions after his accession.

King George will tour Canada before the end of this year, for he is to arrive in Bombay on December 2nd, and make his state entry into Delhi on December 7th. He is to be crowned on December 12th. Plans have been made to enable one hundred thousand persons to see the ceremony. The King is to reach Calcutta on December 30.

If the reciprocity deadlock materializes, the parties will probably endeavor to have the general elections over before the coming of His Majesty.

RICH MAN LOST HIS BRIDE WHILE ON THE HONEYMOON

New York, June 6.—Detectives are turning New York inside out to-day trying to find Mrs. Margaret Dubois, wife of Francis Dubois, a wealthy copper miner of Porcupine, Ont.

The miner and his bride left Porcupine on Sunday morning for New York, where they were to sail for their honeymoon at her old home in Copenhagen.

When their train stopped at a little town near Toronto, Mr. Dubois got out to stretch his legs, and the train starting suddenly left him there, while his luggage and wife went speeding on. Two hours later he got a train for Toronto, where the police told him his wife had gone straight to New York. Arriving in New York, he found her luggage with his at the station, but the bride is nowhere to be found.

Later the police located the bride at a Hoboken hotel.

FINED $500 FOR SOLICITING BRIBE

Columbus, O., June 6.—The grand jury to-day reported eight indictments. It is not known how many are against members of the legislature.

Representative Evans, of Stark County, pleaded guilty to soliciting a bribe of $300. Judge Kinkead immediately fined him $500.

Girl's Body Found.

St. Catharines, Ont., June 6.—Dr. Herod, coroner for Welland county, will to-day hold an inquest on the body of Gertrude Dale, a girl about 16 years of age, found on Sunday in the Welland Canal, not far from her home in Thorold.

The girl disappeared about ten days ago, leaving no trace behind her. It was feared she had drowned herself, and a watch had been kept for her body.

THE WEATHER.

Fair and a little warmer.

MIGHTY VOICE VS. MIGHTY SHADOW

THE COUNTRY—"I Can't Hear Paterson's Reciprocity Argument for That Noisy Taft Shadow."

SAYS THE QUEBEC COURTS CANNOT ENDORSE DECREE

Montreal, June 7.—Judge Lest, whose opinion with regard to the Hebert marriage case and the "Ne Temere" decree has been quoted in such a way as to create a misunderstanding, has written to the press in explanation of his position. He upholds the ruling of the court as regards the legal invalidity of the marriage of two Catholics by a Protestant minister, but contends that this ruling has no application to mixed marriages. The courts, he says, cannot endorse the "Ne Temere" contention with regard to the marriage of a Catholic to a Protestant.

WILL NOT START ANOTHER BANK

SENATOR COX DECLARES RUMOR FROM MONTREAL UNFOUNDED.

Many Banks Represented—Canada Life Claims More Extended Banking Associations Than Ever Before.

Toronto, June 7.—"The rumor is absolutely without foundation. Such a thing has never been thought of."

Such is Hon. Geo. A. Cox's laconic denial of the rumor emanating from Montreal that the Cox interests would launch a new chartered bank as a result of the recent liberalization in the Canada Life directorate.

It is inferred from Senator Cox's denial that there has been no straining of relations between the Canada Life interests and the Bank of Commerce interests.

Mr. Edmund Walker, president, and Mr. Z. A. Lash, vice-president of the Canadian Bank of Commerce, are now aloof from the Canada Life. On the other hand, Hon. J. M. Gibson, one of the new directors of the Canada Life, is a director of the Bank of Commerce.

Furthermore, Senator Cox and Mr E. R. Wood, of the Canada Life, retain their places on the "Commerce" directorate. Indeed, Senator Cox attended the weekly directors' meeting in the Commerce head office on the day following the Canada Life storm.

The sum total of the change, therefore, is that the Canada Life has three representatives on the Commerce directorate, instead of four, as formerly. It is reasonable to suppose therefore, that the intimate connection between the Canada Life and the Commerce will continue undisturbed.

BROADENS BANKING CONNECTION.

Apart altogether from the Bank of Commerce, it is noteworthy that the Canada Life banking connection has been broadened considerably as a result of the recent upheaval. Of course Senator William Gibson has retired from the Canada Life, and it has been assumed by some that the Cox company would hereafter have little if any connection with the bank of Hamilton, of which Senator Gibson is president. This is more than offset, however, by the banking connection which comes through Messrs. R. Bickerdike, M.P., of Montreal, and Duncan Coulson.

Mr. Bickerdike has long been prominent as one of the big men behind the Banque d'Hochelaga, a French-Canadian institution. He is also prominently associated with Mr. Rodolphe Forget, M.P., in the new French-financed Banque Internationale with ten millions of capital behind it. Mr. Duncan Coulson, as everyone knows, is director and general manager of the Bank of Toronto. Senator Jaffray, vice-president of the Imperial Bank, remains a director of the Canada Life.

It would seem therefore, that the Canada Life has been strengthened rather than weakened from the standpoint of banking connection.

11 1-2 WAS HIGHEST PRICE FOR CHEESE

Peterborough Cheese Board Met Yesterday—All Cheese Not Sold.

A large number of buyers were present at the cheese board meeting, which was held in the board room yesterday. 2,750 cheese were boarded.

The meeting was favored with the presence of Mr. G. Gillanderes, of London, England. The gentleman in question was connected with the cheese industry in the Old Land, and was therefore called upon for an address. Mr. Gillanderes, in a few well pointed remarks, stated that the Peterborough County cheese was of exceptional merit. There are two sections in Canada where the best Canadian cheese is made, one in Peterborough and the other, I will not name, as comparisons are odious. In London, cheese buyers are, as a rule, very fastidious, as regards the selection of cheese, and in order to obtain the highest prices the quality must be kept up to the standard.

In conclusion I wish to thank you all for the kind reception accorded me. (Applause.)

Cheese boarded:

Keene	70
Warminster	120
Shearer	80
Central Smith	132
Selwyn	133
Villiers	85
Warner	100
Westwood	148
Oakdale	115
Daisy D.	90
Pine Grove	95
Maple Leaf	80
Myrtle	100
Ormondale	175
Young's Point	95
Lang	90
Indian River	110
North Dummer	80
East Emily	85
Trevorn	125
Benefort	35
Cedardale	65
Norwood	150
Fleetwood	140
Killarney	135

Mr. Watkins opened the bidding at 10½ and this was advanced to 11c by Mr. Gillespie, who bought nine factories at that figure. They were: Keene, Warminster, Shearer, Central Smith, Selwyn, Villiers, Warner, Westwood and Trevorn.

Mr. Lang bought Daisy D., Ormondale, Norwood and Killarney, securing same price, while Mr. Thompson purchased Myrtle, Young's Point, Indian River, and Fleetwood, for the same figure.

10 15-16c was the next bid offered. At that price Mr. Gillespie purchased Beaufort.

The rest remained unsold.

The board adjourned for two weeks.

4,000 MEN GO OUT ON STRIKE

Vancouver, B.C., June 6.—Four thousand men, representing all the building trades, quit work this morning, but the city is not tied up as the street railway men refused to join the strike. However, matters are made serious by all the linemen of the telephone and telegraph companies going out. The teamsters are still working and will not strike. No demonstration and no complaints at police headquarters. The wires of the street railway company were cut in the suburbs at 8 o'clock, but repaired by 8.30. The situation is serious, but not as bad as anticipated.

GIRL DIES FROM HER INJURIES

Ottawa, June 6.—Eva Nixon, the five-year-old daughter of Robert Nixon, this city, died to-day as a result of burns received at noon on Sunday while in St. Thomas Roman Catholic Church, Clarkstown, a suburb of Ottawa. The girl was visiting friends near the church and with others entered the edifice to place some lighted candles on the altar steps and passing too close to these her clothing ignited. She rushed from the church to the street, but by the time she got outside her clothing was almost burned off. The little one was rushed to the hospital, but the terrible burns proved fatal.

LAID AT REST.

Funeral of the Late Mrs. Edmund Morphet.

The funeral of the late Mrs. Edmund Morphet took place yesterday afternoon. The remains were interred in the Little Lake cemetery. The floral tributes were many and costly testifying to the high esteem in which deceased lady was held by a large circle of friends and acquaintances.

The beautiful Anglican burial service, both at the family residence and place of interment, was conducted by Rev. Canon Davidson, rector of St. John's church, assisted by Rev. Charles Carpenter, the assistant rector.

The pallbearers were ex-Mayor Rush, W. J. Johnston, Chas. H. J. Mitchell, D. Burritt, J. J. Turner, Sr., and J. J. Howden.

WHY BACHELORS GET FRIGHTENED

An English Paper Thinks that the Average Girl has Tastes Too Costly for Them

We hear a lot to-day about the selfish bachelor, of the man who should be taxed because he shirks marriage and his duty to the State, says London Tit-Bits; how he prefers the nightly pleasures of the club, dance, restaurant, and theatre to providing a home for a wife, and how he complains, when the question of matrimony is broached, that he cannot afford to get married, although he spends enough on himself in twelve months to maintain a fair-sized house. He it is who is responsible for the increasing number of breach of promise cases, for he likes to play at courtship without incurring any of its liabilities. At least, that is what the detractors of the "selfish bachelor" say.

But there is another side to the question. Bachelors are finding the cost of courtship is rising by leaps and bounds, and it is because of this rise that thousands of young men destroys of marrying abandon the intention. The fault is on the side of the girls who hate to have people think that their finances are niggardly.

There is no doubt that the girl of to-day is well acquainted with the luxuries of life. She earns good wages, enjoys herself, and expects the man to whom she is engaged to treat her to the best. And the poor fellow tries to do so, with the result that he finds himself unable to marry as year succeeds year, unless they are prepared to start on a very small scale. And what girl would be content to do so after posing among her friends, as many of them do, as the fiances of a fairly well-to-do man? The result is that the man recognises how impossible it would be for them to live in the style desired on his income.

"In my opinion," said the wife of a minister, "the young lady of to-day expects too much from a man. Her parents, perhaps, are able to send her to an advanced school to finish her education, and she goes in for sports, dancing, music, and various other accomplishments. And when she goes out to business she is allowed to spend all the money she earns on herself, and never lacks pleasure or clothes.

"When she becomes engaged she exhibits a fondness for flowers, theatre-going, jewellery, and pleasure excursions, which proves a severe tax on the young man's pocket, making it practically impossible for him to save any money towards a home. And it is only when he notices the extravagant tastes of the girl that he breaks off the engagement. It may mean a breach of promise action, but he is better off in the end.

"It was only a short time ago that I endeavored to bring about a reconciliation between a certain girl and her lover who had jilted her. I thought the girl had been badly treated, and told the young man so at an interview I had with him. But when he informed me that in six months he had spent over $200—his salary was only $750 a year—on the young lady in the way of gifts and pleasure, I came to the conclusion that he was quite justified in breaking off the engagement.

It is also the tendency which the modern girl has to indulge in extravagant dress which so often frightens a bachelor. She tries to make herself as attractive as possible by donning the most fashionable attire, forgetting that a man is apt to regard askance the girl who endeavors to dress above her station in life.

"In shop, office, and factory," said the lady already referred to, "I find girls not only spending all their money, but running into debt for dress. And it is when a man learns that the girl he admires thinks nothing of paying $10 for a hat, $6 for a pair of shoes, and $25 for a costume, that he decides that married life is a luxury far too expensive for him."

LATE FOR BREAKFAST

How to Deal with Children Who Won't Get Up

Little children are nearly always eager to get up early in the morning; but older boys and girls often give a great deal of trouble by being late for breakfast.

It is not good for any child to tumble out of bed, huddle on his clothes anyhow, snatch a mouthful of breakfast, and rush away to school. If a boy does this, he will probably be upset and flustered for the whole day, and his lessons will suffer considerably.

School boys and girls need a great deal of sleep, for they work hard both with their bodies and brains. But this sleep should be obtained at the evening end of the night, not at the morning one, if it is to do any real good.

It is not much use to scold children, or to give them a cold breakfast; but it is most important that they should be got up in good time.

POINTED PARAGRAPHS

Love-making is one kind of a cold-weather picnic.

Even a stingy man loosens up when asked for advice.

There is always room for one more in the straight and narrow path.

It doesn't increase the size of anything to look at it through a magnifying glass.

It's easier to borrow from a new friend than it is to pay back what we owe an old one.

People who do as they please seem to get along just about as well as those who are always trying to please others.

There is a certain sweetness in "Little deeds of kindness," and in letting our best impulses have free play on all occasions.

To Camp June 11th.

The Peterborough Battery will go into camp on June 11th instead of 12th, as announced in a previous issue. The Battery will parade at the Armouries on Monday next at 1 o'clock, when they will take their departure for Petawawa, where the camp is being held this year. Tuesday will take place tomorrow night, all recruits are requested to parade at the Armouries on Friday June 9th, at 7 o'clock, for [illegible]

DRS. SOPER & WHITE

33 Toronto Street, Toronto, Ont.

ALBERTA GAME LAWS

New Provisions Governing the Slaughter of Chickens

The Alberta Government have made important amendments to the Game Act. Perhaps the most important of all are the provisions for the protection of prairie chickens, the slaughter of which has been so common in the past. In future hunters will be limited to ten chickens per man per day. The opening of the duck seasons will be changed from August twenty-third to September first.

In future a residential bird license of $1.25 will be necessary before game birds can be shot. Provision is made for the protection of Hungarian partridge.

Game wardens in the future are to possess the power to make arrests. Fines of not less than $50 or more than $100 are provided for offenders under the Act.

Non-residents, the guests of settlers, must pay $5 for the privilege of hunting as under the old Act. A provision is also made that residents, accompanying non-residents without licenses, are equally offenders under the law.

FINE LAKE TROUT

Many Varieties of the Finny Tribe Caught in the North

A Government expedition consisting of Professor A. E. Barlow, of McGill, Professor Guillin, of Queen's, Mr. Fairbault, of the Dominion Geological Survey, J. H. Valiquette, engineer of the Provincial Department of Mines, spent three and a half months in Northern Quebec, in the region between Lake St. John and James Bay. While the members were largely engaged in prospecting they found the waters abounding in many varieties of fish. In some of the lakes members of the party took speckled red trout up to five and six pounds in weight. Huge gray lake trout or touladi were captured as well as white fish, pike and pickerel. Plenty of feathered game was seen. The only big game killed was a bear, the animals being numerous along the route followed by the explorers. This route traversed some of the hunting ground of the Montagnais Indians, and members of the latter were secured as guides for the expedition.

IMMIGRANTS FOR THE WEST

There is a steady influx of immigrants to Toronto, bound for all the different points in the West, very few of them leaving the train ere they reach Winnipeg. In four days eleven special trains left the Union Station, each train carrying from eight to twelve coaches, or about eight thousand people.

NOTICE TO CONTRACTORS. TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope "Tender for Station Buildings," will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.
Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.
Section 3.—From Mile 5 to Mile 165 east of Quebec bridge.
Section 4.—From the Quebec bridge westward to Mile 45.
Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.
Section 6.—At Cochrane in the Province of Ontario.
Section 7.—From the divisional
Section 8—From Moncton to Napadogan, in the Province of New Brunswick.
Section 9.—From Mile 125.5 to Mile 159 west of Moncton.
yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.
Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.
Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario,
Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,
P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.
Dated at Ottawa, this 12th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realising handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK

429 Pender St., W., Vancouver, B.C. Phone 871

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $200 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of it is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some idea about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

WHISKY MADE FROM SAWDUST

How the Material is Treated—Simple and Economical to a Degree

The president of the International Congress of Chemists at the World's Fair, Chicago, remarked that the next greatest discovery in chemistry would be the manufacture of alcohol from lumber refuse. Probably not one of the chemists assembled at that congress imagined for one moment that the discovery would be made within twenty years from that date; for chemists have been experimenting for the greater part of a century trying to discover a method of making pure alcohol from a wood waste.

To-day, however, the discovery is an accomplished fact, and is the result of experiments which have been carried on for five years by two Chicago chemists, who claim to have discovered a process by which pure ethyl alcohol can be made from sawdust or wood waste of any kind. That the discovery has actually been made is evident from the fact that the United States Department of Agriculture, after making the fullest investigations of the process patented by the inventors, has made a highly laudable report about it. The department describes it as "a revolutionary discovery," in view of the numerous uses of alcohol.

Alcohol as Light and Fuel

For lighting purposes it is admitted to be brighter, safer, cleaner, and more desirable in every way than kerosene; as a fuel it competes successfully with gasolene, coal, wood, or any present known heat maker. It has made its place in the kitchen cooking stove and in the locomotive tender; it lights drawing-rooms and drives automobiles. And, in addition to this, it is an important ingredient in the manufacture of scores of articles, of which gunpowder is one. Germany has made experiments with alcohol as a fuel on its battleships, and its use instead of coal has been declared not only feasible, but desirable.

All manner of engines, from the delicate affair in the aeroplane to the giant that pulls a train, may use alcohol as a fuel. Alcohol steamships, locomotives, airships, motor-cars, and power plants thus become probabilities of the future.

Oil wells may go dry, coal-mines will be used up, but alcohol, found in every form of plant life, will be available so long as Nature makes trees grow on the earth's surface.

How the Sawdust is Treated

The process of manufacturing alcohol from sawdust is simple and economical to a degree. In appearance the plant combines certain features both of a pulp factory and a distillery. First in the process the sawdust is poured into a "digester," similar in operation to the "digesters" of pulp plants. Here it is treated under high steam pressure for a short time in the presence of a small quantity of acid. A portion of the wood is thus converted into glucose.

The glucose is then fermented and distilled into alcohol by distilling apparatus similar to that found in a regular corn-distilling plant. In brief, the sawdust goes into the plant on end and comes out at the other in the form of pure alcohol—not wood alcohol, but pure alcohol—purer than that which comes from corn and barley, there being in it not a trace of fusel oil.

It is estimated that there is enough wooden waste thrown away every year to more than supply the country's demand for alcohol. With this waste utilized under the new process coal will cease to be a necessity to the alcohol distiller, as will barley. These two crops will thus be freed of this source of drain, and their surplus millions of bushels may be used solely for food. The effect of this upon the economic conditions of the world [illegible]

TRUE FRIENDSHIP

Not a One-Sided Affair, as Some People Think

Friendship must be cultivated. It cannot be bought; it is priceless. If you abandon your friends while you acquire wealth, or look too much after business matters, you cannot expect to come back and find them where you left them.

Many people seem to think that friendship is a one-sided affair. They enjoy their friends, like them coming to see them, but they rarely ever think of taking the trouble to keep their friendship; while the fact is that reciprocation is the very essence of friendship.

It does not matter how clever you are, or what your accomplishments are; you will live a void, friendless life, and will be unattractive, unless you have a warm heart that draws you towards people, or that people are drawn towards you.

If you are intolerant, uncharitable; if you lack generosity, kindness, truthfulness, your life will be empty, because you will not win friends. But if you have all the opposite virtues, you will love and be loved.—Home Companion.

ABOUT TO BE MARRIED

To those who contemplate marrying the following points may prove useful:—

While on the honeymoon don't go and exceed the amount that it was arranged should be spent; if you do, the pinch will be felt at home on your return.

Don't, directly you get into the new home, begin to wonder if it is as nice or as handsomely furnished as Mrs. So-and-so's. Be content with what you have.

Study your husband in every way. Begin well by having meals punctually and daintily served—especially breakfast.

Do not pine for the more luxurious time of the wedding tour. Such things come but once in a lifetime to most people.

Show your husband how grateful you are to him for having chosen you out of thousands of other girls to be his counsellor and helpmeet, and keep an even temper if he is impatient. He will be human—even after the honeymoon.

A MILE PER DAY

Building Programme of the Canadian Northern Railway

One mile of new railway for every day of the year for the past twelve years is the construction record of the Canadian Northern Railway in Canada. In 1911, in Alberta alone, the Canadian Northern will endeavor to build one mile a day for every working day of the year. In other words they will come pretty close to constructing 300 miles of railway within the province if they carry out their programme for the coming year.

BEARS IN THE NORTH

Surveyors Who Arrived at Nome Were Frequently Visited by Master Bruin

Some extraordinary stories of experiences on the Alaska Boundary Survey are told by Mr. H. S. Mussell, of Ottawa, who recently arrived at Nome after long and arduous labors in survey work, says Rod and Gun. The surveyors found more bears there than they did on the Stikine River and soon realized that these animals were disposed to be friendly. Apparently their food supplies were abundant, and the bears, though paying frequent visits, never attempted to molest the men. The smell of frying bacon proved irresistible, and the bears came close enough for tidbits to be thrown to them. Finally they took to visiting the camps and foraging for themselves at night, but the men resented this, although the bears never disturbed their privacy. The region is extremely rough, being a vast series of high peaks covered with eternal snow. It was impossible to place boundary pillars there, and the triangulation work and photographs will form the record. In all about four hundred square miles of the territory was covered. This involved the climbing of high peaks, some of them having an elevation of over eight thousand feet. The Muddy River, a tributary of the Taku, rises at the foot of a glacier which is believed to be the largest glacier in the world. The glacier, not counting its arms and the snows in the vicinity is easily twenty miles long. The surveyors scaled and crossed it at different points. Depressions, owing to thaw, existed, and sweeping through the icy banks were swept down the mountain side with the speed of an avalanche. In eight hours the river rose twenty-two feet, and the camp and supplies had to be hastily removed. The boundary line zig-zags a good deal.

GRAND TRUNK RAILS

An Order for 40,000 Tons Placed at Sydney, N.S.

The Grand Trunk Railway has placed an order for 40,000 tons of steel rails for delivery this season in western Ontario. These will make twenty miles of 30-pound to the yard track and 240 miles of 100-pound track. The cost will amount to considerably over one million dollars. The company will ship 209 miles of its displaced track for use by the Grand Trunk Pacific in constructing yards and sidings in the west. Some of these rails have been in use since 1869 and are still good. They were imported from England at that time for the lines in Ontario. As they are only of 56 and 65-pound weight, to the yard, they are considered too light for the heavy locomotives now in use on the main lines. All the present order of rails will be filled by the Sydney, Cape Breton, mills.

This is the label to look for on every bottle of lager you buy.
It is not enough to merely ask for O'Keefe's—or order O'Keefe's.

See for yourself that you get O'Keefe's "Pilsener". Look for the labels as shown here—and refuse to accept any bottle which does not bear them. 215

WIND ON THE STOMACH

A Well Known Westerner Tells of Suffering, Misery and Pain That He Cured With "Nerviline."

"A few weeks ago I ate some green vegetables and some fruit that was not quite ripe. It first brought on a fit of indigestion, but unfortunately it developed into hiccoughs, accompanied by nausea and cramps. I was dreadfully ill for two days—my head ached and throbbed; I belched gas continually, and I was unable to sleep at night. A neighbor happened in to see me and urged me to try Nerviline. Well I wouldn't have believed that any preparation could help so quickly. I took a teaspoonful of Nerviline in hot sweetened water, and my stomach felt better at once. I used Nerviline several times, and I was completely restored."

NERVILINE STRENGTHENS WEAK STOMACHS

The above is from a letter written by G. E. Braun, a well-known stock man and farmer near Lethbridge, Alta. Mr. Braun's favorable opinion of the high merit of Nerviline is shared by thousands of Canadians who have proved Nerviline is simply a marvel for cramps, diarrhoea, flatulence, nausea and stomach disorders. Safe to use, guaranteed to cure—you can make no mistake in keeping Nerviline for your family remedy. Large 25c bottles; five for $1.00. Sold everywhere, or The Catarrhozone Co. Kingston, Ont.

TENDERS FOR STEEL BRIDGES

Tenders (endorsed Tender), will be received by the undersigned for the steel work or superstructure of two bridges known as Spencer's Bridge, Dummer, and Brown's Falls Bridge, Burleigh., in the County of Peterborough, up to One O'Clock P.M.,

JUNE 19th, 1911

The lowest or any tender not necessarily accepted.

Plans and specifications may be obtained from the County Clerk or seen at the County Office, Peterborough.

ED. M. ELLIOTT,
County Clerk.

Peterborough, May 29th, 1911.

THURSDAY, JUNE 8th, 1911.

LATEST FROM APSLEY

Mrs. (Dr.) Bell has returned home from a visit to her son and daughter in Toronto, much improved in health.

The social gathering at Mrs. Grants last Thursday evening was very much enjoyed by those present. About twenty-five ladies and gentlemen passed the evening with music, singing, etc. A dainty lunch was served about 10 o'clock. Mrs. Grant was an ideal hostess and was ably assisted by her sister-in-law Miss Grant. It has been the custom of Mrs. Grant to have these gatherings on the first Thursday, and the day is looked forward to with pleasurable anticipation by their many guests.

Miss Katie and Miss Emma Eastland have returned home from a prolonged visit with their sister, Mrs. H. B. Kent, Montreal. We are pleased to have them home again to Apsley.

Miss Lees, our efficient teacher, spent the week-end the guest of Miss Ethel Bullwd. Miss Lees has made hosts of friends since coming to Apsley.

Mrs. Harrison, Peterborough, is visiting her parents Mr. and Mrs. A. Windsor, Anstruther.

The directors of the Apsley Telephone Co., held a special meeting Saturday evening and made final arrangements to commence building the line from Lanswade to Purdyville and from Apsley to Chanicarde and expect to have those branch lines in operation this summer. The line so far built is giving good satisfaction, and with a better switchboard at Mt. Julian, everything would be satisfactory.

Malcom Brown of New Ontario, is visiting his brother Duncan Brown, Apsley, and renewing old acquaintances. He intends taking back a car load of cows if they can be got here.

The boys are beginning to hunt up their fishing tackle and get them in order, and picking out likely spots for worms and frogs. The 15th will soon be here.

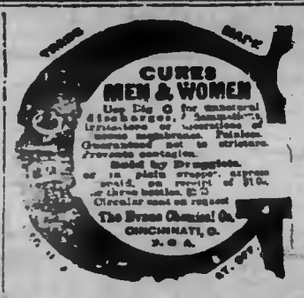
Anvil Jim has finished his verandah and finds it a very comfortable spot these warm days.

The chairman of the wisdom club is away for an indefinite time, the president is going away, and the hall of wisdom may change hands, so it was decided at a committee meeting that the regular meetings be discontinued for three months, and have the charter packed in sawdust and stored in the vault of the town hall, which was done with all due ceremony, according to the rites of the society at midnight Friday, June 2nd.

The enumerators are busy taking the census and fighting mosquitoes. One of the enumerators told in the village the other night that in three days out he had lost 10 lbs., which the mosquitoes gained. If he loses much more there won't be much left.

The crops up here are looking well. The occasional showers are helping things along, still we could do with more rain.

Billy says he has some corn, peas, cucumbers, &c. up in his garden and if the black cow gets in again everything else will be up.



SMITH TWP. COUNCIL

The Council of the Township of Smith, met in the County Council Chamber, Peterboro, on Monday, May 29th. All the members present with Reeve Graham in the chair.

Minutes of last meeting were read and confirmed.

Mr. John Johnston and Mr. Millage waited on the Council and asked that the road on the 16th concession be opened up so as to give better access to their lots. It was decided that the Council look over the road and estimate the cost.

Moved by Mr. Garbutt, seconded by Mr. McKee that By-Law No. 698 as approved by the Hon. Minister of Public Works, be read a third time, and passed.—Carried.

Moved by Mr. McKee, seconded by Mr. Garbutt that the sum of $800 be divided among the Councillors to be expended on roads. Each Councillor to receive $150.00, with the exception of Mr. Davis, who received $50.00 extra.—Carried.

Moved by Mr. Davis, seconded by Mr. Jobe that the following accounts be paid:—

Herbert Rosboro (4 days work on road)	$5.00
Jno. Northey, Jr., shovelling snow	7.00
Jos. Mann, work on road	7.50
Jos. Donaldson, work on road	8.25

The Council adjourned to meet again at the call of the Reeve.

Peterboro, May 29th, 1911.

AMBASSADOR NOT WANTED.

London, June 3.—The British Government's invitation to Morocco to send a special embassador to the coronation of King George has been withdrawn and the foreign office has notified El Kokri, who had been designated to represent Sultan Mulahfad, that he will not be received.

This action on the part of the British Government was brought about by the cruelty with which the Sultan's troops treated women and children during the recent raid from Fez. The soldiers captured many women and girls in the neighboring villages and sold them on the streets of Fez.

Cuban Grape Fruit Groves Pay Enormous Dividends

A SAFE AND SURE INVESTMENT

Ninety miles west of Havana lie the beautiful Manhattan Estates in the heart of Cuba's most profitable and bountiful section. We intend, with your co-operation, to develop 502 acres of this wonderful sandy soil into a prosperous and self-sustaining institution of rich agricultural products.

It requires a large amount of money to go into this business properly, and it takes considerable time for the grape-fruit trees to mature.

When they are three years old they will each bear on an average one box, which is worth not less than one dollar on the tree. The fourth year we average three boxes per tree, which means $4.00, and this continues until the seventh year, when the average from a tree amounts to between seven and twenty crates; retailing in the Canadian and American markets as high as $10 a crate.

But bear in mind that these trees in full bearing will not have cost more than five dollars each, consequently once maturity is arrived at the profits are continuous and tremendous.

As we intend planting over 40,000 grape-fruit trees, you can readily see that 100 per cent. annually is a conservative estimate.

We Pay Our Way As We Go.

During the past year I have placed many dollars' worth of stock, mostly amongst my relatives, personal friends and business acquaintances. I HAVE TOLD THEM WHAT I HERE REPEAT TO YOU, that I am giving the affairs of this company, and will continue to give them, as careful attention as if I owned the whole company, and I AGREE NOT TO RECEIVE ONE CENT OF SALARY for my services until after I have made the company pay you DIVIDENDS OF TWENTY-FIVE PER CENT. ON EVERY DOLLAR YOU INVEST WITH ME IN THIS ENTERPRISE.

When you and I receive twenty-five per cent. on our investments, I will not need a salary, and right here I want to state that we have agreed that NO SALARY SHALL BE PAID TO ANY OFFICER until at least twenty-five per cent. dividends have been earned and paid to all our stockholders.

Further—we have no bond interest to meet; we do not even have to pay any taxes until we have an income. EVERY DOLLAR RECEIVED WILL BE USED FOR THE DEVELOPMENT OF THE COMPANY'S PROPERTY.

Commercial grape-fruit orchards are wonderful wealth-producers.

I want to draw a check to your order for 100 PER CENT. DIVIDENDS EVERY YEAR, and I not only want to do it, but expect to do it.

I have thoroughly investigated the possibilities for profit in growing grape-fruit on a large scale, and have seen the actual results accomplished.

YOUR MONEY SHOULD WORK FOR YOU AS HARD AS YOU WORK FOR IT, and I am desirous for this reason that you know the grape-fruit industry as I know it, and I want you to send for our booklet de luxe, fully illustrating and describing this wonderful and prosperous industry.

(Signed) S. J. MURPHY.

STATUTORY INFORMATION

(Filed with the Provincial Secretary of Ontario)

Authorizad Capital $200,000 — **Shares $100.00 Each**

1. The incorporators and at this date directors are E. V. O'Sullivan, John M. Ferguson, and James E. Day (Barristers), James A. McNevin (Law Student), and Mary Donevan, Eileen Jamisson, and Amy I. Naftel (Stenographers), all of 34 Victoria street, Toronto. Any shareholder not in arrears is qualified to be a director. The by-laws provide no remuneration for acting as director except fees and traveling expenses for attending meetings. Directors may be paid for special services.

2. Each incorporator subscribed for one share, 7 in all, and by by-law of the Company 993 shares are to be issued to Sterndale J. Murphy, of Toronto, who is the vendor to the Company, under an agreement between him and it dated 4th January, 1910, for the sale of certain Cuban lands, the consideration being 993 paid-up shares, $700 cash, and the assumption of a debt of $9,000.00 on the land, payable in installments (until Nov. 15, 1912) to the Cuban Commercial Company of Havana, under contract between it and Mr. Murphy, dated 3rd December, 1909. Copies of these contracts may be inspected on any business day at the office of the Company's Solicitors, Day, Ferguson and O'Sullivan, Toronto. The preliminary expenses are incorporation and legal fees and printing, and are estimated at under $1,000. No commission has as yet been authorized on sale of stock, but the directors may authorize payment of a commission not exceeding 25 per cent.

3. To make the contract binding it has been decided to go to allotment on receipt of application for one share. Shares are offered for sale on the terms that 25 per cent. be paid on allotment, 25 per cent. three months thereafter, and balance on call of the directors, calls not to be more than 25 per cent. of the subscription, and at least three months to elapse between calls.

New Train Service to "Lake of Bays."

An important feature that will be inaugurated during the coming season will be a new train service to the "Lake of Bays" district. A standard Grand Trunk passenger train will leave Toronto with through coaches, parlor cars and dining cars at 10.15 o'clock in the morning, daily except Sunday, for Huntsville, reaching the latter point at about three o'clock in the afternoon, connecting with the steamers for points in the "Lake of Bays" district, and affording passengers the opportunity of reaching their destination in time for dinner.

The Sunday evening boat service from the WaWa Hotel, Britannia, Point Ideal, Portage, Deerhurst and other important calling ports on the "Lake of Bays" to Huntsville will be run on same schedule as for season 1910, during the months of July and August, and which will be a boon to week-enders desiring to return to the city for business on Mondays.

Farmers' Bank People.

"I think that enough money will be subscribed to fight out a test case," said William Laidlaw, K.C., to-day, representing Farmers' Bank shareholders in opposition to the double liability. One man has paid in his share, notwithstanding his heavy losses. He holds stock for which he paid $24,000, and on this amount has put up the three per cent. decided on at Milton.

Among yesterday's callers on Mr. Laidlaw, was a widow whose all had gone in the wreck.

"I can't pay the three per cent," she said.

She was told that her homestead would not be allowed to suffer on that account.

Died From Smallpox.

Ottawa, June 5.—The first death from smallpox since the disease developed here some months ago occurred at Porter Island Isolation Hospital this morning. The victim is a boy named Cosky, aged 6. A woman is also in a serious condition.

There are now 34 cases at the Island, three new ones since Saturday. The disease is somewhat more virulent than it was at first.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM BUNTON, LATE OF THE CITY OF PETERBOROUGH, IN THE PROVINCE OF ONTARIO, TICKET AGENT, DECEASED.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Sec. 38, that all persons having claims against the estate of the said William Bunton, who died on or about the 17th day of January, 1911, are required on or before the 10th day of June, 1911, to send by post, prepaid, or deliver to Dr. R. J. Hurlbgad, Federal Life Building, Hamilton, Ontario, administrator of the said estate, their Christian and surnames, addresses and descriptions, the full particulars of their claims and the nature of the security, if any, held by them, and

TAKE NOTICE, that after said last-mentioned day the said administrator will proceed to distribute the assets of the deceased among the persons entitled thereto, having regard only to the claims of which he shall then have notice, and the administrator will not be liable for any claims or for assets or any part thereof to any person of whose claim notice shall not have been received by him, and such persons shall be peremptorily excluded from the benefit of such distribution.

Dated at Toronto this eighth day of May, A. D., 1911.

A. P. POISSETTE,

Solicitor for the said Administrator.
402 Bank Chambers,
Toronto.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

HAVE YOU ATTENDED

Ogilvie's big flour demonstration now going on in your city? If not you are missing an educational treat in cookery. The ground floor of the T. A. S. Hall, Simcoe street, has been rented for this purpose. Demonstrations commence at 2.30 sharp. Afternoon tea served free to housewives until June 7th.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards Easy payments, 10 per cent cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

CHEERED AND SANG AFTER CONDEMNING NE TEMERE

ROME MARRIAGE LAW PROVOKES A REMARKABLE SCENE IN LONDON METHODIST CONFERENCE.

Will Resist It Determinedly—Church Union Approved by a Large Majority.

Stratford, June 6.—The London Conference rose to a man yesterday afternoon when a resolution, moved by Rev. Dr. Whiting, of London, and Mr. Ezra Hunt, condemning the Ne Temere decree, was put. Then the big gathering broke into "God Save the King" and applauded tumultuously. There was no mistaking the spirit of the conference as being a unit in favor of the strong resolution, it being insisted that "Roman" be placed before "Catholic," an omission in the original resolution.

The resolution was as follows:

"The Ne Temere decree of the Church of Rome is a matter of vital interest to the inhabitants of this Dominion. We accede the rights of any Church to make what ecclesiastical laws it deems prudent for the members of its own communion. We affirm our belief in the sacredness of marriage, and abhor the numerous pretexts for its dissolution. We agree that mixed marriages between Roman Catholics and Protestants are to be discouraged, as producing neglect of individual and family religion, but for this Dominion or any Province of this Dominion to confirm by Parliamentary statute the ecclesiastical enactment of the ne temere decree is a yoke as impossible to be borne by the citizens of this Dominion as any yoke from which liberty has obtained freedom in the course of human progress.

"We declare that the alleged right of the Roman Catholic Church above any other Church to determine who shall legally perform the right of marriage for any person has our utmost resistence, and that we will resist it with unalterable determination until one equal law for all prevails throughout this country.

"We would further add that the custom of Canada in appointing ministers of the Gospel to perform the marriage rite is altogether to be commended. This custom gives a religious sanction to marriage, and has a wholesome moral effect upon the nation, and we express our grave apprehension that the result of the ne temere decree will be to make marriage a purely civil contract, a result Roman Catholics and Protestants alike would deplore."

BIG MAJORITY FOR UNION.

The Conference voted in favor of Church union, after a lively discussion. Two hundred and thirty-four votes were polled, and the majority in favor was 148. The vote stood, Laymen (38 ballots), for union, 72; against 11. Ministerial votes (151 in all), for, 118; against, 33.

Mr. W. H. Kerr, of Brussels, saw a great advantage in union, in presenting an unbroken front of Protestant solidarity to Romanism.

SWEEPING FIRE AT CALUMET 22 FAMILIES ARE HOMELESS

Calumet, Que., June 6.—Twenty-two families, comprising one hundred men, women and children, are homeless as the result of a fierce early morning fire, which broke out here shortly after two o'clock this morning in the residence of Timothy Cayer, senior. Before it had burned itself out the fire had destroyed the seventeen houses in which the families lived, and caused damage estimated at $20,000.

Although the fire spread with extreme rapidity, in many cases consuming the furniture which had been taken from the dwellings and piled in the streets, no one was injured. There were many narrow escapes, however, the family of J. Desbrais, living next door to the Cayer house, where the fire started, having to jump from the windows to safety.

A strong south east wind was blowing when the flames were discovered by one of Cayer's children, and the family had to rush out of the house, leaving everything to the flames. Almost before they gave the alarm the house next door had caught fire and fanned by the breeze, the fire jumped with amazing rapidity from dwelling to dwelling, the inmates having only time to grasp a few of the necessities and run for safety.

Starting about 2.25 o'clock this morning, the fire had by five o'clock entirely wiped out the west end of the village. Calumet is a small lumbering village of about 750 inhabitants, and the fire is the worst blow that it has ever had. The people who are homeless are all hard working laborers in the mills of the Riordan Paper Company and on the Rouge Boom Company's works. The district destroyed was poorly residential, although one or two small stores were included in the path of the fire. The insurance on the property is slight.

Most of the dwellings were owned by their occupants.

Among the families who were rendered homeless are those of J. Champagne, E. Bellefeuille, F. Lefebvre, Ferdinand Sarazin, J. Pommerville, N. Aubin, J. Jay, Timothy Cayer, sr., Timothy Cayer, jr., Alphonse Cayer, J. Legault, X Millette, J. Desbrais, all dwellings; R. B. White, butcher shop, and F. Brunet, livery stable. Outbuildings in the rear of all the houses also fell to the flames.

The fire is believed to have started from an overheated stove, but is not definitely known.

The only means of fighting the fire was by a bucket brigade.

Had the wind not changed it is almost certain that the big mills of the Riordan Company would have been consumed.

U. S. SENATE WILL PASS TARIFF PACT BY 30 MAJ.

Washington, June 6.—Hopes of the Administration here that the Finance Committee would report the Canadian reciprocity bill unamended were dashed to-day when after a brief executive session of the Committee it was learned that the Root amendment to the paper and wood section probably would be adopted in modified form.

It was said that in addition to seven Republican members of the Committee Senators Bailey, Simmons and Johnson, Democrats, would vote for the amendment, while Senators Penrose and Cullom are declared to be with the three Democrats in opposition, thus ensuring the adoption of the amendment by a vote of ten to five. Final consideration of the measure will be begun by the Committee to-morrow.

The amendment offered by Senator Root provides that the paper and wood pulp section of the bill shall not be in force until the President "shall have the satisfactory evidence and shall make proclamation that such wood pulp, paper and board, being the products of the United States are admitted into all the Provinces of Canada free of duty." It is contended by its opponents that the amendment raising the question of the Dominion Government's jurisdiction over the Provinces will endanger the measure, a contention that is refuted by those who believe in the provision. The modification of the amendment may have an important bearing upon the situation.

VOTE IN JULY.

Secretary of State Knox was expected to appear before the committee to-day to explain the agreement between the two Governments, but was prevented, he sent word, by important engagements. The Secretary said he had forwarded to the committee a communication setting forth his views.

The committee endeavored to agree on a date for a vote on the measure. It was apparent that the members favored July 15, and a recommendation probably will be made to the Senate to this effect when the bill is reported.

The committee will meet again to-morrow, but it is not believed it will be able to take final action on the reciprocity bill at that time.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of every ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Mrs. Jones: "Dear, dear! Isn't that awful. It's bad enough to be drowned once."

13 MINISTERS THROWN OUT

One Clergyman Dead and Another is Dying—A Handkerchief Blamed.

Ross, Cal., June 6.—The flutter of a woman's handkerchief caused the horses drawing a new fire engine, on which thirteen preachers were riding to-day, to shy, throwing the engine against a tree and precipitating the clergymen to the pavement.

Rev. Cecil Marrack, rector of St. Stephen's Episcopal Church, San Francisco, died of his injuries. Rev. H. C. Carroll, of Ross, was perhaps fatally hurt. Four others were painfully bruised.

The preachers were the guests of Rev. Carroll, and it was the latter's wife who waved the handkerchief that frightened the horses.

In cases of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by all dealers.

ADVERTISE IN THE TIMES.

MAKE-BELIEVE TIME

Few writers know the age of childhood better than the authoress of "The Young Pretenders." Take, for example, the following passage-of-arms between Barbara and her governess:

"My dear child, are there not many things that you would like to know?"

"Oh, yes!" screamed the little girl, delightedly. "I would like to know what makes there come such a lot of colors in the water bottles, and why the crumbs jump up when we slaps the table, and—"

"Be quiet, Barbara!" said the governess, angrily.

"But you asked me!" exclaimed Babs, bewildered by the rebuke.

"You were saying your lesson, remember. The answer is 'Yes.'"

"'Yes, please,' I suppose?" interrupted the little girl.

Miss Grimston returned to the book.

"Pray, then, what is bread made of?"

"Dough and barm," replied Babs, promptly. "I've often seen cook make bread at Cloverdale. Teddy and I used each to have a piece to make little men with beads eyes what grew fat in the baking."

"Silence!" cried the governess in despair; "that is not the right answer."

"Isn't bread made of dought and barm in London? It always is in the country, I know."

"The answer is 'flour.' What were you thinking of, Barbara, when I read this lesson to you?"

Babs looked doubtful for a minute. "I was finking about what makes you have so many more bones in your hand than other people's," she said candidly.

"Be quiet, Barbara! How dare you be so rude?"

"Am I rude? I didnt know, but you is so funny," continued the little girl; "you keep asking questions, and when I answers them you say, 'Be quiet.'"

"You are a very naughty, pert little girl, and I shall put you in the corner."

"What's that?" asked Babs with interest. Hitherto she had been quite ignorant of nursery penalties.

"Go and stand in the corner with your face to the wall."

Babs cheerfully complied.

"What happens now?" she asked, a minute afterwards.

"You will remain there until you are good."

"I'se like a cow what's in a stall," laughed Babs. "Teddy, I'se pretendin' I'se dear Flossy. We've never played this game afore."

"Be silent, Barbara!" cried Miss Grimston, in the last stage of irritation. "It is not a game at all, it is a disgrace."

Babs then began to make a sort of gentle munching sound, and occasionally shook out the ends of her sash.

"That's Flossy's tail whisking," she murmured, quite content.

THOUGHTS FROM GEORGE MEREDITH

Women don't care uncommonly for the men who love them, though they like precious well to be loved.

After forty, men have married their habits, and wives are only an item in the list, and not the most important.

Intellectual differences do not cause wounds, except when very unintellectual sentiments are behind them.

Gossip must often have been likened to the winged insect bearing pollen to the flowers; it fertilizes many a vacuous reverie.

Drolleries, humors, reputed witticisms, are like odors of roast meats, past with the picking of the joint. Idea is the only vital breath.

Cynicism is intellectual dandyism without the coxcomb's feathers; and it seems to me that cynics are only happy in making the world as barren to others as they have made it for themselves.

The true word spoken has its chance of somewhere alighting and striking root. Look not to that. Seeds perish in nature; good men fail. Look to the truth in you, and deliver it, with no afterthought of hope.

HIS OPINION OF POLITICS

A politician who is a great walker was out enjoying his favorite recreation. After going a few miles he sat down to rest.

"Want a lift, mister?" asked a good-natured farmer, driving that way.

"Thank you," responded the politician, "I will avail myself of your kind offer."

The two rode on in silence for a while. Presently the farmer asked:—

"Professional man?"

"Yes," answered the politician, who was thinking of a Bill he had pending before the House.

After another long pause the farmer observed:—

"You ain't a lawyer, or you'd be talkin'; you ain't a doctor, 'cause you ain't got a bag; and you ain't a preacher from the looks of you. What is your profession?"

"I am a politician," was the reply.

The farmer gave a snort of disgust. "Politics ain't no profession; politics is a disease," said he.

THE SOPHISTICATED MAIDEN

A young man and a maiden were betrothed.

"Dearest one," said the young man, "I love thee. So great is my devotion that if another should but cast loving glances at thee a fearsome thing would happen."

"What might it be?" quoth the maiden.

"Even that I would kill him. Dost believe me?"

"Nay," quoth the maiden.

"Nay? But I protest to thee, I vow, I swear, that if another should make love to thee his life should pay forfeit. By yonder moon I swear! Dost believe me now?"

"Nay," quoth the maiden.

"Now, what meanest thou? Why believest thou not that I would kill the dastard villain?"

"Because," quoth the maiden, "thou wouldst not know aught about it."

NEW FISHING ROD

Some genius is said to have invented a fishing rod that registers the precise number and weight of the fishes caught. Most fishers, however, prefer to leave such details to imagination.

BASEBALL.

Games this week in Juvenile League:—

June 8—Tecumsehs at Lights, 6.30.

Magistrate—"Charged with electricity?"

Lawyer—"Yes, your honor; he had been drinking Jersey lightning."

NOTICE TO CONTRACTORS.

Tenders for Car Shops at Transcona, near Winnipeg, Man.

SEALED TENDERS, addressed to the undersigned, and marked on the envelope "Tender for Shops" will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa until 12 o'clock noon, of the 11th day of July, 1911, for the construction and erection complete, in accordance with the plans and specifications of the Commissioners, of shops east of Winnipeg.

Plans, details and specifications may be seen at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ont., and Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied by the Commissioners, which may be had on application to Mr. W. J. Press, Mechanical Engineer, Ottawa, Ont.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway for the sum of one hundred thousand dollars ($100,000).

The cheque deposited by the party whose tender is accepted will be deposited to the credit of the Receiver General of Canada as security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN, Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa June 2, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

DEPARTMENT OF RAILWAYS AND CANALS.

ONTARIO—ST. LAWRENCE CANALS.—RAPIDE PLAT CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Improving Lower Extreme to Lock No. 24," will be received at this office until 16 o'clock, on Friday, June 9th.

Plans, Specifications, and Form of Contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank, cheque for the sum of $9,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES, Secretary.

Department of Railways and Canals, Ottawa, May 19th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

JUDICIAL NOTICE

TO THE CREDITORS OF

Canadian Cordage and Manufacturing Co., Ltd.

Pursuant to the Winding-up order, made in the High Court of Justice in the matter of the Canadian Cordage and Manufacturing Company, Limited, and in the matter of the Winding-up Act bearing date the 7th day of December, A.D., 1910, the creditors of the above named the Canadian Cordage and Manufacturing Company, Limited, and all others who have claims against the said Company, formerly carrying on business in the City of Peterborough and elsewhere, are, on or before the 3rd day of July, A.D., 1911, to send by post, prepaid, to George Walford Hatton, Liquidator of the said Company, at his Office, 307½ George street, in the said City of Peterborough and Province of Ontario, their Christian and surnames, addresses and description, the full particulars of their claims, and the nature and amount of their securities, if any, held by them and the specified value of such securities, verified by oath, and in default thereof, they will be peremptorily excluded from the benefits of the said Act and of the said order.

The undersigned the Local Master of the High Court of Justice at Peterborough, will on the 6th day of July, 1911, at 11 o'clock in the forenoon, at His Chambers in the Courthouse at the said City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice. And let all parties then attend.

Dated at Peterborough this 22nd day of May, 1911.

E. C. S. HUYCKE, Local Master at Peterborough.

SYDNEY HEDD, Solicitor for Liquidator, Bank of Commerce Bldg., Peterboro.

TO THE PEACE RIVER

Trail Broken for the Present G. T. P Terminus

A wagon road, or trail, as it is called, has been broken by the Government 150 miles north-west from Edson, the present terminus of the Grand Trunk Pacific. At the end of the trail settlers who are going to pioneer in the Peace River country, take the steamers to Dunvegan, and travel down the Peace for 70 miles more, where, according to reports, is a rolling region of fertile land of 15,000 square miles, mostly prairie, and extends westward to British Columbia boundary.

The soil is black loam, with a blue clay subsoil. The rock formation is of limestone, and the land is said to produce splendid crops of wheat. The soil is described as being "warm," enabling crops to mature rapidly in the eighteen hours of sunshine they have on the Peace River. As one goes west in this territory the rainfall increases. This is due to be less to a close proximity to the mountains. Also, there are more running streams in the western reaches of these rolling prairie lands.

There is an abundance of coal throughout this district. There is also plenty of fish and game, deer moose, beaver and other big game is found in abundance. There are prairie chicken, ducks, geese, and swan, and other members fo the feathered family. The wheat and oats and all grain grown in this far north section are of the highest grade. The Grand Trunk Pacific has a line projecting from Edson to Dunvegan, but the pioneer won't wait, and he is already treking north by the trail, and he will have something to ship by the time the railroad reaches this new Eldorado.

Stopping places are being located along the new stage line between Edson and Dunvegan.

DR. J. G. EVANS
President of the Royal Canadian Society of St. David.

CITY OF CHARLOTTETOWN

An Attractive Spot is the Prince Edward Island Capital

The capital of Prince Edward Island and the pride of every Islander has an excellent situation on the north side of a very fine harbor, where the largest ship can ride safely at anchor. Charlottetown is a busy city with a population of about 12,500. Its wide, regular, concrete-paved streets are at right angles to each other. In the centre of the city is the "Square," and here the provincial building, post office, court house and new market building are situated, surrounded by the beautiful, well-kept public gardens. It is an up-to-date city and busy without that confusion that is so characteristic of other cities. A well-known tourist said: "Charlottetown for a business city has an air of tranquillity that is all its own; and although a delightfully pleasant place to spend your vacation, still you could not call it slow."

Of the buildings, St. Dunstan's Cathedral ranks first, and is easily the finest ecclesiastical edifice in the Maritime Provinces. The other churches are: St. Peter's and Paul's, St. James, Methodist and Zion.

Educationally Prince Edward Island has always ranked high, and it is well provided with schools. St. Dunstan's College, in the suburbs, is beautifully located. The fame of this splendid institution has gone so far that it needs but a few words here. The excellence of its classical and philosophical courses has made it one of the schools for higher education in Canada. The old Prince of Wales College, which had served several generations and outlived its usefulness, gave way some few years ago to a modern and spacious building, and since then a new wing has been added through the generosity of Sir William Macdonald. This is the provincial training-school for teachers, and has an excellent reputation. Besides these we have the Union Commercial and Charlottetown business colleges, two convents and three public schools, which deserve more than a passing word.

Besides being the shipping centre, Charlottetown is also the Island's railway centre, and it is increasing commercially all the time.—The Canadian Century.

The optimist gets up in the world. The pessimist gets down on it.

Cement Walk in Park.

Work on the cement walk in Victoria Park, from the Court House down to the water fountain is proceeding nicely. A gang of men are at work, and will finish the job in a few days. It will be a great improvement when completed, and will add greatly to the appearance of the park.

Now is the time to get rid of your rheumatism. You will find Chamberlain's Liniment wonderfully effective. One application will convince you of its merits. Try it. For sale by all dealers.

THE MARRYING AGE

When the Great Men of the World Got Married

What is the proper age at which to get married?

Looking back, one finds that the great men of the world have set no very definite precedent. Shakespeare was only eighteen when he entered the married state, while Ben Johnson waited until he attained his majority. The great musician, Mozart, was twenty-five; Dr. Johnson, Sir Walter Scott, Edmund Burke, and Dante left the important step until twenty-six.

Napoleon Bonaparte was twenty-seven, while his great adversary, the Duke of Wellington, was ten years older. Both Byron and George Washington chose twenty-seven as their fortunate year. Martin Luther had reached forty-two and John Wesley forty-seven before they joined the Benedicts.

But Thomas Parr, better known as Old Parr, who died at the reputed age of one hundred and fifty-two, must surely hold one record, for the last time he married his age was somewhere about one hundred and twenty years.

INCIDENT AT A FUNERAL

Both Roman Catholics and Presbyterians Claimed the Corpse

A peculiar incident happened at Charlottetown when, at the funeral of Mrs. McKinnon, two hearses, one sent by the Presbyterian Church and the other by the Roman Catholics, appeared to claim the remains, while two graves had been dug, one in the Protestant and the other in the Catholic cemetery, for the same woman. It was contended on the one hand that the woman had left money with the Presbyterian minister for her burial, while her relatives, who are Catholics, stated she had received rites of their Church. The funeral ceremony was conducted by the priest and burial took place in the Catholic cemetery.

DIAMONDS IN CANADA

Gems May be Found, but Mineralogist Not Hopeful

"It is quite possible, in fact, likely, that diamond-bearing rocks may be found around Porcupine."

The statement was made by Mr. R. A. A. Johnston, mineralogist of the geological survey at Ottawa.

"But whether diamonds could be extracted as to render the find commercially important is quite another matter," added Mr. Johnston.

Mr. Johnston has been working for the past few weeks on the samples of rock in which the first Canadian diamonds were discovered by Mr. Charles Camsell, of the survey in British Columbia.

"The discovery is of no commercial importance," he said. "I have found it impossible to separate the diamonds from chromite and other varieties of rock in which they appear in the specimens found, without necessarily breaking them up into small pieces.

JUDICIAL NOTICE

TO THE CREDITORS OF
THE CENTRAL MILLING CO.
OF PETERBOROUGH, LIMITED.

PURSUANT to the Winding-up Order made by the High Court of Justice in the matter of the Ontario Companies Act and Amendments thereto, and in the matter of the Central Milling Company of Peterborough, Limited, bearing date the fourth day of May, 1911.

The Creditors of the above named Company and all others who have claims against the said Company formerly carrying on business in the City of Peterborough, in the County of Peterborough, are on or before the 15th day of June, 1911, to send by post, prepaid to W. R. Morris, Liquidator, of the said Company, at his office, 375 Water Street, Peterborough, their Christian and Surnames, addresses and descriptions, the full particulars of their claims and the nature and amount of the securities (if any) held by them and the specified value of such securities verified by oath and in default thereof they will be excluded from the benefits of the said Act and Winding-up Order.

The undersigned Master at Peterborough, of the High Court of Justice will on the 16th day of June, 1911, at eleven o'clock, in the forenoon, at His Chambers in the Court House, in the City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice and let all parties then attend.

Dated this 16th day of May, 1911.

The lowest or any Tender not necessarily accepted.

Ryshm Motor Cycles.

Two tourists on a tandem motor cycle passed through Peterborough yesterday on their way west from Montreal. They were going to Buffalo and Rochester, and those form the south side of Lake Ontario to Montreal. Mr. Watson, one of the tourists, said that where the roads were good they were able to dash along at a 30-mile clip.

QUEEN CHARLOTTE

The Capital City of the Islands

THE LAST WEST

The only town on Graham Island that has a monthly pay roll, and the only sawmill shipping lumber to foreign ports.

The only town having a railway gazetted to its very doors on the island.

The only city on Graham Island having electric light, city water, miles of sidewalks, churches, school, hospital, postoffice, first-class drug store billiard hall, city hall, hotels, boarding house, barber shop and other general stores, and the only newspaper published on the Island, the Queen Charlotte News.

We are positively the centre of all the vast wealth of the entire Islands, including farm lands, timber lands, coal and metalliferous mines. These products must come out at Queen Charlotte City, through the Honna River Valley, and through which the Island Railway must run according to charters already granted.

The combined townsite interests cover one thousand acres, of which five hundred are practically level alluvial soil with no rocks.

A fine water power from the Honna River, good drainage and the best harbor on the entire Islands.

Our lots are all 50 feet by 120 feet, ranging in price from $150 to $300; one-third cash, balance on time at 6 per cent., or deeds can be had at once if desired.

Fully 200,000 acres of farm lands, suitable for mixed farming, only await the hand of man, a large portion of which is already located.

The verdure clad mountains are vast treasure vaults of gold, copper, silver and other precious metals, while our valleys are underlaid with a wealth of the finest coal and covered with a vast forest of spruce, hemlock and yellow cedar. These, coupled with our fisheries, are at the very doors and within sight of Queen Charlotte City.

Taking all these facts into consideration, and with the present progress being made in developing our resources, which are at the gateways of transportation both by water and railway, with the advent of the completion of the Grand Trunk Railroad, Queen Charlotte City is destined to be one of the province's most prosperous cities.

It is owned largely by the wealthiest and most honorable men of our province, who would not be a party in misrepresenting facts and are prepared to endorse every statement herein made.

The townsite company are now offering a further 75 lots on Second avenue at a very low price and on easy terms, if taken at once, and under conditions that will make you a 100 per cent. on your investment in 90 days, for 20 per cent. of the gross proceeds will be used by letting a contract for the clearing and grading of Second avenue from Third street west. The company guarantees to advance the remaining 75 unsold lots on Second avenue from $150 to $225 as soon as the first 75 have been sold. The company is making this effort in order to join with the government in making Second avenue the trunk road through the townsite from the Wilson-Robinson coal fields, Honna River Valley, Lawn Hill and Miller Creek districts. Now you can secure any unsold lot on Second avenue, including fourteen in Keith's addition, to-day for $150, except corners, on easy terms, 1-4 cash, balance 6, 12 and 18 months at 6 per cent. This will positively be your last chance [illegible] a deep lot in Queen Charlotte City, for every lot in the townsite will surely go from $500 to $1600 when the public realize that the Island River railroad from Queen Charlotte to the head of Massett Inlet is to be started this summer, in addition to the present work already outlined, thus giving work to an army of men. There are at least 5000 citizens of Vancouver who have invested in the various resources of the islands. Conclusive evidence of these facts, a landscape drawing of the townsite and a portion of Graham Island coupled with an illustrated edition of the resources of the islands can be seen at the office of J. J. Miller, 82 Hastings street, Vancouver, B. C., Agent for Vancouver, and plans at office of "Times", Peterboro'.

"GLENWOOD" STONY LAKE

DEPARTMENT OF RAILWAYS AED CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted cheque for the sum of $16,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 13th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of contract can be seen and form of tender obtained at this department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., H. J. Lamb Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

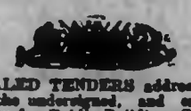
The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 9, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.



SEALED TENDERS addressed to the undersigned, and endorsed 'Tender for Public Building, Seaforth Ontario,' will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order.

R. C. DESROCHERS.
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

There is one medicine that every family should be provided with and especially during the summer months, viz., Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

Deputy Chief Grange of the Fire Department handed in his uniform on Saturday.

HUNDRED YEARS WITHOUT STRIFE

Prominent Canadians Speak of the Proposed Celebration of a Century of Peace

Several prominent Canadians were asked for their opinion regarding the approaching celebration of one hundred years of peace between Great Britain and the United States.

Mr. R. L. Borden

"What should be done to celebrate worthily the approaching Centennial of Peace?" asks Mr. R. L. Borden, M.P. 'Establish a permanent and effectual disarmament upon the great inland waterways of Canada and the United States. Extend the same principle of disarmament to all the borders between the two countries from the Atlantic to the Pacific. Establish upon firm foundations a permanent treaty

MR. R. L. BORDEN, M.P.

of arbitration between the Empire and the Republic. Proclaim the Centennial of Peace as a day of National Thanksgiving in both countries, and in every city, town and village let the bells ring out their tones of rejoicing and the voice of praise and thanksgiving be heard in all the churches; and in each country erect a stately national memorial consecrated to the splendid memory of one hundred years of peace and to the firm assurance of its enduring continuance."

Hon. F. L. Hazzard

"On noting the important events of the day," said Hon. F. L. Hazzard, Premier of Prince Edward Island, "one is struck by the announcement that very soon we will be called upon to commemorate the one hundredth anniversary of Peace between Canada and the United States. To the credit of these two great and growing countries it can be truthfully said that no better example could be set to the world at large than the fact that amidst the many vicissitudes through which they have passed, the utmost good feeling has prevailed. It is true that questions of moment have at various times existed, but resort to amicable methods has always been attended with satisfactory results. Are we not therefore justified in believing that the time has come when the nations of the earth should adopt like means and thus avert the terrible devastation of war with all its baneful results. If our advanced civilization stands for anything, first and foremost our aim should be directed towards the attainment of that much desired understanding between the nations by which all great national questions and disputes will be adjusted by a Peace tribunal. May we not therefore hope that the year 1911, with the munificent gift of ten million dollars in the cause of Peace, by the world's well-wisher, Andrew Carnegie, will see securely laid the Foundation Stone of Peace."

Hon. Walter Scott

"The more I think of the fact the more astounded I become that Christian civilization has failed to put an end to war between nations," said Hon. Walter Scott, Premier of Saskatchewan. "The present spectacle of Europe heaping taxes upon taxes and grinding the faces of scores of millions of the poor to maintain huge

HON. WALTER SCOTT

equipments of war is a lesson for the contemplation of the people of America. Because the proposed celebration of the century of Peace, which has subsisted with inestimable advantage to both Canada and the United States, may be a powerful means of instruction to all peoples against the stupendous folly of the "mailed fist" method of disposing of international disputes, I most heartily approve the idea of the celebration."

FINANCIAL TIMES ON CANADA

The Financial Times, London, England, says: "Canada, despite all that is said by the enthusiastic agents, is not, in the opinion of shrewd observers, really desirous of receiving British emigrants except those of the laboring classes, but is willing to absorb all the surplus capital this country is able to spare."

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all dealers.

A BAD OLD KING AND HIS DAUGHTERS

Once upon a time there was a king who had three very beautiful daughters.

Their names were Hekla, Thekla, and Samantha, and they all had the most beautiful heads of hair.

Hekla was very fair, with pale-blue eyes; Hekla's hair was like burnished gold. While Samantha's eyes were very deep, deep blue, like the summer sea, and her hair was a beautiful red.

But what is the use of being lovely if you are shut up all day in a thick-walled castle, with no one to look at you?

Once a week the King used to play a little game which pleased his wicked Majesty mightily. He fetched the Princesses, made them put on close white caps which covered up everything but their eyes, and then led them to a window for all the world to see.

Trumpets were blown, and a proclamation made that any Royal Prince who wanted to marry one of the beautiful Princesses was to look at them in the window and then come and see the old King.

Hundreds of young men—handsome and ugly, clever and dull, grave and gay—came from far and near, for the fame of the beautiful maidens had spread to all parts of the land.

When they saw the three pairs of eyes under the white caps they fell madly in love with Samantha, whose eyes were a deep, deep blue, like the summer sea, and then they hastened to see the old King.

"Are you quite sure you have made up your mind which Princess you want?" he asked.

And they always answered:

"Quite sure. The third on the right as she sat at the window."

Then the old King said:

"Very well; only before you have her, to make quite sure, you shall choose her again. And remember, my dears," he added, with a wicked grin, "if you choose wrong you shall never go back to your mothers."

So he led the aspiring Princes into another room, where the Princesses sat in a row with their backs turned, and only their wonderful hair to be seen. And it sometimes happened that the lovers pointed to Hekla and cried:

"Those deep blue eyes could only go with hair like a watery sunset."

Or sometimes they said:

"Blue eyes like the summer sea could only belong to the maiden with hair like burnished gold."

But no one thought that red-haired Samantha was the one he really wanted.

Then the old King would laugh a scornful laugh and press a little button, and the poor young Prince dropped down through a trap-door into the dungeon below, and never went back to his mother.

But one day there came a Prince to woo the beautiful maidens, and he had an artistic eye.

He looked at them in a row by the window in their little white caps, and he squinnied up his artistic eye, and he said to himself:

"She ought to have red hair, that maiden with eyes like the summer seas."

So he went to the bad old King, and braved the danger of the dungeon, and when he came into the presence of the long-haired maidens, he marched straight up to Samantha and cried:

"Only red hair like this could go with deep-blue eyes."

Samantha rose and turned to him, and he was so dazzled by her wondrous beauty that he could not speak.

The old King was very angry because his favorite game was taken from him, now that a Prince had chosen rightly. He stamped with his foot, and behold! the trap-door opened and in he fell, and was never seen any more.

Then Samantha and the Prince were married, and lived happily ever after, and red hair became the fashion in that part of the world.

A TOUCHING EPITAPH

A great rarity—an epitaph rich in true feeling—may be read on a headstone in Grealey Churchyard. Walking there alone one day the Dorset poet, William Barnes, was accosted by a little girl who pushed aside some encroaching blossoms, which hid the lettering, to show him a verse her father put above her mother's grave. "To tell," explained the little maid, "how much he loved her."

Mid God, dear Meary, gi'e me greace
To vind lik' thee, a better pleace,
Where I woonce mwore mid zee thy feace;
An' bring thy children up to know
His word, that they mid come an' show
Thy soul how much I lov'd thee.

"Mid" in Dorset stands for "may" or "might." It is the only word in the exquisite verse, that pierces by its simplicity to the very marrow of the soul, that is not as easily understood as ordinary English.

TOLD BY GRAVESTONES

During the course of a lesson at one of the schools in Ontario, the teacher, referring incidentally to the death of Tolstoi, asked the scholars what was usually inscribed on gravestones. He got various answers, such as "Persons' names," "When they were buried," etc.

"Yes," said the teacher; "anything else?"

There was silence for a moment, then a bright-faced boy shot up his hand.

"Please, sir," he said, "it tells whether the people are insured or not."

"Insured?" asked the teacher. "How do you make that out?"

"Please, sir," was the answer, "I saw on a gravestone, 'In sure (insure) and certain hope.'"

ELECTION AGENT'S JOB

Mr. W. T. Ketchen, W.S., who has been Mr. Asquith's election agent in East Fife, has been appointed Keeper of the General Register of Sasines, Edinburgh, with a salary of $5,000 a year.

BEAVER IN THE WEST

A strange animal has been attracting the wonder of residents along the banks of the Assiniboine river in the vicinity of Armstrong's Point. The district is thickly wooded, and some mystery surrounded the movements of the visitor. A young man decided to do his part in unraveling its peculiar features, and procured a gun, went out into the afternoon recently, and on sighting the animal burrowing in the snow, shot it in the head. On investigation he was surprised to find that he had killed a beaver.

ALMOST DIED OF MALIGNANT TONSILITUS

ALMOST DIED OF MALIGNANT TONSILITIS.

Another Case Proving That Catarrhozone Cures When All Else Fails.

The case of Mr. James H. Barton the well-known publishing agent, of Strafford, is most remarkable. For seven years he suffered from weak throat, treated with numerous physicians, used a score of remedies—but was not cured. Among the symptoms from which he suffered were:

Frontal Headache	Sore Chest
Influenza	Bronchitis
Nasal Catarrh	Hoarseness
Weak Throat	Creepy Cough

"For years I suffered from a chronic weakness of nose, throat and lungs. My chest was sore, my throat irritable, and I had a harsh, croupy cough that was always worse in the morning. During bad weather I was completely prostrated with Catarrh, bronchial irritation, and all the manifold discomforts of influenza.

"When I began using Catarrhozone a beneficial effect was noticeable at once. My breathing became free and easy, I slept better, my chest was eased, and the thick phlegm and coughing that made me so sick passed away. Once, when my son was threatened with malignant tonsilitis, Catarrhozone cured him in two days."

Catarrhozone is certain to cure because its healing vapor is carried with the breath direct to the seat of the chest, nose or throat trouble. Being composed of the purest balsams and pine essences, it immediately allays irritations, facilitates the ejection of mucous, soothes and stimulates the lungs and bronchial tubes.

To those in fear of changeable weather—those who easily catch cold—those who work among the lung-chilling surroundings, or where dust, impure air, fog, or damp can effect them—let them get Catarrhozone and use it several times daily. Large size, sufficient for two months' use, guaranteed, price $1.00; smaller sizes 25c and 50c. Beware of imitators and substitutors, and insist on getting "Catarrhozone" only. By mail from the Catarrhozone Company Kingston, Ont.

FOR STONEY LAKE

For the week commencing June 5th Steamer Stoney Lake will leave Lakefield on the arrival of the morning train from Peterborough, returning to connect with the 4.40 train for Peterborough on Monday, Tuesday, Wednesday and Thursday.

STONEY LAKE NAVIGATION CO.
F. G. Young, Manager.

Tenders For Clothing

Sealed tenders, addressed to Ald. Morgan, Chairman of the Fire, Water and Light Committee, and endorsed, "Tender for Clothing," will be received for Firemen's Uniforms, up to 4 o'clock p.m., on

June 20th, 1911,

at the office of the undersigned, where copies of the specifications may be obtained. The lowest or any tender not necessarily accepted.

S. R. ARMSTRONG,
City Clerk.

AUTO BUS DAILY TRIPS

TO CHEMONG.

The Rutherford-Grimes Auto Bus will make its regular trips to Chemong Park every day, leaving the McLaughlin Garage, Simcoe street, at nine a.m., returning at ten a.m.; making a second trip at two p.m., returning at three. Return fare 50 cents, children 25c. Car will leave Garage at 8 p.m. for Chemong, returning from Park at 9 p.m. on Saturdays only.

The Bus will call at the Snowden House, the National and the Oriental each trip.

The bus may be engaged by the hour or trip at low rates. Particulars as to rates at the garage.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Wanted.

General servant for small family. No children. Apply to Mrs. W. H. Robertson, 528 Water Street.

Cooler Weather Appreciated.

The cool weather is appreciated by the farmers after the heavy rain. The moisture in the ground is allowed to absorb without scalding the grain.

Schools to Open September 5th.

As September 1st falls on Friday this year, and as the Monday following is Labor Day, the Board of Education has decided to have the schools re-open on Tuesday, Sept. 5.

Peterborough Fall Fair.

Mr. R. H. Leary, President of the Peterborough Central Exhibition, and Mr. Roland Deane, a member of the Board of Directors, are busily engaged in soliciting subscriptions to the prize list. It is satisfactory to learn that they are meeting with unqualified success.

Sewing Meeting.

There will be a sewing meeting at the Children's Shelter this (Thursday) afternoon, when it is hoped there will be a large attendance, as this will be the last meeting until fall.

Acknowledgement.

The Women's Auxiliary of the Children's Aid Society desire to acknowledge with thanks, [illegible] from the following: Mrs. T. O. S. Rogers, Mrs. Gilbert, Mrs. James White, Mrs. Roberts, Miss J. B. Weatherston, Mrs. [illegible]

St. John's Church Clock.

The old clock which has an interesting history, has been taken from St. John's tower and it will be placed in the Museum at the Public Library, it having been decided some time ago to remove all the articles from the building at Inverlea Park to the Library.

No. 6 Company.

After the drill on Tuesday night No. 6 Company adjourned to Hooper's Palm Parlours, refreshments were served, and a social evening, in general was spent. Lieutenant Loch provided the event, and the thanks of the company are hereby tendered him, for the very enjoyable time that was spent.

Blacklister Gets 30 Days.

Wm. McMaster, a blacklister, appeared at the Police Court yesterday and was found guilty of violation of the Act. He pleaded ignorance of the law, regarding blacklisters. He could not pay the fine and His Worship sent him up to the hill for 30 days.

Dougherty Pleaded Guilty.

John Dougherty pleaded guilty at the Police Court yesterday on a charge of stealing $54 from Robert Brown. Judgment will be given this afternoon at 3 o'clock. Dougherty and Vernon Killingbeck were jointly charged with stealing the $54, but Killingbeck, who was represented by Mr. G. N. Gordon, would neither plead nor elect, so the evidence was taken in the case.

A Heavy Fine.

At the Police Court yesterday, a young man named Percy Gold was charged with purchasing liquor for a blacklister named Wm. McMaster. He was adjudged guilty and was fined $25 and costs by His Worship Magistrate Dumble. This should prove a salutory lesson to him and others not to monkey with the liquor licenses laws.

In Full Operation Again.

The Cement Works at Lakefield are in full operation again, after having been closed down for a considerable time. The freehold ratepayers will vote on a by-law fixing the assessment of the Company at $15,000 for ten years. There is practically no opposition to the by-law.

Presbyterian General Assembly.

The general assembly of the Presbyterian church convenes in Knox Church, Ottawa, this evening. The members from this Presbytery are Messrs. Keith and Pogue, Peterborough; Abraham, Port Hope, and McLeod, of Brighton, ministers; with Messrs. W. J. Finlay, Norwood, O. Fife, Hastings, A. Speer, Cobourg, and R. Lees, Peterborough, elders. The Peterborough representatives left for Ottawa yesterday, Rev. Mr. Pogue going on the Midnight.

No Street Cars on Sunday.

Last night The Times called up Mr. J. H. Munro, manager of the Peterborough Radial Railway, and asked him if the company proposed to operate their cars as requested by the city Council, on Decoration Day, Sunday, June 25th. Mr. Munro replied that he understood the law would not permit the company to do so, even if they were willing. Therefore there would be no cars on that day. He further said that the first intimation he had that the cars were expected to run was through The Times, and it naturally came as a surprise to him. He wished the public to understand that his company had nothing to do with the proposal.

Dropped Dead in Yard.

Mr. J. J. Butler, a well known expressman, dropped dead yesterday morning while harnessing his horse, to take the mail from the G.T.R. station to the Post Office. Mrs. Butler happened to be standing at the stable door when it happened. The deceased came originally from Norwood, where he was born 53 years ago. He had been a resident of Peterborough 32 years, and for a number of years was engaged in the express business. He leaves a wife and five children. The funeral will take place at nine o'clock to-morrow morning from the family residence, 137 Lake street, to Sacred Heart church, thence to St. Peter's cemetery.

MENTAL ACCURACY

Greatly Improved by Leaving Off Coffee.

The manager of an extensive creamery in Wis. states that while a regular coffee drinker, he found it injurious to his health and a hindrance to the performance of his business duties.

"It impaired my digestion, gave me a distressing sense of fullness in the region of the stomach, causing a most painful and disquieting palpitation of the heart, and what is worse, it muddled my mental faculties so as to seriously injure my business efficiency.

"I finally concluded that something would have to be done. I quit the use of coffee, short off, and began to drink Postum. The cook didn't make it right at first—she didn't boil it long enough, and I did not find it palatable and quit using it and went back to coffee and to the stomach trouble again.

"Then my wife took the matter in hand, and by following the directions on the box faithfully, she had me drinking Postum for several days before I knew it.

"When I happened to remark that I was feeling much better than I had for a long time, she told me that I had been drinking Postum, and that accounted for it. Now we have no coffee on our table.

"My digestion has been restored, and with this improvement has come relief from the oppressive sense of fullness and palpitation of the heart that used to bother me so. I note such a gain in mental strength and acuteness that I can attend to my office work with ease and pleasure, and without making the mistakes that were so annoying to me while I was using coffee.

"Postum is the greatest table drink of the times, in my humble estimation." Name given by Canadian Postum Co., Windsor, Ontario.

Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Rev. Father Casey, of Lindsay, was in the city yesterday.

Mr. Ernie Mein, of Hamilton, is in the city attending the wedding of his sister.

Mr. Geo. B. Hilliard was in the city yesterday on business, and gave The Times a call.

Miss Jean Harstone, Water street, will leave this morning on a two months' trip to England and the continent. She will be accompanied by Miss Harstone, of Winnipeg, and a party of friends. Her parents, Mr. and Mrs. Harstone will go as far as Montreal with her, from whence she will sail on the Virginian.

Lang—Mein.

The home of Mr. and Mrs. Robert Mein, 538 Harvey street, was the scene of a very interesting event yesterday afternoon, when their daughter Miss Jessie E., was united in marriage to Mr. William Harold Lang son of Mr. and Mrs. J. J. Lang.

The Rev. Mr. Pogue, of St. Paul's church performed the marriage ceremony, in the presence of a number of relatives and personal friends.

A dainty luncheon was served after which the happy couple left on the 4.20 train via C.P.R. for their home in Toronto.

To Learn Printing.

We require a bright young man to learn the printing trade. This is a rare chance for a good boy. Apply at Times business office.

LITTLE LOCAL LINES

A man named Walter C. Flint, pleaded guilty at the Police Court yesterday, of being a vagrant. He was allowed to go.

Troop No. 4 East City Boy Scouts, will parade at the market square this morning at 7.15. The assistant scoutmaster will be in command.

It is said that some of the census enumerators are having their own troubles just now. Some have utterly refused to answer questions, and may have to appear in court if persisted in.

There are a number of typhoid fever cases in Lindsay, caused by drinking impure well water. Peterborough residents, who use well water, should see that it is boiled.

On Friday last, eight head of three-year-old cattle were stolen from the ranch owned by Mr. Donald McEachren, of Eldon Station, and information as to their whereabouts will be gratefully received by Acting Chief Short, Lindsay.

A broken wire on one of the Otonabee Company's circuits put a number of residences in darkness on Tuesday night, including the Public Library.

PARENTS ATTENTION

The Annual Inspection of the Collegiate Institute Cadet Corps will take place on Friday afternoon next at 2 o'clock. The public are cordially invited to be present on that occasion.

JOHN CRANE,
Chairman, Board of Education.

REPORTS OF COMMITTEES.

Submitted to the Board of Education Tuesday Night.

The following business, taken up by the School Board Tuesday night, was crowded out of yesterday's issue:

PAYMENT OF ACCOUNTS.

Moved by Hayes, seconded by Ackerman, that the payment of the following accounts be confirmed:—

W. G. Johnston, refund of fees paid for his daughter at the Collegiate Institute	$17.50
W. J. Green, Collector, sewer tax Cedar Street house	.71
H. Edmondson, carting ashes	1.50
F. D. Pillsworth, account for work done at Collegiate Institute	1.70

Payment of foregoing was confirmed.

MONIES RECEIVED.

H. R. H. Keener, fees	$ 500.50
City Treasurer, Municipal Grant	6000.00
Rent Cedar Street House	5.00
Fees Departmental Exams.	107.00
Text Book fees	261.42
	$6882.92

REPORT OF FINANCE COMMITTEES.

Mr. B. F. Ackerman submitted the following:—

Gentlemen:—Your Finance Committee beg leave to report and recommend the payment of the following accounts:—

Bell Telephone Co.	$ .25
Best Stove Co.	3.50
J. E. Haggart	5.60
Adamson and Dobbin	4.80
Kinwan Hardware Co.	7.34
A. W. Archibald	4.97
R. Fair & Co.	14.54
R. Hicks & Co.	50.85
T. A. Redner	.75
Peterboro Water Commissioners	62.45
J. J. Turner & Sons	12.50
Adamson & Dobbin	6.15
Peterboro Hardware Co.	15.55
T. C. Elliott	1.55
S. A. Oke	.28
Topley Co.	28.35
R. Gibbs	2.50
Model Dairy Co.	2.00
Albert Britnell	6.50
P. Connal & Son	13.15
A. McDonald Estate	5.08
Higgins Hardware Co.	5.65
Peterboro Typewriter Co.	1.25

This report was adopted.

John Dillon Injured.

London, June 8.—John Dillon, the Nationalist leader, sustained serious injuries to his head and back to-day in an automobile accident near Castlebar, Ireland.

We Offer You An Unusual Opportunity to Join in a Safe, Sound and Sane Enterprise

The Directors of the FIRE VALLEY ORCHARDS, LIMITED, have decided to offer for public subscription a limited number of shares at the par value of $100.00 each.

We are the Registered owners of 2840 acres of land in the famous Fire Valley in the Kootney District of B. C.

The climate in this particular Valley is recognized by experts as the most perfect in Canada. The soil of the Valley is rich and fertile and adaptable to the production of almost anything. The transportation facilities are unsurpassed and any family with energy can live in perfect health, happiness and independence.

We bought this property at $19.00 per acre about one year ago. To-day it is considerably more and we are arranging to sub divide the property and retail it to the settler at an average price of $100 per acre.

There is no promotion or watered stock of any description and every share has equal voting power.

The Government have yet to record the first crop failure and an unlimited market awaits the products of the grower.

WE ONLY NEED A PROPORTIONATELY SMALL AMOUNT OF MONEY TO MEET OUR REQUIREMENTS AND WE OFFER THIS EXCEPTIONAL OPPORTUNITY TO COME IN ON A GROUND FLOOR PROPOSITION FOR A LIMITED TIME ONLY.

If you are interested fill out the cupon below and forward immediately.

TO THE FIRE VALLEY ORCHARDS, LIMITED,
532 Granville St., Vancouver, B. C.

Please forward me prospectus and particulars for an investment in the FIRE VALLEY ORCHARDS, LIMITED.

PUBLIC OPINION

Continued from Page 1.

ing in the good opinion of the people of the city.

On Friday night last I had the pleasure of enjoying the sweet music of the band. I was delighted with the performance, and enjoyed every number, as I know hundreds of others who were present also did.

To Mr. Gliddon, the people of the city owe a debt of gratitude, not only on account of the splendid musical organization, of which he is the popular leader, but for what he has done in connection with the Conservatory of music, which is also a credit to the city. Not only has he provided a first class musical college, but with remarkable enterprise he has provided a concert hall in connection that was badly needed.

I am sure, Mr. Editor, that I but voice the opinion of a vast majority of the citizens, when I say that every encouragement should be given Mr. Gliddon in the splendid work in which he is engaged.

An Ex-Bandsman.

THE WATER ALRIGHT.

Editor Morning Times.

Sir,—I do not think there is any danger of there being a shortage of water for power purposes during the summer months, as suggested by one of your correspondents. The magnificent reservoirs that have been provided by nature is a guarantee that there will be no danger in this particular.

Your correspondent speaks of taking out the stoplogs in the string of dams in order to float the saw logs down. He should know that in all the new dams there is a log slide, over which the logs are run, using a comparatively small amount of water.

F. E. D.

MR. EASTWOOD IS RIGHT.

Editor Morning Times.

Sir,—I was amazed on reading the report of the meeting of the Board of Education to find that Mr. R. Fair and others objected to publish the figures of the school tenders. Surely they are not afraid to disclose the whole business? Mr. Fair's defense is so lame that it is surprising that any member should have supported him. When men belonging to either the City Council or School Board try to keep from the public information that fairly belongs to them, it is time to become suspicious. This particular matter may be alright, but it has the earmarks of evil.

I commend Mr. Vincent Eastwood for the stand which he has taken, and I hope he will look well into the matter before letting it drop out of sight. To say the least, it is a bad precedent. What Mr. Fair says about the publication of the tenders having a tendency to keep others from tendering is utter nonsense. Are the unsuccessful ones afraid to submit their figures to public scrutiny? If their prices are so very much higher than the prices accepted, the public should know it. It would at least show the public who are deserving of patronage and who are not.

Public Opinion.

Lame shoulder is nearly always due to rheumatism of the muscles, and quickly yields to the free application of Chamberlain's Liniment. For sale by all dealers.

NOTICE

Notice is hereby given that a By-law was passed by the Council of the City of Peterborough, on the fifth day of June, A.D., 1911, providing for the issue of debentures to the amount of $10,000 to pay the proportion of the cost to be provided by the City towards the erecting of a building for The Peterborough Protestant Home, and that such By-law was registered in the registry office of the County of Peterborough, on the Seventh Day of June, A.D., 1911.

Any motion to quash or set aside the same or any part thereof, must be made within three months after the first publication of this notice and cannot be made thereafter.

Dated the 7th day of June, 1911.

S. R. ARMSTRONG,
Clerk.

WANTED

Janitor wanted for the Y.M.C.A. building. Applications accompanied by references must be sent to the office of the Y.M.C.A. not later than Saturday, June 10th, address all communications to—

J. J. TURNER, JR.,
President Y.M.C.A.
498 George Street.

SMITH COURT OF REVISION

Members of the Council of the Township of Smith, met as a Court of Revision on the Assessment Roll of the Township for the year 1911.

The Clerk reported four appeals, Mr. Alex. Elliott, Dr. Brown, Mr. Frank Ayotte and Mr. Welsh.

Moved by Mr. Garbutt, seconded by Mr. McKee that the assessment of Dr. Brown remain the same.—Carried

Moved by Mr. Davis, seconded by Mr. Jobe that Mr. Alex. Elliott's assessment remain the same.—Carried.

Moved by Mr. Garbutt, seconded by Mr. McKee that the assessment of Mr. Frank Ayotte be reduced $50.00. —Carried.

Moved by Mr. Jobe, seconded by Mr. McKee that the assessment of Mr. Welsh remain the same.—Carried.

Moved by Mr. Garbutt, seconded by Mr. McKee that the Assessment Roll for 1911, as amended, be passed by this Court and certified to by the clerk. — Carried.

Peterboro, May 29, 1911.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Breakwater at Bare Point, Port Arthur, Ont." will be received at this office until 4 p. m., Wednesday, July 5, 1911, for the construction of a Breakwater at Bare Point, Port Arthur, Electoral District of Thunder Bay and Rainy River, Ont.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department, and at the offices of E. B. Temple, Esq., District Engineer, Port Arthur, Ont.; J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto; H. J. Lamb, Esq., District Engineer, London, Ont.; and J. L. Michaud, Esq., District Engineer, Merchants' Bank Building, St. James St., Montreal, Que.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signatures, the nature of the occupation, and place of residence of each member of the firm must be given.

Tenders are asked for two metres of construction, and each contractor must send in with his tender an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the higher of the bids, which cheque will be forfeited if the contractor declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
H. C. DESBOCHERS,
Secretary.
Department of Public Works,
Ottawa, June 2, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

VOL XXXIV NO. 132 PETERBOROUGH, ONTARIO, FRIDAY JUNE 9 1911 PRICE TWO CENTS

BY VOTE OF 8 TO 6 VOTED DOWN RECIPROCITY PACT

MOTION TO ADOPT FAILED AND ANOTHER TO REPORT AGAINST IT LOST.

Senate Committee Then Sent Agreement on Without Recommendation—Root Amendment Carried.

Washington, June 9.—The Canadian reciprocity bill was acted upon today by the Senate Finance Committee and will be reported on Tuesday without recommendation. The Root amendment to the print paper and wood pulp provision was adopted by the Committee by a vote of eight to six.

An attempt to authorize an unfavorable report resulted in a tie vote and another tie marked the effort to report without recommendation before that result was accomplished.

The votes on the measure were a surprise to members of the Senate. It had been generally believed that the Finance Committee would shift responsibility to the Senate, leaving the real fight to be waged on the floor. At the last moment the opposition in the committee seemed to solidify.

The committee met in executive session to-day and immediately proceeded to vote on amendments. The first modification offered was by Senator Nelson of Minnesota, which would have reduced, instead of removing duties on live stock and farm products. This was defeated without a real call and the same fate was meted out to the house free list bill. The latter provision was formerly offered by Senator Bailey and received only his vote, and those of Mr. Simmons and Mr. Kerl. An amendment by Mr. Simmons to include flour and meats in the free list was also voted down.

The Root amendment requiring the admission of American wood pulp and paper into Canada free of duty, then was voted into the bill without discussion, the affirmative votes being cast by Senators Lodge, Smoot, Cullinger, Clark of Wyoming; Heyburn Lafollette, Baily and Simmons, and the negative, Messrs. Penrose, Cullom, McCumber (Republicans) and Stone, Kern and Williams (Democrats).

On a motion for a favorable report the vote stood at 6 to 8, and on the succeeding motion for an unfavorable report there was a tie of 7 to 7.

HUNDREDS WERE INJURED IN 'QUAKE AT MEXICO CITY

Mexico City, June 8.—While the city authorities are hurriedly repairing the damage caused by yesterday's earthquake shocks, buring the dead and caring for the wounded, the Government officials, by direction of Acting President De La Barra, are endeavoring to get into communication with the country south of the capital. It is feared that when details are received the magnitude of the disaster will be greatly increased.

Reports made to the police to-day place the number of dead in the city at seventy-five, of whom forty were soldiers. This list is expected to be increased when the search of the demolished buildings in the poorer quarter of the city is completed. Of the injured about 200 are in the main and the temporary hospitals. Many of these are children, who were abandoned by their terrified parents, following the shocks, and who were caught and crushed in the debris of their homes.

The Santa Maria quarter, which suffered the most severely, was surrounded to-day by a cordon of artillery. Peon laborers, impressed into service are razing all badly damaged structures and searching the ruins of those already fallen for dead or injured.

ASPHALT NOW IN RIDGES.

Other workmen are making temporary repairs to the National Palace, the Santo Domingo cathedral, and the other noted buildings and churches, which were damaged by the quake. The work of repairing the street pavements will be a stupendous task. The asphalt of the majority of the thoroughfares is buckled and swollen presenting ridges resembling a freshly ploughed field. All will have to be torn up and relaid.

The disaster has thrown great gloom over the reception to Madero among the poorer classes, who have regarded the successful revolutionist as an idol. They fear that is an omen of evil and every effort is being made by friends of the presidential candidate to subdue this belief.

HISTORY OF EARTHQUAKES.

Here are some earthquake records:
1755—60,000 killed in eight-minute quake at Lisbon, Portugal.
1812—Caracas destroyed, 12,000 perished.
1851—14,000 killed in Southern Italy.
1857—About 22,000 perished in South America.
1857—About 10,000 killed around Naples.
1863—10,000 lives lost at Manilla, Phillipine Islands.
1868—Fully 30,000 killed in Chile, Peru, and Ecuador.
1868—4,000 killed at Yuma, Cheupe
1902—32,500 killed in volcanic eruption and earthquake at Martinique.
1905—35,000 killed in Northern India.
1906—500 killed at Valparaiso.
1906—Nearly 1,000 killed at San Francisco in quake and subsequent fire.
1907—Kingston, Jamaica, destroyed, 1,500 killed.
1908—100,000 killed in Southern Italy.
1909, July 30—Hundreds killed in a quake that shook 1,000 square miles on Mexican Pacific coast, destroying many towns.
1910, May 5—Cartagovold, capital of Costa Rica, destroyed, with hundreds killed.
1911, June 7—Mexico City shaken, many buildings destroyed, nearly 100 killed.

PUBLIC OPINION

The Times does not hold itself responsible for the opinions of its correspondents.

THE INDUSTRIAL EXHIBITION.
Editor Morning Times.

Sir,—I see that Mr. R. H. Leary has asked the Council to provide $1,000 for the fall fair. I think, Mr. Editor, that before the City contributes a cent the County Council should lead off. A fall fair is surely of more consequence to the farmer than to the mechanic or merchant of Peterborough. The most of the prizes are provided by the merchants, who get nothing in return, and a further grant of money by the City would be altogether wrong. I there [illegible] it.

I [illegible] that the directors, [illegible] is phenomenal, have [illegible] to the Council that [illegible] grounds for exhibition [illegible], and they will erect the [illegible]. I presume what is meant [illegible], that the taxpayers will vote [illegible] thousand dollars for [illegible], when the directors will [illegible] to borrow funds for [illegible] buildings.

[illegible] the members of the [illegible] be caught in any

Merchant.

[illegible] TRESPASS.
Editor Morning Times.

[illegible] so much through the [illegible] the pulpit on "No [illegible]-like The Times to [illegible] exact meaning of the [illegible] doing so you will greatly [illegible]

[illegible] The Council [illegible] [illegible] Company, [illegible] Council [illegible] [illegible] if anyone should say the [illegible] had erred in constituting impediments to destroy matrimony he [illegible] anathema.—Ed. Times.

[illegible]ALEY FALLS POWER.
Editor Morning Times.

I would strongly urge the [illegible] to lose time in securing [illegible] at Healey's Falls, if it is [illegible]. The proposal to join [illegible] the Otonabee Power Co., [illegible] funds to develop their [illegible] not to be thought of.

The city desires no partnership deal, especially with power companies, who are sure to get the best of us.

It is said that interests are at work for the purpose of delaying action by the city until the balance of the power now available is absorbed, when it will be too late.

I think, Mr. Editor, the Healey Falls proposition is one that will appeal to the people more than any other, and will be sufficient to provide the city with street and domestic lights as well as a large amount of surplus power for industries. There is no time to lose, however.

Ratepayer.

Horse's Leg Swelled

Animal Was Too Sore and Lame to Work—Quickly Cured by Nerviline.

"I have had a long experience in treating horses, and I can safely say that I know of no liniment for strain that I know of no liniment for strains, sprains, and swelling that is so useful around the stable as Nerviline." Thus writes Mr. Joshua E. Murchison, from his home, Croft's Hill P. O. I had a fine young mare that wrenched her right fore leg, and from the shoulder down she was stiff, sore and swollen. I applied Nerviline and it worked like a charme; in fact, that mare was in shape to work a day after I used Nerviline.

NERVILINE IS A TRUSTY LINIMENT

"We have used Nerviline on our farm for twenty-five years and never found it wanting. For man or beast it is a wonderful liniment."

We have received nearly five thousand letters like the above from users of Nerviline and more are coming in every day. Nerviline is sold in 25c and 50c bottles at all dealers. One trial bottle will convince you. Try it yourself. Large 25c bottles of Nerviline, five for $1.00. All dealers, or The Catarrhozone Company, Kingston, Ont.

BASEBALL.

Games this week in Juvenile League:
June 9—Stewarts at Tecumsehs 4.30.
June 10—Leads at Midgets, 2.30.

THE WEATHER.
Partly fair and showery towards night.

THE PULPIT AND MARRIAGE

Anglicans, Baptists, Methodists and Congregationalists have taken strong ground in opposition to the marriage decree of the Roman Church. The General Assembly of the Presbyterian Church, now in session at Ottawa, will also follow suit. Thus there will be a united Protestantism in which no quarter will be given those opposed to the abolition of the decree.

NO SIGN OF SORROW SHOWN

Petities for Commutation Not Being Signed—Sees Priest Now—Shows No Sign of Sorrow.

Sault Ste Marie, Ont., June 8th.—Sentiment here is apparently at low ebb in the case of Mrs. Neapolitano, under sentence of death for killing her husband with an axe while he slept, for at the end of the week after a petition for the commutation of the sentence had been placed in the post office it did not contain a single signature outside of the members of the legal profession, who had been canvassed.

With the approach of the day of execution, the prisoner is beginning to lose some of her former indifference and now welcomes the priest whom she formerly refused to see. She wants her children, but makes no sign of contrition. To the questions of several women who had visited her she replies in monosyllables, though her first words are usually, "Are they going to kill me?"

It is likely that she will be removed to the hospital within the next month to give birth to her child.

STEPPED BEFORE TRAIN, 4 KILLED

Constable and Citizens Who Were Guarding Prisoners Were Instantly Killed.

Bluefield, W.V., June 8.—Four persons were killed and one fatally injured last night at Iaeger, while they were stepping out of the way of a passenger train, into the path of a fast freight.

The dead: James Payne, Iaeger; John Dyke-Ashworth, Iaeger; Ed. Jones, Jackson, Ohio; Martha Noel, Lexington.

The bodies were not discovered for several hours after the accident.

Payne was a constable, and had deputized Ashworth and Jones to assist him in guarding Charles Oedes, who was charged with murder, and Martha Noel, charged with misdemeanor. Oedes is probably fatally injured. They were on the way from a magistrate's office to the jail when the accident occurred.

Ashworth was a school teacher.

AN ODD ELOPEMENT CASE

Sherbrooke, Que., June 8.—An elopement case from Black Lake was heard before Judge Mulvena. One, Sime Roy charged Jos. Lapointe with eloping with his wife. The case was dismissed. The complainant is 18 years of age, the defendant 17, and the woman is 16 years. The latter has been married over three years.

Hon. Wm. Gibson, of Beamsville, has left for England.

A Liberal convention will be held at Stormont on June 14.

Alex. Duffin, of Rebecca, Ont., may die from a horse's kick.

CAN TEACH FRENCH AS LONG AS THEY LIKE

Montreal, June 8.—The claim made by Armande Lavergne at a recent Nationalist meeting, that the French-Canadians of the Western Provinces were unfairly treated in regard to educational privileges has evidently caused a storm in the West. La Presse last evening published letters from Archbishop Langevin and other prominent French-Canadians in the West protesting against the statement of Bourassa's lieutenant.

Mgr. Langevin says: "The school Commissioners are free to have French taught for as long or as short a period each day as they wish. In fact, we can say that this is in truth a French-speaking as well as an English-speaking country."

WANTED HIS ASSESSMENT RAISED

St. Catharines, June 8.—It is seldom a township council or any other council finds itself confronted with a request like that which the Stamford Township Council has received. Geo. R. Lundy, a farmer, appeared before the Stamford Council yesterday and asked that the assessment on his farm be raised from $45 an acre to $100 an acre. Though it surprised the Councilmen they granted the request with alacrity.

When that formality was completed Lundy sprung his surprise. "Now, gentlemen," he added, "I would like to ask you to raise proportionately the assessment of my neighbor, Allen Stevenson, and of the Bell Telephone."

This the Council flatly refused to do.

"Very well," retorted Lundy. "I'll take the matter to the county court."

What the object of this singular move is, is not apparent.

CHINESE GOVERNMENT MASSING TROOPS FOR AN ATTACK?

Victoria, B.C., June 8.—Siberian newspapers brought by the Kamakura Maru, which reached port from the Orient yesterday, state that trouble is likely to develop soon between Russia and China. The Novaya Jisn, published at Harbin, commenting on the existing state of affairs in Manchuria, says the Chinese Government is evidently at present organizing two armies, one south of Harbin and another gathered near the Chin-Gian Mountains on the road from Taitsihari to Blagovestcheak.

The movements of the Chinese troops are conducted under the pretense of putting down the "hung hutzes."

There is great apprehension among the Russian communities on the right bank of the Amur, and many Russian firms are closing up. There is also said to be much unrest along the Mongolian frontier.

CONFESSED TO KILLING FIFTY-SEVEN PEOPLE

St. Petersburg, June 8.—Startling revelations were made to-day by a criminal who murdered an officer of the army and the officer's wife at Sebastopol.

The man was arrested at Tsaritsyn and now says that he has in the course of his career killed fifty-seven persons including among his victims Dr. Popeff, a surgeon of Kazan.

The doctor's assistant and a midwife were accused of his death and being convicted are now serving terms of imprisonment.

CROP CONDITION BEST SINCE 1895

ACCORDING TO REPORT ISSUED TO-DAY BY SECRETARY OF GRAIN DEALERS' ASSOCIATION.

What Acreage Shows—Total Crop Estimate Is Put at 111,500,000 —The Figures for Various Crops.

Winnipeg, June 8.—Frank Fowler, secretary of the North-West Grain Dealers' Association, issued the following estimate of the acreage under crop in Manitoba, Saskatchewan and Alberta:

Wheat—9,768,800 acres, 15.3 per cent. increase.
Oats—4,564,760 acres, 4 per cent. increase.
Barley—1,121,230 acres, 12 per cent increase.
Flax—637,910 acres, 40 per cent. increase.

Situation of the 1910 crop to-day: Wheat inspected to date 75,250,000 bushels.
In transit, not inspected, 450,000 bushels.
In store at country points 5,500,000 bushels.
Marketed at Winnipeg, 150,000 bushels.
Total marketed to date, 81,350,000 bushels.
Last year, 91,895,500 bushels.
In farmers' hands to market, 4,150,000 bushels.
Allow for country mills, 6,000,000 bushels.
Used for seed and feed 20,000,000 bushels.
Total crop, 111,500,000 bushels.
Last years, 108,995,500 bushels.
Oats inspected to date 16,661,000 bushels.
Oats in farmers' hands to market, 3,215,000 bushels.
Oats in store at country points, 7,500,000 bushels.
Reports indicate these to be the best conditions for growing crops ever reported since 1895.

A GOOD CHRISTIAN THOUGH A MASON

Cost Montreal Newspaper Editor $100 to Find Out That This was Possible.

Montreal, June 8.—Mr. Justice Delorimier rendered judgment yesterday in the case of L. A. Caron against Mr. Joseph Begin, publisher of La Croix. The defendant is condemned to pay $50 as exemplary damages and $50 costs. The action was entered because La Croix had published the name of Mr. L. A. Caron as being a Mason, and in the other article that all Masons were worshippers of the Devil and the enemies of the Deity. Mr. Caron claimed that he was a good Christian, though a Mason, and his position was upheld by the court.

PATERSON AND FIELDING—"Whew! Wish We Had Something to Cool the Reciprocity Atmosphere for Us."—Advt.

RUTHENIAN ADMITS USE OF CONFESSIONAL IN CHURCH

BUT SAYS PRIEST SUPPORTED BY PRESBYTERIANS TOLD PEOPLE TO GO TO GOD FOR FORGIVENESS.

Assembly Hears Church Raises Cash, But Makes Few Converts—Majority for Church Union.

Ottawa, June 5.—An interesting figure at the Assembly is the representative of the Ruthenian Independent Church, Mr. John Bodrug. He is here to look after the interests of that Church, which receives financial assistance from the Presbyterian body.

"The statements that Roman Catholic priests make about us are untrue and unfair," he said this morning. "The French priests come to our services and our ritual is something like the ritual of the Roman Catholic church, the preaching is different; it is entirely Protestant. These priests do not understand our language and only judge from the ritual, and go away and say that we are using Roman Catholic rites to lead the people, unknowingly, away from the Roman Catholic Church.

"As a matter of the fact, there is nothing of the kind. We have yet no standard book of governing the service, and the ministers and elders have to prepare a service themselves. They usually choose very nearly the same ritual as the Russian Church. We do not claim for water what the Catholics do for holy water, although we have been accused of it.

DID HEAR CONFESSIONS.

"We have also been accused of hearing confessions in our churches, which is so different from the Presbyterian Church, from which we derive so much support. It is this way. Many of our people desired that we hear confession. We told them that we could not give them absolution, but if they wished we would pray them and pray for them. It was a matter between themselves and God. We did hear confessions, that they termed confession, but soon showed to our people that it was not a matter for us to interfere with, that they must obtain forgiveness direct with God. We have been able therefore to discontinue this altogether.

"However, all these accusations of employing Roman Catholic rites have been brought against us so that the Presbyterian Church would discredit us and refuse to give us financial assistance because we were not preaching the Protestant religion.

MONTREAL LEADS.

Applications of minister-evangelists to receive full status of ministers were received from: Presbytery of Kingston, Mr. H. G. Speers; North Bay, Mr. W. H. Alp; Winnipeg, Mr. J. E. Douglas; Regina, Mr. R. Mc[illegible] Hamley; Regina, Mr. [illegible] Hobbs; Moosomin, Mr. Eade; Brandon; Alameda, Mr. W. G. Spoon; Portage [illegible] Lord, Mr. R. Davey, [illegible]

TO OTT MINISTRY.

Applications for leave to retire from the ministry of the Presbyterian Church were received from:

Presbytery of Victoria—Rev. Neil Currie.
Truro—Rev. Edwin Smith.
Miramichi—Rev. J. M. Sutherland.
Quebec—Rev. D. Kellock and Rev. James Hastie.
Ottawa—Rev. Geo. Cromble.
Lanark and Renfrew—Rev. H. J. McDiarmid.
Kingston—Rev. Hugh McLean and Rev. Mark Dandy.
Toronto—Rev. W. A. Duncan and Rev. Nathanial Smith.
Barrie—Rev. J. R. Gilchrist.
Algoma—Rev. James Anderson.
Saugeen—Rev. Stephen Young and Rev. Robert Thynne.
Hamilton—Rev. Samuel Lyle.
Paris—Rev. John Thomson.
Winnipeg—Rev. Alex McFarlane.
Portage La Prairie—Rev. W. M. Fleming.
Alameda—Rev. Jas R. Coffin

SAYS HE WAS MURDERED BY ASSOCIATED CHARITIES

Winnipeg, June 8.—John E. Hetherington, an Englishman, collapsed in the police cells after three days' imprisonment awaiting trial on a charge of vagrancy preferred by the Associated Charities, and died yesterday.

Secretary Folk had the man arrested, claiming he would not work. Hetherington said he was sick. His wife, who had three children, pleaded for bail while her husband was awaiting trial, but was refused. She claimed he was ill, and had worked when he was able, and was kind to her.

In a statement to the papers the wife says her husband had been murdered by the Associated Charities. No doctor was called to the station when the man collapsed.

The coroner is investigating and the Sons of England have taken up the case.

C.P.R TO EXTEND PHONE SYSTEM

Dispatching on the Route Between Toronto and Smith's Falls, and to Muskoka.

Toronto, June 6.—So successful has been the system of telephone despatching, recently opened between Toronto and Windsor on the C.P.R., that further work has now begun on a further installation from Toronto to Smith's Falls, and over the Sudbury division as far as Muskoka.

The instruments, which are quite different from those used by the Bell Telephone Company, cost $66 a piece, and a complete despatcher's equipment costs $195. Two wires are necessary for each circuit, and these cost about $66 a mile. The old instruments will continue to be used for regular service work, and the full staff of operators will be retained.

SMITH TWP. COUNCIL

The Council of the Township of Smith, met in the County Council Chamber, Peterboro, on Monday, May 29th. All the members present with Reeve Graham in the chair.

Minutes of last meeting were read and confirmed.

Mr. John Johnston and Mr. Millage waited on the Council and asked that the road on the 10th concession be opened up so as to give better access to their lots. It was decided that the Council look over the road and estimate the cost.

Moved by Mr. Garbutt, seconded by Mr. McKee that By-Law No. 606 as approved by the Hon. Minister of Public Works, be read a third time, and passed.—Carried.

Moved by Mr. McKee, seconded by Mr. Garbutt that the sum of $900 be divided among the Councillors to be expended on roads. Each Councillor to receive $150.00, with the exception of Mr. Davis, who received $50.00 extra.—Carried.

Moved by Mr. Davis, seconded by Mr. Jobe that the following accounts be paid:—

Herbert Roeboro (4 days work on road)	$5.00
Jno. Northey, Jr., shovelling snow	7.00
Jos. Mann, work on road	7.50
Jos. Donaldson, work on road	5.25

The Council adjourned to meet again at the call of the Reeve.

Peterboro May 29th, 1911.

Angling Club Excursion.

The annual excursion of the C.G.E. Angling Club will take place on Saturday, June 10th, to Rice Lake. This trip is always one of the most enjoyable of the season. The popular excursion steamer Stoney Lake has been engaged for the occasion. This in itself is a guarantee that everything will be first class, as this is a boat that never disappoints.

Niagara-on-the-Lake voted a 25-year franchise to the Niagara Frontier Electric Railway.

Sir Wilfrid Laurier has been asked to open Michigan State Fair at Detroit in September.

Oxford County Council will to-day consider asking the Ontario Government to re-open the graft enquiry.

ROYAL
5c——10c
THE PEOPLE'S POPULAR FAVOURITES

EXTRA! EXTRA!

PERRY & EDWARDS
and their
MUSICAL COMEDY COMPANY
Present Their
HILARIOUS COMEDY.

"HOGAN'S ALLEY"

PRETTY GIRLS
BEAUTIFUL COSTUMES.
FUNNY COMEDIANS.

For the first time here Perry & Edwards will present their side splitting comedy "Hogan's Alley," Those who have not seen them in the "Isle of Gasook Gazoo" should see them in "Hogan's Alley" as it is better still and those who did not see the first comedy should not miss this one. For three days only.

MOTION PICTURES.

Another change of Motion Pictures for to-night's big picture show. All the latest and best pictures produced. Remember—The Royal is the coolest and most comfortable place of amusement in the city.

Admission—Afternoon and Evening 10c.

GOT MILLIONS FOR THINKING

Some of the Really Great Inventors Who Have Got Their Dues

The popular idea of the inventor is a half-starved, out-of-elbows sort of individual, whose brain teems with brilliant ideas, but who has not got sufficient business sense to make even a living out of them.

But times change, and so do inventors, and within the past few months we have seen two instances of men of humble birth becoming rich by the fruits of their clever brains.

The more recent case, and the one which has caused most interest in this country, is that of Mr. James Hodgkinson, who, in February last, received a cablegram announcing that his agent had disposed of the American rights of his new process for making salt for five million dollars. He will probably receive as much again for British rights; so here we have an inventor who, by dint of a brilliant idea carefully carried out, has obtained riches.

The Great Gates

The other great inventor of 1911 is George Gates, a Californian, who, like Mr. Hodgkinson, is no longer a young man. He fought in the American Civil War in the early 'sixties.

Years ago, seeing the vast waste of timber entailed by the cutting of millions of railway sleepers, and the very short time which these lasted, he set to work to devise a substitute. He found it in a form of concrete, a composition of substances which afford extraordinary resiliency and durability combined.

In January last he sold the patent rights to a great syndicate of eleven railway companies for the gigantic sum of three and a half millions sterling. He now has machines at work, each of which will turn out 2,500 of these sleepers per day. It is said that within a very few years wood will have become quite obsolete as a material for railway sleepers.

Speaking of inventions for producing salt at low cost, Mr. Hodgkinson had a predecessor, who made a very fair fortune out of a patent of this kind just two hundred and fifty years ago. His name was Edward Burt, and he was one of the Puritans who left this country and settled in America in the seventeenth century.

A patent was granted to him at Charlestown on May 27th, 1662, to make salt for ten years, and it is recorded that he made more than $3,000 a year—a very much larger income in those days than it is now.

Case upon case may be cited to prove that the inventor by no means always fails to get his deserts. Four years ago James Develin, a railway fireman, got an idea for making rotary engines reversible, and set to work to build a model.

One of those miserable thieves who are always trying to pick the brains of the inventor, got hold of him, and tried to drug him and steal his model. Feeling himself becoming sleepy, Develin had the presence of mind to smash his model to pieces and burn his plans before he became insensible.

Fortunes in Slot Machines

He carried the whole idea in his head for some months, then reconstructed a model, patented it, and presently sold it to a syndicate of steamship companies for a very comfortable little fortune indeed.

Penny-in-the-slot machines have made many a fortune. Mr. Mills, "the penny-in-the-slot king," said not long ago that three men, working together for an hour, evolved a fortune-telling machine. Fifty thousand were sold, and the profit was enormous.

The Howard patent for boiling sugar in vacuum was one of the finest ideas from a money-making point of view ever evolved. Howard's income from royalties, which were paid at the rate of one shilling a hundredweight run, it is said, into many thousands of pounds for years.

On April 11th, 1904, a new metal was patented in Paris. The inventors, two Italian engineers, had spent years of time and all the money they possessed—about $20,000—in perfecting their discovery. The two of them ate dry bread for dinner on the night they succeeded. A few weeks later they sold their rights to the Corbel Electric Company of Belgium for $1,200,000.

The metal is composed of copper, iron, and infinitesimal portions of silver and phosphorous. It is stronger than steel, a better conductor than copper, and costs only a tenth as much as bronze.

ANTS SCARE ELEPHANTS

Every Kind of Beast and Reptile Fears the Bull Ant

In the vast equatorial forests of Africa the most dreaded of animals is the great bull-ant. Unlike other ants, it carries nothing away; everything is eaten on the spot. Every kind of beast and reptile—elephants, lions, gorillas, snakes and man himself—flees before this terrible insect.

These ants march through the forests in a long thin column, two inches wide and miles in length. If they come to an open space where there are no trees to shelter them from the sun, they burrow underground and form tunnels, through which they march on. It often takes as long as twelve hours for one of these armies to pass.

Any creature overtaken is at once attacked with irresistible fury and instantly devoured. The strongest and weakest, the most fierce and the most timid of creatures, are alike their prey.

Natives overtaken by them seek refuge in the nearest pond or river. Yet, even when the ants themselves are drowned, their strong pincers refuse to relax their hold upon any flesh they may have attached themselves to, and, though their bodies are torn forcibly away, their heads remain.

To Camp June 11th.

The Peterborough Battery will go into camp on June 11th instead of 12th, as announced in a previous issue. The Battery will assemble at the Armouries on Sunday next at 1 o'clock, when they will take their departure for Petawawa, where the military camp is being held this year. Recruiting will take place to-morrow night, all units will assemble at the Armouries on Friday night, June 9th, at 7 o'clock, for final instructions.

ADVERTISE IN THE TIMES.

One visit advisable; if impossible, send history for free opinion and advice. Question blank and book on diseases of men free. Consultation free. Medicine furnished in tablet form. Hours: 10 a.m. to 1 p.m., and 2 to 6 p.m. Sundays, 10 a.m. to 1 p.m.

DRS. SOPER & WHITE
26 Toronto Street. Toronto, Ont.

KINGS WERE LIBELLED

Offenders Did Not Get Off Easily in the Long Ago

People who went out of their way to libel their Sovereign in days gone by did not usually get off so lightly as did the defendant in a recent notorious case.

For instance, Leigh Hunt, the famous essayist and poet, was sent to prison for two years—exactly twice the length of Mytton's term—for calling George IV. "a fat Adonis of fifty." And George was not even King at the time, only Regent.

Going back further still we find John Stubbs, a student of Lincoln's Inn, arrested for libelling Queen Elizabeth. He was sentenced to have his right hand cut off, and the barbarous punishment was inflicted in public in the market-place at Westminster by driving a cleaver through the wrist with a mallet. The moment Stubbs lost his right hand he waved his cap with his left, crying, "Long live the Queen."

Then there was that unhappy Walter Walker, grocer, at the sign of the Crown, who said he would make his son heir to the crown. When Edward IV. was told of this merry jest, he ordered Walker to be arrested and put to death for treason.

Almost as hard was the fate of the Buckinghamshire churl who, drinking one day in a village alehouse, spoke disrespectfully of Henry VIII. "King Hal," he hiccoughed, "is no true king. Would I had his crown here, that I might play football with it."

The libeller was hanged, drawn, and quartered, and pieces of his body were distributed as a warning amongst the market towns of the county.

OFF WITH HIS HEAD

Amusing Story Told of Louis of Bavaria

A service-paper relates an amusing story of King Louis of Bavaria. His Majesty was much annoyed one one occasion when the soldier on guard at the palace gates neglected to present arms. The truth was the soldier did not know His Majesty by sight.

"Why don't you present arms?" the latter asked, angrily. "Don't you know to whom you are indebted for your daily bread?"

The sentry glared angrily at the King, and, imagining him to be the Army baker, said:—

"So you are the miserable son of a baker who furnishes the soldiers with bread, are you? Well, I should like to have you by yourself in some quiet place. I'd spread your ungainly anatomy over three kingdoms! I'd make dough of you!"

NOTICE TO CONTRACTORS.
TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope 'Tender for Station Buildings,' will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.

Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.

Section 3.—From Mile 5 to Mile 166 east of Quebec bridge.

Section 4.—From the Quebec bridge westward to Mile 45.

Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.

Section 6.—At Cochrane in the Province of Ontario.

Section 7.—From the divisional

Section 8—From Moncton to Napadogan, in the Province of New Brunswick.

Section 9.—From Mile 125.5 to Mile 159 west of Moncton.

yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.

Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.

Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario.

Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa, this 12th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realizing handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK
429 Powder St., W., Vancouver, B.C. Phone 871

Calgary Lots

UNIVERSITY SUB-DIVISION

We are placing upon the market a sub-division of Calgary, known as UNIVERSITY, from the fact that it is located close by the University site.

I am anxious to interest you in Calgary property, because of the fact that I feel that we can satisfy you in the sub-division, and thereby retain you as a customer when desiring Western investments. We have opened an office in Toronto permanently, for the purpose of handling Western Canada property.

This sub-division is situated just outside the city limits. It is high, dry and level. In fact, we guarantee every lot to be that, or we will refund the money at any time, with interest at 8 per cent. from the date we receive it.

The situation of this sub-division is unique in many respects. First, it commands a beautiful view of the Bow Valley, overlooking the city; also an excellent view of the Rockies to the West. It is a residential Western Annex, and the city of Calgary is growing very rapidly in that direction. By way of illustration: Sunalta, a Western sub-division was put on the market two years ago at from $100 to $200 per lot. To-day you cannot buy one single lot in Sunalta for less than $800 per lot and the majority of it is bringing prices as high as $2,000. Again, this property will be served by a car line, running from the City, West, which the Company building it guarantees to commence building by June 1st.

The Shouldice Park line on the opposite side of the River, will be completed by August 15th, and in operation. This runs to within half a mile of our property. A bridge is now in course of construction, costing $70,000, being arranged for street car service. A subway is being built under the C. P. R. in order that a line may be run from the Shouldice Park line to the line to the University, thus making a Belt Line around, and passing through the property.

We have been selling this property at $125 and $150 per lot; $125 for inside and $150 for corner lots, and, among the purchasers have been several Calgary builders who have bought as high as from ten to twenty lots each. A Toronto commercial traveller, after seeing this property, bought twenty lots; another ten, and later taking a whole block, so that you will know that the property is considered valuable by those who have seen it.

I need say nothing further regarding this property, as I am satisfied that it is an excellent proposition—a good money maker—and, in six months' time, will doubtless have tripled its present value.

Possibly you are not acquainted with the City of Calgary. I might say that four years ago, the population of Calgary was $17,000. To-day it is over 60,000 and, in two years' time, it will be over 100,000, and only then in its infancy. Fortunes have been made there recently in but a short time.

The C. P. R. has now six lines running from Calgary. The Grand Trunk Pacific will be into Calgary in two months' time, as they are now within half a mile of the City with their grade, and they will be running nine branch lines from the city. The C. N. R. has its grade within five miles of Calgary, and will be running seven branch lines out. The C.P.R. is adding six more lines to what it already has. This will give you some idea of the railway facilities.

The C. P. R. is also building an hotel costing $2,500,000; the Hudson Bay Company is erecting a department store to be completed by October 1st, costing $2,000,000; the Pryce-Jones Co. already has a large store employing about one thousand hands, and there is talk besides of the Harrods' of London, and Eatons' of Toronto, extending their operations to Calgary.

The C. P. R. shops will be located there next year, and will employ from three to four thousand hands; besides many manufacturers are coming in because of the cheap power and the many advantages that the railway facilities are giving. Natural gas has been found in very great quantities at Bow Island, and will be piped into the city at a cost of $3,500,000; being sold to the consumer, for domestic purposes at a cost of 30c, and for power at 20c.

These few facts will give you some idea about Calgary. We are selling this sub-division on easy payments; $10.00 cash per lot, and $10.00 per month per lot, until paid for, with interest at 6 per cent., or we will allow a discount of 5 per cent. for cash.

We give Government deeds for this property, immediately it is paid for, and allow you to make your payments at your own bank, after your first cash payment is made.

We will be pleased to hear from you, if you are at all interested in this money maker, and would show you maps and blue prints, if you would call at this office or write us.

HARRY PHELAN,

AGENT FOR PETERBOROUGH DISTRICT, FOR B. & E. CO., CALGARY.

OFFICE—430 GEORGE STREET, OPPOSITE CANADIAN EXPRESS OFFICE.

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIANINVESTOR

SHOT BY THE KAISER

Emperor William Has a Long List of Victims Among Game

According to German papers, the German Emperor has since he first commenced to shoot killed by his own weapons 32,637 pheasants, 17,835 hares, 3,392 wild boars, 2,447 rabbits, 1,550 deer stags and 90 hinds, 1,700 fallow bucks and 98 does, 931 roebucks, 836 cormorants and herons, 439 foxes, 181 chamois, 108 capercailzie, 9 grouse, 87 ducks, 24 blackcock, 12 elk, 6 bison, 6 badgers, 4 woodcock, 3 bears, 3 wild turkeys, 3 reindeers, 2 guinea fowl, 2 snipe, 1 whale, 1 pike, 1 martin, and 516 various other birds and animals.

ALL THE DIFFERENCE

How an Old Gentleman Got Even With a Spiritualist

An old gentleman, apparently from the country, one day entered the room of a medium and expressed a desire for a "sperit communication." He was told to take a seat at the table and to write the names of his deceased relatives. The medium, like many others, incorrectly pronounced the term "deceased" the same as "diseased," sounding the s like z. The old gentleman carefully adjusted his "specs" and did what was required of him. A name and relationship having been selected from those written, the investigator was desired to examine and state if they referred to one party.

"I declare they do!" said he. "But I say, mister, what has them papers to do with a sperit communication?"

"You will see directly," replied the medium. Whereupon the latter spasmodically wrote a "communication," which read somewhat as follows:—

"My Dear Husband,—I am very glad to be able to address you through this channel. Keep on investigating, and you will soon be convinced of the fact of spirit intercourse. I am happy in my spirit home, patiently awaiting the time when you will join me here, etc. —Your loving wife, Betsy."

"Good gracious! But my old woman can't be dead," said the investigator, "for I left her at home!"

"Not dead!" exclaimed the medium. "Did I not tell you to write the names of 'deceased' relatives?"

"Diseased!" returned the old man; "she ain't anything else, for she's had the rumatiz orfully for six months!"

"WINNIE'S" PAPER TRIANGLES

Little Mannerisms of Winston Churchill While in the House

Great men, like humbler folk, have their little mannerisms, and Mr. Winston Churchill's, as one would expect, is distinctive and interesting. It is really a schoolboy trick. Mr. Churchill takes a single sheet of the House of Commons Order Paper, dampens the thumb and forefinger with his lips, rolls the paper tightly, commencing at the corner, and then bends it first in the centre and next some few inches from the ends, which he interfolds, and thus forms a perfect triangle. This he twirls on his finger, or sometimes on a pen or pencil, and then thrusts it beneath the Treasury Bench and commences the operation again. Sometimes he makes as many as a round half-dozen of these triangles at a time, with a rapidity of construction quite remarkable. A triangle is often made, twirled, and discarded in less than a minute.

SIR "SAM" EVANS

Sir Samuel Evans is a capital storyteller, and one of his most humorous yarns concerns a man accused of having stolen a pair of trousers. There were several witnesses, but the evidence was rather meagre, and so the accused was acquitted. He was told to go, but would remain. His lawyer, to whose successful defence he mainly owed his liberty, hinted to him again that he was free to depart, but still he stayed. There being no more cases to be heard, the court was getting empty, when the lawyer, growing impatient, asked, with some asperity why he didn't go. The injured, innocent man whispered in his ear, "The fact is, sir, I did not like to move till the witnesses had left the court. "Why so?" "Because, sir, I have on the trousers that I stole."

LOVE'S YOUNG DREAM

Roumanians Hold a Fair Once a Year For Marriage Purposes

"In the spring a young man's fancy—" you know the rest; and a study of the different ways young men and maidens take in other countries in this matter of courtship is interesting just now.

There is nothing particularly remarkable about the English way, though Englishmen in Canada may adopt different methods when their chance comes, and the choice of 5,000 is open to them. The Roumanian plan may come in useful then. Here they hold a fair once a year which all the marriageable girls attend. Each is accompanied by a wagon, which contains her dowry of furniture, etc. Then the girls are drawn up in line, and the men form another, with the parents behind them. If a young man admires any particular girl, he goes to her, while the parents of each also begin to discuss the matter.

Should all be found satisfactory, the marriage takes place at once, and the bride accompanies her husband home.

In Russia the marriageable maiden arrays herself in white, and with her parents goes to the winter gardens. The girl carries a silver spoon in her hand. When the parents observe a young man looking towards their daughter they hand the girl over to a matrimonial agent, who proceeds to make the necessary introduction and arrange the dowry.

STEEL OR WOOD?

Remarkable Imitations of Oak and Mahogany in Steel

"Very soon steel will be one of the chief rivals of wood in the manufacture of furniture," said the manager of a big furnishing establishment in London, England. "Already it is being used on a large scale for this purpose.

"As a matter of fact, it is possible to produce remarkable imitations of oak or mahogany in steel. And the advantages, of course, are many. Steel is fireproof, waterproof, dustproof, and cannot be attacked by vermin.

"In the manufacture of furniture very fine steel plates are used. They are smooth and extremely light, and are, of course, specially rolled for the purpose.

"Desks, shelves, tables, and chairs are among the articles made, and they have proved stronger and more durable than wooden pieces. This makes them particularly suitable for office use.

"As a matter of fact, we have already supplied various banks, insurance companies, and Colonial Government offices with desks and other furniture made of steel."

SASKATOON WATERMAINS

The Prairie Construction Company, of Saskatoon, have been awarded the contract for laying about four and one-half miles of water mains and sewer mains in the city of Saskatoon, at a cost of $53,977.

ADVERTISE IN THE TIMES.

WOMEN INVENTORS

A Few Patents Which Have Brought Wealth to Some of Them

A few have done so. One woman patented a contrivance for trimming the bottom of dress-skirts so they would hang evenly—a great boon to the home dressmaker. Another suggested to her husband, who was mechanically inclined, that the thermometer on the outside of an oven really told nothing about the heat inside; what the oven needed was a heat valve—some arrangement whereby an aperture in the oven would automatically open when there was too much heat, thus maintaining the correct temperature for baking bread.

He perfected the idea, patented it, and has profited largely through its sale.

Another woman, after many unsuccessful efforts to find a corset that would adjust itself to her corpulent figure, discovered the lack that had not been provided for by corset makers, and set about designing one to suit herself. She perfected her plan, found it a great comfort, patented the idea, and is to-day at the head of a large factory where these special corsets are made. An invalid husband had reduced her to sewing by the day for a living for both before she thought of her new corset.

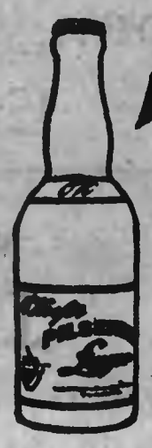
Another woman discovered through experiment a food mixture that made her hens lay; she gave it a name, patented it, and put it on the market with the greatest success. Another compounded a disinfectant that killed insect life in her chicken-house, and that also proved efficacious for use in hospitals and homes following infectious illness. This was patented, and is now sold in large quantities.

KNOWN IN EVERY HOME

Sir William Hartley of "Jam" Fame, a Great Giver

Sir William Hartley, the head of the famous jam firm, whose system of profit-sharing is proving so beneficial to his employes, started life at the age of thirteen by helping his mother in a small grocer's shop at Colne, Lancashire. In three years the business had prospered to such an extent that he urged his parents to take larger premises. At first they met their faces against this enterprise, but at last gave way, and in a surprisingly short time their son was employing a staff of about fifty men. Then he started manufacturing jam, and soon Hartley's jars became known in every home. A deeply religious man, Sir William was the first layman for forty years to be appointed President of the Primitive Methodist Connexion. He has given thousands of pounds to the funds of his denomination. A short time ago he said, "Giving away the Lord's money has been my chief hobby and recreation. I try to do it on the same systematic lines that I use in business; and, in fact, to distribute my money is a harder and more anxious task than making it."

A Reading youth who stole a bicycle offered it for sale to a stranger in the street. The stranger was a Reading detective!



O'Keefe's "Pilsener" Lager made its reputation on quality.

O'Keefe's PILSENER LAGER

"The Light Beer in the Light Bottle"

Library Voting Contest

TWO HANDSOME LIBRARIES OF 60 VOLUMES EACH WITH OAK SECTIONAL BOOK CASES WILL BE GIVEN AWAY IN A LIBRARY VOTING CONTEST.

Below will be found the names of some of the progressive merchants of Peterborough who make this most popular and liberal offer. One library of 60 volumes and handsome sectional bookcases will be given by votes to the lodge, church, society, school or other organization in the City of Peterborough, and one library of 60 volumes to the schools, lodge, society, church or organization in the County of Peterborough, outside of the City of Peterborough, having the largest number of votes in the following manner. The business men listed below will give with each

5 Cent Purchase 5 Votes

The contest begins Saturday, April 1st, and ends Saturday, Sept. 2nd, 1911, at 7 o'clock P. M. A ballot box has been placed in the E. L. Payne Drug Store, where the votes are to be deposited.

At the close of the contest the lodge, church, school, society, or organization, in the City of Peterborough, and the County of Peterborough, outside of Peterborough, having the largest number of votes will be awarded the libraries.

Current accounts when promptly paid will be entitled to votes.

REMEMBER votes can only be obtained by trading with the merchants listed below. A coupon will be printed in the Daily and Weekly Times, good for votes in this contest. Each week The Times will announce the standing of the contestants. The libraries and cases are on exhibition in C. B. Clegg & Co., furniture, show window. The following is a list of the merchants where votes can be secured:—

Style Store for Men
H. LeBRUN & CO.
High Class Ready to Wear Clothing and Men's Furnishings.

THE CLOSING DAYS.

A Toronto Daily last week contained a despatch from a neighboring city that .... aged 101 years had gone to the County Industrial Home, there to end his days, and he is said to have gone at his own request. But how the report startles us, that a man after fighting the battle of life for over one hundred years has to end his days in a poorhouse! The despatch further stated that the old gentleman had a son of seventy-five and two grandsons of over fifty, living in the same County. Naturally, the reader would think it strange that so sad a course could have been necessary. But if the inner history were known, it would probably be revealed that the son and grandsons are in almost as bad a plight as the old man, and that he preferred to go to the poorhouse rather than to add to their burdens. The case is a pathetic one, but it is not unique—you hear of such every day—and the whole story emphasizes how terrible is an old age of penury, and how important it is that we should regard youth "as the springtime which soon de-"parteth, and wherein we ought to "plant and sow all provision for a "long and happy life." If the old gentleman had been in receipt of a Canadian Government Annuity of only $200 his presence in the home of the son or grandson would have been a boon rather than a burden, and the cozy-corner would, no doubt, have been kept for him. He may have been a sober and industrious youth, but he had no system of investment which was absolutely safe, and which would yield him a bountiful return for the amounts which he might from time to time save; and so his money was spent or lost as fast as it was earned. But there is no such excuse for the boys or girls, men or women, of Canada to-day, for by the Canadian Government Annuities Act they are provided with a system by which their savings will be taken care of and invested by the Government, and under which they will receive a return larger than it would be possible to secure from any other safe investment, because when the Annuity begins each payment absorbs a portion of the purchase money as well as of the interest thereon, and if the Annuitant lives the average number of years he may be expected to live he will get back all that he had paid in with accumulated interest at 4 per cent. If he lives beyond this period, the Annuity will not cease but will be continued to him every three months so long as he may live. The plan is available at any Money Order Office in Canada. The Postmaster will give you a booklet which will explain the system, and if you wish for information as to the cost, all you need do is to write to the Superintendent of Annuities, Ottawa, postage free, giving him your age last birthday, and he will advise you by first mail what this will be. Remember that it is the only absolutely safe plan by which your old age may be made free from anxiety, and happy and comfortable, and that it is the only sure plan by which a wage-earner or person on small salary can provide for the rainy day.

THE QUESTION OF SPELLING.

The Canadian Gazette, a British publication, wonders "what friends of the English tongue pure and undefiled will say when they read their English papers of last week and find an American enormity thrust upon the British public through a Canadian medium. Every leading journal published in big type the prospectus of the Cockshutt 'Plow' Company, Ltd. Of course," adds the Gazette, "it is the spelling adopted by the converts, and no one else has any real ground of complaint; but when it comes so prominently before the British public as of Canadian origin, it does not help on that differentiation of Canada from the United States with the British investor and general public which is unquestionably in Canada's best interests."

The Gazette is apparently under the impression that "plow" is a modernized form of "plough." Quite the opposite is the case. 'Plow' is the old, and the better spelling. The English Bible apparently distinguishes the word by using "plow" as the verb, while the other form appears once as a noun. No such distinction is made by Shakespeare, and Chaucer used "plough" only as a variant form. Early English literature is full of "plows," and any dictionary will tell the Gazette that the word is no "American enormity." On the score of common sense, as well as of priority, it is much to be preferred. It is shorter, and simpler, and indicates the pronunciation. If "plow" is to be spelled "plough," why not write "cow" as "cough," and "now" as "nough."

BELATED SURGERY.

Lord Lansdowne's scheme for reforming the House of Lords has been called suicide. It would be more accurately described as belated surgery. It was the fault of the misfortune of the Lords that they failed to read the signs of the times. The election of 1906 gave evidence of a tremendous advance in democratic ideas. Suddenly in appearance—gradually in reality—the people arrived in the ancient Parliament and asked, "What are your institutions doing for us?" That was the time for the Lords to put their house in order, and show that they were as truly servants of the people as the King and the House of Commons.

Instead of that the Lords either blocked Liberal and Radical measures or temporized. They left the impression that whether they assented or dissented, they were simply serving the purposes of the Conservative party, or striving to preserve as much privilege as they safely could; resisting or sullenly yielding to the democratic advance. Their defenders tell us that the House of Lords contains men of wide Imperial experience and statesmanlike gifts. That is true; and with all their errors, there is a certain gravity and dignity in their proceedings, arousing sympathy and respect.

But they did nothing. They saw humanity, as Lloyd George eloquently said, cutting its way through the jungle to the light, and they neither wielded the axe nor held aloft my beacon of light. They presented themselves to the toiling, struggling suffering masses of the people as part of the jungle. If they ever committed suicide, it was by their rejection of the Lloyd George budget. Against this they were warned by their greatest member, the sage of the Empire, Lord Morley. Lord Morley said in private that the Lords were popular, and that the Lloyd George budget was popular. The Lords foolishly staked their own popularity on the result of the election. They were forced to accept the budget, but they had aroused a spirit which they could not quell.

If as a result of reform, within and without, the hereditary principle and the absolute veto disappear, the salvation of the Lords will be in their own sagacity, their own statesmanship, their own zeal for the public welfare. The most questionable part of the Lansdowne scheme is the proposal that a hundred members shall be nominated by the Crown, which would mean by the dominant party in the state. This would be well enough as a temporary measure to equalize the party representation. But as a permanent system, party nomination is not much better than birth as a test of fitness.

Cuban Grape Fruit Groves Pay Enormous Dividends

A SAFE AND SURE INVESTMENT

Ninety miles west of Havana lie the beautiful Manhattan Estates in the heart of Cuba's most profitable and bountiful section. We intend, with your co-operation, to develop 502 acres of this wonderful sandy soil into a prosperous and self-sustaining institution of rich agricultural products.

It requires a large amount of money to go into this business properly, and it takes considerable time for the grape-fruit trees to mature.

When they are three years old they will each bear on an average one box, which is worth not less than one dollar on the tree. The fourth year we average three boxes per tree, which means $4.00, and this continues until the seventh year, when the average from a tree amounts to between seven and twenty crates; retailing in the Canadian and American markets as high as $10 a crate.

But bear in mind that these trees in full bearing will not have cost more than five dollars each, consequently once maturity is arrived at the profits are continuous and tremendous.

As we intend planting over 40,000 grape-fruit trees, you can readily see that 100 per cent. annually is a conservative estimate.

We Pay Our Way As We Go.

During the past year I have placed many dollars' worth of stock, mostly amongst my relatives, personal friends and business acquaintances. I HAVE TOLD THEM WHAT I HERE REPEAT TO YOU, that I am giving the affairs of this company, and will continue to give them, as careful attention as if I owned the whole company, and I AGREE NOT TO RECEIVE ONE CENT OF SALARY for my services until after I have made the company pay you DIVIDENDS OF TWENTY-FIVE PER CENT. ON EVERY DOLLAR YOU INVEST WITH ME IN THIS ENTERPRISE.

When you and I receive twenty-five per cent. on our investments, I will not need a salary, and right here I want to state that we have agreed that NO SALARY SHALL BE PAID TO ANY OFFICER until at least twenty-five per cent. dividends have been earned and paid to all our stockholders.

Further—we have no bond interest to meet; we do not even have to pay any taxes until we have an income. EVERY DOLLAR RECEIVED WILL BE USED FOR THE DEVELOPMENT OF THE COMPANY'S PROPERTY.

Commercial grape-fruit orchards are wonderful wealth-producers.

I want to draw a check to your order for 100 PER CENT. DIVIDENDS EVERY YEAR, and I not only want to do it, but expect to do it.

I have thoroughly investigated the possibilities for profit in growing grape-fruit on a large scale, and have seen the actual results accomplished.

YOUR MONEY SHOULD WORK FOR YOU AS HARD AS YOU WORK FOR IT, and I am desirous for this reason that you know the grape-fruit industry as I know it, and I want you to send for our booklet de luxe, fully illustrating and describing this wonderful and prosperous industry.

(Signed) S. J. MURPHY.

STATUTORY INFORMATION

(Filed with the Provincial Secretary of Ontario)

Authorized Capital $200,000 **Shares $100.00 Each**

1. The incorporators and at this date directors are E. V. O'Sullivan, John M. Ferguson, and James E. Day (Barristers), James A. McNevin (Law Student), and Mary Donovan, Eileen Jamieson, and Amy I. Naftel (Stenographers), all of 34 Victoria street, Toronto. Any shareholder not in arrears is qualified to be a director. The by-laws provide no remuneration for acting as director except fees and traveling expenses for attending meetings. Directors may be paid for special services.

2. Each incorporator subscribed for one share, 7 in all, and by by-law of the Company 993 shares are to be issued to Sterndale J. Murphy, of Toronto, who is the vendor to the Company, under an agreement between him and it dated 4th January, 1910, for the sale of certain Cuban lands, the consideration being 993 paid-up shares, $700 cash, and the assumption of a debt of $9,000.00 on the land, payable in installments (until Nov. 15, 1912) to the Cuban Commercial Company of Havana, under contract between it and Mr. Murphy, dated 3rd December, 1909. Copies of these contracts may be inspected on any business day at the office of the Company's Solicitors, Day, Ferguson and O'Sullivan, Toronto. The preliminary expenses are incorporation and legal fees and printing, and are estimated at under $1,000. No commission has as yet been authorized on sale of stock, but the directors may authorize payment of a commission not exceeding 25 per cent.

3. To make the contract binding it has been decided to go to allotment on receipt of application for one share. Shares are offered for sale on the terms that 25 per cent. be paid on allotment, 25 per cent. three months thereafter, and balance on call of the directors, calls not to be more than 25 per cent. of the subscription, and at least three months to elapse between calls.

Twenty of these coupons cut from The Times and presented at The Times Book Store with 75c in cash, will secure one of these splendid 14 kt. Solid Gold Rimmed Fountain Pens.

Name .....

Address .....

For Automobilists to Remember.

It ought to be an unvarying rule that every operator of an automobile should, as he approaches a street car that he sees has stopped, slow down to the minimum, or stop altogether. It should be perfectly evident to everyone but a speed maniac or a natural fool that people are to get on or off, and that they must have that portion of the roadway to which they are entitled. A careful driver will give pedestrians this consideration always. Unhappily, the percentage of motorists who will tear past an electric car that has stopped to take on or discharge passengers is still larger than it ought to be. Toward them should be directed a process of education by the police and the courts.

Three Persons Killed.

Harrisburg, Pa., June 2.—Three persons were killed and one fatally hurt last night when an automobile driven by C. A. Sefton, a prominent carriage manufacturer, got beyond control and dashed off the Walberry street viaduct, hurling its occupants fifty feet below on piles of building material stored beneath the bridge. The dead are Mr. Sefton, Wm. B. Harner, of Harner & Chamberlain, leather merchants, and Mrs. Jerome W. Dunlop, wife of the manager of a local firm. Miss Launa M. Nettleton, of New Bloomfield, was seriously injured, and died later in the hospital.

New Train Service to "Lake of Bays."

An important feature that will be inaugurated during the coming season will be a new train service to the "Lake of Bays" district. A standard Grand Trunk passenger train will leave Toronto with through coaches, parlor cars and dining cars at 10.15 o'clock in the morning, daily except Sunday, for Huntsville, reaching the latter point at about three o'clock in the afternoon, connecting with the steamers for points in the "Lake of Bays" district, and affording passengers the opportunity of reaching their destination in time for dinner.

The Sunday evening boat service from the WaWa Hotel, Britannia, Point Ideal, Portage, Deerhurst and other important calling ports on the "Lake of Bays" to Huntsville will be run on same schedule as for season 1910, during the months of July and August, and which will be a boon to week-enders desiring to return to the city for business on Mondays.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM BUNTON, LATE OF THE CITY OF PETERBOROUGH, IN THE PROVINCE OF ONTARIO, TICKET AGENT, DECEASED.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Sec. 38, that all persons having claims against the estate of the said William Bunton, who died on or about the 17th day of January, 1911, are required on or before the 15th day of June, 1911, to send by post, prepaid, or deliver to Mr. H. J. Eastwood, Federal Life Building, Hamilton, Ontario, Administrator of the said estate, duly Certified and particulars, and statement of their accounts, and the full particulars of their claims, and the nature of the security, if any, held by them, and

TAKE NOTICE that after said last mentioned day the said Administrator will proceed to distribute the assets of the deceased among the persons entitled thereto, having regard only to the claims of which he shall then have notice, and the said Administrator will not be liable for any claims or the assets or any part thereof to any person of whose claim notice shall not have been received by him, and such persons shall be proceeded by excluded from the benefit of such distribution.

Dated at Toronto this eighth day of May, A. D. 1911.

A. P. POUSSETTE,

Solicitor for the said Administrator, 26 Bedford Avenue, Toronto.

Eggs Found in Cellar.

Mr. Thomas Hall, of Lot 10, Con. 2, Asphodel, has found a novel way of keeping eggs. He has a cellar under the floor of his house, and in the cellar he has a number of eggs. Mr. Hall has been in the habit of going down into the cellar for potatoes, and in doing so has found a number of eggs. He has been in the habit of finding eggs in the cellar for the past two years, and has found as many as a dozen at a time. Mr. Hall has not been able to find out how the eggs got there, but he thinks that the hens must have laid them there.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards Easy payments, 10 per cent cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

J. T. O'CONNELL & CO.

SPECIAL AGENTS

136 Hunter St Phone 367 Peterborough

We Offer You An Unusual Opportunity to Join in a Safe, Sound and Sane Enterprise

The Directors of the FIRE VALLEY ORCHARDS, LIMITED, have decided to offer for public subscription a limited number of shares at the par value of $100.00 each.

We are the Registered owners of 2840 acres of land in the famous Fire Valley in the Kootney District of B. C.

The climate in this particular Valley is recognized by experts as the most perfect in Canada. The soil of the valley is rich and fertile and adaptable to the production of almost anything. The transportation facilities are unsurpassed and any family with energy can live in perfect health, happiness and independence.

We bought this property at $19.00 per acre about one year ago. Today it is considerably more and we are arranging to subdivide the property and retail it to the settler at an average price of $100 per acre.

There is no promotion or watered stock of any descript.on and every share has equal voting power.

The Government have yet to record the first crop failure and an unlimited market awaits the products of the grower.

WE ONLY NEED A PROPORTIONATELY SMALL AMOUNT OF MONEY TO MEET OUR REQUIREMENTS AND WE OFFER THIS EXCEPTIONAL OPPORTUNITY TO COME IN ON A GROUND FLOOR PROPOSITION FOR A LIMITED TIME ONLY.

If you are interested fill out the cupon below and forward immedia'ely.

TO THE FIRE VALLEY ORCHARDS, LIMITED,
532 Granville St., Vancouver, B. C.

Please forward me prospectus and particulars for an investment in the FIRE VALLEY ORCHARDS, LIMITED.

AND CANALS.

ONTARIO—ST. LAWRENCE CANALS.—RAPIDE PLAT CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Improving Lower Entrance to Lock No. 24," will be received at this office until 16 o'clock, on Friday, June 9th.

Plans, Specifications, and Form of Contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $5,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,

L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 19th, 1911.

ILL-FATED MAINE SOON TO GIVE UP ITS SECRET

Havana, June 7.—The first stage of the actual work of uncovering the wreck of the battleship Maine was completed late yesterday afternoon, when pumping operations ceased after the water level within the great cofferdam built around the wreck had been lowered precisely five feet.

This leaves the portion of the wreck visible above the water practically the same as on the night of the disaster before the hull had time to become imbedded in the mud at the bottom of the harbor. There is now visible a long stretch of the starboard side of the quarter deck, which is slightly raised owing to a list to port of the after two-thirds of the ship. The sighting hood and a portion of the roof of the ten inch after turret on the port side are above the water.

COVERED WITH SEA GROWTH.

All the newly exposed portions of the wreck are covered with barnacles and a rank marine vegetable growth, the removal of which is necessary for sanitary reasons before decomposition sets in.

When the pumping ceased the cofferdam showed the least sign of seepage or leakage, apparently being absolutely waterproof and of the most superb stability. This is all the more obvious because one caisson, which collapsed three weeks ago, was only supplied two days ago and is partially filled with clay and mud.

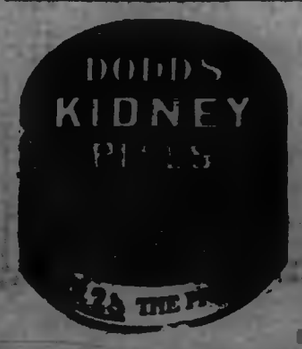
REFILLING THE CAISSON.

The pumping [illegible] until July 15th. Then the water level will be reduced five feet more. In the meantime the work of refilling the repaired caisson will be continued and a platform will be erected to allow the removal of mud and detached portions of the wreck.

GAME ENDED IN A ROW.

One Man Fatally Stabbed—Nine Participants Arrested.

Newark, N.J., June 6.—A baseball game yesterday between semi-professional players developed into a fatal row over a close nine innings finish, in which John Cronan, 26 years old, of Belleville, was the victim. He was stabbed in the throat and his wind pipe severed. He died in an ambulance which was taking him to the hospital. Nine of the alleged participants in the row were arrested.



NOTICE TO CONTRACTORS.

Tenders for Car Shops at Transcona, near Winnipeg, Man.

SEALED TENDERS, addressed to the undersigned, and marked on the envelope "Tender for Shops" will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa until 12 o'clock noon, of the 11th day of July, 1911, for the construction and erection complete, in accordance with the plans and specifications of the Commissioners, of shops east of Winnipeg.

Plans, details and specifications may be seen at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ont., and Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied by the Commissioners, which may be had on application to Mr. W. J. Press, Mechanical Engineer, Ottawa, Ont.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway for the sum of one hundred thousand dollars ($100,000).

The cheque deposited by the party whose tender is accepted will be deposited to the credit of the Receiver General of Canada as security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.
Dated at Ottawa June 2, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

LATEST FROM KEENE

Mrs. A. D. Anderson has returned home after spending a few days in Norwood.

Mr. Wm. Campbell spent Friday and Saturday in Toronto.

Mrs. V. H. McWilliams returned home Thursday from Toronto, where she visited her father for a couple of weeks.

Mr. Norton of Toronto, spent Friday in the village, as representative for the house of Hobberlin, clothiers of Toronto.

Rev. Mr. Brown of Campbellford, visited Keene Thursday and took charge of the preparatory service in the Presbyterian Church.

Mrs. M. Kemsley and Mrs. McCann, spent a couple of days last week in Stirling.

Miss Kathleen Powell was the guest of Miss Stella Shearer last week.

Mrs. Foley of Lindsay, has moved into the village and is occupying the house formerly occupied by J. R. McIntyre.

Mr. Patterson paid Toronto a flying visit Sunday evening.

Miss Pearl McCann left on Monday for Ottawa where she will spend the week.

Miss Gertie Warner was the guest of her sister Mrs. Jas. Dickson last week.

Mr. J. C. Read is spending the week in Montreal.

Mr. Wallace Wood spent Saturday and Sunday in the village.

Mr. James and Miss K. Sharp of Westwood, visited at the home of Mr. Jas. McNeil, on Thursday.

Miss Irene Thompson of Mount Julian was the guest of Miss Jane Lang on Saturday last.

Rev. W. Johnston returned Tuesday morning after spending a week in Port Hope attending the Conference.

Quite a number of our citizens are thinking of taking in the Farmer's Institute annual excursion to Ottawa on the 8th.

Mr. George Furlish of Ottawa, is visiting his grand mother Mrs. J. Drummond.

Mrs. McCartney and Miss Kathleen spent Saturday and Sunday in the village the guests of Mrs. R. Skinner.

JUDICIAL NOTICE

TO THE CREDITORS OF

Canadian Cordage and Manufacturing Co., Ltd.

Pursuant to the Winding-up order, made in the High Court of Justice in the matter of the Canadian Cordage and Manufacturing Company, Limited, and in the matter of the Winding-up Act bearing date the 7th day of December, A.D., 1910, the creditors of the above named the Canadian Cordage and Manufacturing Company, Limited, and all others who have claims against the said Company, formerly carrying on business in the City of Peterborough and elsewhere, are, on or before the 3rd day of July, A.D., 1911, to send by post, prepaid, to George Walford Hatton, Liquidator of the said Company, at his Office, 397½ George street, in the said City of Peterborough and Province of Ontario, their Christian and surnames, addresses and description, the full particulars of their claims, and the nature and amount of their securities, if any, held by them and the specified value of such securities, verified by oath, and in default thereof, they will be peremptorily excluded from the benefits of the said Act and of the said order.

The undersigned the Local Master of the High Court of Justice at Peterborough, will on the 6th day of July, 1911, at 11 o'clock in the forenoon, at His Chambers in the Courthouse at the said City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice. And let all parties then attend.

Dated at Peterborough this 22nd day of May, 1911.

E. C. S. HUYCKE,
Local Master at Peterborough.

SYDNEY MEDD,
Solicitor for Liquidator,
Bank of Commerce Bldg., Peterboro.

NOTICE

Notice is hereby given that a By-law was passed by the Council of the City of Peterborough, on the 5th day of June, A.D., 1911, providing for the issue of debentures to the amount of $10,000 to pay the proportion of the cost to be provided by the City towards the erecting of a building for The Peterborough Protestant Home, and that such By-law was registered in the registry office of the County of Peterborough, on the Seventh Day of June, A.D., 1911.

Any motion to quash or set aside the same or any part thereof, must be made within three months after the first publication of this notice and cannot be made thereafter.

Dated the 7th day of June, 1911.

S. R. ARMSTRONG,
Clerk.

Mr. Andrew Rennie was in Peterboro Sunday.

An interesting game of football was played here on Saturday between Lang and Keene boys, the home team coming out victorious.

Mr. Geo. Gall is preparing to start into business again and is going to occupy the shop formerly used by Mr. R. J. McCamus.

The men employed by the Bell Telephone Company are again at work repairing the lines in and east of Keene.

Mr. and Mrs. Robt. Miller spent Monday in Peterboro.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of every ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO.,
Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Storm Played Havoc.

Detroit, June 6.—Lightning and wind caused extensive damage about Lower Michigan last night and demoralized telegraph and telephone services to such an extent that Detroit was practically cut off from communication with cities out in the State.

ADVERTISE IN THE TIMES.

SMITH COURT OF REVISION

Members of the Council of the Township of Smith, met as a Court of Revision on the Assessment Roll of the Township for the year 1911.

The Clerk reported four appeals, Mr. Alex. Elliott, Dr. Brown, Mr. Frank Ayotte and Mr. Welsh.

Moved by Mr. Garbutt, seconded by Mr. McKee that the assessment of Dr. Brown remain the same.—Carried

Moved by Mr. Davis, seconded by Mr. Jobe that Mr. Alex. Elliott's assessment remain the same.—Carried.

Moved by Mr. Garbutt, seconded by Mr. McKee that the assessment of Mr. Frank Ayotte be reduced $50.00. —Carried.

Moved by Mr. Jobe, seconded by Mr. McKee that the assessment of Mr. Welsh remain the same.—Carried.

Moved by Mr. Garbutt, seconded by Mr. McKee that the Assessment Roll for 1911, as amended, be passed by this Court and certified to by the clerk. — Carried.

Peterboro, May 29, 1911.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Breakwater at Bare Point, Port Arthur, Ont." will be received at this office until 4 p. m., Wednesday, July 5, 1911, for the construction of a Breakwater at Bare Point, Port Arthur, Electoral District of Thunder Bay and Rainy River, Ont.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department, and at the offices of E. B. Temple, Esq., District Engineer, Port Arthur, Ont.; J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto; H. J. Lamb, Esq., District Engineer, London, Ont.; and J. L. Michaud, Esq., District Engineer, Merchants' Bank Building, St. James St., Montreal, Que.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Tenders are asked for two modes of construction, and each contractor must send in with his tender an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the higher of the bids, which cheque will be forfeited if the contractor decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESBOCHERS,
Secretary.

Department of Public Works,
Ottawa, June 2, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

GRAND TRUNK PACIFIC

This Railway Has Put Down 1,622 Miles of Steel to Date

The Grand Trunk Pacific has put down 1,622 miles of steel to date. This does not include passing tracks, sidings, etc., but does include 252 miles Graham to Winnipeg) of the Eastern section. The Lake Superior branch, 195 miles (Port Arthur to Graham), has been finished for two or three years. West of Winnipeg to Edmonton the road is finished, ballasted and in first-class condition. Nearly 100 miles of the line building north and south from Melville to Canora and to Regina is in operation. It is 55 miles from Melville to Canora and 34 miles south to Balcarres. A daily train service (except Sunday) has been put on between Edmonton and Edson (129 miles), making 932 miles west of Winnipeg under operation. The steel now extends 57 miles west from Edson. It is expected that the grade will be completed into Regina, Calgary and Brandon by the end of 1911. Thirty miles of grade is finished south of Regina toward the international boundary. The grading west from Regina toward Moose Jaw and Lethbridge will be resumed as soon as the frost is out of the ground. At Young, the second station west of Watrous, Sask., a branch takes off for Prince Albert. Seventy per cent. of the grade on this line is finished and the steel laid for 26 miles. Eighty-two miles of steel have already been laid on the Tofield-Calgary branch, with the grade completed well on toward Calgary. Another good branch is the one building south-west from Edson to tap the big coal fields. About sixty per cent. of the grade is finished on the Biggar-Battleford branch, and it is expected that this line will be completed in 1911.

LEFT HANDED BARBERS

They are Very Rare, Also Those Wearing Glasses

Left-handed barbers seem almost as scarce as dead donkeys. "We don't like left-handed assistants," said one master barber, "neither do customers; consequently they are seldom employed. I do not suggest that a naturally left-handed barber is not as dexterous as one who is right-handed; in fact, I have an assistant here who shaves himself left-handed, but he always uses his right hand for customers. A left-handed barber looks awkward, and is apt to make a customer nervous. It has from time immemorial been the custom to always begin to shave a man on the right side of his face.

"I suppose there are scientific men who could tell us why we do this. I don't know the explanation myself, but I do know the right-handed barber begins work naturally on the right side of the face, while the left-handed barber naturally begins on the left side. This is apt to cause a collision between two assistants as they work in a row in front of the glasses, and the left-handed barber would often find himself in the way of the barber at the next chair who shaved right-handed.

"You will understand our strong antipathy to left-handed barbers when I tell you that a short time ago we dismissed a learner who began to lather left-handed, and who, we found, was unable to use his right hand with any degree of quickness or confidence.

"There is also another peculiarity about barbers which is interesting. It is seldom that you see one wearing glasses. There is a great objection to employing barbers with defective sight necessitating the wearing of glasses, for the simple reason that they might misjudge the distance of the razor from the face and cut the customer. I don't mean to say that no assistants are employed who wear glasses, and first-class men some of them are, too, but there is a prejudice against them, and that is why you seldom come across one in the trade."

BACK FROM THE DEAD

The Body of a Guide Received After Twenty-three Years

The body of a guide, perfectly preserved, has been yielded up by one of the Swiss glaciers after a period of twenty-three years. In 1888 the guide fell into a crevasse. His body was lately recovered, its appearance unchanged by its long imprisonment in the ice.

There have been other cases of the bringing back of a long-lost body held for years in the close embrace of the ice. One of the first instances on record relates to the Hamel accident, which occurred in 1820. Several guides were swept down by an avalanche and buried into a crevasse. Hamel prophesied the glacier would yield them up in the course of 1,000 years, but Professor Forbes, a British expert in Alpine affairs, believed that the end of the glacier would be reached by the bodies in forty years. This statement was considered bold, but its accuracy was borne out by the event. In forty years the flow of ice brought the bodies to light.

In 1846 Henry Arkwright was lost in a glacier. In just thirty-one years his brother received a telegram from the Mayor of Chamonix stating that the body had been found. Every article of clothing was intact. His name and regiment could be read clearly on his handkerchief, and his gold pencil-case opened and shut as easily as when he had last used it, three decades before.

BEAUTY OF CHRISTIAN LIVING

A pompous deacon was trying his hand at teaching a Sunday-school class, and was wanting to bring out the beauty of Christian living.

"Why do people call me a Christian?" he asked.

There was a pause, and then a shrill voice said:—

"Please, sir, because they don't know you."

Snowdrops, aconites, sweet violets, primulas, and jasmine are among the many plants blooming in a garden at Kirkcudbright.

Cement Walk in Park.

Work on the cement walk in Victoria Park, from the Court House down to the water fountain is proceeding nicely. A gang of men are at work, and will finish the job in a few days. It will be a great improvement when completed, and will add greatly to the appearance of the park.

Work is the time to get rid of your superfluous fat. Use Ralph Parker's Lemon Squash. Effective, delicious and wholesome. For sale by all dealers.

THERE ARE NO SUFFRAGETTES

Every Person in the Isle of Man Has a Vote.

The Isle of Man, whose Parliament, the House of Keys, has been on strike, has a very different set of laws from those in England. There is no income tax, no land tax, and no death duties. All the revenue required is raised from taxes on food and drink.

There are no laws to restrict the hours that may be worked in factories and shops. Moneylending is not a profitable business there, for a 300-year-old law makes 6 per cent. the highest interest that can be charged. Yet imprisonment for debt is a far commoner penalty for failure to pay than it is in England.

There are no Suffragettes in Man, for the simple reason that every woman, married or single, owner, occupier, or lodger, has the Parliamentary vote.

FASHIONABLE WEDDINGS

Family Relics Are Often Called Into Requisition

"It is very curious how many families have something which is considered indispensable at a wedding," said the verger of a West-End church. "There is a firm belief that without it—well, the couple cannot possibly be happy."

"Have you heard of the lucky Prayer-Book of the Hamiltons? That book—which is carefully preserved at Biel, near Prestonkirk—has been used at more weddings than you would imagine, including nearly every Royal wedding from the times of George III. and Queen Charlotte down to our own. The only omission, I think, was the wedding of George IV., and that was unfortunate. Dean Stanley took it with him to Russia when he went there to marry the Duke of Edinburgh and the Grand Duchess Marie. The last time it was used at a Royal wedding was in 1893, when our King and Queen were married.

"In some families the luck-bringing is a ring. The Verneys have one which has a romantic history. It belonged to an ancestor of the family who fought at Edge Hill during the Rebellion. After the conflict search was made for him, but all that was found was his gloved hand, which was still clutching the Royal Standard. On it was his wedding-ring, and ever since it has been used at all the weddings in the family. Of course, it is not worn continuously by every bride. As a matter of fact, it is taken off immediately after the ceremony and an ordinary wedding-ring is substituted.

"There are, too, many lucky bridal veils, some of them centuries old. I have seen several which have been used on occasion for more than two centuries.

"Perhaps the most remarkable of these treasures is a veil belonging to the Horners, and worn a few years ago when Miss Cecily Horner was married. It was made for Mary Queen of Scots by some nuns, who presented it to her when she was a prisoner at Fotheringay. Passing to Cardinal Yorke, it was given by him to the Horner family, and has been worn by many brides of their house. When a Horner is to be married many people try to be present at the ceremony principally to see the famous veil."

JUDICIAL NOTICE

TO THE CREDITORS OF THE CENTRAL MILLING CO.

OF PETERBOROUGH, LIMITED.

PURSUANT to the Winding-up Order made by the High Court of Justice in the matter of the Ontario Companies Act and Amendments thereto, and in the matter of the Central Milling Company of Peterborough, Limited, bearing date the fourth day of May, 1911.

The Creditors of the above named Company and all others who have claims against the said Company formerly carrying on business in the City of Peterborough, in the County of Peterborough, are on or before the 15th day of June, 1911, to send by post, prepaid to W. R. Morris, Liquidator, of the said Company, at his office, 376 Water Street, Peterborough, their Christian and Surnames, addresses and descriptions, the full particulars of their claims and the nature and amount of the securities (if any) held by them and the specified value of such securities verified by oath and in default thereof they will be excluded from the benefits of the said Act and Winding-up Order.

The undersigned Master at Peterborough, of the High Court of Justice will on the 16th day of June, 1911, at eleven o'clock, in the forenoon, at His Chambers in the Court House, in the City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice and let all parties then attend.

Dated this 15th day of May, 1911.

QUEEN CHARLOTTE

The Capital City of the Islands

THE LAST WEST

The only town on Graham Island that has a monthly pay roll, and the only sawmill shipping lumber to foreign ports.

The only town having a railway gazetted to its very doors on the island.

The only city on Graham Island having electric light, city water, miles of sidewalks, churches, school, hospital, postoffice, first-class drug store billiard hall, city hall, hotels, boarding house, barber shop and other general stores, and the only newspaper published on the Island, the Queen Charlotte News.

We are positively the centre of all the vast wealth of the entire Islands, including farm lands, timber lands, coal and metalliferous mines. These products must come out at Queen Charlotte City, through the Hoona River Valley, and through which the Island Railway must run according to charters already granted.

The combined townsite interests cover one thousand acres, of which five hundred are practically level alluvial soil with no rocks.

A fine water power from the Hoona River, good drainage and the best harbor on the entire Islands.

Our lots are all 50 feet by 120 feet, ranging in price from $150 to $300; one-third cash, balance on time at 6 per cent., or deeds can be had at once if desired.

Fully 200,000 acres of farm lands, suitable for mixed farming, only await the hand of man, a large portion of which is already located.

The verdure clad mountains are vast treasure vaults of gold, copper, silver and other precious metals, while our valleys are underlaid with a wealth of the finest coal and covered with a vast forest of spruce, hemlock and yellow cedar. These, coupled with our fisheries, are at the very doors and within sight of Queen Charlotte City.

Taking all these facts into consideration, and with the present progress being made in developing our resources, which are at the gateways of transportation both by water and railway, with the advent of the completion of the Grand Trunk Railroad, Queen Charlotte City is destined to be one of the province's most prosperous cities.

It is owned largely by the wealthiest and most honorable men of our province, who would not be a party in misrepresenting facts and are prepared to endorse every statement herein made.

The townsite company are now offering a further 75 lots on Second avenue at a very low price and on easy terms, if taken at once, and under conditions that will make you a 100 per cent. on your investment in 90 days, for 20 per cent. of the gross proceeds will be used by letting a contract for the clearing and grading of Second avenue from Third street west. The company guarantees to advance the remaining 75 unsold lots on Second avenue from $150 to $225 as soon as the first 75 have been sold. The company is making this effort in order to join with the government in making Second avenue the trunk road through the townsite from the Wilson-Robinson coal fields, Hoona River Valley, Lawn Hill and Miller Creek districts. Now you can secure any unsold lot on Second avenue, including fourteen in Keith's addition, to-day for $150, except corners, on easy terms, 1-4 cash, balance 6, 12 and 18 months at 6 per cent. This will positively be your last chance for a cheap lot in Queen Charlotte City, for every lot in the townsite will surely go from $500 to $1000 when the public realize that in the Island River railroad from Queen Charlotte to the head of Massett Inlet is to be started this summer, in addition to the present work already outlined, thus giving work to an army of men. There are at least 5000 citizens of Vancouver who have invested in the various resources of the islands. Conclusive evidence of these facts, a landscape drawing of the townsite and a portion of Graham Island coupled with an illustrated edition of the resources of the islands can be seen at the office of J. J. Miller, 82 Hastings street, Vancouver, B. C., Agent for Vancouver, and plans at office of "Times", Peterboro'.

DEPARTMENT OF RAILWAYS AED CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted cheque for the sum of $16,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 13th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of contract can be seen and form of tender obtained at this department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., H. J. Lamb Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

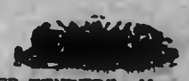
Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 9, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.



SEALED TENDERS addressed to the undersigned, and endorsed 'Tender for Public Building, Seaforth Ontario,' will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS.
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

There is one medicine that every family should be provided with and especially during the summer months viz., Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

Deputy Chief Grange of the Fire Department handed in his uniform on Saturday.

HABITS OF CROWS, CURIOUS BIRDS

The Interesting Observations by Nelson R. Wood, a Taxidermist at Washington

"The popular belief that crows must have their tongues split before they can talk is a fallacy," said Mr. Nelson R. Wood, bird taxidermist at the Smithsonian Institution, the other day. "I have had crows for pets all my life, and the majority have talked without any doctoring whatever."

This statement was made after a visitor to Mr. Wood's workshop had been introduced to a big intelligent-looking crow, "Young Jack," who, upon being noticed, made a great commotion by hopping around in his cage.

Mr. Wood it is who stuffs the specimens which are on exhibition at the museum, and his little shop, which in reality nothing more than an old barn, is a veritable "Old Curiosity Shop." Big birds and little birds sit together in the various cases, or lie around dismally in bunches on the tables waiting to be mounted.

"The crow," Mr. Wood continued, after "Young Jack" had been made to keep quiet, "is the most intelligent of all birds, in my way of thinking, but is at the same time the most silly in its fear, which is apparently without foundation. That one is the fourth bird I have had within the last few years. The other three died during my absence in the summer.

"In those birds I noticed certain characteristics. One was afraid of a common soda cracker and a swinging door. Nothing could induce him to leave his perch if a cracker were put in the cage. Another was afraid of peanuts, and would go without eating for hours at a time should a peanut be put on the top of his food. Still another would be terrified at the sight of anything black, a ribbon or tie having the same effect as a whole suit."

From the fund of knowledge which Mr. Wood has stored up about crows, he is able to tell many interesting and amusing little tales which illustrate his statement concerning the intelligence of the bird.

"In my youth, I was a farmer boy," said Mr. Wood, "and one of the few pets I had was a crow, which my teacher had given me. No matter where I went, the crow would follow. When at work, Jack would be put a few feet away looking for something to eat. Sometimes I would find a worm, and would call to him, 'Come here, Jack, and see what I have found.' That was all that was needed to bring him to my side. The wild crows tried to get Jack to go with them, but he refused, and from that time on he lived in mortal terror of them.

"I have seen some wonderful instances of intelligence on the part of the crow. One old fellow, for instance, used to delight in taking the top of a blackening box to the top of an old board which stood against the house, and, getting in it, slide to the bottom. He found pleasure in that at all times. One of my Jacks used to like his bread soaked. One day he saw a box top. He took it, turned it over, and put his bread in it. Then carrying it to his trough, put it under the water for a second, and then proceeded to eat it.

"As to the crow's ability to talk, some will and others will never learn how, but I do not believe that splitting their tongues has anything to do with it. The first of the four birds I have had recently was a wonderful talker. Unlike the parrot, his conversation was intelligent, rather than simply imitative. For instance, if I said to him, 'Hello, Jack,' he would answer 'Hello' and not put on the 'Jack,' as so many parrots do when one says 'Hello, Polly.'

"But he would imitate me also. He found that when anyone called out said 'Hello, Wood,' my reply was a low 'Hello.' He tried in every way to imitate that low tone of mine, and finally succeeded. He would go over to his water trough, and with his head in the air would cry, 'Hello, Wood;' then down would go his head in the trough, and out would come the 'Hello,' just like mine.

"A crow is the most affectionate of birds, so far as I have been able to find out. Once a crow attaches himself to you he will always be your friend. Leave him, and he will be fond of but one person till you return, and when you do he will go back to you. Their affection is almost like that of a dog.

"A crow must have plaything, and he really plays with them. When I am busy hammering away, for instance, 'Young Jack' hammers away in his cage with a stick he has. They are also the cleanest birds I know. Even while eating, if the tiniest bit gets on their plumage, they stop immediately and remove it.

"But I have never been able to understand their fear," concluded Mr. Wood. "It is so absolutely without reason. But, so far, I am glad to say, 'Young Jack' has not developed any special brand of fear."—Washington Star.

AFRAID OF AN APPLE

Antipathy, like fear, is something unreasonable. It is an instinct, and therefore absolutely unconquerable.

Great men have suffered from strange antipathies. King Henry III. could not remain alone in a room with a cat. The Duc d'Epernon fainted at the sight of a leveret. Tycho Brahe was all in a tremor at the sight of a leveret or a fox. Marshal d'Albret was made ill if a young wild boar or a sucking-pig were served at the table where he sat. The famous scholar, Scaliger, shook all over at the sight of watercress.

Lord Bacon swooned away at an eclipse of the moon. Bayle went into convulsions at the sound of water running out of a faucet. Lamothe le Vayer had nervous convulsions on hearing any musical instrument. But the most extraordinary of all was King Ladislaw of Poland, who fled precipitately at the sight of an apple.

FINANCIAL TIMES ON CANADA

The Financial Times, London, England, says: "Canada, despite all that is said by the anti-protection agents, is not, in the opinion of shrewd observers, really desirous of receiving British emigrants except those of the well-to-do classes, but is willing to absorb all the surplus capital this country is able to spare."

The readiness manner that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all dealers.

DODGING MR. SPEAKER

Rich Instances of Some "Nasty Ones" Handed by M.P.'s

It is very difficult for a member of Parliament to be openly rude to another when under the eagle eye of Mr. Speaker.

When Mr. Tim Healy, many years ago, said to an interrupter, "If you interrupt me again I will break your neck!" he was promptly suspended for a fortnight. All the impolite adjectives such as untrue, dishonest, etc., have long been barred. And the Speaker may at any time add to the list of phrases on the black-list.

But though Mr. Speaker is always on the watch for offensive phrases, there is many a case in which a witty M.P. has managed to make himself extremely nasty without being called to order. Sometimes it is in the withdrawal, however, that he turns the dagger in the wound.

It was an Irish member who some years ago remarked of the Irish Secretary, who had just answered a question, "Even the right honorable gentleman can at times be persuaded to tell the House the truth!" There were loud shouts of "Order! Order!" and the Speaker rose. Crushed, the erring member humbly begged unreservedly to withdraw the remark, and to state that there was not the slightest foundation for the statement! The Irish Secretary and Mr. Speaker still looked worried, however, as the business of the day went on.

It was Lord Cranbourne who once compared Mr. Gladstone's conduct on a certain matter to that of a pettifogging attorney. The Speaker, appealed to, declined to treat the phrase as out of order, but appealed to the good taste of the honorable member. The honorable member rose and remarked, "I wish, Mr. Speaker, to withdraw the phrase that the House considers offensive, and to apologize humbly—ete the attorneys!"

One of the wittiest evasions of the Speaker's ruling was one by Sheridan, in the old Irish Parliament.

Sheridan was making accusations of corruption. There were shouts of "Name! Name!" The orator was really attacking the Secretary of the Treasury, a Mr. John Robinson, but before he could go on the Speaker ruled the name out of order.

"Mr. Speaker," Sheridan went on slowly, "you have ruled the mention of the name out of order, but I can assure the House that I could as easily give the name as I could say 'Jack Robinson'!" And a delighted House roared.

It was presence of mind that saved a hot-headed Kerry member some years ago from the Speaker's rebuke. He sprang up to answer an opponent. "The honorable member hoosts so-and-so, and I will admit to the fool—" ("Order! Order!" "I will admit to the fool—" The speaker paused, and then went on, looking innocently puzzled, with "I will admit to the full the value of his observations and experience." The angry shouts died away, and delighted chuckles took their place.

It is impossible for an M.P. to call another M.P. an ass with impunity, unless he does it very neatly indeed. Some fifteen years ago a Nationalist member used a phrase that brought from another member a reminder that he was still a subject of the Queen.

The interrupted member happened to be a member of the Queen's household. The interrupted orator stopped.

"In loyalty to the Queen I yield to no one," he went on, without glancing at his critic, "or in respect for her household—her menservants and her maidservants, her ox or"—and here he turned slowly and examined the interrupter through a pair of pince-nez—"or her ass!"

And not even the Speaker could intervene to save that unfortunate interrupter.

A JEWEL OF ILL-OMEN

Peculiar History of the Famous Hope Diamond

What ill-luck will befall the Washington millionaire who recently paid $300,000 for the famous Hope diamond? His wife, who intends to wear it, refuses to believe in the superstition attached to the stone. But the history of this jewel is one of misfortune and death.

The man who brought it from the East in 1688 was Tavernier, the great French traveller. His affairs at once went wrong, and, setting out to retrieve his fortune, he died of fever abroad.

Madame de Maintenon, the famous French beauty, dated her decline from Royal favor from the day she persuaded the King to allow her to wear it. Later, it was worn by Marie Antoinette, who died under the guillotine, and Princess Lamballe, who also wore it, was killed by a mob.

For forty years the stone was lost, but afterwards came into the possession of an Amsterdam diamond-cutter, whose son stole it, ruined his father, and then killed himself.

Since then its history has simply been a repetition. For a time it was in the possession of a Sultan of Turkey, who afterwards lost his throne, while its keepers at Constantinople were killed.

It has been lost several times, always to return with its message of ill-luck. Even the most unsuperstitious are inclined to wonder what will be the next misfortune it will bring.

ATE 144 EGGS FOR BREAKFAST

Sam Miller, a resident of Wilkesbarre, Pennsylvania, has issued a challenge to the world at large to compete with him in an eating contest. He declares that he will eat more in a given time than any other man living. Miller declares that his record as an eater has never been equalled. According to the New York Herald he once ate 144 fried eggs for breakfast. In a pie-eating contest he disposed of forty-eight ten cent pies. His latest feat was that of eating five chickens and fifty waffles, and drinking four quarts of coffee while the cooks prepared more food.

BEAVER IN THE WEST

A strange animal has been attracting the wonder of residents along the banks of the Assiniboine river in the vicinity of Armstrong's Point. The district is thickly wooded, and some scenery surrounded the instrument of the visitor. A young man decided to go into town to interesting his friends, and procured a gun, went out into any adventure recently, and, on sighting the animal burrowing in the sand, shot it in the head. On investigation he was surprised to find that he had killed a beaver.

ADVERTISE IN THE TIMES.

CATARRH

The Source of Consumption Cured Permanently By CATARRHOZONE.

It Soothes and Heals Every Part of the Mucous Membrane, Cures all Forms of Catarrhal Diseases of the Nose, Throat, Vocal Chords, Bronchial Tubes, Lungs and Deafness.

If you have Catarrh or a cold you cannot afford to be indifferent to its progress. Your unsatisfactory experiments with the old-fashioned treatments requiring the use of disagreeable snuffs, powders, washes, ointments, etc., should not influence you against Catarrhozone.

St. Catharines, Ont.—"Best thing for Catarrh of the Throat I ever tried."—Thomas Elliott.

Goderich, Ont.—"Excellent remedy for Throat Irritation."—Rev. M. McKay.

Blyth, Ont.—"No more bronchial attacks since using Catarrhozone."—William Pollock.

Halifax, N.S.—"Has cured my Catarrh, I recommend it to my friends."—W. P. Connors.

Kingston, N.B.—"Best remedy in the world for catarrh."—Bessie McKendry.

Wawota, Asea.—"The very best catarrh remedy on the market."—Robt. H. Davies.

Bannockburn, Ont.—"No better remedy in the world for catarrh."—Patrick McQuelland.

West Lake, Ont.—"It's everything it is guaranteed to be."—Ethel Hildman.

Hickey, Mich.—"Has cured me of catarrh."—S. S. Ward.

Clementsport, N.S.—"Catarrhozone cured me of Chronic Asthma."—Samuel Ferndel.

Woodstock, Ont.—"Catarrhozone restored my sense of smell."—Mrs. F. Simpson.

Brockville, Ont.—"Most convenient remedy on the market."—Thomas McGillivray.

Vankleek Hill, Ont.—"Catarrhozone cannot be beaten."—Rodie McDougall

Perth, Ont.—"Catarrhozone is of real value."—Rev. S. J. Hughes.

Get the large $1.00 size of Catarrhozone, including a beautiful, hard rubber inhaler, and sufficient medication to last two months. Smaller sizes 25c and 50c. Beware of imitations. By mail from the Catarrhozone Company, Kingston, Ont.

WANTED

Janitor wanted for the Y.M.C.A. building. Applications accompanied by references must be sent to the office of the Y.M.C.A. not later than Saturday, June 10th. Address all communications to—

J. J. TURNER, JR.
President Y.M.C.A.
475 George Street.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Wanted.

General servant for small family. No children. Apply to Mrs. W. H. Robertson, 528 Water Street.

Excursion From Hastings.

The steamer Rainbow will bring an excursion from Hastings to Peterborough on Tuesday next. The excursion will be under the auspices of St. George's Sunday School.

Shows Have Been Notified.

The proprietors of the moving picture shows have been notified that on June 20th, the law will come into force forbidding the admission of all children under fifteen years to the shows unless accompanied by an adult goes into effect.

New Wholesale Agent.

Mr. J. M. Brooks has been appointed wholesale agent for the Royal Distillery, Hamilton, and the O'Keefe Brewing Co., Toronto. He has opened out an office in Rountree's old stand, 416 Water street, nearly opposite the post office.

A Musicale.

The pupils of Miss Wilhelmina Gumpricht, A. T. C. M., A. O. C. M., will give a musicale in the Recital Hall of the J. M. Greene Music Co., Charlotte street, on Monday evening next. They will be assisted by Miss Leslie Horner, Mr. Hegue Sawers, Mr. Herbert Rush and Mr. McElroy. There will be a collection for the benefit of the Children's Shelter.

BAND CONCERT POSTPONED.

On account of the putting down of new walks in the Victoria Park, the band concert which was fixed for to-night was postponed. The band will take advantage of the night off and put in a good night's rehearsal, and it is important that every member be present.

The woman of to-day who has good health, good temper, good sense, bright eyes and a lovely complexion, the result of correct living and good digestion, wins the admiration of the world. If you digestion is faulty Chamberlain's Stomach and Liver Tablets will correct it. For sale by all dealers.

No Cheap Rates.

There will be no excursion rates over the C.P.R. and G.T.R. lines on June 22, Coronation Day. This was decided at a monthly meeting of the Eastern Canada Passenger Association held in the Prince George Hotel Toronto, on Wednesday last. It was considered that in view of the small number who took advantage of the cheap fare excursions on the King's birthday, last Saturday, it would not be advisable to reduce rates on June 22. This applied to the steamboats as well as the railways.

Are Complaining Bitterly.

The bicyclists and the automobilists are complaining bitterly about the action of the Council in sprinkling the mud of oil on the streets. One of the former told The Times yesterday that he had spent about $10 on repairs this year, and would have still to spend another bill even if the wet weather continued as now. He thinks the Council should either re-lay the oil or destroy it, and not subject so many persons to heavy loss. The Council has decided to discontinue the use of the present grade of oil as soon as what is on hand is used up.

Cadets for Inspection.

The cadets of the Collegiate Institute, will parade for inspection at Riverside Park to-day at 2 o'clock. The Corps will be put through a number of manoeuvers by the inspecting officer. The public are cordially invited to be present.

The New Dam.

Work on the new power house at Auburn, is progressing satisfactorily, and the Electric Company expects to have it in operation by October. The large generators are now being made by the C.G.E. Co., while the powerful water wheels are being turned out by the Wm. Hamilton Co.

Cannot Sell Separately.

Owing to the recent decision of Justice Middleton in Toronto, it will not be longer lawful for restaurant-keepers to sell ice cream and cigars on Sunday, unless supplied with food at the same time. The Times is advised that instructions have been issued to strictly enforce the law in all cases.

The T. A. S. Picnic.

Arrangements for the big T.A.S. picnic on Dominion Day, are about completed. A strong committee has the matter in hand, and a thoroughly enjoyable day may be looked for. The picnic will as usual be held in the T.A.S. park.

Gets Leave of Absence.

Mr. Wilson Henderson, the capable superintendent of the City Waterworks Department, was given three months' leave of absence by the Board of Water Commissioners a few days ago. The action came voluntarily from the Commissioners, and is therefore greatly appreciated by Mr. Henderson, whose health has not been good of late. It is hoped by his many friends that the rest will be the means of completely restoring Mr. Henderson's health and strength.

"Watch Welland Grow."

Mr. Collard, representing the Canadian General Securities Corporation Limited, has arrived in the city, and is registered at the Oriental Hotel. Mr. Collard's mission to Peterborough is to dispose of some splendidly situated building lots. To the small investor this presents a favorable opportunity. See advertisement in another column.

Were Given Send Off.

The two Boy Scouts from Peterborough—Master James R. Stratton and Harold L. Paterson—were given a good send off yesterday, when they took their departure as representatives of the Peterborough Scouts at the Coronation. About 60 of the Boy Scouts marched from the Market Square to the C.P.R. Station, and gave them a last farewell cheer. The two boys were accompanied to Toronto by Mr. A. H. Stratton. The contingent left last night for Montreal where they will be entertained to-day and sail to-morrow for Liverpool.

Lively Coon Hunt.

That Peterborough is known as the sportsman's paradise, is due not only to the excellent bass and maskinonge fishing in the lake, and river, within the boundaries of the city, but also on account of the game to be found also inside the city limits. Only a short time ago, a porcupine was killed near St. Paul's church, and yesterday a large raccoon was discovered sitting quietly on the top of an electric light pole on George street. Soon after his coonship was seen, the fun began. He refused to descend and appeared to enjoy himself amazingly.

Finally Chief Howard sent a man over, and after an hour's effort succeeded in dragging the animal down. He was taken to the fire hall where he will be kept in captivity.

Is there anything in all this world that is of more importance to you than good digestion? Food must be eaten to sustain life and must be digested and converted into blood. When the digestion fails the whole body suffers. Chamberlain's Tablets are a rational and reliable cure for indigestion. They increase the flow of bile, purify the blood, strengthen the stomach, and tone up the whole digestive apparatus to a natural and healthy action. For sale by all dealers.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge.

Miss L. Jobbitt is visiting friends in Galt.

Miss Lillian McCubbin, formerly of this city, and late of Winnipeg, is visiting friends here.

Miss Irwin and her sister, Miss Elizabeth, leave to-day on a trip to England.

Mrs. Berton Ketcheson, of Belleville, is the guest of her sister, Mrs. W. T. Kennedy, 549 Gilchrist street.

Miss C. Flood returned to the city on Tuesday after spending three weeks in Toronto visiting her sister.

Mr. W. Sherin, of Lakefield, was in the city yesterday on business, and gave The Times a call.

Rev. Dr. Moore, of Madoc, passed through the city yesterday on his way home from attending conference at Port Hope.

Mr. and Mrs. J. J. Lang and daughter, Jean, 497 St. Clarens avenue, Toronto, have returned home. While here they were the guests of Mr. Lang's cousin, J. T. C. Lang, of 629 Rubidge street.

Eardley-Wilmot—Taylor.

Ottawa Journal.—An exceptionally pretty wedding took place to-day at the home of the bride's father, in Perth, when Rev. A. H. Scott, M.A., of St. Andrew's church, united Mr. K. Eardley-Wilmot, manager of the Bank of Montreal, in marriage to Miss Ethel Grace, third daughter of Henry Taylor, Esq.

The groom is a descendant of Sir John Eardley-Wilmot, who during the closing half of the eighteenth century was Chief Justice of the Court of Common Pleas of England, and he is a son of the late Major-General Frederick Eardley-Wilmot, F. R.S. of Berkswell, Warwickshire Eng. His brother, Colonel Irton Eardley-Wilmot, served as an officer of the British army in India and is now in England. The bride belongs to one of the best known families in Perth and is a descendent of one of the old Scottish families in Edinburgh, and is a granddaughter of the late Samuel Massey, of Montreal.

Miss Jessie Taylor of New York, the bride's sister, was bridesmaid, and Mr. J. A. Craig, of Perth, was best man.

A reception was held after the ceremony, among the out-of-town guests being Mr. H. E. Suckling, of the C. P.R.; Mrs. H. M. Taylor, of Regina; Mr. and Mrs. George Tooke, of Montreal; Mrs. F. Shaw, of Kingston; Mr. John Wright, of Toronto, Mr. Kenneth Taylor, manager of the Merchants' Bank at Walkerton.

Anderson—Rumble.

A pretty wedding occurred at 2.30 o'clock Wednesday afternoon in East City, when Mr. William Anderson, of Gambridge, Ont., and Miss Mary Rumble, of East City, were married by the Rev. Robert Pogue in the presence of a large number of guests.

The bride was charmingly attired in white embroidered silk trimmed with lace and was assisted by her sister, who was most becomingly dressed in brown silk.

The groom was supported by Mr. Will Huffman.

A dainty wedding luncheon was served and the happy couple left on the 4.26 for a short wedding trip, before taking up residence at Gamebridge.

Jopling—Elliott.

The residence of Mrs. Frederick Dobson was the scene of a very pretty wedding, when Miss Edith Ruth Elliott, of Smith, and Frederick William Jopling, of Bridgenorth were united in marriage by Rev. Mr. Cruikshanks, of Bridgenorth.

The bride was assisted by two bridesmaids, Miss Laura Elliott, her cousin, and Miss Jopling, sister of the groom. Messrs. J. M. O'Brien and Harry Jopling were groomsmen, and Miss McClung played the wedding march.

After the ceremony, the young couple and guests, numbering about sixty, partook of a charming wedding supper, after which Mr. and Mrs. Jopling returned to Bridgenorth, their future home.

Pickering—Andersen.

A very pretty wedding was solemnized yesterday afternoon, at the residence of the bride's parents, Mr. and Mrs. A. Anderson, East City, when their charming daughter Miss Margaret Elizabeth, was united in wedlock to Mr. C. L. Pickering, second son of Mr. and Mrs. Marshall Pickering, Lindsay. The nuptial knot was tied by the Rev. G. W. Henderson pastor of Charlotte street Methodist Church, in the presence of a number of relatives and invited parties. After the ceremony refreshments were served, after which the happy couple left for Montreal and points east. On their return they will reside in Lindsay. Among the many costly presents was a silver tea cabinet from the groom's parents, a dinner and tea set from the bride's parents, also a beautiful hand painting from fellow-employees of the groom.

PARENTS ATTENTION

The Annual Inspection of the Collegiate Institute Cadet Corps will take place at Riverside Park, this (Friday) afternoon, at 3 o'clock. The Public are cordially invited to be present on that occasion.

JOHN CRANE,
Chairman, Board of Education.

LITTLE LOCAL LINES

Several new cottages are being built at Stoney Lake.

The "remains" of the Farmers' Bank at Kinmount, in the shape of a huge safe, was shipped by train to Toronto a few days ago.

The post offices at Woodside, Clear Lake, and Juniper Island, will open on June 15.

The handsome new banner of Duke of Manchester L.O.L. No. 30, is on exhibition in the east window of Bingham's furniture store. The small banner presented by Mr. J. B. McWilliams to the Juvenile Lodge, is also on exhibition.

All the local Boy Scouts are requested to meet at the Armouries in uniform to-night at eight o'clock.

The Boy Scouts met in force last night at the Armouries and had a very successful drill.

GIRLS SHOT A MILLIONAIRE

New York, June 8.—The condition of W. E. D. Stokes, the millionaire proprietor of the Hotel Ansonia and widely known horseman, who was shot last night by two young women in their apartments, was such this morning that his physicians say he will likely recover. The young women, Lillian Graham, an actress, and Ethel Conard, an illustrator, formally charged with the shooting were taken to police headquarters this morning on the verge of collapse. Three Japanese servants in the apartment house on West 80th street, where Stokes was shot, are held as witnesses.

Miss Graham and Miss Conard will be arraigned in court later and held to await the result of Mr. Stokes injuries. Anti-toxin was administered to Mr. Stokes to-day and a further examination will be made to ascertain whether the two bullets still remain in the millionaire's ankle and thigh.

GIRL DEMANDED MONEY.

Mr. Stokes' attorney says that his client went to the girls' apartments on receiving a message from Miss Conard to obtain some letters. He denies that he had ever written any letters and when he reached the apartment, his counsel says, the door was locked behind him and "Miss Graham immediately drew a revolver and pointed to a pad on the desk at one side, she said "give me $25,000 and sign this agreement."

Stokes lawyer says that Stokes refused and that "thereupon Miss Graham fired two shots at him." Stokes got the revolver away from Miss Graham, who then, according to the lawyer, called upon Miss Conard to fire. Miss Conard, he says, also fired and as the millionaire backed into the hallway three Japanese servants set upon him.

Miss Graham, in a statement says, that Stokes came to her apartments and demanded letters which he admitted writing. When told that she had no letters, Miss Graham alleges that Stokes "turned on me in a perfect fury and caught me by the throat and began to choke me."

Miss Graham then alleges fearing violence at his hands, shot him. The actress says that Stokes wrenched the pistol from her and shot at her.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from loaf sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by all dealers.

THIS YEAR

WELLAND NEEDS 5,000 MEN

WELLAND NEEDS 2,000 HOUSES

Common Sense

If you have money to invest why not invest it in real estate in a fast growing town? Why not pick a town with a good Past, Present and Future?

LIST OF PLANTS TO BE BUILT IN WELLAND.

(1) MONTREAL STEEL COMPANY — Construction of blast furnace and improvements to plant purchased from Ontario Iron and Steel Company, to cost over $1,250,000; expected to employ about ..... 1,000 men
(2) PAGE-HERSEY COMPANY—Construction of entire plant; expected to employ about ..... 200 men
(3) BEAMISS BAG COMPANY—Construction of entire plant; expected to employ over ..... 1,000 men
(4) JOHN DEERE COMPANY—Construction of entire plant; expected to employ over ..... 2,500 men
(5) AUTOMATIC TRANSPORTATION COMPANY — Construction of entire plant; expected to employ over ..... 100 men
(6) UNITED MOTORS, LIMITED—Construction of entire plant; expected to employ over ..... 100 men
(7) CHEMICAL LABORATORIES, LIMITED — Construction of entire plant; expected to employ over... 100 men
(8) (NAME WITHHELD FOR THE PRESENT)—Splendid and substantial industry.
(9) Arrangements completed, but not yet ready for publication, for still another large one.

TO INVESTORS

We are placing on the market a few choice lots in the workingmen's residential sub-division of Welland South, close to the Union Station and the largest plants.

Every lot is within easy walking distance of the large factories, such as the Steel Plant and the Smelter.

The property has fresh water on one side of it and the river for drainage on the other side.

All lots are high, dry and level, and exchangeable within 90 days for any unsold lot of the same price, or money allowed on one of a higher price.

We believe every lot will double in value this year.

We Are Now Selling at the Following Prices:

A few lots at $ 85 per lot, $25 down and $10 per month for 6 months.
A few lots at 100 per lot, 25 down and 10 per month for 7½ months.
A few lots at 125 per lot, 25 down and 10 per month for 10 months.
A few lots at 150 per lot, 25 down and 10 per month for 12½ months.
A few lots at 200 per lot, 25 down and 10 per month for 17½ months.

—Size 25 x 120—

A discount of 5 per cent. will be allowed for cash in full.

No Interest. No Taxes Until 1912. Free Deed in Case of Death.

Opportunity knocks once at every man's door. It is knocking now at yours. If you want to make a Safe, Sure, Real Estate Investment, where you can Double Your Money in a short time, send your

VOL. XXXIV NO. 133 PETERBOROUGH, ONTARIO, SATURDAY JUNE 10 1911 PRICE TWO CENTS

BIGAMY WITH A VENGEANCE IN THIS REMARKABLE CASE

MIXED MARRIAGE OF THE BRAND THAT LEADS TO THE POLICE COURT.

Two Women, Each With a Husband to Take Care of, Each Marry One Man.

Toronto, June 9.—A story of bigamy which reads more like a page of extravagant fiction than a chapter of real life, was revealed in the police court this morning. It was that of a man who married two women who in turn each married two men.

The man was W. J. McGuire, King street west, and the women were Mrs. S. Collins, Blevens street, and Mrs. G. N. Gates, formerly of Brown Hill, but now a restaurant keeper in the old Union Hotel. All three appeared in court with their children while McGuire and Mrs. Gates were charged with bigamy. The man was sentenced to a year in the Central, while the woman was committed for trial.

STORIES TOLD BY THE WOMEN.

Although the stories of both women were widely different, each told of marrying McGuire, knowing that they had a husband living. Mrs. Gates was specially interesting. She declared that she had been coerced to the altar by threats, and that her husband had been assaulted by McGuire, and that he had also locked her in a room, and threatened her life until she gave her consent to be married to him.

THIS ONE UNSOPHISTICATED.

On the other hand Mrs. Collins told of no trouble like this. She said she was first married when she was but fourteen years old. She did not then appreciate her marriage vows, and did not love Collins. Almost eight years ago she became enamorated with McGuire and they were married. Later he left her declaring that the marriage was illegal. Both women declared that they had told McGuire they were previously married.

CALLED TO ONE SIDE.

To prove her statements Mrs. Gates called her nine-year-old son as a witness. The little chap told that he heard his mother tell McGuire that she was married. His story aroused the suspicions of Crown Attorney Corley, however, and on further examination he stated that he had never heard anything at all, but that this morning his mother had taken him to one side and told him what he was to tell.

These stories were denied by McGuire. He swore that his first wife had never told him that she had been formerly married, but as soon as he discovered it he left her. Later he met Mrs. Gates, and she said that she had secured a divorce from her husband, and that he married her on that understanding. This to a certain extent was borne out by the woman telling other people that she was a divorced.

STEAMER BURNED; SCORES OF PASSENGERS DROWNED

Blagovestchenk, Asiatic Russia, June 9.—The Amur River steamer Muravieff Amurski was destroyed by fire last night. The Passengers jumped into the river and scores of persons were drowned.

BASEBALL.

There will be a game in the Inter-Catholic league this afternoon at 3.30 on Riverside Park. The batteries will be for East City T.A.S., O'Hern e., and Coughlin and Owen pitchers, Sacred Heart T.A.S., Rose and La-Fave. Admission 10c, ladies free.

Collegiate to Play Campbellford Nine

There will be a lively game of ball at Riverside Park this afternoon when the Peterborough Collegiate Institute team will try conclusions with the Campbellford nine. The local students were beaten in Campbellford on Victoria Day in a close game, but are confident of reversing the decision here today. The game is billed for the morning in order that the Campbellford team can get train connections home. Cranswell and Rankin will be the Peterborough battery and the team will be about the same that defeated Lindsay so decisively last Saturday.

Football.

All Saints vs. Knox at the Brinton Meadows this afternoon at 3 o'clock. This promises to be a good fast game and the supporters of each team are asked to turn out in full strength. Mr. G. Miller will handle the game.

WEDDING BELLS.

Peters—Weaver.

The home of Mr. and Mrs. James Peters, 401 Parnell street, was the scene of a very pretty home wedding on Thursday evening, when Miss Kathleen Angus Weaver, was united in marriage to Mr. George Robert Peters. Rev. Mr. Brown, of St. James Methodist church, performed the marriage ceremony in the presence of a number of relatives and friends. Miss Alice Downer played the wedding march, as the wedding party entered the parlour.

The charming bride was becomingly attired in white mull, with Valenciennes lace and touches of white satin ribbon. She carried a bouquet of white lilies.

The matron of honor was dressed in pink mull, trimmed with pink satin ribbon. Mrs. Francis Peters acted as matron of honor, while Mr. Harry Peters performed the duties of best man.

After the nuptial knot was tied and the customary congratulations passed, the guests, who numbered about fifty, adjourned to the artistically decorated dining room, where a grand wedding supper waited them. The remainder of the evening was spent in music, dancing and games. At midnight refreshments were served. It was well nigh morning before the happy gathering dispersed. The bride and groom were the recipients of many beautiful presents, showing the high esteem in which they are held by their friends.

Deathly Cramps Stomach was Bloated

A Bad Case That Proves Cramps and Stomach Disorders are Cured Fast by Nerviline.

"The distress I suffered from cramps last summer was so severe I thought it meant death," writes P. R. Emerson, of Guys Hill P.O. "I was doubled up with pain and in such bad shape I couldn't walk a hundred feet. I remembered having Nerviline on hand and took half a teaspoonful in sweetened water. In five minutes I was well and my stomach derangement disappeared entirely."

For cramps, flatulence, diarrhoea, and disorders of the stomach and bowels, Nerviline knows no equal—one million bottles used every year—fifty years on the market, that's proof enough of its merit. Large 25c bottles, five for $1.00. All dealers or the Catarrhozone Company, Kingston, Ont.

Self-Supporting Homes

in the Glorious Fruit District of Southern British Columbia, for $10 cash and $10 monthly, without interest. Annual profits $500 to $1,000 per acre. Orchard, garden, poultry; scenery, hunting, fishing, boating; delightful warm climate; church, school post office, store, big sawmill; daily trains, close to markets, unlimited demand for products. Write quick for maps, photos, free information. West Kootenay Fruit Lands Company, Dept. C. D., Nelson, British Columbia.

INS AND OUTS

Roosevelt is being urged to run once again for President. He, however, objects to a third term, and Sir Wilfrid Laurier strongly objects to a first term—for Borden.

• • • •

The Examiner has no use for a man who can make a speech but won't. This great family journal submits that he is not nearly so bad as the man who can't, but will.

• • • •

A contributor wants to know if it is necessary in writing to a multi-millionaire to help one in poverty to enclose a two cent stamp for reply. If you do the chances are that the multi-millionaire will be two cents ahead.

EQUAL RIGHTS.

Editor Morning Times.

Sir,—It seems to me that there is no longer any doubt that a general election will take place this autumn. Sir Alan Aylesworth has practically said so, and everything points to an early dissolution of Parliament.

That conditions have undergone a remarkable change since the last general election, is evident. Candidates will now be obliged to figure on a United Protestant vote. They will be obliged to commit themselves in regard to certain questions, such as a general marriage law, changing the criminal code so as to punish any priest or minister, who breaks up a home, &c.

Equal Rights.

ANTI-RECIPROCITY MEETING.

Editor Morning Times.

Sir,—How about the proposed mass-meeting which was to have been held in Peterborough in regard to reciprocity? Why has the meeting not taken place? I have been anxiously looking for some announcement in connection with the matter, in the local press. Peterborough is old enough and big enough to let her voice be heard against this most iniquitous proposal. I am a Liberal—never having voted any other way, but this matter of country will come before party. I believe there are hundreds like myself in both east and west Peterborough.

Mr. Stratton is, without doubt, the best representative we ever had in Parliament and I would strongly advise him to pledge himself to vote against the proposed pact with the United States, if he desires to be re-elected.

An Old Liberal.

OIL ALL RIGHT.

Editor Morning Times.

Sir,—I see you are having trouble with the oil on the streets of your city. I can tell you that in Toronto, where I have been living for seven years, the oil works all right. I have used a bicycle all these years, travelling 8 to 10 miles per day and do not notice any injurious effects to my tires. Of course, it depends to some extent, on the quality of oil. Good oil is not harmful to rubber; this I know.

J. F. Wood.

RAIN INSURANCE CORONATION DAY

The Sum of $100,000 Has Been Placed on Women's Dresses Alone.

London, June 9.—Insurance against rain on the day of the Coronation, covering almost every conceivable kind of risk, is being issued by Lloyds On women's dresses alone more than $100,000 of insurance has been made out. Owners of stands and concessionaries are paying big premiums for insurance for this one day.

HOW QUEEN WILL SPEND THE CASH

Will Purchase Insignia of Order of Garter in Diamonds and Portraits of King and Prince.

London, June 9.—The Queen has decided that the "Mary a gift" of $60,000, which was presented to her shall be used for the purchase of the insignia of the Order of the Garter in diamonds and portraits of the King and Prince of Wales.

For soreness of the muscles, whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

Limantour, ex-Finance Minister of Mexico, may spend several days at the Falls before leaving Montreal for England on June 16.

ROME CANNOT GET CONTROL IN CANADA

Thousands of Dollars Being Spent by Her in Colonization

The Orange Sentinel says:—

Many thousands of Canadian citizens who a few years ago paid no attention to the activities of the Roman Church have now become convinced that the policy of the papacy is to fight for possession of Canada. The vast sums of money spent upon colonizing indicates their purpose.

We have no fear for the ultimate outcome of the struggle between the forces of liberty and ultramontanism. We believe that Canada will be preserved as an English-speaking Protestant country. But we appreciate the fact that it will require the best efforts of devoted Protestants to bring about that result. We base our expectations upon the fact that on this continent illiteracy is the choice of the individual. The facilities for giving every boy and girl the basis of an education are of such generous proportions that only those who refuse to learn need be without learning.

Following that we take the ground that intellectual development, which must follow the study is almost any branch of human knowledge, would bring the individual to see the hollowness of the claims of the Roman Catholic Church. In other words, the extension of education is the greatest foe the papacy has to deal with. On this continent leaders of Romanism cannot hope to defeat it.

Moreover, if Rome cannot hold her own children in Europe, who have no other kind of religion, who are in the mass as ignorant as the church could desire, who have no opportunities for intellectual development, how does it expect to hold educated men and women born and bred in the free, bracing air of liberty upon the North American continent?

The race that is bound to grow up in Canada will be the most virile in the world. The very climatic influences tend in that direction. All the environment of Canadians conduces to the growth of strength and character, moral and intellectual, as it is favorable to the development of sound physical constitutions.

That Rome will ever succeed in realizing her ambition to bring this country under her heel seems to us the most chimerical of the hopes and ambitions which the clever politicians of Rome have ever conceived.

SAW TWO ACCIDENTS, HIS HEALTH NOW SHATTERED

Lindsay, June 9.—The witnessing of two accidents having shaken the nerves and seriously injured the health of H. M. Lockwood, formerly Grand Trunk yard foreman at Lindsay, his wife was authorized to-day at Osgoode Hall to manage his estate.

Lockwood saw a man run down by a shunting engine, and he told the sufferer that he would remember him on pay day. The man sued the company, and at the trial it was suggested that Lockwood had assumed responsibility for the road. This worried Lockwood, and on another occasion he saw a brakeman run over. These shocks were so great that he left the railroad and tried the grocery business. His health was such that he had to give this up, and he had delusions, caused by a nervous breakdown.

A railway brotherhood has paid him $1,350 and the G.T.R. is allowing him a yearly pension of $200.

OPPOSING WHITNEY

That there is a strong feeling against the Whitney Government, growing out of the course pursued in regard to bilingual schools, is increasingly manifest. The Times is assured that there will be special candidates in East Peterborough and also in Durham. These men will support the government on their general policy, but will insist on drastic measures in regard to teaching the French language in the public schools of Ontario. That this feeling is general throughout the Province, is evident, we think. In strong Protestant communities candidates will be obliged to pledge themselves to oppose the Whitney policy on the above question. All of which goes to show that Protestants are waiting in defense of their rights and their liberties.

A WESTERN TOWN THAT HAS GREAT FUTURE

We call the attention of our readers to the full page advertisement in to-day's issue, of the sale of lots in the town of Hardisty, Alberta. One has only to read the advertisement in order to form some conception of the possibilities of this place. It is one of the best all-round towns in the west. Its situation is ideal, and it has everything necessary to assure rapid and permanent development. All interested are requested to call on Messrs. R. A. Elliott & Co., 387 Water street, where they will obtain full information regarding the splendid building lots which they have for sale.

Say Reciprocity, Gol Darn You; Say Reciprocity!

BISHOP HAS REFUSED BURIAL TO FRENCHMAN

Montreal, June 9.—A special from Biddeford, Maine, says: "A sensation was created at the convention of French residents of the New England States here yesterday by the refusal of Bishop Walsh, of Portland, to allow Christian burial to the late Dr. J. J. Fortier, who died on Sunday at Waterville.

The burial was ordered without the presence of a bishop or a priest, without visit to a church or any of the last rites.

The anger of the Bishop of Portland arises through an address delivered by Dr. Fortier in which he used the words, "Christ loves fighters." When called upon to retract this, he refused.

At yesterday's session of the convention, Mr. Godfroy C. Dupre openly defied Mgr. Walsh in connection with the refusal of burial rites.

"We will submit our case to Congress and to the courts of the United States," he said, "and when we have succeeded we will call upon Rome to ratify their decision."

OTHER MATTERS DISCUSSED.

Biddeford, Maine, June 9.—Resolutions endorsing the recent unsuccessful attempt to secure legislation for the dissolution of the corporation stole by which Bishop Louis Walsh, Catholic Bishop of Portland, is given complete charge of the $16,000,000 worth of property owned by the Catholic Church in Maine, was adopted by the annual convention of the Maine Cause Nationale yesterday, at which delegates from Quebec were in attendance. [illegible] command [illegible] legislature in order to [illegible] Church [illegible] crying abuses of which the French-Canadians Catholics of this diocese have been and now are complaining, and which is the [illegible] in the principal cause."

THE CADETS INSPECTED AT RIVERSIDE PARK

The Collegiate Institute Cadets were inspected yesterday by Lieut.-Col. Ogilvie, at Riverside Park. They formed at the Institute and marched to the park, headed by their bugle band. There was quite a number of citizens present, including the members of the Board of Education.

The lads presented a fine appearance their marching being particularly good. They were put through regimental drill and did their work in a most creditable manner. Lieut. Hodgson, the drill instructor, has just reason to feel proud of the corps.

ONLY A FAIR CROP OF APPLES

Toronto, June 10.—Ontario is to have a fair apple crop this summer, according to the reports of the various fruit inspectors made to Percy Hodgetts, head of the fruit branch of the Department of Agriculture. A bumper crop was expected after the almost complete failure of last season but this hope will not be fulfilled from present indications.

Baldwins, the early apple, will be light, and northern spies, one of the standard winter varieties, only fair.

CASE OF NE TEMERE IN PETERBOROUGH?

Young Married Woman Has Left Her Husband and Home.

For some time stories have been in circulation to the effect that the Ne Temere decree has parted a man and his wife in Peterborough, and broken up a home. The couple were married about 20 years ago by a Protestant minister, and have lived happily until quite recently, when the wife, through the teaching of her religion, was persuaded that she was not married at all, and was living in sin. She demanded of her husband that they be married by a Roman Catholic priest. This the husband, who is a staunch Protestant, refused to do, with the result that she left him, taking their daughter, who is also a Roman Catholic with her.

BUSINESS WOMEN

A Lunch Fit For a King.

An active and successful young lady tells her food experience:

"Some years ago I suffered from nervous prostration, induced by continuous brain strain and improper food, added to a great grief.

"I was ordered to give up my work as there was great danger of my mind failing me altogether. My stomach was in bad condition (nervous dyspepsia, I think now) and when Grape-Nuts food was recommended to me, I had no faith in it. However, I tried it, and soon there was a marked improvement in my condition.

"I had been troubled with faint spells, and had used a stimulant to revive me. I found that by eating Grape-Nuts at such times I was relieved and suffered no bad effects, which was a great gain. As to my other troubles—nervous prostration, dyspepsia, etc.—on the Grape-Nuts diet they soon disappeared.

"I wish especially to call the attention of office girls to the great benefit I derived from the use of Grape-Nuts as a noon luncheon. I was thoroughly tired of cheap restaurants and ordinary lunches, and so made the experiment of taking a package of Grape-Nuts food with me, and then slipping out at noon and getting a nickel's worth of sweet cream to add to it.

"I found that this simple dish, finished off with an apple, peach, orange or a bunch of grapes made a lunch fit for a king, and one that agreed with me perfectly.

"If the use of my Grape-Nuts diet that I did not have to give up my work at all, and in the two years have had only four lost days charged up against me.

"Let me add that your suggestions in the little book, 'Road to Wellville' are, in my opinion, invaluable, especially to women." Name given by Canadian Postum Co., Windsor, Ontario.

Read "The Road to Wellville" in pkgs.

"There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

"Our baby cries for Chamberlain's Cough Remedy," writes Mrs. T. B. Kendrick, Rasaca, Ga. "It is the best cough remedy on the market for coughs, colds and croup." For sale by all dealers.

A BELLEVILLE PAIR ARRESTED

Belleville, June 9.—Markis O. Cross aged 19 years, and his wife, Sarah Florence Cross, aged 45 years, were arrested on a charge of bigamy. The couple were married in this city on March 4th and it is alleged by the Crown that they were aware of the fact that Mrs. Cross' first husband John Covert, was still alive. Covert is said to live in Northumberland County.

J. M. Howell, a popular druggist of Greensburg, Ky., says, "We use Chamberlain's Cough Remedy in our own household and know it is excellent." For sale by all dealers.

Site for City Hall.

Mr. Wm. Langford, who has been appointed by the City Council to secure options on certain property suitable for a City Hall, is now at work. Amongst the sites suggested is the Crown Hotel property, the property immediately south of the Public Library building, facing the Armories, the south east corner of George and Murray streets, and the northwest corner of George and Macdonnell streets, directly across from the George street Methodist Church. These are by long odds the most desirable sites available.

Good Show at the Rex.

The bill at the Rex Theatre is pronounced the best since opening. Charlie Deanay, the original Scotch Comedian, made a big hit with his witty sayings and his rendition of Scottish songs, making it necessary for him to answer several curtain calls. Raymond & Raymond, close the bill with a screaming comedy sketch, entitled "The New Sailor," their dancing being well applauded. Goldie, the musical monologist, is quite a favorite here and is always a hit. Violet Venlowe has a pleasing style and her singing is good. Pritchard proved himself a competent singer and dancer.

NE TEMERE IN AUSTRALIA

Melbourne, Australia, June 9.—The Protestant Churches in the State of Victoria have united to issue a manifesto condemning the Ne Temere decree issued by the Vatican concerning the marriage question.

ROYAL
5c 10c
EXTRA! EXTRA!
PERRY & EDWARDS
and their
MUSICAL COMEDY COMPANY
Present Their
HILARIOUS COMEDY
"HOGAN'S ALLEY"
PRETTY GIRLS
BEAUTIFUL COSTUMES.
FUNNY COMEDIANS.
For the first time here Perry & Edwards will present their side splitting comedy "Hogan's Alley." Those who have not seen them in the "Isle of Gasook Game" should see them in "Hogan's Alley" as it is better still and those who did not see the first comedy should not miss this one. For three days only.
MOTION PICTURES.
Another change of Motion Pictures for to-night's big picture show. All the latest and best pictures produced.
Remember—The Royal is the coolest and most comfortable place of amusement in the city.
Admission—Afternoon and Evening 10c.

CO-OPERATIVE IDEA

As It is Worked Out in Saskatchewan in Regard to Telephones, Creameries and Elevators

The Saskatchewan Co-Operative Elevator scheme is attracting very wide attention in the West. It is worthy of note, however, that there are several co-operative projects successfully working in the province at the present time.

Take for instance the creameries, of which in the province there are eight co-operatively owned and government operated, with another in process of organization to head off Shellbrook. The output of the creameries of the granary province has steadily increased until it is now confidently expected that 1911 will witness the make of butter total a million pounds. This is not very much butter for a territory as large as Saskatchewan to produce, especially when compared with the best dairying sections of eastern Canada and other countries, but for a province that is new and supposed to be wheat crazy it is not bad. This, especially as the million pounds does not include all the butter made on the farms or the cream shipped to Brandon and Winnipeg.

Another, and perhaps better-known instance of successful co-operation in a commercial enterprise is found in the rapidly increasing number of rural telephone companies organized under the rural telephones act, and operating in all parts of the province. There are nearly two hundred such companies now, and in every particular they are co-operative. Unlike the creameries the rural telephones are not government operated, and, like the new elevator scheme the telephones receive their assistance from the government in the form of a straight out and out grant and not as a loan secured by mortgage.

POINTED PARAGRAPHS

Love-making is one kind of a cold-weather picnic.

Even a stingy man loosens up when asked for advice.

There is always room for one more in the straight and narrow path.

It doesn't increase the size of anything to look at it through a magnifying glass.

It's easier to borrow from a new friend than it is to pay back what we owe an old one.

People who do as they please seem to get along just about as well as those who are always trying to please others.

There is a certain sweetness in "Little deeds of kindness," and in letting our best impulses have free play on all occasions.

NOTICE TO CONTRACTORS.
TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope "Tender for Station Buildings," will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.

Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.

Section 3.—From Mile 5 to Mile 166 east of Quebec bridge.

Section 4.—From the Quebec bridge westward to Mile 45.

Section 5.—From Mile 55 to Mile 194 west of Quebec bridge.

Section 6.—At Cochrane in the Province of Ontario.

Section 7.—From the divisional

Section 8—From Moncton to Nappadogan, in the Province of New Brunswick.

Section 9.—From Mile 125.5 to Mile 159 west of Moncton.

yard at Graham, Ontario, eastward for a distance of 60 miles.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.

Sections 2, 3 4 and 5.—Mr. A. E. Dennet, District Engineer, Quebec, P. Q.

Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario.

Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

by order,

P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa, this 12th day of May, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realising handsomely on and terms him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards Easy payments, 10 per cent cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

TENDERS FOR STEEL BRIDGES

Tenders (endorsed Tender), will be received by the undersigned for the steel work or superstructure of two bridges known as Spencer's Bridge, Dummer, and Brown's Falls Bridge, Burleigh., in the County of Peterborough, up to One O'Clock P.M.,

JUNE 19th, 1911

The lowest or any tender not necessarily accepted.

Plans and specifications may be obtained from the County Clerk or seen at the County Office, Peterborough.

ED. M. ELLIOTT,
County Clerk.

Peterborough, May 29th, 1911.

KNOWN IN EVERY HOME

Sir William Hartley of "Jam" Fame, a Great Giver

Sir William Hartley, the head of the famous jam firm, whose system of profit-sharing is proving so beneficial to his employes, started life at the age of thirteen by helping his mother in a small grocer's shop at Colne, Lancashire. In three years the business had prospered to such an extent that he urged his parents to take larger premises. At first they set their faces against this enterprise, but at last gave way, and in a surprisingly short time their son was employing a staff of about fifty men. Then he started manufacturing jam, and soon Hartley's jam became known in every home. A deeply religious man, Sir William was the first layman for forty years to be appointed President of the Primitive Methodist Connexion. He has given thousands of pounds to the funds of his denomination. A short time ago he said, "Giving away the Lord's money has been my chief hobby and recreation. I try to do it on the same systematic lines that I use in business: and, in fact, to distribute my money is a harder and more anxious task than making it."

A Reading youth who stole a bicycle offered it for sale to a stranger in the street. The stranger was a Reading detective!

ADVERTISE IN THE TIMES.

EDDY'S SILENT MATCHES

THE "SAFE SILENT" AND THE SAFE "Royal George"

The Matches of Quality

are all that their names imply. They don't flare up when they are dropped or stepped upon and they burn quietly with a smooth steady flame.

For Sale EVERYWHERE in CANADA

It is proper, then, unless to join any employee honestly for reasons of private convenience. All work is carried to a free application of Chamberlain's Liniment. For sale by all dealers.

Several new buildings are being built on Simcoe Street.

ADVERTISE IN THE TIMES.

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

Cuban Grape Fruit Groves Pay ----Enormous Dividends----

A SAFE AND SURE INVESTMENT

Ninety miles west of Havana lie the beautiful Manhattan Estates in the heart of Cuba's most profitable and bountiful section. We intend, with your co-operation, to develop 502 acres of this wonderful sandy soil into a prosperous and self-sustaining institution of rich agricultural products.

It requires a large amount of money to go into this business properly, and it takes considerable time for the grape-fruit trees to mature.

When they are three years old they will each bear on an average one box, which is worth not less than one dollar on the tree. The fourth year we average three boxes per tree, which means $4.00, and this continues until the seventh year, when the average from a tree amounts to between seven and twenty crates; retailing in the Canadian and American markets as high as $10 a crate.

But bear in mind that these trees in full bearing will not have cost more than five dollars each, consequently once maturity is arrived at the profits are continuous and tremendous.

As we intend planting over 40,000 grape-fruit trees, you can readily see that 100 per cent. annually is a conservative estimate.

We Pay Our Way As We Go.

During the past year I have placed many dollars' worth of stock, mostly amongst my relatives, personal friends and business acquaintances. I HAVE TOLD THEM WHAT I HERE REPEAT TO YOU, that I am giving the affairs of this company, and will continue to give them, as careful attention as if I owned the whole company, and I AGREE NOT TO RECEIVE ONE CENT OF SALARY for my services until after I have made the company pay you DIVIDENDS OF TWENTY-FIVE PER CENT. ON EVERY DOLLAR YOU INVEST WITH ME IN THIS ENTERPRISE.

When you and I receive twenty-five per cent. on our investments, I will not need a salary, and right here I want to state that we have agreed that NO SALARY SHALL BE PAID TO ANY OFFICER until at least twenty-five per cent. dividends have been earned and paid to all our stockholders.

Further—we have no bond interest to meet; we do not even have to pay any taxes until we have an income. EVERY DOLLAR RECEIVED WILL BE USED FOR THE DEVELOPMENT OF THE COMPANY'S PROPERTY.

Commercial grape-fruit orchards are wonderful wealth-producers.

I want to draw a check to your order for 100 PER CENT. DIVIDENDS EVERY YEAR, and I not only want to do it, but expect to do it.

I have thoroughly investigated the possibilities for profit in growing grape-fruit on a large scale, and have seen the actual results accomplished.

YOUR MONEY SHOULD WORK FOR YOU AS HARD AS YOU WORK FOR IT, and I am desirous for this reason that you know the grape-fruit industry as I know it, and I want you to send for our booklet de luxe, fully illustrating and describing this wonderful and prosperous industry.

(Signed) S. J. MURPHY.

STATUTORY INFORMATION

(Filed with the Provincial Secretary of Ontario)

Authorized Capital $200,000 **Shares $100.00 Each**

1. The incorporators and at this date directors are E. V. O'Sullivan, John M. Ferguson, and James E. Day (Barristers), James A. McNevin (Law Student), and Mary Donovan, Eileen Jamieson, and Amy I. Naftel (Stenographers), all of 34 Victoria street, Toronto. Any shareholder not in arrears is qualified to be a director. The by-laws provide no remuneration for acting as director except fees and traveling expenses for attending meetings. Directors may be paid for special services.

2. Each incorporator subscribed for one share, 7 in all, and by by-law of the Company 993 shares are to be issued to Sterndale J. Murphy, of Toronto, who is the vendor to the Company, under an agreement between him and it dated 4th January, 1910, for the sale of certain Cuban lands, the consideration being 993 paid-up shares, $700 cash, and the assumption of a debt of $9,000.00 on the land, payable in installments (until Nov. 15, 1912) to the Cuban Commercial Company of Havana, under contract between it and Mr. Murphy, dated 3rd December, 1909. Copies of these contracts may be inspected on any business day at the office of the Company's Solicitors, Day, Ferguson and O'Sullivan, Toronto. The preliminary expenses are incorporation and legal fees and printing, and are estimated at under $1,000. No commission has as yet been authorized on sale of stock, but the directors may authorize payment of a commission not exceeding 25 per cent.

3. To make the contract binding it has been decided to go to allotment on receipt of application for one share. Shares are offered for sale on the terms that 25 per cent. be paid on allotment, 25 per cent. three months thereafter, and balance on call of the directors, calls not to be more than 25 per cent. of the subscription, and at least three months to elapse between calls.

IMMIGRATION FIGURES

Mr. Scott Thinks 165,000 Will Come From Britain this Year

Mr. W. D. Scott, Superintendent of Immigration, who has just returned from a two-months' tour of agencies in Great Britain, predicts that the immigration to Canada from Great Britain this year will be at least 165,000, an increase of fifty per cent. over last year. The quality of the immigration is also steadily improving. Canada is getting the pick of the men who are leaving the mother country to seek new homes abroad.

The total immigration for the year from all sources is estimated at 450,000.

M.R W. M. CAMPBELL

A prominent resident of Toronto for over fifty years, who died on April 15.

LABOR IN AUSTRALIA

Hon. Alex. Poynton Commends the Arbitration Act

The Hon. Alex. Poynton, Deputy Speaker of the Commonwealth Parliament of Australia, gave an address to Toronto workingmen on "Labor Conditions at the Antipodes." He briefly explained the working of the Arbitration Act, which was passed by the labor men to put an end to strikes and lock-outs. He claimed that although somewhat limited in its scope, in that it was only permitted to be enforced in case of disputes that affected trades in two or more States, it had been wonderfully successful. Efforts were being made to have it amended so that its provisions could be enforced by the Governments of each State. He asserted that if a similar Act was in force in Canada, all disputes would be settled amicably, as the decision of the court was binding on all parties. He had paid a great tribute to the women of Australia who, he declared, were the backbone of the Labor movement. Through their influence much useful legislation had been enacted that had benefitted all classes of workers. The Labor party had a daily paper in Adelaide, with a circulation of 25,000. The party, with the assistance of the women, had raised $600,000 to start and equip this paper. It was the intention next year to start a paper in Sydney, and later one in State capital.

LONDON, CAN.

HUNGRY ATMOSPHERE

Smoke-Laden Air of Old London is Eating Stone and Marble—Electric Remedy

All great cities, but more especially London, are engaged in a constant warfare with their atmosphere. It is a losing fight. The air wins.

Westminster Abbey, which has seen dozens of Coronations and is now about to add another to the list, is generally regarded as the most venerable and one of the most ancient buildings in England. But in one way it is a sham. In the huge building the visitor gazes at so admiringly he does not see a stone a hundred years old. The outer walls of the Abbey suffer so terribly from the London air that the re-building process is always going on. Stonework only fourteen years old is already going bad. Work done when Queen Victoria came to the throne is softer than dried putty several inches deep.

The trouble, of course, lies in the smoke—in the various sulphur acids that smoke carries. They convert the stone into sulphate of lime, and this process expands the stone and breaks it up gradually into powder. The older statues in St. Paul's keep constantly losing fingers for the same reason.

Marble suffers terribly. The Elgin marbles in the British Museum kept their almost transparent surface for over two thousand years in the sunny climate of Greece. Half a century in London has given the marble a dull putty-like appearance.

Good timber, curiously enough stands city air practically for ever. The great beams in Westminster Hall are as old as the Hall itself, and still sound. In one of the London parks the original oak posts that were preferred to the usual iron railings are still stout, though the iron bands that originally clamped them have disappeared utterly, the air having devoured them so thoroughly that nothing is left but rust-stains.

Iron, indeed, is peculiarly untrustworthy in city air. When the great roof of Charing Cross Station fell in a few years ago, it was because the huge girders (unpainted) had been eaten into by the clouds of smoke from the engines below. The old Underground Railway was proverbial for its smoky atmosphere, and at one station at least there were iron girders into which playful travelers used to poke their umbrellas six inches deep. Except at the heart, they were practically powder.

The bronze base on which Cleopatra's Needle stands is at present being renovated, though it is only about forty years old. The stone Needle itself stood the air of Egypt unharmed for at least three thousand years. When it came to England, its weight was almost exactly a hundred tons. According to a recent estimate, it is now quite two hundredweight lighter. The outlines of the hieroglyphics are crumbling away.

But if many civilized countries have to fight their climate, they sometimes win points in the fight. A thick fog multiplies by six the amount of sulphur in the atmosphere, and probably attempts will soon be made to clear off fog by electrical discharges.

And it is quite possible that before many years science will have succeeded in the teeth of climate in reclaiming to civilization many tracts that are now rainless desert. It has been seriously proposed that the Sahara—whose soil would be fertile if it could get moisture—should be turned into a great grain-growing region by planting its coasts with eucalyptus-trees to attract rain.

OVER PISA'S TOWER

The Remarkable Flight of a Daring Aviator

Visitors to the famous Leaning Tower of Pisa recently witnessed a sight that would have amazed the old Italian builders who erected it about 600 years ago. The occasion was the flight of a daring aviator in his aeroplane round the tower. The flying man, Signor Mario Cobianchi, flew from the Hippodrome of San Rossore, near Pisa, and with consummate skill, encircled the Leaning Tower, and safely returned to his starting-point.

One cannot help thinking how the sight would have thrilled Galileo, the great scientist and astronomer, who made his famous tests with falling bodies from the upper galleries of this tower. Here he proved that globes of different weights reached the ground at the same moment. Probably in his wildest flights of imagination he never thought of a man flying in a machine through the air. Science has, indeed, progressed since his day.

Pisa's famous Leaning Tower was erected some time between 1175 and 1350, and is about 180 feet high. It is supposed that the builders intended it to be upright at first; but when part of it was built the foundations tilted, and the rest of the tower was so erected that it would remain in this oblique position. There seems no danger of its falling.

It is built of beautiful white marble, and adjoins the Cathedral of Pisa.

A staircase of 295 steps leads to a fine belfry of seven bells. The view from the top is magnificent, especially at sunset.

"A PREPOSTEROUS PRICE"

"The Mill' is a most beautiful work; but as for $500,000, that is a preposterous price." Such is the opinion of Mr. B. W. Leader, the Royal Academician, who recently celebrated his eightieth birthday. The son of a professional man with a large family, Mr. Leader confesses that he had to maintain himself from the first by art. The consequence was that he "had to paint pictures which the public liked, and not the pictures I wanted them to like. Many's the time I have wished I could destroy a number of those early pot-boilers." It is fifty-seven years ago since Mr. Leader first exhibited at the Royal Academy, and since then he has only missed one year, and that was owing to illness.

Army Horseshoes

There are used in the Army of Great Britain 28,500 horseshoes every month.

SIR R. BORDEN'S TOUR

Mr. R. L. Borden will leave for the West in July to make a political tour over the ground which the Prime Minister traversed last year. It is understood that the speakers whom Mr. Borden will take to help him set the prairies on fire will be Judge Doherty, Chief Whip George Perley, and Mr. H. B. Ames.

ADVERTISE IN THE TIMES.

ARTFUL DODGES TO AVOID RENT

Tricky Tenants who Plot to Have Comfortable Abodes Free of Charge

The methods adopted in London, England, to obtain the tenancy of a house by rogues who never intend to pay any rent are extremely artful. Three constitutes the usual number of confederates in each gang, and for the moment we will suppose their names to be Smith, Brown and Robinson. The first step is for Smith to pose as a prospective tenant and visit various house agents' offices in the neighborhood selected, and obtain particulars of various habitations to be let. He is, as a rule, loudly dressed, wears expensive jewellery, and adopts no end of swagger, which as often as not deceives the unsuspicious agent.

Having chosen a suitable residence, Smith returns to the agent's office and agrees to rent the premises on the usual agreement, subject, of course, to the necessary decorations, etc., being carried out at the landlord's expense.

The agent makes a practice of asking for references, but this difficulty is easily overcome. Mr. Smith refers the agent to his landlord, Mr. Brown, and to his solicitor, Mr. Robinson. These gentlemen are then written to, and their replies being, as may be supposed, so very satisfactory, Mr. Smith obtains possession of the house. Mr. Brown and Mr. Robinson also obtain their houses in different localities in an exactly similar manner.

Of course, no rent is ever paid, and in order, as long as possible, to delay the agent distraining, all kinds of excuses are made. At last the agent's patience is exhausted and an entry is effected. Imagine the bailiff's dismay when, upon entering the premises, he is immediately shown actual receipts in Robinson's or Brown's name for the whole of the contents. He has no alternative, therefore, but to withdraw the man in possession.

In similar circumstances, when the bailiff in Brown's district distrains for rent, receipts are produced in Smith's name, and likewise as regards Robinson. But this is not all. These gentry refuse to give up possession of the house until paid a sum of money by the landlord, and often as not they obtain fairly large sums in this manner, as the owner would, by the cumbersome methods of legal procedure, be kept out of possession for quite a lengthy period. Hence, it is often to his advantage to pay the rogues rather than wait and incur further loss of rent.

Of course the landlord may go to the expense of a summons, and win, perhaps, be successful in obtaining an order for payment by instalments, but before the first instalment has become due the rogue has disappeared, only to adopt similar practices in different neighborhoods under various aliases. The landlord is thus left with further costs to pay and nothing in return.

NOT SICK FOR 76 YEARS

Lord Swaythling Was a Marvel of Good Health

The late Lord Swaythling, the famous Jewish banker, was a marvel of health. The first illness he ever had was contracted in January, 1909, when he was seventy-six years of age, through a heavy London fog, when he was laid up with severe bronchitis. Lord Swaythling considered that his marvellous health was entirely due to the fact that he was a strict observer of the Mosaic laws pertaining not only to daily food, but to hygiene. Lord Swaythling was head of the great banking firm of Montagu and Co., and during his career had the honor of being consulted by no fewer than three Chancellors of the Exchequer—both Conservative and Liberal. He passed through many crises in the City, and well remembered when the Bank of France was so short of gold that it paid the bankers to draw golden napoleons from the bank itself, send them over to England to be melted down into bars, and resell them to France at a profit.

A CENSUS OF THE STARS

Orbs That Move Less than a Second in a Century

Mr. F. W. Dyson, the Astronomer-Royal, speaking recently on a Census of the Stars, said that great as was the value of the census of the stellar population, it would be of far greater value when additional details were given with it. To what questions could they reasonably expect answers were a census to be taken? They could ask in what part of the sky a star was situated. That could be clearly answered of every star that they could see or photograph. They might ask how bright a star was, and an accurate answer could be given of every bright star and an approximate one of all other sorts. In what direction was a star's proper movement? The proper motion of thousands of stars could be given. How fast was a star moving in miles per second towards or away from the sun? The number of stars in respect of which that question could be answered had been rapidly increasing in the last few years, and had reached some thousands. They could also ascertain whether a star was double or single. In 1885 it was calculated that there were 200,000 stars, down to a magnitude of 9½. Now, more than a million for the whole sky had been definitely ascertained as regards their positions and magnitudes, and the number of stars approximately in the sky down to the 14th magnitude was 24 millions. The star with the largest proper motion was quite a faint one. It was discovered in 1897, and it moved 8.7 seconds a year. To make a complete circuit of the sky it would take 150,000 years. In the constellation of Orion there eight bright stars that moved less than one second in a century.

FINANCIAL TIMES ON CANADA

The Financial Times, London, England, says: "Canada, despite all that is said by the enthusiastic agents, is not, in the opinion of shrewd observers, really desirous of receiving British emigrants except those of the laboring classes, but is willing to absorb all the surplus capital this country is able to spare."

NASAL CATARRH

An Old Physician Says to Look for Dizziness, Frontal Headache, Stuffiness and Nose Colds.

TELLS HOW TO CURE.

Catarrh in almost every instance starts with a common cold in the head which is added to with another cold, and because of some extra exposure or weakness of the system, it becomes chronic.

A full case of disgusting nasal and throat catarrh then develops. Unless a radical cure is effected then the disease passes rapidly to the throat, bronchial tubes and finally to the lungs.

No man or woman can ever get new lungs any more than new fingers or a new nose; but everyone suffering from Catarrh can get a sure cure by inhaling Catarrhozone, and this is proved after you read further.

QUICK, LASTING CURE.

"After ten long years of suffering with Catarrh in the throat and nose I write to tell you that I am now completely cured with Catarrhozone. What a relief it was to get that burning stopped in my ears, to have my nose free and easy to breathe through —What a blessing it was to get cured of droppings, catarrhal dyspepsia and bad breath. All this is the result of Catarrhozone, which I recommend to everyone to use for any trouble in the throat, nose, bronchial tubes and lungs."

JOHN McCULLOUGH,
Moosebrook, N.S.

Let Catarrhozone cure you, get the large dollar outfit which lasts two months and contains an indestructible hard rubber inhaler. Smaller sizes 25c and 50c each. Beware of imitations of Catarrhozone, which all reliable dealers sell, or by mail from the Catarrhozone Company, Kingston Ont.

The Morning Times

SATURDAY, JUNE 10, 1911.

BRYAN'S DISCOVERY.

A prophet is without honor in his own country. As with prophets, so it is with the natural advantages which a country enjoys, and those acquired advantages which are obtained under its laws and customs—it often needs the eye of the outsider to discover the striking benefits of some institution with which the people are blessed.

The earnest tribute paid to the Canadian Government Annuities system by Mr. William Jennings Bryan during his recent address to the citizens of Galt, should do much to determine the question for those who have not yet taken advantage of the system, the opinion coming, as it does, from one who has made the social problem a life study. He is reported to have said: "I have been trying for years to figure out a similar scheme for the benefit of the citizens of the United States, and I cannot understand why every civilized country does not follow the lead of Canada and encourage the people to put something by for the day when they will be too old to work. This is true co-operative government," he added. While other countries have established pension schemes, which are but extensions of Poor Law Relief, the result of which is to pauperize and not to stimulate thrift, the Canadian Government has, by its Annuities Act, inaugurated a scheme whereby thrift is promoted, and the people are provided with facilities which will enable them to help themselves, and at the same time preserve their self-respect and dignity."

THE CORONATION.

The London Spectator, dealing with the spectacular and ceremonial nature of the coronation, says that one might be tempted to regard all this as an excessive act of homage to the King; but that nothing could be further from the truth. "As one reads the service, one is rather impressed by the thought that a King, exceptionally sensible of the nature of his charge, could hardly bear up under the burden of responsibility loaded upon him and urged with all the emphasis of weighty words. The person of the King, we mean, enjoys the homage of the people only as the embodiment of the truth enacted in his keeping."

From this point of view we may regard the ceremony as symbolical. A Prime Minister under our system bears a burden of responsibility as great as that of the King. But he is the head of a party, and necessarily must bear the brunt of party rivalry and hostility. To signalize his assumption of office by tremendous pomp and ceremony would be needlessly to sharpen this hostility. The opposition papers would be apt to poke fun at the spectacle, and to rebuke the vanity would be regarded as a mere demonstration of loyalty to party. Detached from all parties, and sympathetic with all, the King at his coronation becomes the recipient of the united patriotic fervor of the nation.

Yet the coronation would be robbed of its deeper meaning if it were not regarded as symbolizing and emphasizing the sacredness of all public trusts. We are governed and served, not by the King alone, but by Ministers of State, by members of Parliament, by municipal councils, by educational boards, and, in the last analysis, by ourselves. Every election day is a coronation.

The crowning fact.
The kingliest act.
Of Freedom is the freeman's vote.

It is true that elections are not usually regarded in this light. They are discussed with a good deal of apparent levity, and men sometimes descend quite up to the point of practising bribery, fraud, and intimidation of the elector as a means of capturing the vote. Democracy is apt to concentrate upon the King all the solemnity which belongs to the conception of public duty by all the loyal and servants of the State. That is the true interpretation of the coronation.

HAS A CACHE OF GOLD BEEN REALLY FOUND

San Diego, Cal., June 7.—A passage received here from a party of treasure seekers aboard the steamer Eureka says their expedition to recover an immense cache of gold hidden by the crew of a Chilian cruiser off the Honduran coast many years ago has been successful. The treasure has been variously estimated at from $15,000,000 to $25,000,000 according to reports circulated here. The steamer is now headed for this port.

The Eureka is in command of Capt. Burtiss and was taken on a thirty-day charter by a party of San Francisco people about two weeks ago.

The expedition is said to have been financed by Henry Krelling, a well-known club man of San Francisco. The map, showing the location of the buried treasure, is said to have been in the possession of a former resident of Honduras, who succeeded in interesting Krelling in his story of the buried gold. The message received from Salina Cruiz yesterday read:

"Expedition a success in every way. San Diego for oil next week."

BOY SCOUTS SHOW GREAT PLUCK

The Edmonton Bulletin just to hand thus tells of the capture by a party of Boy Scouts of the highwayman who shot and badly wounded the Chief of Police at Red Deer, Alta., when the latter interrupted him robbing a man about 8 p.m.

"Early in the morning the town was aroused and well organized posses were sent out to scour the country. The Boy Scouts sent out with the others and accompanied by a dog, traversed the country of Saskatoon park and north of the hospital where there is a dense undergrowth.

"About a mile and a half from the city the dog came upon a man sleeping soundly in the underbrush and gave the alarm. The boys under Scouts Phil Galbraith, Springbeet and Stone, promptly drew a cordon around the patch and sent two of their number running toward the town for assistance.

"By means of the Scout signal code a message was flashed to Scouts nearer the city and the messengers reached the station just as another posse was starting out, and climbed into a waiting automobile.

"In the meantime, Kelly aroused from his sleep, threatened the Scouts with his revolver. The boys took refuge behind trees and trailed him from one patch of brush to another. Several times Kelly threatened to shoot one of the boys named Mott, who knew him, as he had been getting his meals at the Mott house, but Kelly says he 'did not like to shoot the kid.'

"Fire Chief Moore's arrival on the ground ended the scene and the fugitive was arrested and taken to town.

"Kelly is an uneducated man, and about 25 years of age.

THIS YEAR

WELLAND NEEDS 5,000 MEN

WELLAND NEEDS 2,000 HOUSES

Common Sense

If you have money to invest why not invest it in real estate in a fast growing town? Why not pick a town with a good Past, Present and Future?

LIST OF PLANTS TO BE BUILT IN WELLAND.

(1) MONTREAL STEEL COMPANY — Construction of blast furnace and improvements to plant purchased from Ontario Iron and Steel Company, to cost over $1,250,000; expected to employ about ..... 1,000 men
(2) PAGE-HERSEY COMPANY—Construction of entire plant; expected to employ about ..... 200 men
(3) BEAMISS BAG COMPANY—Construction of entire plant; expected to employ over ..... 1,000 men
(4) JOHN DEERE COMPANY—Construction of entire plant; expected to employ over ..... 2,500 men
(5) AUTOMATIC TRANSPORTATION COMPANY — Construction of entire plant; expected to employ over ..... 100 men
(6) UNITED MOTORS, LIMITED—Construction of entire plant; expected to employ over ..... 100 men
(7) CHEMICAL LABORATORIES, LIMITED — Construction of entire plant; expected to employ over... 100 men
(8) (NAME WITHHELD FOR THE PRESENT—Splendid and substantial industry.
(9) Arrangements completed, but not yet ready for publication, for still another large one.

TO INVESTORS

We are placing on the market a few choice lots in the workingmen's residential sub-division of Welland South, close to the Union Station and the largest plants.

Every lot is within easy walking distance of the large factories, such as the Steel Plant and the Smelter.

The property has fresh water on one side of it and the river for drainage on the other side.

All lots are high, dry and level, and exchangeable within 90 days for any unsold lot of the same price, or money allowed on one of a higher price.

We believe every lot will double in value this year.

We Are Now Selling at the Following Prices:

A few lots at $ 85 per lot, $25 down and $10 per month for 6 months.
A few lots at 100 per lot, 25 down and 10 per month for 7½ months.
A few lots at 125 per lot, 25 down and 10 per month for 10 months.
A few lots at 150 per lot, 25 down and 10 per month for 12½ months.
A few lots at 200 per lot, 25 down and 10 per month for 17½ months.

—Size 25 x 120— A discount of 5 per cent. will be allowed for cash in full.

No Interest. No Taxes Until 1912. Free Deed in Case of Death.

Opportunity knocks once at every man's door. It is knocking now at yours. If you want to make a Safe, Sure, Real Estate Investment, where you can Double Your Money in a short time, send your

AND CANALS.

ONTARIO—ST. LAWRENCE CANALS.—RAPIDE PLAT CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Improving Lower Entrance to Lock No. 24," will be received at this office until 16 o'clock, on Friday, June 9th.

Plans, Specifications, and Form of Contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $6,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 19th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Breakwater at Bare Point, Port Arthur, Ont." will be received at this office until 4 p. m., Wednesday, July 5, 1911, for the construction of a Breakwater at Bare Point, Port Arthur, Electoral District of Thunder Bay and Rainy River, Ont.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department, and at the offices of E. B. Temple, Esq., District Engineer, Port Arthur, Ont.; J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto; H. J. Lamb, Esq., District Engineer, London, Ont.; and J. L. Michaud, Esq., District Engineer, Merchants' Bank Building, St. James St., Montreal, Que.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Tenders are asked for two modes of construction, and each contractor must send in with his tender an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the higher of the bids, which cheque will be forfeited if the contractor decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
E. C. DESBOCHENS,
Secretary.

Department of Public Works,

JUDICIAL NOTICE

TO THE CREDITORS OF

THE CENTRAL MILLING CO.

OF PETERBOROUGH, LIMITED.

PURSUANT to the Winding-up Order made by the High Court of Justice in the matter of the Ontario companies Act and Amendments thereto, and in the matter of the Central Milling Company of Peterborough, Limited, bearing date the fourth day of May, 1911.

The Creditors of the above named Company and all others who have claims against the said Company formerly carrying on business in the City of Peterborough, in the County of Peterborough, are on or before the 15th day of June, 1911, to send by post, prepaid to W. R. Morris, Liquidator, of the said Company, at his office, 376 Water Street, Peterborough, their Christian and Surnames, addresses and descriptions, the full particulars of their claims and the nature and amount of the securities (if any) held by them and the specified value of such securities verified by oath and in default thereof they will be excluded from the benefits of the said Act and Winding-up Order.

The undersigned Master at Peterborough, of the High Court of Justice will on the 16th day of June, 1911, at eleven o'clock, in the forenoon, at His Chambers in the Court House, in the City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice and let all parties then attend.

Dated this 16th day of May, 1911.

E. O. S. HUYCKE,
Local Master at Peterborough.

HALL, HAYES & HALL,
116 Hunter St., Peterborough.
Solicitors for Liquidator.

James Anderson was elected president of the Canadian Street Railway Association, in session at Windsor.

Fire at Lowellville, Ohio, destroyed 22 buildings, made 200 homeless and caused $60,000 damage.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

A large auto driven by W. Thompson of Paris, nearly went through an open draw bridge at St. Catharines. He ran it into a post instead.

The "Geronia," a first-class passenger boat for the Ontario & Quebec Nav. Co. 219 feet long, was launched at Collingwood yesterday.

NOTICE TO CONTRACTORS.
Tenders for Car Shops at Transcona, near Winnipeg, Man.

SEALED TENDERS, addressed to the undersigned, and marked on the envelope "Tender for Shops" will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa until 12 o'clock noon, of the 11th day of July, 1911, for the construction and erection complete, in accordance with the plans and specifications of the Commissioners, of shops east of Winnipeg.

Plans, details and specifications may be seen at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ont., and Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied by the Commissioners, which may be had on application to Mr. W. J. Press, Mechanical Engineer, Ottawa, Ont.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway for the sum of one hundred thousand dollars ($100,000).

The cheque deposited by the party whose tender is accepted will be deposited to the credit of the Receiver General of Canada as security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders.

By order,
P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa June 2, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

Tenders For Clothing

Sealed tenders, addressed to Ald. Morgan, Chairman of the Fire, Water and Light Committee, and endorsed, "Tender for Clothing," will be received for Firemen's Uniforms, up to 4 o'clock p.m., on

June 20th, 1911,

at the office of the undersigned, where copies of the specifications may be obtained. The lowest or any tender not necessarily accepted.

S. R. ARMSTRONG,
City Clerk.

NOTICE TO CREDITORS

IN THE ESTATE OF WILLIAM BUNTON, LATE OF THE CITY OF PETERBOROUGH, IN THE PROVINCE OF ONTARIO, TICKET AGENT, DECEASED.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 129, Sec. 56, that all persons having claims against the estate of the said William Bunton, who died on or about the 17th day of January, 1911, are required on or before the 20th day of June, 1911, to send by post, prepaid, or deliver to Dr. R. J. Hurlburt, Federal Life Building, Hamilton, Ontario, Solicitor for the said estate, their Christian and surnames, addresses and descriptions, the full particulars of their claims and the nature of the security, if any, held by them.

TAKE NOTICE that after said last mentioned day the said administrator will proceed to distribute the assets of the deceased amongst the persons entitled thereto, having regard only to the claims of which he shall then have notice, and that the said administrator will not be liable for any of the assets or any part thereof to any person or persons of whose claim notice shall not have been received by him at the time of such distribution.

Dated at Peterborough this 20th day of May, A.D. 1911.

A. P. POUSSETTE,
Solicitor for the said Administrator.

HARDISTY

Is the Busiest Divisional Point Out-ide of the Large Cities in the West

The Town of Hardisty is expending $15,000 in Cement walks alone this year. The Residential Streets are all being boulevarded, making it the most enchanting City in the West.

A large Public Park has already been reserved, beautifully located, running to the shore of a beautiful lake, which abounds with different kinds of fish. Several small lakes are in close proximity to Hardisty, which is bound to make it one of the finest summer and health resorts in the West. Within six miles from Hardisty is the famous Buffalo Park, which is a source of wonder and delight, containing the largest herd of Buffalo now in captivity. Hardisty has a typical sunny Alberta climate, conductive to the production of every kind of wild fruit and berries which grow in abundance all along the shores of Battle river and lakes.

This is Hardisty's new C. P. R. Station, the largest and best equipped outside the large cities.

A few of the C. P. R. Sidings at Hardisty.

C. P. R. Round House and Stalls at Hardisty.

HARDISTY already has 25 miles of side tracks, having a capacity of 1,000 cars, with an auxiliary yard having a capacity for 500 more, which will be doubled this year to cope with the immense traffic. The C. P. R. has already expended at Hardisty over $300,000 in Round Houses and Machine Shops. 8 more Stalls are being added this year to accommodate the increasing business of the company.

HARDISTY ASSURES ONE OF THE BEST PROFIT MAKING INVESTMENTS IN THE WEST.

As can readily be seen on the map, Hardisty is the centre of the great Transcontinental traffic, the shortest route by 300 miles from Winnipeg to the great west. Hardisty is a splendid freight distributing point with direct connection with Calgary, Edmonton, Saskatoon, Moose Jaw, and Winnipeg. Hardisty is the key to the last Great West, and the open door through which passes Alberta's great products of grain, timber, live stock and minerals.

The C. P. R. employs seventeen train crews, running to and from Hardisty daily, besides those employed in connection with the Round Houses, Machine Shops, Stores, Coal Shutes, etc.

Hardisty has the beautiful Battle River running past its door, affording no end of sport for the huntsman and fisherman, also assuring excellent sites for manufacturing concerns, and at the same time supplying the town with water if needed.

Hardisty has large General Stores, Hotels, Churches, Banks, Hardware Stores, Wholesale and Retail Butcher Shops, Lumber Yards, Implement Shops, Livery Barns, Large Schools, Hospital and Printing Offices.

Hardisty's surroundings are the best for mixed farming in the west, being three weeks earlier than the general run of places.

One of the Handsome Residences in Hardisty.

NOTICE

The first Sale of these lots known as the HARDISTY SUB-DIVISION, will take place on Tuesday, June 13th, at the office of

R. A. ELLIOTT & CO.

BIG MOUNTAINS UNDER THE SEA

The Atlantic Is a Huge Continent Covered with Water—Summits Near the Surface

It was at the captain's table on an Atlantic liner that a young woman idly inquired just how far the ship was from the nearest land. Several passengers would have said on hand, "About eight hundred miles." But the captain referred the question to a quiet gentleman, who looked at his watch and a chart, and amazed his hearers by answering, "Just about seventy yards."

"The land I speak of," continued the captain's friend, who was an expert oceanographer, "is just thirty-six fathoms beneath this ship. It is the summit of the Laura Ethel Mountain, which is twenty thousand feet above the lowest level of the Atlantic basin. If it were some two hundred feet higher, or the sea were two hundred feet lower, you would call it an island."

In effect the Atlantic is a huge continent boasting a superficial area of 25,000,000 square miles. It is 9,000 miles long and 2,700 broad. The depth of the water that covers it is by no means so considerable as people used to imagine. Oceanography as a science may be said to date from only about 1,850; but, thanks chiefly to the labors of the cable-laying and cable-repairing ships, our knowledge of the configuration of the bed of the ocean grows greater every year.

The Laura Ethel Mountain, discovered in 1878, is the uppermost peak of one of the most celebrated of the submarine elevations in the Atlantic. Mount Chaucer, at the eastward of it, was revealed to oceanographers in 1850. Fainthill, which is westward of both, has the honor to be the first mountain discovered in the Atlantic. It became known to science in 1832.

Prior to the laying of the first Atlantic cable, Lieut. Maury, U.S.N., made it known that a wide plateau exists beneath the ocean, running from Ireland to Newfoundland. It seemed so admirably suited to the purpose of cable laying that he modestly called it Telegraphic Plateau; but in the newest charts it bears the discoverer's name.

The location of "Davy Jones's locker" might be said to have been established with the discovery of Fainthill. It has been estimated that at the base of this eminence the relics of not fewer than five thousand wrecks lie scattered. Or one might ascribe that gruesome distinction to the Faraday Hills, discovered in 1883, and lying between Mount Chaucer and Laura Ethel Mountain. These hills are noted among oceanographers for the amount of wreckage of which they are the monument.

There are the cavernous depths, of course, in the Atlantic, as well as majestic heights. Four miles and a half may be taken to be the greatest. The average is probably about two English miles. Heights and depths alike are merely hidden land, which may some day be exposed by the mighty workings of nature.

Meantime comparatively few changes go on. Beneath the ocean there are no frosts, no lightnings, no glaciers, no meteorological agents at work. If it were not for the eddies and the destruction and accumulation of animal life, these Atlantic hills and vales might rest as immutable as the "peaks and craters of the moon," where there is no atmosphere to cause decay.

THE CARE OF HENS

Information as to Proper Feeding and Cleanliness

A hot meal should always be given to fowls in the morning. Equal parts of sharps, bran and pea or bean meal, with a dash of mustard, the whole made friable with boiling water, is a good daily ration. The mixture should never be wet and stodgy, but should fall to pieces when crumbled in the hand.

At midday the birds should have, on alternate days a sprinkle of grain and some boiled meat—such as butcher's waste or lights—thrown into their scratching shed, which should be littered with straw or chaff, so that they will have to work for their meal. A small handful of grain for each fowl is about the right quantity.

The last meal should always be grain, and should be given as near dusk as possible. Grain takes a long time to digest, and, consequently, keeps the birds warm during cold nights. Wheat, oats, and barley are all good, particularly oats. Occasionally a little maize may be given, as it is heating; but as it has a tendency to form fat, it should only be supplied now and then.

Plenty of clean, fresh water in a clean vessel should always be within reach of the fowls, and when it is remembered that 70. per cent of an egg is composed of water, the importance of supplying enough to birds that are in lay is obvious. Water which has been frozen over should never be given to birds, nor water into which snow has fallen, as snow-water, for some inexplicable reason, seems to cause the birds to waste.

Scrupulous cleanliness should always be maintained in the fowl-house, and if no dropping-boards are provided under the perches, a deep layer of peat moss, dry earth, ashes or sawdust must be placed there and removed once a week or so.

WORK ON NEW STATION

During the last month or six weeks Montrealers have been watching with great interest the progress being made on the new addition to the Canadian Pacific Railway's Windsor Street Station. Work on the structure has been going ahead steadily all winter and much good progress has been made that it is probable that the whole building will be enclosed by the middle of August.

BEAVER IN THE WEST

A strange animal has been attracting the wonder of residents along the banks of the Assiniboine river in the vicinity of Armstrong's Point. The district is thickly wooded, and some mystery surrounded the movements of the visitor. A young man decided to do his part in unraveling its peculiar business, and procured a gun, went out one afternoon recently, and ... the animal. Examining it he ... it is the beaver. On investigation he was surprised to find that ... had settled in Assiniboine.

TRAGIC STORY OF POOR TICHIT

Unable to Earn an Adequate Livelihood he Threw Himself into the River Seine

The old story of "Hop-o'-My-Thumb" has been repeated under modern conditions in Paris. A few days ago, five little boys, the eldest of them seven and the youngest of them two years old, walked hand in hand about the great hall of the General Post Office in the Rue de Louvre in Paris asking for their father. "Father," the eldest said, "is a postman. He brought us here this morning, left us, saying that he would be back soon, and now the lights are lit father has not returned, and we are hungry." The five children were taken to an office and a meal was given them. The police immediately started a search for the father, and, after a few days, they found him. His name is Tichit, and the story carries its moral with it. Tichit was brought up in a monastic brotherhood, became a novice, but did not become a monk. He left the brotherhood, married, and had five children. To support them and his wife he became a postman in the little town of Sucy-en-Brie, where the cheese comes from, and for some time all went well with him and his little family. But one day the deputy of the district discovered that Tichit was a criminal. He had not stolen, he had not neglected to work, his letters were delivered punctually, and on this head there was no word to be said against him. But Tichit was a criminal for all that. He had committed an unforgivable crime against Socialistic France.

In the evenings he had augmented his slender income by giving private lessons to children in the neighborhood. For a State-employed man to disregard Socialist tyranny and the syndical rights of schoolmasters and to give private lessons is simply anathema.

The Mayor sent for Tichit, and accused him of the crime. The postmaster answered that he had a wife and five children. He was told that he must either give up his postman's work or promise not to teach in future. He gave up the teaching, and a few weeks later he was sent in disgrace to a smaller town—a little place called Boynes in the Seine-et-Oise Department.

It is difficult to keep a wife and five growing boys on an income of less than $260 a year, and he did not keep his wife very long. Mme. Tichit fell ill and died, and the widower's situation became more impossible than ever. He was at his wits' end. He and his boys had lived on next to nothing for a week. There was no money in the house, and the postman could see no way of getting any if he continued to be honest.

So he put honesty aside, slipped into the train for Paris, with his five small boys, managed to evade the ticket collectors, and arriving in Paris, wandered out into the streets, the children trotting after him. For two days the six of them lived on the garments Tichit sold one by one, but he could find no employment and no place in which to live in Paris owing to the little children and his poverty.

Then a few days ago, Tichit, with his five children, went to see M. Puech, who was the responsible Minister for the postal department. Poor Tichit had no half-pence to spend on newspapers. He did not know that there was a ministerial crisis in France, and that Monsieur le Ministre was likely to be busy with his own affairs. He went to the Ministry was sent from room to room and door to door, and finally left in despair and hungrier than ever.

At first he tried to beg, but this revolted him. Unfortunately for his case, so many beggars by profession tell the only story that he had to tell—"No bread to eat, and five motherless boys"—that people proved hard-hearted. And it was then that Tichit, sitting on a stone bench by the Seine, remembered the tale of "Hop-o'-My-Thumb." He varied it a little. He dragged his weary feet and his five boys down to the Rue du Louvre, and lost them in the great hall of the General Post Office instead of in a forest. And some days later the police found Tichit. He is not to be punished by the courts for his desertion of his children, for it was in the River Seine they found him.

WHEN NOT TO SMOKE

Should be Avoided Immediately After Meals, Says The Lancet

"Smoking immediately after a meal, which is usually condemned and consistently practised, is not necessarily injurious. Indeed, in some cases it may prove beneficial. The desire for tobacco felt by many after a hearty meal is no doubt due to its stimulating influence on gastric secretion, and the comfort that follows indulgence is, in part at all events, attributable to the extra fillip given digestion." Such, at any rate, is the view of a medical correspondent who writes to the "Lancet" on the subject. And because in many cases tobacco gives this extra fillip to digestion, smoking after meals is preferable to taking a liqueur, the latter being a direct irritant. There are many cases, however, in which smoking should be avoided immediately after meals, and in some cases discontinued altogether. People who, after a hearty meal, suffer from that distressing feeling known as distension, should postpone indulgence in tobacco until some time after the meal, when the digestion is well advanced, and if they suffer from excessive acidity of the stomach should discontinue smoking altogether.

Smoking just before meals is to be deprecated, while smoking just before going to bed is often followed by insomnia, because the stomach gives rise to a sensation of hunger. This distressing consequence may be averted by taking either some light food or a little bicarbonate of soda before retiring to rest.

CROSSED THE BOUNDARY

In 1910 the number of persons who crossed the international boundary line to the United States was 54,496, subdivided as follows: United States citizens, 32,283; Canadian citizens, 14,326; other aliens, 27,296. In the year ending June 30, 1910, the United States commissioner's report showed that 116,877 persons left the United States to come to Canada. Of the number 78,497 were American citizens, 15,262 were Canadians, and the balance were citizens of other countries.

QUEEN CHARLOTTE

The Capital City of the Islands

THE LAST WEST

The only town on Graham Island that has a monthly pay roll, and the only sawmill shipping lumber to foreign ports.

The only town having a railway gazetted to its very doors on the island.

The only city on Graham Island having electric light, city water, miles of sidewalks, churches, school, hospital, postoffice, first-class drug store billiard hall, city hall, hotels, boarding house, barber shop and other general stores, and the only newspaper published on the Island, the Queen Charlotte News.

We are positively the centre of all the vast wealth of the entire Islands, including farm lands, timber lands, coal and metalliferous mines. These products must come out at Queen Charlotte City, through the Honna River Valley, and through which the Island Railway must run according to charters already granted.

The combined townsite interests cover one thousand acres, of which five hundred are practically level alluvial soil with no rocks.

A fine water power from the Honna River, good drainage and the best harbor on the entire Islands.

Our lots are all 50 feet by 120 feet, ranging in price from $150 to $300; one-third cash, balance on time at 6 per cent., or deeds can be had at once if desired.

Fully 200,000 acres of farm lands, suitable for mixed farming, only await the hand of man, a large portion of which is already located.

The verdure clad mountains are vast treasure vaults of gold, copper, silver and other precious metals, while our valleys are underlaid with a wealth of the finest coal and covered with a vast forest of spruce, hemlock and yellow cedar. These, coupled with our fisheries, are at the very doors and within sight of Queen Charlotte City.

Taking all these facts into consideration, and with the present progress being made in developing our resources, which are at the gateways of transportation both by water and railway, with the advent of the completion of the Grand Trunk Railroad, Queen Charlotte City is destined to be one of the province's most prosperous cities.

It is owned largely by the wealthiest and most honorable men of our province, who would not be a party in misrepresenting facts and are prepared to endorse every statement herein made.

The townsite company are now offering a further 75 lots on Second avenue at a very low price and on easy terms, if taken at once, and under conditions that will make you a 100 per cent. on your investment in 90 days, for 20 per cent. of the gross proceeds will be used by letting a contract for the clearing and grading of Second avenue from Third street west. The company guarantees to advance the remaining 75 unsold lots on Second avenue from $150 to $225 as soon as the first 75 have been sold. The company is making this effort in order to join with the government in making Second avenue the trunk road through the townsite from the Wilson-Robinson coal fields, Honna River Valley, Lawn Hill and Miller Creek districts. Now you can secure any unsold lot on Second avenue, including fourteen in Keith's addition, to-day for $150, except corners, on easy terms, 1-4 cash, balance 6, 12 and 18 months at 6 per cent. This will positively be your last chance for a cheap lot in Queen Charlotte City, for every lot in the townsite will surely go from $500 to $1000 when the public realize that in the Island River railroad from Queen Charlotte to the head of Masset Inlet is to be started this summer, in addition to the present work already outlined, thus giving work to an army of men. There are at least 5000 citizens of Vancouver who have invested in the various resources of the islands. Conclusive evidence of these facts, a landscape drawing of the townsite and a portion of Graham Island coupled with an illustrated edition of the resources of the lands can be seen at the office of J. J. Miller, 92 Hastings street, Vancouver, B. C., Agent for Vancouver, and plans at office of "Times", Peterboro'.

NIGHT LIFE TRAGEDY

A Typical German Occurrence at Wilhelmshaven—A Lieutenant's Revenge

A typical German night-life tragedy-comedy occurred recently at the Dreadnought station of Wilhelmshaven. While sitting in a bar frequented by officers, two young naval lieutenants in mufti, named Berger and Opolski, quarreled with a commercial traveller, the latter eventually punching Opolski's face. The lieutenant attempted to return the blow, but was prevented from doing so by his comrades. He then left the scene of the dispute, but soon afterwards returned in uniform and demanded the traveller's card for the purpose of challenging him to a duel. The traveller, however, refused to disclose his identity. Thereupon Opolski again traced his steps homewards, redonned his mufti, and appeared at the bar a second time, armed with a revolver. He fired at the traveller several times, but only succeeded in hitting a barmaid, who was slightly injured. The story of another night-life tragedy emanates from Munich, where a crowd of students, returning from a "carnival" shortly after dawn, engaged in a melee. One of them fatally stabbed an unknown reveller, and a number of children, who happened to be in the streets at that romantic hour, were injured during the fracas.

C.N.R. EXTENSIONS

Big Programme of Railway Building Outlined for 1911

Sir William Mackenzie says the Canadian Northern Railway built 540 miles of track in 1910 at a cost of $13,000,000, and plans to build 600 miles in 1911.

In Manitoba additional grading will be done on the Wakopa branch, which runs south-west from Greenway and serves the country close to the international boundary line. This year this line will reach Deloraine. Moose Jaw, Saskatchewan, will be reached by the continuation of the Maryfield branch from the south, work on which will be rushed this year. Further north in Saskatchewan the Rosebura branch will be continued through to Russell, and to join the main line of the Canadian Northern near Canora. Grading will be conducted on the Thunderhill branch north of the main line west from Swan River. This line will probably be extended to Prince Albert, or to join the Prince Albert-Regina road. The Prince Albert-Battleford branch will probably be completed. It will pass through the country north of the Saskatchewan River, where a large settlement has already been started. The Delisle line will eventually run to Swift Current to join the railway that the company is building from Maryfield to Lethbridge. Work will be done on four branches in Alberta. Two lines will be completed to Calgary, one from Saskatoon and one from Vegreville. A large force of workmen will be employed on the main line west of Edmonton to Vancouver. A great amount of grading will be accomplished on the railway to the Brazeau coal fields. This road begins at Stetler and crosses the Canadian Pacific at Red Deer, whence it proceeds west to Brazeau. Large expenditures will be made for betterment on the various branches and on the main line in the Prairie Provinces. East of Winnipeg a grade of rock will be built across Rainy Lake. The yards of the railway will be enlarged and improved at many points, and a large mileage of new sidings will be built. Heavy steel will be laid from Beaver to Grandview, a stretch of 132 miles. A station will also be constructed at Dauphin. Sir William said the company was building towards the Yellowhead Pass and the main line to the Pacific coast would be completed in about three years.

Mr. D. B. Hanna stated that the company now look for an opening of the railway from ocean to ocean during the fall of 1914. The five hundred miles through the Ontario clay belt would be completed either in two or two and a half years. Within a few years six daily trains will be leaving this city for different points on the Pacific coast. Two will be run by the Canadian Pacific Railway, two more by the Canadian Northern, and two by the Grand Trunk Pacific. "Why, then," asks Mr. Hanna, "if a new country can support six daily trains running across the continent, cannot we support a daily steamship service from British ports to the Dominion?" He believes that if Britain can send almost a steamer daily to an alien country, the day is not far distant when we will see the same to Canadian ports.

MARK TWAIN'S WORKS.

If You are interested in obtaining a complete set of all his books at one-half the former price on the easy payment plan, it will cost nothing to get full particulars and a new 1911-1912 page book "Little Stories About Mark Twain." Address Times

VILLAGE MAYOR WAS THE DEVIL

The Strange Dream of a Poor Peasant Woman Proved to be a Reality

A poor peasant woman living in the lonely village of Wagnellye, in Hungary, was notified by the post-office authorities in the neighboring town that a sum of $1,000 was lying there for her which had been sent by her husband from North America. They told her to bring witnesses to establish her identity when she came to claim the money. The woman went to the mayor of her commune, who gave her a certificate. It was, however, too late to obtain the money on that day. During the night two horrible apparitions appeared to the woman in her lonely cottage. These "ghosts" said that they were the Devil and his brother Death, and that she must give the money that she had brought from the post-office that morning to the Devil, as otherwise he would give her over to his brother Death. The Devil said that her husband had stolen it in America, and that thus it belonged to him. The woman, who was terribly frightened, said that she had not yet got the money. The "ghosts," it is alleged, compelled her to swear that she would deliver it to them next day and departed. The peasant woman went to the post-office and asked for the money. The postmaster said that he wanted witnesses, and she replied that she could not pay them to attend as the money belonged to the Devil in any case. She then related the incident of the night before. The postmaster gave her the money and let her go home, but acquainted the police with her story. They watched the hut that night and arrested the "ghosts," who, it is alleged, turned out to be the mayor of the commune and a relative, who had, when the police appeared, already taken possession of the money.

RICH HERMITS

Eccentricities of Millionaires are Many—Some Live All Alone in Garrets

The "vanity of riches" has never been more strikingly demonstrated than by the story of Mr. G. H. Dering, who died at Lockley Hall, Welwyn.

For the greater part of half a century this lord of many acres and of a quarter of a million of money had been content to lead the life of a hermit in his magnificent home surrounded by a thousand acres of park land. His valuable pictures—by Holbein, Fra Bartolomeo, and other old masters—have stood for a generation stacked three deep with their faces turned to the walls.

Gorgeous carriages, rich with heraldic painting, lay rotting in his coach-house; his front door was overgrown with ivy as high as the stone shield of arms that crowned it. Not even a lamb was allowed to bleat within hearing of the lord of this desolate mansion; and even the high road was diverted, that no sound of traffic should vex his ears. Thus, amidst dust, decay, and desolation, lived and died the owner of $125,000 a year, shunning the world and scorning his wealth.

While Sir Henry Delves Broughton was sitting at his attic-window, a man infinitely richer was walking the streets of St. Petersburg in the guise of a beggar, pocketing the alms of charitable passers-by, and gleefully carrying back his spoil to his miserable two-storeyed cottage in one of the city's slums.

This was the only "palace" of the multi-millionaire Solodovnikoff, where he lived, amongst his decrepit sticks of furniture, with an old housekeeper. Here he would sit shivering through the cold winter days, too miserly to allow himself a fire, or even to brighten the dark house with the light of a solitary candle. For twenty years he was only known to wear one suit, a "thing of shreds and patches," scarcely a vestige of the original cloth remaining. And yet this sordid-living hermit was one of the greatest landowners and railway magnates in all Russia—a man who left behind him a hundred million roubles. Far wealthier than many kings, he led a life from which most peasants would have shrunk.

A few years ago there was no wealthier man in all Paris than M. Colasson, who for a generation had lived as a pauper in two rooms of his magnificent palace in the Rue Galilee. During all this period he never once left his splendid prison, and no one was ever allowed to enter it except his one faithful attendant, who kept him supplied with his daily food of bread and eggs. As in Mr. Dering's case it was the death of a father that consigned him to his hermit-life, so with M. Colasson it was the tragic death by fire of a loved nephew and heir, in 1874, that decided him to forswear the world and all its vanities.

Within a few weeks of the death of M. Colasson there died in an attic in a Berlin slum one Herr Schwarz, who was known to and pitied by his neighbors as the poorest of the poor. He sallied out daily into the fashionable quarters, dressed in rags and carrying a sack in which he collected crusts.

He lived alone and died alone, a mere bag of bones—surrounded by riches; for in his room was found $140,000—in gold coins, stored in scores of jars and bottles, and in bank-notes, with which his pillow and mattress were stuffed.

For many years Mr. Phelps Stokes, one of America's richest men, lived in one of the slums of New York, leading the life of the poor among whom he worked, and spending on himself in a year less than his income for a day. A few years ago Mr. Ends How turned his back on his palace in St. Louis and renounced his right to a million of money, to spend his days in voluntary poverty in one of the most wretched slums in the city. Here, in a solitary room in a home for waifs, the ex-Croesus cooked his own meals, made his own bed, and counted himself extravagant if he spent more than two dollars a week on himself.

Peterborough Fall Fair.

Mr. R. H. Leary, President of the Peterborough Central Exhibition, and Mr. Roland Dunne, a member of the Board of Directors, are busily engaged in soliciting subscriptions to the prize list. It is satisfactory to learn that they are meeting with unqualified success.

Readers of The Times leaving the city during the summer months, may have The Times mailed to any address during their absence. Orders left at The Times' bookstore will receive attention.

DEPARTMENT OF RAILWAYS AND CANALS, CANADA.
WELLAND CANAL.
NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Port Colborne Improvements" will be received at this office until 16 o'clock on Wednesday the 31st day of May, 1911.

Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Superintending Engineer of the Welland Canal, St. Catharines, Ont., at which places forms of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted cheque for the sum of $16,000 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 13th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Beaumaris, Ont." will be received at this office until 4 p.m., Monday, June 12, 1911, for the construction of a wharf and stone approach at Beaumaris, Township of Monck, Muskoka, Province of Ontario.

Plans, specification and form of Building, Toronto, Ont., H. J. Lamb Esq., District Engineer, London, Ont., and on application to the Postmaster at Beaumaris, Muskoka, Ont. contract can be seen and form of tender obtained at this department, at the offices of J. G. Sing, Esq., District Engineer, Confederation Life

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

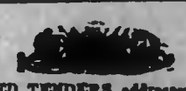
Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.



SEALED TENDERS addressed to the undersigned, and endorsed 'Tender for Public Building, Seaforth, Ontario,' will be received until 4 p.m. on Monday, May 29, 1911, for the construction of a Public Building at Seaforth, Ont.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. H. J. Lamb, District Engineer, London, Ont., at the post office, Seaforth, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, May 1, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

There is one medicine that every family should be provided with and especially during the summer months, viz., Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

Deputy Chief Grange of the Fire Department handed in his uniform on Saturday.

DR. SOPER
DR. WHITE

Specialists in diseases of Skin, Blood, Nerves, Bladder and Special Ailments of men.

DRS. SOPER & WHITE
26 Toronto Street, Toronto, Ont.

Children's Aid Society

For the care of neglected and ill-treated children. Incorporated by Act of Legislature, 1892. Information required. Informants' names kept strictly private. Office hours, 10 to 12 a.m., 1 to 3 p.m. George Cochrane, Agent and Assistant Secretary, Office, Division Court Building.

NOTICE

Notice is hereby given that a By-law was passed by the Council of the City of Peterborough, on the fifth day of June, A.D., 1911, providing for the issue of debentures to the amount of $10,000 to pay the proportion of the cost to be provided by the City towards the erecting of a building for The Peterborough Protestant Home, and that such By-law was registered in the registry office of the County of Peterborough, on the Seventh Day of June, A.D., 1911.

Any motion to quash or set aside the same or any part thereof, must be made within three months after the first publication of this notice and cannot be made thereafter.

Dated the 7th day of June, 1911.

S. R. ARMSTRONG,
Clerk.

CITY AND DISTRICT

DASHES HERE AND THERE BY TIMES' REPORTERS.

Wanted.

General servant for small family. No children. Apply to Mrs. W. H. Robertson, 528 Water Street.

Bicycle Wanted.

A good second hand bicycle wanted for cash. Apply at Times Bookstore.

Six Months in Gaol.

At the police court yesterday John Dougherty who pleaded guilty of stealing $54 from John Brown, was sentenced to six months in the County gaol.

Stratton Horses Win.

At the Galt Horse Show, the horses owned by Hon. J. R. Stratton won the following prizes: Runabout, 1st, "Midget;" harness pairs, 15.2 and under, "Lochryan Princess."

Attention!

Non Commissioned officers of the 57th and Scout Masters. A meeting is called for 8.30 o'clock this evening, in the recreation room in the Armouries. All Non Commissioned officers and Scout Masters are requested to attend, as matters of vital importance will be discussed.

No Cases for Court.

The Non-Jury sittings of the High Court of Justice was to have opened yesterday before Justice Teetzel, but there were no cases, consequently no court.

A Society Funeral.

The funeral of the late J. Butler, who died suddenly on Thursday morning took place yesterday, and was conducted by the Catholic Order of Foresters. Interment took place in St. Peter's cemetery.

Will Leave To-morrow.

The 24th Field Battery with their new guns, will assemble this afternoon at one o'clock at the Armouries and will proceed to the C.P.R. Station, where they will leave for Petawawa camp.

New Street Railway Cars.

The Street Railway Company has placed an order for a number of new cars with the Ottawa Street Car Co. The motors are being made at the C.G.E. shops here. The cars will be known as the "pay-as-you-enter," and will be of the most modern type.

"Watch Welland Grow."

We again call the attention of investors to the advertisement of the Canadian General Securities Company, which appears in this issue of The Times. Mr. W. L. Collard, the company's representative, may be seen at the Oriental Hotel for a few days. Welland real estate is not only a safe investment, but is sure to be an exceedingly profitable one.

Took in the Lakes.

Mr. Justice Teetzel and Judge Hayden were in Orillia on Thursday, and were invited by Mr. J. H. McClellan, who was returning with the steamer Bessie Butler, to take the trip with him, which they did, arriving in Peterborough yesterday afternoon about two o'clock. Both the Judges were delighted with the chain of lakes the beauty of which they had no conception of. It was a revelation to them both.

Mr. Duggan in Toronto.

Mr. Duggan, former Industrial Commissioner, is residing in Toronto. The Times is informed that he is connected with the Jules Motor Company, who are still looking for a site for their proposed factory.

And Still They Come.

The best indication that The Times is being appreciated is that many new subscribers are being added to our lists. Every day brings new names. To-day's issue is greater by 450 copies than it was one week ago. This all goes to increase the value of The Times as an advertising medium. The paper will be delivered to any address in the city for 25c per month.

Sweeping of Stores.

Dr. Hastings, M.H.O., of Toronto, is recommending that all dry-sweeping of stores, churches and other buildings fronting on the street be stopped. He considers that the germs that are thus liable to fill the air are a menace to the health of people passing on the sidewalk.

Could Not Give Proof.

A woman called on Inspector Stewart yesterday morning, and made a request that her husband be placed on the "dry" list. Mr. Stewart asked to see her marriage certificate, which she said she had lost, nor was she able to give the name of the Minister who married her. He therefore refused her request.

Mr. J. M. Greene Honored.

We congratulate our esteemed fellow-townsman, Mr. J. M. Greene, on the honor done him in being appointed presiding examiner for the senior and junior examinations in connection with the Toronto College of Music, which begin this morning, commencing at nine o'clock at the J. M. Greene Music store.

A Big Suit.

The Cavendish Lumber Company has entered suit against the Canada Cement Company, claiming unstated damages for alleged injury to their lumber by reason of ashes and sand arising from the mill when in operation and settling on the lumber. They also ask for an injunction compelling the defendants to abstain from further operations.

Fortune Wheels Burned.

The wheel of fortune is doomed, so far as the rural fall fair is concerned at any rate. Mr. J. Lockie Wilson, provincial superintendent of agricultural societies, states that there is in the act a clause strictly prohibiting hambling of any kind at fall fairs. This act will be rigidly enforced this year. Mr. Wilson caused something of a sensation last fall when he swooped down upon the Ottawa exhibition and gathered into the police court some two score fortune-wheel artists.

Holiday Proclamation.

Thursday, June 22, 1911, Coronation Day, has been proclaimed a public and general holiday, and the royal proclamation has already gone forth to that effect, so that on that date the stores and business places will be closed all day. The proclamation reads: "It is to be a public holiday observed as a general day of thanksgiving and rejoicing by all persons throughout our Dominion of Canada." Citizens of town and country are asked to bear the proclamation in mind and join in the holiday.

Port Hope Barber to Walk Again.

James Reynolds, of Port Hope, the veteran tonsorial artist who has arranged to walk to Toronto, and return within a time limit of thirty-five hours. The principal wager is $500 to $250 Jimmy taking the odds. He has another bet of $5.00 to $10.00 that he will reach Toronto in 27½ hours, and a bet of $20 to $50 that he will reach there in 16 hours. If successful all around he will win $560, but if otherwise, Jimmy will be a loser to the extent of $275.

Phones For Crowe's Landing.

Crowe's Landing, Clarina, and Gilchrist Bay on Stoney Lake are to have telephone connection early this summer. These places will be connected direct with the Lakefield Bell Telephone office, says the Norwood Register. The line from Hall's Glen to Crowe's Landing has been under construction for some time and the line from Pine Grove cheese factory and Bethel church on the road from Hall's Glen to Lakefield has been started. Eight wires will be strung, two to serve the farmers between Hall's Glen and Lakefield, two for the farmers in the vicinity of Hall's Glen, two for Mr. Davis of Stoney Lake and two as a toll line serving the cottagers on the south side of the lake. This new service will be greatly appreciated by the cottagers of Upper Stoney Lake, in fact the whole of East Peterborough will soon be provided with adequate rural telephone service and before the year is out a network of lines and their branches will cover the district.

Our Band Becoming Famous.

That the 57th Band is becoming famous as a high class musical organization is evidenced from the fact that yesterday Mr. Rupert Gliddon, the popular instructor of the band, received a very flattering offer from the management of Scarboro Beach, Toronto, the well known amusement place, offering them a weeks' engagement at the Beach with two concerts a day. The offer is a tribute to the wide-spread reputation of our band, and is appreciated by them. The matter will be taken up with the officers of the 57th Regiment and it is likely that the band will go if arrangements can be made by which the members can get away for a week.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of every ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Junior Reporter Wanted.

We have a vacancy on our staff for a reporter. A good opening for a bright young man, with good education. Apply at Times Business Office

FAMOUS DOCTOR'S PRESCRIPTION.

THE STONEY LAKE NAVIGATION CO.

Time Table

For Week Ending June 17th.

Every morning except Monday, steamers of this line will connect with the morning G.T.R. train at Lakefield at 9 o'clock.

Returning will connect with the 4.40 train for Peterborough.

On Monday Morning, June 12th, the steamer "Stoney Lake" will leave Wolfe street wharf, Peterborough, at 7.30, for all Stoney Lake points.

Rates for Excursions, Towing, Etc. given on application.

Frank G. Young, Manager.

SOCIAL AND PERSONAL

The Times will be pleased to receive notices of Weddings, Social Events, Personal Announcements, which will be published in this column free of charge . . . . . .

Capt. S. R. Pearson, Lindsay, was in the city yesterday on business.

The Rector and Wardens of St. John's church have issued cards of invitation to a luncheon to be held in the school room of the church on Coronation Day, to meet his lordship the Bishop of Toronto, on the occasion of the dedication of the People's Chimes.

His Lordship Bishop Sweeny has arranged for the induction of Mr. F. J. Sawers as Rector of St. Luke's church, to take place on Wednesday evening, June 21st, at 8 o'clock. The Bishop himself will be present on the occasion, to induct Mr. Sawers.

LITTLE LOCAL LINES

The pulpit of St. Paul's church will be occupied to-morrow by Prof. Lowe.

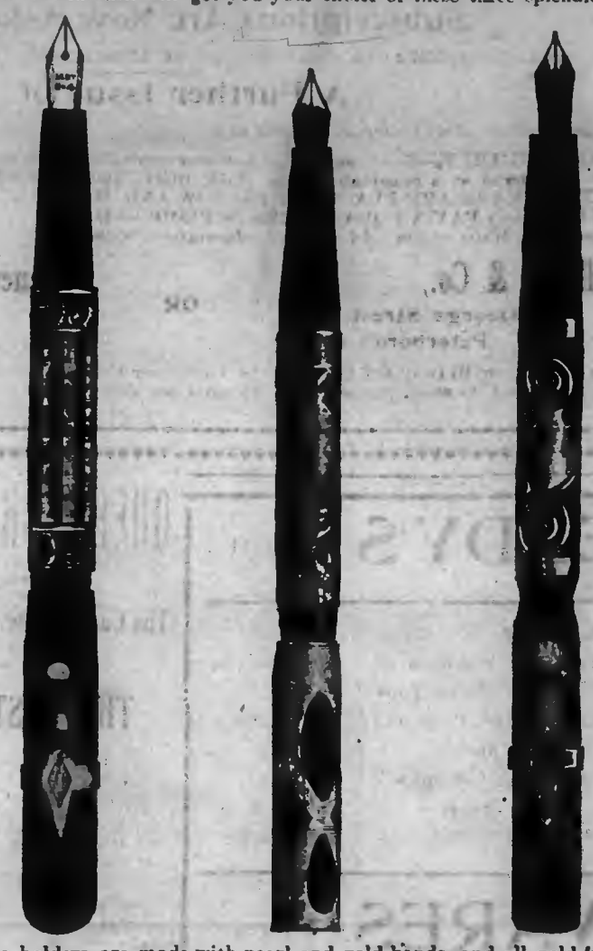
The cement walk in Victoria Park, it is expected, will be finished this evening.

The regular weekly band concert did not take place last night, it having been postponed on account of the new cement walks which are being put down.

A Fountain Pen

Practically Given Away

The Times has arranged for a supply of the famous Diamond Point Pens "Safety Clip" 14 karat Solid Gold Fountain Pens, which will practically be given away to our subscribers. 20 coupons cut from The Times, together with 75c in cash will get you your choice of these three splendid pens.



The holders are made with pearl and gold bands, and all gold full chased, gold filigree, or full mounted German Filigree, similar to illustrations, and are fully guaranteed by its makers, there being a guarantee certificate with each pen.

COUPON.

Twenty of these coupons cut from The Times and presented at The Times Book Store with 75c in cash, will secure one of these splendid 14 kt. Solid Gold Rimmed Fountain Pens.

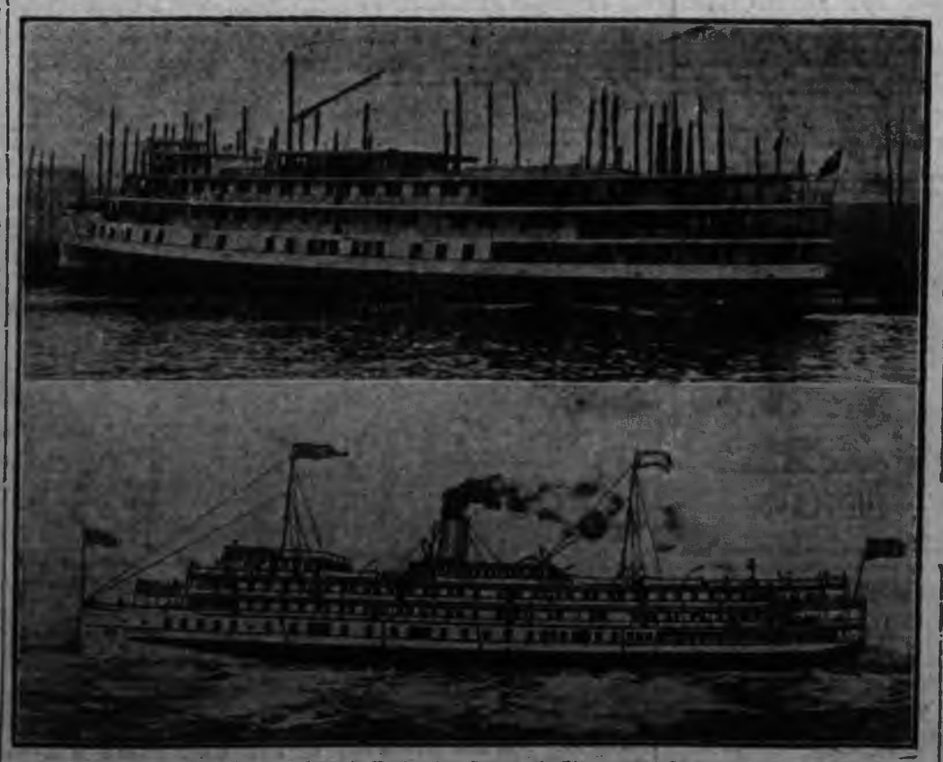
LAUNCH OF THE STEAMER SAGUENAY ON THE CLYDE

Thirty years ago a little bit of a steamer, built up at Chicoutimi by local builders, was considered good enough for the traffic that then offered on the far-famed scenic Saguenay route, as it has come to be known. To-day, the best that the noted shipyards of the Clyde can turn out is none too good for the class of travel that has been attracted by the beauties of the scenery and historic interest that attaches to a trip in that direction.

Travellers from all parts of the world now flock during the summer season to view the beauties of the country down the Lower St. Lawrence and up the Saguenay, and it has been found necessary by the Richelieu and Ontario Navigation Company to put on that route the finest steamers obtainable. For that purpose the management went to the Clyde to get a suitable steamer built, although some fine steamers of much the same type have been turned out of Canadian shipyards in past years.

Frequent enquiries have been made as to the origin of the word "Saguenay," the name by which the new steamer will be known, but Dr. DeCelles, the Parliamentary librarian at Ottawa, intimates that to find out the exact meaning of the word we would have to invoke the spirit of one of the departed Indians of the region. He points out, however, that to one etymologist, Saguenay is a corruption of an Iroquois word "Sakinipi", meaning "place where the water tosses forth"; another puzzle solver says that Saguenay—"Skaguehanapi,"—stands for "place where the sea is full of holes." This idea arises from the fact that the river was the abode of numberless whale and river type, of which very few have been built on this side of the Atlantic. With five decks—orlop, main, promenade, gallery and hurricane—observation cabin, and observation turrets from which passengers can view the scenery through which they are passing, and with the fine superstructures which are a feature of such vessels, the steamer presents a very imposing appearance as compared with the ships usually seen on the Clyde."



Launch of the Richelieu and Ontario Navigation Company's Steamer "Saguenay" on the Clyde. The top illustration shows the new boat taking the water from the shipyard and below is a sketch of the steamer as she will appear when completed.

The "Saguenay" is 275 ft. in length, 56 ft. 6 in. in breadth, and 40 ft. in depth to hurricane deck. She will have sleeping accommodation for 240 first-class passengers and a crew of 76, but she will be certified to carry 1700 passengers. The hurricane deck will be used principally as a promenade, with the officers' accommodation at the forward end and an observation cabin amidships. The cabins for passengers are on the gallery and promenade decks, with observation turrets at the forward and after ends. Special parlor rooms will be fitted on the promenade deck, with panelling in selected hard woods, and with two large domes having ornamental panels and tinted glass skylights. The main deck is wholly of steel, with special chequered plating in way of freight spaces. The dining saloon, which is panelled in mahogany, and has seating accommodation for 100 persons, is at the after end of the main deck.

The propelling machinery, also by the Fairfield Company, consists of two sets of four-crank, triple-expansion engines, balanced on the Yarrow Schlick, and Tweedy system, and driving propellers of the built type, with bronze blades. The engines are of the high-speed type, and special care has been taken in the design of the valve gear in order to ensure quiet running and to eliminate vibration. As is usual in Canadian and American river passenger vessels, the starting platform is situated at the level of the main deck, within the engine-room casing, and the gear is so arranged that both sets of machinery can be conveniently manipulated by the engineer on watch. Steam will be supplied by three single-ended multitubular boilers, designed for a working pressure of 175 lbs., and fitted with Howden's system of forced draught. There will be a complete installation of auxiliary machinery, including two powerful electric light engines and a refrigerating machine. The refrigerating installation is very extensive, as the high temperatures which prevail during the St. Lawrence summer season render necessary not only the usual appliances but also a large ice-making tank and a special cooler from which the ice-cooled water will be kept constantly circulating in a system of piping, supplying the drinking fountains and refreshment bars throughout the vessel. The vessel will be classed in Lloyd's Register.

The vessel, which was built under a specially erected shed, was named and launched by Mrs. Strachan, Coroma, Dumbreck. At the luncheon afterwards, Mr. Gracie, who presided, proposed "The Richelieu and Ontario Navigation Company." The new vessel, he said, was rather a novelty for the Clyde. He had not seen one of the same type, but he believed that in days gone by vessels of a somewhat similar character had been built on the river. It was a pleasure to them to have the privilege of building the "Saguenay," the first of the company's fleet to be constructed on this side of the Atlantic. The Company were now in their sixty-sixth year, and they owned a fleet of 21 steamers. He had himself driven across the St. Lawrence in the winter and sailed down it in the summer, and he could speak to the splendid character of the Richelieu Company's service. The new vessel would run on a route over 1,000 miles in length a distance which we in this country could hardly realize.

It has been arranged that the new steamer will ply between Montreal and the Saguenay. Heretofore all the Saguenay boats ended their trips at Quebec, and passengers from up the river were required to transfer from the Montreal boat in order to continue their journey. This will be obviated by running the new boat through from Montreal, making two round trips a week.

J. MILLER McCONNELL

MEN—YOU NEED NERVE

EARLY INDISCRETIONS AND EXCESSES HAVE UNDERMINED YOUR SYSTEM

The nerves control all actions of the body so that anything that debilitates them will weaken all organs of the system. Early indiscretions and excesses have ruined thousands of promising young men. Unnatural Drains sap their vigor and vitality and they never develop to a proper condition of manhood. They remain weaklings, mentally, physically and sexually. How you feel? Are you nervous and weak, despondent and gloomy, specks before the eyes with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, debilitating dreams, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, premature decay, bone pains, hair loose, etc.

This is the condition our New Method Treatment is GUARANTEED TO CURE.

We have treated Diseases of Men for almost a life time and do not have to experiment. Consult us FREE OF CHARGE and we will tell you whether you are curable or not.

We guarantee curable cases of NERVOUS DEBILITY, VARICOCELE, BLOOD AND SKIN DISEASES, CLAP, STRICTURE, URINARY AND KIDNEY COMPLAINTS.

Free Booklet on Diseases of Men sent to any address on application. Write for QUESTION LIST FOR HOME TREATMENT.

Wonderful Nervous System

VOL XXXIV NO. 134 PETERBOROUGH, ONTARIO, MONDAY JUNE 12 1911 PRICE TWO CENTS

TAFT'S SPEECHES DISPLEASE THE SENATE

THE PRESIDENT'S PRONOUNCEMENT AT CHICAGO AND NEW YORK CUT OFF ALL RETREAT ON RECIPROCITY FROM THE STAND-PATTERS—THEREFORE THEY KICK.

Has Incurred the Serious Displeasure of The Senate—His Speeches Have Caused Genuine Annoyance.

Washington, June 10.—(Special.)—President Taft has thoughtlessly, no doubt, incurred the serious displeasure of the senate, at least so much of it as has long considered itself "the senate." The two speeches which President Taft delivered recently in favor of Canadian reciprocity at Chicago and New York respectively have caused genuine annoyance in the senate, and men who have supposed it impossible that the president would do anything to incur their displeasure are amazed and disgruntled that the chief executive should presume to light a fire in their rear. That such has been the effect of the president's speeches they admit with a naivete which is charming. They are actually receiving communications, both by mail and by wire, from their constituents, urging them in terms sometimes, at least not actually polite, to vote for the reciprocity agreement and against every amendment, which will jeopardize chances of final enactment.

Eden the radical insurgent senator from Oregon, Mr. Bourne, has been instructed by his state to vote for this hated Taft policy and has been compelled by the force of events to reply that he will.

Those who place a proper value on our free institutions, will rebuke such independence on the part of the executive at the polls, but even that prospect does not appear in the slightest to worry Mr. Taft, who pursues the even tenor of his way as if there was no presidential election impending and with an eye simply to the success of his policy of reciprocity with Canada. It is all most annoying, actually irritating, it must be admitted by every unprejudiced observer.

New York, June 9.—President Taft spoke last night at the Hotel Astor at the banquet of the Cotton Seed Crushers' Association.

"The effect of the reciprocity treaty as a whole," said the President, "is certain to be of the highest usefulness to the country at large, and will increase rapidly a trade that now exceeds $300,000,000 into figures double that sum."

Referring to the opponents of the measure, Mr. Taft said their arguments were not always of a direct nature. He then recalled the adoption by the House of Representatives of the farmers' free list bill.

"It was both unfortunate and unjust," he said, "that this bill should have been introduced and adopted by some on the theory that it was a sop to the farmers for the injustice done them in the Canadian reciprocity agreement—for there is no injustice done to the farmers in that agreement."

The President summed up the situation as follows: "The truth is the situation in the Senate is one that can be described as calling for the bill, the whole bill, and nothing but the bill. May I not ask you all as Americans, as southerners, as southcotton men, and as southern cottonseed men, to exert yourselves through this association and in every other practical way to urge upon and to demand of your Senators that if they really favor reciprocity—as I sincerely believe most of them do—they shall take the best and most direct way to secure its passage."

BOY WITH HIS TEAM KILLED BY TERRIFIC ELECTRIC STORM

Woodstock, June 10.—In a terrific electric storm which passed over here last night, Maxwell Redmond of Blandford, was struck and killed together with two horses he was driving. The boy, 14 years old, had just gone to the field driving three horses drawing a manure spreader when the storm broke and people noticed the horses stop.

On going to investigate, the boy's father, Robert Redmond, found the lad and two of the horses dead, and the other horse badly burned.

Thos. Bell, a farmer of Eastwood, was also struck and severely injured while working in the field. He was unconscious for some hours, but is now recovering.

WOMEN CANNOT LIVE ON LESS THAN $12 A WEEK

Boston, June 9.—"No working woman can possibly live in simple comfort on less than $12 a week," declared Mrs. Raymond Robins, of Chicago, to-day. Mrs. Robins is in Boston to attend the National Conference of Women Trade Union Leagues, of which she is president.

"If her wages fall below that amount she merely exists," Mrs. Robins continued. "She is obliged to deny herself proper food and suitable clothing. Until such time as votes for women prevail the women wage workers must join a union and go on a strike if necessary for the protection denied them under man-made laws."

On the question of marriage, Mrs. Robins said: "A trade union girl might perhaps become the wife of a passive non-unionist and still be happy; but under no circumstances should she marry a pronounced anti-trade unionist regardless of his wealth and social standing."

POOR PEOPLE SUFFER FROM BANK FAILURE

London, June 9.—"Lloyd-George finance" is the reason frankly given by some of the officials for the Birkbeck bank's suspension, which will cause the greatest consternation when it becomes generally known to the 112,000 depositors and members.

The directors of the bank promise an immediate payment of ten shillings on the pound, and expect eventually to pay seventeen or eighteen shillings on the pound, but in the depreciation condition of the large amount of securities held by the bank it will take a long time to realize. In the meantime the depositors are likely to suffer the greatest inconvenience, they being for the most part people of small means.

It appears that the run on the bank last November resulted in the withdrawal of $15,000,000 of deposits, very little of which was replaced and it is supposed that this loss of custom hastened the end. No balance sheet has been issued since March, 1910, and the balance sheet just prepared, had been issued, would undoubtedly have caused another serious run on the bank.

Pathetic scenes were witnessed outside the bank last night, hundreds of anxious depositors assembling and lamenting their loss, which many declared to be ruinous.

The liabilities reach forty-three millions, but the deficit may be under four millions.

School Report.

Report of S.S. No. 3, Smith, for May, names in order of merit.

Chuch Football League Social.

A splendid programme has been arranged for the social of the Church League, to be held in the Knox Church School room (by kind permission) on Friday evening next. Here is a good chance for all lovers of sport to come and spend a very pleasant evening at the same time. The proceeds will be for the funds of the football league. Some of the very best talent in Peterborough have been kind enough to give their services and the committee have certainly provided themselves a very enjoyable evening. Refreshments will be had of any member of the visiting clubs: St. John's, St. James, All Saints, Park St. Baptist, Knox and Coldsprings, or of the undersigned. The tickets are selling fast, buy yours and come and spend a pleasant evening on Friday next and help the Church Leagues in its efforts to promote good, clean sport in the city.

P. WEBB, Sec'y-Treas.

PUBLIC OPINION

The Times does not hold itself responsible for opinions of its correspondents.

WILL FIGHT WHITNEY.

Editor Morning Times.

Sir,—I see there is a disposition on the part of very many persons to try and punish Sir James Whitney and his government for not taking more drastic measures in regard to the bilingual schools. I am glad this matter is assuming shape, for it is notorious that these schools are continuing to flourish, notwithstanding the recent exposure. English-speaking Roman Catholics as well as Protestants are justly opposed to the teaching of French in the Public schools of Ontario, and therefore in accord with the proposal to pledge candidates for the Ontario Legislature to fight the government on this question.

This is not a case of Protestants uniting, but rather a case in which Catholics will join with Protestants in order to keep our Province from French domination.

Conservative.

MUST CONSULT THE PEOPLE.

Editor Morning Times.

Sir,—I hope the Manufacturers' Committee of the City Council will consult the people before committing themselves to any arrangement on behalf of the Otonabee Power Company. Mr. R. R. Hall, and Mr. W. G. Ferguson, are not out for their health. First of all, I think the public should know exactly what is expected, and what the city is to get in return for its efforts on behalf of this company. I am told that the two electric companies are practically one. This is proven by the fact that their rates are the same, so that there is really no competition at the present time.

Healey Falls, should, I think, be secured at once, and developed as required. We then could supply our own light, both street and domestic, the revenue from which, based on what is now being paid, would, I am informed, provide more than sufficient to pay interest and sinking fund on the cost of development. Here is a chance for Mayor Morrow to serve the people who elected him.

I think the Council should take action at once, and get an estimate of what this would cost, and submit it to the ratepayers.

Progress.

PETERBOROUGH CENTRAL FAIR.

Editor Morning Times.

Sir,—I notice that objection is taken to making a grant to the Peterborough Fall Fair by the City Council. I understand that the Council has no power to vote money for such a purpose. I should think the members would hardly make themselves personally liable, by trying to override the statutes.

Ratepayer.

Reply—Our correspondent is entirely wrong. The Times called up City Solicitor Hall, and was informed that a Council is authorized by law to make a grant to an agricultural Society, if they so desire.—Ed Times.

FIVE STEAMSHIP LINES MERGE

Have a Combined Paid-Up Capital of Six Million Dollars—21 Vessels Involved.

Cleveland, June 10.—One of the largest steamship merger in the history of Great Lakes navigation, was successfully carried out here yesterday, when five companies joined a combination which will be known as the Great Lakes Steamship Company.

The concerns involved in the transaction are the United States Transportation Company, the L. C. Smith Transit Company, the Wilkinson Transportation Company and the Standard Transportation Company, and the American Transit Company. The new concern will have a paid-up capital of $6,000,000 and a bond issue of $1,500,000 bearing interest at 6 per cent. and payable in amounts of $150,000 annually, during the next ten years. About 21 freight vessels are involved in the deal.

LARGEST FRUIT CROP OF THE PAST DECADE IN NIAGARA DISTRICT

PEACHES WILL HAVE TO BE THINNED OUT TO IMPROVE QUALITY.

Few Persons Have Any Idea of the Increase in the Fruit Acreage in the Niagara District.

St. Catharines, June 10.—(Special)—It was the tenth of June last year when the first home-grown strawberries made their appearance on the market. This year they are earlier by ten days and on Monday the St. Catharines Cold Storage and Forwarding Company will make the first carload shipment of the year to Winnipeg and the west.

The fruit season this year will be longer than for many years past because it has begun so early. Cherries will be on the market during the week and from now on there will be little let-up for the growers.

Robert Thompson, who enjoys the distinction of being the best informed man in the district, is authority for the statement that the crop this year is the largest in Niagara District for a decade. Everything, he says, is very plentiful; peaches are too plentiful and will have to be thinned out to make the crop what it should be; otherwise the fruit will be small and the growers will get less benefit. The only shortage that is so far apparent is in the Marlborough raspberries, which will be much lighter than usual, though the shortage is not general to all localities.

Few persons outside the district have any idea of the increase in the fruit acreage in this district. Hundreds and hundreds of thousands of peach trees alone have been set out during the past season and there are many orchards which are not yet producing a single peach; in another year or so these will come into bearing and the yield will be increased to a wonderful extent.

While it is a fact that the majority of the growers are so far unalterably opposed to reciprocity the land values have not been effected in the least. Sales are reported daily at prices higher than those existing at the time the treaty was first published. The tendency is to break the farms up in sections of thirty or fourty acres. Men now-a-days can make more money out of thirty acres than their fathers made out of farms of a hundred and a hundred and fifty acres. The land is better attended to and being set out almost entirely in fruit requires more looking after, so that present-day methods are to have small farms well cared for so that not a cent is lost in their care and yield.

YOUNG LAD OF THIRTEEN TORMENTED TO SUICIDE

Toronto, June 10.—Disconsolate, because he thought his schoolmates ridiculed his race, John Dai Tak, a 13-year-old Chinese lad, hung himself in the hallway over his uncle's laundry at 667 Queen street west early Saturday morning.

When his uncle went upstairs several hours after sending the boy to bed, he found him hanging by a rope taken from a tea chest, which he had passed through a stove-pipe hole over the doorway. The uncle cut the dead body down, but did not report the matter to the police until nearly three o'clock this afternoon.

The body was taken to the morgue. The Chief Coroner is investigating, but it is unlikely that an inquest will be held. The father lives in Vancouver.

STANDING OF TEAMS IN THE CHURCH FOOTBALL LEAGUE

Following is the standing of the teams in the Church League:

Club	Pl.	Wn.	Lt.	Dr.	Pts.
St. James...	9	7	2	0	14
All Saints...	8	7	1	0	14
St. John's..	9	7	1	0	12
Coldsprings.	7	3	3	1	7
Y.M.C.A. ...	9	2	6	1	5
Knox	9	1	6	2	4
Park St.	8	2	6	0	4

All Saints defeated St. James on Saturday afternoon, and the Y.M.C.A. defaulted to Knox.

Football To-night.

Coldsprings will play All Saints' to-night at Brinton Carpet Company's grounds.

St. John's will play Park street on Park street grounds—Both games will commence at 6.45.

Baseball.

Toronto lost to Buffalo on Saturday.

Rochester won from Montreal.

The Times and Examiner came together on Saturday afternoon on the Oval in a friendly game. The Examiner defeating the Times by a score of 8 to 7.

In an exciting game at Riverside Park Saturday morning, the Peterborough Collegiate Institute team turned the tables on the Campbellford High School team, defeating them 7 to 6. In spite of the rainstorm the game was fast all the way and some good plays were made.

Lacrosse.

Saturday's Games.

Toronto defeated Cornwall.

Montreal defeated Shamrocks, 5—1.

THOUSANDS HOMELESS

Earthquake Wrecked Town in Mexico —Volcano Active Again.

Guadalajara, Mexico, June 9.—The volcano Colima became active on Wednesday when the earthquake shocks were felt, and yesterday was emitting smoke and lava. The towns of Tomila and San Andres were badly damaged by the disturbances, portions of them being destroyed. A relief train has been sent to the scene from here.

Mexico City, June 9.—Despatches from Tuxpan, a few miles east of the volcano Colima in the southern part of the state of Jalisco, say the Zapolan suffered severely from the earthquakes. The number of victims is said to be large. A church and a number of houses were thrown down. Other dwelling places were rendered unsafe. Thousands of persons are homeless.

WILL PASS RECIPROCITY BY THE MIDDLE OF JULY

Washington, June 10.—"It is my personal opinion that we will have a vote on the reciprocity bill July 16 or 17," said Senator Smoot of Utah, after a talk with President Taft at the White House to-day. "The bill will pass and congress will adjourn with all business out of the way, I believe, about July 27."

Senator Smoot said that the Root amendment to the reciprocity bill would not invalidate the agreement. He declared, on the other hand, that the amendment would perfect the part, and that with the amendment attached the bill before congress was in every detail like the bill before the Canadian Parliament.

PELLATT HEAD OF FIRM TO BUILD THE CANADIAN NAVY?

London, June 9.—The formation of the British-Canadian Shipbuilding Company with a subscribed capital of $10,000,000 is announced. The company is organized to build warships and merchant vessels, and it is said it has bids in for four protected cruisers of the Bristol class and six torpedo boats destroyers, to be built by the Canadian Government.

Sir Henry Pellatt of Toronto, is chairman of the company, and other directors are Lieut-Governor Gibson of Ontario, Sir Charles Ellis, of the John Brown Company, of Clydebank, and Mr. Gracey of the Fairfield Company.

The new company's shipyards, docks, and machine shops will be at Sydney, Nova Scotia. The company will receive a yearly subsidy of $170,000 for thirty-five years from the Government.

It is stated that the company is ready to build anything from a torpedo boat to a super-Dreadnought. The Clydebank companies have agreed to send to Sydney all the technical experts needed.

COBOURG 5 PETERBORO' 17

About 200 fans accompanied the Peterborough Baseball Team to Cobourg on Saturday afternoon to witness the game with the Lakeshore nine. The Cobourg team has strengthened up some since their game here on the 24th, but at that the Pets had little trouble in bringing home the bacon. The game was loosely played, errors on both sides being frequently made. Three hits were made off Quinlan, but errors in the field and men on the sacks allowed 5 runs, while locals tapped up the Cobourg slab artist for 13 hits and got around the bases for 17 runs.

There is one medicine that every family should be provided with and especially during the summer months viz, Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers.

POLICE CLAIM POISON WAS PUT IN THEIR FOOD.

Husband and Wife Held for Alleged Murder of Wife and Husband.

Baltimore, Md., June 8.—Charged with murdering Morris Cohen and Sarah Cohen by administering poison to them in their food, Ida Cohen, wife of the dead man, and another Morris Cohen, husband of the dead woman are under arrest.

The motive for the alleged crime is thought by the detectives to have been the desire of the couple under arrest to get rid of their wife and husband in order that the attachment of the living Morris Cohen and Ida Cohen might be more favorably fostered. The living Morris Cohen is an uncle of the dead man. Both were tailors.

Samuel C. Cohen, ten years old, and son of Mrs. Sarah Cohen, died mysterious circumstances a few days before his mother, under

The Hamburg-American Steamship Company is going to build a boat eleven stories deep and containing saloons 300 feet long. On the promenade deck will be summer houses in old English rustic style for tea parties. We may expect the Cunard Line immediately to announce its intention of having a ship with a country club on the promenade deck.

The woman of to-day who has good health, good temper, good sense, bright eyes and a lovely complexion, the result of correct living and good digestion, wins the admiration of the world. If you digestion is faulty Chamberlain's Stomach and Liver Tablets will correct it. For sale by all dealers.

THE WEATHER.

Fair and a little cooler.

FOUR LOST TRYING TO SAVE GIRL

Hattiesburg, Miss., June 9.—Four persons lost their lives in a futile effort to save the life of Pearl Courtney, five year old daughter of a merchant, who had ventured out too far while wading in Bowie River. The dead are: Mrs. B. C. Turner, her two young sons, and Annie Courtney, seven year old sister of Pearl.

ED. JARDINE SHOWS FEAR

Preparing for Execution of the Death Sentence at Goderich on Friday Next.

Goderich, June 10.—Preparations for the carrying out of the death sentence of Edward Jardine next Friday are in progress at the jail. The scaffold, one of the old double-trap type, is already erected in the court yard, and a hangman has been secured by the sheriff. Fewer than half a dozen persons will witness the hanging.

Since the word from Ottawa of the final verdict of the Department of Justice Jardine is no longer carelessly indifferent to his fate, as heretofore, but is exhibiting a keen sense of his approaching doom. His mother makes frequent visits to the jail.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from loaf sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by all dealers.

Drowned by Her Dog.

Ottawa, June 9.—Mrs. Robert Stevens of Aylmer yesterday tried to save her dog, which fell from the Aylmer wharf, and she herself fell in and was drowned. The woman was 40 years of age, and leaves a family of three and a husband.

ROYAL
5c 10c

SPECIAL FOR TODAY

The Royal has secured two big special Acts for to-day, Milmar & Morris and Baby Estella, Comedy Acrobats, and Chas. and Grace Von Smith, in a singing, talking, dancing and musical act. Watch for to-day's big attraction.

MOTION PICTURES.
Another change of Motion Pictures for to-night's big picture show. All the latest and best pictures produced.

FROM FAR AND NEAR

At Weblingen, Germany, a woman named Huber found the sum of £60 in an old stove which had not been used for sixteen years.

The gross rental of London's buildings is $215,000,000, while that of all the agricultural land in England and Wales is under $125,000,000.

The first cockatoo to be exhibited at the Crystal Palace was found dead in its cage recently. It belonged to Mr. E. Gammon, of Ripley, and had been in his family sixty-seven years.

M. Spiridonoff, a wealthy Moscow merchant, who was about to celebrate his golden wedding, sent out invitations engraved on thin sheets of gold, worth $25 each, instead of the usual cards.

Egypt has a desert railway which runs forty-five miles in a straight line; but the longest straight piece of railway line in the world is from Nyngan to Hogrie, in New South Wales. This railway runs 126 miles on a level in a dead straight line.

Tickle-'em-Jock, the best animal in the New York Dog Show, whose owner refused to part with him for $5,000, was for a short period on the benches of a dealer in Leadenhall Market, and could have been bought for less than a $25 bill. The dog is a brindled Aberdeen terrier.

The Philadelphia Police Force boasts the possession of a millionaire policeman. This is Mr. Edward T. Stotesbury, the well-known financier and sportsman, and a partner of Mr. Anthony Drexel. He was sworn in as a special policeman by the Chief of Police at Philadelphia, as a mark of the force's appreciation of his generous donations to the police funds.

A French invention for preventing the formation of hail is described in a bulletin issued by the International Institute of Agriculture. It takes the form of rockets, or "hail-dispelling" petards, which exploding at altitudes varying from 1,300 to 1,600 feet break up the hail clouds. Eighty firing stations have been set up for the protection of 59,000 acres of rich land at Limagne.

The 250 heirs of a man called Johann Kilp, who was born in 1719, met together at Kelkheim, in the Taunus, in curious circumstances. Their ancestors died in Holland, leaving a huge fortune to be divided amongst his heirs a hundred years after death. He directed that until that period had expired the interest on the capital should be devoted to a Dutch charity. The capital amounts to the huge sum of $40,000,000, and the claimants elected at this meeting a committee to take steps to secure the property. It is curious that, although in 1860 a hundred years had passed since the death of Johann Kilp, nobody had been at the pains to investigate the matter.

NOTICE TO CONTRACTORS.
TENDERS FOR STATION AND OTHER BUILDINGS.

SEALED TENDERS addressed to the undersigned and marked on the envelope 'Tender for Station Buildings,' will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until 12 o'clock noon of the 14th day of June, 1911, for the erection of station and other buildings required along the line of the Transcontinental Railway as set forth below:

Section 1.—From Plaster Rock in the Province of New Brunswick westward to the Quebec boundary.
Section 2.—From Mile 161.5 to Mile 194 east of Quebec bridge.
Section 3.—From Mile 5 to Mile 105 east of Quebec bridge.
Section 4.—From the Quebec bridge westward to Mile 45.
Section 5.—From Mile 56 to Mile 194 west of Quebec bridge.
Section 6.—At Cochrane in the Province of Ontario.
Section 7.—From the divisional yard at Graham, Ontario, eastward for a distance of 60 miles.
Section 8.—From Moncton to Napadogan, in the Province of New Brunswick.
Section 9.—From Mile 125.5 to Mile 159 west of Moncton.

Plans and specifications may be seen and full information obtained at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ontario, and at the following district offices:—

Section 1.—Mr. C. O. Foss, District Engineer, St. John, N.B.
Sections 2, 3 4 and 5.—Mr. A. E. Doucet, District Engineer, Quebec, P. Q.
Section 6.—Mr. A. N. Molesworth, District Engineer, North Bay, Ontario.
Section 7.—Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Tenders must be made on the forms supplied by the Commissioners and must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent (10 p. c.) of the amount of the tender.

The right is reserved to reject any or all tenders.

By order,
P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway,
Board of Offices, this 12th day of [illegible]

[illegible] Commissioners will not be [illegible]

AN INVESTMENT NOT A SPECULATION

What everybody with an ounce of common sense is on the alert for these days is a sound INVESTMENT and there is as much difference between an investment and a speculation as there is between London and Hong-Kong, although we all don't realize this.

• • • •

Consequently when one takes a chance on a speculative proposition, mistaking it as an investment and comes out of the small end of the horn, he becomes pessimistic and with the tightening of his purse strings to extremes to keep the pennies in just naturally shuts the dollars out.

• • • •

Now then if there were no investors there would be no progress, and with no progress the community would mighty soon become stagnant.

• • • •

The foundation of America, was old Christopher Columbus, he had an idea but was short on ready cash, in other words he was what us modern day folks call a promoter. His idea was feasible, he found co-operation, his plans carried and YOU KNOW THE REST.

• • • •

Like Columbus we are all Pioneers. Not out for our health, but to make money. No man ever saved more than a competence on a salary; few do that. To get a footing on "Easy Street" you have to invest. DOLLARS don't grow in your pockets or in a stocking. They must be put to work. Old Russell Sage said:

"Plant a few in a new country and see how fast they grow."

That's what we are trying to impress on you now and here is the biggest opportunity of this kind that is likely to knock at your door.

• • • •

We are the Pioneers of the fruit and vegetable canning enterprise in the Okanagan Valley and earnestly invite you to co-operate with us.

• • • •

Men at the head of affairs of this corporation are the best known and most highly esteemed gentlemen in British Columbia.

• • • •

Mr. Albert McKillop, our President, has a world wide reputation in the Timber and Timber Land World. (See R. G. Dunn).

• • • •

Mr. Wesley A. Blair, our Secretary and Treasurer, is also Cashier of the Canadian Customs, being the Government's most trusted employee. He handles on an average of $30,000.00 every commercial day of the year, and it was his fertile mind that first saw the possibilities of Canneries on the Coast, in-as-much as tens of thousands of dollars duty pass through his hands for American goods yearly. Bear in mind that there is a 2½c per pound duty on all canned stuff and RECIPROCITY or no RECIPROCITY that will stand.

• • • •

Remember we belong to no combine, have no opposition, and are pioneers in this field.

• • • •

Just think of it, The Dominion Fruit Canners cleared $400,000 last year, approximately 51 per cent. What's going to prevent the Okanagan Canners Ltd., from doing the same.

• • • •

It's a matter of record that the Kelowna district—site of our Cannery—proved positively at all the recent fruit shows that the Okanagan valley is the greatest fruit producing country in the world.

• • • •

Now, then, be up and thinking.

• • • •

We are incorporated for only $100,000.

• • • •

We are only going to let 60,000 shares out of our treasury.

• • • •

Not one of our shares has gone for promotion purposes, every share being represented by its equivalent.

• • • •

We have no salaried officials, in fact no leakages of any kind.

• • • •

A Premium of 25 per cent. will be put on this stock as soon as our cannery at Kelowna is completed, which will be at an early date, as we will handle this year's crop.

• • • •

You undoubtedly have stood silently aside and seen other opportunities vanish that your neighbor has grasped and is now realizing handsomely on and term him lucky.

• • • •

It's not luck, but JUDGMENT when opportunities like this present themselves and one takes advantage of them.

• • • •

Our land is bought and paid for, and we hold a receipt in full for our wharf for Cannery No. 1, which is completed at Kelowna.

• • • •

Although capitalized at $100,000, divided into 100,000 shares at one dollar each, we are going to offer for public subscription but 60,000 shares, and the remainder will positively stay in the treasury.

• • • •

This is a gilt-edge bona fide, conservative investment and it is not reasonable to believe will be on the market long, consequently act NOW before it is too late.

• • • •

Terms of purchasing securities are one dollar per share; 25 per cent. cash, balance, two, four and six months without interest.

HEAD OFFICE: SUITE 66-68 HUTCHINSON BLOCK

Why Speculate in Stocks or Western Land

and pay big prices in towns that have yet to grow when you can

safely invest your money in Montreal Real Estate

"THE METROPOLIS OF CANADA"

A City that has doubled its population in ten years, a City of about 600,000 people, that, increasing at its present rate will shortly have 1,000,000 inhabitants.

Why not participate in the profits arising from the wonderful development that is daily taking place in Montreal.

Remember that Montreal is the railway and shipping centre of Canada, and that its magnificent harbour is one of the best in the world, and that as the city is built on an Island, its area is limited and every inch will shortly be developed and built upon, thereby causing the price of lots to increase many hundred per cent.

[redacted]

DON'T WAIT UNTIL IT IS TOO LATE

We can offer you lots in one of the best sub-divisions in Montreal, called Angus Park Boulevard. Every lot is either facing or adjoining the beautiful 80 foot Boulevard, which extends the entire length of the property, about three miles. This Boulevard, with its cement sidewalks, shade trees, etc., will make Angus Park one of the most beautiful residential sections of Montreal.

QUICK BUYERS WILL MAKE BIG PROFITS

Lots from $100.00 upwards Easy payments, 10 per cent cash and the balance 10 per cent. every three months without interest.

LAND investments are more profitable than Savings Bank accounts. Call, or write for plans and particulars at once, as we have only a limited number of these lots to offer.

TENDERS FOR STEEL BRIDGES

Tenders (endorsed Tender), will be received by the undersigned for the steel work or superstructure of (two bridges known as Spencer's Bridge, Dummer, and Brown's Falls Bridge, Burleigh,, in the County of Peterborough, up to One O'Clock P.M.,

JUNE 19th, 1911

The lowest or any tender not necessarily accepted.

Plans and specifications may be obtained from the County Clerk or seen at the County Office, Peterborough.

ED. M. ELLIOTT,
County Clerk.
Peterborough, May 29th, 1911.

KNOWN IN EVERY HOME

Sir William Hartley of "Jam" Fame, a Great Giver

Sir William Hartley, the head of the famous jam firm, whose system of profit-sharing is proving so beneficial to his employes, started life at the age of thirteen by helping his mother in a small grocer's shop at Colne, Lancashire. In three years the business had prospered to such an extent that he urged his parents to take larger premises. At first they set their faces against this enterprise, but at last gave way, and in a surprisingly short time their son was employing a staff of about fifty men. Then he started manufacturing jam, and soon Hartley's jam became known in every home. A deeply religious man, Sir William was the first layman for forty years to be appointed President of the Primitive Methodist Connexion. He has given thousands of pounds to the funds of his denomination. A short time ago he said, "Giving away the Lord's money has been my chief hobby and recreation. I try to do it on the same systematic lines that I use in business; and, in fact, to distribute my money is a harder and more anxious task than making it."

A Reading youth who stole a bicycle offered it for sale to a stranger in the street. The stranger was a Reading detective!

THE TIMES' FINANCIAL PAGE---OF INTEREST TO THE CANADIAN INVESTOR

Cuban Grape Fruit Groves Pay
----------Enormous Dividends----------

A SAFE AND SURE
INVESTMENT

Ninety miles west of Havana lie the beautiful Manhattan Estates in the heart of Cuba's most profitable and bountiful section. We intend, with your co-operation, to develop 502 acres of this wonderful sandy soil into a prosperous and self-sustaining institution of rich agricultural products.

It requires a large amount of money to go into this business properly, and it takes considerable time for the grape-fruit trees to mature.

When they are three years old they will each bear on an average one box, which is worth not less than one dollar on the tree. The fourth year we average three boxes per tree, which means $4.00, and this continues until the seventh year, when the average from a tree amounts to between seven and twenty crates; retailing in the Canadian and American markets as high as $10 a crate.

But bear in mind that these trees in full bearing will not have cost more than five dollars each, consequently once maturity is arrived at the profits are continuous and tremendous.

As we intend planting over 40,000 grape-fruit trees, you can readily see that 100 per cent. annually is a conservative estimate.

We Pay Our Way As We Go.

During the past year I have placed many dollars' worth of stock, mostly amongst my relatives, personal friends and business acquaintances. I HAVE TOLD THEM WHAT I HERE REPEAT TO YOU, that I am giving the affairs of this company, and will continue to give them, as careful attention as if I owned the whole company, and I AGREE NOT TO RECEIVE ONE CENT OF SALARY for my services until after I have made the company pay you DIVIDENDS OF TWENTY-FIVE PER CENT. ON EVERY DOLLAR YOU INVEST WITH ME IN THIS ENTERPRISE.

When you and I receive twenty-five per cent. on our investments, I will not need a salary, and right here I want to state that we have agreed that NO SALARY SHALL BE PAID TO ANY OFFICER until at least twenty-five per cent. dividends have been earned and paid to all our stockholders.

Further—we have no bond interest to meet; we do not even have to pay any taxes until we have an income. EVERY DOLLAR RECEIVED WILL BE USED FOR THE DEVELOPMENT OF THE COMPANY'S PROPERTY.

Commercial grape-fruit orchards are wonderful wealth-producers.

I want to draw a check to your order for 100 PER CENT. DIVIDENDS EVERY YEAR, and I not only want to do it, but expect to do it.

I have thoroughly investigated the possibilities for profit in growing grape-fruit on a large scale, and have seen the actual results accomplished.

YOUR MONEY SHOULD WORK FOR YOU AS HARD AS YOU WORK FOR IT, and I am desirous for this reason that you know the grape-fruit industry as I know it, and I want you to send for our booklet de luxe, fully illustrating and describing this wonderful and prosperous industry.

(Signed) S. J. MURPHY.

STATUTORY INFORMATION

(Filed with the Provincial Secretary of Ontario)

Authorized Capital $200,000 **Shares $100.00 Each**

1. The incorporators and at this date directors are E. V. O'Sullivan, John M. Ferguson, and James E. Day (Barristers), James A. McNevin (Law Student), and Mary Donovan, Ellen Jamieson, and Amy I. Naftel (Stenographers), all of 34 Victoria street, Toronto. Any shareholder not in arrears is qualified to be a director. The by-laws provide no remuneration for acting as director except fees and traveling expenses for attending meetings. Directors may be paid for special services.

2. Each incorporator subscribed for one share, 7 in all, and by by-law of the Company 993 shares are to be issued to Sterndale J. Murphy, of Toronto, who is the vendor to the Company, under an agreement between him and it dated 4th January, 1910, for the sale of certain Cuban lands, the consideration being 993 paid-up shares, $700 cash, and the assumption of a debt of $9,000.00 on the land, payable in installments (until Nov. 15, 1912) to the Cuban Commercial Company of Havana, under contract between it and Mr. Murphy, dated 3rd December, 1909. Copies of these contracts may be inspected on any business day at the office of the Company's Solicitors, Day, Ferguson and O'Sullivan, Toronto. The preliminary expenses are incorporation and legal fees and printing, and are estimated at under $1,000. No commission has as yet been authorized on sale of stock, but the directors may authorize payment of a commission not exceeding 25 per cent.

3. To make the contract binding it has been decided to go to allotment on receipt of application for one share. Shares are offered for sale on the terms that 25 per cent. be paid on allotment, 25 per cent. three months thereafter, and balance on call of the directors, calls not to be more than 25 per cent. of the subscription, and at least three months to elapse between calls.

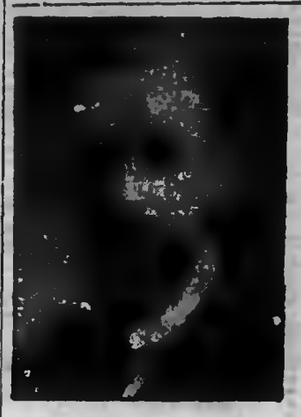
WINNIPEG C.N.R. STATION

The Fine Structure Will Be Opened in July

The new station at Winnipeg which has been constructed by the Canadian Northern Railway at a cost of $1,500,000 for joint terminal occupation with the Grand Trunk Pacific Railway and other railways desiring these facilities is almost completed. This building is on the site of old Fort Garry which was the nucleus of Winnipeg. The new structure has been a year and a half under construction, and the cost has greatly exceeded the estimates. The main building is 350 by 140 feet in area, and it is surmounted by a dome 190 feet in its greatest diameter, and 100 feet above the street level. In connection with it are eight elevated tracks with platforms of cement, each 1,650 feet long, and capable of accommodating two trains of eleven coaches each. The approaches are by covered subways to all platforms, and no person can cross the tracks.

ARE THE COLONIES ARROGANT?

Hon. George E. Foster, speaking at the Sons of England banquet, Toronto, expressed the view that the colonies are becoming too arrogant. He did not think the overseas dominions



HON. GEORGE E. FOSTER

should have the power to make international treaties. Such power would certainly tend towards selfishness. Mr. Foster said the spirit of loyalty to the Empire and the glory of the old flag must be inculcated in the minds of our youth.

HAS MADE GOOD IN CANADA WEST

Ernest Walter, Once a London Draper, is Now a Successful Farmer in Manitoba

Many reasons have been assigned for England's comparatively slow response to Canada's alluring offer of free homesteads in the great North-West, but perhaps the most potent is the idea so widely prevalent among the working classes that lack of agricultural knowledge necessarily precludes from success. Those on whom this notion has hitherto acted as a deterrent would do well to study the story of Mr. Ernest Walter, who, though now a thriving Saskatchewan farmer, formerly worked for a London draper. Mr. Walter emigrated in 1902, and, after spending what were, owing to his unfamiliarity with manual labor, a trying two months on a Quebec farm, proceeded to Manitoba. Here he secured immediate work for the harvest season, subsequently engaging with his employer for the ensuing twelve months. In the meantime he took up a homestead thirteen miles from Estevan, in the neighboring province of Saskatchewan, where with a neighbor's assistance he erected a small shack.

It was not until 1904 that he actually began farming for himself, having spent the intervening period in acquiring a small capital and increasing his experience. His first crop, though of fine quality, was practically a failure, owing to late sowing and frost. Naturally despondent at this set-back, he contemplated giving up, but further consideration convinced him of the unwisdom of abandoning the fruits of his hard work to others. He therefore put in another crop, his perseverance being ultimately rewarded by a steady improvement in his prospects. The following year he added to his capital by working for a Government road-team while his crop was growing, supplementing his earnings by hiring out for threshing jobs with his team. His crop sold for seventy cents a bushel. Later crops, however, repaid his industry with a return of ninety cents a bushel, twenty-five bushels to the acre. Mr. Walter's experience with dairy-farming shows that there are great possibilities in this branch of agriculture in Canada, especially if taken up by a man with a more expert knowledge, and better poultry and stock, than he himself possessed. His own two cows, fed simply on the prairie grass, kept in milk himself, his wife, and two others who were staying in the house, and yielded enough butter to sell in the town; while from his thirty hens he got a more than sufficient supply of eggs.

His nine years' experience of the much-dreaded Canadian winter has left him convinced that, though colder, it is to be preferred to the English variety. Although always in poor health when in England, he has never had a day's sickness since he landed in the Dominion. Life on the prairie was somewhat lonely at first, but he now prefers it to living in a city. There is always a certain amount of social life to be had, while in some towns debating societies and similar institutions provide a means of intellectual culture. Moreover, there is hardly a district without its newspaper. Failures, which are comparatively few, Mr. Walter attributes chiefly to recklessness in getting into debt—an easy thing to do in Western Canada, where credit can always be obtained by an industrious man—and improvidence in neglecting to husband the resources of good seasons to tide over the bad. The critical period, Mr. Walter states, is the first five years. If a man come through them successfully there is no reason why he should not go on. The value of his own homestead he estimates at about $5,000, exclusive of stock and implements, and this amount, of course, increases every year.

HAREM SKIRT DANCE

A New Movement Designed for the Unpopular Dress

To suit the new harem skirt, the professors of the Paris Dancing Academy have introduced a new dance from the East, which might be called the cheroot dance, from the name of an Ottoman garment. It is said to be just the thing for persons wearing harem skirts, as it will show the harmonious movements of the limbs. The scheme, we are told, may be for a single pair or for a number of couples, like any modern round dance. After the couples are taught how to step out, we see in the instructions at a certain point the following prescriptions: "Here the lady, having disengaged the lower part of her leg, makes two steps, turning round." This "graceful" movement, we are told, could not be appreciated if the wearer had on an ordinary long skirt. But the harem skirt does not seem to be making much progress. Perhaps this is reserved for the harem skirt dance.

PASSION FOR POULTRY

Madame Paderewski Has Over a Thousand Chickens and Fowl

Mme. Paderewski, wife of the famous pianist, who lives at a beautiful country seat on the border of Lake Leman, has been nominated by the French Agricole. Mme. Paderewski's passion is her poultry yard. She has over a thousand chickens and fowls of all kinds, and she has succeeded in creating some kinds of new species by cross-breeding. Her poultry are of great value, and recently she sold to an American purchaser a couple of white Orpingtons for $7,500. Paderewski's farm is stocked with several presents from Sovereigns, including a flock of English sheep given him by the late King Edward.

MR. BORDEN'S TOUR

Mr. R. L. Borden will leave for the West in July to make a political tour over the ground which the Prime Minister traversed last year. It is understood that the speakers who will accompany Mr. Borden will take to task Mr. Sifton for the way he has handled the prairie fire will be Messrs. Doherty, Chief Whip George Perley, and Mr. H. B. Ames.

THE KAISER'S SECRET DREAD

Why the German Emperor Fears Assassination—Very Apprehensive of the Number 13

What does the future hold for me? What is to be my fate? These vital questions agitate the minds of most of us, more or less. And, judging by the revelations of the writer of "Recollections of a Society Clairvoyant," no people are more superstitious in regard to signs and portents, and their relation to the future, than Royalty. Many of them attach great importance to dreams. The Czarina, the Emperor of Austria, and the Kaiser, for instance, insist that dreams have furnished them with premonitions of various misfortunes which have overtaken them.

The Emperor of Austria has peculiar forebodings of eminent disaster, and for some months before the assassination of the Empress Elizabeth at Geneva in 1898 he was a victim to ominous presentiments, and frequently exclaimed, "Oh! if this year were but at an end." The Empress was a fatalist. "What is to be will be," she once said. "It has been predicted that I and my two sisters will all meet with violent deaths. Personally, I do not dread a sudden death." And curiously enough, after the assassination of the Empress, her sister, the Duchess D'Alencon, met her death in the terrible bazaar fire in Paris, while the ex-Queen Sophia of Naples, the third sister, anticipates meeting as violent a death as that of her two sisters.

The Black Bird and White Lady

It is a curious fact that for some days before the Empress was murdered, and on the day of her death, a large black raven was observed constantly flying near her bedroom window at the hotel where she was staying. And it is a tradition of the Austrian Royal Family that a black bird and a white lady always foretell death. It is also said that when a member of the reigning house of Germany is about to die, the white lady—supposed to be the spirit of the Countess Agnes Orlamunde, who murdered her first husband and her two children, as they constituted an obstacle to her marriage with one of the ancestors of the Kaiser—always appears.

The white lady appeared to Frederick the Great on the eve of his death, and in 1806 she came to Prince Frederick of Prussia before his death at the Battle of Saalfeld. A number of officers also saw her, the Prince being at the time in their company.

The present Kaiser is firmly convinced that he will die by the hand of an assassin. This has been predicted to him several times—twice as a young man by Hungarian gipsies when he was visiting his friend the late Crown Prince of Austria, at Galicia; and it is said that this conviction forms a constant topic of conversation between the Emperor and his friends.

The Kaiser and No. 13

Like the late King Edward VII., the German Emperor is also very apprehensive of the number 13 in connection with any entertainment, and more than once a subaltern on duty at the Palace has been commanded at moment's notice to join the Imperial party to avoid thirteen being at table.

Many members of European royal families consulted the writer of "Recollections of a Society Clairvoyant," amongst them being the late King Leopold, Queen Nathalie of Servia, and King Humbert of Italy. "I did not feel," says the author concerning King Humbert, "that I could tell him what I saw. It was shortly before his assassination, and I did my best to warn him against perils on a journey. He expressed himself very pleased with some private information which I gave him, but laughed at my warnings, and told me that he would 'wait and see.'

Then a few years ago he was consulted by a pretty, fair-haired girl, who was accompanied by an elderly lady. "When I read her crystal," he says, "I could see a brilliant marriage in store for her, but I could also see that her wedding day would be a day of sudden death for *others*. I told her this, and also that her home would be far away from England, among strangers in race and religion. I was talking about her to a lady who is persona grata at Court, and she remarked enigmatically that the Princess Ena had always been a little unconventional. 'But,' she added, 'I don't say that your client was the Queen of Spain.'"

NEW ZEALAND SHEEP

The Depredations of a Parrot About the Size of a Pigeon

A correspondent of the Edinburgh Scotsman gives an interesting account of the supposed origin and depredations of the New Zealand Mountain Kea, or parrot, a bird about the size of a pigeon, which infests the barren wastes above the snow line. Originally a vegetarian, and insectivorous, it is believed to have acquired the taste for mutton and sheep's blood by alighting on their backs and hunting with its beak for ticks and grubs. Curiosity and hunger were the stimulating motives of the bird, resulting in the backs of the sheep being torn to pieces down to the kidneys and other organs. What was destroying the sheep was a mystery till about 1868 or 1869, when a shepherd discovered that the new foe of the flock was the Kea, on the head of which a long price has since been set, and he is now hunted as a profession.

BOGUS BANK BILLS

Counterfeit bills of the Bank of Montreal of the denomination of five dollars are somewhere in circulation to the amount of about $5,000. Notice to this effect was sent out by the bank to the principal commercial establishments. It would appear from the warning that the counterfeits are of the number 229,707.

FINANCIAL TIMES ON CANADA

The Financial Times, London, England, says: "Canada, despite all that is said by the enthusiastic agents, is not, in the opinion of shrewd observers, really desirous of receiving British emigrants except those of the laboring classes, but is willing to absorb all the surplus capital this country is able to spare."

Deadly Consumption Starts from Catarrh

Thousands Think Catarrh is Cold, Neglect It and Die.

Last year forty per cent. of all the deaths were from consumption. These people all had catarrh in the first place, but neglected it.

Can't you realize the awful horrible mistake of not curing catarrh now?

To thoroughly root out all taints of Catarrh, nothing can act so beneficially as "Catarrhozone," which is acknowledged by all doctors to be a specific for all forms of Catarrh, Asthma, Bronchitis, throat, nose and chest ailments.

The reasons why Catarrhozone cures when other treatments fail are very simple. In the first place Catarrhozone reaches the true source of the disease. Very few, if any, of the ordinary cures can do this. Catarrhozone is carried along with the air you breathe through the mouth, throat and bronchial tubes. Its antiseptic vapor at once kills any germs that may be lurking in these air passages. No matter how remote these germs may be they can't possibly escape Catarrhozone; it goes everywhere the air you breath goes, and no air cell or air passage can escape its healing influence. The strong point about Catarrhozone is its ability to go direct to the spot where the catarrh germ is working. Every breath through the inhaler means instant death to the microbes, and gives the sufferer relief from the gnawing, destructive action of these parasites. It must be remembered, also, that Catarrhozone is a marvelous healer. It soothes the inflamed membranes, patches up the little sore spots, and removes the sensitive, tender feeling from the nose and throat. Of course, the discharge of mucus stops at once, Catarrhozone prevents this entirely.

Another nasty symptom that quickly disappears is the dropping of vile discharge from the throat into the stomach. Catarrhozone clears out the nostrils so that you don't have to breathe through the mouth. Hawking and spitting stop because the discharge is cleared up. The blinding headache that is caused by nothing else than catarrh is also lifted from your burden, and life begins to look happy once more.

Complete treatment including beautifully polished hard rubber inhaler, and extra supply of liquid, costs $1.00 and is guaranteed to cure or your money back. Smaller sizes 25c and 50c, at all druggists, or by mail from The Catarrhozone Company, Kingston, Ont.

SETTLERS AND GAME

Important Decision by Judge Hewson, Manitoulin Island

A decision of very considerable importance to the residents of Northern and North-Western Ontario has been given by Judge Hewson, of Manitoulin Island. A settler named John Minney was fined by the magistrate $30 and costs for hunting during open season without a license. He appealed and the judge quashed the conviction.

In the course of his judgement Judge Hewson recites the particulars of the case. The defendant went to the unorganized district of Manitoulin in 1876 and settled upon land in the township of Gordon as a farmer. While still working his farm he went to reside at Gore Bay and became clerk of the municipality. The Judge held that, although Gore Bay was established as a town with municipal institutions by a special act of Legislature, the defendant was still a settler.

INDIGENT STUDENTS

A Large Summer Hotel Seeks to Employ Them as Waiters

Much comment has been aroused in University circles in England and on the Continent by a notice which has been posted up in the university hall by the Academical Society, Buda Pest, for assisting indigent students. The notice in question is an advertisement by the proprietress of a large summer hotel offering a salary of $40 a month each to a number of students who would undertake to act as waiters at the establishment during the holidays. Several young men obtained the posts, but the university authorities, after reconsidering the matter, came to the conclusion that a waiter's calling is altogether out of keeping with a university course. An address on the subject is therefore to be given by the dean of the university, who will attempt to dissuade the students from an undertaking which he cannot, however, prohibit.

CANADIAN MONEY

There are millions of good Canadian money invested in Mexico, Brazil and Central America that could, to the general advantage of the country, be better invested at home. Recent happenings in these Latin-American countries should prove an object lesson to our capitalists that for safe and profitable investment of their money there is no occasion to seek foreign fields where life and dividends are both uncertain.—Monetary Times.

SAYS FARMS DO NOT WEAR OUT

American Writer Advises Man Who Wants More Results to Sharpen Cultivator and Use Muscle

If any man thinks his farm is worn out, let him swap his team that weighs eight hundred each for one that weighs fourteen hundred each and plow his land two or three inches deeper than it has ever been plowed, put on cultivator shovels and work the soil that the soil is thirty-six inches deep and that the land is new. Every man has been cropped day and [illegible] is the word that yet, so a New York farming editor. There is land in the town of Paris that will produce more now than it would fifty years ago and could be made to double what it now yields.

I dug a well on my farm, says the writing farmer, that was thirty-five feet deep, and some of the soil that I took out of the bottom raised the largest herdsgrass heads that I ever saw. I feel sorry for some of these old, worn-out farmers that have farmed all their lives and have reduced the ir muscle and courage so much, and who hold forth such an idea of "worn out" land to the young farmer. Young men want all the courage they can get. If a young man buys a farm and is told it is half worn out and is given the idea that in a few years it will be all worn out, what courage can he have in working the farm at all. A boy that is brought up on a farm has a good muscle, good health, and is generally fitted for a long life. There is no on more independent than a farmer, and there never has been a better time for a young man to buy a farm and pay for it than there has been during the last five years. If they are putting it off for better times I think it is a mistake. They give you a farm if you will pay them two-thirds of what the buildings cost, and good land at that.

Young man, jump in, do not be afraid that the land is worn out. That idea was started by a man that had the blues. Strawberries are 98 per cent. water, so that the 95 per cent. of the two per cent. would be a small tax on the land.

I do not suppose there is any nourishment in land plaster, but I have seen marked effects from its use on grass and other crops in dry weather. I always put it on potatoes when I planted them. It retains moisture and draws nourishment from the atmosphere. No doubt there are some phosphates that supply the soil with some quality that it lacks and brings good results, but if I was paying for a farm I would save the phosphate money to pay my interest and take my chances on good cultivation.

I would advise all young men who intend to farm it to remember that the two words "good cultivation" are the most important words to the young farmer. Young man, why not start in and go to farming and take in this 95 per cent. of the crop that is floating in the air? It is easy to catch; a good, well-tilled farm is the best trap in the world. A fine, well-tilled soil is drinking it in when you are in bed and asleep. Poor Richard said that God helped those who helped themselves.

WOLVES AND BIG GAME

Increasing in the Mountains of Manitoba as Well as in Ontario

As in Ontario, so likewise in Manitoba, the wolves are said to be increasing in numbers, and a writer who has had recent experience in the Riding Mountains reserve in that Province reports as follows:

It is stated by those who know that the wolves are increasing in the mountains, the comparatively small pack which used to range in the neighborhood of Lake Audy, and in the valleys of Ranch Creek, having increased rapidly until it now numbers something over twenty-five, a band of eighteen having been seen recently. The rail-mouthed, nerve-shaking music of the pack can be heard on the clear moonlight nights, and that they play havoc, not only with the calves, but with the fuller-grown elk, is evident from an incident in the early part of the season.

Two men were ranging the woods in the neighborhood of a gully one day, when a full-grown elk crashed through the bushes in panic-stricken flight, and vanished in the heavy timber beyond. A few moments later, one of the hunters, chancing to look in the direction from which the animal had appeared, beheld a huge black head, with fearless eyes and heavy jaws, staring at him through the bushes. It vanished as silently as it had appeared. The man followed to the gully.

As he waited for a few minutes, there suddenly rose from the opposite side of the hollow the heavy, shattering howl of a timber wolf, which was answered almost immediately by another further up. Then, as he watched, there came forth from the brush which fringed the gully, three great brutes, two black and the other grey, and they commenced to nose along the brow of the hill. Finally coming upon the track of the deer, which they followed, coming on down the gully, one behind the other, toward the waiting man. When they were within fifty yards of him, he let drive, and the foremost fell kicking in the snow, the others coming on fearlessly for a few yards, and then ducking into the under-brush. The fallen animal, which had a broken back and which was attempting silently to trail himself up the side of the gully with his front legs, was speedily put out of his misery, and no more was seen of the others.

SHOT A BEAR

Morrison's Good Aim While Riding on a Moose's Back

A man named Morrison who resides near Oyster River, N.B., declares that he shot a bear which was riding on the back of a moose. Whether the bear had deliberately attacked the moose, slipped from a tree by accident as the moose was passing underneath or adopted that method of crossing the river, the sportsman was unable to say, but he declares he shot the animal as the moose was carrying him across country as though recently emerged from the waters of the river. One shot was sufficient to kill the bear and the moose thus released made off at a record speed.

Ray Harroun, driving a Marmon car, won the 500-mile race in six hours 41 minutes 8 seconds; Mulford (Lozier) was second, and Bruce Brown (Flat) third.

GROWING

THE VILLAGE OF YESTERDAY THE TOWN OF TO-DAY THE CITY OF TO-MORROW

WATCH WELLAND GROW

The Canadian Pittsburg. The Great Steel City.

WELLAND is to-day Canada's Greatest Manufacturing Town. will be to-morrow Canada's Greatest Manufacturing City.

THE STORY IN FIGURES:—Population, 1906 had 1,700; 1911 has 6,500; 1912 should be 12,000; 1915 should be 15,000. Factories, 1906 had 1; 1911 has 25; 1915 should have 40.

No.	NAME	Estimated Cost of Plant and Invested	Estimated Employees
	American industries who have built Canadian plants in Welland in the last four years:		
1	Canadian Billings & Spencer Co., Ltd.	$ 150,000 00	100
2	Quality Beds, Limited	50,000 00	50
3	Supreme Heating Company	100,000 00	75
4	Canada Forge Company	100,000 00	75
5	Robertson Machinery Company	25,000 00	25
6	Plymouth Condage Company	1,000,000 00	450
7	Ontario Iron and Steel Company	600,000 00	500
8	Page-Hersey Iron and Lead Company	400,000 00	250
9	Electro Metals, Limited	150,000 00	125
10	Dain Manufacturing Company	150,000 00	125
11	Rail Joint Company of Canada	25,000 00	40
12	Builders' Lumber and Supply Company	25,000 00	35
13	Hamilton Tube Company	25,000 00	25
14	Chipman Holton Knitting Company	50,000 00	200
15	H. S. Peters Company	25,000 00	125

THIS YEAR

WELLAND NEEDS 5,000 MEN

WELLAND NEEDS 2,000 HOUSES

Common Sense

If you have money to invest why not invest it in real estate in a fast growing town? Why not pick a town with a good Past, Present and Future?

LIST OF PLANTS TO BE BUILT IN WELLAND.

(1) MONTREAL STEEL COMPANY — Construction of blast furnace and improvements to plant purchased from Ontario Iron and Steel Company, to cost over $1,250,000; expected to employ about ..... 1,000 men
(2) PAGE-HERSEY COMPANY—Construction of entire plant; expected to employ about ..... 300 men
(3) BEAMISS BAG COMPANY—Construction of entire plant; expected to employ over ..... 1,000 men
(4) JOHN DEERE COMPANY—Construction of entire plant; expected to employ over ..... 2,500 men
(5) AUTOMATIC TRANSPORTATION COMPANY — Construction of entire plant; expected to employ over ..... 100 men
(6) UNITED MOTORS, LIMITED—Construction of entire plant; expected to employ over ..... 100 men
(7) CHEMICAL LABORATORIES, LIMITED — Construction of entire plant; expected to employ over... 100 men
(8) (NAME WITHHELD FOR THE PRESENT)—Splendid and substantial industry.
(9) Arrangements completed, but not yet ready for publication, for still another large one.

WHY ALL THIS WONDERFUL GROWTH?

Because Welland has seven railroads. Because Welland has the Welland Canal. Because Welland has the cheapest electric power in Canada ($12 per h.p.). Because Welland has the cheapest natural gas in Canada (30c per thousand).

The record of Welland's growth in the past four years exceeds anything Ontario has ever known. Gratifying as this may be to those interested in Welland, it is still more gratifying to realize that of all the good years the year of 1911 is to be the greatest in the history of this town.

TO INVESTORS

We are placing on the market a few choice lots in the workingmen's residential sub-division of Welland South, close to the Union Station and the largest plants.

Every lot is within easy walking distance of the large factories, such as the Steel Plant and the Smelter.

The property has fresh water on one side of it and the river for drainage on the other side.

All lots are high, dry and level, and exchangeable within 90 days for any unsold lot of the same price, or money allowed on one of a higher price.

We believe every lot will double in value this year.

We Are Now Selling at the Following Prices:

A few lots at $ 85 per lot, $25 down and $10 per month for 6 months.
A few lots at 100 per lot, 25 down and 10 per month for 7½ months.
A few lots at 125 per lot, 25 down and 10 per month for 10 months.
A few lots at 150 per lot, 25 down and 10 per month for 12½ months.
A few lots at 200 per lot, 25 down and 10 per month for 17½ months.

—Size 25 x 120— A discount of 5 per cent. will be allowed for cash in full.

No Interest. No Taxes Until 1912. Free Deed in Case of Death.

Opportunity knocks once at every man's door. It is knocking now at yours. If you want to make a Safe, Sure, Real Estate Investment, where you can Double Your Money in a short time, send your

Deeds issued by a Trust Company.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Breakwater at Bare Point, Port Arthur, Ont." will be received at this office until 4 p. m., Wednesday, July 5, 1911, for the construction of a Breakwater at Bare Point, Port Arthur, Electoral District of Thunder Bay and Rainy River, Ont.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department, and at the offices of E. B. Temple, Esq., District Engineer, Port Arthur, Ont.; J. G. Bing, Esq., District Engineer, Confederation Life Building, Toronto; H. J. Lamb, Esq., District Engineer, London, Ont.; and J. L. Michaud, Esq., District Engineer, Merchants' Bank Building, St. James St., Montreal, Que.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Tenders are asked for two modes of construction, and each contractor must bond in with his tender an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the higher of the bids, which cheque will be forfeited if the contractor decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, June 2, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

JUDICIAL NOTICE

TO THE CREDITORS OF

THE CENTRAL MILLING CO.

OF PETERBOROUGH, LIMITED.

PURSUANT to the Winding-up Order made by the High Court of Justice in the matter of the Ontario companies Act and Amendments thereto, and in the matter of the Central Milling Company of Peterborough, Limited, bearing date the fourth day of May, 1911.

The Creditors of the above named Company and all others who have claims against the said Company formerly carrying on business in the City of Peterborough, in the County of Peterborough, are on or before the 15th day of June, 1911, to send by post, prepaid to W. R. Morris, Liquidator, of the said Company, at his office, 375 Water Street, Peterborough, their Christian and Surnames, addresses and descriptions, the full particulars of their claims and the nature and amount of the securities (if any) held by them and the specified value of such securities verified by oath and in default thereof they will be excluded from the benefits of the said Act and Winding-up Order.

The undersigned Master at Peterborough, of the High Court of Justice will on the 16th day of June, 1911, at eleven o'clock, in the forenoon, at His Chambers in the Court House, in the City of Peterborough, hear the report of the Liquidator upon the claims of the creditors submitted to him pursuant to this notice and let all parties then attend.

Dated this 15th day of May, 1911.

E. C. S. HUYCKE,
Local Master at Peterborough.

HALL, HAYES & HALL,
116 Hunter St., Peterborough,
Solicitors for Liquidator.

James Anderson was elected president of the Canadian Street Railway Association, in session at Windsor.

Fire at Lowelville, Ohio, destroyed 22 buildings, made 200 homeless and caused $60,000 damage.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Enter by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect house worth $300.00.

As Harroun drove up to the Marmon pit he was surrounded by a wildly enthusiastic crowd, cheering him and trying to grasp his hands. He ran his car into the infield, and stopped for the benefit of the photographers.

NOTICE TO CONTRACTORS.

Tenders for Car Shops at Transcona, near Winnipeg, Man.

SEALED TENDERS, addressed to the undersigned, and marked on the envelope "Tender for Shops" will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa until 12 o'clock noon, of the 11th day of July, 1911, for the construction and erection complete, in accordance with the plans and specifications of the Commissioners, of shops east of Winnipeg.

Plans, details and specifications may be seen at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ont., and Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied by the Commissioners, which may be had on application to Mr. W. J. Press, Mechanical Engineer, Ottawa, Ont.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway for the sum of one hundred thousand dollars ($100,000).

The cheque deposited by the party whose tender is accepted will be deposited to the credit of the Receiver General of Canada as security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders.

By order,
P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.

Dated at Ottawa June 2, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

AND CANALS.

ONTARIO—ST. LAWRENCE CANALS.—RAPIDE PLAT CANAL.

SEALED TENDERS, addressed to the undersigned and endorsed, "Tender for Improving Lower Extreme to Lock No. 24," will be received at this office until 16 o'clock, on Friday, June 9th.

Plans, Specifications, and Form of Contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Resident Engineer of the Ontario—St. Lawrence Canals, Cornwall, at which places form of tender may be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labour, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered, unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of $9,000.00 made payable to the order of the Minister of Railways and Canals must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, May 19th, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

HARDISTY

Is the Busiest Divisional Point Outside of the Large Cities in the West

The Town of Hardisty is expending $15,000 in Cement walks alone this year. The Residential Streets are all being boulevarded, making it the most enchanting City in the West.

A large Public Park has already been reserved, beautifully located, running to the shore of a beautiful lake, which abounds with different kinds of fish. Several small lakes are in close proximity to Hardisty, which is bound to make it one of the finest summer and health resorts in the West. Within six miles from Hardisty is the famous Buffalo Park, which is a source of wonder and delight, containing the largest herd of Buffalo now in captivity. Hardisty has a typical sunny Alberta climate, conductive to the production of every kind of wild fruit and berries which grow in abundance all along the shores of Battle river and lakes.

This is Hardisty's new C. P. R. Station, the largest and best equipped outside the large cities.

A few of the C. P. R. Sidings at Hardisty.

C. P. R. Round House and Stalls at Hardisty.

HARDISTY already has 25 miles of side tracks, having a capacity of 1,000 cars, with an auxiliary yard having a capacity for 500 more, which will be doubled this year to cope with the immense traffic. The C. P. R. has already expended at Hardisty over $300,000 in Round Houses and Machine Shops. 8 more Stalls are being added this year to accommodate the increasing business of the company.

HARDISTY ASSURES ONE OF THE BEST PROFIT MAKING INVESTMENTS IN THE WEST.

As can readily be seen on the map, Hardisty is the centre of the great Transcontinental traffic, the shortest route by 300 miles from Winnipeg to the great west. Hardisty is a splendid freight distributing point with direct connection with Calgary, Edmonton, Saskatoon, Moose Jaw, and Winnipeg. Hardisty is the key to the last Great West, and the open door through which passes Alberta's great products of grain, timber, live stock and minerals.

The C. P. R. employs seventeen train crews, running to and from Hardisty daily, besides those employed in connection with the Round Houses, Machine Shops, Stores, Coal Shutes, etc.

Hardisty has the beautiful Battle River running past its door, affording no end of sport for the huntsman and fisherman, also assuring excellent sites for manufacturing concerns, and at the same time supplying the town with water if needed.

Hardisty has large General Stores, Hotels, Churches, Banks, Hardware Stores, Wholesale and Retail Butcher Shops, Lumber Yards, Implement Shops, Livery Barns, Large Schools, Hospital and Printing Offices.

Hardisty's surroundings are the best for mixed farming in the west, being three weeks earlier than the general run of places.

One of the Handsome Residences in Hardisty.

NOTICE

The first Sale of these lots known as the HARDISTY SUB-DIVISION, will take place on Tuesday, June 13th, at the office of

FAMOUS DRIVERS OF LOCOMOTIVES

Ferdinand of Bulgaria Recently Drove an Express from Abbeville to Paris

Miss Ethel Roosevelt, the daughter of the ex-President of the United States, is among the very few ladies who have actually not only ridden in the cab of a locomotive, but who have driven it at express speed. She had, it appears, whilst travelling upon the Atlanta and West Point Railway, tried unsuccessfully to get her mother's permission to go on the locomotive, and finally, at a station on the way, she left the private coach and reached the driver's cab by climbing over the top of the coal on the tender. She then drove the engine for thirty-six miles. The speed maintained was sixty-five miles an hour, and the testimony of the engine-driver was that Miss Roosevelt had managed everything as well as he could have done it himself.

Many American millionaires, and especially those who have made their millions by controlling railways, manage to make the great trunk lines serve their pleasure as well as their profit. In fact, they use the locomotive of the train as if it were a private motor-car. They have private trains of their own, fitted up as luxuriously as our own or any European Royal train, and they and their guests career across the country from New York to San Francisco, or anywhere else that fancy dictates, and stop whenever and wherever they please. Needless to say, th cuisine on board the train is that of a first-class hotel. This kind of luxurious travelling house-party often continues for weeks together. Both the Railway King and his male and, occasionally, his lady guests, will join the driver on the foot-plate, and all the Vanderbilts, Mr. George Gould, and Dr. Edward Webb, who are fond of this recreation, are expert engine-drivers.

Although the Duke of Saragossa is very wealthy, and owns large estates in Spain, he prefers the life of an engine-driver in the service of a French railway. When dressed in the rough garb of a driver there is nothing about him to indicate that he was not born to the business, except, perhaps, his white linen collar and his smartly-cut boots. He qualified five years ago, and since then he has been employed on several railways in Spain and France. The Duke of Saragossa is very popular with his comrades on the railway, and he is the only engine-driver in France who smokes gold-tipped cigarettes.

Several European royalties are deeply interested in engine-driving. The King of Spain, for instance, used to take every possible opportunity of getting upon the foot-plate with the driver of any train he might be travelling with. Probably, now that he is a married man with family responsibilities, he may not indulge in this propensity so often, although he is quite expert and absolutely fearless, and has often driven his mother and sisters on the railway. Ferdinand of Bulgaria is another Royal engine-driver, and some time ago actually drove the express from Abbeville to Paris.

CABBIES' NICKNAMES

Some Amusing "Make Ups" to Describe the Cabmen

"Order, gentlemen, please, while 'Diddy' gives us his song," and the chairman of the cabbies' "harmonic," known on the ranks as "Jim the Butcher," banged on the table with a fair-sized mallet, as "Diddy" began his vocal effort. The convivial concert was being held by the cabdrivers for the benefit of one of the most deserving of their number, Mr. Brett, better known as "Gulliford's Chicken," who had met with certain misfortunes, the chairman being supported during the evening by such well-known cabbies as "Tricky Tom," "The New Boy," "Little Fish," "Squib," "Hoppy at Locks," "Waddles," "Mike the Burglar," and St. Anne's Midget."

These were the nicknames bestowed upon them by fellow-drivers, and in no class of men does there exist such a varied and unique collection of nicknames as those associated with the cabdrivers of London. And the most curious feature of this concert was that the nicknames mentioned, together with many others, such as "Punch Peter," "All On Board," "Yallop," "Old Chicken," "Steaks," "King of Pimlico," "Young Spot," "Young Rabbit," "Truthful Ginger," "Ecclesiastical Jack," and a host of others, were all on the programme.

These nicknames usually arise from some peculiarity of the driver himself. For instance, one veteran known on the rank as "Chaffy" used to cut chaff before he took out a cab, and this becoming known he was promptly termed "Chaffy." They, again, the story went round concerning one driver that when he was courting a servant girl she asked him to knock softly when he called, so that the "missus" should not hear him, and he was promptly dubbed "Knock Softly."

THE ENGLISH DREADNOUGHT

Mrs. Stubb:—"John, what do you think of the English Dreadnoughts?"

Mr. Stubb:—"Battleships or Suffragettes, Maria?"

ELECTRIC MOUSETRAP

The latest from America is an electric mousetrap. It is connected with the usual lighting installation, and as soon as the mouse touches a copper plate in the trap the current passes through its body.

MUST HAVE FELT SHEEPISH

The Londoner who stole a leg of [illegible] from a Metropolitan butcher's [illegible] and then allowed himself to be [illegible] by a constable rejoicing in the [illegible] of Mutton must surely have felt sheepish.

BEAVER IN THE WEST

A strange animal has been attracting the wonder of residents along the banks of the Assiniboine river in the vicinity of Armstrong's Point. The animal is thickly furred, and some [illegible] surrounded the movements of the visitor. A young man decided to [illegible] in interviewing its peculiar manner, and procured a gun, went out and shot a beaver recently, and on [illegible] its carcass, preparing to [illegible] it, found it to be [illegible] in length. On [illegible] point, he was surprised to find that he had killed a beaver.

G.P.R. PROGRESS

The Remarkable Development of Railroading Since 1881

If you look at an old map of Canada as it was some seventy years ago, you begin to realise what railways have done for the Dominion. Even forty years ago Winnipeg, as a city, did not exist—it was only a trading station, known as Fort Garry. Now, owing to the fact that the C.P.R. touched it in its track from the Atlantic to the Pacific, it is a great city with handsome public buildings and an estimated population of some 200,000. Where yesterday there was silence, broken only by wandering Indians and voyageurs, and by the buffalo and other wild animals, to-day there are busy cities and towns growing in size and importance every year. And it is the great railways of Canada that have worked this marvellous change.

The builders of the Canadian Pacific Railway were far-seeing, and they believed in the future of Canada. Now their faith and their pluck to undertaking to level up the Atlantic and Pacific coasts have been rewarded. As time has rolled on and Canada has grown into a prosperous nation, cause and effect seem to have become a little confused. While it is true to say of the C.P.R. that it is still helping to build up Canada, it is also true to say that the growth and progress of Canada are now doing much for the railway. Also, while no one would deny that the present position of the Canadian Pacific Railway is, of course, dependent to a great extent on the prosperity of Canada, it must also be remembered that the foundation of that prosperity was practically laid by the Canadian Pacific Railway.

The railway, which was incorporated in 1881, opened its main trans-continental line for traffic in 1886. In 1882 its gross earnings were $3,464,780 and the number of its locomotives 146. These figures had, by 1892, increased to $19,791,086 and 549 locomotives. In the next decade the increase was even greater, the figures being $32,503,050 and 765 locomotives. The latest report of the Company shows that for the year ending June 30, 1910, the gross earnings of the railway amounted to $94,969,490, and the number of locomotives had reached a total of 1,536. The Canadian Pacific Railway has gone on growing year by year, until the system extends over some 15,000 miles, the greatest mileage operated by one railway enterprise on the continent of North America.

SKIN-GRAFTING

May Be of Much Value to the Scientific World

Through the successful outcome of an operation performed upon Anna Windt, 18 years old, the surgeons of the Samaritan Hospital at Philadelphia have made a discovery which may be of great benefit to science in the grafting of skin. The discovery is that skin taken from the body may be kept in a healthy condition for an indefinite period without suffering harm, and may then be used to replace skin that has been burned or otherwise destroyed, and will "take hold" as well as skin cut fresh from the flesh. Twenty square inches of the right forearm of Anna Windt are now covered with skin that had been out of contact with the body for five entire days, and kept on ice during that time in order that it might be preserved. Dr. Wayne Babcock, who has received much attention from the medical world during the past few days because of his invention of several new anaesthetics, made the new discovery. He tried by experiment to ascertain whether the theory he had held was true, and the trial more than satisfied him of the correctness of his belief.

FUTURE FARMERS

A National School of Agriculture for the Boys and Girls of England

A National School of Agriculture is shortly to be founded here, where boys will be trained to take positions in England or the over-seas Dominions as farmers, farm managers, and stewards, and gardeners. Girls will be taught dairy work, plain cooking and laundry work. The necessary capital has already been found, and it is the intention to secure a farm of about 100 acres near a large city, preferably London, where the work will be carried on under the tuition of qualified instructors. To commence with, about 100 pupils, boys and girls, will be specially selected from the elementary schools. No fees will be charged, either for tuition or board and lodging. For the boys a course of training similar to that given to Boy Scouts will form part of the curriculum. All the produce raised on the farm, which is to be conducted on strictly commercial lines, will be sold, and the scheme, it is hoped, will be entirely self-supporting. In cases where the value of their work exceeds the cost of maintenance wages will be paid to the pupils.

WHY A HORSE ROLLS

Mr. E. T. Daubeny, writing on this subject in "The Selborne Magazine," says: "Horses are fond of rolling on the ground, and no animal more thoroughly shakes itself than they do. After a roll they give themselves a shake or two to remove anything adhering to the coat. The habit is of much service to horses living in open plains. On being turned loose, at the end of a journey, an Arab horse rolls in the sand, which acts as blotting-paper, absorbing exudations from the body. A shake removes the sand, the coat soon dries. Cavalrymen in hot climates sometimes put sand on their horses as the simplest and quickest way of drying them."

PECULIAR EMPLOYE

The modern employer is exacting in his demands. Witness this advertisement in a London paper:—"Youth wanted, with one leg. Must have right leg off; about 18; height about 5 feet 6 inches. Active, willing. No objection to travelling.—Address, etc."

CROSSED THE BOUNDARY

In 1910 the number of persons who crossed the international boundary line to the United States was 94,496, sub-divided as follows: United States citizens, 32,023; Canadian citizens, 44,338; other aliens, 17,525. In the year ending June 30, 1910, the United States commissioner's report showed that 116,577 persons left the United States to come to Canada. Of this number 78,497 were American citizens. 16,203 were Canadians, and the balance were citizens of other countries.

CANADIAN PACIFIC

SPLENDID UPPER LAKE FLEET

Five sailings weekly from Owen Sound as follows:—

Monday—S.S. Alberta.
Tuesday—S.S. Keewatin.
Wednesday—S.S. Athabasca.
Thursday—S.S. Manitoba.
Saturday—S.S. Assiniboia.

Steamship Express connecting, leaves Toronto at 1 p. m. on above days. Leave Peterboro at 7.42 a.m.

W. McILROY, Agent, Peterboro.

KINGSTON & PEMBROKE RAILWAY

The best Route between Peterboro and Kingston

is via C.P.R., Sharbot Lake and K. & P. Ry.

Leave Peterboro at 11.26 A.M., arriving at Kingston at 3.55 P.M.

Leave Kingston at 12.01 NOON, arriving at Peterboro 4.38 P.M.
